reference into this Item 1.01.

### 2005-TFC SECURITIZATION

On December 20, 2005, the registrant, Consumer Portfolio Services, Inc. ("CPS"), and its wholly owned subsidiary Canyon Receivables Corp. ("Canyon") entered into a series of agreements under which Canyon purchased from CPS, and sold to CPS Auto Receivables Trust 2005-TFC, a Delaware statutory trust (the "2005-TFC Trust") approximately \$83.5 million of subprime automotive receivables (the "2005-TFC Receivables").

### 2005-D SECURITIZATION

On December 22, 2005, CPS and its wholly owned subsidiary CPS Receivables Corp. ("Receivables Corp") entered into a series of agreements under which Receivables Corp purchased from CPS, and sold to CPS Auto Receivables Trust 2005-D, a Delaware statutory trust (the "2005-D Trust") approximately \$87.0 million of subprime automotive receivables (the "Initial 2005-D Receivables"). Receivables Corp also committed to purchase and to sell to the 2005-D Trust, and CPS committed to sell to Receivables Corp, an additional \$58.0 million of similar automotive receivables (the "Subsequent 2005-D Receivables").

CPS disclaims any implication that the agreements relating to such transactions are other than agreements entered into in the ordinary course of CPS's business.

ITEM 2.03. CREATION OF A DIRECT FINANCIAL OBLIGATION OR AN OBLIGATION UNDER AN OFF-BALANCE SHEET ARRANGEMENT OF A REGISTRANT.

### 2005-TFC SECURITIZATION

CPS, Canyon, the 2005-TFC Trust and others on December 20, 2005 entered into a series of agreements that, among other things, created long-term obligations that are material to CPS, Canyon and the 2005-TFC Trust. Under these agreements (i) CPS sold the 2005-TFC Receivables to Canyon, (ii) Canyon sold the 2005-TFC Receivables to the 2005-TFC Trust, (iii) the 2005-TFC Trust pledged the 2005-TFC Receivables to Wells Fargo Bank, N.A. ("Wells"), as indenture trustee for benefit of the holders of the 2005-TFC Notes (as defined below), and for benefit of the 2005-TFC Insurer (as defined below), (iv) the 2005-TFC Trust issued and sold \$72.525 million of asset-backed notes, (such notes, the "2005-TFC Notes"), (v) an insurance company, Assured Guaranty Corp. (the "2005-TFC Insurer"), issued a policy (the "2005-TFC Policy") guaranteeing payment of principal and interest on the 2005-TFC Notes, and (vi) a cash deposit (the "2005-TFC Reserve Account") in the amount of 6.00% of the aggregate balance of the 2005-TFC Receivables was pledged for the benefit of the 2005-TFC Insurer.

Security for the repayment of the 2005-TFC Notes consists of the 2005-TFC Receivables and the rights to payments relating to such receivables. The 2005-TFC Receivables were originated or purchased primarily by CPS or by The Finance Company (a subsidiary of CPS since its acquisition in May 2003), and, to a lesser extent, by Mercury Finance Company LLC (a subsidiary of CPS since its acquisition in March 2002). CPS will act as the servicer of the 2005-TFC Receivables. Credit enhancement for the 2005-TFC Notes consists of over-collateralization, the 2005-TFC Reserve Account, and the 2005-TFC Policy, which guarantees the obligations of the 2005-TFC Trust to pay interest on, and repay the principal balance of, the 2005-TFC Notes. Wells will act as collateral agent and trustee on behalf of the secured parties, and is the backup servicer.

The 2005-TFC Notes are obligations only of the 2005-TFC Trust, and not of Canyon nor of CPS. Nevertheless, the 2005-TFC Notes are properly treated as long-term debt obligations of CPS. The sale and issuance of the 2005-TFC Notes, treated as

## Edgar Filing: CONSUMER PORTFOLIO SERVICES INC - Form 8-K

secured financings for accounting and tax purposes, are treated as sales for all other purposes, including legal and bankruptcy purposes. None of the assets of the 2005-TFC Trust or Canyon are available to pay other creditors of CPS or its affiliates.

The 2005-TFC Trust holds a fixed pool of amortizing assets. The 2005-TFC Trust is obligated to pay principal and interest on the 2005-TFC Notes on a monthly basis. Interest is payable at fixed rates on the outstanding principal balance of the 2005-TFC Notes, and principal is payable by reference to the aggregate principal balance of the 2005-TFC Receivables (adjusted for chargeoffs and prepayments, among other things) and agreed required over-collateralization.

At such time as the aggregate outstanding principal balance of the 2005-TFC Receivables is less than 10% of the initial aggregate balance of \$83.5 million, CPS will have the option to purchase the 2005-TFC Trust estate at fair market value, provided that such purchase price is sufficient to cause the 2005-TFC Notes to be redeemed and paid in full, and to cause other obligations of the 2005-TFC Trust to be met.

If an event of default were to occur under the agreements, the 2005-TFC Insurer would have the right to accelerate the maturity of the 2005-TFC Notes, and the required amount of the 2005-TFC Reserve Account would increase to an amount equal to the outstanding aggregate principal balance of the 2005-TFC Notes. Such increase would have the effect of redirecting to the 2005-TFC Reserve Account the cash proceeds of the 2005-TFC Receivables that otherwise would be released to Canyon, until such time, if any, as the 2005-TFC Reserve Account reached the increased required level. Events of default include pool performance ratios, in addition to such events as failure to make required payments on the 2005-TFC Notes, breaches of warranties, representations or covenants under any of the agreements or specified bankruptcy-related events. In addition, if the 2005-TFC Receivables (pledged as security for the 2005-TFC Notes) were to experience net loss ratios, delinquency ratios, or default rates that are higher than specified levels, the existence of such a "trigger event" would also increase the 2005-TFC Reserve Account requirements, though to a lesser extent, which would also have the effect of redirecting to the 2005-TFC Reserve Account certain cash proceeds of the 2005-TFC Receivables that otherwise would be released to Canyon.

### 2005-D SECURITIZATION

CPS, Receivables Corp, the 2005-D Trust and others on December 22, 2005 entered into a series of agreements that, among other things, created long-term obligations that are material to CPS, Receivables Corp and the 2005-D Trust. Under these agreements (i) CPS sold the Initial 2005-D Receivables to Receivables Corp, and committed to sell the Subsequent 2005-D Receivables to Receivables Corp not later than January 31, 2006, (ii) Receivables Corp sold the Initial 2005-D Receivables to the 2005-D Trust, and committed to sell the Subsequent 2005-D Receivables to the 2005-D Trust, (iii) the 2005-D Trust pledged the Initial Receivables, and committed to pledge the Subsequent 2005-D Receivables, to Wells, as indenture trustee for benefit of the holders of the 2005-D Notes (as defined below), and for benefit of the 2005-D Insurer (as defined below), (iv) the 2005-D Trust issued and sold \$127.6 million of asset-backed Notes, in two classes (such Notes collectively, the "2005-D Notes"), (v) a portion of the proceeds from the sale of the 2005-D Notes was pledged to the 2005-D Trustee for benefit of the holders of the 2005-D Notes, to be used to fund the purchase price of the Subsequent 2005-D Receivables, (vi) an insurance company, Financial Security Assurance Inc. (the "2005-D Insurer"), issued a policy (the "2005-D Policy") guaranteeing payment of principal and interest on the 2005-D Notes, and (vii) a cash deposit (the "2005-D Reserve Account") in the amount of 3.00% of the aggregate balance of the Initial 2005-D Receivables was pledged for the benefit of the 2005-D Insurer.

## Edgar Filing: CONSUMER PORTFOLIO SERVICES INC - Form 8-K

Security for the repayment of the 2005-D Notes consists of the Initial 2005-D Receivables and, when and if sold, the Subsequent 2005-D Receivables (together, the "2005-D Receivables"), and the rights to payments relating to such receivables. The 2005-D Receivables were originated or purchased by CPS and CPS will act as the servicer of the 2005-D Receivables. Credit enhancement for the 2005-D Notes consists of over-collateralization, the 2005-D Reserve Account, and the 2005-D Policy, which guarantees the obligations of the 2005-D Trust to pay interest on, and repay the principal balance of, the 2005-D Notes. Wells will act as collateral agent and trustee on behalf of the secured parties, and is the backup servicer.

The 2005-D Notes are obligations only of the 2005-D Trust, and not of Receivables Corp nor of CPS. Nevertheless, the 2005-D Notes are properly treated as long-term debt obligations of CPS. The sale and issuance of the 2005-D Notes, treated as secured financings for accounting and tax purposes, are treated as sales for all other purposes, including legal and bankruptcy purposes. None of the assets of the 2005-D Trust or Receivables Corp are available to pay other creditors of CPS or its affiliates.

Upon completion of the anticipated January 2006 sale of the Subsequent 2005-D Receivables to the 2005-D Trust, the 2005-D Trust will hold a fixed pool of amortizing assets. The 2005-D Trust is obligated to pay principal and interest on the 2005-D Notes on a monthly basis. Interest is payable at fixed rates on the outstanding principal balance of each of the two classes of the 2005-D Notes, and principal is payable by reference to the aggregate principal balance of the 2005-D Receivables (adjusted for chargeoffs and prepayments, among other things) and agreed required over-collateralization.

At such time as the aggregate outstanding principal balance of the 2005-D Receivables is less than 10% of the initial aggregate balance of \$145.0 million, CPS will have the option to purchase the 2005-D Trust estate at fair market value, provided that such purchase price is sufficient to cause the 2005-D Notes to be redeemed and paid in full, and to cause other obligations of the 2005-D Trust to be met.

If an event of default were to occur under the agreements, the 2005-D Insurer would have the right to accelerate the maturity of the 2005-D Notes, and the required amount of the 2005-D Reserve Account would increase to an amount equal to the outstanding aggregate principal balance of the 2005-D Notes. Such increase would have the effect of redirecting to the 2005-D Reserve Account the cash proceeds of the 2005-D Receivables that otherwise would be released to Receivables Corp, until such time, if any, as the 2005-D Reserve Account reached the increased required level. Events of default include pool performance ratios, in addition to such events as failure to make required payments on the 2005-D Notes, breaches of warranties, representations or covenants under any of the agreements or specified bankruptcy-related events. In addition, if the 2005-D Receivables (pledged as security for the 2005-D Notes) were to experience net loss ratios, delinquency ratios, or default rates that are higher than specified levels, the existence of such a "trigger event" would also increase the Reserve Account requirements, though to a lesser extent, which would also have the effect of redirecting to the 2005-D Reserve Account certain cash proceeds of the Receivables that otherwise would be released to Receivables Corp.
