TIMET AND BOEING ENTER INTO NEW SUPPLY AGREEMENT

DENVER, COLORADO . . . August 3, 2005 . . . Titanium Metals Corporation ("TIMET" or the "Company") (NYSE: TIE) announced today that it has filed a Current Report on Form 8-K with the Securities and Exchange Commission relating to its entry into a new, extended-term agreement with The Boeing Company for supply of titanium products by TIMET to Boeing for commercial aircraft production through 2010. The parties' prior supply agreement was scheduled to expire at year-end 2007. TIMET indicated that the financial impact of this new agreement was factored into the Company's outlook as presented in its Quarterly Report on Form 10-Q for the second quarter of 2005.

Commenting on the transaction, J. Landis Martin, Chairman, President and CEO of TIMET, noted, "This new agreement secures TIMET's position as a major supplier of titanium to Boeing. Since demand for commercial airplanes continues to improve, we believe this new agreement represents a significant win-win for both companies. We are very pleased to have the opportunity to further solidify the important supply chain partnership that has existed between our two companies since 1997."

The statements in this release relating to matters that are not historical facts are forward-looking statements that represent management's beliefs and assumptions based on currently available information and involve risks and uncertainties, including but not limited to, the cyclicity of the commercial aerospace industry, future global economic conditions, global productive capacity, competitive products and other risks and uncertainties included in the Company's filings with the Securities and Exchange Commission.

TIMET, headquartered in Denver, Colorado, is a leading worldwide producer of titanium metal products. Information on TIMET is available on its website at [www.timet.com](http://www.timet.com).
