PROPOSAL NO. 1:

AMENDMENT OF ARTICLES OF INCORPORATION

INCREASE OF AUTHORIZED SHARES OF COMPANY'S COMMON STOCK

The Shareholders holding a majority of the common stock have approved an amendment to Article 4 of the Company's Articles of Incorporation to increase the number of authorized shares of the Company's Common Stock from 50,000,000 up to 200,000,000 and to change the par value to \$.001.

The Company's Articles of Incorporation presently authorize the issuance of 20,000,000 shares of Common Stock having \$0.10 par value, of which 19,703,310 shares were outstanding at the close of business on September 27, 2004.

The Board of Directors has proposed the increase in authorized common shares to provide the Board of Directors with greater flexibility in the event the Board of Directors determines that it is in the best interest of the Company to issue additional shares to raise capital or to effect an acquisition.

Under the laws of the State of Utah, authorized, but unissued and unreserved, shares may be issued for such consideration (not less than par value) and purposes as the Board of Directors may determine without further action by the shareholders. The issuance of such additional shares may, under certain circumstances, result in the dilution of the equity or earnings per share of the existing shareholders.

Although the Board of Directors has no present intent to do so, the unissued and authorized shares of the Company could be issued as defense to an attempted takeover of the Company and may have an anti-takeover effect. Management is not aware of any effort on the part of any person to acquire control of the Company.

The additional shares of Common Stock authorized by this proposed amendment will, if and when issued, have the same rights and privileges as the shares of Common Stock currently authorized. Holders of shares of Common Stock of the Company have no preemptive rights.

**PROPOSAL NO. 2:**

AMENDMENT OF ARTICLES OF INCORPORATION

CHANGE IN PAR VALUE

The Shareholders holding a majority of the common stock have approved an amendment to Article 4 of the Company's Articles of Incorporation to change the par value from \$.10 per share to \$.001, to provide the Company with additional flexibility. Utah law requires that shares of Common Stock be issued for no less than par value. Since the last trading price for the Common Stock was less than \$.10 per share, its current par value makes equity financings impracticable.

**PROPOSAL NO. 3:**

AMENDMENT OF ARTICLES OF INCORPORATION

REVERSE STOCK SPLIT

The Shareholders holding a majority of the common stock have approved an amendment to Article 4 of the Company's Articles of Incorporation to effect a one-for-100 reverse stock split of the Common Stock. The Board of Directors believes the reverse stock split is necessary in order to bring the market price of the Common Stock to a higher level in order to attract institutional investors to the Common Stock.

**EFFECTIVE DATE**

The amendments will be filed with the Utah Secretary of State with an effective date no less than twenty days after the mailing of the Information Statement.
