**(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***Condensed Consolidated Financial Statements*

The Condensed Consolidated Balance Sheet as of June 27, 2015, the Condensed Consolidated Statements of Earnings and Comprehensive Income for the thirteen and twenty-six weeks ended June 27, 2015 and June 28, 2014, and the Condensed Consolidated Statements of Cash Flows and Shareholders' Equity for the twenty-six week period then ended have been prepared by the Company, without audit. In the opinion of management, all necessary adjustments (which include normal recurring adjustments) have been made to present fairly the financial statements as of June 27, 2015 and for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These Condensed Consolidated Financial Statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 27, 2014. The accounting policies and methods of computation followed in these interim financial statements are the same as those followed in the financial statements for the year ended December 27, 2014. The results of operations for the period ended June 27, 2015 are not necessarily indicative of the operating results for the full year.

*Inventories*

Approximately 36% and 44% of inventory is valued at the lower of cost, determined on the last-in, first-out (LIFO) method, or market as of June 27, 2015 and December 27, 2014, respectively. All other inventory is valued at the lower of cost, determined on the first-in, first-out (FIFO) method or market. Finished goods and manufactured goods inventories include the costs of acquired raw materials and related factory labor and overhead charges required to convert raw materials to manufactured and finished goods. The excess of replacement cost of inventories over the LIFO value is approximately \$39,093 and \$47,178 at June 27, 2015 and December 27, 2014, respectively.

Inventories consisted of the following:

*Pension Benefits*

The Company incurs expenses in connection with the Delta Pension Plan ("DPP"). The DPP was acquired as part of the Delta plc acquisition in fiscal 2010 and has no members that are active employees. In order to measure expense and the related benefit obligation, various assumptions are made including discount rates used to value the obligation, expected return on plan assets used to fund these expenses and estimated future inflation rates. These assumptions are based on historical experience as well as current facts and circumstances. An actuarial analysis is used to measure the expense and liability associated with pension benefits.

The components of the net periodic pension (benefit) expense for the thirteen and twenty-six weeks ended June 27, 2015 and June 28, 2014 were as follows:

|                                 | Thirteen Weeks Ended |          | Twenty-six Weeks Ended |           |

*Stock Plans*

The Company maintains stock-based compensation plans approved by the shareholders, which provide that the Human Resource Committee of the Board of Directors may grant incentive stock options, nonqualified stock options, stock appreciation rights, non-vested stock awards and bonuses of common stock. At June 27, 2015, 1,176,222 shares of common stock remained available for issuance under the plans.

## Edgar Filing: VALMONT INDUSTRIES INC - Form 10-Q

Shares and options issued and available are subject to changes in capitalization.

Under the plans, the exercise price of each option equals the closing market price at the date of the grant. Options vest beginning on the first anniversary of the grant in equal amounts over three to six years or on the fifth anniversary of the grant.

*Equity Method Investments*

The Company has equity method investments in non-consolidated subsidiaries, which are recorded within "Other assets" on the Condensed Consolidated Balance Sheet.

*Fair Value*

The Company applies the provisions of Accounting Standards Codification 820, *Fair Value Measurements* ("ASC 820") which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The provisions of ASC 820 apply to other accounting pronouncements that require or permit fair value measurements. As defined in ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

ASC 820 establishes a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

**Trading Securities:** The assets and liabilities recorded for the investments held in the Valmont Deferred Compensation Plan of \$39,789 (\$36,439 at December 27, 2014) represent mutual funds, invested in debt and equity securities, classified as trading securities in accordance with Accounting

Standards Codification 320, *Accounting for Certain Investments in Debt and Equity Securities*, considering the employee's ability to change investment allocation of their deferred compensation at any time.

The Company's ownership of shares in Delta EMD Pty. Ltd. (JSE:DTA) is also classified as trading securities. During first quarter of 2015, the Company received a special dividend of \$5,010 from Delta EMD Pty. Ltd and the market price of the shares were proportionately decreased accordingly. The shares are valued at \$4,966 and \$9,034 as of June 27, 2015 and December 27, 2014, respectively, which is the estimated fair value. Quoted market prices are available for these securities in an active market and therefore categorized as a Level 1 input.

revenue recognition requirements in Accounting Standards Codification ("ASC") 605, *Revenue Recognition*. The new revenue recognition standard requires entities to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 is effective for interim and annual reporting periods beginning after December 15, 2017 and is to be applied retrospectively. The Company is currently evaluating the effect that adopting this new accounting guidance will have on its consolidated results of operations and financial position.

In July 2015, the FASB issued ASU 2015-11, "Simplifying the Measurement of Inventory." Under this ASU, inventory will be measured at the "lower of cost and net realizable value" and options that currently exist for "market value" will be eliminated. The ASU defines net realizable value as the "estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation." No other changes were made to the current guidance on inventory measurement. ASU 2015-11 is effective for interim and annual periods beginning after December 15, 2016. Early application is permitted and should be applied prospectively. Management is evaluating the provisions of this statement, including which period to adopt, and has not determined what impact the adoption of ASU 2015-11 will have on the Company's financial position or results of operations.

**(2) ACQUISITIONS**

On March 3, 2014, the Company purchased 90% of the outstanding shares of DS SM A/S, which was renamed Valmont SM. Valmont SM is a manufacturer of heavy complex steel structures for a diverse range of industries including wind energy, offshore oil and gas, and electricity transmission. Valmont SM's operations are reported in the Engineered Infrastructure Products Segment. Valmont SM's annual sales are approximately \$190,000 and it operates two manufacturing locations in Denmark. The purchase price paid for the business at closing (net of \$56 cash acquired) was \$120,483, including the payoff of an intercompany note payable by Valmont SM to its prior affiliates. The purchase is subject to an earn-out clause that is contingent on meeting future operational metrics for which no liability has been established based on expectations. The acquisition, which was funded by cash held by the Company, was completed to participate in markets for wind energy, oil and gas exploration, power transmission and other related infrastructure projects and to increase the Company's geographic footprint in Europe. The Company also funded a portion of the acquisition with an intercompany note payable. The excess purchase price over the fair value of assets resulted in goodwill, which is not deductible for tax purposes.

On October 6, 2014, the Company acquired Shakespeare Composite Structures (Shakespeare) for \$48,272 in cash, plus assumed liabilities. Shakespeare is a manufacturer of fiberglass reinforced composite structures and products with two manufacturing facilities in South Carolina. Shakespeare's annual sales are approximately \$55,000 and its operations are included in the Engineered Infrastructure Products segment. The acquisition of Shakespeare was completed to expand our product offering of composite structure solutions.

The preliminary fair value measurement disclosed below is subject to management reviews and completion of the fair value measurements of the assets acquired and liabilities assumed. The Company expects the fair value measurement process and purchase price allocation for Shakespeare to be completed in the third quarter of 2015.

On August 25, 2014, the Company acquired 51% of AgSense, LLC (AgSense) for \$17 million in cash. AgSense operates in South Dakota and is the creator of global WagNet network which provides growers with a more complete view of their entire farming operation by tying irrigation decision making to field, crop and weather conditions. In the measurement of fair values of assets acquired and liabilities assumed, goodwill of \$17,193 and \$16,083 of customer relationships, trade name and other intangible assets were recorded. A portion of the goodwill is deductible for tax purposes. AgSense is included in the Irrigation Segment.

The Company's Condensed Consolidated Statement of Earnings for the thirteen and twenty-six weeks ended June 27, 2015 included net sales of \$44,271 and \$86,195 and net earnings of \$2,935 and \$4,933 resulting from the Valmont SM, AgSense, and Shakespeare acquisitions. The pro forma effect of

## (3) RESTRUCTURING ACTIVITIES

In April 2015, the Company's Board of Directors authorized a broad restructuring plan (the "Plan") of up to \$60 million to respond to the market environment in certain businesses. We anticipate the Company will recognize the following pre-tax expenses in conjunction with the initial restructuring activities from the Plan announced in 2015:

Certain of these initial restructuring actions are within the APAC Coatings reporting unit which has approximately \$16 million of goodwill as of June 27, 2015. The Company expects these activities to improve the profitability of this reporting unit. Should operating income not improve within this reporting unit after these restructuring activities are implemented, we may have to write off all or a portion of our goodwill for this reporting unit during our annual impairment testing during the third quarter. Inclusive of this goodwill, the Company is currently evaluating additional potential restructuring activities estimated up to \$25 million of asset impairments and \$5 million of cash expenses.

Amortization expense for intangible assets for the thirteen and twenty-six weeks ended June 27, 2015 and June 28, 2014, respectively was as follows:

| Thirteen Weeks Ended |          | Twenty-six Weeks Ended |          |
|----------------------|----------|------------------------|----------|
| 2015                 | 2014     | 2015                   | 2014     |
| \$ 4,737             | \$ 4,634 | \$ 9,650               | \$ 8,737 |

Estimated annual amortization expense related to finite-lived intangible assets is as follows:

|      | Estimated Amortization Expense |
|------|--------------------------------|
| 2015 | \$ 18,124                      |
| 2016 | 16,322                         |
| 2017 | 16,276                         |
| 2018 | 14,622                         |
| 2019 | 13,795                         |

The useful lives assigned to finite-lived intangible assets included consideration of factors such as the Company's past and expected experience related to customer retention rates, the remaining legal or contractual life of the underlying arrangement that resulted in the recognition of the intangible asset and the Company's expected use of the intangible asset.

*Non-amortized intangible assets*

Intangible assets with indefinite lives are not amortized. The carrying values of trade names at June 27, 2015 and December 27, 2014 were as follows:

maintain the value of the intangible asset. The Company expects that these intangible assets will maintain their value indefinitely. Accordingly, these assets are not amortized.

The Company's trade names were tested for impairment in the third quarter of 2014. The values of the trade names were determined using the relief-from-royalty method. Based on this evaluation, the Company determined that its trade names were not impaired.

*Goodwill*

The carrying amount of goodwill by segment as of June 27, 2015 and December 27, 2014 was as follows:

During the second quarter of 2015, the Company implemented a plan to divest of a small business in its EIP segment. The goodwill allocated to that business was \$1,737 and based on its current estimation of value, the goodwill was determined to be impaired and was recorded in Selling, General and Administrative Expenses in the Condensed Consolidated Statements of Earnings. The Company's annual impairment test of goodwill was last performed during the third quarter of 2014. As a result of that testing, the Company determined that its goodwill was not impaired, as the valuation of the reporting units exceeded their respective carrying values. The Company continues to monitor changes in the global economy that could impact future operating results of its reporting units. If such conditions arise, the Company will test a given reporting unit for impairment prior to the annual test.

**(5) CASH FLOW SUPPLEMENTARY INFORMATION**

The Company considers all highly liquid temporary cash investments purchased with an original maturity of three months or less at the time of purchase to be cash equivalents. Cash payments for interest and income taxes (net of refunds) for the twenty-six weeks ended June 27, 2015 and June 28, 2014 were as follows:

|              | 2015      | 2014      |
|--------------|-----------|-----------|
| Interest     | \$ 22,898 | \$ 16,564 |
| Income taxes | 14,280    | 77,691    |

On May 13, 2014, the Company announced a new capital allocation philosophy which increased the dividend by 50% and covered a share repurchase program of up to \$500 million of the Company's outstanding common stock to be acquired from time to time over twelve months at prevailing market

Earnings per share are computed independently for each of the quarters. Therefore, the sum of the quarterly earnings per share may not equal the total for the year primarily due to the share buyback program that began in the second quarter of 2014.

At June 27, 2015, there were 452,459 outstanding stock options with exercise prices exceeding the market price of common stock that were excluded from the computation of diluted earnings per share.

**(7) BUSINESS SEGMENTS**

The Company has four reportable segments based on its management structure. Each segment is global in nature with a manager responsible for segment operational performance and the allocation of capital within the segment. Net corporate expense is net of certain service-related expenses that are allocated to business units generally on the basis of employee headcounts and sales dollars.

Reportable segments are as follows:

*ENGINEERED INFRASTRUCTURE PRODUCTS:* This segment consists of the manufacture of engineered metal structures and components for the global lighting and traffic, wireless communication, wind energy, offshore oil and gas, roadway safety and access systems applications;

*UTILITY SUPPORT STRUCTURES:* This segment consists of the manufacture of engineered steel and concrete structures for the global utility industry;

*COATINGS:* This segment consists of galvanizing, anodizing and powder coating services on a global basis; and

*IRRIGATION:* This segment consists of the manufacture of agricultural irrigation equipment and related parts and services for the global agricultural industry.

In addition to these four reportable segments, the Company has other businesses and activities that individually are not more than 10% of consolidated sales. These include the manufacture of forged steel grinding media for the mining industry, tubular products for industrial customers, and the distribution of industrial fasteners and are reported in the "Other" category.

The accounting policies of the reportable segments are the same as those described in Note 1. The Company evaluates the performance of its business segments based upon operating income and invested capital. The Company does not allocate interest expense, non-operating income and deductions, or income taxes to its business segments.

**(8) GUARANTOR/NON-GUARANTOR FINANCIAL INFORMATION**

The Company has three tranches of senior unsecured notes. All of the senior notes are guaranteed, jointly, severally, fully and unconditionally by certain of the Company's current and future direct and indirect domestic and foreign subsidiaries (collectively the "Guarantors"), excluding its other current domestic and foreign subsidiaries which do not guarantee the debt (collectively referred to as the "Non-Guarantors"). All Guarantors are 100% owned by the parent company.

In the fourth quarter of 2014, a subsidiary of the Company was removed as a guarantor of our revolving credit facility, and consequently was removed as a guarantor of the notes. All prior year consolidated financial information has been recast to reflect the current guarantor structure. Consolidated financial information for the Company ("Parent"), the Guarantor subsidiaries and the Non-Guarantor subsidiaries is as follows:

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Management's discussion and analysis contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on assumptions that management has made in light of experience in the industries in which the Company operates, as well as management's perceptions of historical trends, current conditions, expected future developments and other factors believed to be appropriate under the circumstances. These statements are not guarantees of performance or results. They involve risks, uncertainties (some of which are beyond the Company's control) and assumptions. Management believes that these forward-looking statements are based on reasonable assumptions. Many factors could affect the Company's actual financial results and cause them to differ materially from those anticipated in the forward-looking statements. These factors include, among other things, risk factors described from time to time in the Company's reports to the Securities and Exchange Commission, as well as future economic and market circumstances, industry conditions, company performance and financial results, operating efficiencies, availability and price of raw materials, availability and market acceptance of new products, product pricing, domestic and international competitive environments, and actions and policy changes of domestic and foreign governments.

This discussion should be read in conjunction with the financial statements and notes thereto, and the management's discussion and analysis included in the Company's Annual Report on Form 10-K for the fiscal year ended December 27, 2014. Segment sales in the table below are presented net of intersegment sales.

#### **Overview**

On a consolidated basis, the decrease in net sales in the second quarter and first half of fiscal 2015, as compared with 2014, reflected lower sales in all reportable segments. The changes in net sales in the second quarter and first half of fiscal 2015, as compared with fiscal 2014, were as follows:

|                      | Second quarter |          |          |          |            |         |

| Sales 2015           | \$ 1,352.5   | \$ 488.3 | \$ 338.7 | \$ 125.7 | \$ 308.3   | \$ 91.5  |

Volume effects are estimated based on a physical production or sales measure. Since products we sell are not uniform in nature, pricing and mix relate to a combination of changes in sales prices and the attributes of the product sold. Accordingly, pricing and mix changes do not necessarily directly result in operating income changes.

Acquisitions included DS SM A/S (renamed Valmont SM), AgSense LLC, and Shakespeare. We acquired Valmont SM in March 2014, AgSense in August 2014, and Shakespeare in October 2014. Shakespeare and Valmont SM are reported in the Engineered Infrastructure Products segment, and AgSense is reported in the Irrigation segment. Average steel index prices for both hot rolled coil and plate decreased substantially in North America over the three and six month periods ended June 27, 2015 compared to June 28, 2014. Decreases in sales pricing and volumes offset the increase in gross profit realized from the lower steel prices.

#### **Restructuring Plan**

In April 2015, our Board of Directors authorized a broad restructuring plan (the "Plan") of up to \$60 million to respond to the market environment in certain of our businesses. We expect to incur pre-tax cash expenses of \$17 million and asset impairments of approximately \$13 million. These charges are expected to be incurred over the remainder of 2015. Approximately \$14.3 million of restructuring expense was recorded during the second quarter of 2015; \$8.0 million in cost of goods sold and \$6.3 million in selling, general, and administrative expense. The decrease in second quarter 2015 gross profit due to restructuring expense by segment is as follows:

| Gross Profit   | Total    | EIP      | Utility  | Coatings | Irrigation | Other    | Corporate |
|----------------|----------|----------|----------|----------|------------|----------|-----------|
| Second quarter | \$ (8.0) | \$ (1.4) | \$ (2.0) | \$ (4.5) | \$         | \$ (0.1) | \$        |

### Table of Contents

The decrease in second quarter 2015 operating income due to restructuring expense by segment is as follows:

|                | <b>Total</b> | <b>EIP</b> | <b>Utility</b> | <b>Coatings</b> | <b>Irrigation</b> | <b>Other</b> | <b>Corporate</b> |
|----------------|--------------|------------|----------------|-----------------|-------------------|--------------|------------------|
| Second quarter | \$ (14.3)    | \$ (4.5)   | \$ (2.5)       | \$ (4.8)        | \$ (0.3)          | \$ (0.1)     | \$ (2.1)         |

Certain of these restructuring actions are within the APAC Coatings reporting unit which has approximately \$16 million of goodwill as of June 27, 2015. We expect these activities to improve the profitability of this reporting unit. Should operating income not improve within this reporting unit after these restructuring activities are implemented, we may have to write off all or a portion of our goodwill for this reporting unit during our annual impairment testing during the third quarter. In addition to this goodwill, we are also evaluating other potential restructuring activities authorized under the Plan. In total, these restructuring items could result in asset impairments of up to \$25 million and cash charges of \$5 million.

In the second quarter and first half of fiscal 2015, we realized a decrease in operating profit, as compared with fiscal 2014, due to currency translation effects. On average, the U.S. dollar strengthened in particular against the Australian dollar, Brazilian Real, Euro, and South Africa Rand, resulting in less operating profit in U.S. dollar terms. The breakdown of this effect by segment was as follows:

|                | <b>Total</b> | <b>EIP</b> | <b>Utility</b> | <b>Coatings</b> | <b>Irrigation</b> | <b>Other</b> | <b>Corporate</b> |
|----------------|--------------|------------|----------------|-----------------|-------------------|--------------|------------------|
| Second quarter | \$ (5.4)     | \$ (2.4)   | \$ (0.1)       | \$ (0.3)        | \$ (2.5)          | \$ (0.4)     | \$ 0.2           |
| Year-to-date   | \$ (7.7)     | \$ (3.2)   | \$ (0.1)       | \$ (0.6)        | \$ (3.5)          | \$ (0.6)     | \$ 0.3           |

The decrease in gross margin (gross profit as a percent of sales) in fiscal 2015, as compared with 2014, was due to a combination of lower sales prices, unfavorable sales mix, restructuring charges, and reduced sales volumes in 2015, as compared with 2014.

Selling, general and administrative (SG&A) spending in the second quarter and first half of fiscal 2015, as compared with the same periods in 2014, decreased slightly due to the following factors:

currency translation effects of \$6.4 million and \$8.9 million, respectively, due to the strengthening of the U.S. dollar primarily against the Australian dollar, Brazilian Real, Euro, and South Africa Rand; and

decreased employee incentive accruals of \$4.4 million and \$6.7 million, due to lower operating results.

The above reductions in SG&A were partially offset by the following:

the acquisition of Valmont SM, AgSense, and Shakespeare with expenses of \$3.4 million and \$8.9 million, respectively; and

expenses incurred related to the restructuring plan during the second quarter of \$6.3 million.

The decrease in operating income on a reportable segment basis in 2015, as compared to 2014, was due to reduced operating performance in all segments. The decrease in operating income is primarily attributable to lower volumes and sales prices, restructuring expenses, and currency translation effects.

Net interest expense increased in the second quarter and first half of fiscal 2015, as compared with 2014, primarily due to additional long-term debt borrowed in the third quarter of 2014. In addition, interest income decreased due to less cash on hand due to the share buyback program.

The increase in other expense in the second quarter of 2015, as compared with 2014, was due to a smaller gain on deferred compensation assets of \$1.1 million and less favorable foreign currency

Table of Contents

transaction gains/losses due to currency exchange rate changes. The decrease in other expense in the first half of fiscal 2015, as compared with 2014, was primarily attributable to the difference in the investment income from the Company's shares of Delta EMD. In 2014, we recorded a non-cash mark to market loss of \$3.5 million and in 2015, we received a \$5.0 million special dividend offset by a noncash mark to market loss of approximately \$4.6 million. The remaining decrease in other expense relates to a smaller gain on deferred compensation assets of \$0.7 million and more favorable currency transactional gains/losses.

Our effective income tax rate in the second quarter and first half of fiscal 2015 was lower when compared with the same period in fiscal 2014. The reduction relates to a tax benefit recorded in 2015 for certain withholding taxes paid in foreign jurisdictions.

Earnings attributable to noncontrolling interest was relatively flat in the second quarter and first half of fiscal 2015, as compared with the same periods in 2014.

Our cash flows provided by operations were approximately \$118.3 million in the first half of fiscal 2015, as compared with \$91.9 million provided by operations in 2014. The increase in operating cash flow in the first half of fiscal 2015 was the result of improved net working capital, partially offset by lower net earnings, compared with 2014.

***Engineered Infrastructure Products (EIP) segment***

The decrease in net sales in the second quarter and first half of fiscal 2015 as compared with 2014 was primarily due to unfavorable foreign currency translation effects of \$29.3 million and \$45.7 million, respectively, and lower sales volumes. These reductions were partially offset by the acquisitions of Valmont SM in March 2014 and Shakespeare in October 2014, which added sales in the second quarter and first half of fiscal 2015 of \$15.7 million and \$45.0 million, respectively.

Global lighting, traffic, and roadway product sales in the second quarter and first half of 2015 were lower compared to the same periods in fiscal 2014. In the second quarter and first half of fiscal 2015, sales volumes in the U.S. were higher in the commercial steel and aluminum markets and slightly lower in the transportation markets. The transportation market continues to be challenging, due in part to the lack of long-term U.S. federal highway funding legislation. Sales volumes in Canada decreased in the second quarter and first half of 2015 as compared to 2014, due to lower volumes and unfavorable currency impacts. Sales in Europe were lower in the second quarter and first half of fiscal 2015 compared to the same periods in fiscal 2014, due to unfavorable currency translation effects that were offset to an extent by higher volumes relating to a large project in the Middle East that ended in the second quarter. The domestic markets in general remain subdued in Europe. In the Asia Pacific region, sales were slightly lower in the second quarter and first half of fiscal 2015, as compared to 2014, due to lower investment activity in both China and Australia. Highway safety product sales decreased slightly in the second quarter and first half of 2015 compared to 2014, due to unfavorable foreign currency translation that was partially offset by increased volume due to improvement in highway project activity in Australia and New Zealand.

Communication product line sales were slightly higher in the second quarter and first half of fiscal 2015, as compared with the same periods in fiscal 2014. North America communication structure sales decreased, primarily due to one customer who significantly reduced its 4G wireless network build out in 2015 compared with 2014. Communication component sales were flat year over year. In China, sales of wireless communication structures in the second quarter and first half of fiscal 2015 increased over the same period in 2014 as the investment levels by the major wireless carriers have remained strong and we have increased our market share through better sales coverage.

Access systems product line sales decreased in the second quarter and first half of 2015, as compared with 2014, primarily due to the negative impact of currency translation effects and lower

Table of Contents

volumes. The volume decrease was primarily related to the slowdown in mining sector investment in Australia, weaker market conditions in China, and fewer oil and gas related construction projects.

Offshore structures sales were down \$24.1 million and \$16.5 million in the second quarter and first half of 2015, as compared to the same periods in 2014. These decreases are impacted by unfavorable currency translation effects of \$9.1 million and \$12.3 million in the second quarter and first half of 2015, respectively, as well as reduced volumes partially offset by two additional months of sales in 2015. A delay in wind energy product introduction by our customers has resulted in some projects being postponed. An additional factor contributing to the sales decrease was the postponement of oil and gas orders due to lower oil prices.

Operating income for the segment in the second quarter and first half of fiscal 2015 was lower, as compared with the same period of fiscal 2014, due to restructuring charges recorded in the second quarter and first half of 2015 and unfavorable currency translation effects of \$2.4 million and \$3.2 million, respectively. The remainder of the decrease can be attributed to lower volumes and sales mix. The slight increase in SG&A spending in the second quarter and first half of 2015 was due to the Shakespeare and Valmont SM acquisitions totaling \$2.3 million and \$6.7 million, respectively, and restructuring charges incurred in 2015. These increases were partially offset by currency translation effects.

*Utility Support Structures (Utility) segment*

In the Utility segment, sales decreased in the second quarter and first half of 2015, as compared with 2014, due to lower sales volume, a decrease in average selling prices, most notably for our steel products, and an unfavorable sales mix. Our mix of revenue from very large transmission projects in second quarter and first half of 2015 was unfavorable to same periods of 2014. A backlog including some very large transmission projects at year-end 2013 provided for the more favorable mix of large transmission projects revenue in first quarter of 2014. Declining steel prices during the first half of 2015 and a competitive pricing environment also contributed to lower average selling prices in the second quarter of 2015 compared to 2014.

In North America, sales volumes in tons for steel and concrete utility structures were down in the first half of 2015, as compared with 2014. Our large utility customers delayed capital investment in transmission and we believe this trend will continue for the remainder of 2015. The pricing environment in North America continues to be very competitive. In the second quarter and first half of 2015, as compared to 2014, international utility structures sales decreased due to unfavorable currency translation effects and lower volumes in the Asia-Pacific region.

SG&A expense was slightly lower in the second quarter and first half of 2015, as compared with 2014, primarily due to lower employee compensation and sales commissions, offset to an extent by restructuring costs. Operating income in the second quarter and first half of 2015, as compared with 2014, decreased due to lower volumes, sales margins, and reduced leverage of fixed costs. While we initiated a number of actions to improve our cost structure in this segment, including certain restructuring activities, the full effect will be recognized upon a rebound in our sales volumes.

*Coatings segment*

Coatings segment sales in North America decreased in the second quarter and first half of 2015, as compared with 2014, due to lower sales volumes and currency translation effects related to the strengthening of the U.S. dollar against the Canadian dollar. Intercompany sales volumes in North America were down as well. Those decreases were partially offset by price increases to recover higher costs for zinc in 2015 as compared to 2014. Coatings sales in Asia Pacific decreased primarily due to currency translation effects related to the strengthening of the U.S. dollar against the Australian dollar. Continued weak demand in Australia led to the lower volumes that were partially offset by price increases to recover higher costs of zinc. Sales in Asia were relatively flat in the second quarter and first half of 2015.

Table of Contents

SG&A expense decreased in the second quarter and first half of 2015, as compared to the same periods in 2014, by \$0.3 million and \$1.0 million primarily due to currency translation effects. Operating income was lower in the second quarter and first half of 2015, as compared with 2014, due to \$4.8 million of restructuring costs in Australia, the lower sales volumes, unfavorable currency impacts, and reduced leverage of fixed costs in both Australia and North America.

***Irrigation segment***

The decrease in Irrigation segment net sales in the second quarter and first half of fiscal 2015, as compared with 2014, was mainly due to sales volume decreases in both North American and International markets. In fiscal 2015, net farm income in the United States is expected to decrease 32% from the levels of 2014, due in part to lower market prices for corn and soybeans. We believe this reduction contributed to lower demand for irrigation machines in North America in the second quarter and first half of 2015, as compared with 2014. In international markets, sales decreased in the second quarter and first half of 2015, as compared with 2014, primarily due to reduced volumes in Brazil, Eastern Europe, and the Middle East and unfavorable currency translation effects in Brazil and South Africa.

SG&A was relatively flat in the second quarter and first half of fiscal 2015, as compared with 2014; SG&A increased due to AgSense (acquired in August 2014) of \$1.1 million and \$2.1 million, respectively, offset by currency translation reductions of \$0.9 million and \$1.4 million, respectively. Operating income for the segment declined in the second quarter and first half of fiscal 2015 over 2014, due to sales volume decreases and associated operating deleverage of fixed operating costs, unfavorable currency impacts, and slightly lower pricing. These reductions were partially offset by the operating income of AgSense that was acquired in August 2014, lower average steel purchase prices, and reduced factory spending to adjust to the lower sales volumes.

***Other***

This unit includes the grinding media, industrial tubing, and industrial fasteners operations. The decrease in sales in the second quarter and first half of fiscal 2015, as compared with 2014, was due in part to unfavorable currency translation of \$5.3 million and \$8.2 million, respectively. Grinding media volumes were slightly lower in the second quarter but higher in the first half of 2015. Tubing sales in 2015 were lower due to a decline in steel prices and lower volumes. Industrial fasteners sales were down due to lower volumes in 2015. Operating income in the second quarter and first half of fiscal 2015 was lower than the same periods in 2014, due primarily to lower tubing and industrial fasteners sales volumes and unfavorable currency translation.

***Net corporate expense***

Net corporate expense in the second quarter and first half of fiscal 2015 decreased over the same period in fiscal 2014. These decreases were mainly due to lower employee incentives of \$4.4 million and \$6.0 million associated with reduced net earnings, respectively, offset partially by restructuring expenses in the second quarter of \$2.1 million.

**Liquidity and Capital Resources**

***Cash Flows***

***Working Capital and Operating Cash Flows*** Net working capital was \$920.5 million at June 27, 2015, as compared with \$995.7 million at December 27, 2014. The decrease in net working capital in 2015 mainly resulted from decreased cash which was used in the share repurchase program and lower accounts receivable due to improved collections. Cash flow provided by operations was \$118.3 million in the first half of 2015, as compared with \$91.9 million in first half of 2014. The increase in operating

Table of Contents

cash flow in 2015 was primarily the result of working capital improvements over 2014, offset to an extent by reduced net earnings.

*Investing Cash Flows* Capital spending in the first half of fiscal 2015 was \$24.8 million, as compared with \$47.0 million for the same period in 2014. Significant capital spending projects in 2015 and 2014 include certain investments in machinery and equipment across all businesses. We expect our capital spending for the 2015 fiscal year to be approximately \$60 million. The biggest contributor to lower investing cash outflows in 2015 as compared to 2014, was no acquisitions in the first half of 2015 and \$120.5 million in the first half of 2014 for the acquisition of Valmont SM.

*Financing Cash Flows* Our total interest-bearing debt decreased slightly to \$774.3 million at June 27, 2015 from \$781.8 million at December 27, 2014. Financing cash flows changed from a use of approximately \$90.4 million in the first half of fiscal 2014 to a use of approximately \$146.9 million in the first half of fiscal 2015. The primary change was due to the Company purchasing \$44.0 million more treasury shares in 2015 over 2014 related to the share repurchase program.

***Financing and Capital***

On May 13, 2014, we announced a new capital allocation philosophy which covered a share repurchase program. The Board of Directors authorized the purchase of up to \$500 million of the Company's outstanding common stock from time to time over twelve months at prevailing market prices, through open market or privately-negotiated transactions. In February 2015, the Board of Directors authorized an additional \$250 million of share purchase, without an expiration date. The share purchases will be funded from available working capital and short-term borrowings and will be made subject to market and economic conditions. We are not obligated to make any share repurchases under the share repurchase program and we may discontinue the share repurchase program at any time.

As of June 27, 2015, we have acquired approximately 3.7 million shares for approximately \$516.1 million under these share repurchase programs. As of July 22, 2015, the date as of which we report on the cover of this form 10-Q the number of outstanding shares of our common stock, we have acquired a total of 3.74 million shares for approximately \$521.0 million under these share repurchase programs.

Our capital allocation philosophy announcement included our intention to manage our capital structure to maintain our investment grade debt rating. Our most recent rating were Baa2 by Moody's Investors Services, Inc. and BBB+ rating by Standard and Poor's Rating Services. We would be willing to allow our debt rating to fall to Baa3 or BBB- to finance a special acquisition or other opportunity. Otherwise, we expect to maintain a ratio of debt to invested capital which will support our current investment grade debt rating.

Our debt financing at June 27, 2015 is primarily long-term debt consisting of:

\$250.2 million face value (\$255.2 million carrying value) of senior unsecured notes that bear interest at 6.625% per annum and are due in April 2020.

\$250 million face value (\$248.9 million carrying value) of senior unsecured notes that bear interest at 5.00% per annum and are due in October 2044.

\$250 million face value (\$246.7 million carrying value) of unsecured notes that bear interest at 5.25% per annum and are due in October 2054.

We are allowed to repurchase the notes at specified prepayment premiums. All three tranches of these notes are guaranteed by certain of our subsidiaries.

At June 27, 2015 and December 27, 2014, we had no outstanding borrowings under our revolving credit agreement. The revolving credit agreement contains certain financial covenants that may limit our additional borrowing capability under the agreement. At June 27, 2015, we had the ability to borrow \$581.4 million under this facility, after consideration of standby letters of credit of \$18.6 million associated with certain insurance obligations and international sales commitments. We also maintain certain short-term bank lines of credit totaling \$105.9 million, \$98.8 million of which was unused at June 27, 2015.

Our senior unsecured notes and revolving credit agreement each contain cross-default provisions which permit the acceleration of our indebtedness to them if we default on other indebtedness that results in, or permits, the acceleration of such other indebtedness.

The debt agreements contain covenants that require us to maintain certain coverage ratios and may limit us with respect to certain business activities, including capital expenditures. The debt agreements allow us to add estimated EBITDA from acquired businesses for periods we did not own the acquired business. As such, our calculations below are on an Adjusted EBITDA basis. Our key debt covenants are as follows:

Interest-bearing debt is not to exceed 3.5X Adjusted EBITDA of the prior four quarters; and

Adjusted EBITDA over the prior four quarters must be at least 2.5X our interest expense over the same period.

At June 27, 2015, we were in compliance with all covenants related to the debt agreements. The key covenant calculations at June 27, 2015 were as follows:

|                                     |    |         |

During the third quarter of 2014, we incurred \$38,705 of costs associated with refinancing of debt. This category of expense is not in the definition of EBITDA for debt covenant calculation purposes per our debt agreements. As such, it has not been added back in the Adjusted EBITDA reconciliation to cash flows from operation or net earnings for the four quarters between June 28, 2014 and June 27, 2015.

Our businesses are cyclical, but we have diversity in our markets, from a product, customer and a geographical standpoint. We have demonstrated the ability to effectively manage through business cycles and maintain liquidity. We have consistently generated operating cash flows in excess of our capital expenditures. Based on our available credit facilities, recent issuance of senior unsecured notes and our history of positive operational cash flows, we believe that we have adequate liquidity to meet our needs.

We have not made any provision for U.S. income taxes in our financial statements on approximately \$683.7 million of undistributed earnings of our foreign subsidiaries, as we intend to reinvest those earnings. Of our cash balances at June 27, 2015, approximately \$299.1 million is held in entities outside the United States with \$108.9 million specifically held within consolidated Delta Ltd., a wholly-owned subsidiary of the Company. Delta Ltd. sponsors a defined benefit pension plan and therefore, the Company is allowed to dividend out Delta Ltd.'s available cash only as long as that dividend does not negatively impact Delta Ltd.'s ability to meet its annual contribution requirements of the pension plan. We believe that the cash payments Delta Ltd. receives from its intercompany notes will provide sufficient funds to meet the pension funding requirements but additional analysis on

Table of Contents

pension funding requirements would have to be performed prior to the repatriation of the \$108.9 million of Delta Ltd.'s cash balances.

If we need to repatriate foreign cash balances to the United States to meet our cash needs, income taxes would be paid to the extent that those cash repatriations were undistributed earnings of our foreign subsidiaries. The income taxes that we would pay if cash were repatriated depends on the amounts to be repatriated and from which country. If all of our cash outside the United States were to be repatriated to the United States, we estimate that we would pay approximately \$21.9 million in income taxes to repatriate that cash.

**Financial Obligations and Financial Commitments**

There have been no material changes to our financial obligations and financial commitments as described on page 40 in our Form 10-K for the fiscal year ended December 27, 2014.

**Off Balance Sheet Arrangements**

There have been no changes in our off balance sheet arrangements as described on page 40 in our Form 10-K for the fiscal year ended December 27, 2014.

**Critical Accounting Policies**

There have been no changes in our critical accounting policies as described on pages 42-45 in our Form 10-K for the fiscal year ended December 27, 2014 during the quarter ended June 27, 2015.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Steel is a key material we use and over the last several years, prices for this commodity have been volatile. Our main strategy in managing this risk is a combination of fixed price purchase contracts with our vendors to reduce the volatility and sales price increases where possible. This commodity is most significant for our utility support structures segment where the cost of steel has been approximately 50% of the net sales on average. Assuming a similar sales mix, a hypothetical 20% change in the price of steel would have affected our net sales from our utility support structures by approximately \$30 million on a year-to-date basis ended June 27, 2015.

There were no other material changes in the company's market risk during the quarter ended June 27, 2015. For additional information, refer to the section "Risk Management" in our Form 10-K for the fiscal year ended December 27, 2014.

**Item 4. Controls and Procedures**

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Securities Exchange Act Rule 13a-15. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports the Company files or submits under the Securities Exchange Act of 1934 is (1) accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures and (2) recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms.

On May 13, 2014, we announced a new capital allocation philosophy which covered both the quarterly dividend rate as well as a share repurchase program. Specifically, the Board of Directors authorized the purchase of up to \$500 million of the Company's outstanding common stock from time to time over twelve months at prevailing market prices, through open market or privately-negotiated transactions. On February 24, 2015, the Board of Directors authorized an additional purchase of up to \$250 million of the Company's outstanding common stock with no stated expiration date. As of June 27, 2015, we have acquired 3,700,970 shares for approximately \$516.1 million under this share repurchase program.
