PROXY STATEMENT

The accompanying proxy is solicited by the Board of Directors (the Board) of Univest Corporation of Pennsylvania (the Corporation or Univest), 14 North Main Street, P.O. Box 197, Souderton, Pennsylvania 18964, for use at the Annual Meeting of Shareholders to be held April 21, 2015, and at any adjournment thereof. Copies of this Proxy Statement and proxies to vote the Common Stock are being sent to the shareholders on or about March 13, 2015. Any shareholder executing a proxy may revoke it at any time by giving written notice to the Secretary of the Corporation before it is voted. Some of the officers of the Corporation or employees of Univest Bank and Trust Co. (the Bank) and other subsidiary companies or employees of Broadridge, Inc., the Corporation's transfer agent, may solicit proxies personally and by telephone, if deemed necessary. The Corporation will bear the cost of solicitation and will reimburse brokers or other persons holding shares of the Corporation's voting stock in their names, or in the names of their nominees, for reasonable expense in forwarding proxy cards and proxy statements to beneficial owners of such stock.

The person named in the proxy will vote in accordance with the instructions of the shareholder executing the proxy, or in the absence of any such instruction, for or against on each matter in accordance with the recommendations of the Board set forth in the proxy.

Univest's Board of Directors recommends a vote:

1. FOR the election of five Class I Directors each for a three-year term expiring in 2018 and until their successors are elected and qualified.
2. FOR the ratification of KPMG LLP as our independent registered public accounting firm for 2015.
3. FOR the approval of, on an advisory basis, the compensation of our named executive officers as presented in this Proxy Statement .
4. FOR the amendment to the articles of incorporation to add a provision authorizing the issuance of uncertificated shares.

The Board has fixed the close of business on February 20, 2015, as the record date for the determination of shareholders entitled to notice and to vote at the Annual Meeting. As of January 31, 2015, there were 20,063,973 outstanding shares of Common Stock entitled to be voted at the Annual Meeting.

Holders of record of the Corporation's Common Stock on February 20, 2015 will be entitled to one vote per share on all business of the meeting. The nominees for election as Class I Directors who receive the highest number of votes cast, in person or by proxy, at the meeting will be elected as Class I Directors. Shareholders cannot cumulate votes for the election of Directors. The other matters of business listed in this proxy, except the proposed amendment to the articles of incorporation, will be decided by the affirmative vote of a majority of all votes cast, in person and by proxy, at the meeting. Approval of the proposed amendment to the articles of incorporation requires the affirmative vote of the holders of a majority of the shares of the Corporation issued, outstanding and entitled to vote.

The presence in person or by proxy of the holders of a majority of the outstanding shares of Common Stock will constitute a quorum for the transaction of business at the meeting. If you are the beneficial owner of shares held in the name of a broker, trustee or other nominee and do not provide that broker, trustee or other nominee with voting instructions, your shares may constitute "broker non-votes." Generally, broker non-votes occur on a matter when a broker is not permitted to vote on that matter without instructions from the beneficial owner and instructions are not given. These matters include the election of Directors, the advisory vote regarding executive compensation, and the amendment to the articles of incorporation. Abstentions and broker non-votes will be counted as shares present at the meeting for the purpose of determining the existence of a quorum, but will not be counted as votes for or against the election of any nominee for director or with respect to any other proposal brought before the meeting.

As of February 6, 2015, Univest Bank and Trust Co. held 928,307 shares or 4.6% of the Corporation's outstanding Common Stock in various trust accounts in a fiduciary capacity in its Trust Department. No one trust account has 5% or more of the Corporation's Common Stock.

A copy of the Annual Report to Shareholders, including financial statements for the year ended December 31, 2014, was mailed on March 13, 2015 to each shareholder of record as of February 20, 2015. The Annual Report is not a part of the proxy soliciting material.

Officers, Directors and greater than ten percent shareholders are required by SEC regulations to furnish the Corporation with copies of all Section 16 (a) forms they file.

To the Corporation's knowledge, based solely on a review of the copies of such reports furnished to the Corporation and written representations that no other reports were required during the fiscal year ended December 31, 2014, all Section 16 (a) reports by its Officers and Directors were timely filed.

Our Board of Directors determined that all directors, with the exception of Mr. Aichele, Mr. Goldstein, Mr. Moyer and Mr. Schweitzer, are independent within the meaning of the listing standards of the NASDAQ Stock Market and SEC regulations. The Board has determined that a lending relationship resulting from a loan made by the Bank to a director would not affect the determination of independence if the loan complies with Regulation O under the federal banking laws. The Board also determined that maintaining with the Bank a deposit, savings or similar account by a director or any of the director's affiliates would not affect the determination of independence if the account is maintained on the same terms and conditions as those available to similarly situated customers. There are no family relationships among our directors or executive officers.

Mr. Morral has served as a member of the Board since 2002. Mr. Morral is a certified public accountant and has experience in the public accounting field as a former partner at Arthur Young and Co. The Board re-approved the Audit Committee Charter in February 2015. At the January 2015 meeting of the Audit Committee, the Committee re-approved the Audit and Non-Audit Services Pre-Approval Policy. Ratification of the Appointment of Independent Registered Public Accounting Firm

The audit committee of our board has appointed KPMG LLP as our independent registered public accounting firm for 2015. KPMG LLP was first engaged as our independent registered public accounting firm in 2004 and has audited our financial statements for 2014.

Although shareholder ratification of the appointment of KPMG LLP as our independent registered public accounting firm is not required by our bylaws or otherwise, our board has decided to afford our shareholders the opportunity to express their opinions on the matter of our independent registered public accounting firm. Even if the selection is ratified, the audit committee at its discretion may select a different independent registered public accounting firm at any time if it determines that such a change would be in the best interests of the Corporation and our shareholders. If our shareholders do not ratify the appointment, the audit committee will take that fact into consideration, together with such other facts as it deems relevant, in determining its next selection of an independent registered public accounting firm.

A representative from KPMG, as independent registered public accounting firm for the current fiscal year, is expected to be present at the Annual Meeting and will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

The principal objective of the Corporation is to maximize shareholder value through the development and enhancement of the Corporation's business operations. To further that objective, the Corporation's executive compensation program is designed to:

Attract and retain employees in leadership positions in the Corporation by recognizing the importance of these individuals in carrying out the Corporation's Mission Statement, Core Values and Vision Statement: "To be the best integrated financial solutions provider in the market." These key statements are critical in keeping us focused on our short-term and long-term goals for the success of the Corporation.

Support strategic performance objectives through the use of compensation programs. The goal of the executive compensation program is to provide the executive with a total compensation package competitive with the market and industry in which the Corporation operates, and to promote the long-term goals, stability and performance of the Corporation. By doing this, we will align the interests of management with those of our shareholders.

- Support the Corporation's management development and succession plans.
- Create a mutuality of interest between executive officers and shareholders through compensation structures that share the rewards and risks of strategic decision-making.
- Require executives to acquire substantial levels of ownership of the Corporation's stock in order to better align the executives' interests with those of the shareholders' through a variety of plans.
- Ensure, to the extent possible, that compensation has been and will continue to be tax deductible.

Executive Compensation provides for laddered payouts based on actual results compared to Target and by Officer Category as detailed in the table below. Category 1 is the CEO of the Corporation; Category 2 is the President and CEO of the Bank; Category 3 is the President, Corporate Banking, of the Bank and any Senior Executive Vice President of the Corporation and/or the Bank; and Category 4 is any Executive Vice President of the Corporation or Bank.

An executive's total incentive compensation is composed of three primary components: base salary, annual incentive compensation, and long-term incentive compensation. Each component is based on individual and group performance factors, which are measured objectively and subjectively by the Compensation Committee. Although there are no formal guidelines with respect to the amount of each named executive officer's compensation that is in the form of base salary, annual incentive compensation and long-term incentive compensation, in general the compensation program results in the approximate following payouts:

	Base Salary	Annual Incentive Compensation	Long-Term Incentive Compensation	Total Compensation
Category 1	50.0%	25.0%	25.0%	100.0%
Category 2	50.0%	20.0%	30.0%	100.0%
Category 3	50.0%	20.0%	30.0%	100.0%
Category 4	65.0%	15.0%	20.0%	100.0%

Edgar Filing: UNIVEST CORP OF PENNSYLVANIA - Form PRE 14A

As a result of the annual incentive paid for 2014 being below target, the actual payout of total compensation to the named executive officers for 2014, consisting of base salary, annual incentive compensation and long-term incentive stock option and restricted stock grants, differed only slightly from the table above and was as follows:

	Base Salary	Annual Incentive Compensation	Long-Term Incentive Compensation	Total Compensation
Category 1	52.3%	24.5%	23.2%	100.0%
Category 2	54.7%	20.6%	24.7%	100.0%
Category 3	59.0%	17.4%	23.6%	100.0%
Category 4	66.2 - 69.4%	15.5 - 16.3%	14.2 - 18.3%	100.0%

Payouts under the Annual Incentive Compensation plan are generally made in cash, although they may be made in stock, and long-term incentive compensation awards are normally in the form of restricted stock and/or stock options.

BASE SALARY COMPENSATION

The Compensation Committee's approach is to offer competitive salaries in comparison with market practices. The Committee annually examines market compensation levels and trends observed in the labor market. For its purposes, the Compensation Committee has defined the labor markets as the pool of executives who are currently employed in similar positions in companies with similar asset size and scope of operation, with special emphasis placed on salaries paid by companies that constitute the banking industry. Market information is used as a frame of reference for annual salary adjustments and starting salaries.

The Compensation Committee makes salary decisions in a structured annual review. The Compensation Committee considers decision-making responsibilities, experience, work performance and achievement of key goals, and team-building skills of each position as the most important measurement factors in its annual reviews. To help quantify these measures, the committee has enlisted the assistance of an independent compensation consultant. Base salaries are determined by considering the experience and responsibilities of the individual executive officer with a target of paying at the median (50%) level of our peer group adjusted for overall performance of the individual executive. Base salaries are adjusted annually and are in effect for the period January 1 through December 31.

During 2014, the Corporation engaged Mosteller & Associates to accumulate comparative data on the Corporation's peer group which the Compensation Committee utilized in adjusting the base salary of its executive group. The Corporation's peer group, eighteen (18) institutions of similar asset size and regional location, consists of: Arrow Financial Corp.; Berkshire Hills Bancorp, Inc.; Bryn Mawr Bank Corporation; Camden National Corporation; Chemung Financial Corporation; Financial Institutions, Inc.; First Defiance Financial Corp.; Independent Bank Corp.; Park National Corporation; Peoples Bancorp, Inc.; S&T Bancorp, Inc.; Sandy Spring Bancorp, Inc.; Tompkins Financial Corporation; TowneBank; TrustCo Bank, NY; Union First Market Bankshares Corporation; Washington Trust Bancorp, Inc.; and WSFS Financial Corporation.

In November 2014, the Compensation Committee met and reviewed the performance of the named executive officers with the Chief Executive Officer to determine increases in base salary compensation for 2015. The Committee also met in executive session without the Chief Executive Officer to discuss his base salary for 2015. Increases in base salary compensation for 2015 were based on individual performance and the selected peer group compensation review along with market analysis, which provides a broader view of compensation practices than the more limited peer group represented by the proxy study performed by the Corporation's independent compensation consultants.

Below outlines the increases in base salary compensation for 2015 approved by the Compensation Committee:

Executive	2015 Base Salary	2014 Base Salary	% Increase	
Jeffrey M. Schweitzer	\$ 510,000	\$ 450,000	13.33	%
K. Leon Moyer ⁽¹⁾	N/A	335,000	N/A

⁽¹⁾ Mr. Moyer retired as an employee of the Corporation and of the Bank effective January 1, 2015.

The increase for Mr. Schweitzer was determined based on merit, along with the goal of getting Mr. Schweitzer's base salary to the median (50%) level over a three-year period as a result of his promotion to chief executive officer on January 1, 2014. The increases for the other named executive officers are due to merit along with each individual assuming additional responsibilities as a result of Mr. Moyer's retirement.

Compensation for group life insurance premiums, hospitalization and medical plans, and other personal benefits are provided to all full-time employees and part-time employees averaging a certain number of hours and do not discriminate in favor of officers of the Corporation or its subsidiaries.

ANNUAL INCENTIVES

Univest established a non-equity annual incentive plan to reward executive officers for achieving annual financial objectives. The weighted financial measures and related targets for the plan are set in the preceding fiscal year by the Compensation Committee. The annual incentive program consists primarily of cash bonuses paid for: 1) individual performance to reinforce the critical focus

of our executive officers on certain annual objectives that have significant impact on our long-term performance strategy; and 2) meeting annual Corporation performance goals (annual net income, efficiency ratio, return on average assets, or other annual performance targets as set by the Compensation Committee). An executive may receive up to 50% of their annual incentive bonus in shares of the Corporation's stock, which the Corporation will match with a restricted stock grant. The restricted stock grant will vest ratably over a five-year period. The purpose of this deferral option is to further align the executive's interests with those of the shareholders, promote retention and keep the executive focused on the long-term viability, performance and stability of the Corporation.

For the year-ended December 31, 2014, based on the projected performance goals, the Threshold was set at a 40% payout, the Target was established at a 100% payout and Optimum was established at a 150% payout; if the projected performance goals are less than the established threshold amounts, there is no payout. For example, if the incentive reward is established at 50% of the executive's annual base salary: the Threshold payout would be 40% of that incentive or 20%; the Target payout would be 100% of that incentive or 50%; and the Optimum payout would be 150% of that incentive or 75%. Understanding that actual results will not equal the Target, Threshold or Optimum goals exactly, the payout under the Annual Incentive Compensation plan will be interpolated based on actual results compared to Threshold, Target and Optimum. Performance above Optimum will be interpolated using one-half the rate of increase used for Target to Optimum.

The Annual Incentive Compensation plan provides for ladderred payouts based on actual results compared to Target and by Officer Category as detailed in the table below:

	Threshold	Target	Optimum
Category 1	20.0%	50.0%	75.0%
Category 2	16.0%	40.0%	60.0%
Category 3	14.0%	35.0%	52.5%
Category 4	10.0%	25.0%	37.5%

Note: Above percentages are a percent of base salary.

The payout under the Annual Incentive Compensation plan will occur during February of each year for which a payout is made. The payout for all named executives except Mr. Jackson is based 25% on the performance of the individual and their contribution to the Corporation in the particular year and 75% on the achievement of Corporation performance targets for the year. Each individual performance metric will have a None, Threshold, Target and Optimum component. Mr. Jackson's Annual Incentive Compensation plan is based 50% on the achievement of the Corporation's performance targets for the year (equally weighted) and 50% based on achievement of the pre-tax income goal for the Bank's Corporate Banking business. Similar to the Corporation's financial targets, the Corporate Banking goals have a Threshold, Target and Optimum component

The Corporate performance metrics measured in 2014 each had a 33.3% weighting and were comprised as follows:

- Net Income
- Return on average assets
- Efficiency ratio

Recognizing that unforeseen events in the economy could have an impact on yearly performance of the Corporation, but still result in the Corporation, through focused and disciplined management, exceeding the performance of its Select Peer Group, as determined by the Board of Directors, which consists of all publicly traded Mid-Atlantic (defined as Pennsylvania, New York, New Jersey, Delaware, Maryland and the District of Columbia) banks, thrifts and savings institutions between \$1 billion and \$5 billion in total assets, the Annual Incentive Compensation Plan also has a Peer Performance Lever. The Compensation Committee has the discretion to pay out at the Threshold level, even if the Corporation's performance does not meet Threshold levels, if the Corporation's performance exceeds 50%

of the Select Peer Group performance with respect to Return on Average Assets. Additionally, the Compensation Committee has the discretion to pay out at the Target level, even if the Corporation's performance does not meet Target levels, if the Corporation's performance exceeds 80% of the Select Peer Group performance with respect to Return on Average Assets. Finally, the Compensation Committee has the discretion to not pay out the Annual Incentive Compensation if the Corporation's performance does not exceed 40% of the Select Peer Group performance with respect to Return on Average Assets.

The Corporation's financial targets set by the Compensation Committee for 2014 for the Annual Incentive Compensation component of executive compensation were as follows:

Performance Metric	Threshold	Target (Plan)	Optimum
Net Income (000's)	\$18,810	\$23,513	\$28,216
Return on Average Assets	0.82%	1.03%	1.24%
Efficiency Ratio	68.25%	65.75%	63.25%

In January 2015, the Compensation Committee reviewed the Corporation's performance compared to the targets established for 2014. Univest recorded net income, adjusted for one-time acquisition costs, of \$23.2 million, which was between the Threshold and Target levels; return on average assets (adjusted for one-time acquisitions costs) of 1.05%, which was between the Target and Optimum levels; and an efficiency ratio (adjusted for one-time acquisitions costs and the income statement impact of the Girard Partners and Sterner Insurance acquisitions) of 66.87%, which was between the Threshold and Target levels. Corporate Banking's pre-tax income came in between the Threshold and Target levels. As a result, an aggregate cash bonus was paid to the named executive officers of the Corporation for 2014 at 92.32% of the targeted payout level.

LONG-TERM INCENTIVES

Stock-Based Compensation

The long-term incentive program consists primarily of stock options and restricted stock grants, which are granted based on the Corporation's performance compared to its selected peers with respect to certain financial measures. The purpose of the program is to align management's interests with those of our shareholders, promote employee retention and also to ensure management's focus on the long-term stability and performance of the Corporation. The Corporation's target is to pay out incentive compensation, both short-term and long-term, at the median (50%) level of our peer group.

At the Annual Meeting in 2003, the shareholders approved the Univest 2003 Long-Term Incentive Plan; at the Annual Meeting in 2008, the shareholders approved the Amended and Restated Univest 2003 Long-term Incentive Plan. The 2003 Long-Term Incentive Plan expired in April 2013. At the Annual Meeting in 2013, the shareholders approved the Univest 2013 Long-Term Incentive Plan. The purpose of the plan is to enable employees and non-employee directors of the Corporation to: (i) own shares of stock in the Corporation, (ii) participate in the shareholder value which has been created, (iii) have a mutuality of interest with other shareholders and (iv) enable the Corporation to attract, retain and motivate key employees of particular merit. Participation in the 2013 Long-Term Incentive Plan is determined by the Compensation Committee. The plan authorizes the Committee to grant both stock and/or cash-based awards through incentive and non-qualified stock options, stock appreciation rights, restricted stock, and/or long-term performance awards to participants. With respect to these grants, 2,000,000 shares were initially set aside for these long-term incentives. The number of shares of common stock available for issuance under the plan is subject to adjustment, as described in the plan. This includes, in the event of any merger, reorganization, consolidation, recapitalization, stock dividend, or other change in corporate structure affecting the stock, substitution or adjustment shall be made in the aggregate number of shares reserved for issuance under the plan, in the number and option price of shares subject to outstanding options granted under the plan and in the number and price of shares subject to other awards, as described in the plan. As a result of the acquisition and merger of Valley Green Bank into Univest Bank and Trust Co., 473,483 additional shares are now available for distribution under the 2013 Long-Term Incentive Plan. At the time of an award grant, the Committee will determine the type of award to be made and the specific conditions upon which an award will be granted (i.e. term, vesting, performance criteria, etc.).

Upon a change in control: any stock appreciation rights outstanding for at least six months and any stock options awarded which have been held for at least six months shall become fully vested and exercisable; restrictions applicable to any restricted stock award shall lapse and such shares shall be deemed fully vested; the value of all outstanding stock options, stock appreciation rights and restricted stock awards shall be cashed out on the basis of their fair market value; and any outstanding long-term performance awards shall be vested and paid out based on the prorated target results for the performance periods in question.

Long-term incentive compensation consists of a combination of stock options and performance-based restricted stock. The granting of options is anticipated to occur annually, at the discretion of the Compensation Committee, on January 31 and is not contingent on the achievement of annual targets described under Annual Incentive Compensation. The number of options to be granted each year will be determined by the Compensation Committee.

On January 31, 2015, the Compensation Committee approved the granting of stock options to the following named executives:

Executive	Stock Options Granted	
Jeffrey M. Schweitzer	9,000	shares
Duane J. Brobst	4,500	shares
Philip C. Jackson	4,500	shares
Michael S. Keim	4,500	shares

Performance-based restricted stock grants are anticipated to be granted each year on January 31 based on the Top Quintile performance as detailed in the chart below. The performance-based restricted stock will vest on February 15th after three years of performance (i.e. restricted stock granted on January 31, 2015 will vest on February 15, 2018) based on the Corporation's performance compared to its Select Peer Group with respect to three-year average Return on Average Assets.

	Top Quintile 80% - 100%	2nd Quintile 60% - 80%	3rd Quintile 40% - 60%
Category 1	7,500	5,000	2,500
Category 2	5,625	3,750	1,875
Category 3	3,750	2,500	1,250
Category 4	2,250	1,500	750

On January 31, 2015, the Compensation Committee approved the granting of performance-based restricted stock to the following named executives:

Executive	Shares of Restricted Shares Granted	
Jeffrey M. Schweitzer	7,500	shares
Duane J. Brobst	3,750	shares
Philip C. Jackson	3,750	shares
Michael S. Keim	3,750	shares

Post-Retirement Plans

Univest provides a qualified pension plan to all employees hired prior to December 7, 2009, and non-qualified pension plans for certain executive officers. The Defined Benefit Pension Plan (DBPP) is a nondiscriminatory retirement plan which qualifies under the Internal Revenue Code. The DBPP is a noncontributory defined benefit retirement plan covering substantially all employees of the Corporation and its wholly owned subsidiaries. To be eligible for the DBPP, employees must complete one year of service (defined as working more than 1,000 hours) and attain age 21. The DBPP is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The DBPP is administered by a Pension Committee appointed by the Board of Directors of the Corporation. The Pension Committee has appointed Univest Bank and Trust Co., a wholly owned subsidiary of the Corporation, as trustee of the DBPP. Employer contributions are based on amounts required to be funded under the provisions of ERISA. No contributions are required or permitted by the participants. Entrance into the DBPP was frozen to new entrants as of December 7, 2009.

On June 24, 2009, the Compensation Committee of the Board of Directors of the Corporation resolved that effective December 31, 2009, the benefits under the DBPP, in its current form, would be frozen and the current plan would be amended and converted to a cash balance plan under which employees would continue to receive future benefits in accordance with the provisions of the cash balance plan.

The normal retirement date is the first day of the month in which the participant's 65th birthday occurs and he/she has completed five years of credited service. Prior to December 31, 2009, the normal annual retirement benefit amount accrued was 1.5% of average earnings for each year of credited service up to 20 years plus 0.5% of average earnings for each year of credited service in excess of 20, plus 0.25% of average earnings in excess of the average Social Security wage base for each year of credited service up to 35 years.

Benefits under the cash balance plan are credited to the employees' account based on the following formula:

Years of Service	Annual Benefit Credited
0 - 10	3% of salary
11- 20	5% of salary
21 +	7% of salary

Additionally, annually the employees' accounts are credited with a guaranteed return of the ten year Treasury note rate plus 1% not to exceed the 30 year Treasury note rate. To not penalize long-term employees of the Corporation, for employees over the age of 55 with over 20 years of service on December 31, 2009, the annual retirement benefit is guaranteed to be the higher of the benefit attributable to the formula under the DBBP or the new cash benefit account. Each participant who has at least 10 years of service and who has attained age 55 may elect to retire early within the 10-year period immediately prior to the participant's normal retirement age. These participants who elect and qualify for early retirement are considered fully vested by the DBPP. Prior to the cash balance plan conversion, the early retirement benefit was based on credited service and average earnings at the early retirement date without reduction on the date when the participant's age plus years of service equal 85, but not before age 62 or after age 65. Benefits are reduced from that retirement date by 1/15th per year for the first five years and 1/30th per year thereafter to age 55. Participants were not vested in the benefits accrued up to December 31, 2009 until they completed five years of service, at which time they become fully vested in the benefits accrued up to December 31, 2009 in the DBPP. Participants are not vested in the benefits accrued after December 31, 2009, under the cash balance portion of the plan, until they have completed three years of service, at which time they become fully vested in the benefits accrued under the cash balance portion of the plan.

A vested participant who dies before the annuity starting date and who has a surviving spouse shall have the death benefit paid to the surviving spouse in the form of a pre-retirement survivor annuity and may have the death benefit distributed to his/her beneficiaries within five years after death.

While the Corporation has not expressed any intent to do so, the DBPP/cash balance plan may be discontinued at any time, subject to the provisions of ERISA. In the event such discontinuance results in termination of the DBPP/cash balance plan, the DBPP/cash balance plan provides that the net assets of the plan shall be allocated among the participants in the order provided for in ERISA. To the extent there are unfunded vested benefits other than benefits becoming vested by virtue of termination of the DBPP/cash balance plan, ERISA provides that such benefits are payable to participants by the Pension Benefit Guaranty Corporation (PBGC) up to specified limitations.

Should the DBPP/cash balance plan terminate at some future time, its assets generally may not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty while other benefits may not be provided for at all.

The non-qualified plans include a Supplemental Retirement Plan and a Supplemental Non-Qualified Pension Plan inclusive of a Medical Reimbursement Plan and Split-Dollar Life Insurance. These non-qualified plans generally provide an additional retirement benefit paid to the employee beginning at age 65 for a term between 10 and 15 years, plus death benefits. An employee, upon attaining the age of 60, may elect early retirement and be entitled to receive this benefit based upon the employee's accrual balance as of the early retirement date.

The Supplemental Retirement Plan (SERP) was established in 1994 for employees whose date of hire was prior to January 1, 1994, were a current participant in the qualified pension plan for at least five years and whose benefit under the qualified pension plan was affected by the changes made to the Internal Revenue Code Section 401(a)(17) as enacted in the Omnibus Budget Reconciliation Act of 1993. The SERP establishes a payment to the participant that equates to the difference between: the payment amount of the qualified plan retirement benefit to which the participant would have been entitled under the qualified plan if such benefit were computed subject to Code Section 401(a)(17) as in effect prior to the effective date of the Omnibus Budget Reconciliation Act of 1993; and the amount of the qualified plan retirement benefit actually payable to the participant. Under a change in control, no termination of the SERP shall

directly or indirectly deprive any current or former participant or surviving spouse of all or any portion of the SERP benefit which has commenced prior to the effective date of such change in control.

The Supplemental Non-Qualified Pension Plan (SNQPP) was established in 1981 for employees who have served for several years, with ability and distinction, in one of the primary policy-making senior level positions at Univest, with the understanding that the future growth and continued success of Univest's business may well reflect the continued services to be rendered by these employees and Univest's desire to be reasonably assured that these employees will continue to serve and realizing that if these employees would enter into competition with Univest, it would suffer severe financial loss. The SNQPP was established prior to the existence of a 401K Deferred Savings Plan, the Employee Stock Purchase Plan and the Long-Term Incentive Plans and therefore is not actively offered to new participants. At the age of 65 years, covered employees will receive annual payments equivalent to fifty percent of their annual salary at their retirement date, adjusted annually thereafter by a percentage of the change in the Consumer Price Index (CPI). Between the ages of 60 and 65, covered employees may choose early retirement and receive payments under the SNQPP based on the employee's accrual balance, adjusted annually thereafter by a percentage of the change in the CPI. The benefit period is a maximum of fifteen years. Benefits will continue to be paid to the employee's beneficiary upon the employee's death for the remainder of the benefit period. Payments under the SNQPP are capped each year and adjusted annually by a percentage of the change in the CPI. In 2014 the maximum benefit payable was \$118,272. Upon a change in control, the covered employee is entitled to a lump sum benefit equal to the present value of the employee's accrued balance using the ten-year Treasury yield. Upon a change in control where Univest is not the surviving company, the SNQPP is not automatically terminated and the obligations under the SNQPP become the obligations of the surviving company. The SNQPP contains a non-compete clause under which payments will be forfeited by those covered retirees and employees who compete with Univest.

The SNQPP also includes a Medical Reimbursement Plan providing covered employees, who maintain a medical insurance policy during retirement, reimbursements for uncovered medical expenses up to \$5,000 per annum during the benefit period.

During 2000, Univest purchased Bank Owned Life Insurance (BOLI) to offset the funding needs of future obligations under these non-qualified pension plans. The SNQPP includes a Split-Dollar Agreement which provides the covered employee's beneficiary a fixed dollar amount of \$200,000 of the death proceeds under the BOLI.

Income tax regulations require the inclusion of nonqualified deferred compensation benefits as wages for Social Security and Medicare tax purposes. The non-qualified plan benefits and vesting provisions are reviewed annually, the covered employees' Social Security and Medicare wages reflect includable nonqualified deferred compensation, and appropriate taxes are withheld.

On an optional basis, all officers and employees who have attained the age of 18 and have completed one month of continuous service may participate in the Deferred Salary Savings Plan (DSSP). In the year 2014, participants could defer up to a maximum of \$17,500 if under age 50 and \$23,000 if at least age 50 by December 31. After employees complete 6 months of service, the Corporation or its subsidiaries will make a matching contribution of 50% of the first 6% of the participant's salary. All contributions are invested via a trust. The Corporation's matching contributions for 2014, 2013 and 2012, amounted to \$836,007, \$765,400 and \$666,521, respectively. The matching contributions are vested at 50% at the end of two years, 75% at the end of three years, and 100% at the end of four years. Benefit payments normally are made in connection with a participant's retirement. The DSSP permits early withdrawal of the money under certain circumstances. Under current Internal Revenue Service regulations, the amount contributed to the plan and the earnings on those contributions are not subject to Federal income tax until they are withdrawn from the plan.

OTHER PERQUISITES

Certain named executive officers receive expense allowances, a car allowance and/or country club membership dues. These perquisites are determined by the Compensation Committee under the same methodologies for and in

conjunction with base salary compensation. Univest also provides certain named executive officers with personal tax preparation services; these services are provided by a Certified Public Accounting firm other than Univest's Independent Registered Public Accounting Firm, KPMG LLP.

FUTURE COMPENSATION DETERMINATION

The Committee will continue to reassess Univest's executive compensation program in order to ensure that it promotes the long-term objectives of Univest, encourages growth in shareholder value, provides the opportunity for management investment in the Corporation, and attracts and retains top-level executives who will manage strategically in 2015 and beyond.

TAX CONSIDERATIONS

Internal Revenue Code Section 162(m) imposes a limitation on the deduction for certain executive officers' compensation unless certain requirements are met. The Corporation and the Compensation Committee have carefully considered the impact of these tax laws and have taken certain actions intended to preserve the Corporation's tax deduction with respect to any affected compensation.

CONCLUSION

Through the programs described above, a significant portion of the Corporation's executive compensation is linked directly to individual and corporate performance and growth in shareholder value. The Committee intends to continue the policy of linking executive compensation to individual and corporate performance and growth in shareholder value, recognizing that the business cycle from time to time may result in an imbalance for a particular period.

The Summary Compensation Table, which is shown on Page 16 and is mandated by SEC rules, contains a mix of earned and target pay, and several items that are driven by accounting and actuarial assumptions. Earned amounts shown under stock and option awards are determined at grant date fair values, which may be worth more, less, or even nothing when vested or paid. Therefore, the Corporation is including the following table which sets forth for the fiscal years ended December 31, 2014, 2013 and 2012, the compensation which the Corporation and its subsidiaries' principal executive officer, principal financial officer and three other named executive officers realized. These realized amounts equate to the amount reported as Gross Pay on the named executive officer's Form W-2 less the portion of nonqualified deferred compensation benefits, which under income tax regulations are required to be included as wages for Social Security and Medicare tax purposes only. This table is not intended to be a substitute for the Summary Compensation Table that follows and should be read in conjunction with the "Compensation Discussion and Analysis" section of this Proxy Statement.

(a) Salaries in 2014 include one extra pay period of two weeks.

(b) The intrinsic value of stock awards that vested during the year based on the market value of the common stock underlying such awards on the vesting date.

(c) The intrinsic value of stock options exercised during the year based on the difference between the market value of the common stock and the exercise price of such options on the exercise date.

(d) The non-equity incentives paid during the year (awards for a given year are usually paid during the first quarter of the following year). Mr. Keim's award paid in 2013 was based on his 2012 performance plan as Senior Vice President of Mortgage Banking.

(e) Other compensation differs from the Summary of Compensation Table due to amounts contributed by the Corporation as Deferred Salary Savings Plan (401(k)) matches and premiums on life and disability insurance, which are benefits provided to all employees.

The following tables set forth for the fiscal years ended December 31, 2014, 2013 and 2012, the compensation which the Corporation and its subsidiaries' principal executive officer, principal financial officer and three other named executive officers earned. These tables should be read in conjunction with the "Compensation Discussion and Analysis" section of this Proxy Statement.

The Corporation has a stock-for-stock-option exchange (or cashless exercise) program in place, whereby optionees can exchange the value of the spread of in-the-money options for Corporation stock having an equivalent value.

(a) This brokerage-assisted exchange allows the executives to exercise their options on a net basis without having to pay the exercise price or related expense in cash. However, it will result in the executives acquiring fewer shares than the number of options exercised.

"Value Realized" is calculated by subtracting the exercise price from the Fair Market Value as of the exercise date.

(b) Fair Market Value is the closing price of the Corporation's common stock as reported by the NASDAQ Stock Market.

Univest's pension plans are described in the Compensation Discussion and Analysis under the heading (a) "Post-Retirement Plans." Assumptions used in calculating the present value of the accumulated benefit are set forth in Note 10 to the Financial Statements included in Univest's Form 10-K for the year ended December 31, 2014.

NONQUALIFIED DEFERRED COMPENSATION

Univest does not currently have any non-qualified contributory deferred compensation plans available to the named executive officers.

OTHER POTENTIAL POST-EMPLOYMENT PAYMENTS

Certain triggering events could potentially affect the amounts of compensation reported in the previous tables. Triggering events would include retirement, early-retirement, termination by reason of disability, death or cause, or a change in control of the Corporation. None of the named executive officers in the previous tables above is a party to an individual change in control or employment agreement, but provisions for these triggering events are addressed within the 2003 Long-Term Incentive Plan, the 2013 Long-term Incentive Plan, the Defined Benefit Pension Plan (DBPP), the Supplemental Retirement Plan (SERP) and the Supplemental Non-Qualified Pension Plan (SNQPP).

2003 and 2013 Long-term Incentive Plans

Upon a change in control, stock options and restricted stock awards which have been held for at least six months shall become fully vested. Upon retirement, early-retirement or termination by reason of disability, the Compensation Committee may elect to accelerate the vesting period to allow all stock options to become fully vested and exercisable up to a period of two years after the date of such retirement, early-retirement or disability date and may elect to accelerate the vesting period of all restricted stock awards. Upon termination by death, the Compensation Committee may elect to accelerate the vesting period to allow all stock option awards to become fully vested, and exercisable by the legal representative of such employee's estate or legatee of such employee's will for a period of one year from the date of death, and may elect to accelerate the vesting period of all restricted stock awards. There are no acceleration provisions for the willful termination of employment or termination of employment for cause. Upon the willful

termination of employment, the optionee would have the lesser of three-months or the remaining term to exercise any vested stock options. Upon termination of employment for cause, all vested and unvested stock options will immediately terminate.

Edgar Filing: UNIVEST CORP OF PENNSYLVANIA - Form PRE 14A

Defined Benefit Pension Plan (DBPP)

Each participant who has at least 10 years of service and who has attained age 55 may elect to retire early within the 10-year period immediately prior to the participant's normal retirement age. These participants who elect and qualify for early retirement are considered fully vested by the DBPP. Prior to the cash balance plan conversion, the early

retirement benefit is based on credited service and average earnings at the early retirement date without reduction on the date when the participant's age plus years of service equal 85, but not before age 62 or after age 65. Benefits are reduced from that retirement date by 1/15th per year for the first five years and 1/30th per year thereafter to age 55. A vested participant who dies before the annuity starting date and who has a surviving spouse shall have the death benefit paid to the surviving spouse in the form of a pre-retirement survivor annuity and may have the death benefit distributed to his/her beneficiaries within five years after death. None of the triggering events would impact the vested balance of a named executive officer's benefit under the DBPP.

Supplemental Retirement Plan (SERP)

Under a change in control, no termination of the SERP shall directly or indirectly deprive any current or former participant or surviving spouse of all or any portion of the SERP benefit which has commenced prior to the effective date of such change in control. None of the triggering events would impact the vested balance of a named executive officer's benefit under the SERP.

Supplemental Non-Qualified Pension Plan (SNQPP)

Upon a change in control where Univest is not the surviving company, the SNQPP is not automatically terminated and the obligations under the SNQPP become the obligations of the surviving company. Upon a change in control or death of the covered employee prior to their retirement date, the covered employee, or the employee's designated beneficiary, is entitled to a lump sum benefit equal to the present value of the employee's accrued balance using the ten-year Treasury yield. The "accrued balance" is the projected lump sum of the employee's retirement benefit payable upon the employee's attainment of age 65. Upon early-retirement, which is obtainable at the age of sixty, the employee is entitled to the accrual balance payable over fifteen years, adjusted annually thereafter by a percentage of the change in the Consumer Price Index (CPI). Upon termination of employment due to disability, the employee is entitled to the accrual balance payable, commencing at age 65, provided that the amount of the retirement benefit shall be based on the accrual balance on the date of termination due to disability, increased by an interest factor equal to the interest factor used in determining the accrual balance. If an employee terminated due to disability, and a change of control occurs prior to this employee reaching the age of 65, the employee is entitled to a lump sum benefit equal to the present value of the employee's accrued balance using the ten-year Treasury yield. The SNQPP contains a non-compete clause under which payments will be forfeited by those covered retirees and employees who compete with Univest. If the employee is terminated

for a reason other than death, retirement, early-retirement, disability, or a change in control, the benefits under the SNQPP are forfeited by the employee. The only named executive officer who is a participant in the SNQPP is K. Leon Moyer. If at December 31, 2014, the participant's employment was terminated for a reason other than death, retirement, early-retirement, disability, or a change in control, the benefit shown in the Pension Benefits table would be forfeited. If a change in control had occurred at or prior to December 31, 2014, the participant would benefit from a lump sum payment equal to their present value of accumulated benefit, in the Pension Benefits table above.

Director Fees

For the year ended December 31, 2014, each non-employee Director was paid an annual retainer fee of \$18,000. Additionally, the chair of the Audit Committee received an additional annual retainer fee of \$8,000, the chair of the Compensation Committee received an additional annual retainer fee of \$5,000, and the chair of the Nominating and Governance Committee received an additional annual retainer fee of \$4,000. Each non-employee Director received a fee of \$900 for each Board Meeting of Univest Corporation of Pennsylvania or Univest Bank and Trust Co. which he/she attends. Only one fee was paid to the Director if these Boards meet on a concurrent basis. Non-employee Directors who attend committee meetings of the Board received a fee ranging from \$275 to \$800 for each meeting attended.

The Corporation offers a Director Fee Deferral Plan under which the directors can voluntarily contribute all or a portion of their director fees. These deferred fees accumulate value either based on the Bank's average cost of total time deposits and purchased funds or the Corporation's stock index, as elected by the director. The deferred fees

remain the property of the Corporation until it is contractually obligated to pay such fees to the director upon death or after the director's termination in accordance with the director's irrevocable election.

Stock-Based Compensation

Under the Univest 2013 Long-Term Incentive Plan, discussed previously, both employees and non-employee directors are eligible to be granted Awards under the Plan.
