NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

February 28, 2001

- (1) Reference is made to Note 1 of the Notes to the Consolidated Financial Statements contained in the Company's Annual Report on Form 10-KSB for the fiscal year ended May 31, 2000, for a summary of significant accounting policies utilized by the Company.
- (2) The information set forth in these statements is unaudited and may be subject to normal year-end adjustments. The information reflects all adjustments which, in the opinion of management, are necessary to present a fair statement of results of operations of Biomerica, Inc., for the periods indicated. It does not include all information and

Edgar Filing: BIOMERICA INC - Form 10QSB

footnotes necessary for a fair presentation of the consolidated financial position, results of operations, and cash flow in conformity with generally accepted accounting principles.

- (3) Consolidated results of operations for the interim periods covered by this Report may not necessarily be indicative of results of operations for the full fiscal year.
- (4) Reference is made to Note 3 of the Notes to the Consolidated Financial Statements contained in the Company's Annual Report on Form 10-KSB for the fiscal year ended May 31, 2000, for a description of the investments in affiliates and consolidated subsidiaries.
- (5) Reference is made to Notes 5 & 10 of the Notes to the Consolidated Financial Statements contained in the Company's Annual Report on Form 10-KSB for the fiscal year ended May 31, 2000, for information on commitments and contingencies.
- (6) Aggregate cost of available-for-sale securities exceeded aggregate market value by approximately \$5,295 at February 28, 2001.
- (7) Earnings Per Share

In February 1997, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards (SFAS) No. 128, EARNINGS PER SHARE ("EPS"). SFAS No. 128 requires dual presentation of basic EPS and diluted EPS on the face of all income statements issued after December 15, 1997 for all entities with complex capital structures. Basic EPS is computed as net income divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options, warrants and other convertible securities. For all periods presented, no common stock equivalents have been included in the computation of diluted earnings per share as they were determined to be anti-dilutive.

9

- (8) Please refer to Note 11 to the Notes to Consolidated Financial Statements for the Years Ended May 31, 2000 and 1999 as reported in the Form 10-KSB filed with the Securities and Exchange Commission on September 13, 2000 for information on Convertible Promissory Notes totaling \$835,000 (\$715,000 as of September 12, 2000) entered into by the ReadyScript subsidiary during the nine months ended February 28, 2001, and raised an additional \$30,000 subsequent to that date. As of February 28, 2001, \$782,000 of that debt had been converted to 1,500,175 shares of ReadyScript common stock. The Company recorded an increase to additional paid-in-capital of \$713,014 as a result of this conversion.
- (9) The following table illustrates the required disclosure of the reconciliation of the numerators and denominators of the basic and diluted EPS computations.

(11) The Company must maintain a minimum bid price and certain capitalization levels as required by the NASD Marketplace Rule 4310(c). NASDAQ advised the Company on January 3, 2001, that it was not in compliance with the minimum bid price and that the Company was being afforded a ninety-day grace period, until April 3, 2001, to remedy this deficiency. On April 4, 2001, NASDAQ advised the Company that the Company's common stock had maintained a minimum \$1.00 bid price for at least 10 consecutive trading days and therefore complies with the Rule. Accordingly, the matter is now closed.

(12) During the nine months ended February 28, 2001, the subsidiary, Lancer Orthodontics, Inc., granted options to purchase 157,000 shares of its common stock at an exercise price of \$.875 to certain employees of it, with one half vested immediately and the other half vesting one year from the date of grant. The options have a term of five years.

Edgar Filing: BIOMERICA INC - Form 10QSB

- (13) During the nine months ended February 28, 2001, the subsidiary, ReadyScript, Inc., granted options to purchase 1,574,287 shares of its common stock at an exercise price of \$.25 per share to certain employees and directors. The options vest at different times over a three year period with all options expiring five years from date of grant.

12

- (14) During the nine months ended February 28, 2001, the Company sold 114,868 shares of its common stock at a price of \$1.34 per share to various employees and outside investors. For total proceeds of \$152,512 net of offering costs of \$1,140, each investor also received one warrant for each two shares purchased. The warrants have an exercise price of \$2.00 per share with one-half vesting immediately and the other half vesting one year from date of grant. The warrants expire five years from date of grant.
- (15) During the nine months ended February 28, 2001, the Company issued 159,091 shares of its common stock for consulting services related to a subsidiary.
- (16) During the nine months ended February, 2001, the Company issued 2,083 shares of its restricted common stock in lieu of cash for a payable.
- (17) During the three months ended February 28, 2001, stock options for 103,000 shares of common stock were granted at an exercise price of \$.50 per share, with one-quarter vesting immediately and the remainder vesting one quarter per year. The options have a five-year expiration. Additionally, 20,000 shares were granted at an exercise price of \$.75 per share with one quarter vesting one year from date of grant and the remainder vesting one quarter per year. The options have a five-year expiration. Also, 50,000 shares were granted at an exercise price of \$.63 per share. The options shall have a five-year expiration and are exercisable in full on the first anniversary of the date of grant.
- (18) As of February 28, 2001, the Company had cash and available-for-sale securities in the amount of \$289,153 and working capital of \$3,182,159. Cash and working capital totaling \$237,351 and \$2,644,017, respectively, relates to the Lancer subsidiary. Of the Company's \$2,059,205 net worth, 43.7%, or \$899,478, relates to the Lancer subsidiary. Lancer's line of credit restricts Biomerica's ability to draw on Lancer's resources and, as such, said cash, working capital and equity are not available to Biomerica. The Company's nine-month losses were substantially the result of its investment in ReadyScript. The ReadyScript subsidiary was a development-stage enterprise. During the first quarter the Board of Directors of the Company decided that the ReadyScript subsidiary would no longer be funded by Biomerica, Inc. or its other subsidiaries. However, subsequent to such decision an immaterial advance was forwarded to ReadyScript as the Company decided it was in the best interest of the Company to advance further funds in order to protect the investment while outside funding or a business combination is being sought. During the third quarter and subsequent to that the ReadyScript division was in negotiations with a company to have some of its assets acquired. On March 30, 2001, ReadyScript received notice from the other party that they were terminating the proposed deal with ReadyScript. On April 4, 2001, Readyscript filed a lawsuit against the company for fraud, breach of contract, unfair competition and misappropriation of trade secrets. Due to lack of funding, further development efforts at ReadyScript have been ceased.

Edgar Filing: BIOMERICA INC - Form 10QSB

Biomerica, Inc. and its subsidiaries, with the exception of ReadyScript, are expected to fund their operations for at least the next twelve months through their existing available financing, working capital, and its shareholder \$500,000 line of credit of which \$30,000 was drawn at February 28, 2001.

13

- (19) In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities". The statement will require recognition of all derivatives as either assets or liabilities on the balance sheet at fair value. The statement is effective for the Company's fiscal year 2002, as deferred by SFAS No. 137, but early adoption is permitted. Management has completed an evaluation of the effects of this statement and does not believe that it will have a materials effect on the Company's financial statements.

In December 1999, the Securities and Exchange Commission issued Staff Accounting Bulletin ("SAB") No. 101, "Revenue Recognition in Financial Statements." The effective date of the bulletin was delayed according to SAB No. 101A and SAB No. 101B and will be effective for the Company's fourth quarter of fiscal year 2001. Management has completed an evaluation of the effects of this bulletin and does not believe that it will have a materials effect on the Company's financial statements.

RESULTS OF OPERATIONS

Consolidated net sales for Biomerica were \$6,536,541 for the nine months ended February 28, 2001 as compared to \$5,615,304 for the same period in the previous year. This represents an increase of \$921,237, or 16.4%. For the quarter then ended sales were \$2,282,809 as compared to \$1,844,976 for the same period in the prior fiscal year. This represents an increase of \$437,833, or

Edgar Filing: BIOMERICA INC - Form 10QSB

23.7%. The increases for the nine and three months were primarily attributable to sales increases at Biomerica of the EZ Detect product and to other diagnostic products, although Lancer Orthodontics also realized an increase in sales for these periods.

14

Cost of sales for the nine months decreased as a percentage of sales from 68.6% to 66.1% and for the three months increased from 72.4% to 76.4%. Most of the decrease in the nine months was due to higher sales in relation to some fixed costs and operational efficiencies. For the three months the increase was primarily attributable to the write-off of \$213,088 of a prepaid which related to one of the subsidiaries.

Selling, general and administrative costs decreased by \$904,527, or 21.1% for the nine months and by \$559,860, or 40.4% for the three months ended February 28, 2001. Lancer had decreased selling, general and administrative costs of \$86,781 for the nine months and \$21,024 for the three months due to a decrease in labor costs and commissions. The remainder of the decrease was attributable to lower expenses at the ReadyScript division.

Research and development increased by \$553,212, or 118% for the nine months and \$120,723, or 88.4% for the three months. Most of the increase was due to the research and development of the handheld point-of-care-technology at ReadyScript.

Interest expense increased by \$3,159 for the nine months and \$1,470 for the three months compared to the previous year due to the borrowings at Lancer and an increase in prime rate. Other income decreased as a result of a prior year insurance claim settlement of \$279,672 for the theft of inventory at Lancer's Mexicali facility, less \$110,000 insurance claim receivable valued at cost.

The following is a breakdown of the income or losses for the nine and three month periods by company:

LIQUIDITY AND CAPITAL RESOURCES

As of February, 2001, the Company had cash and available-for-sale securities in the amount of \$289,153 and working capital of \$3,182,159. Cash and working capital totaling \$237,351 and \$2,644,017, respectively, relates to the Lancer subsidiary. Of the Company's \$2,059,205 net worth, 43.7%, or \$899,478

relates to the Lancer subsidiary. Lancer's line of credit restricts Biomerica's ability to draw on Lancer's resources and, as such, said cash, working capital and equity are not available to Biomerica. The Company's nine-month losses were substantially the result of its investment in ReadyScript. The ReadyScript subsidiary is a development-stage enterprise. During the first quarter the Board of Directors of the Company decided that the ReadyScript subsidiary would no longer be funded by Biomerica, Inc. or its other subsidiaries. However, subsequent to such decision an immaterial advance was forwarded to ReadyScript as the Company decided it was in the best interest of the Company to advance further limited funds in order to protect the investment while outside funding or a business combination is being sought. During the third quarter and subsequent to that the ReadyScript division was in negotiations with a company to have some of its assets acquired. On March 30, 2001, ReadyScript received notice from the other party that they were terminating the proposed deal with ReadyScript. Due to lack of funding, further development efforts at ReadyScript have been ceased. Biomerica, Inc. and its subsidiaries, with the exception of ReadyScript, are expected to fund their operations for at least the next twelve months through their existing available financing, working capital, and its shareholder line of credit of which \$30,000 was drawn at February 28, 2001.

During the nine months ended February 28, 2001, the Company used cash in operations of \$1,419,382, primarily as a result of losses at the ReadyScript subsidiary. This compares to cash used in operations of \$1,914,390 in the same period in the prior fiscal year. The Company generated cash flow from financing activities of \$1,096,530 during the nine months, primarily due to \$835,000 in convertible promissory notes entered into by the ReadyScript subsidiary. The Company recorded an increase to additional paid-in capital of \$713,014 as a result of this conversion as described in the accompanying financial statements. During the nine months ended February 29, 2000, the Company generated cash flow from financing activities of \$1,937,148 as a result of the sale of common stock, net of offering costs.

During the nine months ended February 28, 2001, the Company sold 114,868 shares of its common stock at a price of \$1.34 per share to various employees and outside investors for total proceeds of \$152,512, net of offering costs of \$1,140. Each investor also received one warrant for each two shares purchased. The warrants have an exercise price of \$2.00 per share with one-half vesting immediately and the other half vesting one year from date of grant. The warrants expire five years from date of grant.

During the nine months ended February 28, 2001, the Company issued 159,091 shares of its common stock valued at \$245,625 for consulting services related to a subsidiary.

During the nine months ended February 28, 2001, the Company issued 2,083 shares of its restricted common stock in lieu of cash for a payable.

During the three months ended February 28, 2001, stock options for 103,000 shares of common stock were granted at an exercise price of \$.50 per share, with one-quarter vesting immediately and the remainder vesting one quarter per year. The options have a five-year expiration. Additionally, 20,000 shares were granted at an exercise price of \$.75 per share with one quarter vesting one year from date of grant and the remainder vesting one quarter per year. The options have a five-year expiration. Also, 50,000 shares were granted at an exercise price of \$.63 per share. The options shall have a five-year expiration and are exercisable in full on the first anniversary of the date of grant.

Company's common stock at the price of \$.72 per share with a 50% warrant attached which is exercisable at \$1.50 per share. Subsequent to that an additional \$52,700 was raised with the same terms.

At February 28, 2001, Lancer had a \$300,000 line of credit with a bank. Borrowings are made at prime plus 1.25% (9.75% at February 28, 2001) and are limited to specified percentages of eligible accounts receivable. The unused portion available under the line of credit at February 28, 2001 was \$120,000. The line of credit expires on September 10, 2001. The line of credit is collateralized by substantially all the assets of the Lancer, including inventories, receivables, and equipment. The lending agreement for the line of credit requires, among other things, that the Lancer maintain a tangible net worth of \$2,800,000 and a debt to tangible net worth ratio of no more than 1 to 1. Lancer is not required to maintain compensating balances in connection with this borrowing arrangement. Lancer was in violation of certain of its debt covenants at February 28, 2001. A waiver has been requested but not yet received as of the date of filing.

Biomerica, Inc. entered into an agreement, in substance, for a line of credit on September 12, 2000 with a shareholder whereby the shareholder will loan to the Company, as needed, up to \$500,000 for working capital needs. The line of credit bears interest at 8%, is secured by Biomerica accounts receivable and inventory and expires September 12, 2001. Biomerica and the shareholder are in the process of formalizing this line of credit. As of February, 2001, \$30,000 had been drawn on that line of credit.
