About the Annual Meeting and Voting

Our Board of Directors is soliciting your proxy to vote at our annual meeting of shareholders (or at any postponement or adjournment of the meeting). This proxy statement summarizes the information you need to know to vote at the meeting.

We began mailing this proxy statement and the enclosed proxy card on or about December 13, 2007, to all shareholders entitled to vote. The Woodward Governor Company Annual Report, which includes our financial statements, is being sent with this proxy statement. The financial statements contained in the Woodward Governor Company Annual Report are not deemed material to the exercise of prudent judgment in regard to the matters to be acted upon at the annual meeting, and, therefore, are not incorporated by reference into this proxy statement.

Shareholders who owned Woodward common stock at the close of business on the record date, November 26, 2007, are entitled to vote at the meeting. As of the record date, there were 33,979,283 shares outstanding.

Each share of Woodward common stock that you own entitles you to one vote on each matter presented at the meeting, except for the election of directors, in which you may cumulate your votes. Since three directors are standing for election, you will be entitled to three director votes for each share of stock you own. Of this total, you may choose how many votes you wish to cast for each director.

Woodward offers shareholders the opportunity to vote by mail, by telephone, or via the Internet. Instructions to use these methods are set forth on the enclosed proxy card.

If you vote by telephone or via the Internet, please have your proxy or voting instruction card available. A telephone or Internet vote authorizes the named proxies in the same manner as if you marked, signed, and returned the card by mail. Voting by telephone and via the Internet are valid proxy voting methods under the laws of Delaware (our state of incorporation) and Woodward Bylaws.

If you properly fill in your proxy card and send it to us in time to vote, one of the individuals named on your proxy card (your proxy) will vote your shares as you have directed. If you sign the proxy card but do not make specific choices, your proxy will follow the Board's recommendations and vote your shares:

FOR the election of the Board's nominees to the Board of Directors;

FOR the proposal to ratify the appointment of Deloitte & Touche LLP as independent registered public accounting firm; and

FOR the proposal to amend Article Fourth of the Certificate of Incorporation to increase the number of authorized shares of common stock of the Company from 100,000,000 to 150,000,000 as well as to effect a two-for-one stock split of the common stock of the Company.

If any other matter is presented at the meeting, your proxy will vote in accordance with his best judgment. At the time this proxy statement went to press, we knew of no other matters to be acted on at the meeting.

You may revoke your proxy by:

entering a new vote by telephone, over the Internet, or by signing and returning another signed proxy card at a later date,

notifying our Corporate Secretary in writing before the meeting that you have revoked your proxy, or

voting in person at the meeting.

If you want to give your written proxy to someone other than individuals named on the proxy card:

cross out the individuals named and insert the name of the individual you are authorizing to vote, or

provide a written authorization to the individual you are authorizing to vote along with your proxy card.

Table of Contents

Summary of Proposals Submitted for Vote

Proposal 1: Election of Directors

Nominees: At the annual meeting, you will be asked to elect three directors to the Board of Directors. The directors will be elected to a three-year term and will hold office until the 2010 annual meeting held in or about January 2011 and until their successors are elected and qualify.

Vote Required: Directors are elected by a plurality vote of shares present at the meeting in person or by proxy, meaning that the three director nominees receiving the most votes will be elected.

Proposal 2: Ratification of the Appointment of Independent Registered Public Accounting Firm

Independent Registered Public Accounting Firm: At the annual meeting, you will be asked to ratify the Audit Committee's appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm for fiscal year 2008.

Vote Required: An affirmative vote by the holders of the majority of shares present at the meeting in person or by proxy will be required to ratify the Audit Committee's appointment of the independent registered public accounting firm.

Proposal 3: Proposal to Amend Article Fourth of the Certificate of Incorporation to Increase the Number of Authorized Shares and to Effect a Two-for-One Stock Split

Amendment to Certificate of Incorporation and Stock Split: At the annual meeting, you will be asked to approve a proposed amendment to Article Fourth of the Certificate of Incorporation to increase the number of authorized shares of common stock of the Company from 100,000,000 to 150,000,000 and to effect a two-for-one stock split of the common stock.

Vote Required: The affirmative vote by the holders of two-thirds of the outstanding shares of common stock as of the record date is required to amend Article Fourth of the Certificate of Incorporation to increase the number of authorized shares of common stock of the Company from 100,000,000 to 150,000,000 and to effect a two-for-one stock split of the common stock of the Company.

Quorum: A quorum of shareholders is necessary to hold a valid meeting. The presence, in person or by proxy, at the meeting of holders of shares representing a majority of the votes of the common stock entitled to vote constitutes a quorum. Abstentions and broker non-votes are counted as present for establishing a quorum. A broker non-vote occurs when a broker votes on some matters on the proxy card but not on others because he or she is not permitted to vote on that item absent instruction from the beneficial owner of the shares and no instruction is given. Abstentions with respect to matters other than the election of directors have the same effect as votes against a matter. Broker non-votes will have no effect on the vote, except with respect to Proposal 3.

The Board of Directors unanimously recommends that the shareholders vote FOR each of the proposals listed above.

The foregoing are only summaries of the proposals. You should review the full discussion of each proposal in this proxy statement before casting your vote.

Audit Committee

The Audit Committee oversees and monitors the Company's accounting and financial reporting processes, including the quality of internal controls over those processes and audits of the Company's financial statements and internal controls over financial reporting. The Committee produces an annual report relating to the Company's financial statements in compliance with applicable rules and regulations and recommends to the Board of Directors that the audited financial statements of the Company be included in the Company's Annual Report on Form 10-K. The Committee also retains, oversees and evaluates the independent registered public accounting firm. The Committee operates under a Charter that more fully describes the responsibilities of the Committee. The Committee also reviews its charter annually and recommends to the Board of Directors such revisions as it deems necessary. The Audit Committee charter is available for review on the Company's website at [http://www.woodward.com/corp/Board Committees.cfm](http://www.woodward.com/corp/Board%20Committees.cfm).

Consistent with SEC regulations and the Nasdaq's independent director and Audit Committee listing standards, and in accordance with the Committee charter, all members of the Audit Committee are independent directors. The Board of Directors has determined that all members of the Audit Committee are Audit Committee Financial Experts, as the SEC defines that term.

The Committee held six meetings in fiscal 2007.

Compensation Committee

The Compensation Committee reviews and approves the compensation of all of our executive officers. The Committee has oversight responsibility for the Company's annual incentive plan, the Long-Term Management Incentive Compensation Plan, the 2002 Stock Option Plan, and the 2006 Omnibus Incentive Plan, and determining and taking all action, including granting of all incentives and/or stock options to eligible Company employees, in accordance with the terms of the plans. Consistent with the Nasdaq's independent director listing standards, and in accordance with the Committee charter, all members of the Compensation Committee are independent directors.

The Committee reviews performance against targets for both the annual incentive compensation plan and the long-term incentive compensation plan.

General

The principal responsibilities of the Compensation Committee are to, among other things, discharge the responsibilities of the Board of Directors relating to compensation of the

Board Meetings and Committees (continued)

Company's Chief Executive Officer and other officers, produce an annual report relating to the Company's Compensation Discussion and Analysis (CD&A) and recommend to the Board of Directors the inclusion of the CD&A in the Company's Annual Report on Form 10-K and proxy statement. The Compensation Committee's written charter, which describes the specific duties of the Committee, is available on the Company's corporate website at <http://www.woodward.com/corp/BoardCommittees.cfm>.

The Compensation Committee meets as often as necessary to perform its duties and responsibilities. The Committee held three meetings in fiscal 2007. These meetings were held to review company and executive performance in fiscal 2007, and to receive and review information regarding compensation trends and competitive compensation information.

In making its decisions, the Compensation Committee routinely examines the following important business factors:

- financial reports on performance versus budget and compared to prior year performance;

- calculations and reports on levels of achievement of corporate performance objectives;

- reports on the Company's strategic initiatives and budget for future periods;

- information on the executive officers' stock ownership and option holdings;

- information regarding equity compensation plan dilution;

- data regarding the total compensation of our Chief Executive Officer, Chief Financial Officer, and our three other most highly compensated executive officers (our Named Executive Officers or NEOs), including base salary, cash incentives, equity awards, and perquisites; and

- information regarding compensation programs and compensation levels at comparator companies identified by our compensation consultant.

Delegation of Authority

The Compensation Committee Charter provides authority to the Committee to delegate its role and responsibilities to subcommittees entirely made up of Compensation Committee members.

The Compensation Committee's Interaction with Management

In order to ensure that compensation programs are aligned with appropriate Company performance goals and strategic direction, management works closely with the Compensation Committee in the compensation-setting process. Specifically, management will assist the Compensation Committee in evaluating executive performance, recommending business performance targets and objectives, and recommending salary levels and option awards. However, all decisions regarding executive compensation are ultimately made by the Compensation Committee.

The Company's Director, Global HR Support Services works with the Compensation Committee Chair to establish the agenda for Committee meetings. At the Committee's request, the Chief Executive Officer regularly attends the meetings and provides background information regarding the Company's strategic objectives, evaluation of the performance of the senior executive officers, and compensation recommendations as to senior executive officers (other than himself). The Compensation Committee may also seek input from the Vice President, Global Human Resources, and the General Counsel, as necessary and appropriate, to carry out its duties.

Interaction with Compensation Consultants

In making its determinations with respect to executive compensation, the Compensation Committee has historically engaged the services of a compensation consultant. In fiscal year 2007, the Compensation Committee retained the services of Hewitt Associates to assist with its review of the compensation package of the NEOs.

Table of Contents

Board Meetings and Committees (continued)

The Compensation Committee retains Hewitt Associates to provide guidance for executive compensation purposes. Annually, Hewitt provides the Committee with a Management Compensation Analysis wherein the compensation for the NEOs is compared to our compensation philosophy and the compensation at comparator companies for base pay, target bonus, target total cash, long-term cash and equity incentives, and target total compensation. In carrying out its assignment, the consultant may interact with members of management, including but not limited to the Chief Executive Officer, the Vice President, Global Human Resources, the General Counsel, the Corporate Controller, and the Director, Global HR Support Services.

Hewitt additionally acts as a global compensation and benefits consultant for the Company. Hewitt provides total compensation data for all of the Management Incentive Plan participants, not just the NEOs. Management also utilizes Hewitt's benefits-related survey data with respect to compensation benchmarking for non-NEOs.

It is the Compensation Committee's and the Company's belief that, as a result of the interactions with the Compensation Committee and management, Hewitt has a well developed understanding of our business, and is well positioned to provide objective guidance on compensation and benefit plans that are aligned with, and reinforce, our strategies and goals.

Executive Committee

The Executive Committee exercises all the powers and authority of the Board of Directors in the management of the business when the Board is not in session and when, in the opinion of the Chairman of the Board, the matter should not be postponed until the next scheduled Board meeting. The Committee may declare cash dividends. The Committee may not authorize certain major corporate actions such as amending the Certificate of Incorporation, amending the Bylaws, adopting an agreement of merger or consolidation, or recommending the sale, lease, or exchange of substantially all of Woodward's assets. The Committee held one meeting in fiscal 2007.

**Nominating and
Governance Committee**

The Nominating and Governance Committee recommends qualified individuals to fill any vacancies on the Board, develops and administers the Director Guidelines and the Company's corporate governance guidelines, and establishes other guidelines, such as stock holding requirements for officers and directors. In accordance with SEC guidelines, criteria established by Nasdaq, and the Committee's charter, all members of the Nominating and Governance Committee are independent directors. The Committee held two meetings in fiscal 2007.

**Director Nomination
Process**

The Nominating and Governance Committee considers candidates for Board membership as recommended by directors, management, or shareholders. The Committee uses the same criteria to evaluate all candidates for Board membership and, as it deems necessary, may engage consultants or third-party search firms to

assist in identifying and evaluating potential nominees.

Director candidates are expected to possess the highest levels of personal and professional ethics, integrity, values, and independence. Prospective directors should be committed to representing the long-term interests of the shareholders. A potential director must exhibit an inquisitive and objective perspective, an ability to think strategically, an ability to identify practical problems, and an ability to assess alternative courses of action that contribute to the long-term success of the business. The Committee is committed to exercising best practices of corporate governance and recognizes the importance of a Board that contains diverse experience at policy-making levels in business, public service, education and technology, as well as other relevant knowledge that contributes to the Company's global activities. Director candidates must have industry expertise and/or commit to understanding the Company's industry as a basis to address strategic and operational issues of importance to the Company.

Every effort is made to complement and supplement skills within the Board and strengthen identified areas of need. The Committee considers relevant factors, as it deems appropriate, including the current composition of the Board and the need for expertise on various Board committees. The Committee will consider the ability of candidates to meet independence and other requirements of the SEC or other regulatory bodies exercising authority over the Company. In assessing candidates, the Committee considers criteria such as education,

Table of Contents

Board Meetings and Committees (continued)

experience, diversity, knowledge, and understanding of matters such as finance, manufacturing, technology, distribution, and other areas that are frequently encountered by a complex business. The Committee will make inquiries of prospective Board candidates about their ability to devote sufficient time to carry out their duties and responsibilities effectively, and whether they are committed to serve on the Board for a sufficient time to make significant contributions to the governance of the organization.

The Committee evaluation normally requires one or more members of the Committee, and others as appropriate, to interview prospective nominees in person or by telephone. Upon identification of a qualified candidate, the Nominating and Governance Committee will recommend a candidate for consideration by the full Board.

Nominations for Board membership may be provided to the Nominating and Governance Committee by submitting the candidate's name and qualifications to Woodward Governor Company, Attn: Corporate Secretary, P. O. Box 1519, 1000 E. Drake Road, Fort Collins, Colorado 80525. When submitting candidates for nomination, information must be provided in accordance with Woodward's Bylaws.

Lead Director

Mr. Joyce serves as Lead Director. The Lead Director chairs separate meetings of the independent directors, generally following each regularly scheduled Board meeting. Topics discussed are at the discretion of the independent directors. The Lead Director then meets with the Chief Executive Officer to review items discussed at the meeting.

Director Qualifications

The Company's Bylaws provide that:

each director shall retire on September 30th following his or her seventieth birthday unless approved otherwise by the Board,

no person may serve as a director unless he or she agrees to be guided by the philosophy and concepts expressed in Woodward's Constitution, and

Woodward must receive adequate notice regarding nominees for directors. A copy of the notice requirement in Section 2.8 of our Bylaws is attached as Exhibit A.

**Shareholder
Communications with
the Board of Directors**

Shareholders may send communications to the Board of Directors by submitting a letter addressed to: Woodward Governor Company, Attn: Corporate Secretary, P. O. Box 1519, 1000 E. Drake Road, Fort Collins, Colorado 80525.

The Board of Directors has instructed the Corporate Secretary to forward such communications to the Lead Director of the Board of Directors. The Board of Directors has also instructed the Corporate Secretary to review such correspondence and, at the Corporate Secretary's discretion, not to forward correspondence which is deemed of a commercial or frivolous nature or inappropriate for Board of Director

consideration. The Corporate Secretary may also forward the shareholder communication within the Company to the President and Chief Executive Officer or another function to facilitate an appropriate response.

The Corporate Secretary will maintain a log of all communications from shareholders and the disposition of such communications for review by the directors at least annually.

**Related Person Transaction
Policies and Procedures**

In November 2007, the Board of Directors adopted our Related Person Transaction Policies and Procedures. This written policy provides that the Audit Committee will review and approve Interested Transactions (as described below). The Chair of the Audit Committee has delegated authority to act with respect to Interested Transactions that are valued below a stated threshold.

The policy defines an Interested Transaction with reference to transactions described in Item 404 of Regulation S-K promulgated by the SEC, which generally means a transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships or any material amendments or modifications thereto in which the Company (including any of its subsidiaries) was, is or will be

Table of Contents

Board Meetings and Committees (continued)

a participant and the amount involved exceeds \$120,000, and in which any Related Person had, has or will have a direct or indirect interest.

Related Person also is defined in the policy with respect to the definitions contained in Item 404 of Regulation S-K. Generally, Related Persons consist of any director or executive officer of the Company, any nominee for director, any holder of five percent or more of the Company's common stock, or any immediate family member of any such persons. Immediate family member means any child, stepchild, parent, stepparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of any such person, and any person (other than a tenant or employee) sharing the household of such person. It may also include entities with which any of such persons have a relationship.

The approval procedures in the policy state that the Audit Committee will take into account, among other factors it deems appropriate, whether the Interested Transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances. In addition, the policy states that, in connection with the approval or ratification of an Interested Transaction involving an outside director or nominee for director, the Audit Committee should consider whether such transaction would compromise such director's status as: (1) an independent director under The Nasdaq Stock Market's independence standards, (2) an outside director under Section 162(m) of the Internal Revenue Code or a non-employee director under Rule 16b-3 under the Exchange Act, if such non-employee director serves on the Compensation Committee of the Board or (3) an independent director under Rule 10A-3 of the Exchange Act, if such non-employee director serves on the Audit Committee of the Board. The policy also describes certain transactions deemed to be pre-approved, including transactions involving competitive bids, regulated transactions and employee transactions.

Prior to November 2007, the Company's unwritten policy with respect to Related Person transactions was to evaluate and monitor Related Person transactions. Any such material transaction was required to comply with the Company's policies, including the Company's Code of Conduct which addresses conflicts of interest, and any payments by the Company to a director's primary business affiliation or the primary business affiliation of an immediate family member of a director or officer for goods or services, or other contractual arrangements were required to be approved by the Audit Committee in accordance with the Nasdaq rules and be made in the ordinary course of business and on substantially the same terms as those prevailing at the time for comparable transactions with non-affiliated persons.

In 2002, we purchased a company named Leonhard Reglerbau Dr. Ing. Adolf Leonhard GmbH from Gerhard Lauffer in an arms-length transaction. At the time, Mr. Lauffer was unaffiliated with the Company. In connection with this acquisition, the parties negotiated lease agreements for property located in Stuttgart, Germany used by the acquired company but owned by an entity owned and controlled by

Mr. Lauffer. Upon completion of this acquisition, Mr. Lauffer became an employee of the Company. The lease agreements remained in place during fiscal year 2007, during which time the entity controlled and owned by Mr. Lauffer, currently our Group Vice President, Electrical Power Systems, was paid in euros an amount equivalent to \$816,000 under the lease agreements. The terms of the lease agreements were agreed upon by us at a time when Mr. Lauffer was not a Related Person of the Company and therefore the foregoing procedures were not utilized in connection with this transaction. One of the lease agreements expires in 2011, and the other expires in 2013; however, each lease agreement is automatically extended for additional five-year terms if not terminated by either party one year before the end of the then-current term. The rental rates under the lease agreements were to be reevaluated every three years but no such revaluation had occurred through October 2007. In November 2007, the rental rates were reevaluated in accordance with the terms of the original lease agreements and were compared to current market prices for similar properties in the vicinity. Following this review, new rates were approved in accordance with our Related Person Transaction Policies and Procedures. Because the rental rates were not reviewed in 2005 as provided in the lease agreements, the Company has agreed to reevaluate the rates to reflect

Table of Contents**Board Meetings and Committees** (continued)

any additional market changes in March 2008, the six-year anniversary of this acquisition, and to thereafter reevaluate the rates every three years in accordance with the initial intent of the lease agreements. All subsequent reevaluations and proposals for revised rental rates will be subject to approval in accordance with our Related Person Transactions Policies and Procedures. The new rental rates, without taking into account any modification of rates that may occur in March 2008, would result in payments to Mr. Lauffer of approximately \$842,000 in fiscal 2008, based on the same euro conversion rate used above.

The Company did not enter into, nor did it have ongoing, any other Interested Transactions in fiscal year 2007.

Compensation Discussion and Analysis

2007 Overview

Our Executive Compensation Program has been designed to (1) provide a competitive total compensation program which enables us to attract, retain, and motivate a high-performance executive management team, and (2) link the total compensation program payouts to Company and individual performance. We believe that proper administration of this program results in development of a management team that drives our performance benefiting the long-term interests of the Company and our shareholders.

The Compensation Committee, comprised entirely of independent directors, has oversight responsibilities for the compensation program administration. The program is structured as a total compensation package comprised of (1) base salary, (2) a short-term cash annual incentive plan, and (3) long-term incentive compensation which includes cash and equity components. All compensation decisions with respect to our Named Executive Officers are subject to Compensation Committee review and approval. In addition, the compensation program for NEOs includes health and welfare benefits, a deferred compensation program, defined contribution plans, change of control arrangements, and other ancillary benefits.

The compensation programs for Woodward's executive officers and key leaders, are based on the overall financial performance of the Company as measured by the achievement of designated financial targets.

We use a market-based compensation model wherein the responsibility and accountabilities of Woodward Named Executive Officers are compared to similarly structured positions within a representative comparator group. Guidance is provided by Hewitt Associates, an executive compensation consulting firm engaged by the Compensation Committee throughout the entire process, including the selection of the comparator companies, base pay, annual incentive compensation, and long-term incentives.

Compensation Philosophy and Strategy

Our compensation philosophy is to establish total compensation opportunities that, when performance is at target, are competitive with the median of the value of similar opportunities at companies similar to us.

A strong emphasis is placed on variable compensation. Variable compensation plans are designed so that the payout opportunity is directly linked to the achievement of pre-determined performance metrics, with upside opportunity for exceeding the pre-determined goals.

Base pay and variable pay opportunities (annual incentive plans and long-term incentive plans), considered as a total compensation package, are designed to encourage and drive the behaviors and financial performance of our NEOs to enhance our fundamental performance and drive shareholder value.

Competitive Comparisons

Our compensation programs are benchmarked to be competitive with other similar companies through the selection of a peer comparator group.

The peer comparator group selection process incorporates many factors. Generally, companies are selected on the basis of: competitors for business or talent, global structure, level of operational complexity, similar revenue size, similar capitalization, and manufacturing profile.

The effectiveness of the peer group companies in providing relevant benchmarks is assured by focusing on the group as a whole and by using 50th percentile compensation data as a reference in determining our target compensation

levels. Additionally, the statistical methodology of regression analysis is used to bring comparator group revenues, and our corresponding target compensation levels, in alignment with our revenue. This is done as revenue can be a proxy for scope and complexity of the position being compared.

Our executives are matched to the peer comparator group, which is developed in consultation between Hewitt and management utilizing the Hewitt Total Compensation Measurement database companies and is considered by the Committee. This allows for pay comparisons based on functional matches, job duties, responsibilities, level of impact, and organizational level.

Table of Contents**Compensation Discussion and Analysis** (continued)

The above comparator group is used to determine target compensation opportunities across each component of compensation, those being base pay, annual incentive compensation, and long-term incentive compensation plan and, when considered in the aggregate, the total compensation opportunity.

For purposes of developing the performance metrics for determining the payout under the cash component of the long-term incentive plan, we use a relative measure methodology wherein we compare our performance to the S&P Small Cap 600, of which we are a member. We believe that for the cash component of the long-term incentive plan, this measure is more appropriate as a benchmark of our performance against a larger and broader population of companies which is representative of investment options available to the market. Outperforming the benchmark should drive increases in shareholder value. This benchmark measure was presented to the Compensation Committee and considered appropriate.

Allocation Between Current and Long-Term Compensation

We use a mix of pay comparison analysis when reviewing our total compensation. This analysis looks at how pay is delivered at our company relative to the market, in particular, the relationship between fixed and variable pay, and short-term and long-term compensation. The following table details that current relationship.

	Pay Mix		
	Base Salary	Target Annual Incentive Bonus	Long-Term Incentive
Woodward	37%	20%	43%

Our pay mix is relatively consistent with the market as measured against our comparator companies. We believe it is important to provide some smaller portion of total compensation in a more stable form like base salary, and a more meaningful position on total compensation tied to incentives which can fluctuate, up or down, based on our performance. We look to market practice as a guide for pay mix in order to minimize any recruiting disadvantages that may result from a pay structure that differs materially from outside opportunities.

Allocation Between Cash and Non-Cash Compensation

With the above discussion on the allocation between current and long-term compensation provided as a reference point, total compensation for NEOs in 2007 was allocated 70% to cash (base salary, annual incentive, LTIP) elements and 30% to non-cash (stock options) elements. This allocation is an outcome rather than a starting point - we do not have a targeted allocation ratio between cash and non-cash elements for total compensation. Our present allocation is influenced by two important factors:

Our efforts to minimize the extent to which the interests of existing shareholders are diluted by equity used as compensation; and

Our desire to align the majority of our variable compensation with our fundamental financial performance (on which management has a great deal of direct influence) rather than to changes in stock price (on which management has relatively less direct influence).

Compensation Components

Base Pay

Base pay and annual rate adjustments are determined at levels considered appropriate for comparable positions at peer companies with consideration of individual performance, experience, responsibilities, management and leadership skills. Base salary is a standard compensation component we must pay to remain competitive.

Our executives are matched to the comparator group database allowing for pay comparisons based on functional matches, *i.e.* job duties, responsibilities, and level of impact.

Using the statistical methodology of regression analysis, comparator company revenues as a proxy for job scope and complexity are used to align our revenue to our base salary levels. We seek to pay base salaries at the 50th percentile of the comparator group base salaries, after factoring the revenue regression analysis against salary levels.

Base salaries are reviewed by the Compensation Committee on an annual basis in the fourth quarter of the fiscal year preceding the effectiveness of the change. Specifically, base salaries are reviewed and approved in September for an October effective date.

Quantitative data at our comparator companies is used to determine the 50th percentile. We also use qualitative performance data and factors in determining an executive's base compensation relative to the 50th percentile, such as experience, tenure, rate of increase from existing base, performance, potential and development toward potential.

Base pay is found in the Summary Compensation Table in the Salary column.

Table of Contents**Compensation Discussion and Analysis** (continued)**Annual Incentive Compensation**

Annual cash incentive compensation is provided through the Management Incentive Plan (MIP). This plan measures internal performance against pre-determined metrics. The MIP is awarded to be competitive with compensation offerings at comparator companies and to align compensation with performance drivers which are intended to benefit shareholders.

For fiscal 2007, the performance metrics were determined by the Compensation Committee to be: (1) earnings per share (EPS) (GAAP); and (2) total Company returns on invested assets (ROIA, meaning EPS divided by our invested assets). The payout opportunity was based upon the following pre-determined targets:

Metric	Threshold	Target	Stretch/Outstanding
1. EPS	\$ 1.70	\$ 2.10	\$ 2.80
2. ROIA	12.0%	12.2%	14.0 %

Threshold customarily has been established at the EPS results achieved by us in the preceding fiscal year and the Target and Stretch/Outstanding amounts are set based on profit planning goals. The ROIA metrics are set based on profit planning goals.

Target payouts are expressed as a percentage of base pay and are detailed in the following table:

NEO	Target as a % of Base Pay
Gendron	75%
Weber	55%
Glass	50%
Benning	50%
Lauffer	50%

Performance below threshold results in no payout. Performance at threshold results in a payout of 40% of target. Performance at stretch/outstanding results in a payout of 200% of target. Award amounts are interpolated for performance results between these amounts.

The determination of target annual incentive compensation follows the same external benchmarking process as previously described in the discussion on base pay, *i.e.* targeting the 50th percentile of comparator company awards for each NEO.

For fiscal 2007, the EPS measurement for purposes of calculating MIP awards was adjusted downward from actual EPS to neutralize the otherwise favorable tax effects enjoyed by us in fiscal 2007, resulting also in a downward adjustment of ROIA. Actual fiscal 2007 MIP payouts were based upon the achievement of an EPS of \$2.49 (as adjusted), and ROIA of 12.58% (using EPS as adjusted) in fiscal 2007, resulting in payouts at 138.69% of target for each Named Executive Officer. These payouts are set forth in the Summary Compensation Table under the Non-Equity Incentive Plan Compensation column. The downward adjustment of EPS and ROIA when determining awards under the MIP resulted in lower payouts to our NEOs than would have been awarded absent the adjustments.

The MIP design is approved during the Compensation Committee's September meeting, with the metrics generally approved at its November meeting.

Long-Term Management Incentive Compensation

The Woodward Governor Company 2006 Omnibus Incentive Plan (the 2006 Plan), approved by shareholders in January 2006, replaced the Woodward Governor Company 2002 Stock Option Plan and the Woodward Long-Term Management Incentive Compensation Plan.

The Plan permits the grant of Nonqualified Stock Options, Incentive Stock Options, Stock Appreciation Rights, Restricted Stock, Restricted Stock Units, Performance Shares, Performance Units, Covered Employee Annual Incentive Awards, Cash-Based Awards, and Other Stock-Based Awards. To date, the Committee has authorized only nonqualified stock option equity awards and a multi-year cash based performance award.

Management makes recommendations to the Committee on the size of these awards, if any, for each NEO, other than the Chief Executive Officer. The Committee determines the size of the awards for the CEO. The Committee also reviews and approves, or adjusts as necessary, all awards made to other NEOs.

The long-term management incentive compensation plan is a key component of the total compensation package. The formalized and structured external benchmarking process described in the base pay description, and referred to in the annual incentive compensation

Table of Contents**Compensation Discussion and Analysis** (continued)

discussion, also is applicable to the determination of targets under the long-term incentive compensation plan. This drives the determination of total long-term incentive opportunity under the plan.

The plan has two components: (1) stock options and (2) cash. These components are paid to offer competitive benefits to our executives and to align their interests with increasing shareholder value. The aggregate values of these components are aligned to the target 50th percentile of similar benefits at comparator companies for each of our Named Executive Officers. The total value of the options (as determined using the Black-Scholes methodology) plus the target cash payout combine to provide the total long-term incentive compensation opportunity.

As relates to the stock option awards, the option price of the shares is determined at the date of the grant, which has been set forth in accordance with our written policy to be on the next business day following the close of our trading blackout period relating to the release of our annual financial results, and will not be less than the closing price as quoted on the NASDAQ Global Select Market on such day.

As relates to the cash opportunity, the Committee generally establishes three-year performance periods; for example, the 2008-2010 performance period cycle was established in September of 2007. When the program was initiated under the 2006 Plan, an initial two-year performance period was established for 2006-2007, as well as a three-year performance period for 2006-2008. The performance metrics for the multi-year plans were determined by the Compensation Committee to be:

Return on Capital (50% weight)

Growth in Earnings per Share (50% weight)

For the purposes of measuring performance, return on capital is defined as net income, adjusted for accounting changes and after-tax interest expense, divided by the sum of total debt, shareholder's equity, and minority interest. EPS for this purpose is measured as net income, adjusted for accounting changes, divided by fully diluted common shares outstanding. EPS during the performance cycle is compared to a baseline EPS to calculate the growth in EPS during such cycle. Baseline EPS for the 2006-2007 and the 2006-2008 performance cycle was 2005 EPS of \$1.59.

Company performance is measured relative to the performance of the companies in the comparison group using the S&P Small Cap 600 index, of which Woodward is a member. The Committee believes the S&P Small Cap 600 Index provides the appropriate market context against which Woodward's performance attracts investment.

Payout triggers in relation to our ranking within to the S&P Small Cap 600 are as follows:

Performance	Payout
At or above 50 th percentile	50% of target
At or above 60 th percentile	100% of target
At or above 75 th percentile	200% of target

The above payout formula applies to each measure weighted equally. If performance is below the 50th percentile, no award will be earned or paid as it relates to that measure. Award amounts are interpolated for performance results between the above percentiles.

The Committee established a reward target for each NEO, articulated as a percentage of base pay. Payout targets for the cash component of the long-term incentive plan are detailed in the following table:

NEO	Cash Target LTIP Award as a % of Base
Gendron	50%
Weber	40%
Lauffer	25%
Benning	25%
Glass	25%

Table of Contents**Compensation Discussion and Analysis** (continued)

Payouts for the initial two-year cycle of fiscal years 2006-2007 were based on the following performance levels:

Metric	Performance	Payout
Return on Capital	80th Percentile	200%
Growth in Earnings per Share	69th Percentile	160%

These performance levels resulted in awards at 180% of target for each Named Executive Officer. The amounts paid under the cash portion of the long-term incentive plan ending in fiscal year 2007 can be found in the Summary Compensation Table under Non-Equity Incentive Plan Compensation.

The Committee establishes the three-year performance cycle long-term cash based awards in the fourth quarter of the fiscal year preceding the first year of the performance cycle.

Other Compensation Programs

Our NEOs participate in the same health, welfare and retirement benefits as does all of our employee membership. This includes a group health insurance program; life insurance, inclusive of employee life, additional buy-up employee life, optional spouse life, and optional child life; Accidental Death & Dismemberment insurance; Long-Term Disability; Woodward Retirement Savings Plan, inclusive of employee contributions and Company contributions (100% match on the first 3% of employee contributions, 50% on the next 3% of employee contributions, maxing at 4.5%); Woodward Stock Plan (Company contribution of 5% of base wages); Retirement Income Plan (Company contribution of 1.5% of eligible wages, and 0.1% for each year of additional service). The Retirement Income Plan was closed to new participants as of September 30, 2003, with prior participants grandfathered.

All plans are subject to applicable IRS limitations. Supplemental matches and contributions to the Executive Benefit Plan described below are made for the Retirement Savings Plan, the Woodward Stock Plan, and the grandfathered Retirement Income Plan.

Our NEOs are also eligible to participate in a deferred compensation plan, the Executive Benefit Plan (EBP). This plan is also available to other key leaders. Participants are able to defer up to 50% of base pay, and up to 100% of any incentive payments.

Messrs. Gendron and Weber have been provided company cars and Messrs. Weber, Benning and Glass have been provided with country club memberships.

Mr. Benning has a relocation benefit whereby we have agreed to relocate Mr. Benning and his wife anywhere within the U.S. within one year of his retirement.

These benefits are paid to remain competitive in the marketplace. Amounts relating to certain of these benefits may be found in the All Other Compensation column of the Summary Compensation Table.

Post-Employment Compensation and Employment Contracts

Change in control agreements exist for Messrs. Gendron and Weber. We believe these are necessary to ensure actions and behaviors that are aligned with, and in the best interests of, our shareholders in the event of a change of control transaction and to retain these executives through a change of control transaction to ensure a smooth transition of

control.

Messrs. Gendron, Weber, Glass and Benning are not employed under general employment contracts and are employees at will. Mr. Lauffer is employed under an employment contract, as required by German labor laws. It is a five year contract expiring in 2007, which automatically extends without further action by either party for successive additional five year periods. Liability is limited in accordance with the five year contract laws.

Discretion

Our compensation plans allow for the application of discretion in determining performance metrics and awards thereunder in the event of extraordinary circumstances. For fiscal year 2007, discretion was applied by the Committee on a downward basis to reduce the EPS measurement for purposes of calculating MIP awards from actual EPS to neutralize the otherwise favorable tax effects enjoyed by us in fiscal 2007, resulting in lower payouts to our NEOs.

Impact of Accounting and Tax Issues on Executive Compensation

In setting individual executive s compensation levels, we do not explicitly consider accounting and tax issues. We do, however, analyze the overall expense arising from aggregate executive compensation levels and awards and the components of our pay programs.

As one of the factors in our consideration of compensation matters, we also consider the anticipated tax treatment to the Company and to the executive officers of various payments and benefits. Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), places a limit of \$1,000,000 on the amount of compensation that we may deduct in any one year with respect to our CEO and

Table of Contents

Compensation Discussion and Analysis (continued)

each of the next four most highly compensated executive officers. Certain performance-based compensation approved by shareholders is not subject to the deduction limit. The 2006 Omnibus Plan has been approved by shareholder vote. As a result, stock option and cash-based performance awards under this plan may qualify for performance-based deductions and may not be subject to the deductibility limit imposed by Section 162(m) of the Code. However, to maintain flexibility in compensating our key executives, it is not a stated policy that all compensation must be deductible. The Company and the Compensation Committee will consider various alternatives to preserving the deductibility of compensation payments and benefits to the extent reasonably practicable and to the extent consistent with our other compensation goals.

Share Ownership Guidelines

The Board of Directors has established share ownership guidelines for executives and non-employee directors to align their interests and objectives with our shareholders. Non-employee directors are committed to minimum ownership of our common stock of a value equal to five times the annual retainer paid at the date of election to the Board. Woodward executives are committed to minimum ownership of our common stock of a value equal to between two and four times their annual base salary at the date of election. Accumulation of such number of shares is expected within 60 months of the date of such person's election.

Pledges

Under our written policies, no employees of the Company are permitted to margin or pledge our stock or engage in short sales or buying or selling of puts and calls against our stock.

The Annual Compensation Review Process

As previously discussed, the Compensation Committee annually reviews the following important business factors:

financial reports on performance versus budget and compared to prior year performance;

calculations and reports on levels of achievement of corporate performance objectives;

reports on our strategic initiatives and budget for future periods;

information on the executive officers' stock ownership and option holdings;

information regarding equity compensation plan dilution;

data regarding the total compensation of the NEOs, including base salary, cash incentives, equity awards, and perquisites; and

information regarding compensation programs and compensation levels at comparator companies identified by our compensation consultant.

Management's Role

As discussed above, management annually contributes to the annual review process as follows:

provides compensation data to Hewitt for comparative benchmarking;

makes recommendations to the Compensation Committee regarding annual incentive plan design and performance metrics; and

makes recommendations to the Compensation Committee regarding the compensation of our NEO s (with the exception of Mr. Gendron) for base pay, annual incentive compensation targets, and long-term incentive target compensation. Mr. Gendron s compensation is determined by the Compensation Committee with guidance from Hewitt relative to comparative market data as well as measuring his performance against Committee and Board expectations.

Compensation Consultant

Hewitt is engaged by the Compensation Committee to perform Hewitt s duties as described above. Hewitt also is engaged by the Company to perform other non-NEO compensation evaluations. Management and the Compensation Committee believe that this representation of the Company is appropriate because, through both engagements, Hewitt is able to develop a better understanding of our business, and is well positioned to provide guidance on compensation and benefit plans that are aligned with, and reinforce, our strategies and goals.

Notes: Long-term references the cash component of our Long-term Incentive Compensation Plan. MIP means our annual Management Incentive Plan.

(1) The Management Incentive Plan payment amounts are earned based on the achievement of the established financial performance objectives of the Plan on a sliding scale of 40% to 200% of the target amount established.

These amounts are based on the individual's position and a percentage of the individual's fiscal 2007 salary. See Compensation Discussion and Analysis and Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table for information regarding the description of performance-based conditions.

- (2) Represents the full grant date fair value of the option awards reported in this Table under All Other Options Awards: Number of Securities Underlying Options column awarded in fiscal 2007 determined in accordance with FAS 123R, based on the assumptions discussed under the Summary Compensation Table, without regard to when the award was recognized for financial reporting purposes. For such purposes, the options are valued at \$14.4936 per share.

Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table

The stock option awards consist of non-qualified options issued for a 10-year term. Options vest over four years at the rate of 25% per year. The exercise or base price represents the Woodward stock value as reported on the Nasdaq at close of business on the date of the award. If employment is terminated, the options granted will be cancelled unless exercised within three months following the date of termination or the term of the option whichever is earlier. If the termination is due to retirement, all outstanding options vest and must be exercised within three years from the date of retirement or the term of the option, whichever is earlier. Our Named Executive Officers are eligible for retirement for the foregoing purposes upon attaining age 55 with at least ten years of service with us or age 65 with no minimum years of service. Dividends are not paid on unexercised stock option awards.

The MIP would commonly be characterized as a bonus plan but is presented in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table because it is performance based. The actual amounts of the awards under the MIP and the cash portion of the long-term incentive plan listed in the Non-Equity Incentive Plan Compensation column were paid in November 2007. The awards under both plans as set forth in the Grants of Plan-Based Awards Table are based on Threshold/Target/Maximum percentages applied to base wages as of the beginning of the fiscal year. If employment is terminated, the employee must have had full-time employee status at the end of the fiscal year, in the case of the MIP, or at the end of the last fiscal year of the multi-year period, in the case of the LTIP, to receive a payout under both plans. If the termination is due to retirement, the payout under both plans will be prorated. In either event, the payout under both plans will be based on actual goal performance. Please see Compensation Discussion and Analysis for additional information relating to these provisions, including performance criteria relating to these plans.

Messrs. Gendron and Weber have transitional compensation agreements with us and Mr. Lauffer has an employment agreement as required under German law. Otherwise, we do not have employment agreements with our executive officers. Please see Potential Payments Upon Termination or Change in Control for additional information relating to these provisions.

Table of Contents**Executive Compensation** (continued)**Narrative Disclosure of Nonqualified Deferred Compensation Table**

The Executive Benefit Plan is a non-qualified, unfunded deferred compensation plan that is designed to allow for supplemental retirement savings above the limits imposed by the IRS. If deferrals are above the Internal Revenue Code limits on eligible compensation, then the account is credited by the Company with a percentage match contribution equivalent to that available under our Woodward Retirement Savings Plan. All contributions are made on a tax-deferred basis. Eligible members are selected to participate based on criteria that includes job grade, salary level and significant accountability to produce or contribute to key business results. Amounts deferred into the Executive Benefit Plan are indexed to the same investment alternatives available to all eligible employees under the Retirement Savings Plan. With approval from the Board, investment into Woodward common stock is permitted. Eligible employees may defer up to 50% of base salary for a plan year and up to 100% of bonus for a plan year. All elections must be made in advance of the plan year. At the time of the deferral election, the employee must designate the time and form of distribution. Distributions may be elected upon retirement or termination of employment. Distributions may also be elected for future dates during employment; however, any future date selected must be at least five plan years after the plan year in which the deferral is credited to the account. Distributions may be modified if executed a year before the originally scheduled distribution date. Distributions from the plan are made in cash; however, any payment made that is attributable to the portion of the participant's account deemed invested in Company stock is made in whole shares of Company stock with fractional shares paid in cash. Amounts included in the Executive Benefit Plan are 100% vested at all times.

Potential Payments Upon Termination or Change in Control

This section explains the payments and benefits to which the Named Executive Officers are entitled in various terminations of employment scenarios. These are hypothetical situations only, as we currently employ all of our NEOs. For purposes of this explanation, we have assumed that termination of employment and change-in-control occurred on September 30, 2007, the last day of our 2007 fiscal year.

The intent of this section is to isolate those payments and benefits for which the amount, vesting or time of payment is altered by the termination of employment in the described circumstances. This section does not cover all amounts the NEOs would receive following termination. Specifically they are entitled to COBRA, life insurance conversion and payouts from their Retirement Savings Plan; however, it should be noted that all employees are entitled to these benefits.

The age and years of service of the NEOs as of September 30, 2007 were as follows:

	Age	Years of Service
Mr. Gendron	46	16
Mr. Weber	53	2
Mr. Benning	66	22
Mr. Glass	50	29
Mr. Lauffer	46	5

Voluntary Termination

The post-termination benefits that apply in a voluntary termination situation are:

The right to receive bonus payouts under the MIP and LTIP compensation programs (the NEO must be a full-time employee on the last day of the fiscal year to receive any bonus payout);

A lump-sum distribution of the deferred compensation balance under the Executive Benefit Plan; and

The right to exercise stock options that are vested on the last day of employment. Stock option vesting does not accelerate, unless the NEO is retirement eligible, *i.e.*, upon attaining 55 years of age with at least ten years of service or age 65 with no minimum service requirement.

Based on the ages and years of service of the NEOs on September 30, 2007, the payouts upon voluntary termination would be as follows:

Voluntary Termination	Mr. Gendron	Mr. Weber	Mr. Lauffer	Mr. Benning	Mr. Glass
Management Incentive Plan Bonus(1)	\$ 595,101	\$ 237,672	\$ 198,334	\$ 187,409	\$ 185,570
Long-term Incentive Plan Bonus(1)	\$ 450,000	\$ 216,028	\$ 116,409	\$ 108,055	\$ 103,990
Executive Benefit Plan Lump Sum Distribution	\$ 1,346,882	\$ 212,458	\$ 0	(2)	(2)

Table of Contents**Executive Compensation** (continued)

- (1) As this calculation assumes termination at fiscal year end, the entire amount would be earned but termination prior to year end results in no amount being earned or paid.
- (2) Eligible for retirement so payout would follow designation at the time of the election.

Involuntary Termination

The post-termination benefits that apply in an involuntary termination situation (other than a change of control termination, which is discussed below as applicable to Messrs. Gendron and Weber) are:

The right to receive bonus payouts under the MIP and LTIP compensation program;

A lump-sum distribution of the deferred compensation balance under the Executive Benefit Plan; and

The right to exercise stock options that are vested on the last day of employment. Stock option vesting does not accelerate, unless the NEO is retirement eligible, *i.e.*, upon attaining 55 years of age with at least ten years of service or age 65 with no minimum service requirement.

Based on the ages and years of service of the NEOs on September 30, 2007, the payouts upon involuntary termination would be as follows:

Involuntary Termination	Mr. Gendron	Mr. Weber	Mr. Lauffer	Mr. Benning	Mr. Glass
Management Incentive Plan Bonus(1)	\$ 595,101	\$ 237,672	\$ 198,334	\$ 187,409	\$ 185,570
Long-term Incentive Plan Bonus(1)	\$ 450,000	\$ 216,028	\$ 116,409	\$ 108,055	\$ 103,990
Executive Benefit Plan Lump Sum Distribution	\$ 1,346,882	\$ 212,458	\$ 0	(2)	(2)

- (1) As this calculation assumes termination at fiscal year end, the entire amount would be earned but termination prior to year end results in no amount being earned or paid.
- (2) Eligible for retirement so payout would follow designation at the time of the election.

If the NEO was involuntarily terminated for deliberate and serious disloyal or dishonest conduct he would not be eligible for the benefits described above and his stock options would be cancelled.

Death

If a NEO dies while employed the post-termination benefit consists of:

Bonus payouts to beneficiaries;

A lump-sum distribution of the deferred compensation balance under the Executive Benefit Plan; and

Accelerated vesting of non-qualified stock option awards that the beneficiary must exercise within one year.

Based on the ages and years of service of the NEOs on September 30, 2007, the payouts in the event of death would be as follows:

Death	Mr. Gendron	Mr. Weber	Mr. Lauffer	Mr. Benning	Mr. Glass
Management Incentive Plan Bonus(1)	\$ 595,101	\$ 237,672	\$ 198,334	\$ 187,409	\$ 185,570
Long-term Incentive Plan Bonus(1)	\$ 450,000	\$ 216,028	\$ 116,409	\$ 108,055	\$ 103,990
Executive Benefit Plan Lump Sum Distribution	\$ 1,346,882	\$ 212,458	\$ 0	\$ 314,313	\$ 121,421

(1) As this calculation assumes termination at fiscal year end, the entire amount would be earned. If a NEO dies mid-year the payout will be prorated based on the month of death and payable within the normal timetable.

Disability

If a NEO becomes totally and permanently disabled while employed, the post-termination benefits consist of:

Monthly payment under the Woodward Governor Long Term Disability plan available to all employees;

The right to receive bonus payouts under the MIP and LTIP compensation program; and

Accelerated vesting of non-qualified stock option awards that must be exercised within one year.

Disability	Mr. Gendron	Mr. Weber	Mr. Lauffer	Mr. Benning	Mr. Glass
Management Incentive Plan Bonus(1)	\$ 595,101	\$ 237,672	\$ 198,334	\$ 187,409	\$ 185,570
Long-term Incentive Plan Bonus(1)	\$ 450,000	\$ 216,028	\$ 116,409	\$ 108,055	\$ 103,990

Table of Contents**Executive Compensation** (continued)

- (1) As this calculation assumes termination at fiscal year end, the entire amount would be earned and would not be subject to proration. If a NEO becomes disabled mid-year the payout will be prorated based on the month of disability and payable within the normal timetable.

Payments from the Executive Benefit Plan do not have to be taken as a lump sum in the event of disability. They may be paid out in the manner that was designated at the time the deferral was elected, based on the aggregate amounts shown in the preceding tables.

Change of Control Agreements Post-Employment Provisions

We have transitional compensation agreements with our Chief Executive Officer and Chief Financial Officer, Messrs. Gendron and Weber, that become operative only upon a Change in Control or other specified event. For purposes of these agreements, a Change in Control occurs if:

Any person, entity, or group (with certain exceptions) becomes the beneficial owner of 15% or more of the outstanding shares of Woodward common stock; or

There is a change in a majority of the Board during any two-year period other than by election or nomination by a vote of two-thirds of the Board members as of the beginning of the period; or Woodward's shareholders approve a merger, consolidation, sale of assets, or share exchange resulting in Woodward's shareholders owning less than 51% of the combined voting power of the surviving corporation following the transaction; or

Woodward's shareholders approve a liquidation or dissolution.

Following a Change in Control, we will continue to employ the executive for a minimum period of two years in substantially the same position, for substantially the same compensation and benefits. If the executive's employment is terminated by Woodward (other than for cause or due to death or disability), or the executive terminates with good reason (as defined in the agreement), he or she receives an amount (payable in a lump sum) equal to 300% of each of (1) the executive's annual base salary, (2) highest annual bonus in the last three years, (3) highest long-term incentive compensation bonus in the last three years, and (4) the sum of the Retirement Savings Plan and Executive Benefit Plan annual contributions made or credited for the benefit of the executive. In addition, all unvested stock options awards are accelerated and become immediately exercisable. Member benefits shall be continued at Woodward's expense for a period of three years after the date of termination. Outplacement services will be provided at Woodward's expense as well as tax preparation services for the executive's taxable year in which the termination occurred.

The following table describes the payments and benefits that are triggered by the occurrence of a Change in Control and the termination of employment following a Change in Control. Although Messrs. Gendron and Weber would have three months from such a termination to exercise their options, for purposes of this table, we have assumed the exercise of stock options on September 30, 2007, the last day of fiscal 2007, at the closing price on that day of \$62.40 per share.

Audit Committee Report to Shareholders

Notwithstanding anything to the contrary set forth in any of the Company's previous or future filings under the Securities Act of 1933 or the Securities Exchange Act of 1934 that might incorporate this Proxy Statement in whole or in part, the information set forth above under Board Meetings and Committees Audit Committee, relating to the charter of the Audit Committee and the independence of the Audit Committee members, and the following report shall not be deemed to be soliciting material or filed with the SEC or incorporated by reference into any such previous or future filings.

Audit Committee Report

The Audit Committee oversees the Company's financial reporting process and compliance with the Sarbanes/Oxley Act on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls.

We recommended to the Board of Directors that the consolidated balance sheets of the Company at September 30, 2007 and 2006, and the related statements of consolidated earnings, shareholders' equity and cash flows of the Company for each of the three years ended September 30, 2007, be included in the Company's Annual Report on Form 10-K filed with the SEC for the year ended September 30, 2007. Our recommendation was based on our review and discussion of the audited financial statements with management, and our discussions with PricewaterhouseCoopers LLP, the independent registered public accounting firm that audited the financial statements.

In addition, our recommendation was based on our discussion with PricewaterhouseCoopers LLP of the matters required to be discussed under Statement of Auditing Standards No. 61, as amended. We also discussed with PricewaterhouseCoopers LLP their independence, received from them the written disclosures and the letter required by Independence Standards Board Standard No. 1, and considered whether the provision of services other than audit

services (the fees for which are disclosed in the table that follows) is compatible with maintaining their independence. We have based our recommendation on the foregoing discussions, disclosures and considerations.

Audit Committee's Policy on Pre-Approval of Services Provided by Independent Registered Public Accounting Firm

The Audit Committee is responsible for appointing, setting compensation for, and overseeing the work of the independent registered public accounting firm. As a result, the Audit Committee has established a policy regarding pre-approval of all services provided by the independent registered public accounting firm. Under the established policy, all audit and tax services and related fees require the specific approval of the Audit Committee. For audit-related services and all other services, the Audit Committee has determined specific services and dollar thresholds under which such services would be considered pre-approved. To the extent that management requests services other than these pre-approved services, or beyond the dollar thresholds, the Audit Committee must specifically approve the services. Furthermore, under the established policy, the independent registered public accounting firm is prohibited from performing the non-audit services identified by the SEC and PCAOB as prohibited. The policy also requires management to periodically prepare reports for the Audit Committee on the Company's use of the independent registered public accounting firm.

Table of Contents**Audit Committee Report to Shareholders** (continued)**Fees Paid to PricewaterhouseCoopers LLP**

The following table presents fees for professional audit services rendered by PricewaterhouseCoopers LLP for the audit of the Company's consolidated financial statements as of and for the years ended September 30, 2007, and September 30, 2006, and fees billed for other services rendered by PricewaterhouseCoopers LLP during those periods.

Year ended September 30	2007	2006

Tax Fees	78,706	150,092
All Other Fees	0	0
Total	\$ 1,346,736	\$ 1,219,208

(1) Audit-Related Fees consists of assurance and related services that are reasonably related to the performance of the audit of the financial statements. This category includes fees for pension and benefit plan audits, consultations concerning accounting and financial reporting standards, assistance with statutory financial reporting, consultation on general internal control matters or Sarbanes-Oxley assistance, due diligence related to mergers and acquisitions, and other auditing procedures and issuance of special purpose reports.

On December 6, 2007, the Audit Committee recommended and approved the dismissal of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm.

The reports of PricewaterhouseCoopers LLP on the financial statements of the Company for the fiscal years ended September 30, 2007 and 2006 did not contain an adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope, or accounting principle. During the fiscal years ended September 30, 2007 and 2006 and through December 6, 2007, there were no disagreements with PricewaterhouseCoopers LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements (as defined in Item 304(a)(1)(iv) of Regulation S-K), if not resolved to the satisfaction of PricewaterhouseCoopers LLP, would have caused PricewaterhouseCoopers LLP to make reference thereto in their reports on the Company's financial statements for such years. During the fiscal years ended September 30, 2007 and 2006 and through December 6, 2007, there were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K.

On December 6, 2007, the Audit Committee appointed Deloitte & Touche LLP (Deloitte) as the Company's new independent registered public accounting firm. During fiscal the years ended September 30, 2007 and 2006 and through December 6, 2007, there were no consultations with Deloitte on any matters described in Item 304(a)(2)(i) and Item 304(a)(2)(ii) of Regulation S-K.

PROPOSAL 2 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has selected the accounting firm of Deloitte & Touche LLP to serve as the Company's independent registered public accounting firm for the fiscal year ending September 30, 2008. A proposal to ratify the appointment of Deloitte & Touche LLP for the current year will be presented at the Annual Meeting. A representative

from each of PricewaterhouseCoopers LLP and Deloitte & Touche LLP is expected to attend the annual meeting and will have the opportunity to make a statement, if he or she desires to do so, and be available to answer appropriate questions. Deloitte & Touche LLP did not serve as Woodward's independent registered public accounting firm for the year ended September 30, 2007.

The decision of the Audit Committee to appoint Deloitte & Touche LLP was based on careful consideration of the firm's qualifications as an independent registered public accounting firm.

Your Board of Directors recommends a vote FOR the ratification of the appointment of the independent registered public accounting firm presented in Proposal 2.

PROPOSAL 3 AMENDMENT OF ARTICLE FOURTH OF THE CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK OF THE COMPANY FROM 100,000,000 TO 150,000,000 AS WELL AS TO EFFECT A TWO-FOR-ONE STOCK SPLIT OF THE COMMON STOCK OF THE COMPANY

The Board of Directors recommends approval of an amendment to Article Fourth of the Company's Certificate of Incorporation (the "Certificate") to increase the number of authorized shares of common stock from 100,000,000 to 150,000,000, and to effect a two-for-one stock split by reclassifying and changing each share of the Company's common stock outstanding or held in the treasury of the Company on the effective date of the amendment into two shares of common stock.

Table of Contents

If the proposal is adopted by the shareholders, it is currently expected that the amendment and stock split will become effective as of the close of business on February 1, 2008, and on or about February 14, 2008, there will be mailed to each shareholder of record as of the close of business on the effective date of the stock split, one additional share of common stock of the Company for each share held. All new certificates issued will have a par value of \$0.001455 per share. Each certificate currently outstanding with a par value of \$0.00291 per share shall thereafter be deemed to represent the same number of shares with a par value of \$0.001455 each. It will not be necessary for shareholders to surrender outstanding stock certificates.

The Company is advised by counsel that the change in par value and the receipt of additional shares to be distributed pursuant to the split will not be subject to federal income tax under existing laws. The split will require an allocation of the tax basis of each share among the two shares held as a result of the split, and the holding period for the new shares will include the holding period of the share with respect to which it was issued.

The purpose of the proposed stock split is to lower the per share market price of the Company's outstanding common stock. As of November 26, 2007, 36,480,000 shares of common stock of the Company, \$0.00291 par value, were issued, of which 33,979,283 shares were outstanding and 2,500,717 shares were held by the Company as treasury shares. Assuming the increase in the number of authorized shares of common stock of the Company and the stock split were effective on such date, 67,958,566 shares would be outstanding, 5,001,434 shares would be held by the Company as treasury shares and 77,040,000 shares would be authorized and available for issuance by the Company.

An affirmative vote of the holders of two-thirds of the outstanding common stock of the Company is necessary for the adoption of the proposed amendment.

Set forth on Exhibit B hereto please find the resolutions that would effect the Amendment to Article Fourth of the Certificate of Incorporation you are being asked to approve under Proposal 3.

Your Board of Directors recommends a vote FOR the proposal to Amend Article Fourth of the Certificate of Incorporation to increase the number of authorized shares of common stock of the Company from 100,000,000 to 150,000,000 as well as to effect a two-for-one stock split of the common stock of the Company as presented in Proposal 3.

Shareholder Proposals

If you want to submit a proposal for possible inclusion in our proxy statement for the 2008 Annual Meeting of Shareholders, you must ensure your proposal is received by us on or before August 15, 2008.

If you intend to present a proposal to shareholders, but do not want it included in the proxy statement, management's proxies for that meeting will be entitled to exercise their discretionary authority on that proposal, unless we receive notice of your proposal no later than October 29, 2008. Even if we receive proper notice before October 29, 2008, the proxies may still exercise their discretionary authority on the proposal by telling shareholders about the proposal and how they intend to vote on it, unless you solicit proxies for the proposal as required by Rule 14a-4(c)(2) under the Exchange Act.

Householding of Proxy Materials

In an effort to reduce printing costs and postage fees, we have adopted a practice approved by the SEC called householding. Under this practice, shareholders who have the same address and last name and do not participate in

electronic delivery of proxy materials will receive only one copy of our proxy materials, unless one or more of these shareholders notifies us that he or she wishes to continue receiving individual copies. Shareholders who participate in householding will continue to receive separate proxy cards.

If you share an address with another shareholder and received only one set of proxy materials and would like to request a separate copy of these materials, please: (1) mail your request to Woodward Governor Company, P. O. Box 1519, 1000 E. Drake Road, Fort Collins, Colorado 80525, Attn: Corporate Secretary; (2) send an e-mail to investorrelations@woodward.com; or (3) call our Investor Relations department at 1-815-877-7441. Additional copies of the proxy materials will be sent within 30 days after receipt of your request. Similarly, you may also contact us if you received multiple copies of the proxy materials and would prefer to receive a single copy in the future.

Other Matters

Woodward is soliciting this proxy on behalf of its Board of Directors and will bear the entire cost of proxy solicitation, including the preparation, assembly, printing, mailing and distribution of the proxy materials. This solicitation is being made by mail, but also may be made personally or by facsimile, telephone, messenger, or via the Internet. The Company has employed Morrow & Company to solicit proxies for the annual meeting from brokers, bank nominees, other institutional holders, and certain individual shareholders. The Company has agreed to pay \$6,000, plus the out-of-pocket expenses of Morrow & Company, for these services. The Company will also pay the regular charge of brokers and other nominees who hold shares of record for forwarding proxy material to the beneficial owners of such shares.

We do not know of any matters to be acted upon at the meeting other than those discussed in this statement. If any other matter is presented, proxy holders will vote on the matter in their discretion.
