OUTSTANDING SHARES AND VOTING RIGHTS

The Board of Directors of the Company fixed March 28, 2014 as the record date ("*Record Date*") for the determination of stockholders entitled to notice of and to vote at the Meeting. On the Record Date there were 21,529,371 shares of common stock issued, outstanding and entitled to vote. The Company has no other voting securities outstanding. Each stockholder of record is entitled to one vote per share held on all matters submitted to a vote of stockholders, except that in electing directors each stockholder is entitled to cumulate his or her votes and give any one candidate an aggregate number of votes equal to the number of directors to be elected (5), multiplied by the number of his or her shares, or to distribute such aggregate number of votes among as many candidates as he or she chooses. For a stockholder to exercise cumulative voting rights, the stockholder must give notice of his or her intention to cumulatively vote prior to the Meeting or at the Meeting in person, prior to voting. If any stockholder has given such notice, all stockholders may cumulatively vote. The holders of proxies will have authority to cumulatively vote and allocate such votes in their discretion to one or more of the director nominees. The holders of the proxies solicited do not intend to cumulatively vote the shares they represent unless a stockholder indicates his or her intent to do so, in which instance they intend to cumulatively vote all the shares they hold by proxy in favor of the director nominees identified herein.

The holders of a majority of the outstanding shares of common stock on the Record Date entitled to vote at the Meeting in person or by proxy will constitute a quorum for the transaction of business at the Meeting. In accordance with the Company's Amended and Restated Bylaws, an affirmative vote of a majority of the votes cast is required for approval of all matters. Abstentions and broker non-votes are not included in the determination of the number of votes cast at the Meeting, but are counted for purposes of determining whether a quorum is present.

CORPORATE GOVERNANCE

In accordance with the Delaware General Corporation Law, the Company's Restated Certificate of Incorporation and Amended and Restated Bylaws, the Company's business, property and affairs are managed under the direction of the Board of Directors. Although the Company's non-employee directors are not involved in day-to-day operations, they are kept informed of the Company's business through written financial and operations reports and other documents provided to them from time to time by the officers of the Company, as well as by operating, financial and other reports presented by the officers of the Company in preparation for, and at meetings of, the Board of Directors and the three standing committees of the Board of Directors.

The Board of Directors is ultimately responsible for the Company's corporate governance and it is the responsibility of the Board of Directors to ensure that the Company complies with federal securities laws and regulations, including those promulgated under the Sarbanes-Oxley Act of 2002.

The Board of Directors has adopted a Code of Ethics for Chief Executive Officer, Chief Financial Officer and Other Executive Officers as well as a Code of Ethics for Directors (collectively the "*Codes*")

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

of Ethics"), which have been filed with the SEC and posted on the Company's website at www.usecology.com. Please note that none of the information on the Company's website is incorporated by reference in this Proxy Statement. There have been no waivers to the Codes of Ethics since their adoption. Any future waivers or changes would be disclosed on the Company's website.

Independence. The Company is required by NASDAQ listing standards to have a majority of independent directors. The Board of Directors has determined that five of the Company's present six directors are independent as defined by the applicable NASDAQ standards. These five directors are Victor J. Barnhart, Joe F. Colvin, Daniel Fox, Jeffrey S. Merrifield and Stephen A. Romano. The Board of Directors has determined that each of these directors is free of any relationship that would interfere with his exercise of independent judgment in carrying out the responsibilities of a director. Mr. Feeler is the Company's President and Chief Executive Officer and therefore not considered independent. Mr. Merrifield is not standing for re-election at the Meeting.

Meetings of the Board of Directors. During the year ended December 31, 2013, the Board of Directors held four regularly scheduled meetings. One special meeting of the Board was also held. Each of the directors attended at least 75% of the total meetings of the Board of Directors and the total number of meetings held by the committees on which he served. Director attendance at the Annual Meeting of Stockholders is encouraged but not required. All directors who stood for election at the 2013 Annual Meeting of Stockholders on May 30, 2013 attended that meeting. It is the policy of the Board to hold regular executive sessions where non-employee directors meet without management participation. The Board of Directors met in executive session without management present at all regularly scheduled Board of Directors meetings in fiscal year 2013.

Risk Oversight. The Board of Directors oversees an enterprise-wide approach to risk management, designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance stockholder value while managing risk. A fundamental part of risk management is not only understanding the risks a company faces and what steps management is taking to understand and manage those risks, but also evaluating what level of risk is appropriate for the Company. The involvement of the full Board of Directors in setting the Company's business strategy is a key part of its assessment of management's risk tolerance and determination of what constitutes an appropriate level of risk for the Company. The full Board of Directors participates in an annual enterprise risk management assessment, which is monitored and coordinated by the Company's Audit Committee. In this process, risk is assessed throughout the business, focusing on three primary areas of risk: financial risk, legal/compliance risk and operational/strategic risk.

While the Board of Directors has the ultimate oversight responsibility for the risk management process, committees of the Board also have responsibility for certain aspects of risk management. In particular, the Audit Committee focuses on financial risk, including internal controls. In setting compensation, the Compensation Committee strives to create incentives and equity ownership programs that will align the interests of management with stockholders and encourage an appropriate level of risk-taking behavior consistent with the Company's business strategy. The Company conducts an annual assessment of the risk management process which is monitored and coordinated by the Company's Audit Committee and which findings are reported to the Board.

Committees of the Board of Directors. The three standing committees of the Board of Directors are the Audit, Corporate Governance and Compensation Committees.

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Audit Committee The current members of the Audit Committee are Messrs. Barnhart, Fox and Merrifield. Mr. Fox is the chairman. The Audit Committee, which met five times in 2013, has duties that include the following:

Reviews the proposed plan and scope of the Company's annual audit, as well as the audit results, and reviews and approves the selection of and services provided by the Company's independent registered public accountant and its fees;

Meets with management to assure the adequacy of accounting principles, financial controls and policies;

Reviews transactions that may present a conflict of interest on the part of management or individual directors;

Meets at least quarterly to review financial results, discuss financial statements and SEC reporting and make recommendations to the Board;

Oversees enterprise-wide approach to risk management;

Monitors dividend policy and confirms that cash flows are sufficient to support dividend payments prior to declaration; and

Reviews the independent registered public accountant's recommendations for internal controls, adequacy of staff and management performance concerning audit and financial controls.

The Board of Directors has determined that each of Messrs. Barnhart, Fox and Merrifield meet the independence requirements for Audit Committee service set forth in the applicable rules under the Securities Exchange Act of 1934, as amended (the "*Exchange Act*"), and that Mr. Fox qualifies as an "audit committee financial expert" as defined in Item 407 of Regulation S-K. Effective as of the Annual Meeting date, an independent director will be appointed to replace Mr. Merrifield as a member of the Audit Committee. The written charter for the Audit Committee is available on the Company's website at www.usecology.com.

Corporate Governance Committee The current members of the Corporate Governance Committee are Messrs. Barnhart, Fox and Romano. Mr. Barnhart is the chairman. The Corporate Governance Committee, which met two times in 2013, fulfills the requirement of a nominating committee comprised solely of independent directors as required by the applicable NASDAQ listing standards. The Corporate Governance Committee is responsible for identifying and recommending qualified and experienced individuals to fill vacancies and potential new director seats if the Board is expanded. The Corporate Governance Committee charter is available on the Company's website at www.usecology.com. On April 2, 2014, the Corporate Governance Committee recommended and the Board of Directors discussed and approved the five director nominees standing for election at the Annual Meeting, four of whom the Board of Directors has determined are independent as defined by the applicable NASDAQ standards.

The Corporate Governance Committee does not have a stated policy with regard to the consideration of diversity in identifying director nominees, but rather evaluates candidates based upon various factors, including, but not limited to:

Integrity;

Education and business experience;

Broad-based business acumen;

Understanding of the Company's business, industry and related regulatory environment; and

Expertise.

The Company believes that consideration of these and other factors leads to a Board consisting of individuals with viewpoints, professional experience, education, skill and other qualities that contribute to Board heterogeneity. The Corporate Governance Committee evaluated the performance of the Board as a whole, considering a number of key performance indicators. The Corporate Governance Committee concluded that the individuals nominated to stand for election at the Annual Meeting of Stockholders collectively offer a mix of skills, expertise and experience that is well suited to the Company's needs. The written charter for the Corporate Governance Committee is available on the Company's website at www.usecology.com.

Compensation Committee The current members of the Compensation Committee are Messrs. Colvin, Merrifield and Romano. Mr. Colvin is the chairman. The Board of Directors has determined that each of Messrs. Colvin, Merrifield and Romano meet the independence requirements for Compensation Committee service set forth by the applicable NASDAQ listing standards. The Compensation Committee, which met three times in 2013, makes recommendations to the Board concerning employee salaries and incentive compensation, administers and approves grants under the Second Amended and Restated 1992 Stock Option Plan, the Amended and Restated 2005 Non-Employee Director Compensation Plan, the 2006 Restricted Stock Plan and the 2008 Stock Option Incentive Plan, addresses executive compensation and contract matters, recommends director compensation and performs other Board-delegated functions. Effective as of the Annual Meeting date, an independent director will be appointed to replace Mr. Merrifield as a member of the Compensation Committee. The written charter for the Compensation Committee is available on the Company's website at www.usecology.com.

Board Leadership Structure. The Board has separated the positions of Chairman of the Board and Chief Executive Officer. Separating these positions allows the Chief Executive Officer to focus on operating and growing the Company, while allowing the Chairman of the Board to lead the Board and provide advice to management based on his industry and regulatory experience. While the Company's Amended and Restated Bylaws or Corporate Governance Guidelines do not require that the Chairman of the Board and Chief Executive Officer positions be filled by separate individuals, the Board believes that having separate individuals serve as Chief Executive Officer and Chairman of the Board is the appropriate leadership structure for the Company at this time and demonstrates the Company's continuing commitment to strong corporate governance. The Board of Directors recognizes that, depending on future circumstances, other leadership models may become more appropriate. Accordingly, the Board of Directors will continue to periodically review its leadership structure.

Lead Director. The Corporate Governance Committee Charter specifies that when the Chairman of the Board also serves as an employee of the Company, the Chairman of the Corporate Governance Committee shall serve as "Lead Director" and, among other things, serve as a liaison between the non-independent chairman and the independent directors; review and approve the schedule, agenda and materials for all meetings of the Board; chair executive sessions of the independent Board members at scheduled Board meetings without the non-independent chairman present; provide consultation and direct communication to major stockholders, if requested; and call special meetings of the independent Board members if needed. For 2013 there was no Lead Director as the Chairman of the Board was not an employee of the Company.

SUBMISSION OF STOCKHOLDER PROPOSALS AND DIRECTOR NOMINATIONS

In accordance with SEC rules and regulations, the Company must receive stockholder proposals submitted for inclusion in the Company's proxy materials and for consideration at the 2015 Annual Meeting of Stockholders *no later than December 10, 2014*. Any such proposals are requested to be submitted to Wayne R. Ipsen, Secretary, US Ecology, Inc., 251 E. Front St., Suite 400, Boise, Idaho 83702 and should comply with the SEC rules governing stockholder proposals submitted for inclusion in proxy materials.

Stockholders may also submit recommendations for nominees for director to Wayne R. Ipsen, Secretary, US Ecology, Inc., 251 E. Front St., Suite 400, Boise, Idaho 83702. Recommendations are requested *no later than December 10, 2014* for consideration by the Corporate Governance Committee for the 2015 Annual Meeting of Stockholders. In considering any nominee proposed by a stockholder, the Corporate Governance Committee will apply the same criteria it uses in evaluating all director candidates. Nominees should reflect suitable expertise, skills, attributes and personal and professional backgrounds for service as a director of the Company.

Other stockholder communications to the Board of Directors may be sent at any time to US Ecology, Inc., c/o Wayne R. Ipsen, Secretary, 251 E. Front St., Suite 400, Boise, Idaho 83702. Management intends to summarize and present all such communications to the Board of Directors.

ELECTION OF DIRECTORS

PROPOSAL NO. 1

At the Meeting, the five director nominees receiving the greatest number of votes cast will be elected, provided that each nominee receives a majority of the votes cast. Directors so elected will hold office until the next Annual Meeting of Stockholders or until their death, resignation or removal, in which case the Board of Directors may or may not appoint a successor. It is the intent of the persons named in the proxy, Jeffrey R. Feeler and Wayne R. Ipsen, to vote proxies that are not marked to the contrary for the director nominees named below. If any nominee is unable to serve, the named proxies may, in their discretion, vote for any or all other persons who may be nominated.

The Corporate Governance Committee recommended five directors to stand for election to the Board of Directors. All nominees have agreed to serve if elected. During 2013, the Company did not receive any nominee recommendations from stockholders.

**RATIFICATION OF APPOINTMENT OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

PROPOSAL NO. 2

The Audit Committee has selected Deloitte & Touche LLP ("*Deloitte*") as the Company's independent registered public accountant for the 2014 fiscal year. A Deloitte representative plans to be present at the Annual Meeting to answer questions and will have an opportunity to make a statement if he or she desires to do so.

While stockholder ratification of Deloitte as the Company's independent registered public accountant is not required by the Company's Restated Certificate of Incorporation, Amended and Restated Bylaws or otherwise, the Board is submitting its selection of Deloitte for ratification as a matter of good corporate practice. If the stockholders do not ratify the selection, the Board, in conjunction with its Audit Committee, will further evaluate whether to retain Deloitte. If the selection is ratified, the Board and the Audit Committee, in their discretion, may direct the appointment of a different independent accounting firm at any time if they determine that such a change would be in the best interests of the Company and its stockholders.

The affirmative vote of the holders of a majority of the votes cast is required to ratify the appointment of Deloitte. Abstentions and broker non-votes are counted towards a quorum, but are not counted for any purpose in determining whether this proposal has been ratified.

Audit, Audit-Related, Tax and Other Fees

The aggregate fees billed or expected to be billed for the audit of the Company's financial statements for the fiscal years ended December 31, 2013 and 2012 by the Company's principal accounting firm Deloitte were as follows:

	2013	2012
Audit Fees	\$ 350,000	\$ 340,000
Audit-Related Fees	68,962(1)	6,982
Tax Fees	60,793	33,503
All Other Fees		
Total Fees	\$ 479,755	\$ 380,485

(1) Amount primarily due to services provided in connection with the Company's S-3 and S-4 filings and common stock offering completed in December 2013.

Deloitte prepared an annual engagement letter that was submitted to the Audit Committee for approval for the 2013 audit. The Audit Committee approved all of the non-audit services provided by Deloitte in fiscal year 2013 in advance of the services being performed. The engagement letter created a contract between the Company and Deloitte that specified the responsibilities of each party. It was signed on behalf of the Company by the Chairman of the Audit Committee and the Chief Financial Officer. The Company paid Deloitte a fixed amount for the annual audit and each quarterly review and for other services agreed to in the engagement letter and subsequent amendments. The Audit Committee believes that Deloitte's provision of non-audit services has been compatible with maintaining the firm's independence.

Deloitte will prepare an annual engagement letter to be submitted to the Audit Committee for approval to perform the 2014 audit. This engagement letter will create a contract between the Company and Deloitte specifying the responsibilities of each party and will be signed on behalf of the Company by the Chairman of the Audit Committee and the Chief Financial Officer. The Company will pay Deloitte a fixed amount for the annual audit and each quarterly review and for any other services agreed to in the engagement letter or subsequent amendments. Any non-audit services will be approved in advance by the Audit Committee to ensure the firm's independence is maintained.

The Board of Directors unanimously recommends a vote FOR ratification of the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm.

ADVISORY VOTE ON EXECUTIVE COMPENSATION

PROPOSAL NO. 3

As required by Section 14 of the Exchange Act, the Company is providing its stockholders with the opportunity to cast an advisory vote on the compensation of its named executive officers, as disclosed pursuant to Item 402 of Regulation S-K in the Compensation Discussion and Analysis section and accompanying tables of this Proxy Statement. These individuals are referred to collectively in this Proxy Statement as the Company's "Named Executive Officers." The Board of Directors believes it is appropriate to seek the views of its stockholders on the design and effectiveness of the Company's executive compensation program.

The Company's goal for its executive compensation program is to attract and retain exceptional, highly motivated individuals as executive officers who will provide leadership for the Company's success in dynamic, highly competitive markets. The Company seeks to accomplish this goal in a way that is aligned with the long-term interests of the Company's stockholders. The Company believes that its executive compensation program achieves this goal with its emphasis on long-term equity awards and performance-based compensation and aligns the long-term interests of its Named Executive Officers with the long-term interests of its stockholders.

As an advisory vote, this proposal is not binding upon the Company. However, the Board of Directors values the opinions expressed by stockholders in their vote on this proposal and, to the extent that a significant percentage of votes are cast against the compensation of the Named Executive Officers, the Compensation Committee will evaluate potential changes for consideration by the full Board to address the concerns reflected in such votes.

Accordingly, the Company asks the stockholders to vote on the following resolution:

"RESOLVED, that the compensation paid to the Company's Named Executive Officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion is hereby APPROVED."

The Board of Directors unanimously recommends a vote FOR the resolution approving the compensation of the Company's Named Executive Officers.

AUDIT COMMITTEE REPORT

The information contained in this report shall not be deemed to be "soliciting material" or "filed" or incorporated by reference in future filings with the SEC or subject to the liabilities of Section 18 of the Exchange Act, except to the extent that the Company specifically incorporates it by reference into a document filed under the Securities Act of 1933, as amended, or the Exchange Act.

The Audit Committee has reviewed and discussed the Company's audited financial statements with management. The Audit Committee has also discussed with Deloitte, the Company's independent registered public accountant for fiscal year 2013, the matters required to be discussed by the Public Company Accounting Oversight Board (the "PCAOB") and the SEC. These include, among other items, the audit of the Company's financial statements. The Audit Committee has reviewed with the independent registered public accountant its judgment as to the quality, not just the acceptability, of the Company's accounting principles, as well as its opinion on the effectiveness of the Company's internal controls over financial reporting.

The Audit Committee has received written disclosures and the letter from Deloitte required by the PCAOB Ethics and Independence Rule 3526 relating to the registered public accountant's independence from the Company and its related entities and has discussed with Deloitte the registered public accountant's independence from the Company. The Audit Committee has considered whether the provision of services by the registered public accountant, other than audit services and review of Forms 10-Q, is compatible with maintaining the registered public accountant's independence.

In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the Company's earnings release and quarterly report on Form 10-Q for the quarters ended March 31, June 30, and September 30, 2013, and the fiscal year earnings release and audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. This included discussion of the quality, not just the acceptability, of the Company's accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

Based on the review of the Company's audited financial statements and discussion with management and the independent registered public accountant described above, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

In addition, the Audit Committee, in consultation with executive management, has selected Deloitte as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2014. The Board has recommended to the stockholders that they ratify and approve the selection of Deloitte as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2014.

While the Audit Committee has provided oversight, advice and direction regarding the Company's financial reporting process, management is responsible for establishing and maintaining the Company's internal controls, the preparation, presentation and integrity of financial statements and for the appropriateness of the accounting principles and reporting policies used by the Company. It is the responsibility of the independent registered public accountant, not the Audit Committee, to conduct the audit and opine on the conformity of the financial statements with accounting principles generally accepted in the United States, to opine on the effectiveness of the Company's internal control over financial reporting and to review the Company's unaudited interim financial statements. The Audit Committee's responsibility is to monitor and review these processes. It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures.

This report is respectfully submitted by the Audit Committee of the Board of Directors:

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis describes the Company's compensation program for the Named Executive Officers for fiscal year 2013. The Company's executive compensation program is performance-based and otherwise designed to ensure that the interests of executive officers are closely aligned with those of stockholders. The Board believes this program is effective in allowing the Company to attract and motivate highly qualified senior talent capable of delivering outstanding business performance. The following discussion presents the Company's executive compensation program and policies. The Compensation Committee has provided oversight on the design and administration of the Company's program and policies, participated in the preparation of the Compensation Discussion and Analysis and recommended to the Board that it be included in this Proxy Statement. The Company's stockholders overwhelmingly approved our executive compensation program at our last annual meeting, with 14,070,970 votes for approval, 268,495 votes against and 57,438 abstentions. Although this vote is non-binding, the Compensation Committee viewed this strong endorsement of our executive compensation decisions and policies as an additional factor supporting the Compensation Committee's conclusion that our existing approach to executive compensation has been successful for the Company.

The Company's Named Executive Officers for fiscal year 2013 are Jeffrey R. Feeler (President and Chief Executive Officer), Eric L. Gerratt (Executive Vice President, Chief Financial Officer and Treasurer), Steven D. Welling (Executive Vice President of Sales and Marketing), Simon G. Bell (Executive Vice President of Operations and Technology Development) and John M. Cooper (Vice President and Chief Information Officer).

Mr. Feeler was formerly the Company's Vice President, Chief Financial Officer, Treasurer and Secretary. He was appointed Acting President, Chief Operating Officer and Secretary on October 25, 2012 and was subsequently promoted to President and Chief Executive Officer effective May 30, 2013. Mr. Gerratt was formerly the Company's Vice President and Controller. He was appointed Vice President, Acting Chief Financial Officer, Chief Accounting Officer and Treasurer on October 25, 2012 and was subsequently promoted to Executive Vice President, Chief Financial Officer and Treasurer effective May 30, 2013. Mr. Welling was promoted from Senior Vice President of Sales and Marketing to Executive Vice President of Sales and Marketing and Mr. Bell was promoted from Vice President of Operations to Executive Vice President of Operations and Technology Development, each effective May 30, 2013.

Oversight of the Executive Compensation Program

The Compensation Committee, which is composed entirely of independent directors, administers the Company's executive compensation program. Committee membership is determined by the Board of Directors. The Compensation Committee has direct responsibility to review and recommend corporate goals and objectives relevant to the compensation of the Company's Chief Executive Officer, evaluate his performance in light of such goals and objectives, and make recommendations regarding his compensation based on this evaluation. The Compensation Committee also reviews the evaluation process and compensation structure for the Company's other officers, including the other Named Executive Officers, and makes recommendations regarding their compensation. The Compensation Committee submits all such recommendations to the Board for approval. The Compensation Committee also administers the Company's program for annual incentive cash payments as approved by the Board of Directors.

Objective of the Executive Compensation Program

The Company's long-term corporate objective is to create superior value for its stockholders. The objective of the executive compensation program is to attract, motivate, reward and retain highly

qualified executive officers with the ability to help the Company achieve this objective. The executive compensation program is designed to provide a foundation of fixed compensation and a significant portion of performance-based compensation to align the interests of the Named Executive Officers with those of the Company's stockholders.

Principles

The Company believes that in order to meet its goal of increasing stockholder value, compensation must be both reasonable and competitive with what the Named Executive Officers would otherwise obtain if employed elsewhere in a similar position with similar responsibilities. The Compensation Committee believes performance-based executive compensation should reflect value created for stockholders consistent with the Company's strategic goals. The following principles are among those applied by the Compensation Committee:

Executive compensation programs should support short and long-term strategic goals and objectives;

Executive compensation programs should reflect the Company's overall value and business growth and reward individuals for outstanding contributions; and

Short and long-term executive compensation are critical factors in attracting and retaining well-qualified executive officers.

The Compensation Committee seeks to apply best practices in developing and administering compensation and benefit programs and has taken steps to enhance its ability to effectively carry out its responsibilities and to ensure that the Company maintains strong links between pay and performance. Examples of actions the Compensation Committee has taken to accomplish this include:

Periodically rotating Compensation Committee members and the Committee Chairman;

Reviewing publicly available data on compensation for executive officers in peer group companies;

Establishing minimum stock ownership requirements for directors and the Chief Executive Officer and other senior executives;

Entering into employment agreements that are intended to better align the interests of Named Executive Officers and other key employees with stockholders; and

Establishing incentive programs for the Chief Executive Officer and other senior executives.

Role of Executive Officers and Consultants

While the Compensation Committee determines the Company's overall compensation philosophy and independently recommends compensation of the Chief Executive Officer to the full Board, it consults with the Chief Executive Officer and invites his recommendations with respect to both overall guidelines and specific compensation decisions for the other executive officers. As part of this process, the Chief Executive Officer gathers compensation data for public and sometimes private comparator companies. The Compensation Committee then evaluates this and other information and discusses it with the Chief Executive Officer before presenting recommendations to the Board of Directors. The Compensation Committee has the authority to retain independent compensation consultants to provide advice relating to market and compensation trends and to assist with data gathering and analysis. In 2012 the Compensation Committee engaged Pay Governance to assist with developing market data for use in determining the compensation for Mr. Feeler when he was appointed Acting President, Chief Operating Officer and Secretary effective October 25, 2012. A 2012 market analysis prepared by Pay Governance was also used, in addition to internally prepared analysis, by the Compensation Committee

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

in determining the compensation for Mr. Feeler when he was promoted to President and Chief Executive Officer and for Mr. Gerratt when he was promoted to Executive Vice President, Chief Accounting Officer and Treasurer, each effective May 30, 2013.

Relevance to Performance

The executive compensation program emphasizes performance measured by goals that align the interest of executives with those of the Company and its stockholders. For the Named Executive Officers to earn incentive payments, the Company must meet or exceed specified performance targets based on achievement of specified revenue, operating income, health and safety and environmental compliance targets, each determined by the Board of Directors to reflect meaningful creation of stockholder value. The incentive program for fiscal year 2013 is addressed in detail under the heading "Elements of Compensation Annual Short-Term Incentives" in this Proxy Statement. The Compensation Committee may also recommend that the Board grant equity-based compensation based on the Company's performance and the performance of executives and other employees considered for such grants. The Compensation Committee evaluates such grants based on performance considerations and financial impact to the Company, including the effect of dilution on earnings per share.

Competitive Considerations

The Company reviews relevant market and industry compensation practices, from time to time, in order to determine appropriate overall compensation for the Named Executive Officers. It does so to balance the need to compete for talent with the need to maintain a reasonable and responsible cost structure and to better align the Named Executive Officers' interests with stockholders' interests. Peer compensation data and performance metrics are often combined with historical compensation information for Named Executive Officers and provided to the Compensation Committee along with a recommendation for each Named Executive Officer's salary for the succeeding fiscal year. These recommendations are then discussed and acted upon by the Board of Directors.

In recommending total compensation for Mr. Gerratt upon his promotion to Vice President, Acting Chief Financial Officer, Chief Accounting Officer and Treasurer effective October 25, 2012, the Compensation Committee reviewed base salary, short-term incentive compensation and equity-based compensation from a peer group consisting of fourteen (14) publicly traded companies, across many industries, which had an executive with responsibilities closely aligned with those of Mr. Gerratt (collectively, the "*CFO Performance Peer Group*"). The CFO Performance Peer Group consisted of:

American Dental Partners, Inc.	Interval Leisure Group, Inc.
DDI Sales Corp.	Mercury Computer Systems Inc.
Electro Scientific Industries, Inc.	Merge Healthcare Incorporated
Entercom Communications Corp.	Parkway Properties, Inc.
Fisher Communications, Inc.	Rait Financial Trust
Flotek Industries, Inc.	Republic Bancorp, Inc.
Global Geophysical Services, Inc.	Seabright Insurance Holdings, Inc.

In recommending total compensation for Mr. Feeler upon his promotion to President and Chief Executive Officer and for Mr. Gerratt upon his promotion to Executive Vice President, Chief Accounting Officer and Treasurer effective May 30, 2013, the Compensation Committee reviewed base salary, short-term incentive compensation and equity-based compensation of an industry-specific peer

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

group consisting of the following ten (10) publicly traded companies, collectively referred to as the "*Industry Peer Group*":

Casella Waste Systems, Inc.	Stericycle, Inc.
Clean Harbors, Inc.	TRC Companies, Inc.
EnergySolutions	Waste Connections, Inc.
Perma-Fix Environmental Services, Inc.	Waste Management, Inc.
Republic Services, Inc.	WCA Waste Corporation

While market capitalization and other financial metrics varied amongst these companies, the Compensation Committee believed the Industry Peer Group was comprised of companies that were most likely to be the Company's competitors for executive talent. Furthermore, the number of participants in the market in which the Company operates is very limited.

In addition to the Industry Peer Group data, and for purposes of determining the compensation for Messrs. Feeler and Gerratt effective May 30, 2013, the Compensation Committee utilized data drawn from a peer group consisting of twenty-two (22) publicly traded companies, across many industries, which met the following criteria when the analysis was undertaken: market capitalization between \$250 million and \$450 million, revenue from \$100 million to \$300 million and a return on assets in excess of 10% (collectively the "*Performance Peer Group*"). The Performance Peer Group consisted of:

Actuate Corporation	Fisher Communications, Inc.	Telenav, Inc.
Atrion Corp.	ICG Group, Inc.	TRC Companies, Inc.
Aveo Pharmaceuticals, Inc.	Keynote Systems, Inc.	United States Lime & Minerals, Inc.
CalAmp Corp.	Nanometrics Incorporated	USA Mobility, Inc.
Cambrex Corporation	RigNet, Inc.	Volterra Semiconductor Corporation
DepoMed, Inc.	Rudolph Technologies, Inc.	Young Innovations, Inc.
Douglas Dynamics, Inc.	SciClone Pharmaceuticals, Inc.	
Electro Rent Corporation	Stamps.com, Inc.	

The Company does not attempt to maintain a certain target percentile within the peer groups. Instead, total compensation for the Named Executive Officers is reviewed for benchmarking purposes to determine whether the Company is generally competitive in the market in which it operates, taking into consideration, among other things, the size of the Company, geographical location, experience of the Named Executive Officers and performance.

Elements of Compensation

Executive compensation is based on three components: base salary, annual short-term incentive opportunities and equity-based awards. The Compensation Committee regularly reviews each element of the compensation program to ensure consistency with the Company's objectives. The Compensation Committee believes that each compensation element complements the others and that together they serve to achieve the Company's compensation objectives. The Company does not require that a particular component comprise a set portion of the total compensation mix. The Company believes that a significant portion of the compensation should be performance-based, as compared to fixed, and that the performance-based (incentive) compensation should align an executive's interests with those of stockholders. While the Compensation Committee reviews total direct compensation (the sum of base salary, short-term incentive and equity awards) for the Named Executive Officers, it does not have a fixed objective with respect to such total direct compensation.

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Base Salary The Company provides competitive base salaries to attract and retain executive talent. The Compensation Committee believes a competitive base salary provides a degree of financial stability for the Named Executive Officers. Salaries may also form the basis for other compensation. For example, annual short-term incentive opportunities are calculated as a percentage of base salary. In recommending appropriate base salaries for Named Executive Officers, the Compensation Committee considers, among other factors, (i) the performance of the Company and the contributing roles of individual Named Executive Officers; (ii) each Named Executive Officer's experience and responsibilities; (iii) the performance of each Named Executive Officer; (iv) other forms of compensation; (v) internal pay alignment and equity; and (vi) executive compensation at peer group companies, taking into account the relative size of the companies. The Compensation Committee does not assign a particular weight to these factors.

Base salaries for the Named Executive Officers effective as of January 1, 2013 are set forth in the table below.

Name and Principal Position on January 1, 2013	Base Salary Effective on January 1, 2013 (\$)
Jeffrey R. Feeler <i>Acting President, Chief Operating Officer & Secretary</i>	255,000
Steven D. Welling <i>Senior Vice President of Sales & Marketing</i>	254,748
Simon G. Bell <i>Vice President of Operations</i>	207,000
Eric L. Gerratt <i>Vice President, Acting Chief Financial Officer, Chief Accounting Officer & Treasurer</i>	188,000
John M. Cooper <i>Vice President & Chief Information Officer</i>	162,000

Effective upon his appointment to Acting President, Chief Operating Officer and Secretary on October 25, 2012, Mr. Feeler's base salary was increased from \$196,854 to \$255,000, which was his base salary effective January 1, 2013. Similarly, effective upon his appointment to Vice President, Acting Chief Financial Officer, Chief Accounting Officer and Treasurer on October 25, 2012, Mr. Gerratt's base salary was increased from \$165,750 to \$188,000, which was his base salary effective January 1, 2013. Effective January 1, 2013, Mr. Bell's base salary was increased from \$198,660 to \$207,000 and Mr. Cooper's base salary was increased from \$156,520 to \$162,000.

Annual Short-Term Incentives Consistent with its commitment to performance-based compensation, the Company has established plans under which Named Executive Officers and other employees are eligible to earn annual incentive cash payments based on Company performance compared to established operating income and other targets (the "*Cash Incentive*"). This Cash Incentive is calculated as a percentage of annual base salary. These percentages are developed by the Compensation Committee according to each person's duties, level and range of responsibility and other compensation and are submitted to the Board of Directors for approval. Upon the availability of audited financial statements, Cash Incentives are determined and paid for the prior fiscal year.

Effective January 1, 2013 the Compensation Committee recommended and the Board of Directors approved the 2013 Management Incentive Plan ("*2013 MIP*") for all Named Executive Officers and certain other key employees. Under the 2013 MIP, each Named Executive Officer was eligible to receive an incentive payment for fiscal year 2013 based upon the achievement of three independent objectives: (1) financial; (2) health and safety; and (3) compliance (each a "*Plan Objective*"). The payout available for achievement of 100% of each Plan Objective was a percentage of the Named

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Executive Officer's annual base salary ("*Target Incentive*"). The Target Incentive was originally 70% of base salary for Mr. Feeler, 30% of base salary for Mr. Welling, 45% of base salary for Mr. Bell, 40% of base salary for Mr. Gerratt and 35% of base salary for Mr. Cooper. Mr. Feeler's Target Incentive was increased to 75% with his promotion to President and Chief Executive Officer on May 30, 2013. Mr. Gerratt's Target Incentive was increased to 45% with his promotion to Executive Vice President, Chief Financial Officer and Treasurer on May 30, 2013. The amount available for achievement of each Plan Objective was weighted as a percentage of a Named Executive Officer's Target Incentive and could be earned even if the threshold performance was not met for another Plan Objective.

The portion of a Named Executive Officer's Target Incentive based on financial performance was scalable beginning with every percentage point over 89% of the Company's Board approved consolidated operating income target ("*Base MIP Target*") and was weighted at 80% of the Named Executive Officer's Target Incentive ("*Finance Target Incentive*"). For every percentage point achievement over 89% of the Base MIP Target, up to and including 100% (rounded to the nearest percentage), such Named Executive Officer would earn 9.09% of his respective Finance Target Incentive. Upon 100% achievement of the Base MIP Target, 100% of the respective Finance Target Incentive would be awarded to the Named Executive Officer. The Named Executive Officers were eligible for an additional incentive payment in an amount calculated by multiplying their respective base salaries by an additional 1.25% for every 1% increase over the Base MIP Target and multiplying the resulting product by 80%. The additional incentive was capped at one times the participant's Target Incentive.

The metrics for the health and safety objective were weighted cumulatively at 10% of a participant's Target Incentive and individually at 2% each of a participant's Target Incentive. Each metric was independent and mutually exclusive of the other metrics so that a percentage of the Target Incentive related to health and safety could have been earned independent of achievement of any other health and safety metric. The health and safety metrics included maintenance of Occupational Safety and Health Administration ("*OSHA*") site designations (e.g. Volunteer Protection Program STAR designation and SHARP ("*Safety & Health Achievement Recognition Program*") recognition) and, in the case of the Company's Michigan facility, the filing of an application for OSHA designation; and achievement of Board-approved experience modification ratings in the U.S. and at the Stablex facility (insurance carriers' adjustment of the Company's annual premium based on previous loss experience), total case rates (number of safety incidents that meet OSHA recordable criteria), days away restricted time (safety incidents that result in the employee being placed on restricted duty or time away from work) and lost time incidents (number of safety incidents that result in an employee having to spend time away from work or be re-assigned to another job function to recover from a work related injury).

The metric for the compliance objective was subjective based on the Company's overall compliance program effectiveness and considered the avoidance of "notices of violation or enforcement" with monetary penalties among other compliance goals and objectives. The corresponding incentive was earned based on a determination by the Compensation Committee taking into consideration, among other things, the dollar amount of a monetary penalty paid (or accrued under Generally Accepted Accounting Principles ("*GAAP*") in the plan year, nature of the notices of violation or enforcement, regulatory basis for penalty and respective fact patterns. The metric was independent and mutually exclusive of achievement of any other plan objective.

For purposes of the 2013 MIP, as approved by and in the discretion of the Board of Directors, "consolidated operating income" excluded certain extraordinary expenses and was further adjusted to add back the 2013 MIP expense and associated payroll taxes.

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

A summary of the 2013 MIP targets is provided below:

Objective/Weight	Target
Financial (80%) Consolidated Operating Income	\$44,581,292
Health and Safety (10%)	
Experience Modification Rating ("EMR") (1%) U.S.	=<0.75
Experience Modification Rating ("EMR") (1%) Stablex	=<0.75
OSHA Designations (2%)	All Site Designations Retained; File VPP Application in Michigan
Total Case Rate ("TCR") (2%)	=<3.0
Days Away Restricted Time ("DART") (2%)	=<1.5
Lost Time Incident ("LTI") (2%)	=<2.2
Compliance (10%)	Subjective Based On Actual Results

The Company's 2013 consolidated operating income, adjusted by adding back certain extraordinary expenses and excluding the 2013 MIP expense and associated payroll taxes, was \$56,256,355, or 26% in excess of the Base MIP Target. The Company awarded the Named Executive Officers 100% of their respective Finance Target Incentive for achievement of 100% of the Base MIP Target. Further, because the Company exceeded the Base MIP Target, each of the Named Executive Officers was eligible for an additional Cash Incentive payment calculated by multiplying his base salary by 1.25% for every 1% increase over the Base MIP Target and multiplying the resulting product by 80%. The amount of the additional Cash Incentive payment was capped at one times the respective participant's Target Incentive amount.

The health and safety metric of filing the appropriate application in Michigan for OSHA designation was not achieved and as a result the Cash Incentive available for achievement of the health and safety objective was reduced from 10.0% to 9.5% of a participant's Target Incentive.

The Cash Incentive available to the Named Executive Officers for compliance was reduced from 10% to 8% of a participant's Target Incentive because of monetary penalties related to notices of enforcement, notices of violations or self-reported violations and other compliance matters.

A summary of the 2013 MIP actual results compared to applicable targets is provided below:

Objective/Weight	Target	Actual	Comment
Financial (80%)	\$44,581,292	\$56,256,355	Exceeded by 26%
Health and Safety (10%)			
EMR (1%) U.S.	=<.75	.69	Achieved
EMR (1%) Stablex	=<.75	.69	Achieved
OSHA Designation (2%)	All Site Designations Retained; File VPP Application in Michigan	Maintained Existing Site Designations; Did Not File VPP Application in Michigan	Partially Achieved
TCR (2%)	=<3.0	2.1	Achieved
DART (2%)	=<1.5	1.1	Achieved
LTI (2%)	=<2.2	.70	Achieved
Compliance (10%)	Compliance Program Effectiveness	Determined Program Goals	Substantially Achieved

The amount paid each Named Executive Officer under the 2013 MIP is set forth in the "Summary Compensation Table" of this Proxy Statement.

For Mr. Welling, non-equity incentive compensation also included payments under the 2013 Executive Sales Incentive Plan ("*2013 ESIP*"). This plan was designed to, among other things, leverage Mr. Welling's sales and leadership skills to improve the performance of individual sales team members and drive overall sales team performance and efficiency. Mr. Welling's incentive payment was based on achievement of 85% of the plan target and capped at the level where Company-wide treatment and disposal revenue was equal to 105% of the plan target. The incentive rates applied to actual treatment and disposal revenue ranged from 0.03% to 0.50%, depending on the level of revenue. The percentages were determined by considering the fixed and other variable component of Mr. Welling's compensation and the total compensation a person with similar expertise and experience could generally expect to be paid in the industry. The Company believes these percentages provided the appropriate incentive to Mr. Welling to achieve greater sales efficiency and growth while providing a fixed level of compensation commensurate with his talents and expertise. The amount paid to Mr. Welling under the 2013 ESIP is set forth in the "Summary Compensation Table" of this Proxy Statement.

Equity-Based Awards The Company may grant options to purchase common stock or shares of restricted stock to key employees, including the Named Executive Officers, as part of their total compensation package, pursuant to the Second Amended and Restated 1992 Stock Option Plan, the 2006 Restricted Stock Plan and the 2008 Stock Option Incentive Plan. These awards are consistent with Company compensation principles because they focus the attention of executives on long-term strategic goals through multi-year vesting formulas. This directly aligns the interest of Named Executive Officers with the Company's stockholders because the ultimate value of the stock options and restricted stock depends on the Company's future success to which each Named Executive Officer must contribute over a period of years in order to ultimately vest in or be entitled to exercise such grants. While the Company has the discretion to grant equity-based awards, some grants may be required by employment agreements entered into with the Named Executive Officers. See "Equity and Security Ownership Guidelines" below. The value of equity awards granted to Named Executive Officers in 2013 is set forth in the "Summary Compensation Table" and the "Outstanding Equity Awards at Fiscal Year-End" table of this Proxy Statement.

Discretionary Bonuses The Company may, from time to time, grant discretionary bonuses to Named Executive Officers in order to achieve defined objectives. The discretionary bonus amount paid each Named Executive Officer is set forth in the "Summary Compensation Table" of this Proxy Statement.

Other Compensation Employee benefits are intended to meet current and future health and financial security needs for the executives and their families. Medical, dental and life insurance benefits, short-term disability pay, long-term disability insurance, flexible spending accounts for medical expense reimbursements and a 401(k) retirement savings plan that includes a partial Company match are identical for all full-time regular employees, including officers.

Equity and Security Ownership Guidelines

Effective January 1, 2010, the Company entered into employment agreements with each of the Named Executive Officers ("*2010 Employment Agreements*"). Included in each agreement were equity ownership requirements to further align the interests of these officers with those of stockholders and to encourage a meaningful long-term contribution to the Company's future financial success. Each agreement required the Named Executive Officers to acquire and hold a minimum amount of the Company's common stock with a value calculated based on the greater of cost basis or market value and maintain such investment level in the Company throughout the contract term. Effective June 1, 2013, the Company entered into a new employment agreement with Mr. Feeler and, effective

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

October 31, 2013, the Company entered into new employment agreements with Messrs. Welling, Bell and Gerratt (collectively the "2013 Employment Agreements"). Each of the 2013 Employment Agreements requires the Named Executive Officers to acquire and hold a minimum amount of the Company's common stock with a value calculated based on the greater of cost basis, grant date value or market value and maintain such investment level in the Company throughout the contract term. Common stock ownership includes shares over which a Named Executive Officer has direct or indirect ownership or control, including restricted stock, but does not include unexercised stock options. While each Named Executive Officer was given thirty-six (36) months from the effective date of his 2013 Employment Agreement to satisfy the holding requirement, all Named Executive Officers were in compliance with their respective requirement as of December 31, 2013.

Each of the 2010 Employment Agreements provided for three annual equity awards of restricted stock vesting over twelve (12) months and options to purchase the Company's common stock vesting over thirty-six (36) months. In years 2010, 2011 and 2012 equity awards were automatically granted the third full trading day after the announcement of the Company's full year fiscal year earnings for the preceding year and priced based on the closing market price on the day of grant. Automatic equity grants were included in the 2010 Employment Agreements primarily as a retention mechanism during a time of management transition and concluded with the equity grant in February 2012. Equity grants in 2013 were, and future grants will be, determined based on a variety of measures including Company performance, individual performance, compensation surveys and other measures.

The following table summarizes equity holding requirements as set forth in the respective employment agreements and the amount of the equity awards granted in 2013.

Named Executive Officer	Minimum Equity Holding Requirement 12/31/11 (\$)	Minimum Equity Holding Requirement 12/31/12 (\$)	Minimum Equity Holding Requirement 12/31/13(1) (\$)	2013 Restricted Stock Award (\$)(2)	2013 Stock Option Award (\$)(2)
Jeffrey R. Feeler	86,000	129,000	975,000	375,000	375,000
Steven D. Welling	115,000	172,500	300,000	150,000	150,000
Simon G. Bell	86,000	129,000	300,000	165,000	165,000
Eric L. Gerratt	75,000	112,500	250,000	165,000	165,000
John M. Cooper	70,000	105,000	105,000	87,000	87,000

- (1) Represents, for Messrs. Feeler, Welling, Bell and Gerratt, the amount that must be achieved within thirty-six (36) months of the effective date of the 2013 Employment Agreements. In the case of Mr. Cooper, this figure represents that amount of equity holding required pursuant to his 2010 Employment Agreement, which terminated on December 31, 2013. If, during the term of employment, a Named Executive Officer fails to maintain his equity ownership requirement, he will have ninety (90) days within open trading windows to cure such failure by acquiring additional shares of common stock in the Company.
- (2) Amounts are based on the dollar value of shares granted as approved by the Board and as previously reported by the Company. Equity grants in 2013 were, and future grants will be, determined based on a variety of measures including Company performance, individual performance, compensation surveys and other measures. The 2013 grants of restricted stock and options vest annually over three and five years, respectively.

Severance Arrangements

In addition to establishing salaries, equity grants and ownership requirements, the employment agreements described above establish the rights of the Named Executive Officers in the event of a termination or change of control. Under these agreements each Named Executive Officer is entitled to certain payments and benefits in the event of a termination or change of control. The Compensation Committee believes these protections are an effective tool for attracting and retaining key employees and are reasonably similar to those of other companies. For more information on potential severance payments and change of control benefits, refer to the "Potential Payments Upon Termination or Change of Control" section of this Proxy Statement.

Risk Considerations

The Compensation Committee considers, in establishing and reviewing the executive compensation program, whether the program encourages unnecessary or excessive risk taking and has concluded that it does not. Base salaries are fixed in amount and thus do not encourage risk-taking. While the performance-based Cash Incentive awards focus on achievement of annual goals, the Company's incentive program is only one element of the Named Executive Officers' total compensation. The Compensation Committee believes that the Cash Incentive program appropriately balances risk and the desire to focus the Named Executive Officers on specific short-term goals important to the Company's success, and that it does not encourage unnecessary or excessive risk taking. Further, the Company grants equity awards that focus the attention of Named Executive Officers on long-term strategic goals through multi-year vesting formulas. Moreover, the Company's Named Executive Officers are required to own and hold a significant amount of stock in the Company. Such long-term equity awards and ownership interests further reduce the incentive for the Company's Named Executive Officers to engage in actions designed to achieve only short-term results. The Company has reviewed its compensation policies and practices for all employees, including the Named Executive Officers, and concluded that any risks arising from the policies and programs are not reasonably likely to have a material adverse effect on the Company.

Tax and Accounting Considerations

U.S. federal income tax generally limits the tax deductibility of compensation the Company pays to its President and Chief Executive Officer and certain other highly compensated executive officers to \$1.0 million in the year the compensation becomes taxable to such executive officers. There is an exception to the limit on deductibility for performance-based compensation that meets certain requirements. Although deductibility of compensation is preferred, tax deductibility is not a primary objective of the Company's executive compensation program. Rather, the Company seeks to maintain flexibility in its executive compensation program as to the objectives of the program described above and, accordingly, the Company may be limited in its ability to deduct amounts of compensation from time to time. Accounting rules require the Company to expense the cost of equity grants. Because of equity expensing and the impact of dilution on our stockholders, we carefully consider the type of equity awards that are granted and the number and value of the shares underlying such awards.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis contained in this Proxy Statement with the Company's management and, based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2013.

This report is respectfully submitted by the Compensation Committee of the Board of Directors:

- (1) The amounts listed represent the aggregate grant date fair value of stock awards during the year determined in accordance with FASB ASC Topic 718. The values are determined by multiplying the closing stock price on the date of grant by the number of stock awards. Additional information regarding the awards are disclosed in Note 16 of Notes to Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. The 2013 grants of restricted stock vest annually over three years.
- (2) The amounts listed represent the aggregate grant date fair value of awards during the year determined in accordance with FASB ASC Topic 718. The assumptions made in determining the grant date fair values of the options are disclosed in Note 16 of Notes to Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. The 2013 grants of options vest annually over five years.
- (3) Represents the amount awarded for performance under the 2011 MIP, 2012 MIP and 2013 MIP and, in the case of Mr. Welling, his executive sales incentive plans.
- (4) Includes contributions the Company made on behalf of each Named Executive Officer under the Company - sponsored 401(k) plan, dividends paid on unvested restricted stock and the dollar value of insurance premiums paid by the Company with respect to life insurance. Certain perquisites provided to certain of our Named Executive Officers are not required to be disclosed in the "Summary Compensation Table" because the amount of such benefits do not exceed the applicable disclosure thresholds.

GRANTS OF PLAN-BASED AWARDS

For additional details regarding the Company's incentive plans, please refer to the "Elements of Compensation Annual Short-Term Incentives" section of this Proxy Statement.
- (3) The Company established a maximum payout level under the 2013 MIP equal to two times the participant's Target Incentive and, under Mr. Welling's, 2013 ESIP, the maximum payout was established based on achievement of 105% of the treatment and disposal revenue target.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

The term of employment under the 2010 Employment Agreements originally expired on December 31, 2010, but such agreements provided for automatic one-year renewal periods unless written notice was provided by either party within sixty (60) days of expiration. Effective June 1, 2013, the Company entered into a 2013 Employment Agreement with Mr. Feeler. Effective October 31, 2013 the Company entered into a 2013 Employment Agreement with each of Messrs. Welling, Bell and Gerratt. Mr. Cooper's 2010 Employment Agreement remained in effect through December 31, 2013. Upon the effectiveness of the 2013 Employment Agreement for each Named Executive Officer, the 2010 Employment Agreement for each such Named Executive Officer ceased to be in force and effect.

Among other things, each of the 2010 and 2013 Employment Agreements established a minimum annual base salary and provided for participation in the Company's employee benefit plans, including any Cash Incentive plans. Each agreement also provided for equity ownership requirements to further align the interests of these officers with those of stockholders and to encourage a meaningful long-term contribution to the Company's future financial success.

The agreements required the Company or its successors to pay or provide certain compensation and benefits to its Named Executive Officers in the event of termination of employment or a change of control. The compensation and benefits payable to the Named Executive Officers in the event of a termination of employment in 2013 are set forth in their respective employment agreements. Upon a termination of employment during 2013, the Company would have been obligated to pay the Named Executive Officers:

1. Any unpaid base salary through the termination date and any accrued vacation;
2. Any unpaid Cash Incentive earned for any fiscal year ending on or prior to the termination date;
3. Any un-reimbursed business expenses incurred through the termination date; and
4. All other payments or other benefits the Named Executive Officer may be entitled to under the terms of any applicable compensation arrangement or benefit, equity or fringe benefit program or grant.

These payments are referred to below as the "Accrued Obligations."

Termination Compensation due a Named Executive Officer in the event of termination from the Company in 2013 was dependent upon the basis for separation and the agreement in effect on the termination date.

For Cause or Without Good Reason Under both the 2010 Employment Agreements and the 2013 Employment Agreements, if a Named Executive Officer's employment had been terminated during 2013 by the Company for cause or by a Named Executive Officer without good reason the Company would have paid such Named Executive Officer the Accrued Obligations only.

Without Cause or for Good Reason Had a Named Executive Officer's employment been terminated during 2013 by the Company without cause or by the Named Executive Officer for good reason, in addition to the Accrued Obligations, such Named Executive Officer would have been entitled to the following:

2010 Employment Agreements

1. An amount equal to one year's base salary; and
2. Continued medical, hospitalization, life insurance and disability benefits to which the Named Executive Officer was entitled at the termination date for a period of twelve (12) months following the termination date.

2013 Employment Agreements

1. An amount equal to the greater of the base salary payable for the remainder of the employment term or one year's base salary;
2. Continued vesting of granted stock options for the shorter of one year or the original expiration date of such option;
3. Continued vesting of restricted stock grants for a period of one year; and
4. Continued medical, hospitalization, life insurance and disability benefits to which the Named Executive Officer was entitled at the termination date for a period of twelve (12) months following the termination date (twenty-four (24) months) in the case of Mr. Feeler's 2013 Employment Agreement).

A Named Executive Officer's eligibility for receipt of the additional benefits above was subject to compliance with confidentiality, work product assignment, return of property, non-competition/non-solicitation covenants and, in the case of the 2013 Employment Agreements, a release of claims in favor of the Company.

The definition of *good reason* included, among other things, a material diminution of duties and responsibilities, material diminution in compensation arrangements or employee benefits or any material breach by the Company of the provisions of the applicable employment agreement. *Cause* was defined as a determination by two-thirds of the members of the Board voting that the Named Executive Officer has (i) engaged in willful neglect (other than neglect resulting from his incapacity due to physical or mental illness) or willful misconduct in the performance of his duties; (ii) engaged in willful conduct the consequences of which are materially adverse to the Company; (iii) materially breached the terms of his employment agreement and such breach persisted after notice thereof from the Company and a reasonable opportunity to cure; or (iv) been convicted of (or has plead guilty or no contest to) any felony other than a traffic violation.

Death or Disability Had a Named Executive Officer's employment been terminated during 2013 due to death, the Company would have paid such Named Executive Officer's estate the Accrued Obligations. Had a Named Executive Officer's employment been terminated during 2013 due to disability, in addition to the Accrued Obligations, such Named Executive Officer would have been eligible to participate in the Company's long-term disability plan on a basis no less favorable to him than other senior employees of the Company.

Retirement Had a Named Executive Officer's employment been terminated by retirement, such Named Executive Officer would have been paid the Accrued Obligations only.

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Based on a hypothetical termination of employment on December 31, 2013, and assuming no event occurred causing the forfeiture of amounts due under an incentive plan, the Named Executive Officers would have been entitled to the amounts set forth in the table on the following page, depending on the basis for termination identified in the first column:

Change of Control Change of control benefits are intended to encourage cooperation and minimize potential resistance of Named Executive Officers and other key managers to potential change of control transactions that may be in the best interests of stockholders.

For purposes of the employment agreements in effect during 2013, *change of control* was defined to include any of the following events:

A merger or consolidation of the Company with or into another entity or any other corporate reorganization, if more than 50% (40% in the case of the 2013 Employment Agreements) of the combined voting power of the continuing or surviving entity's securities outstanding immediately after such merger, consolidation or other reorganization is owned by persons who were not stockholders immediately prior to such merger, consolidation or other reorganization; provided, however, that a public offering of the Company's securities shall not constitute a corporate reorganization; or

The sale, transfer, or other disposition of all or substantially all of the Company's assets; or

Any transaction as a result of which any person is the "beneficial owner", directly or indirectly, of securities of the Company representing more than 50% (25% in the case of the 2013 Employment Agreements) of the total voting power represented by the Company's then outstanding voting securities; or

In the case of the 2013 Employment Agreements, a change in the composition of the Board in any two-year period as a result of which fewer than a majority of the directors are incumbent directors.

Under the 2010 Employment Agreements, a change of control event would trigger a corresponding payment without a requirement of termination of employment, while under the 2013 Employment Agreements, both a change of control event *and* subsequent termination of employment by the Company without cause or by the employee for good reason within twenty-four (24) months of such change of control are required for payment. As of December 31, 2013, only Mr. Cooper's 2010 Employment Agreement remained in effect, which provided for:

1. Lump sum payment equal to one year's base salary; and
2. Immediate vesting of all unvested stock options and restricted stock.

The 2013 Employment Agreements provided for:

1. In lieu of severance, payment equal to two times the sum of (i) base salary; and (ii) the greatest of (a) any earned but unpaid amount due under any Cash Incentive plan; (b) the Named Executive Officer's target incentive amount under a Cash Incentive plan for which a payment is earned, but unpaid; and (c) the Cash Incentive plan payment received (if any) for the fiscal year immediately preceding the Cash Incentive plan year in which the termination occurs; and
2. All other benefits due the Named Executive Officer as if his employment was terminated by the Company without cause or by the executive for good reason, except that all unvested stock options and restricted stock shall become fully vested upon the termination date; provided, however, that if unvested stock options and restricted stock held by the Named Executive Officer are not continued, substituted for or assumed by the successor company in connection with a change of control, such awards shall immediately vest upon the change of control.

Based on a hypothetical change of control event and termination on December 31, 2013, the Named Executive Officers would have been entitled to Accrued Obligations and the amounts set forth in the table below. Except in the case of Mr. Cooper, the Named Executive Officers would also have been entitled to continued medical, hospitalization, life insurance and disability benefits in the amounts

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

set forth in the table above based on a termination by the Company Without Cause or by the Named Executive Officer for Good Reason.

In order for the Company to be able to fully deduct compensation paid and in order to protect Named Executive Officers from excise taxes, in the event that the severance and other benefits provided for in the employment agreements or otherwise payable to each Named Executive Officer constitute "parachute payments" within the meaning of Section 280G of the Internal Revenue Code and would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code, then the Named Executive Officer will receive either the full amount of such severance benefits or such lesser amount as would result in no portion of such severance benefits being subject to excise tax under Section 4999 of the Internal Revenue Code. After taking into account the applicable federal, state and local income taxes and the excise tax imposed by Section 4999 of the Internal Revenue Code, the Named Executive Officer will receive the amount that, on an after-tax basis, results in the greatest amount of severance benefits, notwithstanding that all of some portion of such severance benefits may be taxable under Section 4999 of the Code.

COMPENSATION OF DIRECTORS

The Company's Amended and Restated 2005 Non-Employee Director Compensation Plan (the "2005 Plan") defines the compensation arrangement for non-employee directors. During 2013, directors who were not employees of the Company or its subsidiaries received an annual fee of \$30,000. A non-employee Chairman of the Board was entitled to receive an additional fee of \$20,000. Effective November 1, 2012, Mr. Romano's Chairman of the Board fee was increased by \$10,000 per month on an interim basis as consideration for providing oversight and assisting Mr. Feeler and the executive management team as needed during a transition period following the former Chief Executive Officer's separation from the Company. Payment of the increased fee ceased effective with Mr. Feeler's promotion to President and Chief Executive Officer on May 30, 2013. Chairmen of the Governance and Compensation Committees were entitled to receive an additional fee of \$12,000. The Chairman of the Audit Committee was entitled to receive an additional fee of \$15,000. On February 28, 2012, the Board amended the 2005 Plan to allow for payment to committee members in the form of (i) an annual cash retainer or (ii) a fee on a per committee meeting basis, as determined by the Board each year. The 2005 Plan was further amended to require a non-employee director who does not complete his or her annual service term, upon which the payment of an annual cash retainer was paid, to reimburse the Company a pro-rata portion of any such retainer. During 2013, Audit Committee members were entitled to a cash retainer of \$7,000, Corporate Governance Committee members were entitled to a cash retainer of \$5,000 and Compensation Committee members were entitled to a cash retainer of \$5,000. Directors also received \$2,000 for each Board meeting attended in person and \$1,000 for each telephonic meeting lasting more than thirty (30) minutes, including Special Committee meetings. Employee directors receive no additional compensation for their service as directors. Mr. Feeler was the only such director during 2013.

During 2013, non-employee directors also received an equity award issued in the form of restricted stock or options to purchase the Company's common stock worth \$50,000 at the time of election or re-election to the Board at the Annual Meeting of Stockholders. Equity awards granted to non-employee directors vest over one year with vesting contingent on attending at least 75% of the regularly scheduled meetings of the Board between the award and vesting dates. All directors met the meeting attendance requirement in 2013. All directors are reimbursed for their reasonable travel and other expenses involved in attending Board and committee meetings.

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

On March 1, 2011, the Board approved amendments to the 2005 Plan and the Company's Corporate Governance Guidelines to reflect a requirement that each non-employee director acquire (through open market purchase, restricted stock grants or exercise of stock options) and hold Company stock equal to three times his or her annual cash retainer. The stock holding value is measured at the higher of cost or market. Each non-employee director must satisfy the holding requirement within three years of first becoming subject to the requirement and, at a minimum, have satisfied one-third of the requirement after one year, and two-thirds of the requirement after two years. The stock holding requirement is calculated annually at each annual shareholder election and became effective for each serving non-employee director commencing with the May 24, 2011 Annual Meeting. All non-employee directors elected on May 24, 2011 were considered new directors for purpose of the stock holding requirement, regardless of past service. Satisfying the stock ownership requirement is a condition to vesting of all previously unvested and future equity grants. Notwithstanding the foregoing, a non-employee director who fails to comply with the stock holding requirement will be granted a cure period of ninety (90) days within open trading windows in which to resume compliance. All of the Company's non-employee directors satisfied the stock holding requirements in 2013.
