**MV OIL TRUST**

**NOTES TO CONDENSED FINANCIAL STATEMENTS**

**(Unaudited)**

**Note 1 Organization of the Trust**

MV Oil Trust (the "Trust") is a statutory trust formed on August 3, 2006, under the Delaware Statutory Trust Act pursuant to a Trust Agreement (the "Trust Agreement") among MV Partners, LLC, a Kansas limited liability company ("MV Partners"), as trustor, The Bank of New York Mellon Trust Company, N.A., as Trustee (the "Trustee"), and Wilmington Trust Company, as Delaware Trustee (the "Delaware Trustee").

The Trust was created to acquire and hold a term net profits interest for the benefit of the Trust unitholders pursuant to a conveyance from MV Partners to the Trust. The term net profits interest represents the right to receive 80% of the net proceeds (calculated as described below in Note 5) from production from the underlying properties (as defined below) (the "net profits interest"). The term net profits interest consists of MV Partners' net interests in all of its oil and natural gas properties located in the Mid-Continent region in the states of Kansas and Colorado (the "underlying properties"). The underlying properties include approximately 1,000 producing oil and gas wells.

The net profits interest is passive in nature, and the Trustee has no management control over and no responsibility relating to the operation of the underlying properties. The net profits interest entitles the Trust to receive 80% of the net proceeds attributable to MV Partners' interest from the sale of production from the underlying properties during the term of the Trust. The net profits interest will terminate on the later to occur of (1) June 30, 2026 or (2) the time when 14.4 million barrels of oil equivalent (MMBoe) have been produced from the underlying properties and sold (which amount is the equivalent of 11.5 MMBoe with respect to the Trust's net profits interest), and the Trust will soon thereafter wind up its affairs and terminate.

The Trustee can authorize the Trust to borrow money to pay Trust administrative or incidental expenses of the Trust that exceed cash held by the Trust. The Trustee may authorize the Trust to borrow from the Trustee or the Delaware Trustee as a lender provided the terms of the loan are similar to the terms it would grant to a similarly situated commercial customer with whom it did not have a fiduciary relationship. The Trustee may also deposit funds awaiting distribution in an account with itself and make other short-term investments with the funds distributed to the Trust.

**Note 2 Basis of Presentation**

The accompanying Condensed Statement of Assets and Trust Corpus as of December 31, 2013, which has been derived from audited financial statements, and the unaudited interim condensed financial statements as of June 30, 2014 and for the three and six month periods ended June 30, 2014 and June 30, 2013, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Accordingly, certain information and note disclosures normally included in annual financial statements have been condensed or omitted pursuant to those rules and regulations.

**MV OIL TRUST**

**NOTES TO CONDENSED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**Note 2 Basis of Presentation (Continued)**

The preparation of financial statements requires the Trust to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Trustee believes such information includes all the disclosures necessary to make the information presented not misleading. The information furnished reflects all adjustments that are, in the opinion of the Trustee, necessary for a fair presentation of the results of the interim period presented. The financial information should be read in conjunction with the financial statements and notes thereto included in the Trust's Annual Report on Form 10-K for the year ended December 31, 2013.

**Note 3 Trust Accounting Policies**

The Trust uses the modified cash basis of accounting to report receipts by the Trust of the term net profits interest and payments of expenses incurred. The term net profits interest represents the right to receive revenues (oil, gas and natural gas liquid sales) less direct operating expenses (lease operating expenses, lease maintenance, lease overhead, and production and property taxes) and an adjustment for lease equipment costs and lease development expenses (which are capitalized in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP")) of the underlying properties times 80%. Actual cash receipts may vary due to timing delays of actual cash receipts from the property operators or purchasers and due to wellhead and pipeline volume balancing agreements or practices. The actual cash distributions of the Trust will be made based on the terms of the conveyance creating the Trust's net profits interest. Expenses of the Trust, which include accounting, engineering, legal and other professional fees, Trustee fees, an administrative fee paid to MV Partners and out-of-pocket expenses, are recognized when paid. Under U.S. GAAP, revenues and expenses would be recognized on an accrual basis. Amortization of the investment in net profits interest is recorded on a unit-of-production method in the period in which the cash is received with respect to such production. Such amortization does not reduce distributable income, rather it is charged directly to Trust corpus.

This comprehensive basis of accounting other than U.S. GAAP corresponds to the accounting permitted for royalty trusts by the SEC as specified by Staff Accounting Bulletin Topic 12:E, Financial Statements of Royalty Trusts.

Investment in the net profits interest was recorded initially at the historical cost of MV Partners and is periodically assessed to determine whether its aggregate value has been impaired below its total capitalized cost based on the underlying properties. The Trust will provide a write-down to its investment in the net profits interest if and when total capitalized costs, less accumulated amortization, exceed undiscounted future net revenues attributable to the proved oil and gas reserves of the underlying properties.

(1)

Excess of revenues over direct operating expenses and lease equipment and development costs reflect expenses and costs incurred by MV Partners during the December through February production period for the three months ended June 30 and during the September through February production period for the six months ended June 30. Pursuant to the terms of the conveyance of the net profits interest, lease equipment and development costs are to be deducted when calculating the distributable income to the Trust.

**MV OIL TRUST**

**NOTES TO CONDENSED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**Note 5 Income from Net Profits Interest (Continued)**

- (2) Pursuant to the terms of the conveyance of the net profits interest, MV Partners can reserve up to \$1.0 million for future capital expenditures at any time. During the three and six months ended June 30, 2014, MV Partners withheld \$350,000 for future capital expenditures. During the three and six months ended June 30, 2013, MV Partners did not withhold or release any dollar amounts due to the Trust. The reserve balance was \$500,000 and \$150,000 at June 30, 2014 and 2013, respectively.
- (3) The income from net profits interest is based upon the cash receipts from MV Partners for the oil and gas production. The revenues from oil production are typically received by MV Partners one month after production; thus, the cash received by the Trust during the three months ended June 30, 2014 substantially represents the production by MV Partners from December 2013 through February 2014 and the cash received by the Trust during the three months ended June 30, 2013 substantially represents the production by MV Partners from December 2012 through February 2013. The cash received by the Trust during the six months ended June 30, 2014 substantially represents the production by MV Partners from September 2013 through February 2014 and the cash received by the Trust during the six months ended June 30, 2013 substantially represents the production by MV Partners from September 2012 through February 2013.

For the three and six months ended June 30, 2014 and 2013, MV Purchasing, LLC, which is majority owned by the indirect equity owners of MV Partners, purchased a majority of the production from the underlying properties. Sales to MV Purchasing, LLC are under short-term arrangements, ranging from one to six months, using market sensitive pricing.

**Note 6 Income Taxes**

The Trust is a Delaware statutory trust and is not required to pay federal or state income taxes. Accordingly, no provision for federal or state income taxes has been made.

**Note 7 Distributions to Unitholders**

MV Partners makes quarterly payments of the net profits interest to the Trust. The Trustee determines for each quarter the amount available for distribution to the Trust unitholders. This distribution is expected to be made on or before the 25th day of the month following the end of each quarter to the Trust unitholders of record on the 15th day of the month following the end of each quarter (or the next succeeding business day). Such amounts will be equal to the excess, if any, of the cash received by the Trust relating to the preceding quarter, over the expenses of the Trust paid during such quarter, subject to adjustments for changes made by the Trustee during such quarter in any cash reserves established for future expenses of the Trust.

**MV OIL TRUST**

**NOTES TO CONDENSED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**Note 8 Advance for Trust Expenses**

Under the terms of the Trust Agreement, the Trustee is allowed to borrow money to pay Trust expenses. During the three and six months ended June 30, 2014 and 2013, there were no borrowings or amounts owed for money borrowed in previous quarters. MV Partners has provided a letter of credit in the amount of \$1 million to the Trustee to protect the Trust against the risk that it does not have sufficient cash to pay future expenses.

**Note 9 Subsequent Events**

The third quarterly distribution during 2014 was \$9,085,000, or \$0.79 per Trust unit, and was made on July 25, 2014 to Trust unitholders owning Trust units as of July 15, 2014. Such distribution included the net proceeds of production collected by MV Partners from April 1, 2014 through June 30, 2014.

**Item 2. Trustee's Discussion and Analysis of Financial Condition and Results of Operations.**

The following discussion of the Trust's financial condition and results of operations should be read in conjunction with the financial statements and notes thereto. The Trust's purpose is, in general, to hold the net profits interest, to distribute to the Trust unitholders cash that the Trust receives in respect of the net profits interest and to perform certain administrative functions in respect of the net profits interest and the Trust units. The Trust derives substantially all of its income and cash flows from the net profits interest.

*Results of Operations for the Quarters Ended June 30, 2014 and 2013*

The cash received by the Trust from MV Partners during the quarter ended June 30, 2014 substantially represents the production by MV Partners from December 2013 through February 2014. The cash received by the Trust during the quarter ended June 30, 2013 substantially represents the production by MV Partners from December 2012 through February 2013. The revenues from oil production are typically received by MV Partners one month after production. The Trust's net profits interest increased \$524,458 to \$10,704,010 for the quarter ended June 30, 2014 from \$10,179,552 for the quarter ended June 30, 2013. The increase was primarily due to a \$655,572 increase in excess of revenues over direct operating expenses and lease equipment and development costs for the underlying properties to \$13,380,012 from \$ 12,724,440 for the prior period. Additionally, the Trustee held back \$234,010 for future expenses for the quarter ended June 30, 2014 and \$174,552 for the quarter ended June 30, 2013. The overall production sales volumes attributable to the net profits interest for the oil and gas production collected during the period from October 1, 2012 through March 31, 2013 were 343,766 Bbls of oil, 28,186 Mcf of natural gas and 1,302 Bbls of natural gas liquids for a total equivalent barrels of oil of 349,310.

### **Liquidity and Capital Resources**

Other than Trust administrative expenses, including any reserves established by the Trustee for future liabilities, the Trust's only use of cash is for distributions to Trust unitholders. Administrative expenses include payments to the Trustee as well as an annual administrative fee to MV Partners pursuant to an administrative services agreement. Each quarter, the Trustee determines the amount of funds available for distribution. Available funds are the excess cash, if any, received by the Trust from the net profits interest and payments from other sources (such as interest earned on any amounts reserved by the Trustee) in that quarter, over the Trust's expenses paid for that quarter. Available funds are reduced by any cash the Trustee decides to hold as a reserve against future expenses. As of June 30, 2014, \$154,600 was held by the Trustee as such a reserve. The Trustee may cause the Trust to borrow funds required to pay expenses if the Trustee determines that the cash on hand and the cash to be received are insufficient to cover the Trust's expenses. If the Trust borrows funds, the Trust unitholders will not receive distributions until the borrowed funds are repaid. During the three and six months ended June 30, 2014 and 2013, there were no such borrowings. MV Partners has provided a letter of credit in the amount of \$1 million to the Trustee to protect the Trust against the risk that it does not have sufficient cash to pay future expenses.

Income to the Trust from the net profits interest is based on the calculation and definitions of "gross proceeds" and "net proceeds" contained in the conveyance.
