MERGER PROPOSED YOUR VOTE IS VERY IMPORTANT

The board of directors of Battle Mountain Gold Exploration Corp. (Battle Mountain) has approved a merger agreement that would result in Battle Mountain becoming a wholly-owned subsidiary of Royal Gold, Inc. (Royal Gold). In the merger, each outstanding share of Battle Mountain common stock would be converted into the right to receive, at the election of each Battle Mountain stockholder, either (i) between 0.0172 and 0.0179 shares of Royal Gold common stock to be determined at closing (Stock Election) or (ii) approximately \$0.55 in cash (Cash Election), in each case assuming 91,563,506 shares of Battle Mountain common stock will be issued and outstanding immediately prior to the effective time of the merger. The per share consideration, if a holder of Battle Mountain common stock makes a Stock Election, will be based on the average price per share of Royal Gold common stock as reported on the NASDAQ Global Select Market for the five trading day period up to and including the second business day preceding (but not including) the closing date of the merger transaction. If the average price is less than \$29.00, the per share stock consideration will be determined based on an aggregate of 1,634,410 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0179 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price of Royal Gold common stock is \$30.18 or above, the per share stock consideration will be determined based on an aggregate of 1,570,507 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0172 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price is greater than or equal to \$29.00 but less than \$30.18, the per share consideration for each share of Battle Mountain common stock would be proportionally adjusted based on the average price of Royal Gold common stock, using \$47,397,901.26 as the aggregate purchase price. The per share consideration if a holder of Battle Mountain common stock makes a Cash Election will be based on a maximum of \$50,359,928 as the aggregate purchase price.

The stock consideration and cash consideration payable in the merger are subject to pro rata adjustment based on the number of issued and outstanding shares of Battle Mountain common stock immediately prior to the effective time of the merger and a potential reduction or holdback of approximately 0.0006 shares of Royal Gold common stock on a per share basis, in the case of a Stock Election, or approximately \$0.017 on a per share basis, in the case of a Cash Election, based on the cost of settling certain Battle Mountain litigation.

YOUR VOTE IS VERY IMPORTANT. We cannot complete the transaction unless, among other things, the holders of Battle Mountain common stock vote to approve and adopt the merger agreement. Battle Mountain will hold a special meeting of its stockholders on October 24, 2007 at 10:00 a.m., local time at the offices of Clark Wilson LLP, 800-885 West Georgia Street, Vancouver, British Columbia, V6C 3H1, Canada. Whether or not you plan to attend Battle Mountain's special meeting, please vote by completing and mailing the enclosed proxy card to the address on the proxy card, or by submitting your proxy by telephone or Internet, using the procedures in the voting instructions included with the enclosed proxy card.

The Battle Mountain board of directors recommends that the Battle Mountain stockholders vote FOR the approval and adoption of the merger agreement and related items.

QUESTIONS AND ANSWERS ABOUT THE MERGER

*In the following questions and answers below, we highlight selected information from this proxy statement/prospectus but we have not included all of the information that may be important to you regarding the merger and the transactions contemplated by the merger agreement. To better understand the merger and the transactions contemplated by the merger agreement, and for a complete description of their legal terms, you should carefully read this entire proxy statement/prospectus, including the annexes, as well as the documents that we have incorporated by reference in this document. See *Important Note About this Proxy Statement/Prospectus* beginning on page iii and *Where You Can Find More Information* beginning on page 100.*

Q: WHAT IS THE PROPOSED TRANSACTION?

A: Royal Gold has reached an agreement with Battle Mountain to acquire Battle Mountain by merging Royal Battle Mountain, Inc., a wholly-owned subsidiary of Royal Gold, with and into Battle Mountain. As a result, Battle Mountain will become a wholly-owned subsidiary of Royal Gold. Holders of Battle Mountain common stock, as of the completion of the merger, will exchange their shares of Battle Mountain common stock for shares of Royal Gold common stock or cash. Battle Mountain stockholders will elect to receive for each share of Battle Mountain common stock either (i) between 0.0172 and 0.0179 shares of Royal Gold common stock, based on the average price per share of Royal Gold common stock as reported on the NASDAQ Global Select Market for the five trading day period up to and including the second business day preceding (but not including) the closing date of the merger transaction or (ii) approximately \$0.55 in cash. Registration under the Securities Act of 1933, as amended (the Securities Act) of the Royal Gold common stock delivered to the Battle Mountain stockholders is a condition to the closing of the merger transaction. The merger agreement is included as Annex A to this proxy statement/prospectus and is incorporated herein by reference. The merger agreement is the legal document that governs the merger.

The merger will become effective on such date and at such time that articles of merger for Battle Mountain and Royal Battle Mountain are filed with the Secretary of State of the State of Nevada, or at such other mutually agreed to time and date. Throughout this proxy statement/prospectus, we will refer to this as the effective time of the merger.

Q: WHEN IS BATTLE MOUNTAIN'S SPECIAL MEETING OF STOCKHOLDERS?

A: Battle Mountain's special meeting of stockholders will take place on October 24, 2007, at the time and location specified on the cover page of this document. You will be asked to consider and vote on the proposal to approve and adopt the merger agreement.

Q: WHAT DO I NEED TO DO NOW?

A: After you have carefully read this entire document, please vote your shares of Battle Mountain common stock. You may do this by completing, signing, dating and mailing the enclosed proxy card, as explained in this proxy statement/prospectus or by submitting your proxy by telephone or through the Internet, as explained in the voting instructions attached to the enclosed proxy card. This will enable your shares to be represented and voted at Battle Mountain's special meeting of stockholders. If you submit a valid proxy and do not indicate how you want to vote, we will count your proxy as a vote in favor of the proposals described in this document submitted at Battle Mountain's special meeting of stockholders.

The Battle Mountain board of directors recommends that Battle Mountain's stockholders vote:

FOR the approval and adoption of the merger agreement; and

FOR the adjournment of the special meeting, if necessary, to permit solicitation of additional proxies in favor of the above proposal.

Q: WHAT STOCKHOLDER VOTES ARE REQUIRED?

A: Battle Mountain stockholders are being asked to approve and adopt the merger agreement. Under Battle Mountain's amended and restated bylaws, one-third of the Battle Mountain common stock outstanding on the record date, represented in person or by proxy, constitutes a quorum for the transaction of business at Battle Mountain's special meeting of stockholders. The approval of this proposal, and therefore the consummation of

Table of Contents

the transaction, requires the affirmative vote of a majority of the outstanding shares of Battle Mountain common stock as of September 26, 2007, the record date for the special meeting.

Q: WHY IS MY VOTE IMPORTANT?

A: If you do not return your proxy card, submit your proxy by telephone or through the Internet or vote in person at Battle Mountain's special meeting of stockholders, it will be more difficult for Battle Mountain to obtain the necessary quorum to hold its meeting and the stockholder approval necessary to consummate the proposed transaction. Without the affirmative vote of a majority of the outstanding shares of Battle Mountain common stock, the merger cannot be completed.

Q: IF MY SHARES ARE HELD IN STREET NAME BY MY BROKER, WILL MY BROKER AUTOMATICALLY VOTE MY SHARES FOR ME?

A: No. Your broker will only vote your shares if you provide your broker with voting instructions. You should instruct your broker to vote your shares by following the directions your broker provides to you. Please check the voting instruction form used by your broker to see if it offers telephone or Internet voting. A broker is not permitted to vote on the proposal to approve and adopt the merger agreement or on the proposal to approve an adjournment of the special meeting without instruction from you. If you do not provide instruction to your broker, a broker non-vote will occur and have the same effect as a vote against the proposal.

Q: WHY ARE THE TWO COMPANIES PROPOSING TO MERGE?

A: Both Royal Gold's board of directors and Battle Mountain's board of directors considered a number of factors in approving the merger agreement. Among them, Battle Mountain's board of directors considered the relative financial conditions, results of operations and prospects for growth of Battle Mountain and Royal Gold, Battle Mountain's operational and liquidity challenges, Royal Gold's competitive strengths and the concern of Battle Mountain's independent auditors regarding Battle Mountain's ability to continue as a going concern. Royal Gold's board of directors considered that the merger will aid in the expansion and diversification of Royal Gold's portfolio, add current revenue and add another quality royalty in the development stage, among other factors. *See* The Merger Battle Mountain's Reasons for the Merger on page 43 and The Merger Royal Gold's Reasons for the Merger on page 44.

Q: DO I HAVE RIGHTS OF A DISSENTING OWNER?

A: Generally, stockholders of a Nevada corporation have the right to dissent from certain corporate actions in certain circumstances. According to Nevada Revised Statutes (NRS) Section 92A.380(1)(a)(1), these circumstances include consummation of a plan of merger requiring approval of the corporation's stockholders. Stockholders who are entitled to dissent are also entitled to demand payment in the amount of the fair value of their shares. A stockholder will be entitled to relief as a dissenting stockholder if and only if he or she complies strictly with all of the procedural and other requirements of Sections 92A.300 through 92A.500 of NRS. Battle Mountain stockholders should carefully read the detailed discussion of dissenter's rights of holders of Battle Mountain common stock under The Merger Dissenter's Rights beginning on page 45, as well as the full text of the requirements of Nevada law to exercise dissenter's rights, which is attached as Annex B.

Q: DO I GET STOCK OR CASH IN THE MERGER?

A: You may elect to receive Royal Gold common stock or cash in the merger. If you elect to receive Royal Gold common stock (Stock Election), you will receive, on a per share basis, between 0.0172 and 0.0179 shares of

Royal Gold common stock, based on the average price per share of Royal Gold common stock as reported on the NASDAQ Global Select Market for the five trading day period up to and including the second business day preceding (but not including) the closing date of the merger transaction. If you elect to receive cash in the merger (Cash Election), you will receive, on a per share basis, approximately \$0.55 in cash. You must make either the Stock Election or the Cash Election with respect to all of your shares of Battle Mountain common stock.

Q: HOW DO I ELECT TO RECEIVE STOCK OR CASH?

A: You will receive a form of election along with a letter of transmittal. All elections for stock consideration or cash consideration must be on the form of election. To make an effective election, you must properly complete and

Table of Contents

return the form of election to the exchange agent by the deadline provided in the form of election and follow the other procedures set forth in the form of election. The deadline for receipt by the exchange agent, Computershare Trust Company, N.A., of your completed form of election is 5:00 P.M. Mountain time on October 18, 2007.

See The Merger Description of Election Procedures on page 45 for more information.

Q: WHAT HAPPENS TO MY STOCK IF I DON T MAKE AN ELECTION?

A: If you do not properly complete and return the form of election to the exchange agent by the deadline provided in the form of election, October 18, 2007, you will be deemed to have made the Stock Election and all of your shares of Battle Mountain common stock will be converted into the right to receive Royal Gold common stock at the effective time of the merger. The deadline for receipt by the exchange agent of your completed form of election is 5:00 P.M. Mountain time on October 18, 2007. Royal Gold and the exchange agent will determine whether an election has been properly completed.

Q: DO THE STOCK ELECTION AND THE CASH ELECTION HAVE THE SAME VALUE?

A: No. If a Stock Election is made, the stock consideration on a per share basis is calculated based on an aggregate purchase price of \$47,397,901.26 and the average price per share of Royal Gold common stock as reported on NASDAQ Global Stock Market for the five trading day period up to and including the second business day preceding (but not including) the closing date of the merger transaction, with a maximum of approximately 1.63 million shares of Royal Gold common stock to be issued in the merger, assuming all Battle Mountain stockholders make a Stock Election. If a Cash Election is made, the per share consideration is based on an aggregate purchase price of \$50,359,928.

The value of the Stock Election will depend upon the trading price of Royal Gold common stock, which may vary above or below the range within which the stock consideration adjusts. For example, if Royal Gold common stock trades at or above \$30.18 during the relevant time period, then the aggregate value of the stock consideration would be higher than \$47,397,901.26. Furthermore, if Royal Gold common stock trades above \$32.07 during the relevant time period, then the value of the stock consideration would exceed the cash consideration. In contrast, if Royal Gold common stock trades below \$29.00, then the aggregate value of the stock consideration would be less than \$47,397,901.26.

Q: WILL BATTLE MOUNTAIN STOCKHOLDERS BE ABLE TO TRADE ROYAL GOLD COMMON STOCK THAT THEY RECEIVE PURSUANT TO THE MERGER?

A: Yes. The Royal Gold common stock issued pursuant to the merger will be registered under the Securities Act and will be listed on the NASDAQ Global Select Market under the symbol RGLD and on the Toronto Stock Exchange under the symbol RGL. All shares of Royal Gold common stock that each Battle Mountain stockholder receives in the merger will be freely transferable unless a stockholder is deemed an affiliate of Battle Mountain prior to the merger or an affiliate of Royal Gold following the merger for purposes of the federal securities laws. The registration statement, of which this proxy statement/prospectus forms a part, filed with the SEC in connection with registration of the Royal Gold common stock to be issued to the Battle Mountain stockholders in the merger will also serve as a registration statement for resale by affiliates of Battle Mountain of those shares of Royal Gold common stock they received in the merger. Those Battle Mountain affiliates will therefore be able to freely sell the shares they receive in the merger so long as this registration statement remains effective. In the event this registration statement cannot be used, the Battle Mountain affiliates may sell subject to the limitations under Rule 145 under the Securities Act. Upon the expiration of the limitations under Rule 145, the Battle Mountain affiliates will be able to freely sell the shares they receive in the merger. For more information on

Battle Mountain affiliates' ability to trade Royal Gold common stock received in the merger see "The Merger Resales of Royal Gold Common Stock" on page 48, "Selling Stockholders" on page 96 and "Plan of Distribution" on page 97

Q: WHAT WILL HAPPEN TO MY STOCK CERTIFICATE AND WHERE SHOULD I SEND MY STOCK CERTIFICATE?

A: At the effective time of the merger, your Battle Mountain stock certificate will convert into the right to receive either (i) shares of Royal Gold common stock, if you make a Stock Election or (ii) cash, if you make a Cash

Table of Contents

Election, and you will no longer be a stockholder of Battle Mountain. You will receive written instructions, a form of election and a letter of transmittal. You will use these documents to exchange your shares of Battle Mountain common stock for shares of Royal Gold common stock and cash in lieu of fractional shares of Royal Gold common stock, if you make a Stock Election, or cash, if you make a Cash Election. Each person who submits the necessary documentation is entitled to receive either the stock consideration or the cash consideration to which the stockholder is entitled pursuant to the merger agreement. For more information see The Merger Agreement Exchange of Stock Certificates on page 51.

Q: WHAT WILL HAPPEN TO MY BATTLE MOUNTAIN WARRANTS IN THE MERGER?

A: You should consult your warrant agreement regarding the procedures you must follow in order to exercise your warrants before the closing of the merger. Warrants that are not exercised by the effective time of the merger will be cancelled and terminated for no consideration whatsoever. We anticipate that all warrants will be exercised at or before the closing of the merger. See The Merger Agreement Stock Options, Warrants, Convertible Securities or Other Rights to Purchase Common Stock on page 51.

Q: WHAT WILL HAPPEN TO MY BATTLE MOUNTAIN OPTIONS IN THE MERGER?

A: You should consult your option award agreement regarding the procedures you must follow in order to exercise your options before the closing of the merger. Options that are not exercised by the effective time of the merger will be cancelled and terminated for no consideration whatsoever. We anticipate that, pursuant to the terms of the option award agreements, each outstanding option by virtue of the merger will be cancelled and each holder of options will receive consideration equal to the amount such holder would have received if such holder had effected a cashless exercise of his or her options immediately prior to the effective time of the merger and the shares of Battle Mountain common stock issued upon such cashless exercise were converted into the right to receive Royal Gold common stock or cash in the merger. See The Merger Agreement Stock Options, Warrants, Convertible Securities or Other Rights to Purchase Common Stock on page 51.

Q: WILL I BE TAXED ON THE ROYAL GOLD COMMON STOCK OR CASH THAT I RECEIVE?

A: We expect that the merger will be a taxable transaction for United States federal income tax purposes. You will generally recognize gain or loss equal to the amount of cash or the fair market value of Royal Gold common stock you receive, less your adjusted tax basis in the Battle Mountain stock you surrender in the merger. We strongly encourage you to consult your own tax advisor to determine the particular tax consequences to you of the merger. The material United States federal income tax consequences of the merger are described in more detail beginning on page 60.

Q: WHEN DO YOU EXPECT THE MERGER TO BE COMPLETED?

A: Subject to the satisfaction of a limited number of conditions, we currently expect to complete the merger no later than the third business day immediately following the satisfaction or waiver of the conditions to closing set forth in the merger agreement.

The Merger (see page 38)

General

At the effective time of the merger, Royal Battle Mountain, a wholly-owned subsidiary of Royal Gold, will merge with and into Battle Mountain. As a result of the merger, the separate corporate existence of Royal Battle Mountain will cease and Battle Mountain will continue as the surviving corporation of the merger and become a wholly-owned subsidiary of Royal Gold. At the effective time of the merger, each outstanding share of Battle Mountain common stock will be converted into the right to receive, at the election of each Battle Mountain stockholder, either (i) with respect to a Stock Election, between 0.0172 and 0.0179 shares of Royal Gold common stock to be determined at closing or (ii) with respect to a Cash Election, approximately \$0.55 in cash, in each case

Table of Contents

assuming 91,563,506 shares of Battle Mountain common stock are issued and outstanding immediately prior to the effective time of the merger. The per share consideration, if a holder of Battle Mountain common stock makes a Stock Election, will be based on the average price per share of Royal Gold common stock as reported on the NASDAQ Global Select Market for the five trading day period up to and including the second business day preceding (but not including) the closing date of the merger transaction. If the average price is less than \$29.00, the per share stock consideration will be determined based on an aggregate of 1,634,410 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0179 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price of Royal Gold common stock is \$30.18 or above, the per share stock consideration will be determined based on an aggregate of 1,570,507 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0172 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price is greater than or equal to \$29.00 but less than \$30.18, the per share consideration for each share of Battle Mountain common stock would be proportionally adjusted based on the average price of Royal Gold common stock, using \$47,397,901.26 as the aggregate purchase price. Royal Gold will not issue fractional shares of Royal Gold common stock in the merger. Instead, Battle Mountain stockholders will receive cash in lieu of fractional shares based on the fair market value of a share of Royal Gold common stock. The per share consideration if a holder of Battle Mountain common stock makes a Cash Election will be based on a maximum amount of \$50,359,928 as the aggregate purchase price. See The Merger Agreement Consideration for Battle Mountain Stockholders and The Merger Agreement Contingent Stock and Cash Arrangement beginning on page 50.

The Battle Mountain board of directors recommends that Battle Mountain stockholders vote FOR the approval and adoption of the merger agreement and FOR each of the other proposals described in the notice to the meeting.

Reasons for the Merger

Battle Mountain's board of directors unanimously determined that the merger and the terms of the merger agreement are in the best interests of Battle Mountain and its stockholders and approved and adopted the merger agreement. Those Battle Mountain affiliates will therefore be able to freely sell the shares they receive in the merger. Royal Gold will make copies of this proxy statement/prospectus available to the affiliates who intend to resell the shares of Royal Gold common stock received by them in the merger and has informed the selling stockholders of the need for delivery of a copy of this proxy statement/prospectus to each purchaser of the resale shares prior to or at the time of any sale of the resale shares offered hereby. Royal Gold has agreed to keep this registration statement for resale effective for a period of one year following the effective time of the merger.

Royal Gold will retain Computershare Trust Company, N.A. as exchange agent in connection with the merger.

The Merger Agreement (see page 49)

We encourage you to read the entire merger agreement carefully as it is the legal document that governs the merger.

Consideration for Battle Mountain Stockholders

At the effective time of the merger, each outstanding share of Battle Mountain common stock will be converted into the right to receive, at the election of each Battle Mountain stockholder, either (i) with respect to a Stock Election, between 0.0172 and 0.0179 shares of Royal Gold common stock to be determined at closing or (ii) with respect to a Cash Election, approximately \$0.55 in cash, in each case assuming 91,563,506 shares of Battle Mountain common stock are issued and outstanding immediately prior to the effective time of the merger. The per share consideration, if a holder of Battle Mountain common stock makes a Stock Election, will be based on the average price per share of Royal Gold common stock as reported on the NASDAQ Global Select Market for the five trading day period up to and including the second business day preceding (but not including) the closing date of the merger transaction. If the average price is less than \$29.00, the per share stock consideration will be determined based on an aggregate of 1,634,410 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0179 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price of Royal Gold common stock is \$30.18 or above, the per share stock consideration will be determined based on an aggregate of 1,570,507 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0172 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price is greater than or equal to \$29.00 but less than \$30.18, the per share consideration for each share of Battle Mountain common stock would be proportionally adjusted based on the average price of Royal Gold common stock, using \$47,397,901.26 as the aggregate purchase price. Royal Gold will not issue fractional shares of Royal Gold common stock in the merger. Instead, Battle Mountain stockholders will receive cash in lieu of fractional shares based on the fair market value of a share of Royal Gold common stock. The per share consideration if a holder of Battle Mountain common stock makes a Cash Election will be based on a maximum amount of \$50,359,928 as the aggregate purchase price.

Contingent Stock and Cash Arrangement

Battle Mountain is a party to a legal proceeding filed by a certain former officer and director of Battle Mountain seeking to enforce alleged rights to certain shares and options to purchase shares of Battle Mountain common stock. The settlement of this litigation is a condition precedent to Royal Gold's obligation to complete the transactions contemplated under the merger agreement. The stock consideration and cash consideration payable in the merger are subject to a potential reduction or holdback of approximately 0.0006 shares of Royal Gold common

stock on a per share basis, in the case of a Stock Election, or approximately \$0.017 on a per share basis, in the case of a Cash Election, based on the cost of settling this litigation.

Stock Options, Warrants, Convertible Securities or Other Rights to Purchase Common Stock

At the effective time of the merger, options, warrants, convertible securities and other rights to purchase Battle Mountain common stock will be cancelled and terminated unless exercised prior to the effective time of the merger. We anticipate that all warrants will be exercised pursuant to the terms of the respective warrant agreements at or before the closing of the merger. We anticipate that, pursuant to the terms of the respective option award agreements, each outstanding option by virtue of the merger will be cancelled and each holder of options will receive consideration equal to the amount such holder would have received if such holder had effected a cashless exercise of his or her options immediately prior to the effective time of the merger and the shares of Battle Mountain common stock issued upon such cashless exercise were converted into the right to receive Royal Gold common stock or cash in the merger unless the holder of any such option made an effective Cash Election in accordance with the terms of the merger agreement.

Conditions to Completion of the Merger

Each of Royal Gold, Royal Battle Mountain and Battle Mountain is required to complete the merger only if specific conditions are satisfied or waived to the extent permitted by applicable law. The following are some conditions to either Royal Gold's, Battle Mountain's or either parties' obligations to complete the merger:

absence of legal restrictions enjoining, restraining, prohibiting or making illegal the completion of the merger;

Royal Gold shall have completed its due diligence investigation of Battle Mountain to its satisfaction;

Battle Mountain's stockholders will have approved the merger;

the registration statement, of which this proxy statement/prospectus forms a part, relating to the shares of Royal Gold common stock to be issued in connection with the merger will have become effective under the Securities Act;

the representations and warranties made by each party in the merger agreement will be true and correct at and as of the date of the closing with the same effect as though such representations and warranties were made at and as of the date of the closing, except in the case where the failure to be true and correct, individually or in the aggregate, would not reasonably be expected to have a material adverse effect;

each party in the merger agreement will have performed or complied in all material respects with its agreements and covenants under the merger agreement;

Battle Mountain will have obtained any required consents from third parties or governmental bodies in accordance with the terms of the merger agreement;

since December 31, 2006, there will have not occurred or be continuing any event, occurrence, revelation or development of a state of circumstances or facts, which individually or in the aggregate, has had or could reasonably be expected to have a material adverse effect on Battle Mountain; and

Royal Gold shall have received a legal opinion from counsel to Battle Mountain satisfactory to Royal Gold.

Termination and Termination Fees

The merger agreement may be terminated, either before or after Battle Mountain's stockholders approval of the merger agreement, under certain circumstances described in The Merger Agreement Termination beginning on page 59. If the merger agreement is terminated for various reasons, Royal Gold or Battle Mountain may have to pay the other party a termination fee of \$1,000,000 or \$2,500,000, depending upon the reason for such termination, plus certain expenses.

Interests of Certain Persons in the Merger (see page 75)

Material U.S. Federal Income Tax Considerations (see page 60)

We expect that the merger will be a taxable transaction for United States federal income tax purposes. You will generally recognize gain or loss equal to the amount of cash or the fair market value of Royal Gold common stock you receive, less your adjusted tax basis in the Battle Mountain stock you surrender in the merger.

The discussion of United States federal income tax considerations set forth herein is for general information only and does not purport to be a complete analysis or listing of all potential tax effects that may apply to a holder of Battle Mountain stock. RISK FACTORS

Risks Related to the Combined Company

As a result of the merger, Battle Mountain's business will be subject to the following new or increased risks related to the structure of the merger and the combined company. In addition to the risks described below, the combined company will continue to be subject to the risks described in the documents that Royal Gold has filed with the SEC that are incorporated by reference into this proxy statement/prospectus. If any of the risks described below or in the documents incorporated by reference into this proxy statement/prospectus actually occur, the business, financial condition, results of operations or cash flows of the combined companies could be materially adversely affected. The risks below should be considered along with the other information included or incorporated by reference into this proxy statement/prospectus.

The price of Royal Gold common stock could decline following the merger. The trading price of Royal Gold common stock may be affected by factors different than those factors affecting the price of Battle Mountain common stock.

If the merger is completed, holders of Battle Mountain common stock who make the Stock Election will become holders of Royal Gold common stock. The market price of Royal Gold common stock may decline as a result of the merger if the integration of Royal Gold and Battle Mountain is unsuccessful or takes longer than expected, the perceived benefits of the merger are not achieved as rapidly or to the extent anticipated by financial analysts or investors, or the royalty interests acquired in the merger do not produce the revenues expected. Furthermore, the merger agreement does not limit the conduct of Royal Gold's business after the completion of the merger. Consequently, Royal Gold is permitted to engage in activities, such as material acquisitions of assets, royalties or businesses, that could affect the market price of its common stock. The market price of Royal Gold common stock may be affected by factors different from those affecting Battle Mountain common stock.

The number of shares of Royal Gold common stock that holders of Battle Mountain common stock who make the Stock Election will receive in the merger is subject to change.

The number of shares of Royal Gold common stock that the Battle Mountain stockholders will receive for each share of Battle Mountain common stock will depend on the average price of Royal Gold common stock for the five trading day period up to and including the second business day preceding (but not including) the closing date, and ranges from an aggregate of 1,634,410 shares of Royal Gold common stock, or 0.0179 shares of Royal Gold common stock for each share of Battle Mountain common stock, if the average price of Royal Gold common stock is less than \$29.00, to an aggregate of 1,570,507 shares of Royal Gold common stock, or 0.0172 shares of Royal Gold common stock for each share of Battle Mountain common stock, if the average price of Royal Gold common stock is \$30.18 or above. See The Merger Agreement Consideration for Battle Mountain Stockholders on page 50. Within this range, the number of shares of Royal Gold common stock to be issued in the merger is subject to fluctuation, such that as the average price of Royal Gold stock during the five trading day period decreases, more shares of Royal Gold stock will be issued in the merger, and as the average price increases, fewer shares will be issued. Changes in the market price of Royal Gold common stock during the business day prior to, and the day of, the closing will not affect the number of shares to be issued in the merger. Royal Gold and Battle Mountain encourage you to obtain current stock price quotations for Royal Gold common stock from a newspaper, the Internet or your broker.

There is a cap on the aggregate merger consideration that is different for the Stock Election and the Cash Election.

With respect to a Stock Election, the per share stock consideration is based on an aggregate purchase price of \$47,397,901.26 and the average price per share of Royal Gold common stock as reported on the NASDAQ Select Global Market for the five trading day period up to and including the second business day preceding (but not including) the closing date of the merger transaction. If, at the effective time of the merger, for the five trading day period up to and including the second business day preceding (but not including) the closing date of the merger transaction, the average price per share of Royal Gold common stock is less than \$29.00, the total number of Royal Gold shares to be issued in the merger will be capped at 1,634,410 shares or 0.0179 shares of Royal Gold common

Table of Contents

stock per each share of Battle Mountain common stock. Royal Gold will not issue any additional shares of common stock in the merger as a result of the average closing price of Royal Gold common stock falling below \$29.00. With respect to a Cash Election, the per share cash consideration is based on an aggregate purchase price of \$50,359,928. No additional cash will be paid if the price of Royal Gold common stock increases before or after the closing of the merger transaction. Each Battle Mountain stockholder must make a Stock Election or a Cash Election with respect to all of his or her Battle Mountain common stock. There can be no assurance that you will make an election that results in you receiving consideration that has the highest value.

The number of shares of Royal Gold common stock or the amount of cash that holders of Battle Mountain common stock will receive in the merger is subject to a potential reduction or holdback.

Both the stock consideration and the cash consideration payable in the merger is subject to a potential reduction or holdback of approximately 50,000 to 52,000 shares of Royal Gold common stock, or approximately 0.0006 shares of Royal Gold common stock on a per share basis, in the case of a Stock Election and \$1,597,650, or approximately \$0.017 on a per share basis, in the case of a Cash Election, based on the cost of settling certain Battle Mountain litigation in each case assuming 91,563,506 shares of Battle Mountain common stock are issued and outstanding immediately prior to the effective time of the merger. If the litigation is settled prior to the effective time of the merger, then there will be a reduction in the number of shares of Royal Gold common stock that are issued or cash paid to Battle Mountain stockholders following the closing date based on the cost of settling the litigation. If the litigation is not settled and Royal Gold elects to waive the condition precedent and complete the merger, then Royal Gold will hold back a portion of the shares of Royal Gold common stock that otherwise would be issuable or a portion of the cash payable following the closing date until such time as such litigation is settled. If the value of the shares of Royal Gold stock or the amount of cash that are subject to the holdback is less than, or equal to, the cost of settling the litigation, then none of such shares of Royal Gold common stock or cash held back will be issued or paid to the former Battle Mountain stockholders. Battle Mountain stockholders will not have a say in the settlement of the litigation and may not receive the shares of Royal Gold common stock or the amount of cash held back at the effective time of the merger.

The board of directors and executive officers of Battle Mountain have interests in the merger that may be different from, or in addition to, the interests of Battle Mountain stockholders.

Battle Mountain stockholders should be aware that some directors and executive officers of Battle Mountain may have interests in the merger that may be different from, or in addition to, the interests of Battle Mountain stockholders. These interests include, among others, the change of control payments of up to \$3,288,662.40 and \$555,968.40 to Mark Kucher, Battle Mountain's Chairman and Chief Executive Officer, and David Atkinson, Battle Mountain's Chief Financial Officer, respectively, being made under employment agreements upon the completion of the merger. For additional information on the interests that Battle Mountain's board members and executive officers may have in the merger, see "Interests of Certain Persons in the Merger" beginning on page 75.

Whether or not the merger is completed, the announcement and pendency of the merger could cause disruptions in the businesses of Royal Gold and Battle Mountain, which could have an adverse effect on their respective businesses, financial results and stock prices.

Whether or not the merger is completed, the announcement and pendency of the merger could cause disruptions in the businesses of Royal Gold and Battle Mountain. Specifically, managements' attention has been focused on the merger, which may have diverted managements' attention from the core business of the respective companies and other opportunities that could have been beneficial to the respective companies. These disruptions could be exacerbated by a delay in the completion of the merger or termination of the merger agreement and could have an adverse effect on the business, financial results or stock prices of Royal Gold or Battle Mountain if the merger is not completed or on Royal

Gold if the merger is completed after significant delay.

Table of Contents

If the proposed merger is not completed, Royal Gold and Battle Mountain will have incurred substantial costs that may adversely affect Royal Gold's and Battle Mountain's financial results and operations, the prices of Royal Gold common stock and Battle Mountain common stock could be negatively impacted, and there can be no assurance that Battle Mountain will continue to operate its business in the manner in which it is presently operated.

Royal Gold and Battle Mountain have incurred and will continue to incur substantial costs in connection with the proposed merger. These costs are primarily associated with the fees of attorneys, accountants and financial advisors. If the merger is not completed for any reason, Royal Gold and Battle Mountain will have incurred significant costs, including the diversion of management resources, for which they will have received little or no benefit.

In addition, if the merger is not completed, Royal Gold and Battle Mountain may experience negative reactions from the financial markets and Royal Gold's and Battle Mountain's collaborative partners and employees. Each of these factors may adversely affect the trading price of Royal Gold common stock and/or Battle Mountain common stock or Royal Gold's and/or Battle Mountain's financial results and operations. The price of Royal Gold common stock and Battle Mountain common stock may also decline to the extent that the current market price of Royal Gold common stock and Battle Mountain common stock reflects a market assumption that the merger will be completed. In addition, if the merger is not completed, there can be no assurance that Battle Mountain will continue to operate its business in the manner in which it is presently operated. Battle Mountain's lenders have security interests in most of Battle Mountain's assets. If Battle Mountain is unable to pay its debt as it becomes due, its lenders may foreclose on Battle Mountain's assets.

Royal Gold beneficially owns over 50% of Battle Mountain's common stock and could become a controlling stockholder of Battle Mountain.

Royal Gold owns 16,189,834 shares of Battle Mountain common stock, has options to acquire an additional 17,774,192 shares of Battle Mountain common stock, and has the right to convert the outstanding amounts as of September 26, 2007 on a convertible loan to Battle Mountain into approximately an additional 25,190,988 shares of Battle Mountain common stock, giving Royal Gold beneficial ownership of over 50% of Battle Mountain's issued and outstanding common stock as of the record date, September 26, 2007. If Royal Gold exercised its options and conversion rights, Royal Gold would become a controlling stockholder of Battle Mountain and stockholders of Battle Mountain would not be able to affect the outcome of any stockholder vote. As a result, Royal Gold would control all matters affecting Battle Mountain, including the composition of Battle Mountain's board of directors and, through it, determinations with respect to Battle Mountain's business direction and policies, including the appointment and removal of officers, any determinations with respect to the merger of Battle Mountain with it or another entity, or Battle Mountain's acquisition or disposition of assets. Concentration of voting power in Royal Gold could have the effect of delaying, deterring or preventing a change in control or other business combination that some Battle Mountain stockholders might consider beneficial. Furthermore, the effect of Royal Gold exercising its conversion rights would be to dilute Battle Mountain's stockholders' ownership and reduce earnings per share, as well as reduce the per share consideration payable to Battle Mountain stockholders in the merger.

The combined company will operate on a broader geographical scope than either Royal Gold or Battle Mountain has operated individually, and will be exposed to a broader range of political, social and geographical risks than either company has been exposed to on an individual basis.

Royal Gold owns royalty interests in projects in a number of foreign countries, including Argentina, Burkina Faso, Chile, Finland, Mexico and Russia. Battle Mountain also has royalty interests in projects in foreign countries, including Bolivia, Burkina Faso, Canada, Colombia, Honduras, Mexico and Nicaragua. Accordingly, the business of the combined company is subject to the risks normally associated with conducting business in foreign countries,

including controls and currency fluctuations, limitations on repatriation of earnings, foreign taxation, foreign environmental laws and enforcement, expropriation or nationalization of property, labor practices and disputes, and uncertain political and economic environments in a broader geographical scope than either company individually had been previously exposed.

Table of Contents

The combined company presence in a broader geographic region will expose the combined company to greater market risks resulting from fluctuating currency exchange rates over a broader geographic region. The combined company will generally be less profitable when the U.S. dollar weakens in relation to the foreign currencies of the countries in which Royal Gold and Battle Mountain have royalty interests that are not paid in US Dollars. Royal Gold does not currently implement currency hedges, but may do so in the future. However, its hedging strategies may not be successful, and any of its un-hedged foreign exchange payments will continue to be subject to market fluctuations.

There can be no assurance that Royal Gold uncovered every item that could have a material adverse effect on the combined company.

Although Royal Gold conducted business, financial and legal due diligence in connection with the proposed merger transaction, there can be no assurance that due diligence will uncover every item, including relating to Battle Mountain's financial statements, that could have a material adverse effect on the combined company. For example, Royal Gold has not been able to confirm each accounting item in Battle Mountain's financial statements. Accordingly, there may be matters involving Battle Mountain and its financial statements that were not identified during Royal Gold's due diligence. In addition, there may also be issues that Royal Gold did identify that may not be resolved prior to the effective time of the merger. Any of these issues, if left undiscovered and unresolved, could materially and adversely affect the combined company's financial condition.

The royalty interests to be acquired in the merger may not produce anticipated royalty revenues and the combined company may not produce anticipated results.

The principal assets of Battle Mountain include royalty interests on a project not yet in production. Royal Gold and Battle Mountain entered into the merger agreement because each believes that the transaction will be beneficial to Royal Gold, Battle Mountain and their respective stockholders based on Battle Mountain's anticipated royalty revenues. The success of the merger is based on Royal Gold's and Battle Mountain's ability to make accurate assumptions regarding the valuation and timing and amount of royalty payments, particularly with respect to royalties on a project not yet in production. If the operator of the project does not bring the project into production and operate in accordance with feasibility studies, the royalty interests acquired in the merger transaction may not yield royalty revenues or sufficient royalty revenues to be profitable. The failure of these projects to produce anticipated royalty revenues may materially and adversely affect the combined company's financial condition, results of operations and cash flows.

Resales of shares of Royal Gold common stock following the transaction and future issuances of equity or equity-linked securities by Royal Gold may cause the market price of shares of Royal Gold common stock to fall.

As of June 30, 2007, Royal Gold had approximately 28,663,756 shares of common stock outstanding and approximately 1,037,906 shares authorized for issuance upon the exercise of outstanding options, the vesting of restricted stock subject to achieving certain performance goals or continued service, or reserved for future issuance under Royal Gold's equity compensation plans. Under the terms of the merger agreement Royal Gold could issue up to approximately 1.63 million shares of common stock in connection with the merger transaction assuming all Battle Mountain stockholders make a Stock Election and Royal Gold's stock price is less than \$29.00. The issuance of the shares in the merger transaction and the sale of additional shares that may become eligible for sale in the public market from time to time upon the exercise of options could have the effect of depressing the market price for shares of Royal Gold common stock.

Risks Related to Battle Mountain

Battle Mountain is currently subject to the risks described below. The risks below should be considered along with the other information included or incorporated by reference into this proxy statement/prospectus.

There are risks associated with relying on Battle Mountain's historical financial statements.

Battle Mountain was required by the SEC to restate its financial statements for certain accounting and financial reporting matters during the first calendar quarter of 2007. Further, Battle Mountain's auditors included a going

Table of Contents

concern emphasis of a matter paragraph in their March 28, 2007 opinion on Battle Mountain's financial statements as of December 31, 2006 and for the years ended December 31, 2006 and 2005 stating that there were factors that raised substantial doubt as to Battle Mountain's ability to continue as a going concern.

Battle Mountain's auditors previously issued going concern opinions on its financial statements.

In its reports dated March 28, 2007 and March 11, 2006, Chisholm, Bierwolf & Nilson, LLC, expressed an opinion that there is substantial doubt about Battle Mountain's ability to continue as a going concern based on Battle Mountain's history of operating losses since inception and Battle Mountain's dependence on third-party financing. Battle Mountain's financial statements do not include any adjustments that might result from the outcome of that uncertainty. The accompanying financial statements of Battle Mountain were prepared assuming that Battle Mountain will continue as a going concern. In spite of Battle Mountain's recent financing activities, and availability of certain cash resources, its continuation as a going concern will continue to be dependent upon future events, including third party debt and equity financing and revenues generated from its acquired royalty assets. If Battle Mountain is unable to continue as a going concern, investors may lose their entire investment.

Battle Mountain heavily depends on Mark Kucher.

The success of Battle Mountain depends upon the personal efforts and abilities of Mark Kucher. Mark Kucher serves as a director, Chairman of the Board and Battle Mountain's Chief Executive Officer, pursuant to an employment agreement. Mr. Kucher and Battle Mountain may voluntarily terminate the employment agreement at any time. The loss of Mr. Kucher could have a material adverse effect on Battle Mountain's business, results of operations or financial condition. In addition, the absence of Mr. Kucher will force Battle Mountain to seek a replacement who may have less experience or who may not understand Battle Mountain's business as well, or Battle Mountain may not be able to find a suitable replacement.

Battle Mountain is involved in an industry that is inherently speculative and risky.

Because of the inherently speculative and risky nature of the mining industry, Battle Mountain could be negatively impacted by many factors in the mining industry, and specifically the mining companies, mining properties and ventures upon which Battle Mountain relies to derive its royalty payments. Such factors may include: political risk in the countries in which the properties are located from which Battle Mountain derives royalty payments, labor disputes at the mine sites at such properties, a decline in the price of gold, significant environmental or regulatory restrictions, insufficient reserves, and natural disasters such as floods or earthquakes, among other factors, and as a result investors could lose their entire investment.

Battle Mountain has had negative cash flows from operations.

Battle Mountain's past and current operations have not been sufficient to fund its cash needs. As a result of this deficiency, Battle Mountain has been dependent on sales of its equity securities and debt financing to meet its cash requirements.

Battle Mountain's operations may not be sufficient to meet its current obligations.

At December 31, 2006, Battle Mountain had a working capital deficiency, primarily related to its entry into short-term financing arrangements used to fund the purchase of certain gold royalty assets. In particular, as of December 31, 2006 Battle Mountain was required to pay off its bridge loan facility of \$4,000,000 plus accrued interest on March 31, 2007. As discussed, Battle Mountain successfully refinanced its bridge loan facility with a portion of the proceeds received from Royal Gold.

As of December 31, 2006, Battle Mountain also had current obligations related to its gold facility of approximately \$1,500,000 (assuming a spot gold price of \$635.70 per ounce). Battle Mountain has only recently commenced operations that generate cash flow. There is no assurance that these operations will be sufficient to meet its current and short-term cash needs. Battle Mountain may need to raise additional capital through debt or equity financing arrangements in the event that:

- (a) the prevailing market price for gold decreases;

Table of Contents

- (b) anticipated acquisition costs for further royalty assets increase beyond Battle Mountain's expectations; or
- (c) Battle Mountain encounters greater costs associated with general and administrative expenses or offering costs.

The occurrence of any of the aforementioned events could adversely affect Battle Mountain's ability to meet its business plans.

Battle Mountain will depend almost exclusively on outside capital to pay for any further royalty interest acquisitions or to increase its existing royalty interests. Such outside capital may include the sale of additional stock and/or commercial borrowing. Capital may not continue to be available, if necessary, to meet any further acquisition costs or, if the capital is available, that it will be on terms acceptable to Battle Mountain. The issuance of additional equity securities by Battle Mountain would result in a significant dilution in the equity interests of its current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase Battle Mountain's liabilities and future cash commitments.

If Battle Mountain is unable to obtain financing in the amounts and on terms deemed acceptable to it, it may be unable to continue its business and as a result may be required to scale back or cease operations, the result of which would be that its stockholders would lose some or all of their investment.

A decline in the price of Battle Mountain's common stock could affect its ability to raise further working capital and adversely impact its operations.

A prolonged decline in the price of Battle Mountain's common stock could result in a reduction in the liquidity of its common stock and a reduction in its ability to raise capital. Because Battle Mountain's operations have been primarily financed through the sale of equity securities, a decline in the price of its common stock could be especially detrimental to its liquidity and its continued operations. Any reduction in its ability to raise equity capital in the future would force it to reallocate funds from other planned uses and would have a significant negative effect on its business plans and operations, including its ability to acquire further royalty assets and continue its current operations. If Battle Mountain's stock price declines, it may not be able to raise additional capital or generate funds from operations sufficient to meet its obligations.

Battle Mountain has a history of losses and fluctuating operating results.

From inception through December 31, 2006, Battle Mountain has accumulated a comprehensive deficit of \$4,659,840. Battle Mountain's loss from operations for the fiscal year ended December 31, 2006 was \$2,100,364. There is no assurance that Battle Mountain will operate profitably or will generate positive cash flow in the future. In addition, Battle Mountain's operating results in the future may be subject to significant fluctuations due to many factors not within its control, most important of which is the prevailing market price of gold. If Battle Mountain cannot generate positive cash flows in the future, or raise sufficient financing to continue its operations, Battle Mountain may be forced to scale down or even close its operations.

Battle Mountain has a limited operating history and if Battle Mountain is not successful in continuing to grow its business, then it may have to scale back or even cease its ongoing business operations.

Prior to May 2006, Battle Mountain had no history of revenues from operations and, until recently, had no significant tangible assets. Battle Mountain has yet to generate positive earnings and there can be no assurance that it will ever operate profitably. Battle Mountain has a limited operating history and until recently was considered a development stage company for financial reporting purposes. The success of Battle Mountain is significantly dependent on a

successful acquisition program. Battle Mountain's operations will be subject to all the risks inherent in the establishment of a developing enterprise and the uncertainties arising from the absence of a significant operating history. If Battle Mountain's business plan is not successful, and it is unable to operate profitably, investors may lose some or all of their investment in Battle Mountain.

Table of Contents

Battle Mountain owns passive interests in mining properties, and it is difficult or impossible for Battle Mountain to ensure properties are operated in its best interest.

All of Battle Mountain's revenue will be derived from royalties on properties operated by third parties. The holder of a royalty interest typically has no executive authority regarding development or operation of a mineral property, therefore, Battle Mountain is not in control of basic decisions regarding development or operation of any of the properties in which it holds a royalty interest, and Battle Mountain has limited or no legal rights to influence those decisions.

Battle Mountain's strategy of having others operate properties in which it retains a royalty or other passive interest puts it generally at risk to the decisions of others regarding all basic operating matters, including permitting, feasibility analysis, mine design and operation, processing, plant and equipment matters, and temporary or permanent suspension of operations, among others. These decisions may be motivated by the best interests of the operator rather than to maximize royalties. Although Battle Mountain attempts to secure contractual rights that will permit it to protect its interests, there can be no assurance that such rights will always be available or sufficient, or that its efforts will be successful in achieving timely or favorable results or in affecting the operations of the properties in which it has royalty interests in ways that would be beneficial to its stockholders.

Decreases in prices of precious metals would reduce Battle Mountain's royalty revenues.

The profitability of precious metals mining operations (and thus the value of Battle Mountain's royalty interests and exploration properties) is directly related to the market price of precious metals. The market price of various precious metals fluctuates widely and is affected by numerous factors beyond the control of any mining company. These factors include industrial and jewelry fabrication demand, expectations with respect to the rate of inflation, the relative strength of the U.S. dollar and other currencies, interest rates, gold sales and loans by central banks, forward sales by gold producers, global or regional political, economic or banking crises, and a number of other factors. If the market price of precious metals should drop, Battle Mountain's royalty revenues would also drop. In addition, if the price of gold drops dramatically, Battle Mountain might not be able to recover its investment in royalty interests or properties. The selections of a royalty investment or of a property for exploration or development, the determination to construct a mine and place it into production, and the dedication of funds necessary to achieve such purposes are decisions that must be made long before the first revenues from production will be received. Price fluctuations between the time that such decisions are made and the commencement of production can have a material adverse effect on the economics of a mine, and can eliminate or have a material adverse impact on the value of royalty interests.

The volatility in the gold price is illustrated by the following table, which sets forth, for the periods indicated, the high and low prices in U.S. dollars per ounce of gold, based on the London PM fix.

Gold Price Per Ounce (\$)

Table of Contents

Battle Mountain's revenues are subject to operational risks of the mining industry.

Although Battle Mountain is not required to pay operating costs, its financial results are subject to all of the hazards and risks normally associated with developing and operating mining properties. These risks include:

- (a) insufficient ore reserves;
- (b) fluctuations in production costs that may make mining of ore uneconomic;
- (c) declines in the price of gold;
- (d) significant environmental and other regulatory restrictions;
- (e) labor disputes;
- (f) geological problems;
- (g) pit walls or tailings dam failures;
- (h) natural catastrophes such as floods or earthquakes;
- (i) political risks associated with operations in developing countries; and
- (j) the risk of injury to persons, property or the environment.

Operating cost increases can have a negative effect on the value of and income from Battle Mountain's royalty interests, and may cause an operator to curtail, delay or close operations at a mine site.

Estimates of reserves and mineralization by the operators of mines in which Battle Mountain has royalty interests are subject to significant estimates which can change.

There are numerous uncertainties inherent in estimating proven and probable reserves and mineralization, including many factors beyond Battle Mountain's control or that of the operators of the mineral properties in which it has a royalty interest. Reserve estimates on Battle Mountain's royalty interests are prepared by the operators of the mining properties, and Battle Mountain does not participate in the preparation of such reports. The estimation of reserves and of other mineralization is a subjective process and the accuracy of any such estimates is a function of the quality of available data and of engineering and geological interpretation and judgment. Results of drilling, metallurgical testing and production, and the evaluation of mine plans subsequent to the date of any estimate may cause revision of such estimates. The volume and grade of reserves recovered and rates of production may be less than anticipated. Assumptions about prices are subject to great uncertainty and the gold price has fluctuated widely in the past. Declines in the market price of gold or other precious metals also may render reserves or mineralization containing relatively lower grades of ore uneconomic to exploit. Changes in operating and capital costs and other factors including short-term operating factors, such as the need for sequential development of ore bodies and the processing of new or different ore grades, may materially and adversely affect reserves.

Battle Mountain may be unable to acquire additional royalty interests.

Battle Mountain's future success depends upon its ability to acquire royalty interests to replace depleting reserves and to diversify its royalty portfolio. Battle Mountain anticipates that most of its revenues will be derived from royalty

interests that it acquires or finances, rather than through exploration and development of properties. In addition, Battle Mountain faces competition in the acquisition of royalty interests. If Battle Mountain is unable to successfully acquire additional royalties, the reserves on properties currently covered by its royalties will decline as reserves are mined.

The mining industry is subject to significant environmental risks.

Mining is subject to potential risks and liabilities associated with pollution of the environment and the disposal of waste products occurring as a result of mineral exploration and production. Laws and regulations in the United States and abroad intended to ensure the protection of the environment are constantly changing and generally are becoming more restrictive and costly. Insurance against environmental risks (including potential

Table of Contents

liability for pollution or other hazards as a result of the disposal of waste products occurring from exploration and production) is not generally available to the companies within the mining industry, such as the operators of the mines in which Battle Mountain holds a royalty interest, at a reasonable price. If an operator is forced to incur significant costs to comply with environmental regulations or becomes subject to environmental restrictions that limit its ability to continue or expand operations, it could reduce Battle Mountain's royalty revenues. To the extent that Battle Mountain becomes subject to environmental liabilities for the time period during which it was operating properties, the satisfaction of any liabilities would reduce funds otherwise available to it and could have a material adverse effect on Battle Mountain's financial condition and results of operations.

If title to the properties is not properly maintained by the operators, Battle Mountain's royalty revenues may be decreased.

The validity of and title to mining claims and concessions, which constitute a significant portion of the properties on which Battle Mountain holds royalties, is often uncertain and subject to contest. Mining claims and concessions are generally considered subject to greater title risk than real property interests that are owned in fee simple.

Battle Mountain's bylaws contain provisions indemnifying its officers and directors against all costs, charges and expenses incurred by them.

Battle Mountain's bylaws contain provisions with respect to the indemnification of its officers and directors against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, actually and reasonably incurred by him, including an amount paid to settle an action or satisfy a judgment in a civil, criminal or administrative action or proceeding to which he is made a party by reason of his being or having been one of Battle Mountain's directors or officers.

Investors' interests in Battle Mountain will be diluted and investors may suffer dilution in their net book value per share if Battle Mountain issues additional shares or raises funds through the sale of equity securities.

Battle Mountain's organizational documents authorize the issuance of 200,000,000 shares of common stock with a par value of \$0.001 and 10,000,000 shares of preferred stock with a par value of \$0.001. In the event that Battle Mountain is required to issue any additional shares or enter into private placements to raise financing through the sale of equity securities, investors' interests in Battle Mountain will be diluted and investors may suffer dilution in their net book value per share depending on the price at which such securities are sold. If Battle Mountain issues any such additional shares, such issuances also will cause a reduction in the proportionate ownership and voting power of all other shareholders. Further, any such issuance may result in a change in control.

Battle Mountain's bylaws do not contain anti-takeover provisions which could result in a change of its management and directors if there is a take-over of Battle Mountain.

Battle Mountain does not currently have a shareholder rights plan or any anti-takeover provisions in its By-laws. Without any anti-takeover provisions, there is no deterrent for a take-over of Battle Mountain, which may result in a change in its management and directors.

Because some of Battle Mountain's directors and officers are residents of Canada, investors may find it difficult to enforce, within the United States, any judgments obtained against these directors and officers.

Some of Battle Mountain's directors and officers are nationals and/or residents of countries other than the United States, and all or a substantial portion of such persons' assets are located outside the United States. As a result, it may be difficult for investors to enforce within the United States any judgments obtained against Battle Mountain or its

officers or directors, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state thereof.

Table of Contents

The market price of Battle Mountain's common stock historically has been volatile.

The market price of Battle Mountain's common stock historically has fluctuated significantly based on, but not limited to, such factors as: general stock market trends, announcements of developments related to its business, actual or anticipated variations in its operating results, its inability to generate revenues, and conditions and trends in the mining industry, including the mineral exploration, development and production segments of such industry.

Battle Mountain's common stock is traded on the OTC Bulletin Board. In recent years the stock market in general has experienced extreme price fluctuations that have often been unrelated to the operating performance of the affected companies. Similarly, the market price of Battle Mountain's common stock may fluctuate significantly based upon factors unrelated or disproportionate to its operating performance. These market fluctuations, as well as general economic, political and market conditions, such as recessions or interest rates may adversely affect the market price of Battle Mountain's common stock.

Battle Mountain's common stock is subject to the penny stock rules of the SEC which limits the trading in the market of its common stock, makes transactions in its common stock cumbersome and may reduce the value of an investment in its common stock.

The SEC has adopted regulations which generally define penny stock to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Battle Mountain's securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors. The term accredited investor refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade Battle Mountain's securities. Battle Mountain believes that the penny stock rules discourage investor interest in and limit the marketability of its common stock.

In addition, various state securities laws impose restrictions on transferring penny stocks and as a result, investors in Battle Mountain's common stock may have the ability to sell their shares of common stock impaired.

Battle Mountain has not paid any cash dividends.

Battle Mountain has paid no cash dividends on its common stock to date and it is not anticipated that any cash dividends will be paid to holders of its common stock in the foreseeable future. While Battle Mountain's dividend policy will be based on the operating results and capital needs of the business, it is anticipated that any earnings will be retained to finance the future expansion of Battle Mountain.

NASD sales practice requirements may also limit a stockholder's ability to buy and sell Battle Mountain's common stock.

In addition to the penny stock rules described above, the NASD has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-

Table of Contents

institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, the NASD believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. The NASD requirements make it more difficult for broker-dealers to recommend that their customers buy Battle Mountain's common stock, which may limit your ability to buy and sell Battle Mountain's stock and have an adverse effect on the market for Battle Mountain's common stock.

Trading in Battle Mountain's common shares on the OTC Bulletin Board is limited and sporadic, making it difficult for stockholders to sell their shares or liquidate their investments.

Battle Mountain's common stock is currently listed for public trading on the OTC Bulletin Board. The trading price of Battle Mountain's common stock has been subject to wide fluctuations. Trading prices of Battle Mountain's common shares may fluctuate in response to a number of factors, many of which will be beyond its control. The stock market has generally experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of companies with no current business operation. There can be no assurance that trading prices and price earnings ratios previously experienced by Battle Mountain's common shares will be matched or maintained. These broad market and industry factors may adversely affect the market price of Battle Mountain's common stock, regardless of its operating performance.

In the past, following periods of volatility in the market price of a company's securities, securities class-action litigation has often been instituted. Such litigation, if instituted, could result in substantial costs for Battle Mountain and a diversion of management's attention and resources.

Record Date and Outstanding Shares

Battle Mountain's board of directors has fixed the close of business on September 26, 2007 as the record date. Only holders of record of Battle Mountain common stock on the books of Battle Mountain as of the close of business on the record date will be entitled to notice of, and to vote at, the special meeting and any postponements or adjournments of

the special meeting. As of the record date there were 83,528,381 shares of Battle Mountain common stock issued and outstanding and entitled to vote held by approximately 53 stockholders of record. The number of record holders does not include persons whose stock is held in nominee or street name accounts through brokers.

Quorum Requirement

Under Battle Mountain's amended and restated bylaws, one-third of the outstanding shares of Battle Mountain common stock entitled to vote, represented in person or by proxy, constitutes a quorum for the transaction of business at the special meeting. Votes of stockholders of record who are present at the special meeting in person or by proxy, abstentions and broker non-votes (as defined below) are counted as present or represented at the special meeting for purposes of determining whether a quorum exists.

If a quorum is not obtained, or if fewer shares of Battle Mountain common stock are voted in favor of the proposal for the approval and adoption of the merger agreement at the special meeting than the number of shares necessary to approve the proposal, Battle Mountain may seek to adjourn the special meeting to allow additional time for obtaining additional proxies or votes. At any subsequent reconvening of the special meeting, all proxies will be voted in the same manner as those proxies would have been voted at the original convening of the special meeting, except for any proxies that have been effectively revoked or withdrawn before the reconvened special meeting.

References to the Battle Mountain special meeting in this document are to that special meeting as adjourned or postponed.

Votes Required

Each holder of Battle Mountain common stock will be entitled to one vote, in person or by proxy, for each share of Battle Mountain common stock registered in the stockholder's name on the books of Battle Mountain as of the record date on any matter submitted for the vote of Battle Mountain stockholders. The proposal for the approval and adoption of the merger agreement will be approved if holders of a majority of the issued and outstanding shares of Battle Mountain common stock as of the record date are voted in favor of the proposal. If the proposal to approve an adjournment of the special meeting to permit the solicitation of additional proxies is presented for a vote, it will be approved, whether or not there is a quorum, if a majority of the Battle Mountain common stock present in person or represented by proxy and entitled to vote at the special meeting are voted in favor of the adjournment proposal.

With respect to the proposal to approve and adopt the merger agreement, abstentions and broker non-votes will have the same effect as a vote against the proposal. With respect to the proposal to approve an adjournment of the special meeting to permit the solicitation of additional proxies, abstentions and broker non-votes will have no effect. If a Battle Mountain stockholder fails to vote on the adjournment proposal, other than by abstention or broker non-vote, this will reduce the total number of shares voting with respect to the proposal and, as a result, the number of affirmative votes required to approve the proposal.

A broker non-vote may occur on a proposal when a broker is not permitted to vote on that proposal without instruction from the beneficial owner of the shares and no instruction is given by the beneficial owner. A broker is not permitted to vote on the proposal to approve and adopt the merger agreement or on the proposal to approve an adjournment of the special meeting without instruction from the beneficial owner of the Battle Mountain shares held by the broker.

Each of the directors and officers have agreed and/or given Royal Gold an irrevocable proxy to vote in favor of the proposal for the approval and adoption of the merger agreement. See Battle Mountain's Special Meeting of Stockholders - Shares Beneficially Owned as of the Record Date below for more information.

In anticipation of the merger transaction, on March 5, 2007, Royal Gold obtained a binding support agreement and option to purchase from Mark Kucher, Chairman of Battle Mountain, his shares of common stock of Battle Mountain. The support agreement with Mr. Kucher also provides that Mr. Kucher will vote for and support the merger transaction. Royal Gold also obtained irrevocable proxies, dated June 27, 2007, from David Atkinson, Chief Financial Officer of Battle Mountain, and each of the non-employee directors of Battle Mountain, Robert Connochie, Anthony E.W. Crews, Brian M. Labadie and Christopher E Herald, to vote in favor of the merger and against any proposal made in opposition to or in competition with, the consummation of the merger. As a result of the support agreement with Mr. Kucher, and the irrevocable proxies with Messrs. Atkinson, Connochie, Crews, Labadie and Herald, Royal Gold beneficially owns 22,124,192 shares of Battle Mountain common stock or 25.30% of the outstanding shares of Battle Mountain common stock.

Royal Gold also obtained a binding support agreement and option to purchase from IAMGOLD its shares of common stock of Battle Mountain, including shares of Battle Mountain common stock that IAMGOLD may acquire upon the conversion of a convertible debenture of Battle Mountain Gold (Canada) Inc., a subsidiary of Battle Mountain. On September 4, 2007, pursuant to the option and support agreement with IAMGOLD, Royal Gold issued 216,642 shares of its common stock to IAMGOLD and Repadre in connection with Royal Gold's purchase of 12,102,940 shares of Battle Mountain common stock from IAMGOLD and Repadre and paid \$2,242,002 in cash to IAMGOLD in connection with the purchase of the convertible debenture for IAMGOLD. On September 5, 2007, Royal Gold exercised its option to convert all of the outstanding principal and accrued interest as of September 4, 2007 under the convertible debenture into Battle Mountain common stock, for an aggregate of 4,086,794 shares of Battle Mountain common stock.

Battle Mountain has entered into a bridge finance facility agreement with Royal Gold whereby Royal Gold has agreed to make available to Battle Mountain and BMGX (Barbados) Corporation, Battle Mountain's wholly-owned subsidiary, up to \$20 million, which availability was reduced to \$15 million on April 14, 2007 pursuant to the terms of the bridge facility. The bridge facility will mature on June 6, 2008. Outstanding principal, interest and expenses under the bridge facility may be converted at Royal Gold's option into Battle Mountain common stock at a conversion price per share of \$0.60 at any time during the term of the bridge facility provided Royal Gold gives notice of its election to convert on or before April 4, 2008. As of September 26, 2007, \$15,114,593, of principal and accrued interest, was outstanding on the bridge facility. Based on the right to convert the outstanding principal and accrued interest under the bridge facility, Royal Gold beneficially owns approximately 25,190,988 shares of Battle Mountain common stock or 23.17% of the outstanding shares of Battle Mountain common stock.

On March 28, 2007, Royal Gold and Battle Mountain entered into a Voting Limitation Agreement pursuant to which Royal Gold agreed to limit its voting with respect to Battle Mountain common stock over which it had or could acquire voting power. Generally, Royal Gold agreed that, in the event of a superior proposal as defined in the merger agreement, under certain circumstances, Royal Gold would not vote more than 39.9% of the total number of shares of Battle Mountain common stock entitled to vote in favor of the merger transaction with Royal Gold or in opposition to a competing transaction.

See Relationship with Battle Mountain on page 73 for more information regarding Royal Gold's agreements relating to Battle Mountain.

**UNAUDITED PRO FORMA, COMBINED, CONDENSED
FINANCIAL INFORMATION OF ROYAL GOLD**

The following unaudited pro forma combined condensed financial information as of June 30, 2007 and for the year then ended is presented to show the results of operations and financial position of Royal Gold as if the merger with Battle Mountain had occurred as of July 1, 2006, and as of the balance sheet date, June 30, 2007, as applicable.

This unaudited pro forma combined condensed financial information should be read in conjunction with the selected historical financial information included in this proxy statement/prospectus and the financial statements of Royal Gold and accompanying notes that are incorporated by reference into this proxy statement/prospectus and the financial statements of Battle Mountain included in this proxy statement/prospectus. You should not rely on the unaudited pro forma combined condensed financial information as an indication of the results of operations or financial position that would have been achieved if the merger with Battle Mountain had taken place on the dates indicated. It should be noted that Battle Mountain has historically reported its financial results on a calendar year basis. Royal Gold management compiled the Battle Mountain historical financial information from Quarterly and Annual Reports filed with the SEC in order to conform them to Royal Gold's June 30 fiscal year presentation.

The following Unaudited Pro Forma Combined Condensed Financial Data of Royal Gold consists of an Unaudited Pro Forma Condensed Balance Sheet as of June 30, 2007 and Unaudited Pro Forma Condensed Statements of Operations for the year then ended (collectively, the Pro Forma Statements). The Pro Forma Statements reflect the Battle Mountain acquisition described herein under each of the following two forms of consideration available to shareholders of Battle Mountain: (i) cash consideration up to an aggregate of \$50,359,928, which is equal to approximately \$0.55 per share of Battle Mountain common stock or (ii) between an aggregate of 1,570,507 and 1,634,410 shares of Royal Gold common stock, which is equal to 0.0172 or 0.0179 shares of Royal Gold common stock per share of Battle Mountain common stock, in each case assuming 91,563,506 shares of Battle Mountain common stock outstanding at the time of the closing. If the average price per share of Royal Gold common stock as reported on the NASDAQ Global Select Market for the five day trading period up to and including the second day preceding (but not including) the closing date of the merger is less than \$29.00, the per share stock consideration will be determined based on an aggregate of 1,634,410 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0179 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price of Royal Gold common stock is \$30.18 or above, the per share stock consideration will be determined based on an aggregate of 1,570,507 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0172 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average closing price is greater than or equal to \$29.00 but less than \$30.18, the per share consideration for each share of Battle Mountain common stock would be proportionally adjusted based on the average price of Royal Gold common stock, using \$47,397,901 as the aggregate purchase price. Total consideration ranges from approximately \$57.8 million (assumes 100% stock consideration) to \$67.2 million (assumes 100% cash consideration), including approximately \$14.8 million of cash bridge financing provided and including estimated acquisition costs of approximately \$2.0 million. The actual purchase price may differ based on (i) each Battle Mountain stockholder's election as to whether to receive cash or Royal Gold common stock in the merger and (ii) fluctuations in the price of Royal Gold common stock.

Royal Gold management believes that, on the basis set forth herein, the Pro Forma Statements reflect a reasonable estimate of the Battle Mountain acquisition based on currently available information. The acquisition will be accounted for under the purchase method of accounting and the allocation of purchase price will be based upon the estimated fair value of assets acquired and liabilities assumed. Certain of the purchase price allocations reflected in the Pro Forma Statements are preliminary and may be different from the final allocation of the purchase price and such differences may be material.

The following adjustments have been reflected in the Pro Forma Statements (assuming an all cash transaction):

- (1) On March 23, 2007, Royal Gold made a \$13.91 million loan to Battle Mountain pursuant to an unsecured one year term non-convertible promissory note. On March 28, 2007, Royal Gold entered into a Bridge Finance Facility Agreement with Battle Mountain and BMGX (Barbados) Corporation, as borrowers, whereby Royal

Gold agreed to make available to the borrowers a bridge facility of up to \$20 million; in April 2007, the maximum availability under the bridge facility was reduced to \$15 million. On July 30, 2007, the bridge facility was amended to mature on June 6, 2008. Interest on advances will accrue at the LIBOR plus 3% per annum.

In connection with the bridge facility, the unsecured one-year term non-convertible promissory note pursuant to which Royal Gold made the \$13.91 million loan to Battle Mountain on March 23, 2007 was superceded by a secured promissory note issued under the bridge facility, with the \$13.91 million loan constituting an advance under the bridge facility. On May 9, 2007, Royal Gold advanced an additional \$600,000 to Battle Mountain pursuant to the bridge facility. Outstanding principal, interest and expenses under the bridge facility are convertible, at Royal Gold's option, into Battle Mountain common stock at a conversion price per share of

\$0.60 at any time by giving notice on or before April 4, 2008. This adjustment eliminates the remaining \$329,358 discount on Royal Gold's receivable (created due to the bifurcation of the conversion option) and eliminates the conversion option asset of \$35,611, intercompany bridge facility payable and receivable including related accrued interest. This adjustment also eliminates the income statement effects of the interest income and expense, the bifurcated conversion option and related discount on the note receivable;

- (2) To record the \$50,359,928 assumed cash paid as purchase consideration for acquisition based on an assumed June 30, 2007 closing and a \$0.55 per share cash purchase price given 91,563,506 expected Battle Mountain shares outstanding, to record a payable for the estimated remaining transaction costs of approximately \$0.8 million, to eliminate previously deferred acquisition costs of approximately \$1.2 million and to record the preliminary allocation of the purchase price based on the estimated fair value of assets acquired and liabilities assumed as follows. Pro forma adjustments were computed as the difference between the estimated fair values and the existing book values where applicable.

Calculation of purchase price:

Cash consideration	\$ 50,359,928(a)
Bridge financing advanced	14,823,236
Estimated transaction costs	2,000,000
 Total purchase price	 \$ 67,183,164

Preliminary allocation of purchase price:

Current assets	\$ 6,397,149
Royalty interests in mineral properties	60,875,691
Deferred tax assets	1,597,022
Current liabilities	(111,040)
Deferred and other tax liabilities	(12,724,959)
Gold loan payable	(4,704,219)
Employment agreements payable	(4,073,630)
Goodwill	19,927,150(b)
 Total purchase price	 \$ 67,183,164

(a) Based on the aggregate cash purchase price pursuant to the merger agreement;

(b) Additional intangible assets such as certain non-compete agreements with an expected value of approximately \$1.9 million that will become effective upon the closing of the merger will be valued apart from goodwill. As the agreements are not yet effective, no amounts have been allocated to these intangible assets;

- (3) To record expected proceeds from the exercise of outstanding Battle Mountain warrants of \$3,531,250 prior to the closing of the merger as the holders of these instruments are economically compelled to exercise prior to the merger due to the in-the-money nature of the instruments;

- (4) To record a payable of \$4,073,630 to officers of Battle Mountain for amounts due as a result of the merger under change of control provisions of existing employment agreements;
- (5) To record the conversion of the \$2,000,000 IAMGOLD debenture prior to the closing of the merger as such conversion is mandated under the merger agreement. In September 2007, Royal Gold acquired this debenture from IAMGOLD and converted the balance into Battle Mountain common stock;
- (6) To eliminate Battle Mountain historical equity balances, including eliminating the stockholders' equity effects of the transactions discussed in Notes (3), (4) and (5);
- (7) To record additional depreciation, depletion and amortization on acquired royalty interests based on the units of production method, resulting from the step-up of the carrying value of the royalty interests to fair value in purchase accounting multiplied by the production during the period;

Table of Contents

- (8) To eliminate the interest earned on the assumed cash purchase price of \$50,359,928 during the period from the Company's April 2007 equity offering through June 30, 2007;
- (9) To record the tax effects of adjustments (1), (7) and (8) at Royal Gold's estimated 35.38% statutory rate;
- (10) The pro forma fully-diluted earnings per share for the year ended June 30, 2007 will depend on the number of shareholders of Battle Mountain who elect to receive Royal Gold common stock instead of cash consideration in the merger. For this period, pro forma fully-diluted earnings per share would range from \$0.69 per share (assuming a 100% stock transaction) to \$0.72 per share (assuming a 100% cash transaction). Pro forma fully-diluted earnings per share for this period would decrease from \$0.72 per share to \$0.71 per share if between 35% and 57% of Battle Mountain's shareholders elected to receive Royal Gold common stock; if between 58% and 80% of Battle Mountain's shareholders elected to receive Royal Gold common stock, pro forma fully-diluted earnings per share for this period would be reduced to \$0.70 per share; if more than 80% of Battle Mountain's shareholders elected to receive Royal Gold common stock, pro forma fully-diluted earnings per share for this period would be reduced to \$0.69 per share.

The preliminary allocation of the purchase price to the acquired identifiable tangible and intangible assets and assumed liabilities of Battle Mountain was based on an assumed closing date of June 30, 2007 and other currently available information. For purposes of the preliminary purchase price allocation, the acquired Royalty Interests in Mineral Properties have been recorded at their estimated fair values based upon Royal Gold's estimate of the expected future discounted cash flows associated with those assets. The gold loan facility payable was estimated based upon an estimate of 7,230 ounces of gold remaining to be delivered as of the expected closing date utilizing a gold price of approximately \$651 per ounce. The final allocation may change upon actual closing and completion of a full valuation.

Table of Contents

The following adjustments have been reflected in the Pro Forma Statements (assuming an all stock transaction):

- (1) On March 23, 2007, Royal Gold made a \$13.91 million loan to Battle Mountain pursuant to an unsecured one year term non-convertible promissory note. On March 28, 2007, Royal Gold entered into a Bridge Finance Facility Agreement with Battle Mountain and BMGX (Barbados) Corporation, as borrowers, whereby Royal Gold agreed to make available to the borrowers a bridge facility of up to \$20 million; in April 2007, the maximum availability under the bridge facility was reduced to \$15 million. On July 30, 2007, the bridge facility was amended to mature on June 6, 2008. Interest on advances will accrue at the LIBOR plus 3% per annum.

In connection with the bridge facility, the unsecured one-year term non-convertible promissory note pursuant to which Royal Gold made the \$13.91 million loan to Battle Mountain on March 23, 2007 was superceded by a secured promissory note issued under the bridge facility, with the \$13.91 million loan constituting an advance under the bridge facility. On May 9, 2007, Royal Gold advanced an additional \$600,000 to Battle Mountain pursuant to the bridge facility. Outstanding principal, interest and expenses under the bridge facility are convertible, at Royal Gold's option, into Battle Mountain common stock at a conversion price per share of \$0.60 at any time by giving notice on or before April 4, 2008. This adjustment eliminates the remaining \$329,358 discount on Royal Gold's receivable (created due to the bifurcation of the conversion option) and eliminates the conversion option asset of \$35,611, intercompany bridge facility payable and receivable including related accrued interest. This adjustment also eliminates the income statement effects of the interest income and expense, the bifurcated conversion option and related discount on the note receivable;

- (2) To record the assumed issuance of 1,634,410 shares (see Note 9) of Royal Gold common stock as purchase consideration for acquisition based on an assumed June 30, 2007 closing, to record a payable for the estimated remaining transaction costs of approximately \$0.8 million, to eliminate previously deferred acquisition costs of approximately \$1.2 million and to record the preliminary allocation of the purchase price (see Note 9) based on the following estimated fair value of assets acquired and liabilities assumed. Pro forma adjustments were computed as the difference between the estimated fair values and the existing book values where applicable.

Preliminary allocation of purchase price:

Current assets	\$ 6,397,149
Royalty interests in mineral properties	60,875,691
Deferred tax assets	1,597,022
Current liabilities	(111,040)
Deferred and other tax liabilities	(12,724,959)
Gold loan payable	(4,704,219)
Employment agreements payable	(4,073,630)
Goodwill	10,545,150(a)
 Total purchase price	 \$ 57,801,164

- (a) Additional intangible assets such as certain non-compete agreements with an expected value of approximately \$1.9 million that will become effective upon the closing of the merger will be valued apart from goodwill. As the agreements are not yet effective, no amounts have been allocated to these intangible assets;

- (3) To record expected proceeds from the exercise of outstanding Battle Mountain warrants of \$3,531,250 prior to the closing of the merger as the holders of these instruments are economically compelled to exercise prior to the merger due to the in-the-money nature of the instruments;
- (4) To record a payable of \$4,073,630 to officers of Battle Mountain for amounts due as a result of the merger under change of control provisions of existing employment agreements;
- (5) To record the conversion of the \$2,000,000 IAMGOLD debenture prior to the closing of the merger as such conversion is mandated under the merger agreement. In September 2007, Royal Gold acquired this debenture from IAMGOLD and converted the balance into Battle Mountain common stock;

Table of Contents

- (6) To eliminate Battle Mountain historical equity balances, including eliminating the stockholders' equity effects of the transactions discussed in Notes (3), (4) and (5);
- (7) To record additional depreciation, depletion and amortization on acquired royalty interests based on the units of production method, resulting from the step-up of the carrying value of the royalty interests to fair value in purchase accounting multiplied by the production during the period, and the related 35.38% tax benefit resulting from the additional expense;
- (8) To record the tax effects of adjustments (1) and (7) at Royal Gold's estimated 35.38% statutory rate;
- (9) Pro-forma shares were computed based on an assumed closing of June 30, 2007 and were computed using the calculated purchase price as follows:

Estimated fair value of stock to be issued	\$ 40,977,928
Bridge financing advanced	14,823,236
Estimated cash transaction costs	2,000,000
 Total purchase price	 \$ 57,801,164
 Assumed Closing Share Price	 \$ 25.07
Pro-forma additional shares	1,634,410

Royal Gold shares to be issued are dependent on the average trading price of Royal Gold common stock preceding the closing and ranges from 1,634,410 Royal Gold shares, if the common stock price is less than \$29.00 to 1,570,507 shares if the stock price is at \$30.18 or above. Assumed Closing Share Price for purposes of these Pro Forma Statements is calculated as the lesser of the arithmetic average of the closing price per share of the Royal Gold shares as quoted on the NASDAQ Global Select Market for the five days before and including the date of announcement of the revised merger agreement or, in accordance with EITF 99-12, the first date below \$29 without recovery. The computed Closing Share Price based on the arithmetic average of the closing price per share from July 25, 2007 through July 31, 2007 ranged from a minimum price of \$24.61 to a maximum price of \$25.87 per share.

- (10) The pro forma fully-diluted earnings per share for the year ended June 30, 2007 will depend on the number of shareholders of Battle Mountain who elect to receive Royal Gold common stock instead of cash consideration in the merger. For this period, pro forma fully-diluted earnings per share would range from \$0.69 per share (assuming a 100% stock transaction) to \$0.72 per share (assuming a 100% cash transaction). Pro forma fully-diluted earnings per share for this period would decrease from \$0.72 per share to \$0.71 per share if between 35% and 57% of Battle Mountain's shareholders elected to receive Royal Gold common stock; if between 58% and 80% of Battle Mountain's shareholders elected to receive Royal Gold common stock, pro forma fully-diluted earnings per share for this period would be reduced to \$0.70 per share; if more than 80% of Battle Mountain's shareholders elected to receive Royal Gold common stock, pro forma fully-diluted earnings per share for this period would be reduced to \$0.69 per share.

The preliminary allocation of the purchase price to the acquired identifiable tangible and intangible assets and assumed liabilities of Battle Mountain was based on an assumed closing date of June 30, 2007 and other currently available information. The actual purchase price and the number of Royal Gold shares to be issued at the closing of the merger may differ based on fluctuations in Royal Gold common stock price. For purposes of the preliminary

purchase price allocation, the acquired Royalty Interests in Mineral Properties have been recorded at their estimated fair values based upon Royal Gold's estimate of the expected future discounted cash flows associated with those assets. The gold loan facility payable was estimated based upon an estimate of 7,230 ounces of gold remaining to be delivered as of the expected closing date utilizing a gold price of approximately \$651 per ounce. The final allocation may change upon actual closing and completion of a full valuation.

THE MERGER

The following discussion describes certain aspects of the merger agreement and the merger. The following description does not purport to be complete and is qualified in its entirety by reference to the merger agreement, which is attached as Annex A to this proxy statement/prospectus and is incorporated herein by reference. We urge Battle Mountain stockholders to read the merger agreement carefully in its entirety for a more complete understanding of the merger.

We are furnishing this document to Battle Mountain stockholders in connection with the solicitation of proxies by the Battle Mountain board of directors for use at Battle Mountain's special meeting of stockholders and any adjournments or postponements of the meeting. Approval by Battle Mountain stockholders of the proposal to approve and adopt the merger agreement is a condition to the completion of the merger.

General

At the effective time of the merger, Royal Battle Mountain, a wholly-owned subsidiary of Royal Gold, will merge with and into Battle Mountain. As a result of the merger, the separate corporate existence of Royal Battle Mountain will cease and Battle Mountain will continue as the surviving corporation of the merger and become a wholly-owned subsidiary of Royal Gold. At the effective time of the merger, each outstanding share of Battle Mountain common stock will be converted into the right to receive, at the election of each Battle Mountain stockholder, either (i) with respect to a Stock Election, between 0.0172 and 0.0179 of shares of Royal Gold common

Table of Contents

stock to be determined at closing or (ii) with respect to a Cash Election, approximately \$0.55 in cash, in each case assuming 91,563,506 shares of Battle Mountain common stock are issued and outstanding immediately prior to the effective time of the merger. The per share consideration, if a holder of Battle Mountain common stock makes a Stock Election, will be based on the average price per share of Royal Gold common stock as reported on the NASDAQ Global Select Market for the five trading day period up to and including the second business day preceding (but not including) the closing date of the merger transaction. If the average price is less than \$29.00, the per share stock consideration will be determined based on an aggregate of 1,634,410 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0179 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price of Royal Gold common stock is \$30.18 or above, the per share stock consideration will be determined based on an aggregate of 1,570,507 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0172 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price is greater than or equal to \$29.00 but less than \$30.18, the per share consideration for each share of Battle Mountain common stock would be proportionally adjusted based on the average price of Royal Gold common stock, using \$47,397,901.26 as the aggregate purchase price. Royal Gold will not issue fractional shares of Royal Gold common stock in the merger. Instead, Battle Mountain stockholders will receive cash in lieu of fractional shares based on the fair market value of a share of Royal Gold common stock. The per share consideration if a holder of Battle Mountain common stock makes a Cash Election will be based on a maximum amount of \$50,359,928 as the aggregate purchase price.

The stock consideration and cash consideration payable in the merger are subject to pro rata adjustment based on the number of issued and outstanding shares of Battle Mountain common stock immediately prior to the effective time of the merger and a potential reduction or holdback of approximately 0.0006 shares of Royal Gold common stock on a per share basis, in the case of a Stock Election, or approximately \$0.017 on a per share basis, in the case of a Cash Election, based on the cost of settling certain Battle Mountain litigation.

The Battle Mountain board of directors recommends that Battle Mountain stockholders vote FOR the approval and adoption of the merger agreement and FOR each of the other proposals described in the notice to the special meeting.

Background to the Merger

Early in calendar 2007, Battle Mountain's board of directors determined that its available cash, royalty income stream and projected proceeds from a planned private placement would be insufficient to repay its obligation under its bridge finance facility prior to the repayment date in late March 2007, and complete its acquisition of a royalty on production from the Dolores project in Mexico (Dolores II Royalty) prior to the deadline for completion of the acquisition in April 2007. Battle Mountain's board of directors instructed management to seek and evaluate financial and strategic alternatives for Battle Mountain, including additional or restructured financing, further equity raises, the sale or merger of the company or the extension of the option on the Dolores II Royalty.

At a meeting of the Royal Gold board of directors on February 15, 2007, the board discussed future business development opportunities. Battle Mountain was identified as a company that owns several desirable royalty interests, that may be experiencing financial constraints on the growth of its business, and that may respond favorably to the suggestion of an acquisition, combination or other transaction.

In mid-February, 2007, Tony Jensen, Royal Gold's President and Chief Executive Officer, contacted Battle Mountain's Chairman and Chief Executive Officer, Mark Kucher, and suggested a meeting to explore whether Battle Mountain might be interested in one or more possible transactions between the companies. A meeting was set for February 21, 2007, in Denver, Colorado. After concluding that transactions benefiting both companies were possible, Royal Gold and Battle Mountain negotiated and entered into a non-disclosure agreement.

On February 21, 2007, after execution of the non-disclosure agreement, several members of Royal Gold's management team met to discuss the prospects for acquiring Battle Mountain, relative to other business opportunities then under consideration. Management concluded that further investigation of the acquisition of Battle Mountain was warranted. Royal Gold retained outside legal advisors, Hogan & Hartson L.L.P., to assist it with the structuring, negotiation and documentation of a possible transaction between Royal Gold and Battle Mountain.

Table of Contents

Following execution of the non-disclosure agreement, Mr. Kucher provided Royal Gold further information concerning Battle Mountain, its royalty interests and agreements, certain financial statements, and other information to assist Royal Gold in its evaluation of Battle Mountain.

Pursuant to this agreement, Mr. Kucher would grant Royal Gold the option to acquire all of his shares of Battle Mountain and agree to vote all of his shares of Battle Mountain in favor of the merger transaction between Royal Gold and Battle Mountain. As part of the negotiation of the proposal, Mr. Kucher indicated that Battle Mountain would require a bridge loan in an amount sufficient, at a minimum, to repay obligations under its bridge finance facility on or prior to its maturity date and complete its acquisition of the Dolores II Royalty prior to the deadline therefore.

On February 23, 2007, Royal Gold's board of directors held a special meeting with management and Hogan & Hartson present, for the purpose of discussing the possible acquisition of Battle Mountain. The technical due diligence team conducted an extensive review of the materials provided by Battle Mountain as well as public data and information.

From February 26 through February 28, 2007, Royal Gold and Battle Mountain continued negotiation of the letter of intent and negotiated a bridge loan term sheet whereby Royal Gold would provide Battle Mountain approximately \$20 million as a bridge loan to enable Battle Mountain to satisfy its debt obligations to Macquarie and exercise and close on its option to acquire the Dolores II Royalty, as well as other royalty interests. During this time, Royal Gold and Mr. Kucher also continued negotiation of Mr. Kucher's option and support agreement with Royal Gold.

On February 28, 2007, Royal Gold and Battle Mountain concluded negotiation of the letter of intent and bridge loan term sheet. On February 28, 2007, Battle Mountain accepted Royal Gold's proposal as described in the letter of intent and bridge loan term sheet.

Battle Mountain's Reasons for the Merger

Battle Mountain's board of directors unanimously determined that the merger and the terms of the merger agreement are in the best interests of Battle Mountain and its stockholders. In evaluating the merger and merger agreement, Battle Mountain's board of directors considered the following factors:

the relative financial condition, results of operations and prospects for growth of Battle Mountain and Royal Gold, including Battle Mountain's operational and liquidity challenges and Royal Gold's competitive strengths;

Battle Mountain's independent auditors' concerns regarding Battle Mountain's ability to continue as a going concern;

the value of the Royal Gold common stock or amount of cash to be received by Battle Mountain stockholders depending on each stockholder's election, including the fact that both the stock consideration and cash consideration represented a premium over Battle Mountain's common stock closing price on April 16, 2007, the last trading day prior to the entry into the merger agreement and July 27, 2007, the last trading day prior to the entry into the Amended and Restated Merger Agreement and represented the best economic terms that could be obtained from Royal Gold;

Battle Mountain's stockholders who make the Stock Election would receive Royal Gold common stock, which is listed on the NASDAQ Global Select Market and the Toronto Stock Exchange, giving them greater liquidity than that currently available with Battle Mountain's common stock, which is not listed on a national exchange and is subject to penny stock trading restrictions;

Battle Mountain's difficulty in raising capital through issuance of equity or debt instruments of Battle Mountain;

Battle Mountain's difficulty in acquiring additional royalties;

Battle Mountain's dependence on royalty revenues from properties in developing countries versus Royal Gold's diversified royalty portfolio and royalty revenues from properties in developed and politically stable countries;

Royal Gold's human resources to pursue royalty acquisitions and focus on the growth of the company, compared with Battle Mountain's dependence on two employees;

the combined company will benefit from the savings of corporate overhead expenses, particularly through the consolidation of royalty monitoring activities within Royal Gold's existing management system;

Royal Gold's willingness to lend \$13.9 million to Battle Mountain in order for Battle Mountain to repay maturing debt obligations, timely close on a key royalty acquisition and refinance or repay Battle Mountain's existing debt obligations;

Table of Contents

the combined company will have greater financial resources to better position it to compete for new royalty opportunities in a market with vigorous competition, providing Battle Mountain stockholders the benefit of Royal Gold's future growth potential; and

the terms and conditions of the merger agreement.

The above discussion of the information and factors considered by Battle Mountain's board of directors is not exhaustive and does not include all the factors considered by Battle Mountain's board of directors. In evaluating the merger, the members of Battle Mountain's board of directors considered their knowledge of the business, financial condition and prospects of Battle Mountain and the advice of their advisors, including Messrs. Kucher and Atkinson and its outside counsel, Clark Wilson. The members of Battle Mountain's board of directors did not assign relative weights to the foregoing evaluation of the merger, but rather, made their determinations based upon the total mix of information available to them. In addition, individual members of Battle Mountain's board of directors may have given different weights to different factors.

Royal Gold's Reasons for the Merger

A primary feature of Royal Gold's growth strategy has been to pursue strategic acquisitions of high quality royalties. Royal Gold is engaged in a continual review of opportunities to acquire existing royalties, including mergers and asset acquisitions. Royal Gold's decision to pursue a merger with Battle Mountain arose from its ongoing evaluation of the royalty assets of Battle Mountain in connection with its growth strategy.

In evaluating and approving the merger and merger agreement, Royal Gold's board of directors considered the following factors:

the merger will expand and diversify Royal Gold's royalty portfolio and will expand Royal Gold's current revenue generating royalties from eight to twelve;

the potential contribution of the Dolores project, under development in Mexico, and Battle Mountain's interests in producing properties in terms of reserves, revenue and scale, consistent with Royal Gold's growth strategy to obtain a diversified portfolio of currently producing, developing and exploration royalties;

Battle Mountain's portfolio of early stage exploration properties and properties with historic production in which economically exploitable mineralization may be identified, defined and exploited, consistent with Royal Gold's growth strategy to obtain a diversified portfolio of currently producing, developing and exploration royalties;

geographic and political risk diversity of Battle Mountain's assets and the combined assets of the two companies;

the combined company will benefit from the savings of corporate overhead expenses, particularly through the consolidation of royalty monitoring activities within Royal Gold's existing management system;

the combined company will have a larger property asset base to leverage for financing needs;

the combined company will have greater financial resources to better position it to compete for new royalty opportunities in a market with vigorous competition;

the valuation of the assets, liabilities, expected financial results, consideration paid and level of dilution of Royal Gold's stockholders upon the issuance of Royal Gold common stock to Battle Mountain's stockholders; and

that the consideration payable by Royal Gold pursuant to the merger transaction is fair to the stockholders of Royal Gold.

The above discussion of the information and factors considered by Royal Gold's board of directors is not exhaustive and does not include all the factors considered by Royal Gold's board of directors. In evaluating the merger, the members of Royal Gold's board of directors considered their knowledge of the business, financial condition and prospects of Royal Gold and the advice of their advisors, including the members of Royal Gold's

management and its outside counsel, Hogan & Hartson. The members of Royal Gold's board of directors did not assign relative weights to the foregoing evaluation of the merger, but rather, made their determinations based upon the total mix of information available to them. In addition, individual members of Royal Gold's board of directors may have given different weights to different factors.

Stockholders who are entitled to dissent are also entitled to demand payment in the amount of the fair value of their shares.

Requirements To Exercise Rights of A Dissenting Owner

According to NRS Section 92A.420(1), stockholders who wish to assert rights of dissenting owners:

must deliver written notice to Battle Mountain of their intent to demand payment for their capital stock, if the merger is completed, to Battle Mountain at the address set forth under the caption "Important Note About this Proxy Statement/Prospectus" below BEFORE the vote for approval to the merger is taken; and

must not vote in favor of merger.

Stockholders failing to satisfy these requirements will not be entitled to exercise rights of a dissenting owner under Chapter 92A of the NRS.

In accordance with NRS 92A.430, within ten days after the effective time of the merger, Battle Mountain will send a written dissenters' notice to all stockholders who satisfied these two requirements (written notice of intent to demand payment and not consenting to the merger). The dissenters' notice must include:

a statement of where dissenting stockholders should send their demand for payment and where and when certificates for capital stock are to be deposited;

a statement informing the dissenting stockholders whose shares are not represented by certificates to what extent the transfers of the shares will be restricted after the demand for payment is received;

a form for demanding payment requiring stockholders asserting dissenters' rights to certify whether or not they acquired beneficial ownership of the shares before July 31, 2007, the date when the terms of the merger were announced to the news media and the stockholders;

a date by which Battle Mountain must receive the demand for payment, which may not be fewer than 30 or more than 60 days after the date the dissenters' notice is delivered; and

a copy of NRS Section 92A.300 through NRS Section 92A.500.

Stockholders wishing to exercise rights of a dissenting owner must thereafter comply with the following requirements of NRS 92A.440:

demand payment;

certify whether they acquired beneficial ownership of the shares before July 31, 2007; and

deposit their certificates in accordance with the terms of the dissenters' notice.

Under NRS 92A.440(3), stockholders who fail to demand payment or deposit their certificates where required by the dates set forth in the dissenters' notice will not be entitled to demand payment or receive the fair market value for their shares of capital stock as provided under Nevada law. Instead, such stockholders will receive the same consideration as the stockholders who do not exercise rights of a dissenting owner.

Payment for Dissenting Shares

NRS 92A.460 provides that Battle Mountain is required to pay each dissenter who made a valid demand under Nevada law the amount Battle Mountain estimates to be the fair value of the dissenter's shares of capital stock, plus

Table of Contents

accrued interest. Battle Mountain must make such payment thirty days after the receipt of the dissenter's demand for payment. The payment must be accompanied by:

a copy of Battle Mountain's balance sheet for the year ended December 31, 2006, Battle Mountain's statement of income for the year 2006, Battle Mountain's statement of changes in stockholders equity for the year 2006 as well as Battle Mountain's most recent quarterly financial statements;

a statement of Battle Mountain's estimate of the fair value of the dissenter's shares of capital stock;

an explanation of how interest was calculated;

a statement of the dissenter's rights to demand payment under Nevada law of the dissenter's own estimate of the value of the capital stock under Section 92A.480 of the NRS (discussed below); and

a copy of Section 92A.300 through Section 92A.500 of the NRS.

Under NRS 92A.470(1), Battle Mountain may elect to withhold payment from dissenters who became beneficial owners of shares of capital stock on or after July 31, 2007. If payment is withheld in this fashion by Battle Mountain, Battle Mountain must estimate the fair value of the dissenter's shares of capital stock (plus accrued interest) and offer to pay this amount to each dissenter who agrees to accept in full satisfaction of his or her demand. Battle Mountain is required to send this offer to all such dissenters with a statement of Battle Mountain's estimate of the fair value of the dissenter's shares of capital stock, an explanation of how interest was calculated and a statement of the dissenters' rights to demand payment under NRS 92A.470(2).

NRS 92A.480(1) provides that a dissenter who believes that the amount paid or offered is less than the full value of his or her shares of capital stock, or that the interest due is incorrectly calculated, may, within 30 days after Battle Mountain made or offered payment for the shares, either (i) notify Battle Mountain in writing of his or her own estimate of the fair value of the shares of capital stock and the amount of interest due and demand payment of the difference between this estimate and any payments made or (ii) reject the offer for payment made by Battle Mountain and demand payment of the fair value of his or her shares and interest due.

NRS 92A.490 provides that if a demand for payment remains unsettled, Battle Mountain must commence a court proceeding within 60 days after receiving a demand, petitioning the court to determine the fair value of the shares of capital stock and accrued interest. All dissenters whose demands remain unsettled would be made a party to such proceeding, which would be conducted in the district court of Washoe county. If Battle Mountain fails to commence such a proceeding, it would be required by NRS 92A.490(1) to pay the amount demanded to each dissenter whose demand remains unsettled. Dissenters would be entitled to a judgment for the amount, if any, by which the court finds the fair value of his shares, plus accrued interest, exceeds the amount paid by Battle Mountain; or the fair value, plus accrued interest, of his after-acquired shares for which Battle Mountain elected to withhold payment pursuant to Section 92.470 of the NRS.

Under Section 92A.490(4) of the NRS, the district court may appoint one or more persons as appraisers to receive evidence and recommend a decision on the question of fair value. The appraisers have the powers described in the order appointing them or in any amendment to such order. In any such court proceeding, the dissenters are entitled to the same discovery rights as parties in other civil proceedings.

Under Section 92A.500 of the NRS, the district court will assess the costs of the proceedings against Battle Mountain, unless the court finds that all or some of the dissenters acted arbitrarily, vexatiously or not in good faith in demanding payment. The district court may also assess against Battle Mountain or the dissenters the fees and expenses of counsel

and experts for the respective parties, in the amount the court finds equitable.

THE REQUIRED RIGHTS OF A DISSENTING OWNER PROCEDURES MUST BE FOLLOWED EXACTLY OR ANY APPRAISAL RIGHTS MAY BE LOST.

Certain Effects of the Merger

Effects on the Market

Following the merger, Battle Mountain common stock will be deregistered with the SEC and will cease to be quoted on the OTC Bulletin Board.

Exchange Act Registration

Shares of Battle Mountain common stock are currently registered under the Exchange Act. Following completion of the merger, Battle Mountain will file a Form 15 with the SEC terminating registration of the shares of Battle Mountain common stock under the Exchange Act. Battle Mountain will no longer file periodic reports with the SEC once the registration of its common stock is terminated.

Accounting Treatment for the Merger

The merger will be accounted for by Royal Gold under the purchase method of accounting in accordance with accounting principles generally accepted in the United States. Accordingly, the cost to acquire shares of Battle Mountain common stock and outstanding stock options will be allocated on a pro rata basis to Battle Mountain's assets and liabilities based on their preliminary fair values, with any excess being allocated to goodwill. The determination of asset lives and required purchase accounting adjustments reflected in this proxy statement/prospectus, including the allocation of the purchase price to the assets and liabilities of Battle Mountain based on their respective fair values, is preliminary. See Unaudited Pro Forma, Combined, Condensed Financial Information of Royal Gold beginning on page 27.

Resales of Royal Gold Common Stock

All shares of Royal Gold common stock that Battle Mountain stockholders who make the Stock Election receive in connection with the merger will be freely transferable unless the holder is deemed an affiliate of Battle Mountain prior to the merger or of Royal Gold following the merger for purposes of the federal securities laws. The certificate for such affiliate's shares of Royal Gold common stock will bear an appropriate affiliate stock legend which will be removed by Royal Gold's transfer agent as described below. Shares of Royal Gold common stock held by these affiliates may be sold only pursuant to a registration statement or an exemption under the Securities Act. The registration statement, of which this proxy statement/prospectus forms a part, filed with the SEC in connection with registration of the Royal Gold common stock to be issued to the Battle Mountain stockholders in the merger will also serve as a registration statement for resale by affiliates of Battle Mountain of those shares of Royal Gold common stock they received in the merger. Those Battle Mountain affiliates, referred to herein as selling stockholders, will therefore be able to freely sell the shares they receive in the merger so long as this registration statement remains effective. In the event this registration statement cannot be used, the Battle Mountain affiliates may sell subject to the limitations under Rule 145 under the Securities Act. Upon the expiration of the limitations under Rule 145, the Battle Mountain affiliates will be able to freely sell the shares they receive in the merger. Royal Gold will make copies of this proxy statement/prospectus available to the affiliates who intend to resell the shares of Royal Gold common stock received by them in the merger and has informed the selling stockholders of the need for delivery of a copy of this proxy statement/prospectus to each purchaser of the resale shares prior to or at the time of any sale of the resale shares offered hereby. Upon receipt by Royal Gold's designated representative of a representation letter in a form reasonably acceptable to Royal Gold from the selling affiliate's securities broker (in the case of shares being sold under the registration statement of which this proxy statement/prospectus is a part), indicating such selling affiliate's intent to sell a number of shares of Royal Gold common stock in compliance with the representation letter, Royal Gold will deliver to its transfer agent an opinion or letter of instruction enabling the affiliate to sell its shares in the transaction(s) in

accordance with the terms of the representation letter. Royal Gold has agreed to keep this registration statement for resale effective for a period of one year following the effective time of the merger.

Exchange Agent

Royal Gold will retain Computershare Trust Company, N.A. as exchange agent in connection with the merger. Royal Gold has agreed to pay the exchange agent's customary fees for these services in addition to reimbursing the exchange agent for its reasonable out-of-pocket expenses.

Interests of Battle Mountain Directors and Executive Officers in the Merger

Battle Mountain stockholders should be aware that certain executive officers and directors of Battle Mountain have interests in the transactions contemplated by the merger agreement that may be different from, or in addition to, the interests of Battle Mountain stockholders generally, as described under the section entitled "Interests of Certain Persons in the Merger" beginning on page 75. Battle Mountain's board of directors was aware of these interests and considered them, among other matters, in approving the merger agreement and the transactions contemplated by the merger agreement.

THE MERGER AGREEMENT

The following is a summary of selected provisions of the merger agreement. While Battle Mountain and Royal Gold believe this description addresses the material terms of the merger agreement, this summary may not contain all of the information that is important to you. This summary is qualified in its entirety by reference to the merger agreement, which is attached as Annex A to this proxy statement/prospectus and is incorporated by reference herein. The rights and obligations of the parties are governed by the express terms and conditions of the merger agreement and not by this summary or any other information contained in this proxy statement/prospectus. The Battle Mountain stockholders are urged to read the merger agreement carefully and in its entirety as well as this proxy statement/prospectus.

The representations, warranties and covenants contained in the merger agreement were made only for purposes of such agreement and as of specific dates, were solely for the benefit of the parties to such agreement, and may be subject to limitations agreed to by the contracting parties, including being qualified by disclosures exchanged between the parties in connection with the execution of the merger agreement. The representations and warranties may have been made for the purposes of allocating contractual risk between the parties to the merger agreement instead of establishing these matters as facts, and are subject to standards of materiality applicable to the contracting parties. Investors are not third-party beneficiaries under the merger agreement and should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of Royal Gold or Battle Mountain or any of their respective subsidiaries or any of their future activities.

General Terms of the Merger Agreement

On July 30, 2007, Battle Mountain, Royal Gold and Royal Battle Mountain, Inc., a wholly-owned subsidiary of Royal Gold entered into an Amended and Restated Agreement and Plan of Merger, referred to herein as the "merger agreement", whereby Royal Battle Mountain would merge with and into Battle Mountain (the "merger"). As a result and at the effective time of the merger, the separate corporate existence of Royal Battle Mountain will cease and Battle Mountain will continue as the surviving corporation of the merger and become a wholly-owned subsidiary of Royal Gold. At the effective time of the merger, all the property, rights, privileges, powers and franchises of Battle Mountain and Royal Battle Mountain will vest in the surviving corporation, and all debts, liabilities and duties of Battle Mountain and Royal Battle Mountain will become the debts, liabilities and duties of the surviving corporation.

The closing of the merger will occur on the third business day after the conditions to completion of the merger contained in the merger agreement are satisfied or waived, unless the parties agree otherwise in writing or the merger agreement has been terminated according to its terms. See The Merger Agreement Conditions to Completion of the Merger beginning on page 55. The merger will become effective upon the filing of properly executed articles of merger with the Secretary of State of the State of Nevada or at such subsequent date and time as is mutually agreed to by the parties and as specified in the articles of merger.

Table of Contents

At the effective time of the merger, the articles of incorporation of the surviving corporation will be amended and restated to read the same as the articles of incorporation of Royal Battle Mountain, except that the name of the surviving corporation shall remain as Battle Mountain Gold Exploration Corp. At the effective time, the bylaws of the surviving corporation will be amended and restated to read the same as the bylaws of Royal Battle Mountain, except that the name of the surviving corporation shall remain as Battle Mountain Gold Exploration Corp. Also at the effective time, the directors of Royal Battle Mountain will become the directors of the surviving corporation and the officers of Royal Battle Mountain will become the officers of the surviving corporation.

Consideration for Battle Mountain Stockholders

At the effective time of the merger, each outstanding share of Battle Mountain common stock will be converted into the right to receive, at the election of each Battle Mountain stockholder, either (i) with respect to a Stock Election, between 0.0172 and 0.0179 shares of Royal Gold common stock to be determined at closing or (ii) with respect to a Cash Election, approximately \$0.55 in cash, in each case assuming 91,563,506 shares of Battle Mountain common stock are issued and outstanding immediately prior to the effective time of the merger. The per share consideration, if a holder of Battle Mountain common stock makes a Stock Election, will be based on the average price per share of Royal Gold common stock as reported on the NASDAQ Global Select Market for the five trading day period up to and including the second business day preceding (but not including) the closing date of the merger transaction. If the average price is less than \$29.00, the per share stock consideration will be determined based on an aggregate of 1,634,410 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0179 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price of Royal Gold common stock is \$30.18 or above, the per share stock consideration will be determined based on an aggregate of 1,570,507 shares of Royal Gold common stock and the holders of shares of Battle Mountain common stock would receive 0.0172 shares of Royal Gold common stock for each share of Battle Mountain common stock. If the average price is greater than or equal to \$29.00 but less than \$30.18, the per share consideration for each share of Battle Mountain common stock would be proportionally adjusted based on the average price of Royal Gold common stock, using \$47,397,901.26 as the aggregate purchase price. Royal Gold will not issue fractional shares of Royal Gold common stock in the merger. Instead, Battle Mountain stockholders will receive cash in lieu of fractional shares based on the fair market value of a share of Royal Gold common stock. The per share consideration if a holder of Battle Mountain common stock makes a Cash Election will be based on a maximum amount of \$50,359,928 as the aggregate purchase price.

Contingent Stock and Cash Arrangement

Battle Mountain is a party to a legal proceeding filed by a certain former officer and director of Battle Mountain seeking to enforce alleged rights to certain shares and options to purchase shares of Battle Mountain common stock. The settlement of this litigation is a condition precedent to Royal Gold's obligation to complete the transactions contemplated under the merger agreement. The stock consideration and cash consideration payable in the merger are subject to a potential reduction or holdback of approximately 0.0006 shares of Royal Gold common stock on a per share basis, in the case of a Stock Election, or approximately \$0.017 on a per share basis, in the case of a Cash Election, based on the cost of settling this litigation.

If the litigation is settled prior to the effective time of the merger, then there will be a reduction in the amount of cash paid to Battle Mountain stockholders who make the Cash Election and a reduction in the number of shares of Royal Gold common stock issued to Battle Mountain stockholders who make the Stock Election, in the amount of the cost of settling the litigation, in the case of a Cash Election, and by the per share equivalent using the average price of Royal Gold common stock as described above, in the case of a Stock Election.

If the litigation is not settled and Royal Gold elects to waive the condition precedent and complete the merger, then Royal Gold will hold back a portion of the amount of cash or shares of Royal Gold common stock that otherwise would be payable or issuable to the Battle Mountain stockholders until such time as such litigation is settled. The Battle Mountain stockholders will appoint David Atkinson as their representative for purposes of approving any settlement of the litigation following the closing date in connection with the approval of the merger agreement. If the amount of cash or the value of the shares of Royal Gold common stock (as such value is determined under the merger agreement) held back is less than, or equal to, the cost of settling the litigation, then no

Table of Contents

part of the cash and none of the shares of common stock will be paid or issued to the former Battle Mountain stockholders. If the amount of cash or the value of the shares of Royal Gold stock held back is greater than the cost of settling the litigation, then a portion of the cash and shares of Royal Gold common stock held back equal to the excess amount of such cash or value of such shares will be paid or issued to the former Battle Mountain stockholders, in accordance with their Cash Election or Stock Election, following the final settlement of the litigation. Cash will be paid in lieu of any fractional shares.

Stock Options, Warrants, Convertible Securities or Other Rights to Purchase Common Stock

At the effective time of the merger, each option to purchase shares of Battle Mountain common stock then outstanding (including any stock options outstanding under Battle Mountain's 2004-2005 Stock Option Plan), whether or not then exercisable, will, unless exercised prior to the effective time of the merger, be cancelled and terminated. At the effective time of the merger, each outstanding warrant, convertible security or other right to purchase or subscribe for shares of Battle Mountain common stock then outstanding will be cancelled and terminated. Battle Mountain has agreed to take all necessary actions to cancel such options, warrants, convertible securities or other rights pursuant to the terms of the merger agreement.

We anticipate that all outstanding warrants will be exercised at or before the closing of the merger and, pursuant to the terms of the award agreements, and outstanding options by virtue of the merger will be cancelled and each holder of options will receive consideration equal to the amount such holder would have received if such holder had effected a cashless exercise of his or her options immediately prior to the effective time of the merger and the shares of Battle Mountain common stock issued upon such cashless exercise were converted into the right to receive Royal Gold common stock or cash in the merger, unless the holder of any such option made an effective Cash Election in accordance with the terms of the merger agreement.

Exchange of Stock Certificates

Royal Gold will retain Computershare Trust Company, N.A. as the exchange agent for the merger to handle the exchange of shares of Battle Mountain common stock for the merger consideration. The exchange agent will mail to each holder of record of shares of Battle Mountain common stock both a letter of transmittal and instructions for use in effecting the surrender of Battle Mountain share certificates in exchange for cash, in the event of a Cash Election or the shares of Royal Gold common stock, in the event of a Stock Election.

Upon surrender of Battle Mountain share certificates for cancellation to the exchange agent, together with a duly executed form of election, letter of transmittal and any other required documents and following the effective time of the merger, the holder of such share certificates will be entitled to receive an amount of cash, in the event of a Cash Election, or a certificate representing the number of whole shares of Royal Gold common stock, in the event of a Stock Election, to which the stockholder is entitled under the merger agreement, less the amount of cash, in the event of a Cash Election, or any shares of Royal Gold common stock, in the event of a Stock Election, that may be held back subject to the satisfaction of certain contingent liabilities. Battle Mountain stockholders who make the Stock Election will receive cash in lieu of any fractional shares of Royal Gold common stock. The amount of cash in lieu of fractional shares will be based on the fair market value of Royal Gold common stock as determined by Royal Gold. Until surrendered, each Battle Mountain share certificate will be deemed, at any time after the effective time of the merger, to represent only the right to receive upon such surrender the amount of cash or shares of Royal Gold common stock payable in respect of the shares of Battle Mountain common stock represented by such share certificate. As of the effective time of the merger, there will be no further transfers on Battle Mountain's stock transfer books.

If any share certificates have been lost, stolen or destroyed, upon the making of an affidavit of that fact by the person claiming such share certificate to be lost, stolen or destroyed and entering into an indemnity against any claim that may be made against it with respect to such share certificate, Royal Gold will instruct its exchange agent to mail, in exchange for such lost, stolen or destroyed share certificate, a certificate representing the shares of Royal Gold common stock payable in respect of the shares of Battle Mountain common stock represented by such share certificate.

the representations and warranties made by Royal Gold in the merger agreement will be true and correct at and as of the date of the closing with the same effect as though such representations and warranties were made at and as of the date of the closing, except in the case where the failure to be true and correct, individually or in the aggregate, would not reasonably be expected to have a material adverse effect on the ability of Royal Gold and Royal Battle Mountain to consummate the merger; and

Royal Gold and Royal Battle Mountain will have performed or complied in all material respects with its agreements and covenants under the merger agreement.

Non-Solicitation of Acquisition Proposals

Battle Mountain has agreed that its board of directors would recommend that its stockholders vote or consent in favor of adoption of the merger agreement.

Battle Mountain also agreed that it will not, nor will it authorize or permit, directly or indirectly, any officer, trustee, director, employee, investment banker, financial advisor, attorney, broker, finder or other agent, representative or affiliate of Battle Mountain to (i) initiate, solicit, knowingly encourage or knowingly facilitate, including by way of furnishing nonpublic information or assistance, any inquiries or the making of any proposal or other action that constitutes, or may reasonably be expected to lead to, any competing acquisition proposal, or (ii) enter into discussions or negotiate with any person in furtherance of such inquiries or otherwise with respect to, or to obtain, a competing acquisition proposal. Battle Mountain also agreed to take all actions reasonably necessary to cause its officers, trustees, directors, employees, investment bankers, financial advisors, attorneys, brokers, finders and any other agents, representatives or affiliates to immediately cease any discussions, negotiations or communications with any party or parties with respect to any competing acquisition proposal that is active or pending as of the date of the merger agreement.

The merger agreement further provides that, except as expressly permitted thereunder, neither Battle Mountain's board of directors nor any committee thereof will (i) change its recommendation to its stockholders to vote in favor of the

merger, (ii) approve or recommend, or propose publicly to approve or recommend, any competing acquisition proposal, or (iii) permit Battle Mountain to enter into any competing letter of intent, agreement in principle, acquisition agreement or other similar agreement related to an acquisition proposal.

Battle Mountain has agreed to promptly notify Royal Gold of the relevant details relating to a competing acquisition proposal, including the identity of the parties and all material terms thereof, which Battle Mountain may receive after the date of the merger agreement and will keep Royal Gold informed on a prompt basis as to the status of and any material developments regarding any such proposal.

Table of Contents

Following the receipt by Battle Mountain of a competing acquisition proposal that was not solicited, encouraged or facilitated in violation of the merger agreement, but prior to receiving stockholder approval for the merger, the board of directors of Battle Mountain may (directly or through advisors or representatives):

contact such person and its advisors solely for the purpose of clarifying the proposal and any material terms thereof and the conditions to and likelihood of consummation, so as to determine whether the proposal for a competing acquisition proposal is reasonably likely to lead to a superior proposal; and

if the board of directors of Battle Mountain determines in good faith following consultation with its legal and financial advisors that such competing acquisition proposal is reasonably likely to lead to a superior proposal, the board of directors may: (i) furnish non-public information with respect to Battle Mountain to the person who made such proposal subject to certain limitations, (ii) disclose to Battle Mountain's stockholders any information required to be disclosed under applicable law, (iii) participate in negotiations regarding such proposal, and (iv) following receipt of a competing acquisition proposal that constitutes a superior proposal (x) terminate the merger agreement and (y) take any nonappealable, final action that any court of competent jurisdiction orders Battle Mountain to take, but in each case referred to in (i) through (iv) above, only if, after complying with the terms of the merger agreement, the board of directors determines in good faith by a majority vote, after consultation with, and after considering advice from, outside legal counsel to Battle Mountain, that it must take such action in order to comply with its fiduciary duties to Battle Mountain or its stockholders under applicable Nevada law.

The board of directors of Battle Mountain will not take any of the actions referred to in (iii) or (iv) above unless Battle Mountain has provided Royal Gold at least four business days notice and after waiting for at least such four-business day period and taking into account any amendment to the merger agreement entered into or to which Royal Gold irrevocably covenants to enter into and for which all internal approvals of Royal Gold have been obtained since receipt of such notice, the superior proposal remains a superior proposal.

As used in the description above, acquisition proposal means any proposal other than the transaction contemplated herein, offer or inquiry relating to (or any third party indication of interest in), whether in one transaction or a series of related transactions, (a) any sale or other disposition, directly or indirectly, by merger, consolidation, share exchange or any similar transaction, of the business or assets of Battle Mountain representing 10% or more of the consolidated assets of Battle Mountain and its subsidiaries, (b) any issuance, sale or other disposition by Battle Mountain (including by way of merger, consolidation, share exchange or any similar transaction) of securities (or options, rights or warrants to purchase, or securities convertible into, such securities) representing 20% or more of the votes associated with the outstanding voting equity securities of Battle Mountain or any of its subsidiaries whose assets, individually or in the aggregate, constitute more than 20% of the consolidated assets of Battle Mountain, (c) any tender offer or exchange offer in which any person or group (as such term is defined under the Exchange Act) would acquire beneficial ownership (as such term is defined in Rule 13d-3 under the Exchange Act), or the right to acquire beneficial ownership, of 20% or more of the outstanding shares of Battle Mountain or its subsidiaries whose assets, individually or in the aggregate, constitute more than 20% of the consolidated assets of Battle Mountain, (d) any recapitalization, restructuring, liquidation, dissolution or other similar type of transaction with respect to Battle Mountain and its subsidiaries whose assets, individually or in the aggregate, constitute more than 20% of the consolidated assets of Battle Mountain, or (e) transaction which is similar in form, substance or purpose to any of the foregoing transactions.

As used in the description above, superior proposal means a bona fide written and publicly announced acquisition proposal that (a) Battle Mountain's board of directors concludes in good faith, after consultation with its financial advisors and legal advisors, taking into account all legal, financial, regulatory, timing, certainty and other aspects of the proposal and the person making the proposal (including any break-up fees, expense reimbursement provisions and conditions to consummation) is more favorable to the Battle Mountain stockholders from a financial point of view,

than the transactions contemplated by the merger agreement (after giving effect to any adjustments to the terms and provisions of the merger agreement proposed by Royal Gold in response to such acquisition proposal), (b) if any cash consideration is payable as part of the superior proposal, that such cash consideration shall be fully financed or reasonably capable of being fully financed promptly, (c) if any consideration as part of the superior proposal is payable in shares of capital stock listed on a national securities exchange or quoted on an inter-

Table of Contents

dealer quotation system, then the value of such consideration shall be determined in relation to the value of the shares of Royal Gold common stock to be issued in the merger, and (d) is reasonably likely to receive all required approvals of any governmental body and other person on a timely basis and otherwise reasonably capable of being completed on the terms proposed.

Termination

The merger agreement may be terminated by mutual written consent of Royal Gold and Battle Mountain. In addition, the merger agreement may be terminated by either Battle Mountain or Royal Gold, if:

there is in effect a final, unappealable order of a governmental body restraining, enjoining or otherwise prohibiting the merger provided that the terminating party did not initiate or support the proceeding resulting in the order; or

the closing of the merger shall not have occurred by January 31, 2008, provided that the terminating party is not in material default of its obligations under the merger agreement.

Battle Mountain may terminate the merger agreement if:

there has been a breach or failure to perform any covenant or agreement on the part of Royal Gold or Royal Battle Mountain that causes any of the closing conditions to the obligations of Battle Mountain under the merger agreement not to be met and such breach or failure has not been cured, if curable, within 10 business days following receipt by Royal Gold of written notice of such breach describing the extent and nature thereof in reasonable detail;

there has been any event, change, occurrence or circumstance that renders the condition that the representations and warranties made by Royal Gold under the merger agreement be true and correct as of the closing date of the merger incapable of being satisfied by January 31, 2008; or

at any time prior to receiving the stockholder approval for the merger in accordance with the terms of the merger agreement, the board of directors authorizes Battle Mountain, subject to complying with the terms of the merger agreement, to terminate the merger agreement in order to enter into a binding, definitive agreement with respect to a superior proposal.

Royal Gold may terminate the merger agreement if:

there has been a breach or failure to perform any covenant or agreement on the part of Battle Mountain that causes any of the closing conditions to the obligations of Royal Gold under the merger agreement not to be met and such breach or failure has not been cured, if curable, within 10 business days following receipt by Battle Mountain of written notice of such breach describing the extent and nature thereof in reasonable detail;

there has been any event, change, occurrence or circumstance that renders the condition that the representations and warranties made by Battle Mountain under the merger agreement be true and correct as of the closing date of the merger incapable of being satisfied by January 31, 2008;

the board of directors of Battle Mountain has (i) endorsed, approved or recommended any competing acquisition proposal in accordance with the terms of the merger agreement, other than that contemplated by the merger agreement, (ii) changed its recommendation to Battle Mountain's stockholders to vote in favor of the merger, (iii) resolved to do any of the foregoing, or (iv) failed to reconfirm the recommendation to Battle

Mountain's stockholders to vote in favor of the merger within five business days after Royal Gold requests in writing that it do so; or

either (i) Battle Mountain has entered into a definitive agreement with respect to a competing acquisition proposal, (ii) a tender offer or exchange offer for outstanding shares of Battle Mountain common stock is commenced (other than by Royal Gold or an affiliate of Royal Gold) and the board of directors of Battle Mountain recommends that its stockholders tender their shares in such tender or exchange offer or, within ten days after such tender or exchange offer, fails to recommend against acceptance of such offer or takes no position with respect to the acceptance thereof, or (iii) for any reason if Battle Mountain fails to either

receive written consents from its stockholders constituting the requisite stockholder approval of the merger by September 30, 2007, or fails to hold the special meeting for such stockholder approval by September 30, 2007.

Termination Fees and Expenses

If the merger agreement is terminated by Royal Gold because (i) Battle Mountain breaches its covenants or agreements under the merger agreement or (ii) there has been any occurrence or circumstance that renders the condition that the representations and warranties made by Battle Mountain under the merger agreement be true and correct as of the closing date incapable of being satisfied by January 31, 2008, then Battle Mountain has agreed to pay Royal Gold a termination fee of \$1,000,000, plus actual and documented out-of-pocket expenses of Royal Gold and its affiliates incurred in connection with the merger. Further, if the merger agreement is terminated or the merger delayed because of Battle Mountain's entertainment of a competing acquisition proposal, Battle Mountain enters into a definitive agreement with respect to a competing acquisition proposal, a tender offer or exchange offer is commenced and Battle Mountain's board of directors supports such offer, or Battle Mountain's acceptance of a superior proposal, then Battle Mountain has agreed to pay Royal Gold a termination fee of \$2,500,000 plus Royal Gold's actual and documented out-of-pocket expenses.

If the merger agreement is terminated by Battle Mountain because (i) Royal Gold or Royal Battle Mountain breaches its covenants or agreements under the merger agreement or (ii) there has been any occurrence or circumstance that renders the condition that the representations and warranties made by Royal Gold under the merger agreement be true and correct as of the closing date incapable of being satisfied by January 31, 2008, then Royal Gold has agreed to pay Battle Mountain a termination fee of \$1,000,000, plus all actual and documented out-of-pocket expenses of Battle Mountain and its affiliates incurred in connection with the merger.

Governing Law

The merger agreement will be governed and construed in accordance with the internal laws of the State of Colorado.

Amendment and Waiver

Any provision of the merger agreement may be amended or waived, if the amendment or waiver is in writing and signed by the party or parties that would have benefited by the provision waived or amended.

Dissenters' Rights

Under the merger agreement and in accordance with Nevada law, any stockholder of Battle Mountain who has not voted his, her or its shares in favor of the merger and who has demanded or may properly demand dissenters' rights in the manner provided by Section 92A.440 under Chapter 92A of the Nevada Revised Statutes will not be converted into a right to receive a proportional share of the Royal Gold shares or cash offered as consideration for the merger unless and until the effective time has occurred and such stockholder becomes ineligible for such dissenters' rights. The merger agreement provides that each dissenting stockholder who becomes entitled to payment for his, her or its shares pursuant to Nevada law will receive payment therefor in accordance with Nevada law; provided, that (i) if any such dissenting stockholder will have failed to establish entitlement to dissenters' rights as provided in Section 92A.440 of the Nevada Revised Statutes, (ii) if any such dissenting stockholder will have effectively withdrawn demand for fair value of such shares or lost the right to fair value and payment for shares under Nevada law, or (iii) if neither any dissenting stockholder nor the surviving corporation shall have filed a petition demanding a determination of the value of all shares held by dissenting stockholders within the time provided under Nevada law, such dissenting stockholder will forfeit the right to fair value of his, her or its shares and each such share shall be treated as if it had been, as of the effective time, converted into a right to receive the applicable portion of the Royal

Gold shares offered as consideration for the merger, without interest thereon, as provided in the merger agreement. Under the merger agreement, Battle Mountain is required to give Royal Gold prompt notice of any demands received by it for fair value of any shares of its common stock, and Royal Gold has the right to participate in all negotiations and proceedings with respect to such demands. Battle Mountain, except with the prior written consent of Royal Gold, is restricted under the merger agreement from making any payment

with respect to, or settling or offering to settle, any such demands, with respect to any dissenting stockholder before the effective time. Please also read The Merger Dissenter's Rights on page 45.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following are the material U.S. federal income tax considerations of the merger generally applicable to U.S. holders and non-U.S. holders of Battle Mountain common stock who hold the Battle Mountain common stock as a capital asset. This description does not purport to address the potential tax considerations that may be material to a holder based on his or her particular situation and does not address the tax considerations applicable to holders that may be subject to special tax rules, such as:

financial institutions;

insurance companies;

real estate investment trusts;

regulated investment companies;

grantor trusts;

tax-exempt organizations;

dealers or traders in securities or currencies;

holders that hold Battle Mountain common stock through a partnership or other pass-through entity;

holders that hold Battle Mountain common stock as part of a position in a straddle or as part of a hedging, conversion or integrated transaction for U.S. federal income tax purposes;

U.S. holders that have a functional currency other than the U.S. dollar; or

holders that actually or constructively own or will own 10 percent or more of our voting stock.

Moreover, this description does not address any tax consequences arising under the laws of any state, locality or foreign jurisdiction, and it does not address any federal consequences other than federal income tax consequences. It does not address the tax consequences of any transaction other than the merger. Holders should consult their tax advisors with respect to the application of the particular federal, state, local or foreign income or other tax consequences of the merger to their particular situation.

For purposes of this description, a U.S. holder is a beneficial owner of Battle Mountain common stock who for U.S. federal income tax purposes is:

an individual who is a citizen or resident of the United States;

a corporation created or organized in or under the laws of the United States or any State thereof, including the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if (1) it validly elects to be treated as a United States person for U.S. federal income tax purposes or (2)(a) its administration is subject to the primary supervision of a court within the United States and (b) one or more United States persons have the authority to control all of its substantial decisions.

A non-U.S. holder of Battle Mountain common stock is a holder, other than an entity or arrangement treated as a partnership for U.S. federal income tax purposes, that is not a U.S. holder. For purposes of this summary, holder means either a U.S. holder or a non-U.S. holder or both.

BATTLE MOUNTAIN STOCKHOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE SPECIFIC TAX CONSEQUENCES TO THEM OF THE MERGER, INCLUDING THE APPLICABLE FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES.

Table of Contents

It is expected that the merger will be a fully taxable transaction (rather than a tax-free reorganization) for U.S. federal income tax purposes.

U.S. Holders

Assuming that the merger is a fully taxable transaction, the following material United States federal income tax consequences would result:

a holder of Battle Mountain stock will generally recognize gain or loss as a result of the merger equal to the difference, if any, between (a) the cash or the fair market value of the Royal Gold common stock received as merger consideration, and (b) the holder's adjusted tax basis in the Battle Mountain common stock exchanged in the merger.

any gain or loss recognized by a holder of Battle Mountain stock as a result of the merger will generally be capital gain or loss and will be long-term capital gain or loss to the extent the Battle Mountain shares exchanged in the merger were held for more than one year. In the case of a non-corporate holder, the long-term capital gain may be subject to a maximum federal income tax rate of 15%. Short-term capital gains are taxed at ordinary income tax rates. The deductibility of capital losses may be subject to certain limitations.

each holder's tax basis in Royal Gold common stock received in the merger will be the fair market value of the stock at the time of the exchange.

the holding period of the Royal Gold common stock received in the merger will begin at the time of the exchange.

if a Battle Mountain stockholder dissents to the merger and receives solely cash in exchange for such stockholder's Battle Mountain stock, such cash generally should be treated as a distribution in redemption of such stockholder's Battle Mountain stock. The stockholder should recognize gain or loss measured by the difference between the amount of cash received and the adjusted tax basis of the Battle Mountain stock surrendered. However, in certain situations when the stockholder owns Battle Mountain stock directly or indirectly by reason certain attribution rules set forth in the Internal Revenue Code, the cash received could be treated as dividend income to the stockholder not reduced by the stockholder's tax basis in the stockholder's Battle Mountain stock.

Although Royal Gold and Battle Mountain do not expect that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code, if a very substantial majority of the Battle Mountain stockholders elected to receive Royal Gold common stock in the merger, it is possible that the merger could meet the requirements for such a reorganization. In that event, Battle Mountain stockholders should consult their own tax advisors to determine the tax consequences applicable to them in their particular situation.

The analysis of tax consequences set forth herein is based on assumptions (i) that the statements and facts concerning the merger set forth in the merger agreement, including representations, are true and accurate in all respects, and (ii) that the merger will be completed in accordance with the merger agreement. If any of these assumptions and representations are inaccurate, the tax consequences of the merger could differ from those described in this proxy statement/prospectus. Neither Royal Gold nor Battle Mountain is currently aware of any facts or circumstances that would cause any representations and warranties made by it in connection with the merger agreement to be untrue or incorrect in any material respect.

The description of the tax treatment of the merger set forth above is not binding on the Internal Revenue Service or the courts, and no rulings will be sought from the Internal Revenue Service regarding the tax treatment of the merger. Accordingly, there can be no assurance that the Internal Revenue Service will not challenge the conclusions set forth herein or that a court would not sustain such a challenge.

Information Reporting and Backup Withholding Payments you receive in the merger may, under certain circumstances, be subject to information reporting and backup withholding at a rate of 28% unless the recipient provides proof of an applicable exemption or furnishes its taxpayer identification number, and otherwise complies with all applicable requirements of the backup withholding rules. Any amounts withheld from payments to a Battle Mountain stockholder under the backup withholding rules are not an additional tax and will be allowed as a credit

Table of Contents

against the stockholder's U.S. federal income tax liability, provided the required information is timely furnished to the Internal Revenue Service.

The above description is not intended to constitute a complete analysis of all tax consequences to a U.S. holder relating to the merger. Tax matters are very complicated, and you should consult your own tax advisor concerning the tax consequences to you, in your particular situation, of the merger, including tax return reporting requirements, the applicability of federal, state, local and foreign tax laws and the effect of any proposed changes in the tax laws.

Non-U.S. Holders

Assuming that the merger is a fully-taxable transaction, any gain recognized by a non-U.S. holder will not be subject to United States federal income tax unless:

such gain is effectively connected with a trade or business in the United States of the non-U.S. holder, and the gain is attributable to a permanent establishment that the holder maintains in the United States if that is required by an applicable income tax treaty as a condition for subjecting the holder to United States taxation on a net income basis;

the holder is an individual who is present in the United States for at least 183 days in the taxable year of the sale, and certain other requirements are met; or

Battle Mountain is a U.S. real property holding corporation at any time within the shorter of the five-year period ending on the date on which the proposed transaction is consummated or such non-U.S. holder's holding period. Generally, a corporation is a U.S. real property holding corporation if the fair market value of its U.S. real property interests, as defined in the Internal Revenue Code and applicable regulations, equals or exceeds 50% of the aggregate fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business. Battle Mountain does not believe that it is or has been a U.S. real property holding corporation within the last five years and does not expect to become a U.S. real property holding corporation prior to the date of closing of the merger.

Although Royal Gold and Battle Mountain do not expect that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code, in the event that a very substantial majority of the Battle Mountain stockholders elect to receive Royal Gold common stock in the merger, it is possible that the merger could meet the requirements of such a reorganization. In that event, non-U.S. holders of Battle Mountain stock should consult their own tax advisors to determine the tax consequences applicable to them in their particular situation:

If the non-U.S. holder under the rules described above is a corporation and is subject to United States federal income tax on the merger, such holder may also, under certain circumstances, be subject to an additional branch profits tax at a rate of 30% or lower if such holder is eligible for the benefits of an income tax treaty that provides for a lower rate.

If a non-U.S. holder in the merger receives a cash payment in exchange for all or some of its Battle Mountain stock that has the effect of a distribution of a dividend for U.S. federal income tax purposes, then such cash payment may be subject to 30% withholding unless (i) such non-U.S. holder is eligible for a reduced tax treat rate with respect to dividend income or (ii) amounts paid to the non-U.S. holder in the merger are effectively connected with a U.S. trade or business, in which case no such withholding will be required and such amounts will be taxed at the same graduated rates applicable to U.S. persons, net of certain deductions and credits. In general, a non-U.S. holder must furnish an IRS Form W-8BEN or IRS Form W-8ECI in order to prove its eligibility for any of the foregoing exemptions or reduced rates.

The rules relating to non-U.S. holders are complex and dependent on the specific factual circumstances particular to each non-U.S. holder. Consequently, each non-U.S. holder should consult its tax advisor as to the U.S. federal income tax consequences relevant to such non-U.S. holder.

by a majority vote of the remaining directors. Royal Gold's restated certificate of incorporation and amended and restated bylaws provide that directors may be removed in the manner provided by Delaware law, which allows the holders of a majority of the shares then entitled to vote at an election of directors to remove a director on a classified board only for cause.

AMENDMENTS TO CHARTER DOCUMENTS

Generally, under Delaware law a proposed amendment to a corporation's certificate of incorporation requires approval by its board of directors and an affirmative vote of a majority of the outstanding stock entitled to vote on the amendment and a majority of the outstanding stock of each class entitled to vote on the amendment. Delaware law and the Royal Gold restated certificate of incorporation provides that the restated certificate of incorporation can be amended by the vote of the stockholders representing a majority of the outstanding stock entitled to vote.

Generally, under Nevada law, a proposed amendment to a corporation's articles of incorporation must be proposed by the corporation's board of directors and approved by an affirmative vote of the holders of a majority of the outstanding stock entitled to vote on such amendment, and if such amendment would adversely affect the rights of any class or series of shares, the holders of the outstanding shares of such class or series are entitled to vote as a class to approve the amendment (unless the articles of incorporation specifically deny the right to vote on such amendment). Also, under Nevada law, the articles of incorporation may require, in the case of any specified amendments, the vote of a larger proportion of the voting power of stockholders.

AMENDMENTS TO BYLAWS

Under Delaware law, the stockholders entitled to vote have the power to adopt, amend or repeal bylaws. A corporation may also confer, in its certificate of incorporation, that power upon the board of directors. Royal Gold's restated certificate of incorporation provides that the board of directors is entitled to make, alter or repeal the bylaws of Royal Gold except to the extent that the bylaws otherwise provide. Royal Gold's amended and restated bylaws provide that the bylaws may be amended by a resolution adopted by the majority of the entire board of directors.

Under Nevada law, unless otherwise prohibited by any bylaw adopted by the stockholders, directors may adopt, amend or repeal any bylaw, including any bylaw adopted by the stockholders. Nevada law also provides that the articles of incorporation may grant the authority to adopt bylaws exclusively to the directors. Battle Mountain's articles of incorporation provide that the board of directors are authorized to amend the bylaws. The amended and restated bylaws provide that the bylaws may be amended by a majority of the directors present at any meeting of the board of directors at which a quorum is present, in the sole and absolute discretion of the board of directors or by the stockholders, by a majority vote at any meeting of the stockholders.

ACTION BY WRITTEN CONSENT

Under Delaware law, unless otherwise provided in a corporation's certificate of incorporation, any action that may be taken at a meeting of stockholders may be taken without a meeting and without prior notice if a written consent is signed by the holders of the minimum number of votes necessary to authorize the action at a meeting at which all shares entitled to vote were present and voted. Royal Gold's amended and restated bylaws provide the same standard for written consent.

Under Nevada law, any action required or permitted to be taken at a meeting of stockholders may be taken without a meeting if a written consent is signed by the holders of at least the minimum amount of outstanding voting stock required to authorize any such action. The articles of incorporation and amended and restated bylaws of Battle Mountain provide that any action may be taken without a meeting if authorized by the written consent of stockholders holding at least a

majority of the voting power, unless a greater proportion of voting power is required for such action.

NOTICE OF STOCKHOLDER MEETINGS AND ACTIONS

Delaware law and Royal Gold's amended and restated bylaws provide that written notice of the date, place, time and, in the case of special meetings, the purpose or purposes of every meeting of stockholders must be given not less than 10 nor more than 60 days before the date of the meeting, either personally or by mail, to each stockholder of record entitled to vote at the meeting. Royal Gold's amended and restated bylaws further provide that the only matters that may be considered and acted upon at an annual meeting of stockholders are those matters brought before the meeting:

as specified in the notice of meeting given by or at the direction of Royal Gold's board of directors;

as otherwise properly brought before the meeting by or at the direction of Royal Gold's board of directors; or

as otherwise properly brought before the meeting by a stockholder.

Generally, Royal Gold's amended and restated bylaws require a stockholder who intends to bring matters before an annual meeting to provide advance notice of such intended action not less than 90 days nor more than 120 days prior to the meeting; except if less than 100 days notice was given or public disclosure was made for the meeting, advance notice of the matter is required to be given not less than 10 days after notice or public disclosure of the meeting, and notice as required by the Exchange Act. The notice of the matter generally must contain a brief description of the business desired to be brought before the annual meeting and if regarding the nomination of a director, all information required to be disclosed in solicitation of proxies for election of directors under Schedule 14A of the Exchange Act, the reasons for conducting the business at the annual meeting, the name and record address of such stockholder, the class and number of shares of Royal Gold stock owned by such stockholder, a description of any material interest of the

Nevada law provides that written notice of the time, place and date of every meeting of stockholders must be delivered or mailed not less than 10 nor more than 60 days before the date of the meeting to each stockholder of record entitled to vote at the meeting. Battle Mountain's amended and restated bylaws provide that the notice of stockholders' meetings shall be in writing signed by the President or Vice President or the Secretary or the Assistant Secretary or any person designated by the board of directors. The notice shall state the purpose of the meeting, and the time and place where the meeting will be held. The notice must also contain the means of electronic communications, if any, by which stockholders and proxies shall be deemed to be present in person and vote. The notice shall be delivered or mailed not less than 10 nor more than 60 days before the date of the meeting.

Battle Mountain's amended and restated bylaws provide that proceedings of a meeting of stockholders may be valid even though no notice of a meeting was given, provided all stockholders entitled to vote at any meeting consent either by (1) a writing on the records of the meeting or (2) presence at such meeting and oral consent entered on the minutes or (3) taking part in the deliberations at such meeting without objection. At such meeting, any business may be transacted which is not excepted from the written consent or to which no objection for want of notice is made at the time and provided a quorum was present at such meeting, the proceedings at a meeting irregular for want of notice may be ratified and approved and rendered valid.

Battle Mountain's amended and restated bylaws provide that nomination notices and stockholder proposals must be delivered to the Secretary at the principal executive office of the corporation or mailed and received at the executive offices of the corporation (a) in the case of an annual meeting, 120 days prior to the anniversary date of the immediately preceding annual meeting of

following the day on which notice of the date of the special meeting was mailed or public disclosure of the date of the special meeting was made, whichever occurs first.

Battle Mountain's amended and restated bylaws require the board of directors to designate by resolution at any time within the first nine months following the close of the corporation's fiscal year, the date of the annual meeting of stockholders.

SPECIAL STOCKHOLDER MEETINGS

Under Royal Gold's amended and restated bylaws, a special meeting of the stockholders may be called at any time by Royal Gold's president or board of directors. Stockholders do not have the right to call special meetings or to bring business before special meetings.

Battle Mountain's amended and restated bylaws provide that special meetings of the stockholders may be called by the chairman of the board of directors or the board of directors. The articles of incorporation provide that the president or any other executive officer of the corporation, the board of directors or any member may call special meetings of the stockholders, or by the record holder or holders of at least 10% of all shares entitled to vote at the meeting.

LIMITATION OF PERSONAL LIABILITY AND INDEMNIFICATION OF DIRECTORS AND OFFICERS

Royal Gold's restated certificate of incorporation provides that a director shall not be liable to Royal Gold or to its stockholders for monetary damages for breach of fiduciary duty as a director, except that a director shall be so liable (i) for breach of the director's duty of loyalty to Royal Gold or its stockholders, (ii) acts or omissions not in good faith or which involve intentional misconduct or knowing violation of law, (iii) for unlawful payment of dividend or unlawful stock repurchase or redemption as provided under Section 174 of the Delaware law or (iv) for any transaction from which the director received an improper personal benefit.

Royal Gold's amended and restated bylaws provide that Royal Gold shall indemnify all of its directors and officers to the full extent permitted by the Delaware Law. Under such provisions, any person who was made or threatened to be made a party to any threatened, pending or completed

Under Nevada law, and except as provided in the corporation's articles of incorporation, a director or officer is not individually liable to the corporation or its stockholders for any damages as a result of any act or failure to act in his or her capacity as a director or officer, unless it is proven that such act or failure to act constituted a breach of fiduciary duties as a director or officer; and the breach of those duties involved intentional misconduct, fraud or a knowing violation of law. Such provisions, however, will not eliminate a director's or officer's liability to the corporation in the case of a judgment of ouster rendered against a corporation on account of the misconduct of the director or officer, a violation of Nevada state securities laws, or certain other violations of law.

Battle Mountain's articles of incorporation provide the same indemnification provisions reflected above. The

action, suit or proceeding by reason of the fact that he or she is serving as a director or officer of Royal Gold or serving at Royal Gold's request as a director, officer, employee or agent of another entity will be indemnified to the full extent permitted by applicable law against expenses, liability and loss (including attorney's fees) reasonably incurred by such person.

Royal Gold's amended and restated bylaws further provide that Royal Gold will pay the expenses (including

amended and restated bylaws provide that a director who performs his duties in good faith and in a manner he reasonably believes to be in the best interests of the corporation and who relies on information, reports and statements, including financial statements of one or more officers or employees whom the director reasonably believes to be reliable and competent in the matters presented, counsel, public accountants or a committee of the board on which he does not serve, duly designated in accordance with the provisions of the articles of incorporation or bylaws within its designated authority, which committee the director reasonably

attorneys' fees) incurred by an officer or director in defending any proceeding in advance of the final disposition of such proceeding upon receipt of an undertaking by such director or officer to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified.

Royal Gold may indemnify and advance expenses to a person who is not or was not a director or officer, but was an employee or agent, of Royal Gold to the same extent described above.

Royal Gold may purchase insurance on behalf of such person against any liability asserted against and incurred by any person who is or was a director, officer, employee or agent of Royal Gold or serving at Royal Gold's request as such of another entity, whether or not Royal Gold would have the power to indemnify such person against such liability under Delaware law.

Royal Gold entered into indemnification agreements with each of its current officers and directors. The indemnification agreements cover, among other things, any and all expenses, judgments, fines, penalties, and amounts paid in settlement by the director or officer, provide for the advancement of expenses incurred by the director or officer in connection with any proceeding and obligate the director or officer to reimburse Royal Gold for all amounts so advanced if it is subsequently determined, as provided in the indemnification agreements, that the director or officer is not entitled to indemnification.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling Royal Gold pursuant to Royal Gold's restated certificate of incorporation, amended and restated bylaws or any indemnification agreement, Royal Gold has been informed that in the opinion of the SEC such indemnification is against public policy as expressed under the Securities Act and is therefore unenforceable.

Battle Mountain's amended and restated bylaws authorize the board of directors to declare and pay dividends on its outstanding shares as provided in the articles of incorporation or by law.

CONVERSION

Holders of Royal Gold common stock have no rights to convert their shares into any other securities.

Holders of Battle Mountain common stock have no rights to convert their shares into any other securities.

STOCKHOLDER RIGHTS PLAN

Rights to purchase Royal Gold Series A Junior Participating Preferred Stock, \$0.01 par value per share (the Series A Preferred Stock) have been distributed to holders of Royal Gold common stock under a rights agreement. A maximum of 500,000 shares of Series A Preferred Stock is currently authorized for issuance upon exercise of these rights. The rights agreement provides that attached to each share of Royal Gold common stock is one right that, when exercisable, entitles the holder to purchase one one-thousandth of a share of Royal Gold Series A Preferred Stock at a purchase price of \$175, subject to adjustment. In certain events, including when a person or group becomes the owner of 15% or more of outstanding Royal Gold common stock or when a person or group commences a tender offer or exchange offer for 15% or more of outstanding Royal Gold common stock, the rights become exercisable. Exercise of the rights would entitle the holders of the rights (other than the acquiring person or group) to receive one one-thousandth of a share of Royal Gold Series A Preferred Stock or the Preferred Stock equivalent, or in lieu thereof, shares of Royal Gold common stock with a market value equal to two times the exercise price of the rights. At any time after the rights become exercisable, but before the acquiring person or group has obtained 50% or more of outstanding Royal Gold common stock, Royal Gold's board of directors,

under certain circumstances, may exchange the rights for a share of Royal Gold common stock or one one-thousandth of a share of Royal Gold Series A Preferred Stock or the preferred stock equivalent. Accordingly, exercise or exchange of the rights may cause substantial dilution to a person or group that attempts to acquire Royal Gold. The rights may be

redeemed at a price of \$.001 per right at any time until the earlier of the tenth day following an announcement that an individual, corporation or other entity has acquired 15% or more of outstanding Royal Gold common stock or the final expiration date of the rights, which is September 10, 2017, except as otherwise provided in the rights agreement. The rights agreement makes the takeover of Royal Gold much more difficult.

VOTING RIGHTS; REQUIRED VOTE FOR AUTHORIZATION OF CERTAIN ACTIONS

Mergers or Consolidations. Generally, under Delaware law, the approval of a corporation's board of directors and the approval of a majority of the outstanding stock entitled to vote is required to approve mergers or consolidations. However, unless a corporation's certificate of incorporation provides otherwise, no stockholder vote is required in connection with a merger where:

the corporation's certificate of incorporation is not amended, the shares of the corporation's stock outstanding immediately prior to the merger are to be identical outstanding or treasury shares of the surviving corporation after the merger, and the common stock issuable as a result of the merger does not exceed 20% of the previously outstanding common stock; or

the merger is with a wholly-owned subsidiary of the corporation and certain conditions are met.

Similarly, a sale of all or substantially all of a corporation's assets other than in the ordinary course of business, or a voluntary dissolution of a corporation, requires the approval of a corporation's board of directors and the approval of a majority of the outstanding stock entitled to vote on the transaction.

Business Combinations. Under Delaware law, a corporation may not engage in any business combination with any interested stockholder. These restrictions will not apply if the corporation's original certificate of incorporation contains a provision expressly electing not to be governed by these provisions or if the corporation's certificate of incorporation or bylaws are amended to contain such a provision or under certain circumstances.

Mergers or Consolidations. Under Nevada law, the consummation of a merger requires the approval of a majority of the board of directors of each corporation and the approval of a majority of the voting power of the stockholders entitled to vote on a merger. Under Nevada law, approval of the stockholders of a Nevada corporation which is a surviving corporation in a merger is not required if:

the articles of the surviving corporation will not differ from its articles before the merger;

immediately after the effective date each stockholder of the surviving corporation will hold the same number of shares as those held by the stockholder immediately prior to the merger, with identical designations, preferences, limitations and relative rights; and

the number of voting or participating shares, as the case may be, outstanding immediately after the merger (either by conversion of other securities or upon exercise of rights or warrants issued pursuant to the merger), plus the number of voting or participating shares issuable as a result of the merger, will not exceed by more than 20% the number of voting or participating shares (adjusted to reflect any share split under the plan of merger) of the surviving corporation outstanding immediately prior to the merger.

Under Nevada law, a sale of all or substantially all of Battle Mountain's assets outside of the regular course of business, or a voluntary dissolution of Battle Mountain, requires the same board of director and stockholder approval thresholds as that for a merger.

Royal Gold has not made such an election and thus, Royal Gold is subject to Section 203 of the Delaware law, an anti-takeover law prohibiting business combinations with any interested stockholder. In general, Section 203

Business Combinations. Sections 78.411 to 78.444 of the Nevada Revised Statutes, inclusive, restrict the ability of a resident domestic corporation to engage in any combination with an interested stockholder for three years after the date the stockholder became an interested stockholder, unless the combination or the purchase of

prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the date that the stockholder became an interested stockholder, unless:

prior to that date, the board of directors of the corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares of voting stock outstanding (but not the voting stock owned by the interested stockholder) those shares owned by persons who are directors and also officers and by excluding employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

on or subsequent to that date, the business combination is approved by the board of directors of the corporation and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66²/₃% of the outstanding voting stock that is not owned by the interested stockholder.

A **business combination** includes mergers, asset sales and other transactions resulting in a financial benefit to the interested stockholder. In general, an **interested stockholder** is any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation, or who beneficially owns, or owned within three years of the business combination, 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by any of these entities or persons.

Battle Mountain

shares by the interested stockholder that caused such stockholder to become an interested stockholder is approved by the board of directors of the resident domestic corporation before the date the person became an interested stockholder. If the combination was not previously approved, the interested stockholder may effect a combination after the three-year period only if such stockholder receives approval from a majority of the disinterested shares or the offer meets various fair price criteria. For purposes of the foregoing provisions, **resident domestic corporation** means a Nevada corporation that has 200 or more stockholders and **interested stockholder** generally means the beneficial owner, directly or indirectly, of 10 percent or more of the voting power of then outstanding shares of the resident domestic corporation.

The above provisions do not apply to any combination involving a resident domestic corporation:

whose original articles of incorporation expressly elect not to be governed by Sections 78.411 to 78.444 of the Nevada Revised Statutes, inclusive;

whose original articles of incorporation have been amended pursuant to NRS 78.411 to 78.444 and the combination is with a person who first became an interested stockholder before the effective date of the amendment;

which does not, as of the date the interested stockholder first became an interested stockholder, have a class of voting shares registered with the SEC under Section 12 of the Securities Act, unless the corporation's articles of incorporation provide otherwise;

whose articles of incorporation were amended to provide that the corporation is subject to the above provisions and which did not have a class of voting shares registered under Section 12 of the Securities Act on the effective date of such amendment, if the combination is with an interested stockholder who first became an interested stockholder before the effective date of such amendment; or

that amends its articles of incorporation, approved by a majority of the disinterested shares, to expressly elect not to be governed by Sections 78.411 to 78.444 of the Nevada Revised Statutes, inclusive. Such an amendment, however, would not become effective until 18 months after its passage and would apply only to stock acquisitions occurring after the effective

date of the amendment. The Battle Mountain articles of incorporation do not exempt Battle Mountain from the restrictions imposed by such provisions of Nevada law.

Control share acquisitions. Sections 78.378 to 78.3793 of the Nevada Revised Statutes, inclusive, provide, in effect, that a person acquiring a controlling interest in an issuing corporation, and those acting in association with such person, obtain only such voting rights in the control shares as are conferred by a resolution of the stockholders (excluding such acquiring and associated persons) approved at a special or annual meeting of stockholders. For purposes of the foregoing provisions, *issuing corporation* means a corporation organized in Nevada that has 200 or more stockholders of record, at least 100 of whom have addresses in Nevada on the corporation's stock ledger, and does business in Nevada directly or through an affiliate, and *controlling interest* means the ownership of outstanding voting shares enabling the acquiring person to exercise (either directly or in association with others) one-fifth or more but less than one-third, one-third but less than a majority, or a majority or more of the voting power of the issuing corporation in the election of directors. Accordingly, the provisions could require multiple votes with respect to voting rights in share acquisitions effected in separate stages.

The above provisions do not apply to an acquisition of a controlling interest if the articles of incorporation or bylaws of the issuing corporation in effect on the tenth day following the acquisition of such controlling interest provide either specifically or generally that the provisions do not apply to such acquisitions. The provisions are also inapplicable to shares acquired pursuant to a statutory merger (such as the merger) effected pursuant to Nevada law or by operation of law such as inheritance or the enforcement of a judgment or security interest.

Depending on the issuing corporation's articles of incorporation and bylaws in effect on the tenth day following the applicable controlling interest acquisition, the issuing corporation may have rights to redeem the shares so acquired, and its stockholders may have dissenters' rights with respect to the approval of voting

rights equivalent to those described under Dissenters Rights below.

Under Battle Mountain's amended and restated bylaws, Battle Mountain has elected to exempt itself from the Nevada control share acquisition statute.

APPRAISAL OR DISSENTER'S RIGHTS

Under Delaware law, stockholders of any class or series of stock have the right, in specified circumstances, to dissent from a merger or consolidation by demanding payment in cash for the stockholder's shares equal to the fair value of those shares, as determined by the Delaware Chancery Court in an action timely brought by the corporation or a dissenting stockholder. Delaware law grants these appraisal rights only in the case of mergers or consolidations and not in the case of a sale or transfer of assets or a purchase of assets for stock. Further, no appraisal rights are available for shares of any class or series that is listed on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or held of record by more than 2,000 stockholders, unless the agreement of merger or consolidation requires the holders to accept for their shares anything other than:

shares of stock of the surviving corporation;

shares of stock of another corporation that are either listed on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or held of record by more than 2,000 stockholders;

cash in lieu of fractional shares of the stock described in the two preceding clauses; or

any combination of the above.

In addition, appraisal rights are not available to holders of shares of the surviving corporation in specified mergers that do not require the vote of the stockholders of the surviving corporation.

Royal Gold's restated certificate of incorporation and amended and restated bylaws are silent as to dissenters rights.

Under Nevada law, a stockholder of a Nevada corporation, with certain exceptions, has the right to dissent from, and obtain payment of the fair value of his shares in the event of:

consummation of a merger or conversion to which the corporation is a party;

consummation of a plan of exchange to which the corporation is a party as the corporation whose shares will be acquired, if the stockholder's shares are to be acquired in the plan of exchange;

any corporate action taken pursuant to a vote of the stockholders to the extent that the articles of incorporation, bylaws or a resolution of the board of directors provides that voting or non-voting stockholders are entitled to dissent and obtain payment for their shares; and

any corporate action not described in the bullet points above that will result in the stockholder receiving money or scrip instead of fractional shares.

Under Nevada law, unless a corporation's articles of incorporation provide otherwise, there is no right of dissent with respect to a plan of merger or share exchange, in favor of stockholders of any class or series which, at the record date fixed to determine the stockholders entitled to receive notice of and to vote at the meeting at which the plan of merger or exchange is to be acted on, were either registered on a national securities exchange, or included in the national market system by the National Association of Securities Dealers, Inc., or held of record by 2,000 or more stockholders, unless the plan of merger or exchange requires the holders to accept for their shares anything other than:

cash, owner's interests or owner's interests and cash in lieu of fractional owner's interests of the surviving or acquiring entity;

any other entity that is either listed on a national securities exchange, included in the national market system by the National Association of Securities Dealers, Inc. or held of record by more at least 2,000 stockholders;

any combination of the above.

A stockholder of the surviving corporation does not have

Royal Gold

Battle Mountain

a right to dissent with respect to a plan of merger if the plan of merger does not require approval of the stockholders of the surviving corporation.

A stockholder of record of a Nevada corporation may dissent as to less than all the shares registered in his name only if he dissents with respect to all shares beneficially owned by any one person and notifies the corporation in writing of the name and address of each person on whose behalf he asserts dissenter's rights. In such event, the stockholder's rights will be determined as if the shares to which he dissented and his other shares were registered in the names of different stockholders.

Battle Mountain's articles of incorporation and amended and restated bylaws are silent as to dissenter's rights.

RELATIONSHIP WITH BATTLE MOUNTAIN

You should be aware of various existing agreements, ongoing and prior arrangements and transactions between Royal Gold and/or its affiliates and Battle Mountain, as described below. Some of these relationships will terminate upon the completion of the merger. For more information on the interests that Battle Mountain's directors and executive officers have in the merger, see "Interests of Certain Persons in the Merger" on page 75.

As of the record date, September 26, 2007, Royal Gold beneficially owns 63,505,014 shares of Battle Mountain common stock, representing approximately 56.38% of the outstanding shares of Battle Mountain common stock as of September 26, 2007.

In anticipation of the merger transaction, on March 5, 2007, Royal Gold obtained a binding support agreement and option to purchase from Mark Kucher, Chairman of Battle Mountain, his shares of common stock of Battle Mountain. The support agreement with Mr. Kucher also provides that Mr. Kucher will vote, and grant Royal Gold an irrevocable proxy to vote, his shares of common stock of Battle Mountain (i) in favor of the merger and the merger agreement and (ii) against any action, agreement, transaction or proposal that is made in opposition to, or is in competition or inconsistent with the merger or the merger agreement, relates to a competing transaction or that could otherwise prevent, impede or delay the consummation of the merger. Mr. Kucher also agreed to refrain from initiating, soliciting or encouraging any inquiries or the making of any proposal that constitutes or reasonably may be expected to lead to a competing transaction and to advise Royal Gold of any such inquiries or proposals of which such he becomes aware.

In addition, Mr. Kucher agreed that he will not (i) tender into any tender or exchange offer or otherwise directly or indirectly transfer his Battle Mountain common stock or (ii) grant any proxies with respect to his Battle Mountain common stock, deposit such common stock into a voting trust, enter into a voting agreement with respect to such common stock or otherwise restrict his ability to freely to exercise all of his voting rights with respect to such common stock.

Furthermore, pursuant to the support agreement with Mr. Kucher, Mr. Kucher granted Royal Gold an irrevocable option to purchase his shares of Battle Mountain common stock at an exercise price per share of 0.016925 shares of

Royal Gold common stock. Royal Gold's option to purchase Mr. Kucher's shares will terminate upon the twelve-month anniversary of the support agreement.

Royal Gold also obtained irrevocable proxies, dated July 27, 2007, from David Atkinson, Chief Financial Officer of Battle Mountain, and each of the non-employee directors of Battle Mountain, Robert Connochie, Anthony E. W. Crews, Brian M. Labadie and Christopher E. Herald to vote their respective shares of Battle Mountain common stock in favor of the merger and against any proposal made in opposition to or in competition with, the consummation of the merger. As a result of the support agreement with Mr. Kucher and the irrevocable

Table of Contents

proxies with Messrs. Atkinson, Connochie, Crews, Labadie and Herald, Royal Gold beneficially owns 22,124,192 shares of Battle Mountain common stock or 25.30% of the outstanding shares of Battle Mountain common stock.

Royal Gold also obtained a binding support agreement and option to purchase from IAMGOLD its shares of common stock of Battle Mountain, including shares of Battle Mountain common stock that IAMGOLD may acquire upon the conversion of a convertible debenture of Battle Mountain Gold (Canada) Inc., a subsidiary of Battle Mountain. The outstanding principal and interest under the debenture is convertible for shares of Battle Mountain common stock at a conversion price of \$0.50 per share, subject to adjustment as set forth in the debenture. The support agreement with IAMGOLD also provides that IAMGOLD will vote, and grant Royal Gold an irrevocable proxy to vote, its shares of common stock of Battle Mountain (i) in favor of the merger and the merger agreement and (ii) against any action, agreement, transaction or proposal that is made in opposition to, or is in competition or inconsistent with the merger or the merger agreement, relates to a competing transaction or that could otherwise prevent, impede or delay the consummation of the merger. IAMGOLD also agreed to refrain from initiating, soliciting or encouraging any inquiries or the making of any proposal that constitutes or reasonably may be expected to lead to a competing transaction and to advise Royal Gold of any such inquiries or proposals of which such it becomes aware.

In addition, IAMGOLD agreed that it will not (i) tender into any tender or exchange offer or otherwise directly or indirectly transfer its Battle Mountain common stock or (ii) grant any proxies with respect to its Battle Mountain common stock, deposit such common stock into a voting trust, enter into a voting agreement with respect to such common stock or otherwise restrict its ability to freely to exercise all of its voting rights with respect to such common stock.

Furthermore, pursuant to the support agreement with IAMGOLD, IAMGOLD granted Royal Gold an irrevocable option to purchase its shares of Battle Mountain common stock at an option price per share equal to the greater of (i) 0.016925 shares of Royal Gold common stock, (ii) the per share consideration offered pursuant to a superior proposal to the merger and (iii) the highest price paid by Royal Gold to any other shareholder of Battle Mountain at any time during the ninety days prior to the date that the Battle Mountain stockholders approve the merger and the merger agreement. Royal Gold's option to purchase IAMGOLD's shares will terminate, unless previously exercised, upon the earlier of (i) September 5, 2007, (ii) five business days after Royal Gold is notified of a superior proposal to the merger and (iii) the date on which the support agreement with IAMGOLD terminates.

The voting and transfer restrictions on IAMGOLD will terminate in the event Royal Gold has been notified of a written and publicly announced acquisition proposal that Battle Mountain's board of directors concludes is more favorable to Battle Mountain's stockholders than the merger or a written offer pursuant to which IAMGOLD will receive a per share purchase price at least 7.5% higher than the per share consideration to be paid in the merger, as described herein. On September 4, 2007, pursuant to the option and support agreement with IAMGOLD, Royal Gold issued 216,642 shares of its common stock to IAMGOLD and Repadre in connection with Royal Gold's purchase of 12,102,940 shares of Battle Mountain common stock from IAMGOLD and Repadre and paid \$2,242,082 in cash in to IAMGOLD connection with the purchase of the convertible debenture from IAMGOLD. On September 5, 2007, Royal Gold exercised its option to convert all of the outstanding principal and accrued interest as of September 4, 2007 under the convertible debenture into Battle Mountain common stock, for an aggregate of 4,086,794 shares of Battle Mountain common stock.

On March 23, 2007, Royal Gold made a \$13.91 million loan to Battle Mountain pursuant to an unsecured one year term non-convertible promissory note that accrues interest at a variable rate of LIBOR plus 3% per annum. On March 28, 2007, Royal Gold entered into a bridge finance facility agreement with Battle Mountain and BMGX (Barbados) Corporation, as borrowers, which was amended on July 30, 2007, whereby Royal Gold agreed to make available to the borrowers a bridge facility of up to \$20 million. On April 14, 2007, pursuant to the terms of the bridge

facility, the maximum availability under the bridge facility was reduced to \$15 million. Outstanding principal, interest and expenses under the bridge facility may be converted at Royal Gold's option into Battle Mountain common stock at a conversion price per share of \$0.60 any time during the term of the bridge facility provided that Royal Gold provides notice of its election to convert on or before April 4, 2008. The bridge facility will mature on June 6, 2008. Interest on advances will accrue at the LIBOR plus 3% per annum. To secure their obligations under the bridge facility, the borrowers granted to Royal Gold a security interest in most of their

respective assets, and Battle Mountain has pledged to Royal Gold its equity interests in its subsidiaries. In connection with the bridge facility, the unsecured one-year term non-convertible promissory note pursuant to which Royal Gold made the \$13.91 million loan to Battle Mountain on March 23, 2007 was superseded by a secured promissory note issued under the bridge facility, with the \$13.91 million loan constituting an advance under the bridge facility. On May 9, 2007, Royal Gold advanced an additional \$600,000 to Battle Mountain pursuant to the bridge facility. As of September 26, 2007, \$15,114,593, of principal and accrued interest was outstanding on the bridge facility. Based on the right to convert the outstanding principal and accrued interest under the bridge facility, Royal Gold beneficially owns approximately 25,190,988 shares of Battle Mountain common stock or 23.17% of the outstanding shares of Battle Mountain common stock.

On March 28, 2007, Royal Gold and Battle Mountain entered into a Voting Limitation Agreement pursuant to which Royal Gold agreed that if definitive documentation for Royal Gold's acquisition of Battle Mountain was executed, then during the period of time commencing upon the termination of the definitive documentation by Battle Mountain in accordance with its terms and the terms of the Voting Limitation Agreement as a result of Battle Mountain's receipt of a superior bona fide acquisition proposal before Battle Mountain's stockholders have approved the acquisition by Royal Gold and ending upon the earlier to occur of the consummation or termination of the transaction underlying the superior proposal, Battle Mountain's acceptance of any proposed modifications to the definitive documentation with Royal Gold such that the proposal previously considered to be superior is no longer superior, or Battle Mountain's receipt of stockholder approval approving the acquisition by Royal Gold, Royal Gold will not vote more than 39.9% of the total number of shares of Battle Mountain common stock entitled to vote in favor of its transaction with Battle Mountain or in opposition to a competing transaction; provided, however that Royal Gold may vote any remaining shares of Battle Mountain common stock in a manner proportionate to the manner in which all common stockholders of Battle Mountain (other than IAMGOLD, Mark Kucher and Royal Gold) vote in respect of such a matter.

INTERESTS OF CERTAIN PERSONS IN THE MERGER

Members of the board of directors and executive officers of Battle Mountain have interests in the merger that are different from, or are in addition to, the interests of Battle Mountain stockholders generally. The Battle Mountain board of directors was aware of these interests and considered them, among other matters, in approving the merger agreement and in determining whether to recommend to Battle Mountain's stockholders to vote for the approval and adoption of the merger agreement.

Employment Agreements

Battle Mountain previously entered into employment agreements with each of Messrs. Kucher and Atkinson. Pursuant to the terms of Mr. Kucher's employment agreement, Mr. Kucher receives an annual salary of \$250,000, eight weeks vacation and certain medical and other benefits. Mr. Kucher is eligible for a performance based bonus based on two and a half times the change in Battle Mountain's market capitalization during the bonus year. Mr. Kucher is also eligible for periodic bonuses based on the completion of significant transactions equal to 2.5% of the transaction value. The merger transaction may constitute a significant transaction for which Mr. Kucher would be eligible to receive a bonus equal to 2.5% of the transaction value of the merger. Mr. Kucher's employment agreement will be terminated, by mutual agreement of the parties, upon the closing of the merger transaction. INFORMATION CONCERNING BATTLE MOUNTAIN

Description of Business

General Overview

Battle Mountain is a royalty company engaged in acquiring and managing royalty assets for precious metals. Battle Mountain was previously involved in the business of exploring for precious metals on properties in which it held interests in the state of Nevada. Due to the inability to run this business at a profit and the difficulty in attracting additional capital on terms favorable to existing stockholders, Battle Mountain ceased operation of the exploration business in 2006.

Corporate History

Battle Mountain was incorporated in the state of Nevada on November 30, 2001, under the name Hudson Ventures, Inc. (*Hudson Ventures*). Between November 2001 and July 2004, the operations of Hudson Ventures were limited to organizational undertakings and the acquisition of several mineral property option agreements that later expired without being exercised. In early 2004, Hudson Ventures ceased all of its operations.

In September 2004, Battle Mountain Gold Exploration, Inc., a Nevada corporation formed earlier that year by Battle Mountain's current Chairman and Chief Executive Officer, acquired Hudson Ventures. The transaction was structured as a statutory share exchange, such that following the transaction Battle Mountain Gold Exploration, Inc. was a wholly-owned subsidiary of Hudson Ventures. As part of the acquisition, Hudson Ventures changed its name to Battle Mountain Gold Exploration Corp. Battle Mountain's common stock commenced trading on the OTC Bulletin Board on October 7, 2004 and now trades under the symbol *BMGX*.

On June 8, 2004, prior to the Hudson Ventures transaction, Battle Mountain Gold Exploration, Inc. entered into a joint venture by becoming a member of Pediment Gold, LLC (*Pediment Gold*), a Nevada limited liability company created to explore the Nevada great basin physiographic area using a proprietary water chemistry database developed by the joint venture partner. Pediment Gold's operations were focused on northern and central Nevada and identified over thirty areas of gold exploration potential in two specific areas known as the Fletcher Junction Project Area located in Mineral County, Nevada, and the Hot Pots Project Area located in Humboldt County, Nevada.

In June 2006, Battle Mountain divested its membership interest in Pediment Gold to certain related parties to the joint venture partner. In connection with the divestment of Battle Mountain's membership interest in Pediment Gold, Battle Mountain rescinded a transaction involving 7,800,000 previously issued and outstanding shares of Battle Mountain common stock and Battle Mountain obtained a 1.25% NSR on any future production, if any, from the Hot Pots and Fletcher Junction Exploration Projects. The rescission included 3,000,000 shares that had been previously placed in escrow under the terms of an agreement in which Battle Mountain was to obtain 100% control of Pediment Gold and its water technology. The 7,800,000 shares of Battle Mountain common stock were thereafter cancelled.

Following divestment of the membership interest in Pediment Gold, Battle Mountain was no longer in the business of exploring for precious metals, and its sole business became the acquisition and management of royalty assets.

Battle Mountain's Current Business

On April 25, 2006, Battle Mountain acquired certain precious metal royalties that had previously been held by subsidiaries of IAMGOLD for approximately \$21.85 million, comprised of a combination of cash and securities, including the issuance of 12,000,000 shares of Battle Mountain common stock to IAMGOLD, and the issuance of a \$2.0 million convertible debenture to IAMGOLD (the IAMGOLD Debenture). The IAMGOLD Debenture had a

Table of Contents

two year term, bore interest at 6% per annum payable in cash or shares of Battle Mountain common stock, and was exchangeable into shares of Battle Mountain common stock at \$0.50 per share subject to adjustment as set forth in the IAMGOLD Debenture. The IAMGOLD Debenture was converted into Battle Mountain common stock on September 5, 2007, as further described in Battle Mountain's Management's Discussion and Analysis below.

In order to partially finance the cash portion of the acquisition of precious metals royalties from IAMGOLD, Battle Mountain entered into the following two agreements with Macquarie: (i) a gold loan of 11,750 ounces (the Macquarie Gold Loan) requiring specified, periodic redeliveries of gold through May 15, 2010, and (ii) a \$4.0 million bridge loan (the Macquarie Bridge Loan) maturing December 31, 2006 bearing 12% interest per annum. The term of the Macquarie Bridge Loan was subsequently extended to March 31, 2007 by the issuance of 421,053 shares of Battle Mountain common stock to Macquarie.

The precious metals royalties that Battle Mountain acquired from IAMGOLD include:

On March 23, 2007, Battle Mountain received a loan from Royal Gold in the amount of \$13.9 million, of which \$4.5 million was paid, on Battle Mountain's behalf, to Macquarie to pay off all outstanding principal and accrued interest on the Macquarie Bridge Loan and the remaining \$9.4 million was placed in escrow. On March 28, 2007, the parties formalized the loan by entering into a bridge finance facility agreement which was subsequently amended on July 30, 2007 (as amended, the facility agreement) pursuant to which Battle Mountain could borrow up to \$20.0 million in bridge financing to satisfy debt obligations and to finance royalty acquisitions. The promissory note issued to Royal Gold in connection with the \$13.9 million loan was superseded by a secured promissory note issued pursuant to the facility agreement, and the loan constituted an advance under the facility agreement. On April 14, 2007, the maximum amount of availability under the facility agreement was reduced to \$15.0 million as Battle Mountain did not acquire an identified royalty interest.

Amounts outstanding under the facility agreement are convertible at any time into Battle Mountain common stock, at \$0.60 per share, at Royal Gold's election provided that Royal Gold gives notice of its election to convert on or before April 4, 2008. The obligations under the facility agreement mature on June 6, 2008. Interest on advances accrues at LIBOR plus 3% per annum. To secure Battle Mountain's obligations under the facility agreement, Battle Mountain and its subsidiary, BMGX (Barbados) Corporation, have granted to Royal Gold security interests in most of their respective assets and Battle Mountain has pledged its equity interests in its subsidiaries.

On March 28, 2007, Battle Mountain used the \$9.4 million previously placed into escrow to complete the acquisition of the 2% NSR royalty on all of the gold and silver production from the Dolores project. This royalty is in addition to Battle Mountain's existing 1.25% NSR on the gold production from the Dolores project.

Battle Mountain expects that substantially all of its revenues will be derived from royalty interests. Battle Mountain does not conduct mining operations at this time, nor does it expect to conduct such operations in the foreseeable future. Since April 2006, Battle Mountain has focused on the integration of its recently acquired royalty interests. As a result of such acquisitions, Battle Mountain's financial results are dependent upon the prevailing price of gold and production from Battle Mountain's royalty properties.

Key Royalty Assets

NOTE: The information and figures concerning the properties, as set forth herein, have been provided by the owners/operators of the respective mining properties and neither Battle Mountain nor Royal Gold has independently verified such information or figures. The operations on and production from the respective properties are subject to all the substantial risks and uncertainties inherent in and attendant to mining activities and the mining industry.

Williams Royalty

Battle Mountain owns a 0.72% NSR royalty on the Williams mine, located 350 kilometres east of Thunder Bay, Ontario, Canada, and approximately 35 kilometres east of the town of Marathon. Access to the property is

Table of Contents

gained by traveling east on Trans Canada Highway 17, to the Town of Marathon, Ontario. From there, the Williams Mine is located an additional 35 kilometers to the east. The highway lies along the Williams Mine southern claim border.

Geology and Mineralization. The Williams mine is within a lithologically, structurally and metamorphically distinct part of the upper calc-alkaline Heron Bay sequence of the Schreiber-White River greenstone belt. It consists of the B and C zones, two geographically distinct, north dipping pyritic gold deposits differing in size, lithology, structure, abundance and form of contained gold, and attendant metamorphic minerals. The two deposits are hosted by differing stratigraphic sequences which are bounded and offset by a vertically dipping, a northeast striking fault and two vertically dipping, east southeast striking faults. The B zone is a thick lens containing 40% of the remaining gold reserve. The C zone contains 60% of the remaining gold reserve in multiple sub-parallel lenses of irregular, generally narrow, mineralization.

The Williams mine is currently owned and operated equally by Teck Cominco Ltd. and Homestake Canada Inc., a wholly owned subsidiary of Barrick Gold Corp. The Williams mine has been operating since the fall of 1985. The Williams mine is part of the Hemlo Operations, which also include the David Bell mine. The David Bell mine is not included within Battle Mountain's royalty interest. The mill, located at the Williams mine, processes ore for both the Williams mine and David Bell mine. The mill is currently operating as designed and undergoes regular maintenance.

The Williams mine is primarily an underground operation, with some open pit mining. The property comprising the Williams Mine includes 11 patented mining claims and 6 leased claims. The mine covers a surface area of approximately 270 hectares. The Williams Mine is currently one of the largest gold mines in Canada. The mill started production in 1985 at a rate of 3,000 tonnes per day, and currently operates at a rate of 10,000 tonnes per day. The current mine plan calls for mining operations to continue until 2011. One tonne is equal to approximately 1.1023 tons.

The Williams open pit mine lies immediately above and adjacent to the underground mine, and ore from these two sources and the David Bell mine is treated in the Williams mill. The ore is commingled and the mines are both owned by the same partners. In 2001, the ratio of tonnage milled was 8,322 tonnes per day from the Williams mine and 1,247 tonnes per day from the David Bell mine. Battle Mountain does not own royalty interests on production from the David Bell mine.

As of December 31, 2006, proven and probable reserves for the Williams Mine were 15,700,000 tonnes, with a grade of 2.32 grams/tonne (g/t).

Don Mario Royalty

Battle Mountain owns a 3.0% NSR royalty on the Don Mario mine, which is located within the San Juan Canton, of the province of Chiquitos, in eastern Bolivia. Access to the property is by air from the city of Santa Cruz de la Sierra, or by road (460 road kilometers) or by a combination of rail and road. Access to the mine from Santa Cruz is along the main paved east-west Bolivian highway, which connects the capital La Paz, with the country of Brazil. The distance from Santa Cruz to San Jose de Chiquitos is approximately 280 kilometers. From San Jose to the mine is approximately 180 kilometers, which takes approximately five hours, along paved roads to San Juan, and well maintained gravel roads.

The Don Mario mine is owned by Orvana Minerals Corp. (Orvana). On January 11, 2002, Compania Minera del Sur (Comsur), one of the largest privately held mining companies in Bolivia, completed the purchase of a majority interest in Orvana. As part of a subsequent corporate reorganization involving Comsur, all of the common stock of Orvana owned by Comsur was transferred to Fabulosa Mines Limited (Fabulosa). Since January 11, 2002, Fabulosa or its predecessors have been managing and supervising the exploration, development and mining activities carried on at the Don Mario mine. The Don Mario mine consists of two zones, the Lower Mineralized Zone (LMZ) and the Upper Mineralized Zone (UMZ). The LMZ is currently being mined, while the UMZ is the subject of a pre-feasibility study recently completed by NCL S.A. of Santiago Chile.

Geology and Mineralization. The Don Mario mine is hosted in the southern portion of the Archean aged Brazilian Shield. The Brazilian Shield extends from Brazil through Guyana and into Venezuela and hosts some of the larger gold deposits in South America. The Brazilian Shield is comprised of Archean and early to middle Proterozoic rocks dominantly consisting of gneisses, migmatites and amphibolites of the Aventura Complex. The property lies within the southeast margin of the Sunsas Mobile Belt of the Brazilain-Bolivian shield, in a region characterized by highly deformed and metamorphosed Lower Proterozoic rocks.

Plant and Equipment. The Don Mario process plant has been in operation since late 2003. The processing plant has a throughput of 230,000 tonnes per year (630 tonnes per day). The mill processed 234,164 and 233,837 tonnes of ore in fiscal 2004 and 2005 respectively. The rock crusher, storage bins and CIL tanks continue to perform as designed.

Exploration. The Don Mario mine has been actively explored by Orvana since 1996, including several periods when joint venture partners completed the work program. Current exploration is focused on the UMZ. Orvana has recently completed a pre-feasibility study on the UMZ, and is moving ahead with the completion of a feasibility study by December 2007 for the UMZ. Results from the pre-feasibility study for the Don Mario mine s UMZ include completion of a mineral reserve estimate for the UMZ deposit, with proven and probable reserves totaling 5.45 million tonnes at average grades of 1.50% copper, 1.42 grams per tonne gold and 46.6 g/t silver. The mineral reserves, according to Orvana Minerals Corp., would support a mine life of seven years at a maximum production rate of 875,000 tonnes per annum. Annual payable metal production would average 33,800 ounces of gold, 1,000,000 ounces of silver and 10,300 tonnes of copper. Project economics were based on \$450 per ounce for gold, \$7.00 per ounce for

silver and \$1.20 per pound for copper. Battle Mountain s 3.0% royalty covers all metals.

The Don Mario mine has been in operation since 2003.

As of November 1, 2005, Orvana reported proven and probable reserves for the LMZ of 1,017,504 tonnes, with a grade of 11.27 g/t.

El Limon Royalty

Battle Mountain owns a 3.0% NSR royalty on the El Limon mine and La India Project. The mine is owned by Glencairn Gold Corporation and is currently operating. In addition, the La India project is currently being explored. Royalty payments are received in gold bullion from the El Limon mine. The El Limon mine is located in northwestern Nicaragua, approximately 140 kilometers from the capital Managua. The Pan American highway connects Managua to Leon, approximately 125 kilometers along the paved highway, and from there it is an additional 15 kilometers, to the village of El Limon, on a well maintained all season weather road.

Geology and Mineralization. The El Limon and La India deposits are both examples of low-sulphidation, quartz-adularia, epithermal systems in Nicaragua, and are target types for the El Limon property. The host rocks for the vein and vein breccia structures are the volcanics of the Miocene-Pliocene Coyol Group. The veins are predominantly quartz with lesser amounts of calcite and minor adulara. There is less than 2% pyrite, trace amounts of chalcopyrite, sphalerite, arsenopyrite, gold tellurides and the gold is very fine and relatively uniformly distributed through the ore shoots.

Plant and Equipment. The El Limon mill was constructed as a 1,000 tonnes per day carbon-in-pulp gold recovery plant. The mill productivity is limited by mine production, but has demonstrated that the mill is capable of sustaining a throughput of 1,200 tonnes per day.

Exploration. Since 2004, Glencairn has carried on an exploration program which consists primarily of diamond drilling. The exploration targets are low sulphidation epithermal quartz veins with gold mineralization, and the focus is on exploration and resource definition around the south end of the El Limon vein, and on finding the source for auriferous quartz boulders at Santa-Rosa-Uval. Additional early exploration drilling has been ongoing to test a number of the exploration targets within the El Limon concession.

Since 1941, El Limon has produced nearly three million ounces of gold. Since 2002, the mine has produced an average of 46,593 ounces of gold per year. The mine sold 33,067 ounces of gold in 2006. Based on the current mine plan, the mine life is estimated at five years, not including any future additional resource from the El Limon mine or exploitation of the La India Project. Glencairn has spent approximately \$1,500,000 exploring the El Limon property in 2005 and 2006.

As of December 31, 2006, the proven and probable reserves were 1,178,000 tonnes, with a grade of 5.26 g/t.

Dolores Royalty

Battle Mountain owns a 1.25% NSR royalty on gold production from the Dolores project. On March 28, 2007, Battle Mountain completed the acquisition of an additional 2% NSR royalty on all of the gold and silver production from the Dolores project. Battle Mountain now has total NSR royalties on Dolores of 3.25% on gold and 2% on silver production. The project is owned by Minefinders Corporation Ltd. The Dolores project consists of nine contiguous mineral concessions covering approximately 27,700 hectares that are located in the westernmost part of the State of Chihuahua near the border with the state of Sonora. Access to the mine site is from Guerrero, a small city located along the main east-west paved Mexican highway 110 kilometers west of Chihuahua. From there, the paved road continues northerly 210 kilometers to the town of Madera. The property is reached from Madera by 90 kilometers of very poor gravel and dirt logging roads. Narrow winding dirt roads provide access throughout the area. Access to the property can also be by utilizing the light aircraft landing on a dirt strip located about eight kilometers

Table of Contents

from the mine site. Site access is being improved by Minefinders Corporation as part of the project construction activities.

In February 2006, Minefinders Corporation Ltd. received a bankable feasibility study and its board of directors approved the construction of an 18,000 tonnes per day open-pit, heap leach mine, estimated to recover 1.445 million ounces of gold and 53.2 million ounces of silver over a 12 year mine life. Construction of the mine is in process, and commencement of operations is expected near the end of calendar 2007.

Geology and Mineralization. The Dolores project is considered to be a low-sulphidation Ag-Au epithermal deposit typical of the Mexican silver belt. The low-sulphidation vein systems are commonly characterized by their low sulphide contents, quartz-adularia-sericite alteration mineralogy, and lack of extensive wallrock alteration. High-sulphidation vein systems are commonly characterized by sulphur saturation leading to the presence of native sulphur and sulphide minerals, quartz-alunite alteration mineralogy and extensive wallrock alteration. The Mexican silver deposits are usually not at the end member classifications and often fit in the intermediate-sulphidation position.

The Dolores project lies in a geological division known as the Barrancas sub province in the south central portion of the Sierra Madre Occidental geological province. The Sierra Madre Occidental is a linear volcanic belt orientated north north-westerly. It is approximately 1,200 kilometers long, and varies in width between 200 and 300 kilometers. Regionally the belt forms a broad anticlinal structure containing shallow dipping eastern flanks with more steeply dipping units in the west. The entire Sierra Madre Occidental is cut by numerous longitudinal faults. In the east flank of the anticline the faulted down-drops are minor. Along the west flank the down-drop are larger, primarily because of larger vertical displacements along the faults, but also because of the lower elevation of the adjacent Sinaloa portion of the Sonoran Basin and Range province.

Exploration. The Dolores project has been actively explored by Minefinders Corporation since 1993 including several periods when joint venture partners completed the work programs. Such programs included 6 square kilometers of detailed mapping as well as 12 square kilometers of reconnaissance mapping, the collection of approximately 13,000 rock chips at surface, 532 underground samples, 9,882 individual 5.0 meter chip samples as well as 14.9 kilometers of induced polarization, resistivity surveys, and magnetic surveys. A total of approximately 347 diamond drill holes (95,366m) and 218 RC holes (41,704m) have been completed on the property between 1996 and 2004.

As of December 31, 2006, proven and probable reserves were 100,208,000 tonnes with a grade of 0.76 g/t for gold, and 39.7 g/t for silver.

Other Royalty Assets

The following properties do not currently account for a meaningful part of Battle Mountain's royalty revenues.

Joe Mann Royalty

Battle Mountain owns a 1.0% NSR royalty on gold production from the Joe Mann mine, which is located approximately 550 kilometers north of Montréal, Quebec. The mine is owned by Campbell Resources Inc. and produced 14,100 ounces of gold in 2006. The mine is currently operating. Royalty payments are received in gold bullion from the Joe Mann mine.

Relief Canyon Royalty

Battle Mountain owns a 4.0% NSR royalty on the Relief Canyon mine. The mine is owned by Firstgold Inc. The Relief Canyon mine was previously open-pit, heap leaching operation and is located approximately 110 miles northeast of Reno, Nevada. Based on past exploration by Firstgold, Inc. and others, Firstgold believes the Relief Canyon mine presents the potential for gold bearing ore deposits which will hopefully be validated through further exploration of additional mining claims. Firstgold's operating plan is to place the most promising mining targets into production during 2008, and use the net proceeds from these operations to fund expanded exploration and development of its entire property holdings.

Seguenea Property (Sega)

Battle Mountain owns a 3.0% NSR royalty on the Sega property. The property is owned by Orezone Resources Inc. The property consists of a 124 square kilometer Tiba exploration permit located in the northwest part of Burkina Faso. A resource estimate was completed in March 2006 and showed indicated and inferred mineralization. This is an advanced stage exploration property, with Orezone Resources having spent in excess of \$5.0 million in exploration over the past three years. Orezone Resources has the option to purchase from Battle Mountain up to two thirds of Battle Mountain's royalty interest (i.e. from 3% to 1%) for \$2.0 million, prior to putting the resource into commercial production.

Lluvia De Oro Property

Battle Mountain acquired a 3.0% NSR royalty on the Lluvia de Oro property. The property is believed to be owned by Tara Gold Resources, who may not acknowledge Battle Mountain's royalty interest. This former open-pit gold and silver mine is not currently in production.

Night Hawk Lake Property, Marmato, Hot Pot and Fletcher Junction

Night Hawk Lake Property, Marmato, Hot Pot and Fletcher Junction are all early stage exploration properties.

Legal Proceedings

On September 13, 2006 an action was filed against Battle Mountain and its Chairman and Chief Executive Officer, Mark Kucher, by James E. McKay, a former officer and director of Battle Mountain, in the Second Judicial District Court of the State of Nevada seeking to enforce alleged rights to certain shares of Battle Mountain common stock and options to purchase shares of Battle Mountain common stock pursuant to a stock option agreement and a stock option plan, and unspecified damages. Battle Mountain has filed an answer to the complaint and asserted a counterclaim against the former officer. A settlement conference was held on May 18, 2007, and the matter was not settled.

The settlement of this litigation is a condition precedent under the merger agreement. Royal Gold may withhold a portion of the shares to be issued and cash paid to the Battle Mountain stockholders under the merger agreement if this litigation is not settled and Royal Gold decides to proceed with the closing. If this litigation is settled prior to the closing date, the number of Royal Gold shares issued and cash paid to the Battle Mountain stockholders under the merger agreement will be reduced. See The Merger Agreement Contingent Stock and Cash Arrangement on page 50.

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide information to assist you in better understanding and evaluating Battle Mountain's financial condition and results of operations. Battle Mountain recommends that you read this MD&A in conjunction with the consolidated financial statements included elsewhere in this prospectus/proxy statement. This MD&A is derived from Battle Mountain's Management's Discussion and Analysis included in its Annual Report on Form 10-K for the year ended December 31, 2006 and from Battle Mountain's Management's Discussion and Analysis included in its Quarterly Report on Form 10-Q for the six month period ended June 30, 2007.

Battle Mountain began its current business operations on April 26, 2006 with the acquisition of the precious metal royalties from IAMGOLD described below. Prior to the completion of the acquisition, the primary line of business was mineral, specifically gold, exploration in the State of Nevada through the joint venture, Pediment Gold LLC. Subsequent to the acquisition, in June 2006, Battle Mountain divested its interest in the joint venture; ceased all exploration activities; and retained a 1.25% net smelter royalty in two project areas known as Hot Pots and Fletcher Junction, and located in Nevada.

The acquisition of IAMGOLD gold royalty assets was completed on April 25, 2006. The acquisition consisted of eleven NSR interests, including four production stage mines (Williams mine, Don Mario mine, El Limon mine and Joe Mann mine), two development stage resources, (Dolores project, Relief Canyon mine) and four exploration stage properties (Seguenaga, Marmato, Night Hawk Lake and Lluvio de Oro) and one mine in reclamation (Vueltas del Rio). The purchase price was \$21,850,000, which was funded from the following sources:

Battle Mountain's on-going business plan consists of acquiring existing royalties or assisting in the financing of projects that are in production or near production in exchange for royalty interests. Battle Mountain expects that substantially all of its revenues will be derived from royalty interests. Battle Mountain does not conduct mining operations at this time or expect to in the foreseeable future.

For a discussion of Battle Mountain's key royalty assets please see Information Concerning Battle Mountain Key Royalty Assets beginning on page 79.

Recent production information for the operating mines in which Battle Mountain holds royalty interests.

NOTE: The information and figures concerning the properties, as set forth herein, have been provided by the owners/operators of the respective mining properties and neither Battle Mountain nor Royal Gold has

independently verified such information or figures. The operations on and production from the respective properties are subject to all the substantial risks and uncertainties inherent in and attendant to mining activities and the mining industry.

Year Ended December 31, 2006 Compared to Year Ended December 31, 2005

Williams Mine. Gold production from the Hemlo operations (which include both the Williams mine and David Bell mine), was reduced in 2006 compared to 2005 as a result of poor ground control conditions, excess ground water in the Williams pit due to heavy rains, and equipment availability. Gold production for 2006 was 410,000 ounces compared to 460,000 for 2005. Cash operating costs increased, in part due to increased mining costs, the effect of lower production and a weaker US dollar. According to Teck Cominco Ltd, during the last quarter of 2006, an agreement was reached with Newmont Mining which granted Hemlo exclusive rights on the nearby Interlake property to explore, develop and mine ores. The Interlake Property is the down-dip extension of the Williams ore zone to the west of the current boundary. An extensive exploration program is planned for 2007 to extend the life of the Williams Underground mine. (Note: production data is for the combined Williams/David Bell operations as the operators do not currently provide separate production data for each mine.)

Don Mario Mine. The Don Mario mine produced 80,028 ounces of gold in 2006 compared to 68,759 ounces in 2005, as operations and grades continue to improve.

El Limon Mine. Gold production at the El Limon mine was approximately, 34,400 ounces in 2006 compared to 39,000 during 2005. According to Glencairn, future production levels will improve as 2006 saw several short term work stoppages and lower grades being mined compared to previous years.

Joe Mann Mine. The Joe Mann mine produced 14,141 ounces of gold in 2006 compared to 25,500 in 2005. Lower ore grades and exploration work reduced the output during 2006.

Results of Operations

Three Months Ended June 30, 2007 Compared to Three Months Ended June 30, 2006

Battle Mountain's financial results are closely tied to the price of gold and production from the mining properties in which it holds royalty interests. For the quarter ended June 30, 2007, the price of gold averaged \$661 per ounce. Revenues of \$1,053,666 were generated from Battle Mountain's four production stage royalties as follows: El Limon mine, \$236,164; Don Mario mine, \$468,531; Williams mine, \$327,645; and Joe Mann mine, \$21,326. During the comparable period of 2006, Battle Mountain's revenues totaled \$751,764 from the same four producing mines. The increase was attributable to increased production at the Don Mario and El Limon mines, and higher gold prices.

Battle Mountain's net loss for the quarter ended June 30, 2007 decreased to \$1,168,514 from \$2,969,149 for the period ended June 30, 2006. The decrease in net loss was in part a result of significant one time charges in the June 30, 2006 period related to the acquisition of royalty assets. These charges did not occur in the current quarter. Battle Mountain expects to incur net losses for the remainder of 2007.

The decrease in total operating expenses of approximately \$1,283,136 during the three months ended June 30, 2007 from the comparable period of 2006 was primarily related to the one time charges in the quarter ending June 30, 2006, related to the acquisition of royalty assets.

General and administrative expenses during the quarter ended June 30, 2007 increased significantly from the comparable 2006 period due to the inclusion of a non-recurring, non cash expense of \$1,144,544, related to the

issuance of shares to various board members and management as a result of the change of control for the proposed merger with Royal Gold. Battle Mountain expects its operating expenses to continue at approximately the same rate, excluding the non-cash charge above, over the next nine to twelve months, assuming the completion of the merger in 2007. Battle Mountain expects future increases in depreciation expense to be offset by corresponding increases in revenue receipts.

Battle Mountain incurred interest expense for the quarter ended June 30, 2007 of approximately \$489,388 related to financing agreements Battle Mountain entered into to acquire its royalty interests. Interest expense is

Table of Contents

comprised of both cash and non-cash components. Additionally, a portion of interest expense is related to the amortization of the loan issuance costs. During the three months ended June 30, 2007 Battle Mountain amortized approximately \$11,386 in non-cash and cash issuance costs. Battle Mountain expects interest expense to remain at its current level over the next year due to the majority of the issuance costs incurred in 2006 being fully amortized and the full payment of the Macquarie Bridge Financing facility which is off-set by the entry into the bridge facility with Royal Gold as discussed below.

The loss on the gold facility payments of \$231,699 arises as a result of the difference in the gold price on the date of drawdown on the gold facility (April 10, 2006) and the date of the payment of the quarterly repayment. During the quarter, Battle Mountain paid the May 15, 2007, August 15, 2007 and November 15, 2007 gold facility payments, which was required under the new bridge loan facility with Royal Gold. Continued increases in gold prices will cause the associated expense to increase.

For the quarter ended June 30, 2007, Battle Mountain recognized a benefit from income tax, primarily in the United States and Canada, of approximately \$441,640. The benefits are derived from operating loss carry-forwards and settlement of temporary differences in certain revenue and expense items during the quarter. Battle Mountain's management believes the currently recognized deferred tax asset of approximately \$2,434,000 will be utilized prior to expiration and accordingly, has not estimated an offsetting valuation allowance. Further, Battle Mountain's management has analyzed its tax positions and believes they are more likely than not to be sustained upon examination by tax authorities.

Battle Mountain's comprehensive loss results from market price fluctuations in its assets and liabilities that are denominated in gold bullion and Canadian dollars.

Six Months Ended June 30, 2007 Compared to Six Months Ended June 30, 2006

As noted above, the significant increase in revenues for the current six months versus the comparable period of 2006 was primarily related to holding the producing royalties for the entire period.

Battle Mountain's net loss for the six months ended June 30, 2007 decreased to \$ 1,635,725 from \$3,150,356 for the period ended June 30, 2006. The decrease in net loss was in part a result of significant one time charges in the June 30, 2006 period related to the acquisition of royalty assets. These charges did not occur in the current period. Battle Mountain expects to incur net losses for the remainder of 2007.

The decrease in total operating expenses of approximately \$772,130 during the six months ended June 30, 2007 from the comparable period of 2006 was primarily related to the one time charges in the quarter ending June 30, 2006, related to the acquisition of royalty assets. Battle Mountain expects its operating expenses to continue at approximately the same rate over the next nine to twelve months, assuming the completion of the merger in 2007. Battle Mountain expects future increases in depreciation expense to be offset by corresponding increases in revenue receipts.

Battle Mountain incurred interest expense for the six months ended June 30, 2007 of approximately \$1,113,822 related to financing agreements it entered into to acquire its royalty interests. Interest expense is comprised of both cash and non-cash components. Additionally, a portion of interest expense is related to the amortization of the loan issuance costs. During the six months ended June 30, 2007 Battle Mountain amortized approximately \$275,402 in non-cash and cash issuance costs. Battle Mountain expects interest expense to remain at its current level over the next year due to the majority of the issuance costs incurred in 2006 being fully amortized and the full payment of the Macquarie Bridge Financing facility which is off-set by the entry into the bridge facility with Royal Gold as discussed below.

For the six months ended June 30, 2007, Battle Mountain recognized a benefit from income tax, primarily in the United States and Canada, of approximately \$517,000. The benefits are derived from operating loss carry-forwards and settlement of temporary differences in certain revenue and expense items during the quarter. Battle Mountain's management believes the currently recognized deferred tax asset of approximately \$2,434,000 will be utilized prior to expiration and accordingly, has not estimated an offsetting valuation allowance. Further, Battle Mountain's management has analyzed its tax positions and believes they are more likely than not to be sustained upon examination by tax authorities.

Table of Contents

Year Ended December 31, 2006 Compared to Year Ended December 31, 2005

On April 26, 2006, Battle Mountain significantly changed its business from mineral exploration, specifically gold in the State of Nevada, to acquiring, developing, and holding royalty interests in mineral properties. Related to the acquisition of Battle Mountain's 12 royalty interests in mineral properties, Battle Mountain incurred significantly increased expenses from prior years including non-recurring legal and accounting fees, capital raising costs, and compensation.

Battle Mountain's royalty interests generated receipts of \$3,192,110 during fiscal 2006 of which \$797,510 was treated as reduction in the purchase price of the royalties and \$2,394,600 was recognized as revenue. The 2006 royalty receipts were generated by the following mines currently in production; Don Mario, \$1,421,823 (\$359,457 treated as purchase price reduction); Williams \$1,078,335 (\$267,859 treated as purchase price reduction); El Limon \$598,671 (\$131,442 treated as purchase price reduction); and Joe Mann \$93,281 (\$38,752 treated as purchase price reduction). From Battle Mountain's inception to the acquisition on April 26, 2006, no revenue was generated from previous exploration activities.

Battle Mountain's royalty receipts generated from the currently producing mines are located outside of the United States and are subject to risks generally associated with the mining industry as noted in the risk factor discussion. Lower levels of mine production will have an adverse effect on Battle Mountain's future financial results.

In December 2006 Battle Mountain entered into an agreement, for \$25,000, to acquire an option to purchase a 2% NSR royalty on Minefinders Corporation Ltd.'s Dolores project in Chihuahua, Mexico. The 2% NSR royalty covers both gold and silver production from the Dolores project. On March 28, 2007 Battle Mountain exercised its rights under the agreement and completed the purchase of the Dolores 2% NSR royalty for \$9.45 million. Funds for the acquisition were provided from the facility agreement.

The above Dolores royalty is in addition to Battle Mountain's existing 1.25% net smelter return royalty on gold production from the Dolores project. With both royalties, Battle Mountain will receive 3.25% of all gold production and 2% of all silver production from the Dolores project. The Dolores project is expected to go into production in late 2007 and Battle Mountain is not expecting material revenues from the Dolores royalty until 2008. Battle Mountain is not expecting any of the other exploration or development stage royalties to begin production until 2008.

Revenue and overall financial performance is closely tied to the price of gold which averaged \$619 per ounce during the twelve months ended December 31, 2006.

For the year ended December 31, 2006, Battle Mountain experienced a net loss of \$2,100,364, or \$0.04 per share an increase of approximately 17% from the year ended December 31, 2005 where the net loss was \$1,793,922 or \$0.04 per share. The net loss increase is primarily associated with the acquisition of the royalty assets, specifically related to the current year inclusion of significantly higher depreciable assets (royalty interests in mineral properties) and short and long-term interest bearing debt. The increase in depreciation expense of \$1,314,667 and interest expense of \$1,651,236 accounted for 63% of the overall increase in total expenses of \$4,729,674 for the twelve months ended December 31, 2006. The elimination of the deferred tax valuation allowance, related to the acquisition of income generating assets and expectation that Battle Mountain's deferred tax assets will be utilized prior to their expiration, of \$1,593,511 and the recognized gain on the dissolution of partnership interest of \$435,494 partially offset the overall increase in the recognized net loss.

For the twelve months ended December 31, 2006 Battle Mountain incurred \$1,314,865 of depreciation. The increase from the immaterial amount for the same period of 2005 relates to the 2006 acquisition of Battle Mountain's mineral properties. Battle Mountain depreciates currently producing royalty interests using the units of production method

over the life of the mineral property, which is estimated using proven and probable reserves. The remainder of depreciation expense is derived from straight line depreciation of office related equipment. Battle Mountain's depreciation expense for the twelve month period ended December 31, 2007 will likely increase based on the following factors: (i) inclusion of twelve months of activity in 2007 versus 9 months in 2006; and (ii) the successful completion of the additional Dolores 2% NSR royalty acquisition which is expected to be in production by late 2007, subject to fluctuations in the price of gold.

Table of Contents

In fiscal year 2006 professional and consulting fees increased by \$1,921,931 or 154% due to several factors. Effective January 1, 2006, Battle Mountain entered into an employment agreement with Mark Kucher, Battle Mountain's Chairman and Chief Executive Officer, increasing his overall salary from \$90,000 annually in 2005 to a base salary of \$250,000 annually in 2006; payment of a non-cash bonus in the form of restricted stock and warrants in the amount of \$1,566,943 related to the acquisition of the royalty interests; and an accrued bonus of \$452,956 related to an overall increase in market capitalization. David Atkinson, Battle Mountain's Chief Financial Officer, previously employed as a consultant for the acquisition of Battle Mountain's royalty interests, received total compensation of \$503,431 consisting of \$83,333 of base salary in accordance with the terms of his employment agreement effective May 1, 2006; payment of \$370,098 in the form of restricted stock and warrants while serving as a consultant; and an accrued bonus of \$50,000 related to Battle Mountain's overall increase in market capitalization. In addition to the above increases in officer compensation, legal and accounting fees increased \$164,333 from the same period in 2005 due to the acquisition of Battle Mountain's royalty interests and the filing of Form SB-2 Registration Statement. Battle Mountain expects these fees to remain flat in 2007 as it does not anticipate filing additional registration statements, off-set by fees associated with the proposed merger.

General and administrative expenses increased \$90,043 in fiscal 2006 to \$248,067. This increase is related to withholding taxes in the amount of \$121,676 incurred on royalty receipts from the El Limon Mine Royalty located in Nicaragua. The increase in general and administrative expenses was partially offset by a reduction in office related expenses. General and administrative expenses are expected to fluctuate based on production and corresponding withholding taxes related to the above royalty interests.

Other expenses increased by \$968,312 in the period ended December 31, 2006 from the comparable period of 2005 due to debt financing arrangements related to the acquisition of Battle Mountain's royalty interests. Interest expense, derived from the Macquarie Gold Loan, Macquarie Bridge Loan, and IAMGOLD subordinated convertible debenture (see section entitled "Liquidity and Capital Resources" below for terms), was \$1,651,236. The expense included \$660,585 of non-cash interest comprised of the amortization of deferred issuances costs paid in common stock, and the scheduled interest payment on the Subordinated Convertible Debenture. Issuance costs incurred to secure all financing arrangements are capitalized and amortized over the life of the arrangement.

In addition to the interest expense, Battle Mountain recognized a loss on the gold loan payments of \$141,791. The recognized loss is comprised of fluctuations in the spot price of gold between the date of the gold loan origination and the payment date.

The overall increase in other expenses was partially off-set by the \$379,912 reduction in financing fees related to warrants issued in 2005. Additionally, Battle Mountain recognized a gain of \$435,494 on the divestiture of its joint venture interest. The gain was derived from the increase in the value of the common stock received in exchange for the joint venture interest.

Battle Mountain evaluated the recoverability of deferred tax assets as of December 31, 2006. Due to the acquisition of revenue producing assets in April 2006, management believes that Battle Mountain will utilize the benefits of its deferred tax assets prior to their expiration. The expected recoverability resulted in the recognition of tax benefits of \$1,593,911 for the twelve months ended December 31, 2006 related to the corresponding reduction in the valuation allowance. Battle Mountain expects the tax benefit recognition to be exclusive to the year ended December 31, 2006.

Battle Mountain's comprehensive loss derived from market price fluctuations in its assets and liabilities that are denominated in gold bullion and Canadian dollars was \$446,351.

Liquidity and Capital Resources

At June 30, 2007, Battle Mountain had current assets of \$2,865,899 compared to current liabilities of \$17,733,901. Cash on hand of \$1,810,755 consisted of approximately \$525,184 held in restricted accounts with Battle Mountain's senior lender, with the remaining cash held directly by Battle Mountain. Cash held with Battle Mountain's senior lender is in US dollars, Canadian dollars and gold bullion. Cash held by Battle Mountain is held in both US and Canadian dollars. Under the terms of Battle Mountain's Gold Facility agreement, cash is released

Table of Contents

from the accounts to cover previously agreed upon corporate expenses, which are part of Battle Mountain's annual budget.

During the quarter ended June 30, 2007 liquidity needs were met from royalty revenues, an advance under the bridge facility with Royal Gold, and exercise of previously outstanding warrants. In April 2007 Battle Mountain received, from escrow, approximately \$915,000 of the remaining proceeds from the private placement entered into in March 2007. A total of \$270,000 remained in escrow as at June 30, 2007. As of August 2, 2007, this amount was transferred from Battle Mountain escrow account to Battle Mountain's US dollar account with Macquarie Bank.

As of December 31, 2006 Battle Mountain had \$275,141 in cash reserves; held in US dollars, Canadian dollars, and gold bullion. Battle Mountain's senior lender has restricted \$266,353 of Battle Mountain's total cash reserves to be periodically released for satisfaction of agreed upon operating expenses, based on the annual budget.

Battle Mountain's accounts receivable of \$591,366 consist entirely of royalties earned but not yet received as of the year end. Battle Mountain has historically collected revenues within 60 days of the applicable period end.

Battle Mountain historically has not met its cash needs from operations. Additionally, its short-term obligations of \$6,497,088 will not be met through its current operations. The Macquarie Gold Loan, IAMGOLD subordinated convertible debenture, and Macquarie Bridge Loan; including accrued interest, accounted for \$5,912,715 of Battle Mountain's short-term obligations. The remaining obligations are primarily comprised of accrued salaries and bonuses.

The following is a description of Battle Mountain's significant outstanding obligations with third parties.

Macquarie Gold Loan. On April 25, 2006 Battle Mountain entered into an 11,750 ounce gold facility agreement with Macquarie Bank Limited. Battle Mountain sold the gold on the open market at \$587.90 per ounce on April 10, 2006 for total proceeds of \$6,907,825. The gold facility calls for Battle Mountain to repay Macquarie Bank Limited in sixteen quarterly installments of 907 ounces beginning May 15, 2006 with a final installment of 488 ounces due on May 15, 2010 for total consideration of 15,000 ounces. Additionally, under the terms of the gold facility, on each gold delivery date, Battle Mountain is required to make an additional and mandatory pre-delivery of gold, determined in accordance with and subject to the following conditions:

- (a) pre-delivery of gold under the agreement, shall only be required on a gold delivery date which:
 - (i) immediately follows a financial quarter wherein the London Gold Price was greater than US\$425/ounce for more than 15 days; or
 - (ii) occurs when a default or event of default has occurred and is continuing; and
- (b) the amount of gold to be pre-delivered shall be the current gold value of the US Dollar amount which is 50% of free cash flow for such financial quarter;

A mandatory pre-delivery of gold under the agreement is to be applied first against the then final gold delivery and then against the remaining gold deliveries in reverse order to the order in which the gold deliveries are due to be made.

In accordance with Battle Mountain's entry into the bridge facility with Royal Gold, as noted below, Macquarie Bank mandated the delivery 2,721 ounces of gold within 45 days of the execution of bridge facility agreement. The amounts represented the remaining fiscal 2007 quarterly payments originally due in May, August, and November. The required prepayments were completed in May for total consideration of \$1,846,652, of which \$236,550 was classified as

prepaid interest, based on the spot rates on the payment dates.

As of June 30, 2007 approximately 7,230 ounces of gold remain outstanding and is valued at the current spot rate.

The Macquarie Gold Loan is collateralized by the royalty interests in mining properties.

Macquarie Bridge Loan. On April 25, 2006, Battle Mountain entered into a bridge finance facility agreement with Macquarie Bank Limited for \$4,000,000. The bridge finance facility carries a 12% annual interest rate, interest is accrued until maturity, and the loan is due on the earlier of: (i) December 31, 2006; and (ii) within

30 days after receipt of proceeds from a public offering of the shares of company. The facility was extended through March 31, 2007, by the exercise of the one-time extension option by Macquarie Bank Limited. Battle Mountain issued Macquarie Bank Limited 421,053 shares of common stock with a fair market value of \$252,632 related to the exercise of the extension option. On March 23, 2007 Battle Mountain repaid all the amounts outstanding under the facility, which totalled \$4,464,552.

Royal Gold Bridge Finance Facility. On March 28, 2007 Battle Mountain entered into a \$20,000,000 bridge facility agreement with Royal Gold, which availability was subsequently reduced to \$15,000,000 pursuant to the terms of the bridge facility agreement. As of March 28, 2007, Battle Mountain received a total of \$13,914,552 under the bridge facility from Royal Gold. The bridge facility initially had a one year term, carries an interest rate of LIBOR plus 3% and interest accrues until maturity. Additionally, Royal Gold may convert the outstanding principal and accrued interest into shares of common stock at a fixed conversion price equal to \$0.60 per share.

On May 9, 2007, Battle Mountain borrowed and additional \$600,000 under the bridge facility. These proceeds were used to help fund the required pre-payments on the Gold Facility, as required under the bridge facility agreement. Total principal amount outstanding under the bridge facility as of June 30, 2007 was \$14,514,552.

On July 30, 2007, Battle Mountain entered into an amendment to the bridge facility agreement with Royal Gold and BMGX (Barbados) Corporation. The amendment amends the bridge facility by (i) extending the final maturity date from March 28, 2008 to June 6, 2008 and (ii) specifying that Royal Gold must provide notice on or before April 4, 2008 in the event it elects to convert any or all amounts due to it under the Bridge Loan into Battle Mountain common stock.

IAMGOLD Subordinated Exchangeable Debenture. Battle Mountain entered into a subordinated exchangeable debenture with IAMGOLD (seller of acquired royalty interests in mining properties) for a total of \$2,000,000. The debenture carries an interest rate of 6% per annum and is due on April 25, 2008. Principal and interest payments are due semi-annually and may be paid in cash or in shares of common stock of Battle Mountain. Additionally, IAMGOLD may, at any time within the period, convert the outstanding principal and accrued interest into shares of common stock at a price of \$0.50 per share.

On September 4, 2007, Royal Gold acquired the debenture from IAMGOLD. On September 5, 2007, Royal Gold exercised the conversion rights under the debenture for all of the outstanding principal and accrued interest as of September 4, 2007, equal to \$2,000,000 in principal and \$43,397 in accrued interest. On September 6, 2007, Battle Mountain issued an aggregate of 4,086,794 shares of common stock to Royal Gold in connection with the conversion.

The following table illustrates Battle Mountain's future obligations as of June 30, 2007

Failure to consummate the merger transaction would require Battle Mountain to seek additional debt and/or equity financing. If Battle Mountain is unable to raise additional capital, at terms favorable to Battle Mountain, financial performance will be adversely impacted.

Table of Contents***Critical Accounting Policies***

The financial statements and accompanying notes are prepared in accordance with generally accepted accounting principles used in the United States. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. Battle Mountain believes that understanding the basis and nature of the estimates and assumptions involved with the following aspects of the consolidated financial statements is critical to an understanding of such financial statements.

Royalty Interests in Mineral Properties. Acquired royalty interests in mineral properties include certain properties in the production, development, and exploration stage. Battle Mountain capitalized these royalty interests as tangible assets when they meet the definition of mineral rights in accordance with Financial Accounting Standards Board (FASB) Emerging Issues Task Force Issue (EITF) No. 04-02, Whether Mineral Rights are Tangible or Intangible Assets. At December 31, 2006 all of the royalty interests met the definition of mineral rights and therefore, are capitalized as tangible assets.

Acquisition costs of production stage royalty interests are depleted using the units of production method over the life of the mineral property, which is estimated using proven and probable reserves. Development and exploration stage royalties will be amortized in the same manner once they become production stage assets. The carrying values of all royalty mineral interests are periodically evaluated for impairment. The recoverability of the carrying value of royalty interests in production and development stage mineral properties is evaluated based upon estimated future undiscounted net cash flows from each royalty interest property using estimates of proven and probable reserves. Battle Mountain evaluates the recoverability of the carrying value of royalty interests in exploration stage mineral properties in the event of significant decreases in the price of gold, and whenever new information regarding the mineral properties is obtained from the operator that could affect the future recoverability of royalty interests. Impairments in the carrying value of each property are measured and recorded to the extent that the carrying value in each property exceeds its estimated fair value, which is generally calculated using estimated future discounted cash flows.

Battle Mountain's estimate of gold prices, operator's estimates of proven and probable reserves to the royalty properties, and operator's estimates of operating, capital and reclamation costs are subject to certain risks and uncertainties which may affect the recoverability of Battle Mountain's investment in these royalty interests in mineral properties. Although Battle Mountain has made its best assessment of these factors based on current conditions, it is possible that changes could occur, which could adversely affect the net cash flows expected to be generated from these royalty interests. Battle Mountain believes that no impairment of long-lived assets occurred during the third quarter of 2006 or existed as of September 30, 2006.

Revenue Recognition. Battle Mountain's revenue is generated from its royalty interests in mineral properties. Royalty revenue is recognized in accordance with the terms of the underlying royalty agreements subject to: (i) the pervasive evidence of the existence of the arrangements; (ii) the risks and rewards having been transferred; (iii) the royalty being fixed or determinable; and (iv) the collectibility of the royalty being reasonably assured. For royalty payments received in gold, royalty revenue is recorded at the average spot price of gold for the period in which the royalty was earned.

Accounts Receivable and Allowance for Doubtful Accounts. The carrying value of Battle Mountain's receivables, net of the allowance for doubtful accounts, represents their estimated net realizable value.

Battle Mountain evaluates the collectibility of accounts receivable on a historical basis. Battle Mountain records a reserve for bad debts against amounts due to reduce the net recognized receivable to an amount Battle Mountain

believes will be reasonably collected. The reserve is a discretionary amount determined from the analysis of the aging of the accounts receivables and historical experience.

Foreign Currency Translation. Battle Mountain's functional currency and that of its subsidiaries is the applicable local currency in accordance with SFAS No. 52, Foreign Currency Translation. Monetary assets and liabilities of Battle Mountain and its subsidiaries with functional currencies other than the US dollar are translated into US dollars using current rates of exchange at the balance sheet date. Non-monetary assets and liabilities are translated at historical exchange rates. Revenues and expenses are translated at the weighted average exchange rates

Table of Contents

in effect for the period in which the items occur. Translation gains or losses are recorded as a separate component of stockholders' equity and transaction gains and losses are included in other income and expenses, net.

Comprehensive Income. Battle Mountain reports comprehensive income and loss and its components in accordance with SFAS No. 130, Reporting Comprehensive Income. Battle Mountain's comprehensive income is comprised of net income, foreign currency translation adjustments, and gold price fluctuations.

Stock-Based Compensation. Battle Mountain has adopted the fair value recognition provisions of SFAS 123R, Accounting for Stock-Based Compensation. Under the fair value recognition provisions of SFAS 123R, stock-based compensation cost is measured at the grant date based on the value of the award and is recognized as expense over the vesting period.

The estimated fair value of employee stock options was calculated using a lattice pricing model. Option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because Battle Mountain's employee stock options may have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models may not provide a reliable single measure of the fair value of Battle Mountain's employee stock options.

All options currently outstanding are fully vested with the related expense classified as professional and consulting.

Income Taxes. Battle Mountain provides for income taxes under the provisions of Statement of Financial Accounting Standards (SFAS) No. 109 Accounting for Income Taxes. SFAS No. 109 requires an asset and liability based approach in accounting for income taxes.

Deferred income tax assets and liabilities are recorded to reflect the tax consequences in future years of temporary differences between revenue and expense items for financial statement and income tax purposes. Valuation allowances are provided against assets that are not likely to be realized. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Product Research and Development

Battle Mountain's business plan is focused on a strategy for maximizing returns on the recently acquired gold royalty assets. Since the year ended December 31, 2005, execution of the business plan has largely focused on acquiring these royalty assets.

Purchase of Significant Equipment

Battle Mountain does not intend to purchase any significant equipment over the twelve months ending December 31, 2007 other than office computers and communication equipment as required.

Employees

Currently Battle Mountain's only employees are the Chief Executive Officer and the Chief Financial Officer. Battle Mountain does not expect any material changes in the number of employees over the next 12 month period. Battle

Mountain does and will continue to outsource contract employment as needed.

Going Concern

Battle Mountain has suffered recurring losses from operations. The continuation of Battle Mountain as a going concern is dependent upon Battle Mountain's ability to attain and maintain profitable operations and raise additional capital. The financial statements do not include any adjustment relating to the recovery and classification

Table of Contents

of recorded asset amounts or the amount and classification of liabilities that might be necessary should Battle Mountain discontinue operations.

Historically, due to the uncertainty of Battle Mountain's ability to meet current operating expenses and the capital expenses noted above, in their report on the annual financial statements for the year ended December 31, 2006, the independent auditors included an explanatory paragraph regarding concerns about Battle Mountain's ability to continue as a going concern. Battle Mountain's financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by the independent auditors.

The growth of the business is dependent upon Battle Mountain's ability to raise additional financial support. The issuance of additional equity securities could result in a significant dilution in the equity interests of the current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase Battle Mountain's liabilities and future cash commitments.

Recently Issued Accounting Standards

In March of 2005 the Emerging Issues Task Force (EITF) reached a consensus on Issue No. 04-6, Accounting for Stripping Costs Incurred during Production in the Mining Industry. In the mining industry, companies may be required to remove overburden and other mine waste materials to access mineral deposits. The costs of removing overburden and waste materials are referred to as stripping costs. The EITF reached a consensus that stripping costs incurred during the construction phase of a mine are variable production costs that should be included in the costs of the inventory produced during the period that the stripping costs are incurred. The new treatment will be effective for fiscal years beginning after December 15, 2005. Adoption of the standard may have an impact on Battle Mountain's future results of operations, the amount of which management is unable to determine at this time.

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections. This Statement replaces APB Opinion No. 20 and SFAS No. 3. APB Opinion No. 20 previously required that most voluntary changes in accounting principles be recognized by including the cumulative effect of changing to the new accounting principle in net income of the period of the change. SFAS No. 154 requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. When it is impracticable to determine the period-specific effects of an accounting change on one or more individual prior periods presented, SFAS No. 154 requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings for that period, rather than being reported in an income statement. The new standard will be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Battle Mountain believes the adoption of new standard will not have a material effect on financial position, results of operations, cash flows, or previously issued financial reports.

In July 2006, the FASB issued FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes an interpretation of SFAS No. 109. The FASB Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosures, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. Battle Mountain has preliminarily reviewed the potential effect of the adoption of FIN 48 and is performing a comprehensive analysis on its uncertain tax positions. Tax positions deemed to have a remote likelihood of utilization may have an adverse effect on its financial position, results of operations or cash flow.

In September 2006, the FASB issued SFAS No. 157 (SFAS 157), Fair Value Measurements. SFAS 157 clarifies that fair value is the amount that would be exchanged to sell an asset or transfer a liability in an orderly transaction between market participants. Further, the standard establishes a framework for measuring fair value in generally accepted accounting principles and expands certain disclosures about fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007. Battle Mountain does not expect that the adoption of SFAS 157 will have a material impact on its financial position, results of operations or cash flows.

In September 2006, the U.S. Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 108 (SAB 108), Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements. SAB 108 provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. The SEC staff believes that registrants should quantify errors using both a balance sheet and an income statement approach and evaluate whether either approach results in quantifying a misstatement that, when all relevant quantitative and qualitative factors are considered, is material. SAB 108 is effective for fiscal years beginning after November 15, 2006. Battle Mountain does not expect that the adoption of SAB 108 will have a material impact on its financial position, results of operations or cash flows.

SELLING STOCKHOLDERS

In addition to registering up to 1,634,410 shares of Royal Gold's common stock to be issued to Battle Mountain's stockholders as a result of the merger, this proxy statement/prospectus relates to the aggregate resale of up to 396,023 shares of Royal Gold common stock which may be sold from time to time by Royal Gold's selling stockholders. The following table sets forth certain information with respect to the resale of Royal Gold's common stock by Royal Gold's selling stockholders. Royal Gold will not receive any proceeds from the resale of its common stock by its selling stockholders.

None of the selling stockholders has held a position or office or had a material relationship with Royal Gold within the past three years other than ownership of Royal Gold's publicly traded common stock of which Royal Gold has no knowledge.

The following table sets forth the name of each selling stockholder and certain other information with respect to such selling stockholder's beneficial ownership of Royal Gold common stock issuable to such selling stockholder in the merger. Beneficial ownership is determined in accordance with the rules of the SEC. The tabular information shown below assumes that (1) all the outstanding Battle Mountain warrants are exercised during the period from the date of this proxy statement/prospectus to the effective time of the merger, (2) all the outstanding Battle Mountain stock options are exercised by the payment of cash during the period from the date of this proxy statement/prospectus to the effective time of the merger, (3) each of the Battle Mountain stockholders who are selling stockholders makes the Stock Election and (4) all the shares of Royal Gold common stock being offered pursuant to the registration statement of which this proxy statement/prospectus is a part are sold to third parties. However, because the selling stockholders may offer all or a portion of the shares covered by this proxy statement/prospectus at any time and from time to time hereafter, the exact number of shares that each selling stockholder may retain after completion of the offering cannot be determined at this time. The last two columns of the table below assume that all the shares covered by this proxy statement/prospectus will be sold by the selling stockholders to third parties, that no additional shares are bought or sold by the selling stockholder and that no selling stockholder owns publicly traded shares.

Percentage ownership is based upon 28,663,756 shares of Royal Gold common stock outstanding as of the fiscal year ended June 30, 2007, plus 1,634,410 shares of Royal Gold common stock issuable in the merger (based on the assumptions described above).

Battle Mountain Gold Exploration Corporation

We have audited the accompanying balance sheet of Battle Mountain Gold Exploration Corporation as of December 31, 2006, and the related statements of operations, stockholders' equity and comprehensive loss and cash flows for the years ended December 31, 2006 and 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company has determined that it is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Battle Mountain Gold Exploration Corporation as of December 31, 2006, and the results of its operations and its cash flows for the years ended December 31, 2006 and 2005, in conformity with accounting principles generally accepted in the United States.

The accompanying financial statements have been prepared assuming that Battle Mountain Gold Exploration Corporation will continue as a going concern. As discussed in Note 14 to the financial statements, Battle Mountain Gold Exploration Corporation has suffered losses during the periods presented which raises substantial doubt about the company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 14. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

1. Organization and Significant Accounting Policies

Business

The Company was incorporated under the laws of the State of Nevada on January 7, 2004 to promote and carry on any lawful business for which a corporation may be incorporated under the laws of the State of Nevada.

Prior to the completion of the Company's acquisition of certain royalty interests in mineral properties in April 2006, the Company's primary business was mineral, specifically gold, exploration in the State of Nevada. Based on the Company's previous focus on mineral exploration, since its inception in January 2004, it previously reported its financial information in accordance with Statements of Financial Accounting Standards (SFAS) No. 7 *Accounting and Reporting by Development Stage Enterprises*.

Upon completion of its acquisition of certain royalty interests in mineral properties, along with the divestiture of its joint venture, Pediment Gold LLC, the Company's primary focus has changed to acquiring and managing precious metal royalties. The acquisition of the royalty interests resulted in the Company no longer being considered exploration stage under SFAS No. 7.

The Company's current and potential future royalty interests, defined as non-operating net revenue rights in mining projects, expect to provide all future revenues. The Company currently does not conduct exploration or mining activities.

Use of Estimates in the Preparation of Financial Statements

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of management's estimates. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at fiscal year end, and the reported amounts of revenues and expenses during the fiscal year. Actual results could differ from those estimates.

Cash and Cash Equivalents

For the purpose of the statements of cash flows, all highly liquid investments with maturities of three months or less are considered to be cash equivalents. At December 31, 2006 the Company maintained an account denoted in gold with Macquarie Bank Limited, its senior lender.

From time to time the Company maintains amounts on deposit with financial institutions which exceed federally insured limits. The Company has not experienced any significant losses in such accounts, nor does management believe it is exposed to any significant credit risk.

RESTRICTED CASH The Company maintains the majority of its cash resources with Macquarie Bank Limited, its senior lender. Restricted cash is denominated in US dollars, Canadian dollars, and gold bullion. In accordance with the Company's loan agreements with Macquarie Bank Limited, restricted cash is periodically released to meet the Company's working capital obligations based on a previously agreed upon annual budget. Additional funds are available on an as needed basis.

Fair Value of Financial Instruments

The carrying amount of financial instruments held by the Company, which include cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, approximate fair value due to their short duration. The carrying amount of the Company's notes payable approximate their fair value based on incremental borrowing rates for similar types of borrowing arrangements.

Property and Equipment

Property and equipment are recorded at cost, less accumulated depreciation. In accordance with SFAS No. 144 *Accounting for Long-Lived Assets*, the Company reviews its long-lived assets for impairment. Whenever events or

Table of Contents

changes in circumstances indicate that the carrying amount of the assets might not be recovered through undiscounted future cash flows, such losses are recognized in the statement of operations.

The cost of property, plant, and equipment is depreciated over the remaining estimated useful lives of the assets ranging from 3 to 5 years. Depreciation is computed using the straight line method for both financial reporting and income tax purposes. Expenditures for maintenance and repairs are expensed when incurred, while betterments are capitalized. Gains and losses on the sale of property and equipment are reflected in the statement of operations.

Royalty Interests In Mineral Properties

Acquired royalty interests in mineral properties include certain properties in the production, development, and exploration stage. We capitalize these royalty interests as tangible assets when they meet the definition of mineral rights in accordance with Financial Accounting Standards Boards (FASB) Emerging Issues Task Force Issue (EITF) No. 04-02. Whether Mineral Rights are Tangible or Intangible Assets. At December 31, 2006 all of our royalty interests meet the definition of mineral rights and therefore, are capitalized as tangible assets and included as a separate component of property and equipment.

Acquisition costs of production stage royalty interests are depreciated using the units of production method over the life of the mineral property, which is estimated using proven and probable reserves. Development and exploration stage royalties will be depreciated in the same manner once they become production stage assets. The carrying values of all royalty mineral interests are periodically evaluated for impairment. The recoverability of the carrying value of royalty interests in production and development stage mineral properties is evaluated based upon estimated future undiscounted net cash flows from each royalty interest property using estimates of proven and probable reserves. We evaluate the recoverability of the carrying value of royalty interests in exploration stage mineral properties in the event of significant decreases in the price of gold, and whenever new information regarding the mineral properties is obtained from the operator that could affect the future recoverability of our royalty interests. Impairments in the carrying value of each property are measured and recorded to the extent that the carrying value in each property exceeds its estimated fair value, which is generally calculated using estimated future discounted cash flows.

Our estimate of gold prices, operator's estimates of proven and probable reserves to our royalty properties, and operator's estimates of operating, capital and reclamation costs are subject to certain risks and uncertainties which may affect the recoverability of our investment in these royalty interests in mineral properties. Although we have made our best assessment of these factors based on current conditions, it is possible that changes could occur, which could adversely affect the net cash flows expected to be generated from these royalty interests.

The Company believes that no impairment of its royalty interests existed as of December 31, 2006.

Basis of Consolidation

The consolidated financial statements include the accounts of Battle Mountain Gold Exploration Inc., and its recently incorporated and wholly-owned subsidiaries, BMGX (Barbados) Corporation, and Battle Mountain Gold (Canada) Inc.

The Company's wholly owned subsidiaries hold all the currently producing gold royalty assets. Intercompany transactions and account balances have been eliminated in consolidation.

Income Taxes

The Company provides for income taxes under the provisions of SFAS No. 109 *Accounting for Income Taxes* which requires an asset and liability based approach in accounting for income taxes.

Deferred income tax assets and liabilities are recorded to reflect the tax consequences in future years of temporary differences between revenue and expense items for financial statement and income tax purposes. Valuation allowances are provided against assets that are not likely to be realized. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary

Table of Contents

differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Loss Per Share

The computation of basic and diluted earnings per common share is based on the weighted average number of shares outstanding during the year, plus the common stock equivalents. Common stock equivalents are not included in the diluted loss per share calculation when their effect is antidilutive.

Revenue Recognition

The Company's revenue is generated from its royalty interests in mineral properties. Royalty revenue is recognized in accordance with the terms of the underlying royalty agreements subject to (i) the pervasive evidence of the existence of the arrangements; (ii) the risks and rewards having been transferred; (iii) the royalty being fixed or determinable; and (iv) the collectibility of the royalty being reasonably assured. For royalty payments received in gold, royalty revenue is recorded at the average spot price of gold for the period in which the royalty was earned.

Stock-Based Compensation

The Company has adopted the fair value recognition provisions of SFAS 123R, *Share Based Payment*. Under the fair value recognition provisions of SFAS 123R, stock-based compensation cost is measured at the grant date based on the value of the award and is recognized as expense over the vesting period.

The estimated fair value of employee stock options was calculated using a lattice pricing model. Option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Company's employee stock options may have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models may not provide a reliable single measure of the fair value of the Company's employee stock options.

The Company previously recognized stock based compensation under the provisions of the original SFAS No. 123 *Accounting for Stock-Based Payment*. All options issued prior to the adoption of SFAS No. 123R were vested and the related compensation expense previously recognized and included in professional and consulting expense.

Accounts Receivable and Allowance for Doubtful Accounts

The carrying value of the Company's receivables, net of the allowance for doubtful accounts, represents their estimated net realizable value.

The Company evaluates the collectibility of accounts receivable on a historical basis. The Company records a reserve for bad debts against amounts due to reduce the net recognized receivable to an amount the Company believes will be reasonably collected. The reserve is a discretionary amount determined from the analysis of the aging of the accounts receivables and historical experience. Based on our analysis of payment experience, no reserve has been recorded for the period.

Foreign Currency Translation

The functional currency of the Company and its subsidiaries is the applicable local currency in accordance with SFAS No. 52, *Foreign Currency Translation*. Monetary assets and liabilities of the Company and its subsidiaries with

functional currencies other than the U.S. dollar are translated into U.S. dollars using current rates of exchange at the balance sheet date. Non-monetary assets and liabilities are translated at historical exchange rates. Revenues and expenses are translated at the weighted average exchange rates in effect for the period in which the items occur. Translation gains or losses are recorded as a separate component of stockholders' equity and transaction gains and losses are included in other income and expenses, net.

Table of Contents

Comprehensive Income

The Company reports comprehensive income and loss and its components in accordance with SFAS No. 130, *Reporting Comprehensive Income*. The Company's comprehensive income is comprised of net income, foreign currency translation adjustments, and gold price fluctuations.

Concentration of Credit Risk

The Company's current revenue is solely generated from the production stage royalty interests in the El Limon Mine, Williams Mine, Joe Mann Mine, and Don Mario Mine. Material reductions in any or all of the mines would result in significant adverse effect on the Company's financial position, results of operations, and cash flows.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation. These reclassifications did not have an impact on previously reported financial position, cash flows, or results of operations.

New Accounting Pronouncements

In March of 2005, the Emerging Issues Task Force (EITF) reached a consensus on Issue No. 04-6, *Accounting for Stripping Costs Incurred during Production in the Mining Industry*. In the mining industry, companies may be required to remove overburden and other mine waste materials to access mineral deposits. The costs of removing overburden and waste materials are referred to as stripping costs. The EITF reached a consensus that stripping costs incurred during the construction phase of a mine are variable production costs that should be included in the costs of the inventory produced during the period that the stripping costs are incurred. The new treatment will be effective for fiscal years beginning after December 15, 2005. Adoption of the standard may have an impact on the Company's future results of operations, the amount of which management is unable to determine at this time.

In May 2005, the FASB issued SFAS No. 154, *Accounting Changes and Error Corrections*. This Statement replaces APB Opinion No. 20 and SFAS No. 3. APB Opinion No. 20 previously required that most voluntary changes in accounting principle be recognized by including the cumulative effect of changing to the new accounting principle in net income of the period of the change. SFAS No. 154 requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. When it is impracticable to determine the period-specific effects of an accounting change on one or more individual prior periods presented, this Statement requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings for that period, rather than being reported in an income statement. The new standard will be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company believes the adoption of a new standard will not have a material effect on its financial position, results of operations, cash flows, or previously issued financial reports.

In February 2006, the FASB Issued SFAS No. 155 *Accounting for Certain Hybrid Financial Instruments - an amendment of SFAS No. 133 and 140*. This Statement resolves issues addressed in Statement 133 Implementation Issue No. D1, Application of Statement 133 to Beneficial Interests in Securitized Financial Assets. This Statement:

a. Permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation;

b. Clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133;

F-11

Table of Contents

- c. Establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation;
- d. Clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and
- e. Amends Statement 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument.

The effective date of the Statement is for all financial instruments acquired, issued, or subject to remeasurement occurring after December 31, 2006. The Company does not expect SFAS No. 156 to have a material effect on its financial position, results of operations, or cash flows in the foreseeable future.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets*, which provides an approach to simplify efforts to obtain hedge-like (offset) accounting. This Statement amends FASB Statement No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, with respect to the accounting for separately recognized servicing assets and servicing liabilities. The Statement (1) requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in certain situations; (2) requires that a separately recognized servicing asset or servicing liability be initially measured at fair value, if practicable; (3) permits an entity to choose either the amortization method or the fair value method for subsequent measurement for each class of separately recognized servicing assets or servicing liabilities; (4) permits at initial adoption a one-time reclassification of available-for-sale securities to trading securities by an entity with recognized servicing rights, provided the securities reclassified offset the entity's exposure to changes in the fair value of the servicing assets or liabilities; and (5) requires separate presentation of servicing assets and servicing liabilities subsequently measured at fair value in the balance sheet and additional disclosures for all separately recognized servicing assets and servicing liabilities. SFAS No. 156 is effective for all separately recognized servicing assets and liabilities as of the beginning of an entity's fiscal year that begins after September 15, 2006, with earlier adoption permitted in certain circumstances. The Statement also describes the manner in which it should be initially applied. The Company does not believe that SFAS No. 156 will have a material impact on its financial position, results of operations or cash flows.

In July 2006, the FASB issued FASB Interpretation No. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes an interpretation of SFAS No. 109*. The FASB Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. The Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Interpretation also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosures, and transition. The Interpretation is effective for fiscal years beginning after December 15, 2006. The Company has preliminarily reviewed the potential effect of the adoption of FIN 48 and is performing a comprehensive analysis on its uncertain tax positions. Tax positions deemed to have a remote likelihood of utilization may have an adverse effect the Company's financial position, results of operations or cash flow.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. The Statement clarifies that fair value is the amount that would be exchanged to sell an asset or transfer a liability in an orderly transaction between market participants. Further, the standard establishes a framework for measuring fair value in generally accepted accounting principles and expands certain disclosures about fair value measurements. The Statement is effective for fiscal years beginning after November 15, 2007. The Company does not expect that the adoption of SFAS 157 will have a material impact on its financial position, results of operations or cash flows.

In September 2006, the U.S. Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*. The Bulletin provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. The SEC staff believes

that registrants should quantify errors using both a balance sheet and an income statement approach and evaluate whether either approach results in quantifying a misstatement that, when all relevant quantitative and qualitative factors are considered, is material. The Bulletin is effective for fiscal years beginning after November 15, 2006. The Company does not expect that the adoption of SAB 108 will have a material impact on its financial position, results of operations or cash flows.

In the event the Company is unsuccessful, the Company may pursue additional debt or equity financing. If the Company is unable or cannot otherwise raise cash to finance operations, the Company could be forced to significantly reduce its level of operations. The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

Battle Mountain Notes to the Interim Financial Statements

1. Organization and Significant Accounting Policies

We prepared the accompanying unaudited interim financial statements of Battle Mountain Gold Exploration Corporation (the Company, we, our, us) in accordance with generally accepted accounting principles in the United States of America, pursuant to the Securities and Exchange Commission rules and regulations. In management's opinion, all adjustments necessary for a fair presentation of the results for the interim periods have been reflected in the interim financial statements. The results of operations for any interim period are not necessarily indicative of the results for a full year. All adjustments to the financial statements are of a normal recurring nature.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. Such disclosures are those that would substantially duplicate information contained in our most recent audited financial statements, such as unchanged significant accounting policies. Management presumes that users of the interim statements have read or have access to the audited financial statements and notes thereto, included in the our most recent annual report on Form 10-KSB.

Business

We, together with our subsidiaries, are engaged in the business of acquiring and managing precious metals royalties. Royalties are passive (non-operating) interests in mining projects that provide the right to revenue from the project after deducting specified costs, if any.

We seek to acquire existing royalties or to assist in the financing of projects that are in production or near production in exchange for royalty interests. We expect that substantially all of our revenues are and will be derived from royalty interests. We do not conduct mining operations at this time or expect to in the foreseeable future.

Reclassifications

Certain comparative amounts have been reclassified to conform to the current year presentation. These reclassifications did not have an impact on previously reported financial position, cash flows, or results of operations.

2. Related Party Transactions

During the quarter ended June 30, 2007 we issued our CEO 1,000,000 shares of common stock at \$0.45 per share in complete satisfaction of previously accrued bonus amounts of \$452,956 in accordance with the terms of his employment agreement.

During the quarter ended June 30, 2007 we paid our CFO \$50,000 in satisfaction of previously accrued bonus amounts in accordance with the terms of his employment agreement.

During the quarter ended June 30, 2007 we issued a total of 2,550,000 shares of common stock at \$0.45 per share to our CFO, CEO, and four other Board Members, in accordance with their respective employment agreements, for a total of \$1,144,544 included in general and administrative expense.

3. Property and Equipment

We acquired an additional 2% gold net smelter royalty and a 2% silver net smelter royalty in the Dolores Reserve; located in Chihuahua, Mexico; for \$9,450,000. The additional acquisition provides us total net smelter royalties of 3.25% and 2.00% for gold and silver production, respectively. The total Dolores Reserve royalty remains in the development stage.

Table of Contents**Battle Mountain Notes to the Interim Financial Statements (Continued)**

As of June 30, 2007 we made no changes in our royalty interests classified as production, development, and exploration, respectively. Further, the mine operators have made no significant changes in their estimated 2007 production.

4. Notes Payable***Gold Facility***

In April 2006, we entered into an 11,750 ounce gold facility agreement with Macquarie Bank Limited. The facility required quarterly payments of 907 ounces totaling 15,000 ounces with the final payment due on May 15, 2010. The facility also requires certain mandatory pre-payment provisions.

In accordance with our entry into the Bridge Financing Facility with Royal Gold, as noted below, Macquarie Bank mandated the delivery 2,721 ounces of gold within 45 days of the execution of Bridge Loan agreement. The amounts represented the remaining fiscal 2007 quarterly payments originally due in May, August, and November. The required prepayments were completed in May for total consideration of \$1,846,652, of which \$236,550 was classified as prepaid interest, based on the spot rates on the payment dates.

As of June 30, 2007 approximately 7,230 ounces of gold remain outstanding and is valued at the current spot rate. The facility is collateralized by our royalty interests.

Royal Gold Bridge Financing

On March 27, 2007 we entered into a bridge financing agreement with Royal Gold, Inc, whereas Royal Gold will provide up to \$20,000,000 in convertible bridge financing. The loan has a one year term and carries an interest rate of LIBOR plus 3%. In April 2007 the total financing available under this agreement was reduced to \$15,000,000 by Royal Gold. Additionally, Royal Gold may, at any time during the term of the agreement, convert the outstanding principal and accrued interest into shares of common stock at a conversion price equal to \$0.60 per share.

As of June 30, 2007 the amount outstanding related to the Bridge financing was \$14,514,552 and is collateralized by our royalty interests.

Subordinated Exchangeable Debenture

We entered into a subordinated exchangeable debenture with IAMGOLD Corp. (seller of the majority of our acquired royalty interests in mining properties) for a total of \$2,000,000. The debenture carries an interest rate of 6% per annum and is due on April 25, 2008. Principal and interest payments are due semi-annually and may be paid in cash or in shares of common stock. Additionally, IAMGOLD may, at any time within the period, convert the outstanding principal and accrued interest into shares of common stock at \$0.50 per share.

The following table illustrates our future obligations as of June 30, 2007:

5. Commitments and Contingencies

On April 17, 2007, we entered into an Agreement and Plan of Merger (the Merger Agreement) with Royal Gold, Inc., (Royal Gold) a Delaware corporation and Royal Battle Mountain Inc. (BMG Acquisition), a direct wholly-owned subsidiary of Royal Gold.

Upon consummation of the merger, which has been approved by the board of directors of both our company and Royal Gold, we will become a wholly-owned subsidiary of Royal Gold. Under the Merger Agreement, Royal Gold will issue up to 1,634,410 of its shares of common stock as consideration for all of our issued and outstanding shares of common stock as at the effective time of the Merger. The consideration payable to our shareholders will depend on the average trading price of Royal Gold's common stock preceding the closing, and ranges from 1,634,410 Royal Gold shares of common stock, if Royal Gold's stock price is at \$29.00 or below, to 1,570,507 Royal Gold shares of common stock, if the Royal Gold's stock price is at \$30.18 or above. A proportional adjustment will be made between these two trading prices. On a per share basis, Royal Gold will pay our shareholders between 0.0172 and 0.0179 shares of Royal Gold's common stock. This consideration is also subject to a potential holdback of approximately 50,000 Royal Gold shares, or approximately 0.0006 Royal Gold shares on a per share basis, for contingent liabilities.

The merger is conditioned upon, among other things, approvals by our stockholders, no legal impediment to the merger, the absence of any material adverse effect on our company or Royal Gold, completion of due diligence reviews by both companies, the declaration of effectiveness of a registration statement by the Securities and Exchange Commission and any other necessary regulatory approvals. The Merger Agreement contains certain termination rights for both our company and Royal Gold, and further provides that, upon termination of the Merger Agreement under specified circumstances, either company may be required to pay the other company certain termination fees.

Table of Contents**Battle Mountain Notes to the Interim Financial Statements (Continued)****7. Warrants**

Warrants were issued in conjunction with the issuance of common stock. To estimate costs related to the issuance of warrants, we have used a lattice pricing model using a life equal to the maximum contractual life. The warrants expire on various dates through April 2011.

The estimated fair value of warrants, using a lattice pricing model is based on the following assumptions.

	2007	2006
Expected Dividend yield	\$ (0)	\$ (0)
Expected stock price volatility	90%	90%
Risk free interest rate	4.09%	4.09%

\$ 0.31	\$ 10,520,159	0.31	4.00	\$ 10,520,159	0.31

8. Income Taxes

We have incurred a taxable net loss of \$816,537 for the quarter ended June 30, 2007. The Company has estimated accumulated tax losses of \$2,529,000 in the United States and \$990,000 in Canada that can be carried forward to offset future earnings if conditions of the Internal Revenue Code are met. The Company also has approximately \$352,000 of foreign tax credits available for offset against future taxable income in the United States. The net operating loss carry-forwards will begin to expire from 2016 through 2024. The utilization of net operating loss carry forwards may be limited due to the ownership change under the provisions of Internal Revenue Code Section 382 and similar foreign provisions. As of June 30, 2007 the Company considers that it is more likely than not that it has the ability to utilize the benefit of these losses.

The Company has considered the implications of FIN 48 *Uncertain Tax Positions* and believes that all of its positions taken in tax filings are more likely than not to be sustained on examination by tax authorities. In the event that a taxing authority challenged a position taken by the Company, no actual liability for tax would result since the Company has available tax loss carry forwards which would be applied in those circumstances.

Table of Contents**Battle Mountain Notes to the Interim Financial Statements (Continued)****9. Loss per Share**

BASIC LOSS PER SHARE:	
Net loss (numerator)	\$ (1,635,725)
Shares outstanding (denominator)	68,944,512
Loss per basic share	\$ (0.02)

Net loss (numerator)	\$ (1,635,725)
Shares outstanding (denominator)	68,944,512

10. Subsequent Events

On July 30, 2007 we amended our definitive merger agreement signed on April 17, 2007, under which Royal Gold agreed to acquire 100% of our fully diluted shares. The amended merger agreement provides our shareholders with an option to receive either cash consideration of \$0.55 per share or from 0.0172 to 0.0179 shares of Royal Gold common stock per share (with proportional adjustment made to the trading price ranges), in each case assuming 91,563,506 shares outstanding at closing.

We have postponed the previously announced record date of June 28, 2007, in order for our shareholders to formally approve the merger transaction. The new record date is September 26, 2007

Our Chairman and CEO, Mark Kucher, and IAMGOLD Corporation (a major shareholder) have provided Royal Gold option and support agreements providing that each will vote its respective beneficially-owned shares in favor of the merger transaction. The directors and other officers of the Company have granted Royal Gold irrevocable proxies to vote their beneficially-owned shares in favor of the merger transaction. As a result of these agreements and irrevocable proxies, together with the convertible Bridge Loan, Royal Gold beneficially owns approximately 57% of the outstanding shares of Battle Mountain.

First Amendment To Bridge Loan Agreement

On July 30, 2007, we entered into a First Amendment to the Bridge Finance Facility Agreement (the Bridge Loan Amendment) with Royal Gold and BMGX (Barbados) Corporation. As previously disclosed on Battle Mountain's Current Report on Form 8-K filed with the SEC on March 23, 2007, pursuant to the Bridge Finance Facility Agreement (the Bridge Loan) dated March 28, 2007, our company was able to borrow from Royal Gold up to

\$20 million in bridge financing to satisfy debt obligations and to finance royalty acquisitions, which availability was subsequently reduced to \$15 million pursuant to the terms of the Bridge Loan. The Bridge Loan Amendment amends the Bridge Loan by (i) extending the final maturity date from March 28, 2008 to June 6, 2008 and (ii) specifying that Royal Gold must provide notice on or before April 4, 2008 in the event it elects to convert any or all amounts due to it under the Bridge Loan into common stock of our company.

Conversion of Subordinated Exchangeable Debenture

On September 4, 2007, Royal Gold acquired the debenture from IAMGOLD. On September 5, 2007, Royal Gold exercised the conversion rights under the debenture for all of the outstanding principal and accrued interest as of September 4, 2007, equal to \$2,000,000 in principal and \$43,397 in accrued interest. On September 6, 2007 Battle Mountain issued an aggregate of 4,086,794 shares of common stock to Royal Gold in connection with the conversion.

NOW, THEREFORE, in consideration of the premises and the mutual covenants and agreements hereinafter contained, the Parties hereby agree as follows:

ARTICLE I

THE MERGER

1.1 The Merger.

On the terms and subject to the conditions set forth in this Agreement, and in accordance with Nevada Law, at the Effective Time, Acquiror Sub shall be merged with and into the Company, with the Company being the surviving corporation (the Surviving Corporation) in the Merger. Upon consummation of the Merger, the separate corporate existence of Acquiror Sub shall cease, and the Surviving Corporation shall continue to exist as a Nevada corporation.

1.2 Closing; Closing Date.

Subject to the terms and conditions of this Agreement, the closing of the Merger (the Closing) shall take place at the offices of Hogan & Hartson L.L.P., located at One Tabor Center, 1200 Seventeenth Street, Suite 1500, Denver, Colorado 80202 (or at such other place as the Parties may designate in writing) at 10:00 a.m. (Mountain

Time) on a date to be specified by the Parties (the Closing Date), which date shall be no later than the third Business Day after satisfaction or waiver of the conditions set forth in Article VIII (other than conditions that by their nature are to be satisfied at the Closing, but subject to the satisfaction or waiver of those conditions at such time), unless another time, date or place is agreed to in writing by the Parties hereto.

1.3 Effective Time.

Subject to the provisions of Section 1.2, as promptly as practicable after the satisfaction or, if permissible, waiver of the conditions set forth in Article VIII, the Surviving Corporation shall cause the Merger to be consummated by filing the articles of merger, in such form as required by, and executed in accordance with the relevant provisions of, Nevada Law (the Articles of Merger) with the Secretary of State of the State of Nevada and any other appropriate documents. The Merger shall become effective at such date and time as the Articles of Merger are filed with the Secretary of State of the State of Nevada or at such subsequent date and time as Acquiror and the Company shall mutually agree and as shall be specified in the Articles of Merger (the date and time of such filing at which the Merger becomes effective being the Effective Time).

1.4 Effect of the Merger.

At the Effective Time, the effect of the Merger shall be as set forth under Nevada Law. Without limiting the generality of the foregoing, and subject thereto, at the Effective Time, all the property, rights, privileges, powers and franchises of the Company and Acquiror Sub shall vest in the Surviving Corporation, and all debts, liabilities and duties of the Company and Acquiror Sub shall become the debts, liabilities and duties of the Surviving Corporation.

1.5 Articles of Incorporation: Bylaws.

(a) At the Effective Time, the articles of incorporation of the Company as the Surviving Corporation shall be amended and restated to read the same as the articles of incorporation of Acquiror Sub in effect immediately prior to the Effective Time, except that Section 1 of the amended and restated articles of incorporation of the Surviving Corporation shall read as follows: The name of this corporation is Battle Mountain Gold Exploration Corp.

(b) At the Effective Time, the bylaws of the Company as the Surviving Corporation shall be amended and restated to read the same as the bylaws of Acquiror Sub in effect immediately prior to the Effective Time, except that all references to Acquiror Sub in the amended and restated bylaws of the Surviving Corporation shall be changed to refer to Battle Mountain Gold Exploration Corp.

1.6 Directors and Officers.

At the Effective Time, the officers and directors of Acquiror Sub immediately prior to the Effective Time shall be the officers and directors of the Surviving Corporation, in each case until their respective successors are duly elected or appointed and qualified or until the earlier of their death, resignation or removal.

ARTICLE II

MERGER CONSIDERATION; CONVERSION OF SECURITIES

2.1 Merger Consideration.

(a) *Stock Consideration.* The maximum stock consideration (assuming all Shareholders receive stock consideration) shall be a number of shares of common stock, par value \$0.01 per share, of Acquiror (the Acquiror Common Stock) calculated as of the Closing Date as follows:

(i) if the Acquiror Stock Price is greater than or equal to \$30.18, then the number of shares of Acquiror Common Stock shall be 1,570,507;

(ii) if the Acquiror Stock Price is both (x) less than \$30.18 and (y) greater than or equal to \$29.00, then the number of shares of Acquiror Common Stock shall be equal to the quotient of (A) \$47,397,901.26, divided by (B) the Acquiror Stock Price; or

(iii) if the Acquiror Stock Price is less than \$29.00, then the number of shares of Acquiror Common Stock shall be 1,634,410.

The number of shares of Acquiror Common Stock calculated in accordance with Section 2.1(a)(i), (ii) or (iii) is referred to herein as the Maximum Stock Consideration.

The amount per share of Common Stock determined by dividing (I) the Maximum Stock Consideration by (II) the sum of (X) the total number of issued and outstanding shares of Common Stock immediately prior to the Effective Time, plus (Y) 3,000,000, is referred to herein as the Unadjusted Per Share Stock Consideration.

If prior to the Effective Time, Acquiror should split or combine the Acquiror Common Stock, or pay a dividend in shares of Acquiror Common Stock or other distribution in such shares of Acquiror Common Stock (but excluding any dividends or other distributions of cash or other property in which case there shall not be any adjustment to the 1,570,507 and 1,634,410 shares of Acquiror Common Stock in clause (i) and (iii) above or the per share prices of \$30.18 and \$29.00 in clauses (i) through (iii)), then the 1,570,507 and 1,634,410 shares of Acquiror Common Stock in clause (i) and (iii) above and the per share prices of \$30.18 and \$29.00 in clauses (i) through (iii) above shall be appropriately adjusted to reflect such split, combination, dividend or distribution; provided, however that the \$47,397,901.26 in clause (ii) above shall not be adjusted in the event of any such split, combination, dividend or distribution.

The Maximum Stock Consideration shall be reduced by the amount of any Pre-Closing Settlement Shares calculated and paid in accordance with Section 7.13(a) and any Post-Closing Settlement Shares calculated and withheld in accordance with Section 7.13(b), which reduced amount is referred to herein as the Effective Time Stock Consideration.

The number of shares of Acquiror Common Stock issuable for each share of Common Stock (the Per Share Stock Consideration) for which a Share Election (as defined below) has been made or deemed to have been made shall be determined by dividing (i) the number of shares of Acquiror Common Stock representing the Effective Time Stock Consideration by (ii) the total number of issued and outstanding shares of Common Stock immediately prior to the Effective Time (the Effective Time Issued and Outstanding Shares), provided, however that if the Closing condition with respect to the conversion of each of the Company's convertible securities set forth in Section 8.2(n) has not been satisfied and Acquiror decides to waive compliance with such Closing condition and proceed with the Closing, then

each issued and outstanding share of Common Stock prior to the Effective Time (excluding shares held by shareholders who perfect their dissenters' rights as provided in Section 2.2(g) and shares to be cancelled pursuant to Section 2.2(f) hereof) shall be converted into the right to receive a number of shares of Acquiror Common Stock determined by dividing (x) the number of shares of Acquiror Common Stock representing the Effective Time Stock Consideration by (y) the sum of (A) the Effective Time Issued and Outstanding Shares plus (B) the total number of shares of Common Stock issuable upon the exercise or conversion of each convertible security of the Company that is not exercised or converted prior to the Effective Time.

(b) *Cash Consideration.* The maximum cash consideration (assuming all Shareholders receive cash consideration) shall equal \$50,359,928 (Maximum Cash Consideration). The amount per share of Common Stock

Table of Contents

determined by dividing (i) the Maximum Cash Consideration by (ii) the sum of (x) the Effective Time Issued and Outstanding Shares, plus (y) 3,000,000, is referred to herein as the Unadjusted Per Share Cash Consideration.

The Maximum Cash Consideration shall be reduced by the amount of any Pre-Closing Settlement Cash calculated and paid in accordance with Section 7.13(a) and any Post-Closing Settlement Cash calculated and withheld in accordance with Section 7.13(b), which reduced amount is referred to herein as the Effective Time Cash Consideration.

The amount of cash payable for each share of Common Stock (the Per Share Cash Consideration) for which a Cash Election (as defined below) has been made or deemed to have been made shall be determined by dividing (i) Effective Time Cash Consideration by (ii) Effective Time Issued and Outstanding Shares, provided, however that if the Closing condition with respect to the conversion of each of the Company's convertible securities set forth in Section 8.2(n) has not been satisfied and Acquiror decides to waive compliance with such Closing condition and proceed with the Closing, then each issued and outstanding share of Common Stock prior to the Effective Time (excluding shares held by shareholders who perfect their dissenters' rights as provided in Section 2.2(g) and shares to be cancelled pursuant to Section 2.2(f) hereof) shall be converted into the right to receive an amount of cash determined by dividing (x) Effective Time Cash Consideration by (y) the sum of (A) the Effective Time Issued and Outstanding Shares plus (B) the total number of shares of Common Stock issuable upon the exercise or conversion of each convertible security of the Company that is not exercised or converted prior to the Effective Time.

2.2 Effect on Capital Stock.

(a) As of the Effective Time, by virtue of the Merger and without any action on the part of the Company, Acquiror, Acquiror Sub or the holders of any shares of Common Stock of the Company, each issued and outstanding share of Common Stock prior to the Effective Time (excluding shares held by shareholders who perfect their dissenters' rights as provided in Section 2.2(g) and shares to be cancelled pursuant to Section 2.2(f) hereof) shall be converted into the right to receive (i) for each share of Common Stock in respect of which an effective election (an Election) shall have been made prior to the Election Deadline, either one of the following: (x) the Per Share Stock Consideration in shares of Acquiror Common Stock, or (y) the Per Share Cash Consideration in cash, and (ii) for each share of Common Stock in respect of which no effective Election shall have been made prior to the Election Deadline for any reason (a No Election Share), the Per Share Stock Consideration in shares of Acquiror Common Stock. The consideration payable pursuant to this Section 2.2(a), together with cash payments in lieu of fractional shares pursuant to Section 2.2(j) plus any Contingent Shares and Contingent Cash payable in accordance with Section 2.3, is referred to herein collectively as the Total Merger Consideration.

(b) Elections to receive either cash consideration (Cash Election) or shares of Acquiror Common Stock (Share Election) shall be made on a form acceptable to Acquiror designated for purposes of making an Election (an Election Form), accompanied by Certificates for shares of Common Stock to which such Election form relates. At the time of the mailing of the Information Statement or Proxy Statement to holders of record of shares of Common Stock entitled to notice of action by written consent or to vote at the Special Meeting, the Company will mail, or cause to be mailed, an Election Form and a letter of transmittal to each such holder. To be effective, an Election Form must be properly completed, signed and actually received by the Exchange Agent, not later than 5:00 p.m. (Mountain Time) on the date (the Election Deadline) that is the fourth Business Day prior to the first Closing Date scheduled by the Parties in accordance with Section 1.2 and, in the case of shares that are not held in book entry form, accompanied by the Certificates representing all of the shares of Common Stock as to which such Election Form relates, duly endorsed in blank or otherwise in form acceptable for transfer (or accompanied by an appropriate guarantee of delivery by an eligible organization). For shares that are held in book entry form, Acquiror shall establish reasonable procedures for the delivery of such shares. Acquiror shall have the discretion, which it may delegate in whole or in part to the Exchange Agent, to determine whether Election Forms have been properly completed, signed and timely submitted or to disregard defects in Election Forms. Any such determination of Acquiror or the Exchange Agent shall be

conclusive and binding. Neither Acquiror nor the Exchange Agent shall be under any obligation to notify any Person of any defect in any Election Form submitted to the Exchange Agent. If Acquiror or the Exchange Agent shall determine that any purported Election was not properly made, the shares of Common Stock subject to such improperly made Election shall be treated as No Election Shares. A record holder shall make the same election with respect to all of the shares of Common Stock held of record by such holder. Any

Election Form may be revoked by any Shareholder who submitted such Election Form to the Exchange Agent prior to the Election Deadline only upon the written consent of Acquiror. In addition, all Election Forms shall automatically be revoked, and all Certificates returned, if the Exchange Agent is notified in writing by Acquiror and Company that this Agreement has been terminated. Each No Election Share shall be treated for purposes of this Section 2.2(b) to have made an effective Share Election and receive the Per Share Stock Consideration in shares of Acquiror Common Stock.

(c) At the Effective Time, each option granted by the Company under the Company's 2004-2005 Non-Qualified Stock Option Plan (the Company Equity Incentive Plan), any other stock option plan or similar employee benefit plan or arrangement maintained or sponsored by the Company providing for equity compensation to any Person or otherwise pursuant to certain inducement grants to purchase Common Stock (each a Company Option and collectively, the Company Options) that is outstanding and unexercised immediately prior to the Effective Time, by virtue of the Merger and without any action on the part of the Company, Acquiror, Acquiror Sub or any of the holders thereof, shall be cancelled and terminated. Prior to the Effective Time, the Company and its Board shall take any and all actions necessary to effectuate this Section 2.2(c), including providing any notices to holders of Company Options and the approval of any amendments to the Company Equity Incentive Plan and, including, but not limited to, satisfaction of the requirements of Rule 16b-3(e) under the Exchange Act. In connection with the exercise of any Company Options, the Company shall comply with all applicable requirements relating to the collection or withholding of Taxes, such as withholding of Taxes from the wages of Employees or former Employees. Further, the Company shall ensure that following the Effective Time no participant in the Company Equity Incentive Plan or other plans, programs or arrangements or other holder of Company Options shall have any right thereunder to acquire any equity securities of the Company, the Surviving Corporation or any Subsidiary.

(d) At the Effective Time, each convertible security, warrant, option or other right to purchase or to subscribe for any shares of capital stock or other securities of the Company or its Subsidiaries (including, but not limited to, all unpaid balances due under that certain 6% Exchangeable Secured Subordinated Debenture of 1212500 Alberta Ltd. due April 25, 2008) that is outstanding and unexercised immediately prior to the Effective Time (other than (i) the Company Options that are addressed in Section 2.2(c), and (ii) the conversion option of Acquiror under the Bridge Financing Facility Agreement), by virtue of the Merger and without any action on the part of the Company, Acquiror, Acquiror Sub or any of the holders thereof, shall be cancelled and terminated. Prior to the Effective Time, the Company and its Board shall take any and all actions necessary to effectuate this Section 2.2(d). Further, the Company shall ensure that following the Effective Time no holder of any convertible security, warrant, option or other right to purchase or to subscribe for any shares of capital stock or other securities of the Company or its Subsidiaries shall have any right thereunder to acquire any capital stock or other securities of the Company, the Surviving Corporation or any Subsidiary.

(e) Upon the Effective Time, by virtue of the Merger and without any action on the part of the Company, Acquiror, Acquiror Sub or the holders thereof, all Common Stock and the Company Options shall no longer be outstanding and shall automatically be canceled and shall cease to exist, and each certificate (a Certificate) previously representing any such Common Stock and each agreement (an Option Agreement) previously representing any such Company Options that are properly exercised prior to the Effective Time shall thereafter represent only the right to receive either (i) the Per Share Stock Consideration and a Pro Rata Share (as defined below) of any Contingent Shares or (ii) the Per Share Cash Consideration and a Pro Rata Share of any Contingent Cash. Payments made in respect of the Company Options that are properly exercised prior to the Effective Time shall be in full satisfaction of all obligations under the Company Equity Incentive Plan and the Option Agreements.

(f) At the Effective Time, by virtue of the Merger and without any action on the part of the Company, Acquiror, Acquiror Sub or any holder thereof, and notwithstanding any other provision hereof that may be to the contrary, all Common Stock that is owned directly by the Company (or held in the Company's treasury) shall be canceled and shall cease to exist and no Acquiror Common Stock or other consideration shall be delivered in exchange therefor.

(g) Notwithstanding any other provision hereof that may be to the contrary, any Shareholder who has not voted such shares in favor of the Merger and who has demanded or may properly demand dissenters' rights in the

manner provided by Section 92A.440 of Nevada Law (Dissenting Shares) shall not be converted into a right to receive a portion of the Total Merger Consideration unless and until the Effective Time has occurred and the holder of such Dissenting Shares becomes ineligible for such dissenters' rights. The holders of Dissenting Shares shall be entitled only to such rights as are granted by Nevada Law. Each holder of Dissenting Shares who becomes entitled to payment for such shares pursuant to Nevada Law shall receive payment therefor from Acquiror in accordance with Nevada Law; provided, however, that (i) if any such holder of Dissenting Shares shall have failed to establish entitlement to dissenters' rights as provided in Section 92A.440 of Nevada Law, (ii) if any such holder of Dissenting Shares shall have effectively withdrawn demand for appraisal of such shares or lost the right to appraisal and payment for shares under Nevada Law or (iii) if neither any holder of Dissenting Shares nor Surviving Corporation shall have filed a petition demanding a determination of the value of all Dissenting Shares within the time provided under Nevada Law, such holder of Dissenting Shares shall forfeit the right to appraisal of such shares and each such Dissenting Share shall be treated as if it had been, as of the Effective Time, converted into a right to receive the applicable portion of the Total Merger Consideration, without interest thereon, as provided in this Section 2.2 of this Agreement. The Company shall give Acquiror prompt notice of any demands received by the Company for appraisal of any shares of Common Stock, and Acquiror shall have the right to participate in all negotiations and proceedings with respect to such demands. The Company shall not, except with the prior written consent of Acquiror, make any payment with respect to, or settle or offer to settle, any such demands, with respect to any holder of Dissenting Shares before the Effective Time.

(h) At the Effective Time, by virtue of the Merger and without any action on the part of the Company, Acquiror, Acquiror Sub or any holder thereof, each share of common stock, par value \$0.001 per share, of Acquiror Sub issued and outstanding immediately prior to the Effective Time shall be converted into one fully paid and nonassessable share of common stock, par value \$0.001 per share, of the Surviving Corporation.

(i) All shares of Acquiror Common Stock paid in respect of the surrender for exchange of shares of Common Stock in accordance with the terms hereof shall be deemed to be in full satisfaction of all rights pertaining to such shares of Common Stock. If, after the Effective Time, Certificates are presented to the Surviving Corporation for any reason, they shall be canceled and exchanged as provided in this Article.

(j) Notwithstanding any other provision of this Agreement, no fractional shares of Acquiror Common Stock shall be issued upon the conversion and exchange of Certificates, and no holder of Certificates shall be entitled to receive a fractional share of Acquiror Common Stock. In the event that any holder of Common Stock would otherwise be entitled to receive a fractional share of Acquiror Common Stock (after aggregating all shares and fractional shares of Acquiror Common Stock issuable to such holder), then such holder will receive an amount of cash (rounded to the nearest whole cent) equal to the fair market value of the Acquiror Common Stock (as determined by the Acquiror) multiplied by the fraction of a share of Acquiror Common Stock to which such person would otherwise be entitled.

2.3 Contingent Shares and Contingent Cash Arrangement.

(a) At the Effective Time, (i) the number of shares of Acquiror Common Stock issuable pursuant to Section 2.2 to the Shareholders shall be reduced by the number of Post-Closing Settlement Shares and (ii) the amount of cash payable pursuant to Section 2.2 to the Shareholders shall be reduced by the amount of Post-Closing Settlement Cash. The pro rata share (Pro Rata Share) of each Shareholder who has made or deemed to have made a Share Election under Section 2.2 shall be based on the number of shares of Common Stock held by such Shareholder relative to the number of shares of Common Stock held by all Shareholders who have made or deemed to have made Share Elections under Section 2.2. The Pro Rata Share of each Shareholder who has made a Cash Election under Section 2.2 shall be based on the number of shares of Common Stock held by such Shareholder relative to the number of shares of Common Stock held by all Shareholders who have made Cash Elections under Section 2.2.

(b) The Shareholders shall not be entitled to any voting rights with respect to the Post-Closing Settlement Shares, until such time or times that any Contingent Shares are issued in accordance with this Section 2.3.

(c) By approving the Merger and/or accepting the consideration set forth in Section 2.2, the Shareholders will have (i) irrevocably and unconditionally approved the retention by Acquiror of any Post-Closing Settlement Shares and Post-Closing Settlement Cash in satisfaction of the Schedule 5.8 Claim in accordance with Section 7.13, and

A-6

Table of Contents

(ii) irrevocably and unconditionally agreed to take such other actions, if any, with respect to the issuance (or non-issuance and retention by Acquiror) of the Post-Closing Settlement Shares or payment (or non-payment and retention by Acquiror) of the Post-Closing Settlement Cash as may be necessary, in Acquiror's reasonable opinion, to effect the proper treatment of the Post-Closing Settlement Shares and Post-Closing Settlement Cash pursuant to the terms of this Agreement.

(d) Subject to Section 2.3(c), if any Post-Closing Settlement Shares or Post-Closing Settlement Cash initially withheld by Acquiror on the Closing Date pursuant to Section 7.13(b) becomes payable by Acquiror following the settlement of the Schedule 5.8 Claim pursuant to Section 7.13(c), then the resulting Contingent Shares and Contingent Cash, if any, shall be distributed as follows. Within 15 Business Days following the final settlement of the Schedule 5.8 Claim, Acquiror shall cause the Exchange Agent (as defined below) to issue (i) a certificate to each holder of a Certificate who has made (or deemed to have made) a Share Election and properly completed a letter of transmittal in accordance with Article III, at the address specified in the holder's letter of transmittal, representing such holder's respective Pro Rata Share of the Contingent Shares, or (ii) a check to each holder of a Certificate who has made a Cash Election and properly completed a letter of transmittal in accordance with Article III, at the address specified in the holder's letter of transmittal, representing such holder's respective Pro Rata Share of the Contingent Cash. In the event that any holder would otherwise be entitled to receive a fractional share of Acquiror Common Stock (after aggregating all shares and fractional shares of Acquiror Common Stock issuable to such holder) under this Section 2.3, then such holder will receive an amount of cash (rounded to the nearest whole cent) equal to the fair market value of the Acquiror Common Stock (as determined by Acquiror) multiplied by the fraction of a share of Acquiror Common Stock to which such person would otherwise be entitled.

(e) No Post-Closing Settlement Shares, Post-Closing Settlement Cash or any beneficial interest therein may be pledged, encumbered, sold, assigned or transferred (including any transfer by operation of law) by any Shareholder or be taken or reached by any legal or equitable process in satisfaction of any debt or other liability of any Shareholder prior to the issuance and payment by Acquiror to the Shareholders of Contingent Shares or Contingent Cash, in accordance with this Agreement, except that Shareholders shall be entitled to assign their rights to the Post-Closing Settlement Shares or Post-Closing Settlement Cash by will or by the laws of intestacy.

(f) In holding and administering the Post-Closing Settlement Shares and Post-Closing Settlement Cash, Acquiror will incur no liability with respect to any action taken (or not taken) or suffered by it in reliance upon any notice, direction, instruction, consent, statement or other document believed by it to be genuine and to have been signed or approved by the Representative (and shall have no responsibility to determine the authenticity thereof), nor for any other action or inaction, except Acquiror's own willful misconduct or gross negligence. In all questions arising under this Agreement with respect to the Post-Closing Settlement Shares and Post-Closing Settlement Cash, Acquiror may rely on the written opinion of counsel, and Acquiror will not be liable to anyone for anything done, omitted or suffered in good faith by Acquiror based on such advice.

(g) In the event that prior to the date of issuance of the Contingent Shares, Acquiror should split or combine the Acquiror Common Stock, or pay a dividend in shares of Acquiror Common Stock or other distribution in such shares of Acquiror Common Stock (but excluding any dividends or other distributions of cash or other property in which case there shall not be any adjustment), then the number of Post-Closing Settlement Shares shall be appropriately adjusted to reflect such split, combination, dividend or distribution and thereafter all references to the Post-Closing Settlement Shares and any resulting Contingent Shares shall be deemed to be such consideration as so adjusted.

ARTICLE III

EXCHANGE PROCEDURES

3.1 Exchange Agent.

Acquiror shall select a Person reasonably acceptable to the Company (the Exchange Agent), on a timely basis, if and when needed for the benefit of the holders of Certificates. There shall be a written agreement between Acquiror and the Exchange Agent in which the Exchange Agent expressly undertakes, on reasonably customary terms, the obligation to pay either (i) the Per Share Stock Consideration and any Contingent Shares as provided herein or (ii) the Per Share Cash Consideration and any Contingent Cash as provided herein. The Company shall have a reasonable opportunity, but in any event at least five Business Days, to review and comment on the agreement with the Exchange Agent prior to it being finalized.

3.2 Exchange.

(a) As soon as practicable, but no more than three Business Days, after the Effective Time, provided that Company has cooperated to make the necessary information available thereto a sufficient time in advance, the Exchange Agent shall mail to each holder of record of a Certificate or Certificates a form letter of transmittal (which shall specify that delivery shall be effected, and risk of loss and title to the Certificates shall pass, only upon delivery of the Certificates to the Exchange Agent) and instructions for use in effecting the surrender of the Certificates in exchange for payment of either (i) the Per Share Stock Consideration pursuant to this Agreement or (ii) the Per Share Cash Consideration. Additionally, the Exchange Agent shall provide a form of the letter of transmittal to the Company prior to the Closing Date. Upon surrender of a Certificate for exchange and cancellation to the Exchange Agent, together with such letter of transmittal, duly executed, the holder (or any agent thereof) of such Certificate shall be entitled to receive promptly in exchange therefor a certificate issued to such holder (or any agent thereof) representing either (x) the number of shares of Acquiror Common Stock or (y) the amount of cash to which such holder shall have become entitled pursuant to the provisions of Article II hereof, and the Certificate so surrendered shall forthwith be canceled.

(b) As of the Effective Time, there shall be no transfers on the stock transfer books of the Company of the Common Stock that were issued and outstanding immediately prior to the Effective Time. If, after the Effective Time, Certificates representing such shares are presented for transfer to the Exchange Agent, they shall be canceled and exchanged for the Per Share Stock Consideration or Per Share Cash Consideration as provided in this Article III.

(c) Acquiror, any Affiliate of Acquiror, any Affiliated Person or the Exchange Agent will be entitled to deduct and withhold from the consideration otherwise payable pursuant to this Agreement or the transactions contemplated hereby to any holder of Common Stock or the Company Options such amounts as Acquiror (or any Affiliate of Acquiror or Affiliated Person) or the Exchange Agent are required to deduct and withhold with respect to the making of such payment under Nevada Law, or any applicable provision of U.S. federal, state, local or non-U.S. tax law. Any provision of this Agreement may be amended or waived, but only if the amendment or waiver is in writing and signed by the Party or Parties that would have benefited by the provision waived or amended. This Agreement may be amended by the Parties as provided in this Section 11.5 at any time before or after the Shareholders or the sole shareholder of Acquiror Sub approve this Agreement, but after such approval no such amendment shall be made which by Nevada Law requires the further approval of the Shareholders or the sole shareholder of Acquiror Sub without obtaining such approval.
