Report of Independent Registered Public Accounting Firm

To Audit Committee and Plan Administrator of the EFSC Incentive Savings Plan

We have audited the accompanying statement of net assets available for benefits of the EFSC Incentive Savings Plan (the Plan) as of December 31, 2012, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the EFSC Incentive Savings Plan as of December 31, 2012, and the changes in its net assets available for benefits for the year ended December 31, 2012, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Report of Independent Registered Public Accounting Firm

To the Audit Committee and Plan Administrator EFSC Incentive Savings Plan

We have audited the accompanying statement of net assets available for benefits of the EFSC Incentive Savings Plan (the Plan) as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

EFSC INCENTIVE SAVINGS PLAN NOTES TO FINANCIAL STATEMENTS December 31, 2012 And 2011

#### NOTE 1 - DESCRIPTION OF PLAN

The following description of the EFSC Incentive Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

#### General

The Plan is a defined contribution plan, with a 401(k) provision, covering all employees of Enterprise Financial Services Corp and its wholly owned subsidiary Enterprise Bank & Trust (Enterprise) who are not seasonal or leased employees and have attained the age of 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan Administrator and Plan Sponsor is Enterprise Financial Services Corp (EFSC). The Plan Trustee is the Enterprise Bank Incentive Savings Plan Trustee Committee which is comprised of five employees of Enterprise. The Plan Trustee meets twice per Plan year.

#### Contributions

Participants may make elective deferrals from 1% to 75% of eligible compensation to the Plan on a pre-tax basis. The Plan allows participants to contribute to an account that accepts Roth after-tax contributions. In 2012 and 2011, a participant may contribute up to \$17,000 and \$16,500 in total, respectively, to all accounts (pre-tax contributions and Roth after-tax contributions). If a participant is age 50 or older and makes the maximum allowable deferral, they are eligible to make catch-up contributions. In 2012 and 2011, the maximum catch up contribution is \$5,500. Enterprise may also make an annual employer matching contribution which is discretionary and determined by the Board of Directors of Enterprise. The employer matching contribution, on behalf of each participant, will be a percentage of deferrals up to the first 5% of the participant's compensation. Participants may also contribute qualified rollover contributions representing distributions from other qualified defined benefit or defined contribution plans. All contributions are subject to applicable limits of the Internal Revenue Code.

Employer matching contributions before reduction for forfeitures and other miscellaneous items were \$1,211,034 and \$828,884 for 2012 and 2011, respectively.

#### Vesting

Participants are immediately vested in their contributions, including rollover contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service, as defined in the Plan Agreement. Participants vest in employer matching contributions according to a five-year graded schedule and are 20% vested after one year of service and 100% vested after five years of service, upon reaching early or normal retirement, or upon total and permanent disability or death.

#### Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's matching contributions and an allocation of the Plan's earnings. The allocation of earnings is determined by the earnings of the participant's investment selection based on each participant's balance, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### Payment of Benefits

While actively employed, participants may receive hardship withdrawals of their vested account balance, subject to applicable regulations and approvals covering hardship withdrawals. Also, participants age 65 and over may receive regular in-service distributions of their vested accounts while actively employed.

On termination of service, a participant may elect to defer their distribution or, subject to appropriate spousal consent, receive either a lump-sum distribution or a Qualified Joint and Survivor Annuity equal to the participant's vested

interest in their account. Account balances less than \$5,000 are generally distributed to an Individual Retirement Account (IRA) if the participant does not make a distribution election.

#### **Forfeitures**

Participants forfeit the nonvested portion of their accounts in the Plan upon termination of employment with Enterprise. As described in the Plan, forfeitures are used to reduce future employer matching contributions or administrative expenses of the Plan. Forfeitures used to offset employer matching contributions amounted to \$20,257 and \$19,109 for the years ended December 31, 2012 and 2011, respectively.

#### Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. Note receivable terms range from one month to five years (longer for the purchase of a primary residence), at a mutually agreed term between the participant and the Plan Administrator. The notes are secured by the vested balance in the participant's account and bear interest at a rate equal to 1% above the prime rate. The interest rate is fixed for the duration of the loan. Principal and interest are paid through payroll deductions.

#### Administrative Expenses

Substantially all administrative expenses of the Plan are paid by Enterprise or EFSC.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Basis of Accounting**

The accompanying financial statements are presented on the accrual basis of accounting.

#### Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See Note 3 for further discussion on fair value measurements.

The EFSC Common Stock Fund (the Fund) is tracked on a unitized basis. The Fund consists primarily of EFSC common stock, and also includes cash investments in the Charles Schwab Institutional Money Market Fund sufficient to meet the Fund's daily liquidity needs. EFSC common stock is traded on a national securities exchange (NASDAQ: EFSC). The value of a unit reflects the combined market value of EFSC common stock and the cash investments held by the Fund. At December 31, 2012 and 2011, 174,919 and 205,549 units were outstanding with a value of approximately \$5.89 and \$6.53 per unit, respectively.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits is required to present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Plan invests in fully-benefit responsive investment contracts through a collective investment in the Wells Fargo Stable Value Fund. During 2011, the Plan invested in fully-benefit responsive investment contracts through a collective investment in the Federated Capital Preservation Fund. The statement of changes in net assets available for benefits is prepared on a contract-value basis. There was a \$40,460 adjustment from fair value to contract value in 2012 and no adjustment in 2011, as contract value approximated fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

### Fair Value Measurements

The Plan's investments are stated at fair value. Refer to Note 3 for fair value measurements of the Plan's investments.

### **Estimates and Assumptions**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

#### Risk and Uncertainties

The Plan invests in various investment securities, including common stock of the Plan Sponsor. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

#### Payment of Benefits

Benefits are recorded when paid.

### **NOTE 3 - INVESTMENTS**

The Plan's investments are held in a qualified tax-exempt trust, managed by Charles Schwab Trust Company (the Custodian). Participants can direct contributions to any of 25 investment options offered by the Plan.

### Investments are summarized as follows:

	December 31,			
	2012		2011

Li de Common dioek i unu	1,030,323		1,574,050	
Total Investments	\$24,937,313		\$18,552,012	

\*\* Represented 5% or more of the Plan's net assets available for benefits as of the end of each respective Plan year. All other amounts included for comparison purposes only.

The Plan's investments (including gains and losses in investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	Years ended December 31,			
	2012		2011	
Mutual funds	\$1,914,949		\$(786,320	)
Common/collective trust funds	326,788		(31,467	)
Common stock fund	(180,930	)	368,198	
	\$2,060,807		\$(449,589	)

#### Fair Value Measurements

The Plan utilizes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 Inputs - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs - Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds - Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trust funds - Valued at fair value with the exception of the Federated Capital Preservation Fund, which was stated at contract value. Fair value is determined by dividing the unit value provided by the fund administrator which is based on the underlying assets owned by the fund by the number of outstanding units. The contract value of the Federated Capital Preservation Fund closely approximated fair value.

Common stock fund - Valued at the closing price reported on the active market on which the individual securities are traded plus the carrying value of the cash component of the fund, which approximates fair value.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes the valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011. The Plan follows accounting guidance which requires that major categories for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risk of the investments.

	Investments at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Index funds	\$1,689,409	_	_	\$1,689,409
