Annex A

Late Filing -----

Natural Health Trends Corp. (the "Company") has yet to finalize its financial statements for the year ended December 31, 2005. Accordingly, the Company cannot file its Annual Report on Form 10-K within 90 days following its year end without unreasonable effort or expense.

Significant Change in Results of Operations -----

It is anticipated that there will be a significant change in the Company's results of operations for the year ended December 31, 2005 compared to its results of operations for the year ended December 31, 2004.

It is expected that net sales were approximately \$194.5 million for the

Edgar Filing: NATURAL HEALTH TRENDS CORP - Form NT 10-K

twelve months ended December 31, 2005 compared to \$133.2 million for the twelve months ended December 31, 2004, an increase of approximately \$61.3 million or 46.0 percent. The revenue increase for the twelve months of 2005 over a year ago was primarily due to growth in the Hong Kong-based business and the opening of the Japanese office.

The Company's increase in net sales was offset primarily by the costs of opening new markets in Mexico and Japan, increased personnel costs in Hong Kong, increased marketing in Eastern Europe by our then subsidiary, KGC Networks, Pte Ltd. ("KGC"), and higher professional fees and personnel costs in North America. As a result, the Company expects that it would have reported only nominal income from operations.

The Company recorded net income of approximately \$1.3 million for the year 2004. However, the Company anticipates reporting additional expenses in 2005 which will result in a net loss for the year. These expenses include a charge for collection uncertainty on its receivable from KGC, significant foreign exchange loss, and significant income tax expense as a result of the repatriation of foreign earnings into the United States, the taxable gain on the KGC sale in December 2005, and an increase in the current year on its deferred tax valuation allowance.
