Springfield, New Jersey - October 1, 2007 - Village Super Market, Inc. (NSD-VLGEA) today reported its results of operations for the fourth quarter ended July 28, 2007.

Net income was \$6,332,000 in the fourth quarter of fiscal 2007, an increase of 26% from the fourth quarter of the prior year. Net income increased primarily due to improved sales, higher gross profit percentages and lower operating expenses as a percentage of sales.

Sales were \$269,256,000 in the fourth quarter of fiscal 2007, an increase of 2.6% from the fourth quarter of the prior year. Same store sales also increased 2.6%. Improved sales in one store due to the closing of a store by a competitor and in the Somers Point replacement store contributed to the sales increase. These improvements were partially offset by reduced sales in four stores due to three competitive store openings.

Net income for the fiscal year was \$20,503,000, an increase of 24% from the prior year. Sales in fiscal 2007 were \$1,046,435,000, an increase of 2.9% from the prior year. Same store sales also increased 2.9%. Net income in fiscal 2007 improved compared to the prior year due to the higher same store sales and improved gross profit percentages.

Village Super Market operates a chain of 23 supermarkets under the ShopRite name in New Jersey and eastern Pennsylvania. On August 11, 2007, the Company acquired the fixtures and lease for a store in Galloway Township, New Jersey that had been operated by a competitor for \$3,500,000. We expect to re-open this store as a ShopRite on October 3rd after an extensive remodel. In addition, our new superstore in Franklin, New Jersey is expected to open on October 31st.

All statements, other than statements of historical fact, included in this Press Release are or may be considered forward-looking statements within the meaning of federal securities law. The Company cautions the reader that there is no assurance that actual results or business conditions will not differ materially from future results, whether expressed, suggested or implied by such forward-looking statements. The Company undertakes no obligation to update forward-looking statements to reflect developments or information obtained after the date hereof. The following are among the principal factors that could cause actual results to differ from the forward-looking statements: local economic conditions; competitive pressures from the Company's operating environment; the ability of the Company to maintain and improve its sales and

(1) Net income per share is computed utilizing the two-class method. The two-class method is an allocation formula that calculates net income per share for each class of common stock separately dividends declared and participation rights in undistributed earnings. Net income per share for periods has been revised to reflect the two-class method.
