PROSPECTUS SUPPLEMENT SUMMARY

This summary contains basic information about us and this offering. This summary is not complete and does not contain all the information you should consider before investing in our Class A common stock. About Regal Entertainment Group

We operate the largest and most geographically diverse theatre circuit in the United States. The Company's theatre circuit, including Regal Cinemas, United Artists Theatres and Edwards Theatres, operates 7,307 screens in 564 theatres in 42 states along with Guam, Saipan, American Samoa and the District of Columbia as of June 30, 2016, with approximately 217 million attendees for the fiscal year ended December 31, 2015. Our geographically diverse circuit includes theatres in 46 of the top 50 U.S. designated market areas.

We operate multi-screen theatres and, as of June 30, 2016, had an average of 13.0 screens per location, which is well above the North American motion picture exhibition industry average. We develop, acquire and operate multi-screen theatres primarily in mid-sized metropolitan markets and suburban growth areas of larger metropolitan markets throughout the United States.

We maintain an investment in National CineMedia, LLC, or National CineMedia, which concentrates on in-theatre advertising for its theatrical exhibition partners, which includes us, AMC Entertainment, Inc., or AMC, and Cinemark, Inc., or Cinemark. National CineMedia operates the largest digital in-theatre network in North America and utilizes its in-theatre digital content network to distribute pre-feature advertising and cinema and lobby advertising. We also maintain investments in Digital Cinema Implementation Partners, LLC, a joint venture formed by us, AMC and Cinemark to fund the cost of digital projection; Open Road Films, a film distribution company jointly owned by us and AMC; AC JV, LLC, which purchased the Fathom Events business from National CineMedia in December 2013; and Digital Cinema Distribution Coalition, which operates a satellite distribution network that provides digital content to theatres.

Business Strategy

Our business strategy is predicated on our ability to allocate capital effectively to enhance value for our stockholders. This strategy focuses on enhancing our position in the motion picture exhibition industry by capitalizing on prudent industry consolidation and partnership opportunities, managing, expanding and upgrading our existing asset base with new technologies and customer amenities and realizing selective growth opportunities through new theatre construction. Our business strategy should enable us to continue to produce the free cash flow necessary to maintain a prudent allocation of our capital among dividend payments, debt service and repayment and investment in our theatre assets, all to provide meaningful value to our stockholders. Key elements of our business strategy include:

Maximizing Stockholder Value. We believe that our cash dividends are an efficient means of distributing value to our stockholders. From our initial public offering in May 2002 through December 31, 2015, we have returned approximately \$4.1 billion to our stockholders in the form of quarterly and extraordinary cash dividends.

Pursuing Prudent Acquisitions and Strategic Partnerships. We believe that our acquisition experience and capital structure position us well to take advantage of future acquisition opportunities and to participate in various partnership initiatives. We intend to selectively pursue accretive theatre

Table of Contents

acquisitions and theatre-related investments that enhance and more fully utilize our asset base to improve our consolidated operating results and free cash flow.

Pursuing Premium Experience Opportunities. We continue to embrace innovative concepts that generate incremental revenue and cash flows for the Company and deliver a premium movie-going experience for our customers on several complementary fronts, including (i) improvement of customer amenities, primarily through the installation of luxury reclining seats, (ii) enhancement of our customer offerings such as expanding our menu of food and alcoholic beverage products, and (iii) a continued focus on interactive marketing programs (such as mobile ticketing applications and our frequent moviegoer loyalty program, the Regal Crown Club®) aimed at increasing attendance and enhancing the overall customer experience.

Pursuing Selective Growth Opportunities and Active Asset Management. We intend to selectively pursue expansion opportunities through new theatre construction, expansion and upgrades that meet our strategic and financial return criteria. Additionally, we manage our asset base by opportunistically closing underperforming theatres.

Competitive Strengths

We believe that the following competitive strengths position us to capitalize on future opportunities:

Industry Leader. We are the largest domestic motion picture exhibitor operating 7,307 screens in 564 theatres in 42 states along with Guam, Saipan, American Samoa and the District of Columbia as of June 30, 2016. We believe that the quality and size of our theatre circuit is a significant competitive advantage for negotiating attractive national contracts and generating economies of scale. We believe that our market leadership allows us to capitalize on favorable attendance trends and attractive consolidation and partnership opportunities.

Superior Management Drives Strong Operating Margins. Our operating philosophy focuses on efficient operations and strict cost controls at both the corporate and theatre levels. At the corporate level, we are able to capitalize on our size and operational expertise to achieve economies of scale in purchasing and marketing functions. We have developed an efficient purchasing and distribution supply chain that generates favorable concession margins. At the theatre level, management devotes significant attention to cost controls through the use of financial data analysis, detailed management reports and performance-based compensation programs to encourage theatre managers to deliver a premium customer experience while effectively controlling costs and maximizing free cash flow.

Proven Acquisition and Integration Expertise. We have significant experience identifying, completing and integrating acquisitions of theatre circuits. Since our initial public offering in May 2002, we have demonstrated our ability to enhance revenues and realize operating efficiencies through the successful acquisition and integration of nine theatre circuits, consisting of 230 theatres and 2,683 screens. We have generally achieved immediate cost savings at acquired theatres and improved their profitability through the application of our consolidated operating functions and key supplier contracts.

Quality Theatre Portfolio. We believe that we operate one of the most modern theatre circuits among major motion picture exhibitors. In addition, approximately 53% of our locations featured one or more premium amenity offerings as of December 31, 2015. We believe the continued rollout of premium amenities such as luxury reclining seating, a wider array of food and alcoholic beverage offerings and IMAX® and RPXSM screens allow us to deliver a premium movie-going experience for a majority of our customers. Finally, we believe that our modern theatre portfolio coupled with our operating margins should allow us to generate significant cash flows from operations.

EBITDA and Adjusted EBITDA are not measurements of liquidity or performance under GAAP and should not be considered in isolation or construed as a substitute for other operations data or cash flow data prepared in accordance with GAAP for purposes of analyzing our liquidity or performance. In addition, not all funds depicted by EBITDA or Adjusted EBITDA are available for management's discretionary use. For example, a portion of such funds are subject to contractual restrictions and functional requirements to pay debt service, fund necessary capital expenditures and meet other commitments from time to time as described in more detail in our 2015 Annual Report on Form 10-K filed with the SEC on February 29, 2016. EBITDA and Adjusted EBITDA, as calculated, may not be comparable to similarly titled measures reported by other companies or comparable measures in our debt agreements.

In April 2015, the FASB issued ASU 2015-03, Interest Imputation of Interest, which intends to simplify the presentation of debt issuance costs. Prior to the issuance of ASU 2015-03, debt issuance costs were reported on the balance sheet as assets and amortized as interest expense. ASU 2015-03 requires that they be presented on the balance sheet as a direct deduction from the carrying amount of the related debt liability. The costs will continue to be amortized to interest expense using the effective interest method. ASU 2015-03 is to be applied retrospectively and is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. The Company adopted this guidance during the quarter ended March 31, 2016. Debt issuance costs associated with long-term debt, net of accumulated amortization, were \$28.4 million, \$33.1 million, \$30.7 million, \$28.0 million and \$26.1 million as of June 30, 2016, June 30, 2015, December 31, 2015, January 1, 2015 and December 26, 2013, respectively. The balance sheets as of December 31, 2015, June 30, 2015, January 1, 2015 and December 26, 2013 have been recast to reflect the reclassification of debt issuances costs, net of accumulated amortization.

RISK FACTORS

An investment in our Class A common stock involves risks. Before making an investment decision, you should carefully consider the risks described below, as well as the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus, including risk factors described in our most recent Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q or Current Reports on Form 8-K we file after the date of this prospectus supplement, as updated by our subsequent filings under the Exchange Act. The risks and uncertainties described below, in the accompanying prospectus and in the documents incorporated by reference are not the only risks we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations and financial performance. Should one or more of any of these risks materialize, our business, financial condition or results of operations could be materially adversely affected. This could cause a decline in the trading price of our Class A common stock, and you could lose all or part of your investment.

Risks Relating to this Offering and Our Class A Common Stock

This offering will result in a substantial amount of previously restricted shares of our Class A common stock being freely tradable, which may depress the market price of our Class A common stock.

Of the 133,083,540 shares of our Class A common stock issued and outstanding as of July 29, 2016, approximately 37.6% were owned by the Selling Stockholders and The Anschutz Corporation has the right to convert all 23,708,639 shares of its Class B common stock on a one-for-one basis into shares of our Class A common stock at any time. The shares of Class A common stock being sold in this offering were not freely tradable on the NYSE prior to the completion of this offering and the sale by the Selling Stockholders of the shares of Class A common stock in this offering will increase the number of shares of our Class A common stock eligible to be traded on the NYSE, which could depress the market price of our Class A common stock. Sales of a substantial portion of our Class A common stock into the market in this offering and in the future could cause the market price of our Class A common stock to drop significantly.

Sales of substantial amounts of our Class A common stock, or the possibility of such sales, may adversely affect the price of our Class A common stock.

Sales of substantial amounts of our Class A common stock in the public market after this offering, or the perception that such sales will occur, could adversely affect the market price of our Class A common stock and make it difficult for us to raise funds through securities offerings in the future. The Selling Stockholders are selling 13,000,000 of their 50,000,000 shares of Class A common stock and own 23,708,639 shares of our Class B common stock that may be converted into Class A common stock. If these remaining shares are sold, or if it is perceived that they will be sold, into the public market, the price of our Class A common stock could decline substantially.

U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a discussion of certain United States federal income tax considerations relating to the acquisition, holding and disposition of our Class A common stock by a non-U.S. stockholder (as defined below). As used in this section, references to the terms "company," "we," "our," and "us" mean only Regal Entertainment Group and not its subsidiaries or other lower-tier entities, except as otherwise indicated.

This summary is based upon the United States Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), U.S. Treasury Regulations, rulings and other administrative interpretations and practices of the Internal Revenue Service (the "IRS") (including administrative interpretations and practices expressed in private letter rulings which are binding on the IRS only with respect to the particular taxpayers who requested and received those rulings), and judicial decisions, all as currently in effect, and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. We have not sought and will not seek an advance ruling from the IRS regarding any matter discussed in this section. The summary is also based upon the assumption that we will operate the company and its subsidiaries and affiliated entities in accordance with their applicable organizational documents.

This summary is for general information only, and does not purport to discuss all aspects of U.S. federal income taxation that may be important to a particular investor in light of its investment or tax circumstances, including the impact of the Medicare contribution tax on net investment income or to investors subject to special tax rules, including:

broker-dealers;

financial institutions;

holders who receive our Class A common stock as compensation;

insurance companies;

persons other than non-U.S. stockholders (as defined below);

persons holding 10% or more (by vote or value) of our outstanding Class A common stock, except to the extent discussed below;

persons holding our stock as part of a "straddle," "hedge," "conversion transaction," "synthetic security" or other integrated investment or transaction;

persons holding our Class A common stock on behalf of other persons as nominees;

persons holding our Class A common stock through a partnership or similar pass-through entity;

Edgar Filing: REGAL ENTERTAINMENT GROUP - Form 424B7

regulated investment companies, or RICS;

subchapter S corporations;

You are urged to consult your tax advisor regarding the U.S. federal, state, local, and foreign income and other tax consequences to you in light of your particular investment or tax circumstances of acquiring, holding, exchanging, or otherwise disposing of our Class A common stock.

Taxation of Non-U.S. Stockholders

This section summarizes the taxation of non-U.S. stockholders. For these purposes, a non-U.S. stockholder is a beneficial owner of our Class A common stock that for U.S. federal income tax purposes is other than:

a citizen or individual resident of the U.S.;

a corporation (including an entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the U.S. or of a political subdivision thereof (including the District of Columbia);

an estate whose income is subject to U.S. federal income taxation regardless of its source; or

any trust if (i) a U.S. court is able to exercise primary supervision over the administration of such trust and one or more United States persons have the authority to control all substantial decisions of the trust, or (ii) it has a valid election in place to be treated as a United States person.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our Class A common stock, the U.S. federal income tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. A partner of any such partnership holding our Class A common stock should consult its own tax advisor regarding the U.S. federal income tax consequences to the partner of the acquisition, ownership and disposition of our Class A common stock by the partnership.

Distributions

If distributions are paid on shares of our Class A common stock, the distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent a distribution exceeds our current and accumulated earnings and profits, it will constitute a return of capital that is applied against and reduces, but not below zero, the adjusted tax basis of your shares in our Class A common stock. Any remainder will constitute gain on the Class A common stock as described below under "Disposition." The gross amount of dividends paid to a non-U.S. stockholder generally will be subject to withholding of U.S. federal income tax at the rate of 30% or such lower rate as may be specified by an applicable income tax treaty. If the dividend is effectively connected with the non-U.S. stockholder's conduct of a trade or business in the United States or, if a tax treaty requires, attributable to a U.S. permanent establishment maintained by such non-U.S. stockholder, the dividend will not be subject to any withholding tax, provided certification requirements are met, as described below, but will be subject to U.S. federal income tax imposed on net income on the same basis that applies to U.S. persons generally. A non-U.S. stockholder that is taxable as a corporation for U.S. federal income tax purposes may, under certain circumstances, also be subject to a branch profits tax equal to 30%, or such lower rate as may be specified by an applicable income tax treaty, on a portion of its effectively connected earnings and profits for the taxable year.

To claim the benefit of a tax treaty or to claim exemption from withholding because the income is effectively connected with the conduct of a trade or business in the United States, a non-U.S. stockholder must provide a properly executed IRS Form W-8BEN or IRS Form W-8BEN-E for treaty benefits or W-8ECI for effectively connected income, or such successor forms as the IRS designates, prior to the payment of dividends. These forms must be periodically updated. Non-U.S. stockholders

Table of Contents

generally may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. stockholders should consult their own tax advisors regarding the potential applicability (including their eligibility for the benefits) of any income tax treaty.

Disposition

A non-U.S. stockholder generally will not be subject to U.S. federal income tax, including by way of withholding, on gain recognized on a sale or other disposition of shares of our Class A common stock unless any one of the following is true:

the gain is effectively connected with the non-U.S. stockholder's conduct of a trade or business in the United States and, if a tax treaty applies, attributable to a U.S. permanent establishment or fixed base maintained by such non-U.S. stockholder;

the non-U.S. stockholder is a nonresident alien individual present in the United States for 183 days or more in the taxable year of the disposition and certain other requirements are met; or

our Class A common stock constitutes a U.S. real property interest by reason of our status as a "United States real property holding corporation," or USRPHC, for U.S. federal income tax purposes at any time during the shorter of (i) the period during which you hold our Class A common stock or (ii) the five-year period ending on the date you dispose of our Class A common stock.

We believe that we are not currently, and will not become, a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property interests relative to the fair market value of our other business assets, there can be no assurance that we will not become a USRPHC in the future. As a general matter, as long as our Class A common stock is regularly traded on an established securities market, however, it will not be treated as a U.S. real property interest with respect to any non-U.S. stockholder that holds no more than 5% of such regularly traded Class A common stock. If we are determined to be a USRPHC and the foregoing exception does not apply, among other things, a purchaser may be required to withhold 15% of the proceeds payable to a non-U.S. stockholder from a disposition of our Class A common stock, and the non-U.S. stockholder generally will be taxed on its net gain derived from the disposition at the graduated U.S. federal income tax rates applicable to United States persons, and may also be subject to alternative minimum tax.

Unless an applicable treaty provides otherwise, gain described in the first bullet point above will be subject to the U.S. federal income tax imposed on net income on the same basis that applies to U.S. persons generally but will generally not be subject to withholding. A non-U.S. stockholder that is taxable as a corporation for U.S. federal income tax purposes may, under certain circumstances, also be subject to a branch profits tax equal to 30%, or such lower rate as may be specified by an applicable income tax treaty, on such gain. Gain described in the second bullet point above will be subject to a flat 30% U.S. federal income tax, which may be offset by certain U.S. source capital losses. Non-U.S. stockholders should consult any potentially applicable income tax treaties that may provide for different rules.

Information Reporting and Backup Withholding

Information reporting and backup withholding may apply to dividends paid with respect to our Class A common stock and to proceeds from the sale or other disposition of our Class A common stock. Except for information reporting on dividends, which always applies, in certain circumstances, non-U.S. stockholders may not be subject to information reporting and backup withholding if they certify under penalties of perjury as to their status as non-U.S. stockholders or otherwise establish an

Table of Contents

exemption and certain other requirements are met. Non-U.S. stockholders should consult their own tax advisors regarding the application of the information reporting and backup withholding rules to them. Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the non-U.S. stockholder resides or is established.

Backup withholding is not an additional tax. Amounts withheld under the backup withholding rules from a payment to a non-U.S. stockholder generally may be refunded or credited against the non-U.S. stockholder's U.S. federal income tax liability, if any, provided that an appropriate claim is timely filed with the IRS.

Withholding on Payments to Certain Foreign Entities

The Foreign Account Tax Compliance Act ("FATCA"), which was enacted in 2010, imposes a 30% withholding tax on certain types of payments made to "foreign financial institutions" and certain other non-U.S. entities unless certain due diligence, reporting, withholding, and certification obligation requirements are satisfied.

The Treasury Department and the IRS have issued final regulations under FATCA. As a general matter, FATCA imposes a 30% withholding tax on dividends on, and gross proceeds from the sale or other disposition of, our Class A common stock if paid to a foreign entity unless either (i) the foreign entity is a "foreign financial institution" that undertakes certain due diligence, reporting, withholding, and certification obligations, or in the case of a foreign financial institution that is a resident in a jurisdiction that has entered into an intergovernmental agreement to implement FATCA, the entity complies with the diligence and reporting requirements of such agreement, (ii) the foreign entity is not a "foreign financial institution" and identifies certain of its U.S. investors, or (iii) the foreign entity otherwise is excepted under FATCA. Under delayed effective dates provided for in the regulations and subsequent guidance, the required withholding began July 1, 2014 with respect to dividends on our stock, but will not begin until January 1, 2019 with respect to gross proceeds from a sale or other disposition of our stock.

If withholding is required under FATCA on a payment related to our stock, investors that otherwise would not be subject to withholding (or that otherwise would be entitled to a reduced rate of withholding) generally will be required to seek a refund or credit from the IRS to obtain the benefit of such exemption or reduction (provided that such benefit is available). Prospective investors should consult their own tax advisors regarding the effect of FATCA in their particular circumstances.

U.S. Federal Estate Taxes

Shares of our Class A common stock owned or treated as owned by an individual who at the time of death is a non-U.S. stockholder are considered U.S. situs assets and will be included in the individual's estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

State, Local and Foreign Taxes

Our stockholders may be subject to state, local or foreign taxation in various jurisdictions, including those in which we or they transact business, own property or reside. We may conduct business or own assets located in numerous U.S. jurisdictions, and may be required to file tax returns in some or all of those jurisdictions. The state, local and foreign tax treatment of our stockholders may not conform to the U.S. federal income tax treatment discussed above. Prospective investors should consult their tax advisors regarding the application and effect of state, local and foreign income and other tax laws on an investment in our Class A common stock.

The Selling Stockholders have agreed not to sell or transfer any Class A common stock or securities convertible into, exchangeable for, exercisable for, or repayable with Class A common stock, for 60 days after the date of this prospectus supplement without first obtaining the written consent of Merrill Lynch, Pierce, Fenner & Smith Incorporated. Specifically, the Selling Stockholders have agreed, with certain limited exceptions, not to directly or indirectly

offer, pledge, sell or contract to sell any Class A common stock,

sell any option or contract to purchase any Class A common stock,

purchase any option or contract to sell any Class A common stock,

grant any option, right or warrant for the sale of any Class A common stock,

lend or otherwise dispose of or transfer any Class A common stock,

request or demand that we file a registration statement related to the Class A common stock, or

enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any Class A common stock whether any such swap or transaction is to be settled by delivery of shares or other securities, in cash or otherwise.

This lock-up provision applies to Class A common stock and to securities convertible into or exchangeable or exercisable for or repayable with Class A common stock. In connection with the sale of the shares of Class A common stock offered hereby, the underwriter may be deemed to have received compensation in the form of

Table of Contents

The underwriter may offer the shares of Class A common stock from time to time for sale in one or more transactions on the New York Stock Exchange, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. The underwriter may effect such transactions by selling shares of Class A common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriter and / or purchasers of shares of Class A common stock for whom they may act as agents or to whom they may sell as principal.

The estimated offering expenses initially payable by us are approximately \$300,000. The Selling Stockholders have agreed to reimburse us for such expenses.

Short Positions

In connection with the offering, the underwriter may purchase and sell our Class A common stock in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriter of a greater number of shares than it is required to purchase in the offering. The underwriter must close out any short position by purchasing shares in the open market. Similar to other purchase transactions, the underwriter's purchases to cover short sales may have the effect of raising or maintaining the market price of our Class A common stock or preventing or retarding a decline in the market price of our Class A common stock. As a result, the price of our Class A common stock may be higher than the price that might otherwise exist in the open market. The underwriter may conduct these transactions on the New York Stock Exchange, in the over-the-counter market or otherwise. Neither we nor any of the Selling Stockholders nor the underwriter make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our Class A common stock. In addition, neither we nor any of the Selling Stockholders nor the underwriter make any representation that the underwriter will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

New York Stock Exchange

The shares are listed on the New York Stock Exchange under the symbol "RGC."

Electronic Distribution

In connection with the offering, the underwriter may distribute this prospectus supplement and the accompanying prospectus by electronic means, such as e-mail.

Other Relationships

The underwriter and its affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. The underwriter has received, or may in the future receive, customary fees and commissions for these transactions. The underwriter is a lender under Regal Cinemas' senior credit facility.

In addition, in the ordinary course of its business activities, the underwriter and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriter and its affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

European Economic Area

In relation to each Member State of the European Economic Area, no offer of ordinary shares which are the subject of the offering has been, or will be made to the public in that Member State, other than under the following exemptions under the Prospectus Directive:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the underwriter for any such offer; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of ordinary shares referred to in (a) to (c) above shall result in a requirement for the Company or the underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person located in a Member State to whom any offer of ordinary shares is made or who receives any communication in respect of an offer of ordinary shares, or who initially acquires any ordinary shares will be deemed to have represented, warranted, acknowledged and agreed to and with the underwriter and the Company that (1) it is a "qualified investor" within the meaning of the law in that Member State implementing Article 2(1)(e) of the Prospectus Directive; and (2) in the case of any ordinary shares acquired by it as a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, the ordinary shares acquired by it in the offer have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Member State other than qualified investors, as that term is defined in the Prospectus Directive, or in circumstances in which the prior consent of the underwriter has been given to the offer or resale; or where ordinary shares have been acquired by it on behalf of persons in any Member State other than qualified investors, the offer of those ordinary shares to it is not treated under the Prospectus Directive as having been made to such persons.

The Company, the underwriter and their respective affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgments and agreements.

This prospectus has been prepared on the basis that any offer of shares in any Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly, any person making or intending to make an offer in that Member State of shares which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for the Company or the underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the Company nor the underwriter has authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for the Company or the underwriter to publish a prospectus for such offer.

For the purposes of this provision, the expression an "offer of ordinary shares to the public" in relation to any ordinary shares in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the ordinary shares to be offered so as to enable an investor to decide to purchase or subscribe the ordinary shares, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression "Prospectus Directive" means Directive 2003/71/EC (as amended) and includes any relevant implementing measure in each Member State.

The above selling restriction is in addition to any other selling restrictions set out below.

This prospectus and the documents incorporated by reference herein include "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and we are including this statement for purposes of invoking these safe harbor provisions. All statements other than statements of historical facts included, or incorporated by reference, in this prospectus, including, without limitation, certain statements regarding our financial position, future plans, strategies and expectations on revenue growth, expansion opportunities, strategic acquisitions, and partnerships operating costs and expenses, and industry trends, may constitute forward-looking statements. In some cases you can identify these forward-looking statements by words like "may," "will," "should," "expects," "plans," "anticipates," "intends," "foresees," "believes," "estimates," "predicts," "potential" or "continue" or the negative of those words and other comparable words.

These forward-looking statements involve risks and uncertainties. Our actual results could differ materially from those indicated in these statements as a result of certain risk factors as more fully discussed in the section entitled "Risk Factors" below. Specific factors that might cause actual results to differ from our expectations include, but are not limited to:

our substantial debt and lease obligations and the availability and adequacy of cash flow to meet our lease obligations and debt service requirements, including payments of amounts due under our notes and Regal Cinemas' senior credit facility;

the operating restrictions and other restrictive covenants in our and our subsidiaries' debt agreements;

our debt service obligations requiring a significant amount of cash, which depends on many factors beyond our control;

our dependence on motion picture production and performance and our relationships with film distributors;

any increase in the use of alternative film delivery methods that may drive down movie theatre attendance and reduce our revenue;

the competitive environment in which we operate our theatres;

our strategic acquisition strategy, partnerships and investments, including our investment in National CineMedia, LLC, not providing anticipated or desired benefits;

our reliance on our information systems to conduct our business, and any failure to protect these systems against security breaches or the failure or unavailability of these systems;

economic, political and social conditions materially affecting our business by reducing consumer spending on movie attendance or having an impact on our business and financial condition in ways that we currently cannot predict;

our dependence on senior management;

the substantial government regulations to which we are subject;

our control by Anschutz Company;

our dependence as a holding company on our subsidiaries to service our debt and pay our dividends; and

other factors discussed under the section entitled "Risk Factors" or elsewhere in this prospectus or any prospectus supplement, including in the filings with the SEC that are incorporated by reference in this prospectus supplement.

The forward-looking statements included or incorporated herein are made only as of the date of this prospectus, any prospectus supplement or as of the date of the documents incorporated by reference. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we do not guarantee future results and undertake no obligation to update the forward-looking statements whether as a result of new information, future developments or otherwise, unless we have obligations under the federal securities laws to update and disclose material developments to previously disclosed information.

RISK FACTORS

Investing in our securities involves a high degree of risk. You should carefully consider the risks described under "Risk Factors" in Item 1A of our most recent Annual Report on Form 10-K and Item 1A of Part II of each subsequently filed Quarterly Report on Form 10-Q and in the other documents incorporated by reference into this prospectus, as well as the other information contained or incorporated by reference in this prospectus and in any accompanying prospectus supplement before making a decision to invest in our securities. See "Where You Can Find More Information" and "Incorporation by Reference."

USE OF PROCEEDS

Unless we otherwise state in the applicable prospectus supplement, we will use the net proceeds from the sale of the offered securities for general corporate purposes. General corporate purposes may include repayment of debt, additions to working capital, capital expenditures, investments in our subsidiaries, possible acquisitions and the repurchase, redemption or retirement of securities, including our common stock. The net proceeds may be temporarily invested or applied to repay short-term or revolving debt prior to use. We will not receive any proceeds of any sales by selling securityholders.

DESCRIPTION OF DEBT SECURITIES

We may issue debt securities from time to time in one or more series, which may include senior debt securities, subordinated debt securities, convertible debt securities and exchangeable debt securities. The particular terms of any series of debt securities and the extent to which the general provisions may apply to a particular series of debt securities will be described in the prospectus supplement relating to that series. Our debt securities will be issued under an indenture (the "indenture") between Regal Entertainment Group and Wilmington Trust, National Association, as trustee thereunder (the "trustee").

Table of Contents

The following summary of the indenture does not purport to be complete and is subject to, and qualified in its entirety by reference to, all of the provisions of the indenture, including definitions therein of certain terms. This summary may not contain all of the information that you may find useful. The indenture is an exhibit to the registration statement of which this prospectus forms a part. A form of each debt security, reflecting the specific terms and provisions of that series of debt securities, will be filed with the SEC in connection with each offering and will be incorporated by reference in the registration statement of which this prospectus forms a part. You may obtain a copy of the indenture and any form of debt security that has been filed in the manner described under "Where You Can Find More Information."

For a comprehensive description of any series of debt securities being offered to you pursuant to this prospectus, you should read this prospectus, the indenture and the applicable prospectus supplement and form of debt security.

General Terms of the Indenture

The indenture does not limit the amount of debt securities that we may issue. It provides that we may issue debt securities up to the principal amount that we may authorize, which may be in any currency or currency unit that we may designate. Except for the limitations on consolidation, merger and sale of all or substantially all of our assets contained in the indenture, the terms of the indenture do not contain any covenants or other provisions designed to give holders of any debt securities protection against changes in our operations, financial condition or transactions involving us. For each series of debt securities, any restrictive covenants for those debt securities will be described in the applicable prospectus supplement for those debt securities.

We may issue the debt securities issued under the indenture as "discount securities," which means they may be sold at a discount below their stated principal amount. These debt securities, as well as other debt securities that are not issued at a discount, may, for United States federal income tax purposes, be treated as if they were issued with "original issue discount," or OID, because of interest payment and other characteristics. Special United States federal income tax considerations applicable to debt securities issued with original issue discount will be described in more detail in any applicable prospectus supplement.

You should refer to the prospectus supplement relating to a particular series of debt securities for a description of the following terms of the debt securities offered by that prospectus supplement and by this prospectus:

the title and authorized denominations of those debt securities;

any limit on the aggregate principal amount of that series of debt securities;

the date or dates on which principal and premium, if any, of the debt securities of that series is payable;

if the amount of payments of principal or interest is to be determined by reference to an index or formula, or based on a coin or currency other than that in which the debt securities are stated to be payable, the manner in which these amounts are determined and the calculation agent, if any, with respect thereto;

the terms, if any, on which the debt securities of that series and any guarantees thereof will be subordinate in right and priority of payment to our other debt;

if the principal of or any premium or interest on the debt securities of that series is to be payable, or is to be payable at our election or the election of a holder of those securities, in securities or other property, the type and amount of those securities or other property, or the manner of determining that amount, and the period or periods within which, and the terms and conditions upon which, any such election may be made;

any other specific terms of any debt securities.

The applicable prospectus supplement will present material United States federal income tax considerations for holders of any debt securities and the securities exchange or quotation system on which any debt securities are to be listed or quoted.

Table of Contents

Conversion or Exchange Rights

Debt securities may be convertible into or exchangeable for shares of Regal Entertainment Group's equity securities or other securities. The terms and conditions of conversion or exchange will be stated in the applicable prospectus supplement. The terms will include, among others, the following:

the conversion or exchange price;

the conversion or exchange period;

provisions regarding our ability or the ability of any holder to convert or exchange the debt securities;

events requiring adjustment to the conversion or exchange price; and

provisions affecting conversion or exchange in the event of our redemption of the debt securities.

Consolidation, Merger or Sale

The terms of the indenture prevent us from consolidating or merging with or into, or conveying, transferring or leasing all or substantially all of our assets to, any person, unless (i) we are the surviving corporation or the successor corporation or person to which our assets are conveyed, transferred or leased is organized under the laws of the United States, any state of the United States or the District of Columbia and it expressly assumes our obligations under the debt securities and the indenture and (ii) immediately after completing such a transaction, no event of default under the indenture, and no event that, after notice or lapse of time or both, would become an event of default under the indenture, has occurred and is continuing. When the person to whom our assets are conveyed or transferred has assumed our obligations under the debt securities and the indenture, we will be discharged from all our obligations under the debt securities and the indenture except in limited circumstances.

This covenant would not apply to any recapitalization transaction, a change of control affecting us or a highly leveraged transaction, unless the transaction or change of control were structured to include a merger or consolidation or conveyance, transfer or lease of all or substantially all of our assets.

Events of Default

The indenture provides that the following will be "events of default" with respect to any series of debt securities:

failure to pay interest for 30 days after the date payment is due and payable;

failure to pay principal or premium, if any, on any debt security when due, either at maturity, upon any redemption, by declaration or otherwise;

failure to make sinking fund payments when due and continuance of such default for a period of 30 days;

failure to perform other covenants for 60 days after notice of such default or breach and request for it to be remedied;

events in bankruptcy, insolvency or reorganization relating to us; or

Edgar Filing: REGAL ENTERTAINMENT GROUP - Form 424B7

any other event of default provided in the officer's certificate, resolution of our board of directors or the supplemental indenture under which we issue a series of debt securities.

An event of default for a particular series of debt securities does not necessarily constitute an event of default for any other series of debt securities issued under the indenture. For each series of debt securities, any modifications to the above events of default will be described in the applicable prospectus supplement for those debt securities.

Table of Contents

The indenture provides that if an event of default specified in the first, second, third, fourth or sixth bullets above occurs and is continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount of all those debt securities (or, in the case of discount securities or indexed securities, that portion of the principal amount as may be specified in the terms of that series) will be due and payable immediately. If an event of default specified in the fifth bullet above occurs and is continuing, then the principal amount of all those debt securities (or, in the case of discount securities or indexed securities, that portion of the principal amount as may be specified in the terms of that series) will be due and payable immediately, without any declaration or other act on the part of the trustee or any holder. In certain cases, the holders of a majority in principal amount of the outstanding debt securities of any series may, on behalf of holders of all those debt securities, waive any past default and consequences of such default.

The indenture imposes limitations on suits brought by holders of debt securities against us. Except for actions for payment of overdue principal or interest, no holder of debt securities of any series may institute any action against us under the indenture unless:

the holder has previously given to the trustee written notice of a continuing default;

the holders of at least 25% in principal amount of the outstanding debt securities of the affected series have requested that the trustee institute the action;

the requesting holders have offered the trustee indemnity for the costs, expenses and liabilities that may be incurred by bringing the action;

the trustee has not instituted the action within 60 days of the request and offer of indemnity; and

the trustee has not received inconsistent direction by the holders of a majority in principal amount of the outstanding debt securities of the affected series.

We will be required to file annually with each trustee a certificate, signed by one of our officers, stating whether or not the officer knows of any default by us in the performance, observance or fulfillment of any condition or covenant of the indenture.

Discharge, Defeasance and Covenant Defeasance

We can discharge or decrease our obligations under the indenture as stated below.

We may discharge obligations to holders of any series of debt securities that have not already been delivered to the trustee for cancellation and that have either become due and payable or are by their terms to become due and payable, or are scheduled for redemption, within one year. We may effect a discharge by irrevocably depositing with the trustee cash or government obligations denominated in the currency of the debt securities, as trust funds, in an amount certified to be enough to pay when due, whether at maturity, upon redemption or otherwise, the principal of, and any premium and interest on, the debt securities and any mandatory sinking fund payments.

Unless otherwise provided in the applicable prospectus supplement, we may also discharge certain of our obligations to holders of any series of debt securities at any time, which we refer to as defeasance. We may also be released from the obligations imposed by certain covenants of outstanding series of debt securities and provisions of the indenture, and we may omit to comply with those covenants without creating an event of default under the indenture, which we refer to as covenant defeasance. We may effect defeasance and covenant defeasance only if, among other things:

we irrevocably deposit with the trustee cash or government obligations denominated in the currency of the debt securities, as trust funds, in an amount certified by a nationally recognized

Table of Contents

firm of independent certified accountants to be enough to pay at maturity, or upon redemption, the principal (including any mandatory sinking fund payments) of, and any premium and interest on, all outstanding debt securities of the series; and

we deliver to the trustee an opinion of counsel to the effect that the holders of the series of debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the defeasance or covenant defeasance and that defeasance or covenant defeasance will not otherwise alter the holders' U.S. federal income tax treatment of principal, and any premium and interest payments on, the series of debt securities.

In the case of a defeasance by us, the opinion we deliver must be based on a ruling of the Internal Revenue Service issued, or a change in U.S. federal income tax law occurring, after the date of the indenture.

Although we may discharge or decrease our obligations under the indenture as described in the preceding paragraphs, we may not discharge certain enumerated obligations, including but not limited to, our duty to register the transfer or exchange of any series of debt securities, to replace any temporary, mutilated, destroyed, lost or stolen series of debt securities or to maintain an office or agency in respect of any series of debt securities.

Modification of the Indenture

The indenture provides that we and the trustee may enter into supplemental indentures without the consent of the holders of debt securities to, among other things:

evidence the assumption by a successor entity of our obligations;

add to our covenants for the benefit of the holders of debt securities, or to surrender any rights or power conferred upon us;

add any additional events of default;

cure any ambiguity or correct any inconsistency or defect in the indenture provided that it does not adversely affect the interests of the holders of any outstanding debt securities in any material respect;

add to, change or eliminate any of the provisions of the indenture in a manner that will become effective only when there is no outstanding debt security which is entitled to the benefit of the provision as to which the modification would apply;

add guarantees to or secure any debt securities;

establish the forms or terms of debt securities of any series;

evidence and provide for the acceptance of appointment by a successor trustee and add to or change any of the provisions of the indenture as is necessary for the administration of the trusts by more than one trustee;

add to or change any provision of the indenture as is necessary to permit or facilitate the issuance of debt securities in bearer form;

change the location of (i) payment of principal, premium or interest; (ii) surrender of the debt securities for registration, transfer or exchange and (iii) notices and demands to or upon us;

supplement any provision of the indenture to permit or facilitate the defeasance and discharge of any debt securities provided that it does not adversely affect the interests of the holders of any outstanding debt securities in any material respect;

Edgar Filing: REGAL ENTERTAINMENT GROUP - Form 424B7

Table of Contents

conform the terms of any debt securities to the description of such debt securities in the prospectus and prospectus supplement offering the debt securities provided that it does not adversely affect the interests of the holders of any outstanding debt securities in any material respect;

eliminate any provision that was required at the time we entered into the indenture but, as a result of an amendment to the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act"), is no longer required;

modify, eliminate or add to the provisions of the indenture to effect or evidence any change required by an amendment to the Trust Indenture Act; and

make any other provisions with respect to matters or questions arising under the indenture as long as the new provisions do not adversely affect the interests of the holders of any outstanding debt securities of any series created prior to the modification in any material respect.

Any provision of the indenture shall automatically be deemed to have been modified, eliminated or added to the extent required to be made as a result of an amendment to the Trust Indenture Act.

The indenture also provides that we and the trustee may, with the consent of the holders of not less than a majority in aggregate principal amount of debt securities of each series of debt securities affected by such supplemental indenture then outstanding, add any provisions to, or change in any manner, eliminate or modify in any way the provisions of, the indenture or any supplemental indenture or modify in any manner the rights of the holders of the debt securities. We and the trustee may not, however, without the consent of the holder of each outstanding debt security affected thereby:

extend the final maturity of any debt security;

reduce the principal amount or premium, if any;

reduce the rate or extend the time of payment of interest;

change the method of calculating the rate of interest in a manner adverse to the holders of any outstanding debt securities;

reduce the amount of the principal of any debt security issued with an original issue discount that is payable upon acceleration;

change the currency in which the principal, and any premium or interest, is payable;

impair the right to institute suit for the enforcement of any payment on any debt security when due;

if applicable, adversely affect the right of a holder to convert or exchange a debt security; or

reduce the percentage of holders of debt securities of any series whose consent is required for any modification of the indenture or for waivers of compliance with or defaults under the indenture with respect to debt securities of that series.

Edgar Filing: REGAL ENTERTAINMENT GROUP - Form 424B7

The indenture provides that the holders of not less than a majority in aggregate principal amount of the then outstanding debt securities of any series, by notice to the relevant trustee, may on behalf of the holders of the debt securities of that series waive any default and its consequences under the indenture except:

a default in the payment of the principal of or premium or interest on any such debt security; or

a default in respect of a covenant or provision of the indenture that cannot be modified or amended without the consent of the holder of each outstanding debt security of each series affected.

Table of Contents

Registered Global Securities and Book Entry System

The debt securities of a series may be issued in whole or in part in book-entry form and may be represented by one or more fully registered global securities. We will deposit any registered global securities with a depositary or with a nominee for a depositary identified in the applicable prospectus supplement or with its custodian and such global securities shall be registered in the name of such depositary or nominee. In such case, we will issue one or more registered global securities denominated in an amount equal to the aggregate principal amount of all of the debt securities of the series to be issued and represented by such registered global security or securities. This means that we will not issue certificates to each holder.

Unless and until it is exchanged in whole or in part for debt securities in definitive registered form, a registered global security may not be transferred except as a whole:

by the depositary for the registered global security to its nominee;

by a nominee of the depositary to the depositary or another nominee of the depositary; or

by the depositary or its nominee to a successor of the depositary or a nominee of the successor.

The prospectus supplement relating to a series of debt securities will describe the specific terms of the depositary arrangement involving any portion of the series represented by a registered global security. We anticipate that the following provisions will apply to all depositary arrangements for debt securities:

ownership of beneficial interests in a registered global security will be limited to persons that have accounts with the depositary for such registered global security, these persons being referred to as "participants," or persons that may hold interests through participants;

upon the issuance of a registered global security, the depositary for the registered global security will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal amounts of the debt securities represented by the registered global security beneficially owned by the participants;

any dealers, underwriters or agents participating in the distribution of the debt securities will designate the accounts to be credited; and

ownership of beneficial interest in the registered global security will be shown on, and the transfer of the ownership interest will be effected only through, records maintained by the depositary for the registered global security for interests of participants, and on the records of participants for interests of persons holding through participants.

The laws of some states may require that specified purchasers of securities take physical delivery of the securities in definitive form. These laws may limit the ability of those persons to own, transfer or pledge beneficial interests in registered global securities.

So long as the depositary for a registered global security, or its nominee, is the registered owner of the registered global security, the depositary or such nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by the registered global security for all purposes under the indenture. Except as stated below, owners of beneficial interests in a registered global security:

will not be entitled to have the debt securities represented by a registered global security registered in their names;

will not receive or be entitled to receive physical delivery of the debt securities in the definitive form; and

Table of Contents

will not be considered the owners or holders of the debt securities under the indenture.

Accordingly, each person owning a beneficial interest in a registered global security must rely on the procedures of the depositary for the registered global security and, if the person is not a participant, on the procedures of a participant through which the person owns its interest, to exercise any rights of a holder under the indenture.

We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a registered global security desires to give or take any action that a holder is entitled to give or take under the indenture, the depositary for the registered global security would authorize the participants holding the relevant beneficial interests to give or take the action, and the participants would authorize beneficial owners owning through the participants to give or take the action or would otherwise act upon the instructions of beneficial owners holding through them.

We will make payments of principal and premium, if any, and interest, if any, on debt securities represented by a registered global security registered in the name of a depositary or its nominee to the depositary or its nominee, as the case may be, as the registered owners of the registered global security. Neither we nor the trustee, nor any other agent of ours or the trustee will be responsible or liable for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the registered global security or for maintaining, supervising or reviewing any records relating to the beneficial ownership interests.

We expect that the depositary for any debt securities represented by a registered global security, upon receipt of any payments of principal and premium, if any, and interest, if any, in respect of the registered global security, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the registered global security as shown on the records of the depositary. We also expect that standing customer instructions and customary practices will govern payments by participants to owners of beneficial interests in the registered global security held through the participants, as is now the case with the securities held for the accounts of customers in bearer form or registered in "street name." We also expect that any of these payments will be the responsibility of the participants.

If the depositary for any debt securities represented by a registered global security is at any time unwilling or unable to continue as depositary, we will appoint an eligible successor depositary. If we fail to appoint an eligible successor depositary within 90 days, or if an event of default has occurred and is continuing and the holders of a majority in aggregate principal amount of the then outstanding debt securities of any series so request, we will issue the debt securities in definitive form in exchange for the registered global security. In addition, we may at any time and in our sole discretion and subject to the depositary's procedures decide not to have any of the debt securities of a series represented by one or more registered global securities. In that event, we will issue debt securities of the series in a definitive form in exchange for all of the registered global securities representing the debt securities. The trustee will register any debt securities issued in definitive form in exchange for a registered global security in the name or names as the depositary, based upon instructions from its participants, shall instruct such trustee.

We may also issue bearer debt securities of a series in the form of one or more global securities, referred to as "bearer global securities." We will deposit these securities with a depositary identified in the prospectus supplement relating to the series. The prospectus supplement relating to a series of debt securities represented by a bearer global security will describe the applicable terms and procedures. These will include the specific terms of the depositary arrangement and any specific procedures for the issuance of debt securities in definitive form in exchange for a bearer global security, in proportion to the series represented by a bearer global security.

Table of Contents

Concerning the Trustee

The indenture provides that in the event that the trustee resigns or is removed with respect to less than all series of debt securities outstanding under the indenture, there may be more than one trustee under the indenture. If there are different trustees for different series of debt securities under the indenture, each such trustee will be a trustee of a trust under the indenture separate and apart from the trust administered by any other trustee under the indenture. Except as otherwise indicated in this prospectus or any prospectus supplement, any action permitted to be taken by a trustee may be taken by such trustee only on the one or more series of debt securities for which it is the trustee under the indenture. Any trustee under the indenture may resign or be removed from one or more series of debt securities.

The indenture provides that, except during the continuance of an event of default, the trustee will perform only such duties as are specifically set forth in the indenture. During the existence of an event of default, the trustee will exercise those rights and powers vested in it under the indenture and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The trustee may engage in other transactions with us. If a trustee acquires any conflicting interest relating to any duties concerning the debt securities, however, such trustee must eliminate the conflict or resign as trustee.

No Individual Liability of Incorporators, Stockholders, Officers or Directors

The indenture provides that no past, present or future director, officer, stockholder or employee of ours, any of our affiliates, or any successor corporation, in their capacity as such, shall have any individual liability for any of our obligations, covenants or agreements under the debt securities or the indenture.

Governing Law

The indenture is, and any debt securities will be, governed by, and construed in accordance with, the laws of the State of New York.

Common Stock

The Class A common stock and the Class B common stock are identical in all respects, except with respect to voting and except that each share of Class B common stock will convert into a single share of Class A common stock at the option of the holder or upon a transfer of the holder's Class B common stock, other than to certain transferees. Each holder of Class A common stock is entitled to one vote for each outstanding share of Class A common stock owned by that stockholder on every matter properly submitted to the stockholders for their vote. Each holder of Class B common stock is entitled to ten votes for each outstanding share of Class B common stock owned by that stockholder on every matter properly submitted to the stockholders for their vote. Except as required by law, the Class A common stock and the Class B common stock vote together on all matters. Subject to the dividend rights of holders of any outstanding preferred stock, holders of common stock are entitled to any dividend declared by the board of directors out of funds legally available for this purpose, and, subject to the liquidation preferences of any outstanding preferred stock, holders of common stock are entitled to receive, on a pro rata basis, all our remaining assets available for distribution to the stockholders in the event of our liquidation, dissolution or winding up. No dividend can be declared on the Class A or Class B common stock unless at the same time an equal dividend is paid on each share of Class B or Class A common stock, as the case may be. Dividends paid in shares of common stock must be paid, with respect to a particular class of common stock, in shares of that class. Holders of common stock do not have any preemptive right to become subscribers or purchasers of additional shares of any class of our capital stock. The outstanding shares of common stock are, when issued and paid for, fully paid and nonassessable. The rights, preferences and privileges of holders of common stock may be adversely affected by the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Preferred Stock

Our amended and restated certificate of incorporation allows us to issue, without stockholder approval, preferred stock having rights senior to those of the common stock. Our board of directors is authorized, without further stockholder approval, to issue up to 50,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions of any series of preferred stock, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, and to fix the number of shares constituting any series and the designations of these series. We will file a copy of the certificate of designations that contains the terms of any new series of preferred stock with the SEC each time we issue a new series of preferred stock, and these certificates of designations will be incorporated by reference into the registration statement of which this prospectus is a part. Each certificate of designation will establish the number of shares included in a designated series and fix the designations, powers, privileges, preferences and rights of the shares of each series as well as any applicable qualifications, limitations or restrictions.

Our issuance of preferred stock could decrease the amount of earnings and assets available for distribution to the holders of common stock or could adversely affect the rights and powers, including voting rights, of the holders of common stock. The issuance of preferred stock could also have the effect of decreasing the market price of the Class A common stock. As of August 28, 2015, no shares of preferred stock are outstanding. We currently have no plans to issue any shares of preferred stock.

Power to Issue Additional Shares of Stock

We believe that the power of our board of directors to issue additional shares of common stock or preferred stock will provide us with increased flexibility in structuring possible future financings and acquisitions and in meeting other needs which might arise. The preferred stock and the Class A common stock are available for issuance without further action by our stockholders, unless such action is required by applicable law or the rules of any stock exchange or automated quotation system on

which our securities may be listed or traded. Although we have no current intention of doing so, we could issue a class or series of stock that could have the effect of delaying or preventing a change in control or making removal of management more difficult.

Anti-Takeover Provisions

The provisions of our amended and restated certificate of incorporation and our amended and restated bylaws, as amended, may be deemed to have an anti-takeover effect and may delay, defer or prevent a tender offer or takeover attempt that a stockholder might consider in its best interest, including those attempts that might result in a premium over the market price for the shares held by stockholders.
