NOTES TO CONDENSED FINANCIAL STATEMENTS

(unaudited)

March 31, 2008

NOTE A BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and Article 10 of Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included.

The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information, refer to the financial statements of the Company as of December 31, 2007, and for

the two years then ended, including notes thereto included in the Company's Form 10-KSB filed with the Commission on April 1, 2008.

NOTE B INVENTORY

Inventories, consisting of purchased finished goods ready for sale, are stated at the lower of cost (as determined by the first-in, first-out method) or market.

NOTE C - REALIZATION OF ASSETS

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. Net loss for the three months ended March 31, 2008 was (\$65,090). The Company has incurred net losses aggregating \$12,023,403 from inception, and may continue to incur net losses in the future. In addition, the Company had a working capital deficiency of (\$195,838) as of March 31, 2008. If revenues do not increase substantially in the near future, additional sources of funds will be needed to maintain operations. These matters give rise to substantial doubt about the Company's ability to continue as a going concern.

Management and other personnel have been focused on product exposure and marketing. The Company's management team has diligently explored several market segments relative to the Company's product and service lines over the past 24 months. From that exploration, the Company has decided it is in its best interests to market other products that are related to the DriverMax® product line. Management also believes a large market exists for the Company's testing and evaluation services and the information resulting from those services. By concentrating the sales efforts within its own reasonable geographical area, management believes it can better provide a professional, consultative approach toward customers needs and prove the value of its products and services. Management will focus on the Company's efforts on the sales of products, services, and programs with sensible controls over expenses. Management believes these steps, if successful, will improve the Company's liquidity and operating results, allowing it to continue in existence.

The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

In the first three months of 2008, six major customers accounted for 88% of total sales. At March 31, 2008, these customers accounted for 71% of accounts receivable.

NOTE H EARNINGS (LOSS) PER SHARE

The Company calculates net income (loss) per share as required by Statement of Financial Accounting Standards (SFAS) 128, "Earnings per Share." Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares and dilutive common stock equivalents outstanding. During periods in which the Company incurs losses, common stock equivalents, if any, are not considered, as their effect would be anti dilutive.

NOTE I REDEEMABLE, CONVERTIBLE PREFERRED STOCK

In December 2006, Mirencos offered a minimum \$3,000 investment for 25,000 shares of its common stock at \$0.12 per share, plus 500 shares of convertible, redeemable preferred stock valued by the Company at \$1 per share. In connection with this offering, 23,256 shares of the convertible, redeemable preferred stock were issued, of which 5,000 were converted to 25,000 shares of common stock during the period ended September 30, 2007. Each preferred share is convertible at the holder's option, to five shares of the Company's common stock, and carries a cumulative 6% dividend rate through December 31, 2011. The preferred shares may be redeemed by the Company any time after December 31, 2009, and must be fully redeemed on December 31, 2011, together with all cumulative dividends in arrears. Accordingly, the preferred shares are presented as shares subject to mandatory redemption in the accompanying financial statements.

Item 2.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

General and Background

We have incurred annual losses since inception while developing and introducing our original products and focusing management and other resources on capitalizing the Company to support future growth. Relatively high management, personnel, consulting and marketing expenditures were incurred in prior years in preparation for the commercialization of our products. We expect distribution and selling expenses to increase directly with sales increases, however, as a percentage of sales, these expenses should decline. It is anticipated that general and administrative expenses should remain stable and decline significantly as a percentage of sales.

Liquidity and Capital Resources

Cash and equivalents and accounts receivable are currently the Company's substantial source of liquidity. The changes in Cash and Equivalents for the three months ended March 31, 2008 and 2007 can be reviewed in the Statements of Cash Flows in PART I Item 1 above.

According to the terms of our purchase agreement with American Technologies to acquire the patents and trademarks, we have incurred a 3% royalty of annual gross sales for a period of 20 years, which began November 1, 1999.

Results of Operations

Gross sales of \$201,744, including \$41,314 in product sales and \$160,430 in sales of services, were realized for the three months ended March 31, 2008 and were \$71,770 more than sales for the same period one year ago. Cost of sales for the three months ended March 31, 2008 was \$71,221 resulting in gross profit of \$130,523, a net increase in gross profit of \$93,417 as a result of increased sales over the same period in the prior year. In the three months ended March 31, 2008, \$36,528 of employment costs were included in Cost of Sales compared to \$78,997 in the corresponding period in the prior year. Salary expense for the three months ended March 31, 2008 was \$98,290 compared to \$130,997 in the corresponding period in the prior year. After accounting for the employment costs included in cost of sales, salaries decreased by 75,176. A total of 10 full-time individuals were employed with the Company at March 31, 2008 compared to a total of 15 full time employees at March 31, 2007.

[The Balance of This Page Left Intentionally Blank]

A comparative breakdown of Other general and administrative expenses per the Statements of Operations included in PART I Item 1 above is as follows:

	Three Months Ended March 31, 2008	Three Months Ended March 31, 2007	Note
Royalty	\$ 5,620	\$ 3,899	1
Advertising	20	190	2
Depreciation and amortization	6,371	9,908	3
Insurance	11,488	13,006	4
Professional fees	5,741	16,273	5
Office expenses	14,450	8,806	6
Travel	2,918	5,639	7
Utilities	13,311	14,178	8
Total general and administrative expenses	\$ 59,919	\$ 71,899	

1.

Royalty expense is proportional to sales and is based on sales of products, services and rights related to patents according to the contractual agreement.

2.

Advertising expense for the three months ended March 31, 2008 decreased \$170 over the same period in the prior year because of decreased recruiting activities.

3.

Depreciation and amortization expense decreased \$3,537 from the corresponding period in the prior year because computer and other equipment became fully depreciated in the prior period.

4.

Insurance expense for the three months ended March 31, 2008 decreased \$1,518 from the corresponding period in the prior year because of a thorough examination of current coverage and obtaining a more competitive bid.

5.

Professional fees expense decreased \$10,532 because consulting fees were discontinued.

6.

Office expense for the three months ended March 31, 2008 increased \$5,644 from the corresponding period in the prior year due to increased prices for supplies and equipment services .

7.

Travel expense for the first three months of 2008 decreased \$2,721 due to decreased travel.

8.

Utilities expense for the first three months of 2008 decreased \$867 from the first three months of 2007.

Interest expense for the three months ended March 31, 2008 and 2007 was \$11,400 and \$5,035, respectively. The increase for the three months ended March 31, 2008 is \$6,365 compared to the same period for 2007, as a result of obtaining additional bank loans in 2008.

The Company uses estimates in the preparation of its financial statements. The estimates used relate to valuation of receivables and the useful lives of equipment and patents. Since the Company's receivables consist of larger individual accounts, the Company elects to use the direct write off method for those accounts that are deemed to be uncollectible.

The Company believes there is no material difference in this method from the allowance method. There have been no accounts written off in 2008. If it is determined that potential losses of a material amount in receivables, the allowance for doubtful accounts method will be adopted. No such allowance is considered to be required at this time. If it were determined that the depreciated cost of its equipment and the amortized cost of its patents exceeded their fair market value, there would be a negative impact on the results of operations to the

extent the depreciated and amortized cost of these assets exceeded their fair market value.

The carrying value of long-lived assets is reviewed on a regular basis for the existence of facts and circumstances that suggest impairment. During the first three months of 2008, no material impairment has been indicated. Should there be an impairment in the future, the Company will measure the amount of the impairment based on the amount that the carrying value of the impaired assets exceed the undiscounted cash flows expected to result from the use and eventual disposal of the impaired assets.

The Company accounts for equity instruments issued to employees for services based on the fair value of the equity instruments issued and accounts for equity instruments issued to other than employees based on the fair value of the consideration received or the fair value of the equity instruments whichever is more reliably measurable.

The Company outsources the production of its DriverMax® products to ICE Corporation of Manhattan, Kansas. If, for some reason the relationship between the Company and ICE Corporation should be interrupted or discontinued, the operations of the Company could be adversely affected until such time as an alternative supply source could be located, contracted and begin producing our technology. Such an event could materially effect the results of operations of the Company. The Company continues to review its relationship with this single source and believes there is no need for an alternative source at this time. As sales of product grow the Company will continue to review alternative sources.

Item 3.

CONTROLS AND PROCEDURES

(a)

We maintain a system of controls and procedures designed to ensure that information required to be disclosed by us in reports that we file or submit under the Securities and Exchange Act of 1934, as amended, is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.
