PROXY STATEMENT FOR ANNUAL MEETING OF SHAREHOLDERS

June 10, 2003, and Adjournments

Approximate date proxy material first sent to shareholders:
May 9, 2003

SOLICITATION, VOTING AND REVOCABILITY OF PROXIES

The proxy furnished herewith, for use only at the Annual Meeting of Shareholders to be held at 10:00 a.m. on Tuesday, June 10, 2003, at the Doubletree Hotel, 2001 Post Oak Blvd., Houston, Texas, and any and all adjournments thereof, is solicited by the Board of Directors of Stewart & Stevenson Services, Inc. (the "Company"). Such solicitation is being made by mail and may also be made in person or by telephone by officers, directors and regular employees of the Company, and arrangements may be made with brokerage houses or other custodians, nominees and fiduciaries to send proxy material to their principals. In addition, the Company has retained Morrow & Co., Inc., a professional proxy solicitation firm, to assist in the solicitation of proxies. The Company has agreed to reimburse Morrow & Co., Inc. for expenses incurred in connection with the solicitation and to pay a solicitation fee of approximately \$4,000. The Company will pay all expenses incurred in this solicitation of proxies.

As of the date of these proxy materials, the Board of Directors is aware of the following matters that will be considered at the meeting:

1. The election of three directors to the Board of Directors of the Company.

The presence of the holders of a majority of the issued and outstanding shares of Common Stock entitled to vote, either in person or represented by proxy, is necessary to constitute a quorum for the transaction of business at the Annual Meeting. Proxies that withhold authority to vote for a nominee or abstain from voting on any matter are counted for the purpose of determining whether a quorum is present. Broker non-votes, which may occur when a broker or nominee has not received timely voting instructions on certain proposals, are not counted for the purpose of determining whether a quorum is present. If there are not sufficient shares represented at the meeting to constitute a quorum, the meeting may be adjourned until a specified future date to allow the solicitation of additional proxies.

Directors are elected by a plurality of the votes cast at the meeting. The three nominees that receive the greatest number of votes will be elected even though the number of votes received may be less than a majority of the shares represented in person or by proxy at the meeting. Proxies that withhold authority to vote for a nominee and broker non-votes will not prevent the election of such nominee if other shareholders vote for such a nominee.

Any shareholder executing a proxy retains the right to revoke it by signing and delivering a proxy bearing a later date, by giving notice of revocation in writing to the Secretary of the Company at any time prior to its use, or by voting in person at the meeting. All properly executed proxies received by the Company and not revoked will be voted at the meeting, or any adjournment thereof, in accordance with the specifications of the shareholder. *If no instructions are specified on the proxy, shares represented thereby will be voted FOR the election of the three director nominees described herein. Proxies also grant discretionary authority as to matters presented at the meeting of which the Board of Directors had no notice on the date hereof, approval of the minutes of the prior annual meeting and matters incident to the conduct of the meeting.*

During Fiscal 2002, no director attended fewer than 75% of the aggregate of (a) the total number of meetings of the Board of Directors (held during the period for which he was a director) and (b) the total number of meetings held by all committees of the Board of Directors on which he served (during the periods that he served).

The Audit Committee of the Board of Directors consists of four independent (as defined in Rule 303.01(B)(2)(a) and (3) of the New York Stock Exchange Listed Company Manual) non-employee directors. The Audit Committee reviews with the Company's independent auditors the plan, scope and results of the annual audit; reviews with the Company's independent auditors and internal auditors the procedures for and results of internal auditing and controls; and reviews with management the effectiveness of various operational policies and controls. The Audit Committee recommends to the Board of Directors the employment of independent auditors and considers, in general, the audit services to be performed by such independent auditors and the possible effect on the independence of the independent auditors from the performance of non-audit services. The Board of Directors has adopted a written charter governing the responsibilities of the Audit Committee, a copy of which is attached as Exhibit A to these proxy materials. The Audit Committee held seventeen meetings during Fiscal 2002.

The Compensation and Management Development Committee recommends stock option grants and the total compensation payable by the Company to its executive officers, subject to approval by those members of the Board of Directors that are not and never have been an officer of the Company or its subsidiaries; grants options pursuant to the option plans relating to non-officer employees; conducts such investigations and studies as it deems necessary; and considers management succession and related matters. The Compensation and Management Development Committee held six meetings during Fiscal 2002.

The Corporate Governance Committee selects nominees for the Board of Directors of the Company. The Corporate Governance Committee considers nominees submitted by the members of the Board of Directors, the officers of the Company and the Company's shareholders. Nominees for the Board of Directors may be submitted to the Chairman of the Corporate Governance Committee at the Company's executive offices for consideration by the Corporate Governance Committee. In addition, the Corporate Governance Committee administers the principles and practices established by the Board of Directors. The Corporate Governance Committee held three meetings during Fiscal 2002.

Compensation Committee Interlocks and Insider Participation

Luther and Howard Wolf, all of whom are non-employee directors. None of the Compensation Committee members has served as an officer of the Company, and none of the Company's executive officers has served as a member of a compensation committee or board of directors of any other entity that has an executive officer serving as a member of the Company's Board of Directors. Mr. Howard Wolf is a partner in the international law firm of Fulbright & Jaworski LLP, which provides legal services to the Company.

7

Compensation of Directors

During Fiscal 2002, directors whose principal occupation is other than employment with the Company were compensated at the rate of \$35,000 per year plus \$2,000 for each meeting of the Board of Directors and each committee meeting attended in person and \$1,000 for each meeting attended by telephone. Each committee chairman received an annual fee of \$5,000. Mr. Robert S. Sullivan received additional compensation in the amount of \$30,967.74 for his service as Chairman of the Board until December 10, 2002. Mr. Max L. Lukens received additional compensation in the amount of \$20,129.03 for his service as Chairman of the Board during the remainder of Fiscal 2002. The directors were also reimbursed for any out-of-pocket expenses incurred to attend meetings.

During Fiscal 2002, each director who was not an officer or employee of the Company participated in the 1996 Director Stock Plan (the "1996 Plan"). Under the 1996 Plan, such directors received, on the date of the Annual Meeting in 2002, (i) the number of shares of the Company's Common Stock determined by dividing (A) the sum of \$15,000 by (B) the fair market value of a share of the Company's Common Stock, and (ii) options to purchase 5,000 shares of the Company's Common Stock. Under the 1996 Plan, Mr. Max L. Lukens was awarded options to purchase an aggregate of 100,000 shares of the Company's Common Stock during Fiscal 2002. All options were granted at the closing price on the date of grant and will become exercisable on the first anniversary of the grant. All options granted under the 1996 Plan expire on the tenth anniversary of the grant.

8

INDEPENDENT AUDITORS

On April 22, 2002, the Board of Directors of the Company, upon recommendation of the Audit Committee, made a determination to no longer engage Arthur Andersen LLP ("Arthur Andersen") as its independent auditors and appointed Ernst & Young ("Ernst & Young") as the Company's independent auditors for the fiscal year ending January 31, 2003.

Arthur Andersen's reports on the Company's consolidated financial statements for the fiscal year ended January 31, 2002 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles.

During the fiscal year ended January 31, 2002 and through the date of the dismissal of Arthur Andersen, there were no disagreements with Arthur Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to Arthur Andersen's satisfaction, would have caused it to make reference to the subject matter of the disagreements in connection with its report on the Company's consolidated financial statements for such fiscal year; and there were no "reportable events" as such term is defined in Item 304(a)(1)(v) of Regulation S-K.

During the fiscal year ended January 31, 2002 and through the date of the dismissal of Arthur Andersen and the appointment of Ernst & Young, the Company did not consult Ernst & Young with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements, or any other matters or reportable events as set forth in Items 304(a)(2)(i) and (ii) of Regulation S-K.

The Board of Directors, upon recommendation of the Audit Committee, has appointed Ernst & Young as independent auditors of the Company for the fiscal year ending January 31, 2004. Ernst & Young served as the Company's independent auditors for the fiscal year ended January 31, 2003. A representative of Ernst & Young will be present at the Annual Meeting to make a statement if such representative desires and to respond to appropriate questions.

Audit Fees

The aggregate fees billed for professional services rendered by Ernst & Young for the audit of the Company's financial statements for the fiscal year ended January 31, 2003 and for the reviews of the financial statements included in the Company's Quarterly Reports on Form 10-Q for that fiscal year were approximately \$791,725.

Financial Information Systems Design and Implementation Fees

Ernst & Young did not perform any financial information system design or implementation work for the Company during the fiscal year ended January 31, 2003.

All Other Fees

The aggregate fees billed for all other professional services rendered by Ernst & Young for the fiscal year ended January 31, 2003 were approximately \$251,700. The Audit Committee considered whether, and has determined that, the provision of these services was compatible with maintaining Ernst & Young's independence.

Notwithstanding any statement contained in a previous filing by the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, neither the Performance Graph set forth below nor the Report of the Compensation and Management Development Committee or the Report of the Audit Committee that follows is incorporated by reference into any such filing.

REPORT OF THE COMPENSATION AND MANAGEMENT DEVELOPMENT COMMITTEE

TO THE SHAREHOLDERS OF STEWART & STEVENSON SERVICES, INC.

The Compensation and Management Development Committee of the Board of Directors (the "Committee") consists of four independent, non-employee directors who have no "interlocking" relationships as defined by the Securities and Exchange Commission. The Committee reviews and recommends all salary arrangements and other executive compensation for approval by the independent members of the Board of Directors, approves the design of executive compensation programs, administers such programs and assesses their effectiveness in supporting the Company's compensation policies. The Committee also evaluates executive performance and considers management succession and related matters. The Committee is authorized to, and does, retain independent consultants to assist in the design of compensation programs and assess their effectiveness.

The Committee is committed to implementing a compensation program that encourages creation of shareholder value. To facilitate the achievement of the Company's business strategies, the Committee adheres to the following compensation policies:

To strengthen the relationship between pay and performance, executive's annual and long-term compensation programs will include variable compensation that is dependent upon the contribution of each executive to the Company's performance.

To focus management on the achievement of both short-term performance goals and the long-term interests of shareholders, a significant portion of each executive's total compensation will consist of "at-risk" compensation.

To enable the Company to attract, retain and encourage the development of the best available executive personnel, competitive compensation opportunities will be offered.

The Committee, with the assistance of its independent compensation consultants, has evaluated the function of each executive position to determine the skill, knowledge, and accountability required. Using this information, the Committee is able to compare the compensation of each executive officer with a broad base of compensation paid to others occupying positions with a similar relative job content.

Total Compensation

The key elements of the Company's executive compensation program are base salary, annual incentives and long-term incentives, each of which is addressed separately below. In determining each component of compensation, the Committee considers all elements of an executive's total compensation package and the relationship of such executive's total compensation to the total compensation paid to the executives with similar position content.

Mr. Michael L. Grimes served as President and Chief Executive Officer of the Company during the twelve months ended January 31, 2003 ("Fiscal 2002"). Total compensation paid to Mr. Grimes during Fiscal 2002 was below the median amount paid to other executives with similar position content. Total compensation paid to other executive officers of the Company was generally consistent with the median total compensation paid to executives with similar position content. However, relative competitiveness of compensation varied among individual executives largely due to recent changes in the Company's organization structure and the role and accountability of individual incumbent executives.

Base Salary

Base Salary levels are targeted at the median levels of compensation for executives with similar position content and targeted within a range of plus or minus 20% of the median. The Committee reviews each executive's salary on an annual basis. Increases to base salaries are driven primarily by changes in the relative job content of the executive's position, the expected contributions of the executive in the upcoming fiscal year, and changes in the competitive market compensation practice. Individual performance, experience, past performance and historical salary levels are also considered. In making its evaluation, the Committee has not assigned particular weights to these factors.

Base salaries established by the Committee for Fiscal 2002 were generally within the administrative range. Several officers' salaries were above the median for positions with similar job content because of recent assignment to new positions or decreases in content during prior periods. Mr. Grimes' base salary was below the median base salary for positions with similar content and will be re-evaluated in future periods.

To offset this shortfall of median base salary, the Committee chose to increase the stock option portion of Mr. Grimes' total compensation package to provide incentive for shareholder value growth.

Annual Incentives

The Company provides an annual bonus opportunity to executives. Annual bonuses motivate executives to maximize short-term performance as a part of achieving long-term goals.

The Committee and the Company have a Management Incentive Compensation Plan ("MICP") providing for cash bonus opportunities for individual executive officers between 20% and 80% of their base salary if certain individual and Company performance targets are met. In determining the relative percentage of base salary for each individual executive's bonus opportunity, the Committee considered the aggregate total compensation paid by the Company to such person compared to amounts paid by other companies to executives with similar position content. The performance targets used in the MICP to determine whether all or part of an individual executive's bonus opportunity is awarded, are based upon (i) the performance of the Company compared to pre-established goals, (ii) the performance of a particular cost center, profit center, or business function for which each individual executive is responsible compared to pre-established goals, and (iii) the commitment of the individual to ethical business practices. Approximately 70% of the target bonus for each executive officer is based on financial measurements of the Company's and/or individual profit center performance and the balance is based on non-financial goals and considerations. Some of the executive officers elected to take their bonus compensation for Fiscal 2002 in the form of a stock option grant rather than cash.

Bonus payments approved by the Committee for Fiscal 2002 were calculated under the terms of the MICP. In determining the criteria for Mr. Grimes' bonus opportunity under the MICP, the Committee considered the Company's performance and Mr. Grimes' accomplishments during the previous year, as well as the total compensation packages of senior executives with similar responsibilities. During this past year with the Company, Mr. Grimes repositioned several operating segments of the Company in a challenging business environment. Mr. Grimes received his bonus compensation for Fiscal 2002 in the form of a stock option grant rather than cash.

Long-term Incentives

In keeping with the Company's philosophy of providing a total compensation package favoring "at-risk" components of pay, long-term incentives comprise a significant portion of each executive's total compensation package. Long-term incentives during Fiscal 2002 consisted exclusively of stock options pursuant to the Stewart & Stevenson 1988 Nonstatutory Stock Option Plan. Stock options under this plan are granted at an option price not less than the fair market value of the Common Stock on the date of grant. Accordingly, stock options have a value only if the stock price appreciates

12

from the date the options are granted. The design of these stock options focuses executives on the creation of shareholder value over the long term and encourages equity ownership in the Company.

The size of award to each executive is affected by individual performance, the individual's level of responsibility, and the desire of the Company to retain the individual. As a result, the number of shares underlying stock option awards varies from year to year and is dependent on the stock price on the date of grant.

Policy with Respect to the \$1 Million Deduction Limit

Section 162(m) of the Internal Revenue Code of 1986 generally limits the corporate deduction for compensation paid to executive officers named in the proxy statement to \$1 million per year, unless certain requirements are met. The Committee has carefully considered the impact of this provision on the Company's incentive plans and has determined that Section 162(m) is currently inapplicable because no named executive officer is expected to receive compensation, other than performance-based compensation, in excess of \$1 million in the foreseeable future. The Committee believes it is in the Company's best interest to retain some non-formula evaluation of individual performance when determining total compensation payable to the Company's executive officers.

Conclusion

The Committee believes these executive compensation policies and programs serve the interests of the shareholders and the Company effectively. The various pay vehicles offered are appropriately balanced to provide increased motivation for executives to contribute to the Company's overall future success, thereby enhancing the value of the Company for the shareholders' benefit. The Committee will continue to monitor the effectiveness of the Company's total compensation program to meet the current needs of the Company.

GRANTS AND EXERCISES OF STOCK OPTIONS AND STOCK APPRECIATION RIGHTS

The Company has three stock option plans. The 1988 Nonstatutory Stock Option Plan (as amended and restated effective as of June 10, 1997) (the "1988 Plan") authorizes the grant of options to employees, including officers, to purchase an aggregate of up to 1,500,000 shares of Common Stock and provides that limited stock appreciation rights may be granted in connection with such options. The 1993 Nonofficer Stock Option Plan (the "1993 Plan") authorizes the grant of options to employees other than officers of the Company to purchase an aggregate of up to 813,425 shares of Common Stock. Stock appreciation rights may not be granted under the 1993 Plan. The Amended and Restated 1996 Director Stock Plan (the "Amended and Restated 1996 Plan") authorizes the grant of options to directors other than officers or employees of the Company.

The recipients and terms of options granted pursuant to the 1988 Plan and the 1993 Plan are determined by the Compensation and Management Development Committee of the Board of Directors, no member of which is an employee of the Company or eligible for any benefits under such plans. The Amended and Restated 1996 Plan provided for an automatic grant of an option to purchase 5,000 shares of the Company's Common Stock on the date of each Annual Meeting of Shareholders to each eligible director who was elected to serve as a director at, or whose term as a director continued after, such meeting.

During Fiscal 2002, the Company granted options to purchase an aggregate of (i) 363,000 shares of Common Stock under the 1988 Plan, (ii) 276,000 shares of Common Stock under the 1993 Plan and (iii) 135,000 shares of Common Stock under the 1996 Plan. No limited stock appreciation rights were granted under the 1988 Plan during Fiscal 2002 or during any previous fiscal year. The following tables set forth information as to options under the Company's stock option plans granted to or exercised by the individuals described in the Summary Compensation Table during 2002 and the value of all outstanding options owned as of January 31, 2003 by the individuals named in the Summary Compensation Table.

Retirement Plans

The Company has a defined benefit pension plan (the "Pension Plan") under which benefits are determined primarily by average final base salary and years of service. The Pension Plan covers substantially all of the Company's full-time employees, including officers, and, subject to certain limitations described below, bases pension benefits on 1.5% of (a) the employee's highest consecutive five-year average base salary out of the last ten years or (b) \$200,000 (and thereafter subject to adjustment for increases in the cost of living), whichever is lower, times the employee's years of

21

credited service. The Internal Revenue Code of 1986, as amended, limits benefits that may be paid under the Pension Plan to \$160,000 per year in 2003, offset by a compensation of Social Security benefits.

The Company has a Supplemental Executive Retirement Plan (the "SERP") under which certain key executives will receive retirement benefits in addition to those provided under the Pension Plan. The Compensation and Management Development Committee determines which executive officers are eligible for benefits under the SERP. Supplemental benefits are based upon the average final compensation and years of service without regard to the limitations imposed by the Internal Revenue Code of 1986, as amended, and using the total of base salary and bonus to compute final average compensation. Benefits under the SERP are limited to an amount such that the aggregate of all retirement benefits paid under the Pension Plan and the SERP will not exceed 75% of the executive's highest consecutive five-year average salary, not including bonus payments.

The following table sets forth the estimated annual benefits payable upon retirement to persons in specified compensation and years-of-service classification pursuant to the Stewart & Stevenson Employee Pension Plan and the Stewart & Stevenson Supplemental Executive Retirement Plan.

EXHIBIT A

**AUDIT COMMITTEE CHARTER OF
STEWART & STEVENSON SERVICES, INC.**

Organization

This charter governs the operations of the audit committee of the Board of Directors of Stewart & Stevenson Services, Inc. (the "Company"). The committee shall be members of, and be appointed by, the Board and shall comprise at least three directors, each of whom shall meet the requirements of independence provided by law and stock exchange rules. Members of the committee shall generally be considered independent as long as they do not accept any consulting, advisory, or other compensatory fee (except only director and Board committee fees) from the Company and are not an affiliated person of the Company or any of its subsidiaries. All committee members shall be financially literate, and at least one member shall be an "audit committee financial expert," all as defined by law and stock exchange rules. For convenience of reference, a summary of the current definition of "audit committee financial expert" is attached to this Charter as Annex A.

Purpose

The audit committee shall provide assistance to the Board in fulfilling its oversight responsibility to the shareholders, the investment community, and others relating to

the integrity of the Company's financial statements

the disclosure and financial reporting process

the systems of internal accounting and financial controls

the performance of the Company's internal audit function and independent auditors

the Company's disclosure controls and procedures

the independent auditors' qualifications and independence

the Company's compliance with ethics policies and legal and regulatory requirements

In so doing, it is the responsibility of the committee to maintain free and open communication between the committee, independent auditors, the internal auditors (or other persons carrying on the internal audit function), and management of the Company.

In discharging its oversight role, the committee is empowered to (i) investigate any matter brought to its attention with full access to all books, records, facilities, and personnel of the Company and (ii) engage and, on behalf of the Company, compensate, or provide for the compensation of independent counsel, accountants and other advisers as it determines necessary to carry out its duties.

Duties and Responsibilities

The primary general responsibility of the audit committee is to oversee the Company's financial reporting process on behalf of the Board and to report the results of its activities to the Board. While the audit committee has the responsibilities and powers set forth in this Charter, it is not the duty of the audit committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. Management is responsible for the preparation, presentation, and integrity of the Company's financial statements and for the appropriateness of the accounting principles and reporting policies that are used by the Company. The independent auditors are responsible for auditing the Company's financial statements, for reviewing the Company's unaudited interim financial statements, and, to the extent

26

required by law, attesting as to management certifications pertaining to the adequacy of the Company's internal controls.

The committee, in carrying out its responsibilities, believes its policies and procedures should remain flexible in order to best react to changing conditions and circumstances. Within the overall general responsibility the following shall be the principal specific duties and responsibilities of the audit committee. These are set forth as a guide with the understanding that the committee may supplement them as appropriate, but shall have them reviewed and approved annually by the Board.

Relationships with Independent Auditors and the Internal Auditors

1. The committee shall be directly responsible for, and have sole authority as to, the retention and termination (subject, if applicable, to shareholder ratification), compensation, and oversight of the work of the independent auditors, including resolution of disagreements between management and the independent auditors regarding accounting matters and financial reporting.
2. The committee shall have sole authority to, and shall, pre-approve all audit and non-audit services provided by the independent auditors to the Company and may take any measures that it determines to be necessary to assure that the independent auditors are not engaged to perform the specific non-audit services prescribed by law. The committee may delegate pre-approval authority to a member or members of the audit committee. The decisions of any audit committee member or members to whom pre-approval authority is delegated must be presented to the full audit committee at its next scheduled meeting. The audit committee shall review all required public disclosures as to its pre-approval process.
3. At least annually, the committee shall obtain and review a report by the independent auditors describing
 - the auditing firm's internal quality control procedures
 - any material issues raised by the most recent internal quality control review, or peer review, of the auditing firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the auditing firm, and any steps taken to deal with any such issues
 - all relationships between the independent auditors and the Company (to assess the auditor's independence).
4. Based on a review of such annual report and the work of the independent auditors throughout the year, the committee shall evaluate the auditors' qualifications, performance and independence, which evaluation will include the review and evaluation of the lead partner of the independent auditor. In making its evaluation the committee may take into account the opinions of management and the Company's internal auditor (or other personnel responsible for the internal audit function). From time to time the committee may wish to consider whether, in order to assure continuing auditor independence, there should be a regular rotation of the audit firm itself. The committee shall present its conclusions with respect to the independent auditors and its evaluation thereof to the Board annually.

5. The audit committee may take any measures that it determines to be appropriate to assure from time to time that all requirements of law and stock exchange rules that relate to the rotation of personnel of its independent auditors who perform its services for the Company are met.

27

6. In addition, the committee may take any measures that it determines to be appropriate to set, and recommend for Board approval, hiring policies for the Company as to employees or former employees of the independent auditors that meet legal requirements and stock exchange rules.

7. The committee shall discuss with the internal auditors (or persons carrying out the internal audit function) and the independent auditors the overall scope and plans for their respective audits, including the adequacy of staffing and compensation or expense coverage. The committee shall discuss with management, the internal auditors, and the independent auditors the adequacy and effectiveness of the Company's accounting and financial controls, including special audit steps adopted in light of material control weaknesses and including the Company's policies and procedures to assess, monitor, and manage business risk and legal and ethical compliance programs (e.g., Company's Code of Conduct).

8. The committee shall periodically meet separately with management, the internal auditors, and the independent auditors to discuss issues and concerns warranting committee attention. The committee shall provide sufficient opportunity for the internal auditors (or persons carrying out the internal audit function) and the independent auditors to meet privately with the members of the committee. The committee shall review with the independent auditors any audit problems or difficulties and management's response. The committee may review any accounting adjustments noted or proposed by the independent auditors, whether passed or accepted, any communications between the audit team and the independent auditors' national office as to the Company, and any internal control letter issued or proposed to be issued to the Company by the independent auditors. The committee's discussions shall also encompass the responsibilities, budget, and staffing of the Company's internal audit function, which function the audit committee shall assure is being adequately maintained in accordance with legal requirements and stock exchange rules.

9. The committee shall receive and assess regular reports from the independent auditors on the critical accounting policies and practices of the Company and on all alternative treatments of financial information within generally accepted accounting principles that have been discussed with management or that are otherwise relevant to the Company. The committee shall review major issues regarding accounting principles and financial statement presentations, including (i) any significant changes in the Company's selection or application of accounting principles, (ii) analyses prepared by management and/or the independent auditors setting forth significant financial reporting issues and judgments made in connection with the presentation of the financial statements, and (iii) the effect of regulatory and accounting initiatives, such as those relating to off-balance sheet structures, on the Company's financial statements.

10. The committee shall, after adoption of SEC rules relating to the following, review management's annual assessment of the effectiveness of the Company's internal controls and the independent auditors' annual attestation as to management's assessment, as well as management's periodic certifications as to internal controls and related matters.

Financial Reporting Matters

11. The audit committee shall review the Company's disclosure controls and procedures from time to time, as well as certifications of Company officers required by law with respect thereto, to assist in assuring their effectiveness.

12. The committee shall, at least generally, review and discuss with management, and independent auditors as may be appropriate, earnings press releases, as well as financial information and earnings guidance provided to analysts and rating agencies, including especially earnings releases and information disclosing "pro forma" or "adjusted" non-GAAP, information.

28

13. The committee shall review the Company's interim financial statements and disclosures under Management's Discussion and Analysis of Financial Condition and Results of Operations with management and the independent auditors prior to the filing of the Company's Quarterly Reports on Form 10-Q. Also, the committee shall discuss the results of the quarterly review and any other matters required to be communicated to the committee by the independent auditors under generally accepted auditing standards.

14. The committee shall review with management and the independent auditors the financial statements and disclosures under Management's Discussion and Analysis of Financial Condition and Results of Operations to be included in the Company's Annual Reports on Form 10-K (or in any annual report to shareholders if distributed prior to the filing of a Form 10-K), including their judgment about the quality, not just the acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements and MDA. Also, the committee shall discuss the results of the annual audit and any other matters required to be communicated to the committee by the independent auditors under generally accepted auditing standards.

15. The committee shall establish procedures for

the receipt, retention, and treatment of complaints received by the issuer regarding accounting, internal accounting controls, or auditing matters

the confidential, anonymous submission by employees of the issuer of concerns regarding questionable accounting or auditing matters.

16. The committee shall receive any attorney's report of evidence of a material violation of securities laws or breaches of fiduciary duty or similar violation by the Company or any agent thereof.

17. The committee shall prepare its report to be included in the Company's annual proxy statement, as required by law or stock exchange rules.

Evaluation of the Committee and Its Composition and Charter

18. The committee shall perform an evaluation of its performance at least annually to determine whether it is functioning effectively.

19. The audit committee shall periodically require each of its members to certify that such person meets the independence requirements prescribed by law and stock exchange rules, including that such person has received no compensation from the Company other than director and Board committee fees.

20. The audit committee shall review its membership annually to assure that all its members are financially literate and that at least one of its members is an "audit committee financial expert", all as required by law and stock exchange rules and by the Company's Board.

21. The committee shall review and reassess this charter at least annually and obtain annually its reapproval, or the approval of any proposed changes, by the Board.

an understanding of financial statements and generally accepted accounting principles

an ability to assess the general application of such principles in connection with the accounting for estimates, accruals and reserves

experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant's financial statements, or experience actively supervising one or more persons engaged in such activities

Edgar Filing: STEWART & STEVENSON SERVICES INC - Form DEF 14A

an understanding of internal controls and procedures for financial reporting

an understanding of audit committee functions.

A person can acquire such attributes through any one or more of the following means:
