ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Introduction

This Compensation Discussion and Analysis addresses the fiscal 2010 compensation for the principal executive officer, the principal financial officer, and the other three executive officers at our fiscal year-end who were the most highly compensated executive officers of Coherent. These executives are our "Named Executive Officers" ("NEO" or "NEOs") for fiscal 2010:

John R. Ambroseo, Ph.D., our president and chief executive officer;

Helene Simonet, our executive vice president and chief financial officer;

Mark S. Sobey, Ph.D., our executive vice president and general manager, specialty laser systems;

Bret M. DiMarco, our executive vice president, general counsel and corporate secretary; and

Luis Spinelli, our executive vice president and chief technology officer.

This Compensation Discussion and Analysis describes the material elements of our executive compensation program during fiscal 2010, as well as compensation decisions made by our Compensation & H.R. Committee (the "committee") during fiscal 2011 prior to this analysis. It also provides an overview of our executive compensation philosophy, principal compensation policies and practices. Finally, it details how the committee arrived at the specific compensation decisions for our NEOs in fiscal 2010 and the key factors considered in these determinations.

Compensation Overview

Compensation Philosophy. Our executive compensation programs are designed to provide strong alignment between executive pay and performance and to focus executives on making decisions that enhance our stockholder value in both the short and long term. Executives are compensated in a manner consistent with Coherent's strategy, competitive practices, stockholder interest alignment, and evolving compensation governance standards. The committee positions the midpoint of our target compensation ranges near the 50th percentile of our peers, with actual compensation falling above or

Edgar Filing: COHERENT INC - Form 10-K/A

below depending upon the Company's financial performance. Our executive compensation program is designed to foster practices that will enable us to attract, retain, and motivate our executives to:

Ensure that the executive team has clear goals and accountability with respect to our financial performance;

Provide market levels of pay for meeting target performance expectations, with above market pay for performance above target and below market pay for performance below target; and

Promote our culture of integrity by properly rewarding appropriate risk taking, while not promoting excessive risk taking.

Elements of Executive Compensation. During fiscal 2010, the compensation of our NEOs, primarily consisted of base salary, an annual cash incentive award opportunity, and long-term equity incentive awards. For fiscal 2010, on average, 73% of our NEO's target compensation was delivered in the form of variable annual cash incentives or long-term equity incentives.

The average target pay mix for our named executive officers during fiscal 2010 can be illustrated as follows:

Average NEO Target FY 10 Pay Mix

Note: The annual cash incentive amounts represent target awards based on base salary and target bonuses in effect during Fiscal Year 2010. The Long Term Incentives include Stock Options (based on the dollar amount recognized for financial statement reporting purposes for fiscal 2010 in accordance with ASC 718) and Restricted Stock Units (using the grant date face value). This chart does not include other benefits, such as perquisites.

Compensation Governance. "Pay for performance" is at the core of Coherent's executive compensation approach. This is accomplished primarily by having a majority of the NEOs' potential compensation being "at risk" through a combination of a fiscal year variable cash bonus program and performance metrics in equity grants. In addition to this core philosophy the committee monitors and considers evolving governance approaches and standards in executive compensation. As more fully discussed below, recent examples of how this philosophy is applied and changes made pursuant to compensation best practices, include:

The elimination of the chief executive officer's 280G "tax gross-up" provision in the change of control severance plan in fiscal 2011;

The elimination and phasing-out of all perquisites and Company deferred compensation contributions for executive officers beginning in calendar 2011;

In fiscal 2009 the NEOs received less than \$5,000 in total bonus pay-out, as neither the committee nor management recommended any modifications to the previously established performance metrics;

Despite the Company meeting the adjusted EBITDA percentage performance goals for pay-out under the performance-based RSU grants, the Company did not meet the record revenue threshold set by the committee. Therefore, no performance-based RSUs vested at the measurement date in the first quarter of fiscal 2011;

Named executive officers did not receive salary increases for fiscal 2009 or 2010;

Maintained the same target bonus percentage for each NEO in both fiscal 2010 and fiscal 2011;

In fiscal 2009, the Company adopted a claw-back policy for our chief executive officer and chief financial officer in certain circumstances; and

Aside from the change of control severance plan, our executive officers do not have employment or severance agreements.

Certain Fiscal 2010 Operating Results. Coherent had strong operating performance in fiscal 2010 as compared to fiscal 2009, including net sales growth of 38.8%, or \$169 million, with a corresponding net income growth of over \$70 million. Accordingly, in fiscal 2010, the compensation for our NEOs increased as compared to fiscal 2009, largely due to the significantly improved financial results resulting in the maximum payout under the Company's fiscal 2010 variable cash incentive plan.

Compensation process

Role and Authority of Our Compensation and H.R. Committee

The committee held six (6) meetings in fiscal 2010. Following our annual meeting in April, 2010, the committee consisted of Messrs. Vij (Chair), Krause and Tomlinson and Dr. Rogerson.

The committee oversees our executive compensation philosophy and administers our executive compensation program. In particular, the committee reviews the corporate goals and objectives and approves the compensation for our Named Executive Officers. The committee has the sole authority delegated to it by the Board to make equity grants to our Named Executive Officers.

The committee has adopted a charter, a copy of which may be found on our website at "www.coherent.com" "Company" "Corporate Governance." The committee targets a review of its charter annually.

The committee may meet with or without management present, at its discretion. At most of its meetings, the committee conducts an executive session without management present.

Role of Management

The Compensation and H.R. Committee regularly meets with Dr. Ambroseo, our chief executive officer, to obtain recommendations with respect to the compensation programs, practices and packages for our Named Executive Officers other than Dr. Ambroseo. Additionally, Ms. Simonet, our executive vice president and chief financial officer, and Mr. DiMarco, our executive vice president and general counsel are regularly invited to meetings of the committee or otherwise asked to assist the committee. Additionally, during fiscal 2010, members of our human resources group regularly attended the committee's meetings. The assistance of these individuals includes providing financial information and analysis for the committee and its compensation consultant, taking minutes of the meeting or providing legal advice, developing compensation proposals for consideration, and providing insights regarding our employees (executive and otherwise) and the business context for the committee's decisions. Named Executive Officers will attend portions of committee meetings when requested, but leave the meetings when matters potentially affecting them are discussed. At the invitation of the committee, outside legal counsel frequently attends committee meetings. The committee makes decisions regarding Dr. Ambroseo's compensation without him present.

Role of Compensation Consultants

In fiscal 2010, the Compensation and H.R. Committee engaged Farient Advisors ("Farient") as its independent compensation consultants. Farient was retained to:

Review and analyze our executive compensation program;

Make recommendations for fiscal 2010 compensation; and

Review the Company's change of control severance plan.

Additionally in fiscal 2010, the Board of Directors retained a separate independent compensation consultant, Compensia, Inc., to review Board-related compensation matters. After reviewing prevailing governance practices and interviewing several compensation consultants, during the fourth quarter of fiscal 2010 the committee determined to consolidate all of the independent compensation consultant work with Compensia. Farient completed its work for the committee in the fourth quarter of fiscal 2010. In fiscal 2011, the committee worked with Compensia.

The independent compensation consultant serves at the discretion of the committee and is not permitted to do other work for the Company unless expressly authorized by the committee. Since their retention, neither Farient nor Compensia has performed any work for the Company other than its work with the committee or for the Board. The committee is focused on maintaining the independence of its compensation consultant and, accordingly, does not anticipate having its consultant perform any other work for the Company in addition to its direct work for the committee or the Board.

We also participate in and maintain a subscription to the Radford Global Technology Survey. This survey provides benchmark data and compensation practices reports to assist us with regards to employee compensation generally. Such data includes executive compensation data which is presented to the committee at its request.

Pay Positioning Strategy and Benchmarking of Compensation

We have striven to position the midpoint of our target compensation ranges near the 50th percentile of our peers, resulting in targeted total compensation that is competitive within our labor market for performance that meets the objectives established by the committee. A Named Executive Officer's actual salary, cash incentive compensation opportunity and equity compensation may fall below or above the target position based on the individual's experience, seniority, skills, knowledge, performance and contributions. These factors are weighed individually by the committee in its judgment, and no one factor neither takes precedence over others nor is any formula used in making these decisions. The chief executive officer's review of the performance of the other Named Executive Officers is considered by the committee in making individual pay decisions. With respect to the chief executive officer, the committee additionally considered the performance of Coherent as a whole and the views of the Board of Directors regarding the chief executive officer's performance. Actual realized pay is higher or lower than the targeted amounts for each individual based primarily on the Company's performance.

In analyzing our executive compensation program relative to this target market positioning, the committee reviews information provided by its independent compensation consultant, which includes an analysis of data from peer companies' proxy filings with respect to similarly situated individuals at the peer companies and from compensation survey sources, including a broad cross-section of technology companies of similar size to Coherent from the Radford Global Technology Survey.

For pay decisions made in fiscal 2010, Farient recommended that the committee approve modifications to the group of peer companies for conducting compensation analyses from proxies to better reflect our size, strategy and business. Accordingly, the committee removed Axcelis Technologies, Inc. and GSI Group, Inc. and added Finisar Corp., Infinera Corp., Opnext, Inc., Varian

Semiconductor and Veeco Instruments to the peer group for fiscal 2010. The committee also was mindful and took into consideration Institutional Shareholder Services' practices with regards to its formulation and use of peer groups and the relative size of peers, although the peer group selected is not confined to the Global Industrial Classification System (GICS) code for Coherent. For fiscal 2011, no changes were made to the group of peer companies. The peer group for fiscal 2010 comprised the following companies:

Altera Corp.	Integrated Device Tech.	PMC-Sierra, Inc.
Cymer Inc.	JDS Uniphase	Trimble Navigation Limited
FEI Company	Linear Technology	Varian Semiconductor
Finisar Corp.	Newport Corporation	Veeco Instruments
FLIR Systems, Inc.	Opnext, Inc.	
Infinera Corp.	Plantronics, Inc.	

Several factors are considered in selecting the peer group, the most important of which are:

Industry (primarily companies in the Electronic Equipment and Semiconductor sub-industry classifications defined by the Global Industry Classification Standard (GICS) system);

Revenue level (as a proxy for complexity) (primarily companies with between \$300 million and \$1.5 billion in revenues);

Geographic location (U.S. technology markets); and

Emphasizing companies with a significant R&D component, a focus on manufacturing and seeking a balance between semiconductors and other equipment manufacturers.

The committee annually reviews the composition of the peer group to ensure it is the most relevant set of companies to use for comparison purposes.

Components of Compensation

The principal components of our executive officer compensation and employment arrangements during fiscal 2010 included:

Base salary;

Variable cash incentive payments;

Equity awards; and

Other benefits.

These components were selected because the committee believes that a combination of salary, incentive pay and benefits is necessary to help us attract and retain the executive talent on which Coherent's success depends. The variable cash and equity components are structured to allow the committee to reward performance throughout the fiscal year and to provide an incentive for executives to appropriately balance their focus on short-term and long-term strategic goals.

Base Salary

Base salary is the foundation to providing an appropriate total direct compensation package. We use base salary to fairly and competitively compensate our executives for the jobs we ask them to perform. This is the most stable component of our executive compensation program, as this amount is not at risk. The committee reviewed information provided by its independent compensation consultant with respect to similarly

situated individuals at the peer companies to assist it in determining the base

salary for each Named Executive Officer, depending upon the particular executive's experience and historical performance.

During the first quarter of fiscal 2010, upon management's recommendation, the committee determined to maintain the base salaries of the NEOs at their fiscal 2009 levels.

Effective beginning with the second quarter of fiscal 2011, based on data provided by Compensia, the committee increased the base salaries of Drs. Ambroseo and Sobey and Mr. Spinelli as a market adjustment to bring them in line with peer data for their positions. Additionally, all Named Executive Officers received a one-time salary increase of \$35,000 to help offset the phased-out elimination of perquisites. These increases brought certain of the Named Executive Officers above the 50th percentile in the short-term, which the committee determined was consistent with the phased-out elimination of the perquisites coupled with the strong financial performance by the Company in fiscal 2010.

The following table summarizes the base salary adjustments for fiscal 2010 and 2011.

Named Executive Officer	Salary Increase for Fiscal 2010	Base Salary for Fiscal 2010	Salary Increase effective Second Quarter Fiscal 2011(1)	Base Salary effective Second Quarter Fiscal 2011
John Ambroseo	\$ 0	\$ 580,000	\$ 45,000	\$ 625,000

Variable Cash Incentive Compensation

To focus each executive officer on the importance of the financial performance of Coherent, a substantial portion of each individual's potential short-term compensation is in the form of variable incentive pay tied to committee-established goals. In fiscal 2010, Coherent maintained one incentive cash program under which executive officers were eligible to receive bonuses, the 2010 Variable Compensation Plan ("2010 VCP").

2010 VCP

The 2010 VCP was designed to promote the growth and profitability of Coherent. It provided incentive compensation opportunity in line with targeted market rates to our Named Executive Officers. Under the 2010 VCP, participants were eligible to receive bi-annual bonuses (with measurement periods for the first half and the second half of the 2010 fiscal year). In setting the performance goals, the Compensation and H.R. Committee assessed the anticipated difficulty and importance to the success of Coherent of achieving the performance goals.

The actual awards (if any) payable for each semi-annual period varied depending on the extent to which actual performance met, exceeded or fell short of the goals approved by the committee. The 2010 VCP goals were tied to the Company achieving varying levels of adjusted EBITDA as a percentage of sales ("adjusted EBITDA %"), with a payout modifier tied to the level of the adjusted EBITDA % for each measurement period. Adjusted EBITDA was defined as earnings before interest, taxes, depreciation, amortization and certain other non-operating income and expense items and other items, such as the fiscal impact of stock option expensing under Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or ASC 718, stock option-related litigation costs and settlement related thereto, 2010 VCP earned, impairment or restructuring charges, and the impact of significant acquisitions.

Due to the continuing worldwide economic downturn, the committee provided for a lower adjusted EBITDA % target in the first half of the fiscal year, with a payout cap of 100%. In order to incentivize management to drive improvement in adjusted EBITDA % over the course of the year, the committee approved a meaningful step up during the second half of the year and an increased payout cap of 200%. For the first half of fiscal 2010 no payout under the 2010 VCP would occur until the Company was profitable on a pro forma pre-tax basis, with a minimum revenue threshold. For the second half of fiscal 2010, the minimum threshold of achievement for any payment to be made required an adjusted EBITDA % greater than 12.5% in the second half of the year, with a minimum revenue threshold. Due to the Company's significantly improved operating performance, the payout cap was reached for both periods.

The committee, in consultation with its compensation consultant, chose these operating results so that the executives were incentivized to deliver the type of sustainable operations that benefits our stockholders. Given that only a modest payout was earned under the 2009 variable compensation plan, the committee believed that the goals were reasonably difficult to achieve in fiscal 2009. Accordingly, when setting the performance goals for the 2010 VCP, the committee again established reasonably difficult achievement goals. The Company's financial performance during fiscal 2010 resulted in a number of all-time financial records for Coherent and, accordingly, the payout under the 2010 VCP was demonstrably higher than in the prior fiscal year.

The tables below describes for each Named Executive Officer under the 2010 Variable Compensation Plan (i) the target percentage of base salary, (ii) the potential award range as a percentage of base salary, and (iii) the actual award earned for the measurement period in fiscal 2010.

Variable Compensation Plan 2011 Performance Metrics

In the first quarter of fiscal 2011, the Committee established performance metrics for the 2011 Variable Compensation Plan (the "2011 VCP"). These performance metrics are based upon achieving semi-annual (each six month period of the fiscal year) pro forma EBITDA dollar targets, subject to achieving certain bi-annual revenue thresholds. For purposes of the 2011 VCP, "pro forma EBITDA" is defined as earnings before interest, taxes, depreciation, amortization, equity compensation expenses, major restructuring charges, the impact of mergers and acquisitions and certain other non-operating income and expense items.

The amount each participant may receive can vary between 0% and 300% of the targeted amount. If the Company fails to meet at least the minimum goal for adjusted EBITDA dollar achievement and the revenue threshold for a particular semi-annual period, the participant would not receive any bonus for that particular period. The adjusted EBITDA dollar and revenue achievement are calculated after the conclusion of each applicable semi-annual fiscal period. The Committee determined the target percentage of salary in the 2011 VCP for our NEOs, should remain the same as fiscal 2010: John Ambroseo: 100%; Helene Simonet: 70%; Mark Sobey: 60%; Bret DiMarco: 50%; and Luis Spinelli: 50%.

Equity Awards

We believe that equity awards provide a strong alignment between the interests of our executives and our stockholders. We seek to provide equity award opportunities that are consistent with our targeted peer group median, with the potential for increase for exceptional Company financial performance, consistent with the reasonable management of the Company's overall equity compensation expense and stockholder dilution. Finally, we believe that long-term equity awards are an essential tool in promoting the retention of our executives. Our long-term incentive program includes the grant of stock options, time-based restricted stock/units and/or performance-based restricted stock/units. These components provide a reward for past corporate and individual performance and as an incentive for future performance.

When making its compensation decisions, the committee reviews the compensation overview prepared by its independent compensation consultant which reflects potential realizable value under current short and long term compensation arrangements for each Named Executive Officer.

Fiscal 2010 Equity Grants

In fiscal 2010, the committee granted a combination of non-qualified stock options and time-based restricted stock units. To ensure that the grants provided retention and both short and long term incentives, the grants vest over three years through one-year annual cliff vesting.

The following table reflects the grants for the Named Executive Officers for the time-based restricted stock units and non-qualified stock option grants during fiscal 2010 (in shares):

Named Executive Officer	Time-Based RSU Grants	Non-Qualified Stock Option Grants
John Ambroseo	37,500	75,000
Helene Simonet	14,000	28,000
Mark Sobey	12,000	24,000
Bret DiMarco	10,500	21,000
Luis Spinelli	9,000	18,000

Fiscal 2011 Equity Grants

For fiscal 2011, the committee determined to base the equity program on a combination of time-based and performance-based restricted stock units. In particular, the committee determined to measure achievement for the performance grants against the Company's relative performance of its common stock versus that of the Russell 2000 Index. The committee believes that using the Russell 2000 Index (in which the Company is a member) as a representative of total stockholder return directly aligns executive compensation with stockholder interest. The committee determined that both the performance-based and time-based restricted stock unit grants provide a further retention tool in that the grants vest over three years with one-year annual cliff vesting and, for the performance-based grants, a measurement period for each of the next three years. At target achievement, all Named Executive Officers (other than the chief executive officer) will receive an equity distribution of 50% time-based and 50% performance-based equity award payouts and the chief executive officer will receive greater than half of his total equity award in performance-based equity awards.

In the event of a change of control of the Company, the performance-based grants will be measured, with respect to performance periods not yet completed, by the relative performance of the Company's common stock against the Russell 2000 Index through the date of the change of control and such performance-based shares would then convert to time-based vesting with a maximum of three one-year vesting cliffs from the grant date.

Equity Award Practices

Equity grants to our employees are driven by our annual review process. Grant guidelines are based on competitive market practices. Typically, an employee is granted an option or restricted stock unit upon beginning employment and may be eligible for periodic grants thereafter. The size of grants (and eligibility for the same) is influenced by the then-current guidelines for non-executive officer grants and the individual's performance or particular requirements at the time of hire. Employees, including the Named Executive Officers, are also eligible to participate in our Employee Stock Purchase Plan. Stock options are granted with an exercise price equal to the fair market value of the shares of the Company's common stock on the grant date (or, on the date of grant effectiveness of the grant in the case of grants made during closed window periods). The exercise price for our stock options is based on the last quoted price per share of the Company's common stock as reported on the NASDAQ Global Market on the grant date.

In fiscal 2010, the Compensation and H.R. Committee granted an aggregate of 681,250 shares subject to options and time-based restricted stock units, representing 2.76% of Coherent's outstanding common stock as of October 2, 2010 (excluding automatic grants to directors under the Director Option Plan). With the assistance of Fariant, the committee has reviewed this burn rate relative to peer practices and guidance from RiskMetrics and found that the total dilution was consistent with the median of peer practices and complied with RiskMetrics guidelines.

Stock Grant Process

The committee's process for granting equity awards is as follows:

The Compensation and H.R. Committee has the authority to make equity grants to both executive officers and other service providers;

The Compensation and H.R. Committee will make grants in open trading window periods with grants effective on the date of such meeting, or if they meet during a closed window period, the exercise price of the option grant will be the trading date effective 45 days thereafter (or the next trading date thereafter if the date falls on a non-trading day); and

The Compensation and H.R. Committee may not grant equity awards by written consent.

During fiscal 2010 equity grants were only made by the Compensation and H.R. Committee.

Other Benefits

Retirement Plans

Executive officers are eligible to participate in our 401(k) Retirement Plan on the same terms as all other U.S. employees, including a 4% Company matching contribution. Our 401(k) Retirement Plan is a tax-qualified plan and therefore is subject to certain Internal Revenue Code limitations on the dollar amounts of deferrals and Company contributions that can be made to plan accounts. These limitations apply to our more highly-compensated employees (including the Named Executive Officers).

We maintain a Deferred Compensation Plan for executive management personnel and members of the Board. The Deferred Compensation Plan permits eligible participants to defer receipt of compensation pursuant to the terms of the plan. The Deferred Compensation Plan permits participants to contribute, on a pre-tax basis, up to 75% of their base salary earnings, up to 100% of their bonus pay and commissions and up to 100% of directors' annual retainer earned in the upcoming plan year. Plan participants may invest deferrals in a variety of different deemed investment options. To preserve the tax-deferred status of deferred compensation plans, the IRS requires that the available investment alternatives be "deemed investments." Participants do not have an ownership interest in the funds they select; the funds are only used to measure the gains or losses that are attributed to the participant's deferral account over time.

For plan year 2010 for contributions which were in excess of the Internal Revenue Code limit to qualified 401(k) plans, the Company will make a non-qualified deferred compensation plan contribution on behalf of the Named Executive Officers. The calculation for this non-qualified plan contribution is 4% of eligible compensation (as defined under the Company's 401(k) plan) less the 401(k) plan match limit. In fiscal 2010 the Company made a contribution for the 2009 plan year at a 4% contribution rate. The Company will make a similar contribution for the 2010 plan year (which shall be contributed during calendar 2011). The Company contribution was eliminated for plan year 2011 and beyond.

The committee considers the Deferred Compensation Plan to be a reasonable and appropriate program because it promotes executive officer retention by offering a deferred compensation plan that is comparable to and competitive with what is offered by our peer group of companies.

Severance and Change of Control Arrangements

We have adopted the Change of Control Severance Plan (the "Change of Control Plan") which provides certain benefits in the event of a change in control of Coherent for certain executives, including each of our Named Executive Officers. Benefits are provided if there is a tender offer or merger resulting in Coherent being acquired by another entity and within two years thereafter the participant's employment is terminated without cause or is voluntarily terminated following a constructive termination. The committee believes the Change of Control Plan serves as an important retention tool in the event of a pending change of control transaction.

The Change of Control Plan was amended and restated in the first quarter of fiscal 2011. Among the amendments made to the plan in fiscal 2011 were: (i) the elimination of the gross-up payment to be made to the chief executive officer for any excise taxes resulting from the application of Section 280G of the Internal Revenue Code; and (ii) the addition of a monthly payment of \$2,750 for participants in lieu of receiving company-subsidized COBRA benefits, life insurance premiums and/or any other welfare benefits under the Plan (36 months for the chief executive officer and 24 months for the other Named Executive Officers). The Change of Control Plan was amended in fiscal 2010 for Internal Revenue Code Section 409A-related matters and other administrative matters.

The committee reviews the provisions of the Change of Control Plan at a minimum every two years at or immediately prior to the termination of the plan. The committee believes that reviewing the Change of Control Plan every two years allows for the right balance in providing certainty for the participants thereof and providing the committee with the opportunity to revise the plan consistent with corporate governance best practices, evolving peer group practices and regulatory changes.

The committee does not consider the potential payments and benefits under these arrangements when making compensation decisions for our NEOs. These arrangements serve specific purposes unrelated to the determination of the NEOs' total direct compensation for a specific year.

Executive perquisites and Other Personal Benefits

In the first quarter of fiscal 2011, the committee determined, upon recommendation from management and in consultation with Compensia, to eliminate and phase-out executive perquisites effective January 1, 2011. The use of Company-leased automobiles was phased-out due to the contractual cost of early termination of the leases. The Company leases of automobiles used by executives will terminate in April 2012 (Dr. Ambrose) and October 2011 (Ms. Simonet and Mr. DiMarco).

During fiscal 2010, the Company provided our executive officers with an automobile benefit and a capped medical reimbursement.

Automobile Benefit. During fiscal 2010, the Named Executive Officers were eligible to receive either (a) a monthly automobile allowance, or (b) a leased vehicle with up to an aggregate purchase price of up to: (i) \$95,000 for the chief executive officer and (ii) \$75,000 for other Named Executive Officers. For those individuals utilizing the automobile allowance alternative, the allowance amount was set annually utilizing a prescribed formula, which equaled \$1,500 per month in fiscal 2010. The leased automobile alternative is administered by a third party financing agency and the Company pays the monthly lease amount. Executive officers are either reimbursed for or provided gas, oil, maintenance and insurance for automobiles leased under this program. Participants in the automobile program incur annual imputed income on the personal use of any vehicles under the program, including fuel and miles, as determined using the Internal Revenue Code rules.

Medical Reimbursement. During fiscal 2010, each Named Executive Officer also received up to \$5,000 per calendar year of reimbursement for uninsured medical expenses with the Company also paying such executive's taxes on the amount of the benefit.

The committee determined, with advice from Fariant, that the use of a company-leased vehicle or a car allowance and a medical reimbursement benefit were reasonable in the context of the overall compensation levels of our Named Executive Officers, were consistent with a number of other peer companies, had been historical components of compensation for executive officers at the Company and aided in executive retention.

One-Time Payment for Equity Expiration

During the period from November 1, 2006 to December 31, 2007, the Company had imposed a company-wide blackout on the exercise of stock options because the Company was not current in its periodic reporting obligations due to its ongoing internal investigation into its historical stock option granting practices. Certain non-executive officer employees had option grants expire during such period pursuant to the terms of grant. Following such expiration, the Company paid such employees an amount to compensate them determined by the difference between \$34.21 (which was the highest sales price of the Company's common stock during the blackout period) and the exercise price of their expired stock options. In the first quarter of fiscal 2010, the committee approved the payment of the following amounts to certain of the Company's NEOs, which amounts were determined pursuant to the same formula described above for non-executive officer employees. Additionally, as a condition to payment each executive officer executed a general release with regards to the expired option grants.

Executive	Number of Expired Options	Amount Paid
John Ambroseo	150,000	\$ 237,000
Helene Simonet	5,000	\$ 8,550
Luis Spinelli	5,000	\$ 8,550

Tax and Accounting Considerations

The Company's compensation programs are affected by each of the following:

Accounting for Stock-Based Compensation The Company accounts for stock-based compensation in accordance with the requirements of ASC 718. The Company also takes into consideration ASC 718 and other generally accepted accounting principles in determining changes to policies and practices for its stock-based compensation programs.

Section 162(m) of the Internal Revenue Code This section limits the deductibility of compensation for our chief executive officer and our other most highly compensated Named Executive Officers (other than our chief financial officer) unless the compensation is less than \$1 million during any fiscal year or is "performance-based" under Section 162(m). Our 2001 Stock Plan and 2011 Equity Incentive Plan are designed so that option grants and certain performance-based full value awards thereunder are fully tax-deductible. Cash compensation and time-based full-value awards are generally not qualified as "performance-based" compensation under Section 162(m). We may from time to time pay compensation to our executive officers that may not be deductible when, for example, we believe that such compensation is appropriate and in the best interests of the stockholders after taking various factors into consideration, including business conditions and the performance of such executive officer.

Section 409A of the Internal Revenue Code Section 409A imposes additional significant taxes in the event that an executive officer, director or service provider received "deferred compensation" that does not satisfy the requirements of Section 409A. We believe that we have designed and operated any plans to appropriately comply with Section 409A.

Other Compensation Policies

To further align our executive compensation program with the interests of our stockholders, at the end of fiscal 2009, the special litigation committee of the Board approved a recoupment policy. The recoupment policy provides that, in the event that there is an accounting restatement and there is a finding by the Board that such restatement was due to the gross recklessness or intentional misconduct of the chief executive officer or chief financial officer and it caused material noncompliance with any financial reporting requirement, then the Company shall seek disgorgement of any portion of the bonus or other incentive or equity based compensation related to such accounting restatement received by such individual during the 12-month period following the original financial document.

Compensation Committee Interlocks and Insider Participation and Committee Independence

During fiscal 2010, the Compensation and H.R. Committee of the Board consisted of Messrs. Vij (Chair), Krause and Tomlinson and Dr. Rogerson. John Hart, a former member of the Board, was a member of the committee until his retirement in the second quarter of fiscal 2010. None of the members of the Compensation and H.R. Committee has been or is an officer or employee of Coherent. None of our executive officers serves on the board of directors or compensation committee of a company that has an executive officer that serves on our Board or Compensation and H.R. Committee. No member of our Board is an executive officer of a company in which one of our executive officers serves as a member of the board of directors or compensation committee of that company.

Each of the members of the committee qualifies as (i) an "independent director" under the requirements of The NASDAQ Stock Market, (ii) a "non-employee director" under Rule 16b-3 of the Securities Exchange Act of 1934 (the "1934 Act"), (iii) an "outside director" under Section 162(m) of the Code and (iv) an "independent outside director" as that term is defined by Institutional Shareholder Services.

Compensation and H.R. Committee Report

The Compensation and H.R. Committee of the Board has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation and H.R. Committee recommended to the Board that the Compensation Discussion and Analysis be included in the Company's Annual Report on Form 10-K.

- (4) The amounts shown reflect the grant date fair value of stock options determined pursuant to FASB ASC Topic 718. These options vest annually over a three year period. Pursuant to FASB ASC Topic 718, the amounts shown here exclude the effect of estimated forfeitures related to service-based vesting conditions. The assumptions used in the valuation of these awards are set forth in Note 14, "Employee Stock Option and Benefit Plans" of the Financial Statements in our annual report on Form 10-K. These amounts do not correspond to the actual value, if any, that may ultimately be recognized by the Named Executive Officers.

- (6) For Dr. Ambroseo, Mr. Spinelli and Ms. Simonet "All Other Compensation" includes a payment for expired stock option grants that we previously disclosed on Form 8-K dated December 9, 2009. As noted in the Form 8-K, during November 1, 2006 to December 31, 2007, we imposed a company-wide blackout on the exercise of stock options because we were not current in our financial reporting obligations due to an internal historical stock option grant practices investigation. The Compensation and H.R. Committee approved payments to these individuals, which amounts were determined pursuant to the same formula used for non-executive officers.

- (1) The grants vest in three equal annual installments beginning on November 20, 2010.
- (2) The exercise prices indicated are the prices originally recorded by the Company at grant and have not been adjusted to reflect any new measurement date as a result of the Company's historical stock option review.

(3) Market Value is determined by multiplying the number of shares by \$40.20, the closing price of the Company's common stock on October 1, 2010, the last trading date of the fiscal year.

(4) The performance-based restricted stock units vesting determination date was November 14, 2010. The performance based restricted stock units were to vest in an amount which is 0-300% of the target, subject to the achievement of certain performance metrics. The amount reflected in the table is the maximum amount or 300% of the target, although none of the performance-based restricted stock units vested in November, 2010.

(1) Amounts in this column consist of salary and/or bonus earned during fiscal 2010, which is also reported in the Summary Compensation Table.

(2) Amounts reflect Company contribution payments in excess of the Internal Revenue Code Sections 401(a)(17) and 402(g) qualified plan limits made to the non-qualified "Deferred Compensation Plan" for plan year 2009 made in fiscal 2010. Amounts reported in this column are also reported in the "All Other Compensation" column of the Summary Compensation Table.

(3) The deferred compensation in a participant's account is fully vested and is credited with positive or negative investment results based on the plan investment options selected by the participant.

(4) Amounts represent account balances and earnings from the Supplementary Retirement Plan (SRP) which was suspended. Deferrals (both executive and Company) into this plan have been suspended. The Deferred Compensation Plan is the only non-qualified deferred compensation plan currently available for executive officers.

Potential Payments upon Termination or Change of Control

The following table shows the potential payments and benefits that we (or our successor) would be obligated to make or provide upon termination of employment of each our Named Executive Officers pursuant to the terms of the Change of Control Severance Plan. Other than this plan, there are no other employment agreements or other contractual obligations triggered upon a change of control. For purposes of this table, it is assumed that each Named Executive Officer's employment terminated at the close of business on October 1, 2010 (the last business day before the end of our fiscal year end on October 2, 2010). These payments are conditioned upon the execution of a form release of claims by the Named Executive Officer in favor of us. The amounts reported below do not include the nonqualified deferred compensation distributions that would be made to the Named Executive Officers following a termination of employment (for those amounts and descriptions, see the prior table). There can be no assurance that a triggering event would produce the same or similar results as those estimated below if such event occurs on any other date or at any other price, or if any other assumption used to estimate potential payments and benefits is not correct. Due to the number of factors that affect the nature and amount of any potential payments or benefits, any actual payments and benefits may be different. The Total Benefit per individual in the table below is does not add to the total of the individual components due to rounding within each component.

(1)

Equity Compensation Acceleration is the in-the-money value of unvested stock options, time-based restricted stock units (RSUs) and performance-based restricted stock units, in each case as of October 1, 2010 at the closing stock price on that date (\$40.20). The value

of accelerated stock options are thus calculated by

Edgar Filing: COHERENT INC - Form 10-K/A

multiplying the number of unvested shares subject to acceleration by the difference between the exercise price and the closing stock price on October 1, 2010; the value of accelerated restricted stock is calculated by multiplying the number of unvested shares subject to acceleration by the closing stock price on October 1, 2010. This assumes immediate release and vesting of the performance-based restricted stock units at the maximum, or 300% of target, achievement. As discussed above, none of these performance-based restricted stock units vested in November 2010 and the grants were canceled. The amounts reflected for Equity Compensation Acceleration do not reflect any applicable taxes, just gross proceeds. Since the table assumes a triggering event on October 1, 2010, only those stock options and restricted stock/RSU grants outstanding as of that date are included in the table.

- (2) Estimated reimbursement (by way of a tax "gross-up") for a 20% excise tax that would be due under Section 4999 of the Internal Revenue Code of 1986 on a portion of the amounts reported.
- (3) Health Insurance is an estimate of the cost of covering the individual and his or her covered dependents for three years, in the case of the chief executive officer and for two years for the other Named Executive Officers.

The change in control plan provides for the payment of specified compensation and benefits upon certain terminations of the employment of the participants following a change in control of the Company. The Board has evaluated the economic and social impact of an acquisition or other change of control on its key employees. The Board recognizes that the potential of such an acquisition or change of control can be a distraction to its key employees and can cause them to consider alternative employment opportunities. The Board has determined that it is in the best interests of Coherent and its stockholders to assure that Coherent will have the continued dedication and objectivity of its key employees. The Board believes that the change of control plan will enhance the ability of our key employees to assist the Board in objectively evaluating potential acquisitions or other changes of control.

Furthermore, the Board believes a change of control plan aids us in attracting and retaining the highly qualified, high performing individuals who are essential to our success. The plan's assurance of fair treatment will ensure that key employees will be able to maintain productivity, objectivity and focus during the period of significant uncertainty that is inherent in an acquisition or other change of control. A change in control of Coherent is defined under the change of control plan as an occurrence of a business combination, an acquisition by any person directly or indirectly of fifty percent or more of the combined voting power of our common stock or a change in the composition of the Board where less than fifty percent are incumbent directors.

The change of control plan provides that if within 24 months after a change in control the executive's employment is terminated other than by reason of his or her death, disability, retirement or for cause, or the executive officer terminates his or her employment for "good reason," the executive will receive a lump sum severance payment equal to 2.99 (in the case of Dr. Ambroseo) or 2.0 (in the case of Ms. Simonet, Dr. Sobey and Messrs. Spinelli and DiMarco) times the executive's annual base salary and annual bonus (assuming achievement of all performance requirements thereof). "Good reason" is defined in each Agreement as any of the following that occurs after a change in control of the Company: certain reductions in compensation; certain material changes in employee benefits and perquisites; a change in the site of employment; reduction in the executive's duties and responsibilities; the Company's failure to obtain the written assumption by its successor of the obligations set forth in the Agreement; attempted termination of employment on grounds insufficient to constitute a basis of termination for cause under the terms of the change of control plan; or the Company's breach of any of the provisions of the change of control plan. Under the terms of the plan, the executives will also have acceleration of all vesting conditions for equity grants and a payment in lieu of health care for the executive (and his or her covered family members) will be provided on the same terms for two years and, in the case of Dr. Ambroseo, three years.

Our 1998 Directors' Stock Plan was adopted by the Board in November, 1998 and was approved by the stockholders in March, 1999. The 1998 Directors' Stock Plan was amended in March, 2003, and was further amended in March, 2006, when the 1998 Directors' Stock Plan was renamed the 1998 Director Stock Plan (the "1998 Director Plan"). As of December 31, 2010, 150,000 shares were reserved for issuance thereunder. Under the terms of the 1998 Director Plan, the number of shares reserved for issuance thereunder is increased each year by the number of shares necessary to restore the total number of shares reserved to 150,000 shares.

During fiscal 2010, under the 1998 Director Plan an automatic and non-discretionary grant of a non-statutory stock option to purchase 24,000 shares of the Company's common stock to each non-employee director occurs on the date on which such person becomes a director. Thereafter, each non-employee director will be automatically granted a non-statutory stock option to purchase 6,000 shares of common stock on the date of and immediately following each Annual Meeting of Stockholders at which such non-employee director is reelected to serve on the Board, if, on such date, he or she has served on the Board for at least three months. Such plan provides that the exercise price must be equal to the fair market value of the common stock on the date of grant of the options. Additionally, the 1998 Director Plan provides for the automatic and non-discretionary grant of 2,000 RSUs to each non-employee director on the date on which such person becomes a director. Thereafter, each non-employee director will be automatically granted 2,000 RSUs on the date of and immediately following each Annual Meeting of Stockholders at which such non-employee director is reelected to serve on the Board, if, on such date, he or she has served on the Board for at least three months. Beginning with the next annual meeting of stockholders, the Board has determined to modify the automatic annual grants for non-employee directors to be 3,500 RSUs, which will vest on February 15th of the year following the grant and to eliminate the automatic annual stock option grant.

The 1998 Director Plan provides that with respect to any options held by a director who retires after at least eight years of service on the Board, such director will fully vest in and have the right to exercise his or her option as to both vested and unvested shares as of such date. The option will remain exercisable for the lesser of (i) two (2) years following the date of such director's retirement or (ii) the expiration of the option's original term.

As of October 2, 2010, 344,000 shares have been issued upon the exercise of options and the vesting of RSUs under the 1998 Director Plan.
