ITEM 1. MANAGEMENT REPORT ON THE INTERIM FINANCIAL RESULTS
AS OF JUNE 30, 2010
(UNAUDITED)

The following discussion should be read in conjunction with the disclosure contained in (1) our Annual Report on Form 20-F for the year ended December 31, 2009, which contains, among other things, a discussion of the risks and uncertainties that could affect our future operating results or financial condition and (2) our press release issued on April 16, 2010, relating to the Company beginning financial reporting in its financial communications in accordance with IAS/IFRS, which are both available on the Company's website, www.luxottica.com.

1. OPERATING PERFORMANCE FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2010

For the Company, the second quarter reflected one of the strongest results in the Group's history. For the first time ever, quarterly net sales approached Euro 1.6 billion. Net income reached Euro 150 million. Both segments contributed to the achievement of this excellent result, successfully reaping the benefits of the extraordinary work carried out during the recent quarters and confirming the strength of the Company's brands while strengthening our market position. In the second quarter of the year, the Company achieved positive performances in most geographic regions where it is present. The manufacturing and wholesale distribution segment recorded its best sales performance in the Group's history. Emerging markets made a key contribution to this performance, boasting an increase in wholesale sales by approximately 30 percent compared to the same period last year, along with the United States and Europe, which enjoyed a particularly positive 'sun' season. The results posted by Sunglass Hut were also very solid, with net sales benefiting from the major store-opening plan within US department store Macy's, allowing record sales to be recorded in June. In the second quarter of 2010, net sales rose by 13.8 percent at current exchange rates and by 6.5 percent at constant exchange rates¹, to Euro 1,595.1 million from Euro 1,401.6 million. During the half-year period, net sales rose by 10.1 percent to Euro 2,986.8 million (Euro 2,714.0 million in the first half of 2009). Considering operating performance, EBITDA² grew over the previous year by 22.2 percent to Euro 335.4 million in the three months ended June 30, 2010, from Euro 274.5 million in the same period of 2009. For the first half of the year, EBITDA² grew to Euro 578.0 million from the Euro 501.5 million posted for the first half of 2009.

¹ We calculate constant exchange rates by applying to the current period the average exchange rates between the Euro and the relevant currencies of the various markets in which we operated during the six-month period ended June 30, 2009. Please refer to Attachment 1 for further details on exchange rates.

² For a further discussion of EBITDA, see page 16 "Non-IAS/IFRS Measures."

Operating income was Euro 258.3 million in the three months ended June 30, 2010 (Euro 203.3 million for the same period of 2009, or 27.1 percent), while the Group's operating margin improved from 14.5 percent in the three months of 2009 to 16.2 percent in the same period of 2010. In the first six months of 2010, operating income amounted to Euro 429.6 million, up 20.2 percent from Euro 357.5 million posted for the same period last year.

Net income in the three months ended June 30, 2010 increased to Euro 150.1 million (up by 30.1 percent from Euro 115.3 million for the same period of 2009), resulting in earnings per share (EPS) of Euro 0.33 (at an average Euro/Dollar exchange rate of 1.2708).

Table of Contents

For the three months ended June 30, 2010, once again the Company generated excellent positive free cash flow³ (Euro 160 million); however, because of the exchange rate effect after having paid dividends during the quarter of more than Euro 160 million and having acquired the remaining 35.16 percent of our Turkish subsidiary for approximately Euro 60 million, consolidated net debt as of June 30, 2010 amounted to Euro 2,646 million (Euro 2,337 million at the end of 2009), with a ratio of net debt to EBITDA⁴ of 2.8X, compared with 2.7X recorded at the end of 2009 (net of the exchange rate effect, the ratio of net debt to EBITDA⁴ as of June 30, 2010 would have been 2.6X, down from 2.8X as of December 31, 2009).

³ For a further discussion of free cash flow, see page 16 "Non-IAS/IFRS Measures."

⁴ For a further discussion of net debt to EBITDA ratio, see page 16 "Non-IAS/IFRS Measures."

March

On March 31, 2010, we announced a three-year renewal of our exclusive license agreement with Jones Apparel Group for the design, production and global distribution of prescription frames and sunglasses under the Anne Klein New York brand. The new agreement, which is substantially unchanged from the previous agreement, extends the license through December 2012, with a provision for a further renewal.

On March 31, 2010, we announced a five-year extension of the license agreement with Retail Brand Alliance, Inc. for the design, production and worldwide distribution of prescription frames and sunglasses under the Brooks Brothers brand. The Brooks Brothers trade name is owned by Retail Brand Alliance, Inc., which is controlled by Claudio Del Vecchio, one of our directors. The term of the new agreement is through December 2014, with an option for a further five-year extension under the same terms. The terms were substantially unchanged from those of the previous agreement.

April

On April 16, 2010, we announced that starting with fiscal year 2010 and for all future reporting periods we will report in all financial communications, including reports to the United States Securities and Exchange Commission ("SEC"), our financial results in accordance with the International Financial Reporting Standards as issued by the International Accounting Standards Board ("IAS/IFRS"). Up to

Table of Contents

and including the 2009 fiscal year, we had been reporting our financial results in accordance with generally accepted accounting principles in the United States ("U.S. GAAP").

Since 2005, we have also been preparing consolidated financial statements in Italy in accordance with IFRS as required by Italian law and we have provided the financial community with a reconciliation of our U.S. GAAP and IFRS results on a quarterly basis.

At the Stockholders' Meeting on April 29, 2010, the stockholders approved the distribution of a cash dividend of Euro 0.35 per ordinary share, reflecting a year-over-year 59 percent increase. The aggregate dividend amount is approximately Euro 160 million.

May

On May 27, 2010, we announced a ten-year extension of the license agreement for the design, production and worldwide distribution of prescription frames and sunglasses under the Bvlgari brand. The new agreement will run from January 1, 2011 to December 31, 2020.

In May 2010, we completed the acquisition of the 35.16 percent interest held by minority stockholders in Luxottica Gözlük Endüstri ve Ticaret Anonim Sirketi, ("Luxottica Turkey") our Turkey-based subsidiary, for approximately Euro 61.8 million, bringing our ownership in this subsidiary to 100 percent.

June

During the first six months of 2010, we purchased on the Mercato Telematico Azionario ("MTA") 1,471,712 of our ordinary shares at an average price of Euro 19.77 for a total amount of Euro 29,096,776 pursuant to the share purchase program approved at the Stockholders' Meeting on October 29, 2009, and launched on November 16, 2009.

In parallel, our subsidiary, Arnette Optic Illusions, Inc., sold during the same period on the MTA 1,415,000 of our treasury shares at an average price of Euro 19.64 for a total amount of Euro 27,784,389.

3. FINANCIAL RESULTS

We are a global leader in the design, manufacture and distribution of fashion, luxury and sport eyewear, with net sales reaching Euro 5.1 billion in 2009, approximately 60,000 employees and a strong global presence. We operate in two industry segments: (i) manufacturing and wholesale distribution; and (ii) retail distribution. See Note 4 to the Condensed Consolidated Half Year Report as of June 30, 2010 for additional disclosures about our operating segments. Through our manufacturing and wholesale distribution segment, we are engaged in the design, manufacture, wholesale distribution and marketing of house and designer lines of mid- to premium-priced prescription frames and sunglasses. We operate our retail distribution segment principally through our retail brands, which include, among others, LensCrafters, Sunglass Hut, Pearle Vision, OPSM, Laubman & Pank, Budget Eyewear, Bright Eyes, Oakley "O" Stores and Vaults, David Clulow and our Licensed Brands (Sears Optical and Target Optical).

As a result of our numerous acquisitions and the subsequent expansion of our business activities in the United States through these acquisitions, our results of operations, which are reported in Euro, are susceptible to currency rate fluctuations between the Euro and the U.S. dollar. The Euro/U.S. dollar exchange rate has fluctuated from an average exchange rate of Euro 1.00 = U.S. \$1.3320 in the first six months of 2009 to Euro 1.00 = U.S. \$1.3268 in the same period of 2010. Additionally, with the acquisition of OPSM and Bright Eyes (acquired through Oakley), our results of operations are susceptible to currency fluctuations between the Euro and the Australian dollar. Although we engage in certain foreign currency hedging activities to mitigate the impact of these fluctuations, they have impacted our reported revenues and expenses during the periods discussed herein.

Net Sales. Net sales increased by Euro 272.8 million, or 10.1 percent, to Euro 2,986.8 million in the first six months of 2010 from Euro 2,714.0 million in the same period of 2009. Euro 127.7 million of such increase is attributable to the increased sales in the manufacturing and wholesale distribution segment in the first six months of 2010 as compared to the same period in 2009 and to increased sales in the retail distribution segment of Euro 145.1 million for the same period.

Net sales for the retail distribution segment increased by Euro 145.1 million, or 8.9 percent, to Euro 1,782.1 million in the first six months of 2010 from Euro 1,637.0 million in the same period in 2009. The increase in net sales for the period is partially attributable to an approximately 3 percent improvement in comparable store sales⁵. In particular we saw a 4.5 percent increase in comparable store sales for the North American retail operations, which was partially offset by a 11.4 percent decrease in comparable store sales for the Australian/New Zealand retail operations. The positive effects from currency fluctuations between the Euro, which is our reporting currency, and other currencies in which

we conduct business, in particular due to the strengthening of the Australian Dollar compared to the Euro, increased net sales in the retail distribution segment by Euro 52.9 million.

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 127.7 million, or 11.9 percent, to Euro 1,204.7 million in the first six months of 2010 from Euro 1,077.0 million in the same period in 2009. This increase is mainly attributable to increased sales of most of our house brands, in particular Ray-Ban and Oakley, and of some designer brands such as Bvlgari, Ralph Lauren and Chanel. These sales volume increases occurred in most of the markets in which the Group operates. These positive effects were further increased by positive currency fluctuations, in particular due to a strengthening of the Australian Dollar and other minor currencies, including but not limited to the Brazilian Real, the Canadian Dollar and the Japanese Yen, while the U.S. Dollar remained relatively stable compared to the Euro, which increased net sales to third parties in the manufacturing and wholesale distribution segment by Euro 37.2 million.

In the first six months of 2010, net sales in the retail distribution segment accounted for approximately 59.7 percent of total net sales, as compared to approximately 60.3 percent of total net sales for the same period in 2009. This decrease in sales as a percentage of total net sales for the retail distribution segment is primarily attributable to an 11.9 percent increase in net sales to third parties in our manufacturing and wholesale distribution segment compared to the same period of 2009 compared to an increase of 8.9 percent in the retail distribution segment compared to the same period of 2009.

In the first six months of 2010, net sales in our retail distribution segment in the United States and Canada comprised 83.1 percent of our total net sales in this segment as compared to 84.1 percent of our total net sales in the same period of 2009. In U.S. dollars, retail net sales in the United States and Canada increased by 7.1 percent to U.S. \$1,964.0 million in the first six months of 2010 from U.S. \$1,833.2 million for the same period in 2009, due to sales volume increases. During the first six months of 2010, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 16.9 percent of our total net sales in the retail distribution segment and increased by 15.8 percent to Euro 301.9 million in the first six months of 2010 from Euro 260.7 million, or 15.9 percent of our total net sales in the retail distribution segment for the same period in 2009, mainly due to positive currency fluctuation effects.

In the first six months of 2010, net sales to third parties in our manufacturing and wholesale distribution segment in Europe were Euro 622.0 million, comprising 51.6 percent of our total net sales in this segment, compared to Euro 574.3 million or 53.3 percent of total net sales in the segment, in the same period in 2009. The increase of Euro 47.7 million in the first six months of 2010 compared to the same period of 2009 constituted an 8.3 percent increase in net sales to third parties in Europe, due to a general increase in consumer demand. Net sales to third parties in our manufacturing and wholesale distribution segment in the United States and Canada were U.S. \$366.2 million and comprised 22.9 percent of our total net sales in this segment in the first six months of 2010, compared to U.S. \$343.7 million, or 24.0 percent of total net sales in the segment, in the same period of 2009. The increase of U.S. \$22.5 million in the first six months of 2010 compared to the same period of 2009 constituted an increase, in U.S. dollars, of 6.6 percent in net sales in this segment in the United States and Canada, due to a general increase in consumer demand. In the first six months of 2010, net sales to third parties in our manufacturing and wholesale distribution segment in the rest of the world were Euro 306.7 million, comprising 25.5 percent of our total net sales in this segment, compared to Euro 244.6 million or 22.7 percent of our net sales in this segment, in the same period of 2009. The increase of Euro 62.0 million in the first six months of 2010 compared to the same period of 2009 constituted a 25.4 percent increase in this segment in the rest of the world due to the positive effect of currency fluctuations as well as an increase in consumer demand.

Cost of Sales. Cost of sales increased by Euro 97.8 million, or 10.5 percent, to Euro 1,029.5 million in the first six months of 2010 from Euro 931.7 million in the same period of 2009,

essentially in line with the increase of net sales in the period. As a percentage of net sales, cost of sales increased to 34.5 percent in the first six months of 2010, as compared to 34.3 percent in the same period of 2009. In the first six months of 2010, the average number of frames produced daily in our facilities increased to approximately 233,300, as compared to about 198,600 in the same period of 2009, which was attributable to increased production in all manufacturing facilities in response to an overall increase in demand.

Gross Profit. Our gross profit increased by Euro 175.0 million, or 9.8 percent, to Euro 1,957.3 million in the first six months of 2010 from Euro 1,782.3 million in the same period of 2009. As a percentage of net sales, gross profit decreased to 65.5 percent in the first six months of 2010 from 65.7 percent in the same period of 2009, due to the factors noted above.

Operating Expenses. Total operating expenses increased by Euro 102.9 million, or 7.2 percent, to Euro 1,527.7 million in the first six months of 2010 from Euro 1,424.8 million in the same period of 2009, primarily due to the currency fluctuation effects, in particular due to the strengthening of the Australian Dollar against the Euro. As a percentage of net sales, operating expenses decreased to 51.1 percent in the first six months of 2010 from 52.5 percent in the same period of 2009.

Selling and advertising expenses (including royalty expenses) increased by Euro 90.9 million, or 8.3 percent, to Euro 1,186.5 million in the first six months of 2010 from Euro 1,095.6 million in the same period of 2009. Selling expenses increased by Euro 68.3 million or 7.9 percent. Advertising expenses increased by Euro 24.3 million or 14.1 percent. Royalties decreased by Euro 1.7 million, or 3.1 percent. As a percentage of net sales, selling and advertising expenses decreased to 39.7 percent in the first six months of 2010 compared to 40.4 percent for the same period of 2009, mainly due to the increase in net sales in relation to the fixed portion of selling expenses, such as occupancy costs and fixed employee selling costs.

General and administrative expenses, including intangible asset amortization increased by Euro 12.0 million, to Euro 341.2 million in the first six months of 2010 compared to Euro 329.2 million in the same period of 2009, mainly due to currency fluctuation effects.

Income from Operations. For the reasons described above, income from operations increased by Euro 72.1 million, or 20.2 percent, to Euro 429.6 million in the first six months of 2010 from Euro 357.5 million in the same period of 2009. As a percentage of net sales, income from operations increased to 14.4 percent in the first six months of 2010 from 13.2 percent in the same period of 2009.

Other Income (Expense) Net. Other income (expense) net was Euro (53.0) million in the first six months of 2010 compared to Euro (50.3) million in the same period of 2009. Net interest expense increased to Euro 48.3 million in the first six months of 2010 compared to Euro 46.3 million in the same period of 2009, mainly attributable to an increase in the cost of our indebtedness.

Net Income. Income before taxes increased by Euro 69.3 million, or 22.6 percent, to Euro 376.5 million in the first six months of 2010 from Euro 307.2 million in the same period of 2009 for the reasons described above. As a percentage of net sales, income before taxes increased to 12.6 percent in the first six months of 2010 from 11.3 percent in the same period of 2009. Net income attributable to noncontrolling interests decreased to Euro 3.4 million in the first six months of 2010 as compared to Euro 4.0 million in the same period of 2009. Our effective tax rate was 34.0 percent in the first six months of 2010, compared to 35.5 percent in the same period of 2009.

Net Sales. Net sales increased by Euro 193.5 million, or 13.8 percent, to Euro 1,595.1 million during the three-month period ended June 30, 2010, from Euro 1,401.6 million in the same period of 2009. Euro 75.8 million of such increase is attributable to the increased sales in the manufacturing and wholesale distribution segment during the three-month period ended June 30, 2010, as compared to the same period in 2009 and to the increase in net sales in the retail distribution segment of Euro 117.8 million for the same period.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Net sales for the retail distribution segment increased by Euro 117.8 million, or 14.3 percent, to Euro 944.0 million during the three-month period ended June 30, 2010, from Euro 826.2 million in the same period in 2009. The increase in net sales for the period is partially attributable to an approximately

3 percent improvement in comparable store sales⁶. In particular we saw a 4.4 percent increase in comparable store sales for the North American retail operations, which was partially offset by a 10.8 percent decrease in comparable store sales for the Australian/New Zealand retail operations. The positive effects from currency fluctuations between the Euro, which is our reporting currency, and other currencies in which we conduct business, in particular due to the strengthening of the U.S. dollar and the Australian Dollar compared to the Euro, increased net sales in the retail distribution segment by Euro 71.1 million.

⁶ Comparable store sales reflects the change in sales from one period to another that, for comparison purposes, includes in the calculation only stores open in the more recent period that also were open during the comparable prior period in the same geographic area, and applies to both periods the average exchange rate for the prior period.

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 75.8 million, or 13.2 percent, to Euro 651.2 million during the three-month period ended June 30, 2010, from Euro 575.4 million in the same period in 2009. This increase is mainly attributable to increased sales of most of our house brands, in particular Ray-Ban and Oakley, and of some designer brands such as Bvlgari, Ralph Lauren and Chanel. These sales volume increases occurred in most of the markets in which the Group operates. These positive effects were further increased by positive currency fluctuations, in particular due to a strengthening of the U.S. Dollar and Australian Dollar as well as other minor currencies, including but not limited to the Brazilian Real, the Canadian Dollar and the Japanese Yen compared to the Euro, which increased net sales to third parties in the manufacturing and wholesale distribution segment by Euro 31.1 million.

During the three-month period ended June 30, 2010, net sales in the retail distribution segment accounted for approximately 59.2 percent of total net sales, as compared to approximately 58.9 percent of total net sales for the same period in 2009. This increase in sales as a percentage of total net sales for the retail distribution segment is primarily attributable to the positive currency exchange rate effects, which more heavily impacted net sales for the retail distribution segment than net sales for the manufacturing and wholesale distribution segment.

During the three-month period ended June 30, 2010, net sales in our retail distribution segment in the United States and Canada comprised 83.5 percent of our total net sales in this segment as compared to 83.6 percent of our total net sales in the same period of 2009. In U.S. dollars, retail net sales in the United States and Canada increased by 7.1 percent to U.S. \$1,007.0 million during the three-month period ended June 30, 2010, from U.S. \$940.4 million for the same period in 2009, due to sales volume increases. During the three-month period ended June 30, 2010, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 16.5 percent of our total net sales in the retail distribution segment and increased by 15.2 percent to Euro 155.8 million during the three-month period ended June 30, 2010 from Euro 135.3 million, or 16.4 percent, for the same period in 2009, mainly due to positive currency fluctuation effects.

During the three-month period ended June 30, 2010, net sales to third parties in our manufacturing and wholesale distribution segment in Europe were Euro 326.6 million, comprising 50.2 percent of our total net sales in this segment, compared to Euro 305.2 million, or 53.0 percent of total net sales in the segment, in the same period in 2009. The increase of Euro 21.5 million during the three-month period ended June 30, 2010, compared to the same period of 2009 constituted a 7.0 percent increase in net sales to third parties in Europe, due to a general increase in consumer demand. Net sales to third parties in our manufacturing and wholesale distribution segment in the United States and Canada were U.S. \$203.7 million and comprised 24.3 percent of our total net sales in this segment during the three-month period ended June 30, 2010, compared to U.S. \$185.4 million, or 23.7 percent of total net sales in the segment, in the same period of 2009. The increase of U.S. \$18.3 million during the three-month period ended June 30, 2010, compared to the same period of 2009 constituted an increase, in U.S. dollars, of 9.8 percent in net sales in this segment in the United States and Canada, due to a general increase in

consumer demand. During the three-month period ended June 30, 2010, net sales to third parties in our manufacturing and wholesale distribution segment in the rest of the world were Euro 166.0 million, comprising 25.5 percent of our total net sales in this segment, compared to Euro 133.7 million in the same period of 2009, or 23.2 percent of our net sales in this segment. The increase of Euro 32.3 million during the three-month period ended June 30, 2010, compared to the same period of 2009 constituted a 24.2 percent increase in this segment in the rest of the world due to a general increase in consumer demand as well as positive currency fluctuation effects.

Cost of Sales. Cost of sales increased by Euro 49.0 million, or 10.2 percent, to Euro 529.8 million during the three-month period ended June 30, 2010, from Euro 480.7 million in the same period of 2009. As a percentage of net sales, cost of sales decreased to 33.2 percent during the three-month period ended June 30, 2010, as compared to 34.3 percent in the same period of 2009, due to the positive effect of the selling price mix, which consisted of more sales of higher margin products. During the three-month period ended June 30, 2010, the average number of frames produced daily in our facilities increased to approximately 243,200, as compared to 208,100 in the same period of 2009, which was attributable to increased production in all manufacturing facilities in response to an overall increase in demand.

Gross Profit. Our gross profit increased by Euro 144.4 million, or 15.7 percent, to Euro 1,065.4 million during the three-month period ended June 30, 2010, from Euro 920.9 million in the same period of 2009. As a percentage of net sales, gross profit increased to 66.8 percent during the three-month period ended June 30, 2010, from 65.7 percent in the same period of 2009, due to the factors noted above.

Operating Expenses. Total operating expenses increased by Euro 89.4 million, or 12.5 percent, to Euro 807.0 million during the three-month period ended June 30, 2010, from Euro 717.6 million in the same period of 2009, mainly due to the currency fluctuation effects, in particular due to the strengthening of the U.S. Dollar and the Australian Dollar against the Euro. As a percentage of net sales, operating expenses decreased to 50.6 percent during the three-month period ended June 30, 2010, from 51.2 percent in the same period of 2009, primarily due to an increase in sales while keeping strong cost controls over general and administrative expenses.

Selling and advertising expenses (including royalty expenses) increased by Euro 78.1 million, or 14.2 percent, to Euro 627.7 million during the three-month period ended June 30, 2010, from Euro 549.6 million in the same period of 2009. Selling expenses increased by Euro 56.4 million, or 13.2 percent. Advertising expenses increased by Euro 22.5 million, or 24.2 percent. Royalties decreased by Euro 0.7 million, or 2.5 percent. As a percentage of net sales, selling and advertising expenses remained substantially flat at 39.4 percent during the three-month period ended June 30, 2010, compared to 39.2 percent for the same period of 2009.

General and administrative expenses, including intangible asset amortization, increased at Euro 179.3 million during the three-month period ended June 30, 2010, compared to Euro 168.0 million in the same period of 2009. As a percentage of net sales, general and administrative expenses decreased from 12.0 percent to 11.2 percent.

Income from Operations. For the reasons described above, income from operations increased by Euro 55.0 million, or 27.1 percent, to Euro 258.3 million during the three-month period ended June 30, 2010, from Euro 203.3 million in the same period of 2009. As a percentage of net sales, income from operations increased to 16.2 percent during the three-month period ended June 30, 2010, from 14.5 percent in the same period of 2009.

Other Income (Expense) Net. Other income (expense) net was Euro (29.6) million during the three-month period ended June 30, 2010, compared to Euro (20.8) million in the same period of 2009. Net interest expense increased to Euro 25.7 million during the three-month period ended June 30, 2010,

compared to Euro 18.5 million in the same period of 2009, mainly attributable to an increase in the cost of our indebtedness as well as the strengthening of the U.S. Dollar as compared to the Euro.

Net Income. Income before taxes increased by Euro 46.2 million, or 25.3 percent, to Euro 228.7 million during the three-month period ended June 30, 2010, from Euro 182.5 million in the same period of 2009 for the reasons described above. Table of Contents

As of June 30, 2010, total assets increased by Euro 896.4 million to Euro 8,157.7 million compared to Euro 7,261.3 million as of December 31, 2009.

In the first six months of 2010, non-current assets increased by Euro 634.7 million. This increase was due to increases in net intangible assets (Euro 485.5 million increase), property, plant and equipment net (Euro 85.3 million increase), deferred tax assets (Euro 51.3 million increase), investments (Euro 7.1 million increase) and other assets (Euro 5.5 million increase).

The increase in net intangible assets is primarily due to the positive effects of foreign currency fluctuations of Euro 511.2 million, partially offset by the amortization for the period of Euro 43.2 million.

The increase in property, plant and equipment is primarily due to positive currency fluctuation effects of Euro 127.5 million and additions during the period of Euro 82.9 million, partially offset by depreciation of Euro 105.2 million for the period.

As of June 30, 2010, as compared to December 31, 2009:

Accounts receivable increased by Euro 215.7 million due to the seasonality of our business, which results in most of our net sales occurring in the first part of the calendar year and a corresponding increase in accounts receivable;

Inventory increased by Euro 45.9 million mainly due to currency fluctuation effects;

Other current assets increased by Euro 42.7 million mainly due to (i) an increase of Euro 25.9 million in securities portfolio which amounts, as of December 31, 2009, were not invested and were held as cash and cash equivalents and (ii) an increase of Euro 15.0 million in other current receivables due to the mark to market of certain new foreign currency contracts with a total notional amount of U.S. \$200.0 million.

Other non-current liabilities increased by Euro 62.4 million due to increasing liabilities for certain pension plans and for interest rate derivatives related to a decrease in interest rates compared to December 31, 2009.

Our net financial position as of June 30, 2010, and December 31, 2009 is as follows:

| (thousands of Euro) | June 30, 2010 (unaudited) | December 31, 2009 (audited) |
|-----------------------------------|------------------------------|--------------------------------|
| Cash and cash equivalents | 337,649 | 380,081 |

| Long-term debt | (2,587,402) | (2,401,796) |
| Total | (2,645,583) | (2,336,945) |

Bank overdrafts consist of short-term uncommitted revolving credit lines borrowed by various subsidiaries of the Group.

As of June 30, 2010, we, together with our wholly-owned Italian subsidiary Luxottica S.r.l., had credit lines aggregating Euro 444.0 million. The interest rate is a floating rate of EURIBOR plus a margin on average of approximately 0.45 percent. As of June 30, 2010, we had utilized Euro 0.2 million of these credit lines.

As of June 30, 2010, Luxottica US Holdings maintained unsecured lines of credit for an aggregate maximum availability of Euro 105.9 million (U.S. \$130.1 million). The interest rate is a floating rate and is approximately USD LIBOR plus 80 basis points. At June 30, 2010, these lines were not used.

Table of Contents

As of June 30, 2010, the current portion of long-term debt has increased compared to December 31, 2009, due to the reclassification of the portion of the debt maturing in the first six months of 2011 as short-term debt.

NON-IAS/IFRS MEASURES

We use in this Management Report certain performance measures that are not in accordance with IAS/IFRS. Such non-IAS/IFRS measures are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, these non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding our operational performance.

Such measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors. Such non-IAS/IFRS measures are explained in detail and reconciled to their most comparable IAS/IFRS measures below.

EBITDA and EBITDA margin

EBITDA represents net income attributable to Luxottica Group stockholders, before noncontrolling interest, provision for income taxes, other income/expense, depreciation and amortization. EBITDA margin means EBITDA divided by net sales. We believe that EBITDA is useful to both management and investors in evaluating our operating performance compared with that of other companies in our industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business.

EBITDA and EBITDA margin are not measures of performance under IAS/IFRS. We include them in this Management Report in order to:

- improve transparency for investors;
- assist investors in their assessment of the Company's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;
- assist investors in their assessment of the Company's cost of debt;
- ensure that these measures are fully understood in light of how the Company evaluates its operating results and leverage;
- properly define the metrics used and confirm their calculation; and
- share these measures with all investors at the same time.

Investors should be aware that our method of calculating EBITDA may differ from methods used by other companies. We recognize that the usefulness of EBITDA has certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and expense may have material limitations;

Table of Contents

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss.

We compensate for the foregoing limitations by using EBITDA as a comparative tool, together with IAS/IFRS measurements, to assist in the evaluation of our operating performance and leverage.

The following table provides a reconciliation of EBITDA to net income, which is the most directly comparable IAS/IFRS financial measure, as well as the calculation of EBITDA margin on net sales:

Free Cash Flow

Free cash flow represents net income before noncontrolling interests, taxes, other income/expense, depreciation and amortization (i.e. EBITDA) plus or minus the decrease/(increase) in working capital over the prior period, less capital expenditures, plus or minus interest income/(expense) and extraordinary items, minus taxes paid. We believe that free cash flow is useful to both management and investors in evaluating our operating performance compared with other companies in our industry. In particular, our calculation of free cash flow provides a clearer picture of our ability to generate net cash from operations, which is used for mandatory debt service requirements, to fund discretionary investments, pay dividends or pursue other strategic opportunities.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Table of Contents

Free cash flow is not a measure of performance under IAS/IFRS. We include it in this presentation in order to:

Improve transparency for investors;

Assist investors in their assessment of our operating performance and our ability to generate cash from operations in excess of our cash expenses;

Ensure that this measure is fully understood in light of how we evaluate our operating results;

Properly define the metrics used and confirm their calculation; and

Share this measure with all investors at the same time.

Investors should be aware that our method of calculation of free cash flow may differ from methods used by other companies. We recognize that the usefulness of free cash flow as an evaluative tool may have certain limitations, including:

The manner in which we calculate free cash flow may differ from that of other companies, which limits its usefulness as a comparative measure;

Free cash flow does not represent the total increase or decrease in the net debt balance for the period since it excludes, among other things, cash used for funding discretionary investments and to pursue strategic opportunities during the period and any impact of the exchange rate changes; and

Free cash flow can be subject to adjustment at our discretion if we take steps or adopt policies that increase or diminish our current liabilities and/or changes to working capital.

We compensate for the foregoing limitations by using free cash flow as one of several comparative tools, together with IAS/IFRS measurements, to assist in the evaluation of our operating performance.

The following table provides a reconciliation of free cash flow to EBITDA and the table above provides a reconciliation of EBITDA to net income, which is the most directly comparable IAS/IFRS financial measure:

Net debt to EBITDA ratio

Net debt means the sum of bank overdrafts, current portion of long-term debt and long-term debt, less cash. EBITDA represents net income before non-controlling interest, taxes, other income/expense, depreciation and amortization. The Company believes that EBITDA is useful to both management and investors in evaluating the Company's operating performance compared with that of other companies in its industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business. The ratio of net debt to EBITDA is a measure used by management to assess the Company's level of leverage, which affects our ability to refinance our debt as it matures and incur additional indebtedness to invest in new business opportunities. The ratio also allows management to assess the cost of existing debt since it affects the interest rates charged by the Company's lenders.

EBITDA and ratio of net debt to EBITDA are not measures of performance under International Financial Reporting Standards as issued by the International Accounting Standards Board (IAS/IFRS).

We include them in this presentation in order to:

improve transparency for investors;

assist investors in their assessment of the Company's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;

assist investors in their assessment of the Company's cost of debt;

ensure that these measures are fully understood in light of how the Company evaluates its operating results and leverage;

properly define the metrics used and confirm their calculation; and

share these measures with all investors at the same time.

EBITDA and ratio of net debt to EBITDA are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, these non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company.

The Company cautions that these measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that Luxottica Group's method of calculating EBITDA and the ratio of net debt to EBITDA may differ from methods used by other companies.

The Company recognizes that the usefulness of EBITDA and the ratio of net debt to EBITDA as evaluative tools may have certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate

profits. Therefore, any measure that excludes depreciation and expense may have material limitations;

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss; and

The ratio of net debt to EBITDA is net of cash and cash equivalents, restricted cash and short-term investments, thereby reducing our debt position.

Because we may not be able to use our cash to reduce our debt on a dollar-for-dollar basis, this measure may have material limitations. We compensate for the foregoing limitations by using EBITDA and the ratio of net debt to EBITDA as two of several comparative tools, together with IAS/IFRS measurements, to assist in the evaluation of our operating performance and leverage.

See the table below for a reconciliation of net debt to long-term debt, which is the most directly comparable IAS/IFRS financial measure, as well as the calculation of the ratio of net debt to EBITDA.

This Half Year Financial Report has been prepared in accordance with article 154-ter of the Legislative Decree No. 58 of February 24, 1998.

The financial statements included in the Half Year Financial Report (the "Half Year Financials") have been prepared in compliance with the International Financial Reporting Standards issued by the International Accounting Standards Board ("IASB") and endorsed by the European Union ("IAS/IFRS"), and in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting*.

The preparation of an interim report requires management to use estimates and assumptions that affect the reported amounts of revenue, costs, assets and liabilities, as well as disclosures relating to contingent assets and liabilities at the reporting date. Results published on the basis of such estimates and assumptions could vary from actual results that may be realized in the future.

These measurement processes and, in particular, those that are more complex, such as the calculation of impairment losses on non-current assets, are generally carried out only when the audited consolidated financial statements for the fiscal year are prepared, when all the necessary information is available, unless there are indicators requiring immediate impairment testing. Similarly, the actuarial calculations necessary to calculate certain employee benefit liabilities, the changes to most deferred tax assets and liabilities and the impact of share-based payments are normally carried out when the audited consolidated financial statements for the fiscal year are prepared.

Lastly, with reference to Consob resolution no. 15519 of July 27, 2006, which addresses the format of the financial statements, the Company has not included any specific supplements to the income statement, statement of financial position or statement of cash flows showing related party transactions, as these are immaterial. Please see Note 27 "Related Party Transactions" for additional details regarding transactions with related parties.

2. BASIS OF PREPARATION (Continued)

Certain prior year financial statement items have been reclassified in order to be comparable with those of the current year.

3. NEW ACCOUNTING STANDARDS

Beginning in 2010 the Group applied the following new accounting standards, amendments and interpretations, as revised by the IASB.

On April 16, 2009, the IASB issued a series of amendments to IAS/IFRS, which the relevant European Union ("EU") bodies endorsed on March 23, 2010. Such amendments apply from and after January 1, 2010 and include the following:

IFRS 2 Share-based Payment: this amendment clarifies that IFRS 2 does not apply to transactions in which a company acquires assets as part of (i) a business combination, as defined by IFRS 3 (revised), (ii) the contribution of a business unit to form a joint venture or (iii) the combination of businesses or business units in jointly-controlled entities.

IFRS 5 Non-current Assets Held for Sale and Discontinued Operations: this amendment clarifies that IFRS 5 and the other IAS/IFRS standards that make specific reference to non-current assets (or disposal groups) classified as held for sale or discontinued operations set forth all required disclosures for these types of assets or operations.

IFRS 8 Operating Segments: this amendment requires that an entity disclose the total amount of assets for each reporting segment only if such amount is regularly reported to the highest authority in its decision-making operation. This disclosure was previously required even if such condition was not met.

IAS 1 Presentation of Financial Statements: this amendment updates the previous definition of current liabilities under IAS 1. The previous definition required the classification of liabilities as current if they could be settled at any time through the issuance of equity instruments. Following the change, the option of converting a liability into an equity instrument is irrelevant for the purposes of its classification as current/non-current.

IAS 7 Statement of Cash Flows: this amendment clarifies that only those cash flows that lead to the creation of an asset can be classified as arising from investing activities in the statement of cash flows.

IAS 17 Leasing: with this change, the general conditions of IAS 17, which allow for the classification of a lease as *finance* or *operating* regardless of whether ownership is acquired at the end of the lease, are extended to land under lease as well. Previously, under IAS 17, land leases in which ownership was not acquired at the end of the lease were classified as operating leases. At the adoption date, all land under current leases that have not yet expired should be measured separately, with the retroactive recognition of a new lease accounted for as a finance lease, where applicable.

IAS 18 Revenue: this revision specifies the criteria to consider when determining whether, within a transaction that generates revenue, an entity is principal or agent. The identification

of an entity as principal or agent determines how revenue is recognized; if it acts as agent, revenue may be recognized solely from commissions.

IAS 36 Impairment of Assets: this amendment requires that each unit or group of units to which goodwill is allocated for impairment testing purposes should not be larger than an operating segment determined in accordance with paragraph 5 of IFRS 8, before any combination permitted by the same standard.

IAS 38 Intangible Assets: IFRS 3 was revised in 2008, establishing that there is enough information to calculate the fair value of an intangible asset acquired as part of a business combination if it is separable or if it arose from contractual or legal rights. IAS 38 was therefore amended to reflect this revision to IFRS 3. The amendment also clarified the measurement method to be used for the fair value of intangible assets for which there is no active market. The amendment applies as of January 1, 2010.

IAS 39 Financial Instruments: Recognition and Measurement: this amendment restricts the scope exemption in paragraph 2(g) of IAS 39 to forward contracts between an acquiror and a vendor in a business combination to buy or sell an acquiree at a future date. The term of the forward contract should not exceed the period of time necessary to obtain all the authorizations to complete the transaction. The amendment clarifies that the exemption in paragraph 2(g) of IAS 39 does not apply to options which, if exercised, would result in the acquisition of control of an entity. The amendment also clarifies that loan repayment penalties, which offset the lender's loss of additional interest, should be treated in close relation to the loan contract and, accordingly, should not be recognized separately. Lastly, the amendment clarifies that gains or losses on hedging instruments should be reclassified from equity to profit or loss in the period in which the hedged cash flows affect profit or loss.

IFRIC 9 Reassessment of Embedded Derivatives: this amendment excludes derivatives from the scope of application of IFRIC 9 if they are embedded in contracts acquired through business combinations when jointly-controlled entities or joint ventures are formed.

On June 18, 2009, IASB issued another amendment to IFRS 2 *Share-based payment: group cash-settled share-based payment transactions*. The amendment clarifies that the company receiving goods or services as part of share-based payment plans should recognize such goods or services regardless of which group or company settles the transaction and regardless of whether the transaction is settled in cash or shares. The amendment also specifies that a company should measure goods or services received as part of a transaction settled in cash or shares from its perspective, which might not coincide with that of the group or with the relevant amount recognized in the consolidated financial statements. This amendment is applicable as of January 1, 2010 and was endorsed by the relevant EU bodies on March 23, 2010.

4. SEGMENT REPORTING

In accordance with IFRS 8 "Operating Segments" the segment reporting schedules are provided below, using a reporting format, which includes two market segments: the first relates to Manufacturing and Wholesale Distribution ("Wholesale"), while the second relates to Retail Distribution ("Retail").

In accordance with the amendment to IFRS 8, issued on April 16, 2009 and applicable as of January 1, 2010, the total amount of assets is no longer provided for each reporting segment, as this amount is not regularly reported to the highest authority in the Group's decision-making operation.

8. OTHER ASSETS (Continued)

Other financial assets is comprised of Euro 25.9 million of securities portfolio (as of December 31, 2009, such amounts were not invested and were held as cash and cash equivalents), Euro 15.3 million of receivables from foreign currency and commodity derivatives (Euro 1.0 million as of December 31, 2009) and other financial assets mainly recorded by the North American Retail division in the amount of Euro 17.3 million as of June 30, 2010 (Euro 17.2 million as of December 31, 2009).

The decrease in income tax assets is primarily due to the offset of Euro 13.4 million of tax receivables with tax payables in the North American operations.

The increase in prepaid expenses mainly relates to the deferral of costs for royalties paid at the beginning of the year and related to the remaining portion of the year of Euro 5.8 million and to currency fluctuation effects of Euro 5.4 million in the North American division.

The net book value of financial assets is approximately equal to their fair value and corresponds to the maximum exposure of the credit risk. The Group has no guarantees or other instruments aimed at diminishing credit risk.

Treasury reserve

Treasury reserve is equal to Euro 97.5 million (Euro 82.7 million as of December 31, 2009). The increase is due to the share buyback program approved at the stockholders' meeting on October 29, 2009 ("2009 Program"), intended to provide the Company with treasury shares to efficiently manage its share capital and to implement its Performance Shares Plan.

Under the 2009 Program the Company, in the first six months of 2010, purchased on the Milan Stock Exchange's Mercato Telematico Azionario (MTA) an aggregate amount of 1,471,712 ordinary shares at an average price of Euro 19.77 per share for an aggregate amount of Euro 29,096,776.

In parallel with the purchases of shares by the Company, Arnette Optic Illusions, Inc. Litigation

The Company and its subsidiaries are involved in the following legal and regulatory proceedings of which, unless already settled or otherwise concluded, the timing and outcomes are inherently uncertain, and such outcomes could have a material adverse effect on the Company's business, financial position or operating results.

Cole Consumer Class Action Lawsuit

In June 2006, Cole and its subsidiaries were sued by a consumer in a class action that alleged various statutory violations related to the operations of Pearle Vision, Inc. and Pearle VisionCare, Inc. in California. The plaintiff asserted various claims relating to the confidentiality of medical information and the operation of Pearle Vision stores in California, including violations of California laws governing relationships among opticians, optical retailers, manufacturers of frames and lenses, and optometrists, and other unlawful or unfair business practices. The parties entered into a settlement agreement, which provides for a store voucher at Pearle Vision or LensCrafters for each class member and the payment of attorneys' fees and costs. On December 19, 2008, the court granted final approval of the settlement and entered final judgment. The settlement became final on March 17, 2009.

Amounts paid to settle this litigation and related costs incurred for the six months ended June 30, 2010 and 2009 were not material.

Oakley Shareholder Lawsuit

On June 26, 2007, the Pipefitters Local No. 636 Defined Benefit Plan filed a class action complaint, on behalf of itself and all other shareholders of Oakley, Inc. ("Oakley"), against Oakley and its Board of Directors in California Superior Court, County of Orange. The complaint alleged, among other things, that the defendants violated their fiduciary duties to shareholders by approving Oakley's merger with Luxottica and claimed that the price per share fixed by the merger agreement was inadequate and unfair. The defendants filed demurrers to the complaint, which the Court granted without prejudice. On September 14, 2007, the plaintiff filed an amended complaint containing the same allegations as the initial complaint and adding purported claims for breach of the duty of candor. Because the Company believed the allegations were without merit, on October 9, 2007, the defendants filed a demurrer to the amended complaint. Rather than respond to that demurrer, the plaintiff admitted that its claims were moot and on January 4, 2008, filed a motion for attorneys' fees and expenses. The hearing for this motion took place on April 17, 2008. On May 29, 2008, the Court issued a ruling denying the plaintiff's motion for attorneys' fees and expenses in its entirety. The Court did not rule on the defendants' demurrer to the amended complaint. On July 11, 2008, the Court entered an order dismissing the action with prejudice and denying the plaintiff's motion for attorneys' fees and expenses. The plaintiff appealed the Court's May 29, 2008 ruling and the July 11, 2008 order. On January 11, 2010, the appellate court affirmed the trial court's decision in all respects. The plaintiff filed a petition with the California Supreme Court requesting review of the appellate court's decision. The Supreme Court denied the plaintiff's petition for review. Therefore, the appellate court's decision affirming the denial of the plaintiff's request for attorneys' fees and expenses is now final for all purposes.

26. COMMITMENTS AND RISKS (Continued)

Costs associated with this litigation incurred for the six months ended June 30, 2010 and 2009 were not material.

Fair Credit Reporting Act Litigation

In January 2007, a complaint was filed against Oakley and certain of its subsidiaries in the United States District Court for the Central District of California, alleging willful violations of the Fair and Accurate Credit Transactions Act related to the inclusion of credit card expiration dates on sales receipts. The plaintiff brought suit on behalf of a class of Oakley's customers. Oakley denied any liability, and later entered into a settlement arrangement with the plaintiff that resulted in a complete release in favor of the Oakley defendants, with no cash payment to the class members but rather an agreement by Oakley to issue vouchers for the purchase of products at Oakley retail stores during a limited period of time. The settlement also provided for the payment of attorneys' fees and claim administration costs by the Oakley defendants. An order approving this settlement was entered on November 24, 2008. The settlement became final on January 15, 2009.

Amounts paid to settle this litigation and related costs incurred for the six months ended June 30, 2010 and 2009 were not material.

Texas LensCrafters Class Action Lawsuit

In May 2008, two individual optometrists commenced an action against LensCrafters, Inc. and Luxottica Group S.p.A. in the United States District Court for the Eastern District of Texas, alleging violations of the Texas Optometry Act ("TOA") and the Texas Deceptive Trade Practices Act, and tortious interference with customer relations. The suit alleges that LensCrafters has attempted to control the optometrists' professional judgment and that certain terms of the optometrists' sub-lease agreements with LensCrafters violate the TOA. The suit seeks recovery of a civil penalty of up to U.S. \$1,000 for each day of a violation of the TOA, injunctive relief, punitive damages, and attorneys' fees and costs. In August 2008, plaintiffs filed a first amended complaint, adding claims for fraudulent inducement and breach of contract. In October 2008, plaintiffs filed a second amended complaint seeking to certify the case as a class action on behalf of all current and former LensCrafters' sub-lease optometrists. Luxottica Group S.p.A. filed a motion to dismiss for lack of personal jurisdiction in October 2008. The court did not address that motion. The case was transferred to the Western District of Texas, Austin Division, in January 2009, pursuant to the defendants' motion to transfer venue. On January 11, 2010, plaintiffs filed a motion requesting that the court permit the case to proceed as a class action on behalf of all optometrists who sublease from Lenscrafters in Texas.

On February 8, 2010, the parties reached an agreement to settle the litigation on confidential terms. On March 8, 2010, the court dismissed the case with prejudice. Amounts paid to settle this litigation were not material. Costs associated with the litigation for the six months ended June 30, 2010 and 2009 were not material.

The Group is a defendant in various other lawsuits arising in the ordinary course of business. The options vested on June 30, 2006, upon the achievement of certain financial targets. Accordingly, the holders of these options have been entitled to exercise them from such date until their expiration in 2014.
