MERCURY SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands except per share data)

(Unaudited)

A. Description of Business

Mercury Systems, Inc. (the "Company" or "Mercury") provides affordable, commercially developed, open sensor processing systems and services for critical commercial, defense and intelligence applications. The Company delivers innovative solutions, rapid time-to-value and service and support to its defense prime contractor customers. The Company's products and solutions have been deployed in more than 300 programs with over 25 different defense prime contractors. Key programs include Aegis, Patriot, Surface Electronic Warfare Improvement Program ("SEWIP"), Gorgon Stare, F-35, Predator and Reaper.

The Company's goal is to grow and build on its position as a critical component of the defense industrial base and become the leading provider of open and affordable sensor processing systems. The Mercury Commercial Electronics ("MCE") operating segment designs, develops and builds open sensor processing products and subsystems that include embedded processing modules and subsystems, radio frequency ("RF") and microwave multi-function assemblies as well as subsystems, and RF and microwave components. The Mercury Defense Systems ("MDS") operating segment provides significant capabilities relating to pre-integrated, open, affordable electronic warfare ("EW"), electronic attack ("EA") and electronic counter measure ("ECM") subsystems and significant capabilities in signals intelligence ("SIGINT") and electro-optical/infrared ("EO/IR") processing technologies.

In June 2014, the Company initiated a plan to divest the Mercury Intelligence Systems ("MIS") operating segment, based on the Company's strategic direction and investment priorities focusing on its core business. As a result, the Company's MIS operating segment met the "held for sale" criteria in accordance with Financial Accounting Standard Boards ("FASB") Accounting Standards Codification ("ASC") 205, Presentation of Financial Statements, ("FASB ASC 205") as of June 30, 2014 and all reporting periods thereafter (see Note C to the Consolidated Financial Statements). The consolidated financial statements, excluding the statements of cash flows, and the notes to the consolidated financial statements were restated for all periods presented to reflect the discontinuation of the MIS operating segment, in accordance with FASB ASC 205.

B. Summary of Significant Accounting Policies

BASIS OF PRESENTATION

The accompanying consolidated financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information and with the instructions to the Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures, normally included in annual consolidated financial statements have been condensed or omitted pursuant to those rules and regulations; however, in the opinion of management the financial information reflects all adjustments, consisting of adjustments of a normal recurring nature, necessary for fair presentation. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes for the fiscal year ended June 30, 2014 which are contained in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on August 14, 2014. The results for the three months ended September 30, 2014 are not necessarily indicative of the results to be expected for the full fiscal year.

The Company is comprised of the following operating segments: MCE and MDS. See Note L of the Notes to Consolidated Financial Statements for further discussion.

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

REVENUE RECOGNITION

The Company relies upon FASB ASC 605, Revenue Recognition to account for its revenue transactions. Revenue is recognized upon shipment provided that title and risk of loss have passed to the customer, there is persuasive evidence of an arrangement, the sales price is fixed or determinable, collection of the related receivable is reasonably assured, and customer acceptance criteria,

if any, have been successfully demonstrated. Out-of-pocket expenses that are reimbursable by the customer are included in revenue and cost of revenue.

Certain contracts with customers require the Company to perform tests of its products prior to shipment to ensure their performance complies with the Company's published product specifications and, on occasion, with additional customer-requested specifications. In these cases, the Company conducts such tests and, if they are completed successfully, includes a written confirmation with each order shipped. As a result, at the time of each product shipment, the Company believes that no further customer testing requirements exist and that there is no uncertainty of acceptance by its customer.

The Company uses FASB Accounting Standards Update ("ASU") No. 2009-13 ("FASB ASU 2009-13"), Multiple-Deliverable Revenue Arrangements. FASB ASU 2009-13 establishes a selling price hierarchy for determining the selling price of a deliverable, which includes: (1) vendor-specific objective evidence ("VSOE") if available; (2) third-party evidence ("TPE") if VSOE is not available; and (3) best estimated selling price ("BESP"), if neither VSOE nor TPE are available. Additionally, FASB ASU 2009-13 expands the disclosure requirements related to a vendor's multiple-deliverable revenue arrangements.

The Company enters into multiple-deliverable arrangements that may include a combination of hardware components, related integration or other services. These arrangements generally do not include any performance-, cancellation-, termination- or refund-type provisions. Total revenue recognized under multiple-deliverable revenue arrangements was 29% of total revenues in the three months ended September 30, 2014 and 2013.

In accordance with the provisions of FASB ASU 2009-13, the Company allocates arrangement consideration to each deliverable in an arrangement based on its relative selling price. The Company generally expects that it will not be able to establish VSOE or TPE due to limited single element transactions and the nature of the markets in which the Company competes, and, as such, the Company typically determines its relative selling price using BESP.

The objective of BESP is to determine the price at which the Company would transact if the product or service were sold by the Company on a standalone basis. Determination of BESP involves the consideration of several factors based on the specific facts and circumstances of each arrangement. Specifically, the Company considers the cost to produce the deliverable, the anticipated margin on that deliverable, the selling price and profit margin for similar parts, the Company's ongoing pricing strategy and policies as evident from the price list established and updated by management on a regular basis, the value of any enhancements that have been built into the deliverable and the characteristics of the varying markets in which the deliverable is sold.

The Company analyzes the selling prices used in its allocation of arrangement consideration at a minimum on an annual basis and on a more frequent basis if a significant change in the Company's business necessitates a more timely analysis or if the Company experiences significant variances in its selling prices.

Each deliverable within the Company's multiple-deliverable revenue arrangements is accounted for as a separate unit of accounting under the guidance of FASB ASU 2009-13 if both of the following criteria are met: the delivered item or items have value to the customer on a standalone basis; and for an arrangement that includes a general right of return relative to the delivered item(s), delivery or performance of the undelivered item(s) is considered probable and substantially in the control of the Company. The Company's revenue arrangements generally do not include a general right of return for delivered products. The Company considers a deliverable to have standalone value if the item is sold separately by the Company or another vendor or if the item could be resold by the customer.

Deliverables not meeting the criteria for being a separate unit of accounting are combined with a deliverable that does meet that criterion. The appropriate allocation of arrangement consideration and recognition of revenue is then determined for the combined unit of accounting.

The Company also engages in long-term contracts for development, production and services activities which it accounts for consistent with FASB ASC 605-35, Accounting for Performance of Construction-Type and Certain Production-Type Contracts, and other relevant revenue recognition accounting literature. The Company considers the nature of these contracts and the types of products and services provided when determining the proper accounting for a particular contract. Generally for fixed-price contracts, other than service-type contracts, revenue is recognized primarily under the percentage of completion method or, for certain short-term contracts, by the completed contract method. Revenue from service-type fixed-price contracts is recognized ratably over the contract period or by other

appropriate input or output methods to measure service provided, and contract costs are expensed as incurred. The Company establishes billing terms at the time project deliverables and milestones are agreed. Revenues recognized in excess of the amounts invoiced to clients are classified as unbilled receivables. For time and materials contracts, revenue reflects the number of direct labor hours expended in the performance of a contract multiplied by the contract billing rate, as well as reimbursement of other billable direct costs. For all types of contracts, the Company recognizes anticipated contract losses as soon as they become known and estimable.

The use of contract accounting requires significant judgment relative to estimating total contract revenues and costs, including assumptions relative to the length of time to complete the contract, the nature and complexity of the work to be performed, anticipated increases in wages and prices for subcontractor services and materials, and the availability of subcontractor services

and materials. The Company's estimates are based upon the professional knowledge and experience of its engineers, program managers and other personnel, who review each long-term contract monthly to assess the contract's schedule, performance, technical matters and estimated cost at completion. Changes in estimates are applied retrospectively and when adjustments in estimated contract costs are identified, such revisions may result in current period adjustments to earnings applicable to performance in prior periods.

The Company defines service revenues as revenue from activities that are not associated with the design, development, production, or delivery of tangible assets, software or specific capabilities sold by us. Examples of the Company's service revenues include: analyst services and systems engineering support, consulting, maintenance and other support, testing and installation. The Company combines its product and service revenues into a single class as services revenues do not exceed 10 percent of total revenues.

The Company does not provide its customers with rights of product return, other than those related to warranty provisions that permit repair or replacement of defective goods. The Company accrues for anticipated warranty costs upon product shipment. Revenues from product royalties are recognized upon invoice by the Company. Additionally, all revenues are reported net of government assessed taxes (e.g. sales taxes or value-added taxes).

WEIGHTED-AVERAGE SHARES

Weighted-average shares were calculated as follows:

	Three Months Ended September 30,	
	2014	2013
Basic weighted-average shares outstanding	31,635	30,653
Effect of dilutive equity instruments	846	—
Diluted weighted-average shares outstanding	32,481	30,653

Equity instruments to purchase 750 and 4,178 shares of common stock were not included in the calculation of diluted net earnings per share for the three months ended September 30, 2014 and 2013, respectively, because the equity instruments were anti-dilutive.

C. Discontinued Operations

During the fourth quarter of fiscal 2014, the Company conducted a strategic review of the Mercury Intelligence Systems ("MIS") business unit which encompassed an assessment of MIS' financial performance and contemporaneous future financial projections. The Company, with Board of Director's approval, concluded that a plan to divest the MIS business unit would be in the best interests of the Company and its shareholders.

The Company's MIS business unit met the "held for sale" criteria in accordance with FASB ASC 205. As the Company does not anticipate continuing involvement in the operations of MIS after its divestiture, the MIS operating results have been reported as a discontinued operation for all periods presented.

MIS is considered its own operating segment and was previously aggregated with MDS into one reportable segment based on similar economic and qualitative factors in accordance with FASB ASC 280. As MIS is a discontinued operation, the results of MIS have been excluded from the MDS reportable segment. Accordingly, the revenues, costs of revenue, operating expenses, assets and liabilities of MIS have been reported separately in the Consolidated Statements of Operations and Comprehensive Income (Loss) and Consolidated Balance Sheets for all periods presented. The discontinued operation's balances in the Consolidated Balance Sheets do not reflect intercompany receivable balances of MIS, and the results of discontinued operations do not reflect interest expense or the allocation of the Company's corporate general and administrative expenses.

Edgar Filing: MERCURY SYSTEMS INC - Form 10-Q

The amounts reported in (loss) income from discontinued operations, net of income taxes were as follows:

	For the Three Months Ended September 30,	
	2014	2013
Net revenues of discontinued operations	\$ 1,839	\$ 3,214
Costs of discontinued operations:		
Cost of revenues	1,225	2,191
Selling, general and administrative	647	780
Research and development	171	32
Amortization of intangible assets	124	123
Acquisition costs and other related expenses	33	—
(Loss) income from discontinued operations before income taxes	(361) 88
Tax (benefit) provision	(143) 40
(Loss) income from discontinued operations	\$ (218) \$ 48

The amounts reported as assets and liabilities of the discontinued operations were as follows:

	September 30, 2014	June 30, 2014
Accounts receivable, net	\$ 303	\$ 925
Unbilled receivables and costs in excess of billings	401	248
Deferred income taxes	88	77
Prepaid expenses and other current assets	102	124
Property and equipment, net	431	475
Goodwill	2,283	2,283
Intangible assets, net	1,938	2,062
Other non-current assets	33	39
Assets of discontinued operations	\$ 5,579	\$ 6,233
Accounts payable	\$ 21	\$ 127
Accrued expenses	879	802
Accrued compensation	483	689
Deferred income taxes	771	818
Liabilities of discontinued operations	\$ 2,154	\$ 2,436

The depreciation, amortization and significant operating and investing non-cash items of the discontinued operations were as follows:

	For the Three Months Ended September 30,	
	2014	2013
Depreciation	\$ 44	\$ 38
Amortization of intangible assets	\$ 124	\$ 123
Stock-based compensation expense	\$ 63	\$ 47

D. Fair Value of Financial Instruments

The Company measures at fair value certain financial assets and liabilities, including cash equivalents and restricted cash. FASB ASC 820, Fair Value Measurement and Disclosures, specifies a hierarchy of valuation techniques based on whether the

inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. These two types of inputs have created the following fair-value hierarchy:

Level 1—Quoted prices for identical instruments in active markets;

Level 2—Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3—Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The following table summarizes the Company's financial assets measured at fair value on a recurring basis at September 30, 2014:

	Fair Value Measurements			
	September 30, 2014	Level 1	Level 2	Level 3
Assets:				
Cash and cash equivalents	\$48,876	\$48,876	\$—	\$—
Restricted cash	265	265	—	—
Total	\$49,141	\$49,141	\$—	\$—

The carrying values of cash and cash equivalents, including all U.S. Treasury Bills and money market funds, accounts receivable and payable, and accrued liabilities approximate fair value due to the short-term maturities of these assets and liabilities.

E. Inventory

Inventory is stated at the lower of cost (first-in, first-out) or market value, and consists of materials, labor and overhead. On a quarterly basis, the Company uses consistent methodologies to evaluate inventory for net realizable value. Once an item is written down, the value becomes the new inventory cost basis. The Company reduces the value of inventory for excess and obsolete inventory, consisting of on-hand and non-cancelable on-order inventory in excess of estimated usage. The excess and obsolete inventory evaluation is based upon assumptions about future demand, history, product mix and possible alternative uses. Inventory was comprised of the following:

	September 30, 2014	June 30, 2014
Raw materials	\$12,845	\$13,755
Work in process	14,324	12,677
Finished goods	3,602	5,223
Total	\$30,771	\$31,655

There are no amounts in inventory relating to contracts having production cycles longer than one year.

F. Goodwill

The following table sets forth the carrying amount of goodwill by reporting units as of September 30, 2014 and June 30, 2014:

	September 30, 2014	June 30, 2014
MCE goodwill	\$134,378	\$134,378
MDS goodwill	33,768	33,768
Total goodwill	\$168,146	\$168,146

In the three months ended September 30, 2014, there were no triggering events, as defined by FASB ASC 350, which required an interim goodwill impairment test. The Company performs its annual goodwill impairment test in the fourth quarter of each fiscal year.

The Company determines its reporting units in accordance with FASB ASC 350, by assessing whether discrete financial information is available and if management regularly reviews the operating results of that component. Following this assessment, the Company determined that its reporting units are the same as its operating segments, MCE and MDS.

G. Restructuring Plan

During fiscal 2014 the Company announced a restructuring plan (“2014 Plan”) that was implemented as part of the final phase of integration activities relating to the Company’s recent acquisitions. The integration plan includes the consolidation of manufacturing facilities, centralization of administrative functions using common information systems and processes, and realignment of research and development resources. During the three months ended September 30, 2014, the Company incurred restructuring and other charges of \$1,268. These charges were primarily associated with the second phase of the Chelmsford, Massachusetts headquarters consolidation and severance costs. Future restructuring expenses associated with the integration plan are expected to be approximately \$1,114, and the actions resulting in those changes are expected to be completed by the second quarter of fiscal 2015. In the event that the Company is unable to sublease the unoccupied portion of its headquarters complex in Chelmsford, MA, it will incur nominal, periodic restructuring charges through fiscal 2017. These restructuring and other charges affect both the MCE and MDS reportable segments.

The following table presents the detail of activity for the Company’s restructuring plans:

	Severance & Related	Facilities & Other	Total
Restructuring liability at June 30, 2014	\$1,371	\$772	\$2,143
MCE restructuring and other charges	669	750	1,419
MDS restructuring and other charges	33	—	33
Cash paid	(962) (242) (1,204
Reversals(*)	(184) —	(184
Restructuring liability at September 30, 2014	\$927	\$1,280	\$2,207

(*) Reversals result from the finalization of settlements owed.

All of the restructuring and other charges are classified as operating expenses in the consolidated statements of operations and comprehensive income (loss) and any remaining obligations are expected to be paid within the next twelve months. The restructuring liability is classified as accrued expenses in the consolidated balance sheets.

H. Income Taxes

The Company recorded a tax benefit of \$0 and \$1,319 on an income before income taxes of \$717 and a loss before income taxes of \$3,623 for the three months ended September 30, 2014 and 2013, respectively. Income tax benefit for the three months ended September 30, 2014 differed from the federal statutory rate primarily due to the impact of Section 199 manufacturing deduction, stock compensation and state taxes. Income tax benefit for the three months ended September 30, 2013 differed from the federal statutory rate primarily due to the impact of federal research and development tax credits, Section 199 manufacturing deduction and stock compensation.

No material changes in the Company’s unrecognized tax positions occurred during the three months ended September 30, 2014. The Company estimates that unrecognized tax benefits of up to \$1,022 could be realized within the next 12 months as a result of resolutions of tax positions and the expiration of applicable statutes of limitations.

I. Commitments and Contingencies

LEGAL CLAIMS

The Company is subject to litigation, claims, investigations and audits arising from time to time in the ordinary course of our business. Although legal proceedings are inherently unpredictable, the Company believes that it has valid defenses with respect to any matters currently pending against the Company and intends to defend itself vigorously. The outcome of these matters, individually and in the aggregate, is not expected to have a material impact on the Company’s cash flows, results of operations, or financial position.

INDEMNIFICATION OBLIGATIONS

The Company's standard product sales and license agreements entered into in the ordinary course of business typically contain an indemnification provision pursuant to which the Company indemnifies, holds harmless, and agrees to reimburse the

11

indemnified party for losses suffered or incurred by the indemnified party in connection with any patent, copyright or other intellectual property infringement claim by any third party with respect to the Company's products. Such provisions generally survive termination or expiration of the agreements. The potential amount of future payments the Company could be required to make under these indemnification provisions is, in some instances, unlimited.

PURCHASE COMMITMENTS

As of September 30, 2014, the Company has entered into non-cancelable purchase commitments for certain inventory components and services used in its normal operations. The purchase commitments covered by these agreements are for less than one year and aggregate to \$31,118.

J. Debt

Senior Unsecured Credit Facility

As of September 30, 2014, there was \$86,557 of borrowing capacity available under the Company's credit agreement with a syndicate of commercial banks, with Key Bank National Association acting as the administrative agent. The Company can borrow up to \$200,000 based on the Company's consolidated EBITDA for the trailing four quarters. There were no borrowings outstanding on the credit agreement; however, there were outstanding letters of credit of \$3,789. The Company was in compliance with all covenants and conditions under the credit agreement.

K. Stock-Based Compensation

STOCK OPTION PLANS

The number of shares authorized for issuance under the Company's 2005 Stock Incentive Plan, as amended and restated (the "2005 Plan"), is 8,018 shares at September 30, 2014. The 2005 Plan will be increased by any future cancellations, forfeitures or terminations (other than by exercise) under the 1997 Plan. The 2005 Plan provides for the grant of non-qualified and incentive stock options, restricted stock, stock appreciation rights and deferred stock awards to employees and non-employees. All stock options are granted with an exercise price of not less than 100% of the fair value of the Company's common stock at the date of grant and the options generally have a term of seven years. There were 567 shares available for future grant under the 2005 Plan at September 30, 2014. Subsequent to September 30, 2014, the Company's shareholders approved an increase of 3,200 shares.

On August 15, 2014, as part of the Company's ongoing annual equity grant program for employees, the Company granted for the first time performance-based restricted stock awards to certain executives pursuant to the 2005 Plan. These performance awards vest annually over a three year requisite service period subject to the achievement of specific performance targets related to adjusted EBITDA as a percentage of revenue. Based on the performance targets, these awards require graded vesting that results in more rapid expense recognition compared to traditional time-based vesting over the same vesting period. The Company will monitor the probability of achieving the performance targets on a quarterly basis and may adjust periodic compensation expense accordingly.

EMPLOYEE STOCK PURCHASE PLAN

The number of shares authorized for issuance under the Company's 1997 Employee Stock Purchase Plan, as amended and restated ("ESPP"), is 1,400 shares. Under the ESPP, rights are granted to purchase shares of common stock at 85% of the lesser of the market value of such shares at either the beginning or the end of each six-month offering period. The ESPP permits employees to purchase common stock through payroll deductions, which may not exceed 10% of an employee's compensation as defined in the ESPP. There were no shares issued under the ESPP during the three months ended September 30, 2014 and 2013, respectively. Shares available for future purchase under the ESPP totaled 164 at September 30, 2014.

STOCK OPTION AND AWARD ACTIVITY

The following table summarizes activity of the Company's stock option plans since June 30, 2014:

	Options Outstanding		Weighted Average Remaining Contractual Term (Years)
	Number of Shares	Weighted Average Exercise Price	
Outstanding at June 30, 2014	1,435	\$ 11.76	2.23
Granted	—	—	
Exercised	(37) 6.33	
Cancelled	(62) 23.58	
Outstanding at September 30, 2014	1,336	\$ 11.37	2.02

The following table summarizes the status of the Company's non-vested restricted stock awards since June 30, 2014:

	Non-vested Restricted Stock Awards	
	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding at June 30, 2014	2,091	\$ 10.15
Granted	620	11.38
Vested	(660) 10.31
Forfeited	(126) 10.90
Outstanding at September 30, 2014	1,925	\$ 10.44

STOCK-BASED COMPENSATION EXPENSE

The Company recognized the full expense of its share-based payment plans in the consolidated statements of operations for the three months ended September 30, 2014 and 2013 in accordance with FASB ASC 718 and did not capitalize any such costs on the consolidated balance sheets, as such costs that qualified for capitalization were not material. Under the fair value recognition provisions of FASB ASC 718, stock-based compensation cost is measured at the grant date based on the value of the award and is recognized as expense over the service period, net of estimated forfeitures. The following table presents share-based compensation expenses included in the Company's consolidated statements of operations:

	Three Months Ended September 30,	
	2014	2013
Cost of revenues	\$151	\$207
Selling, general and administrative	1,966	2,314
Research and development	434	467
Share-based compensation expense before tax	2,551	2,988
Income tax benefit	(919) (1,072
Net compensation expense	\$1,632	\$1,916

L. Operating Segment, Geographic Information and Significant Customers

Operating segments are defined as components of an enterprise evaluated regularly by the Company's chief operating decision maker ("CODM") in deciding how to allocate resources and assess performance. The Company utilizes the management approach for determining reportable segments in accordance with the authoritative guidance. The following operating segments were determined based upon the nature of the products offered to customers, the market characteristics of each operating segment and the Company's management structure:

Mercury Commercial Electronics ("MCE"): this operating segment delivers affordable, innovative, commercially developed, specialized processing subsystems for critical commercial, defense and intelligence applications. MCE delivers secure solutions that are based upon open architectures and widely adopted industry standards. MCE delivers

rapid time-to-value and service and support to prime defense contractors and commercial customers. MCE provides solutions to prime contractor customers on a variety of programs. MCE also provides technology building blocks to Mercury Defense Systems on key classified and unclassified programs. MCE has a legacy of embedded multi-computing and embedded sensor processing expertise. More recently, MCE has added substantial capabilities around radio frequency ("RF") and microwave technologies as well as emerging new manufacturing capabilities to bring design, production and test capabilities of its RF and microwave solutions to market on a more scalable basis. Mercury Defense Systems ("MDS"): this operating segment provides significant capabilities relating to pre-integrated, open, affordable electronic warfare ("EW"), electronic attack ("EA") and electronic counter measure ("ECM") subsystems, and signals intelligence ("SIGINT") and electro-optical/infrared ("EO/IR") processing technologies. MDS deploys these solutions on behalf of defense prime contractors and the Department of Defense ("DoD"), leveraging commercially available technologies and solutions (or "building blocks") from the MCE business and other commercial suppliers. MDS leverages this technology to develop integrated sensor processing subsystems, often including classified application-specific software and intellectual property ("IP") for the C4ISR (command, control, communications, computers, intelligence, surveillance and reconnaissance), EW, and ECM markets. MDS brings significant domain expertise to customers, drawing on over 25 years of experience in EW, SIGINT, and radar environment test and simulation.

The Company's operating segments were evaluated in accordance with FASB ASC 280 "Segment Reporting" in order to determine which operating segments qualified as reportable segments. The Company determined that both MCE and MDS met the quantitative thresholds for reporting.

Prior year results have been restated for the reclassification of the MIS operating segment as discontinued operations. MIS was previously aggregated with MDS into one reportable segment based on similar economic and qualitative factors in accordance with FASB ASC 280 (see Note C).

The accounting policies of the reportable segments are the same as those described in "Note B: Summary of Significant Accounting Policies." The profitability measure employed by the Company and its CODM as the basis for allocating resources to segments and assessing segment performance is adjusted EBITDA. The Company believes the adjusted EBITDA financial measure assists in providing an enhanced understanding of its underlying operational measures to manage its business, to evaluate its performance compared to prior periods and the marketplace, and to establish operational goals.

Adjusted EBITDA is defined as income from continuing operations before interest income and expense, income taxes, depreciation, amortization of intangible assets, restructuring and other charges, impairment of long-lived assets, acquisition costs and other related expenses, fair value adjustments from purchase accounting and stock-based compensation costs. Additionally, asset information by reportable segment is not reported because the Company and its CODM utilize consolidated asset information when making business decisions. The following is a summary of the performance of the Company's operations by reportable segment:

	MCE	MDS	Eliminations	Total
THREE MONTHS ENDED				
SEPTEMBER 30, 2014				
Net revenues to unaffiliated customers	\$48,556	\$5,379	\$126	\$54,061
Intersegment revenues	501	140	(641)) —
Net revenues	\$49,057	\$5,519	\$(515)) \$54,061
Adjusted EBITDA	\$7,289	\$486	\$228	\$8,003
THREE MONTHS ENDED				
SEPTEMBER 30, 2013				
Net revenues to unaffiliated customers	\$43,488	\$7,916	\$(678)) \$50,726
Intersegment revenues	1,114	—	(1,114)) —
Net revenues	\$44,602	\$7,916	\$(1,792)) \$50,726
Adjusted EBITDA	\$2,343	\$1,062	\$(82)) \$3,323

The following table reconciles the Company's income (loss) from continuing operations, the most directly comparable GAAP financial measure, to its adjusted EBITDA:

	Three Months Ended September 30,	
	2014	2013
Income (loss) from continuing operations	\$717	\$(2,304)
Interest expense, net	5	14
Tax benefit	—	(1,319)
Depreciation	1,700	1,974
Amortization of intangible assets	1,762	1,985
Restructuring and other charges	1,268	(15)
Stock-based compensation expense	2,551	2,988
Adjusted EBITDA	\$8,003	\$3,323

The geographic distribution of the Company's revenues is summarized as follows:

	US	Europe	Asia Pacific	Eliminations	Total
THREE MONTHS ENDED					
SEPTEMBER 30, 2014					
Net revenues to unaffiliated customers	\$53,085	\$346	\$630	\$—	\$54,061
Inter-geographic revenues	583	—	—	(583)	—
Net revenues	\$53,668	\$346	\$630	\$(583)	\$54,061
THREE MONTHS ENDED					
SEPTEMBER 30, 2013					
Net revenues to unaffiliated customers	\$49,456	\$508	\$762	\$—	\$50,726
Inter-geographic revenues	819	157	140	(1,116)	—
Net revenues	\$50,275	\$665	\$902	\$(1,116)	\$50,726

Foreign revenue is based on the country in which the Company's legal subsidiary is domiciled.

The geographic distribution of the Company's long-lived assets is summarized as follows:

	U.S.	Europe	Asia Pacific	Eliminations	Total
September 30, 2014	\$13,298	\$40	\$5	\$—	\$13,343
June 30, 2014	\$14,090	\$48	\$6	\$—	\$14,144

Identifiable long-lived assets exclude goodwill and intangible assets.

Customers comprising 10% or more of the Company's revenues for the periods shown below are as follows:

	Three Months Ended September 30,		
	2014	2013	
Raytheon Company	35	% 13	%
Lockheed Martin Corporation	30	% 12	%
Northrop Grumman Corporation	*	16	%
BAE Systems PLC	*	11	%
	65	% 52	%

*Indicates that the amount is less than 10% of the Company's revenues for the respective period.

While the Company typically has customers from which it derives 10% or more of its revenue, the sales to each of these customers are spread across multiple programs and platforms. Programs comprising 10% or more of the Company's revenues for the periods shown below are as follows:

	Three Months Ended September 30,		
	2014	2013	
SEWIP	18	% *	
Patriot	18	% *	
Aegis	11	% *	
F-35	10	% *	
	57	% —	%

*Indicates that the amount is less than 10% of the Company's revenues for the respective period.

M. Subsequent Events

The Company has evaluated subsequent events from the date of the consolidated balance sheet through the date the consolidated financial statements were issued.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
FORWARD-LOOKING STATEMENTS

From time to time, information provided, statements made by our employees or information included in our filings with the Securities and Exchange Commission may contain statements that are not historical facts but that are "forward-looking statements," which involve risks and uncertainties. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions, divestitures and restructurings, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, changes to export regulations, increases in tax rates, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as set forth under Part I-Item 1A (Risk Factors) in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2014. We caution readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. We undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.

OVERVIEW

Mercury Systems provides affordable, commercially developed, open sensor processing systems and services for critical commercial, defense, and intelligence applications. We deliver innovative solutions, rapid time-to-value and service and support to our defense prime contractor customers. Our products and solutions have been deployed in more than 300 programs with over 25 different defense prime contractors. Key programs include Aegis, Patriot, Surface Electronic Warfare Improvement Program ("SEWIP"), Gorgon Stare, Predator, F-35 and Reaper. Our organizational structure allows the Company to deliver capabilities that combine technology building blocks and deep domain expertise in the defense sector. We believe our total portfolio of services and solutions is unique in the industry for a commercial company. Mercury Systems operates across a broad spectrum of defense programs and, effective for fiscal 2015, we deliver our solutions and services via two business units: (i) Mercury Commercial Electronics; and (ii) Mercury Defense Systems. In the fourth quarter of fiscal 2014, we initiated a plan to divest our Mercury Intelligence Systems business unit. Consequently, its operating results are included in discontinued operations for all periods presented (see Note C to the consolidated financial statements).

As of September 30, 2014, we had 625 employees. Our revenue, income from continuing operations and adjusted EBITDA for the three month period ended September 30, 2014 were \$54.1 million, \$0.7 million, and \$8.0 million, respectively. See the Non-GAAP Financial Measures section for a reconciliation of our income (loss) from continuing operations to adjusted EBITDA.

Our operations are organized in the following two reportable segments: (i) Mercury Commercial Electronics ("MCE") and (ii) Mercury Defense Systems ("MDS").

Mercury Commercial Electronics, or MCE, provides affordable, innovative, commercially designed and developed, specialized processing subsystems for critical commercial, defense and intelligence applications. We deliver innovative solutions, rapid time-to-value and service and support to our prime defense contractor customers. Our technologies and capabilities include embedded processing modules and subsystems, RF and microwave multi-function assemblies as well as subsystems, and RF and microwave components.

MCE utilizes leading edge, high performance computing technologies architected by leveraging open standards and open architectures to address highly data-intensive applications that include signal, sensor and image processing; all of this while addressing the packaging challenges, often referred to as “SWaP” (size, weight, and power) that are common in military as well as some commercial applications. In addition, MCE designs and builds RF and microwave components and subsystems to meet the needs of the electronic warfare ("EW"), signals intelligence ("SIGINT") and other high bandwidth communications requirements and applications.

For the three months ended September 30, 2014, MCE accounted for approximately 90% of our total net revenues.

Mercury Defense Systems, or MDS, provides significant capabilities relating to pre-integrated, open, affordable EW, electronic attack ("EA") and electronic counter measure ("ECM") subsystems, and SIGINT and electro-optical/infrared ("EO/IR") processing technologies. MDS deploys these solutions on behalf of defense prime contractors and the Department of Defense ("DoD"), leveraging commercially available technologies and solutions (or "building blocks") from our MCE business and other commercial suppliers. MDS leverages this technology to develop integrated sensor processing subsystems, often including classified application-specific software and intellectual property ("IP") for the C4ISR (command, control, communications, computers, intelligence, surveillance and reconnaissance), EW, and ECM markets. MDS brings significant domain expertise to customers, drawing on over 25 years of experience in EW, SIGINT, and radar environment test and simulation.

For the three months ended September 30, 2014, MDS accounted for approximately 10% of our total net revenues. Since we are an OEM supplier to our commercial markets and conduct much of our business with our defense customers via commercial items, requests by customers are a primary driver of revenue fluctuations from quarter to quarter. Customers specify delivery date requirements that coincide with their need for our products. Because these customers may use our products in connection with a variety of defense programs or other projects of different sizes and durations, a customer's orders for one quarter generally do not indicate a trend for future orders by that customer. Additionally, order patterns do not necessarily correlate amongst customers and, therefore, we generally cannot identify sequential quarterly trends, even within our business units.

RESULTS OF OPERATIONS:

Three months ended September 30, 2014 compared to the three months ended September 30, 2013

The following tables set forth, for the three months periods indicated, financial data from the consolidated statements of operations:

(In thousands)	September 30, 2014	As a % of Total Net Revenue	September 30, 2013	As a % of Total Net Revenue	
Net revenues	\$54,061	100.0	% \$50,726	100.0	%
Cost of revenues	30,062	55.6	29,164	57.5	
Gross margin	23,999	44.4	21,562	42.5	
Operating expenses:					
Selling, general and administrative	12,290	22.7	14,321	28.2	
Research and development	7,951	14.7	9,312	18.4	
Amortization of intangible assets	1,762	3.3	1,985	3.9	
Restructuring and other charges	1,268	2.4	(15)	—	
Total operating expenses	23,271	43.1	25,603	50.5	
Income (loss) from operations	728	1.3	(4,041)	(8.0))
Other (expense) income, net	(11)) 0.0	418	0.9	
Income (loss) from continuing operations before income taxes	717	1.3	(3,623)	(7.1))
Tax benefit	—	—	(1,319)	(2.6))
Income (loss) from continuing operations	717	1.3	(2,304)	(4.5))
(Loss) income from discontinued operations, net of taxes	(218)) (0.4)	48	0.1	
Net income (loss)	\$499	0.9	% \$(2,256)	(4.4))%

REVENUES

(In thousands)	September 30, 2014	September 30, 2013	\$ Change	% Change	
MCE	\$48,556	\$43,488	\$5,068	12	%
MDS	5,379	7,916	(2,537)	(32))%
Eliminations	126	(678)) 804	119	%
Total revenues	\$54,061	\$50,726	\$3,335	7	%

Total revenues increased \$3.3 million, or 7%, to \$54.1 million during the three months ended September 30, 2014 as compared to the comparable period in fiscal 2014. This increase was driven by higher defense sales of \$8.1 million, partially offset by lower

commercial sales of \$4.8 million. The increase in total revenues is primarily attributed to higher revenues from the Patriot, Aegis, SEWIP, and F-35 programs. International revenues, which consist of foreign military sales through prime defense contractor customers and direct sales to non-U.S. based customers, decreased \$5.0 million to \$10.4 million during the three months ended September 30, 2014, compared to \$15.4 million in the same period in the prior fiscal year. The decrease was primarily driven by lower revenues in the Asia Pacific region. International revenues represented 19% and 30% of total revenues during the three months ended September 30, 2014 and 2013, respectively.

Net MCE revenues increased \$5.1 million, or 12%, during the three months ended September 30, 2014 as compared to the same period in the prior fiscal year. This increase was primarily driven by higher defense sales of \$9.9 million related to increases from the Patriot, Aegis, SEWIP, and F-35 programs, partially offset by lower foreign military sales and a \$4.8 million decrease in commercial sales.

Net MDS revenues decreased \$2.5 million, or 32%, during the three months ended September 30, 2014 as compared to the same period in the previous fiscal year. This decrease was primarily driven by lower revenues related to radar environment test and simulation sales.

Eliminations revenue is attributable to development programs where the revenue is recognized in each segment under contract accounting, and reflects the reconciliation to our consolidated results.

GROSS MARGIN

Gross margin was 44.4% for the three months ended September 30, 2014, an increase of 190 basis points from the 42.5% gross margin achieved during the same period in fiscal 2014. The higher gross margin between years was due to a more favorable product mix, primarily driven by a recovery in our higher margin digital signal processing business within MCE and facilities consolidations as part of our integration plan.

SELLING, GENERAL AND ADMINISTRATIVE

Selling, general and administrative expenses decreased \$2.0 million, or 14%, to \$12.3 million during the three months ended September 30, 2014, compared to \$14.3 million during the comparable period in fiscal 2014. The decrease was primarily due to lower employee compensation expenses as a result of progress achieved on our plan of integrating and consolidating facilities, systems, and processes. Selling, general and administrative expenses decreased as a percentage of revenues to 22.7% during the three months ended September 30, 2014 from 28.2% during the same period in fiscal 2014 due to higher revenues in the first quarter of fiscal 2015 and overall expense reductions, as compared to the comparable period in fiscal 2014.

RESEARCH AND DEVELOPMENT

Research and development expenses decreased \$1.3 million, or 15%, to \$8.0 million during the three months ended September 30, 2014, compared to \$9.3 million during the comparable period in fiscal 2014. The decrease was primarily due to higher customer funded development and lower headcount between years.

AMORTIZATION OF INTANGIBLE ASSETS

Amortization of intangible assets decreased \$0.2 million, or 11%, to \$1.8 million for the three months ended September 30, 2014 as compared to \$2.0 million during the comparable period in fiscal 2014, primarily due to a portion of the Micronetics related intangible assets being fully amortized during the first quarter of fiscal 2014.

RESTRUCTURING AND OTHER CHARGES

In fiscal 2014, the Company announced a restructuring plan ("2014 Plan") that was implemented as part of the final phase of integration activities relating to the Company's recent acquisitions. The integration plan includes the consolidation of manufacturing facilities, centralization of administrative functions using common information systems and processes, and realignment of research and development resources. During the first quarter of fiscal 2015, the Company incurred restructuring and other charges of \$1.3 million, primarily associated with the second phase of the Chelmsford, Massachusetts headquarters consolidation and severance costs. Future restructuring expenses associated with the integration plan are expected to be approximately \$1.1 million, and the actions resulting in those charges are expected to be completed by second quarter of fiscal 2015. In the event that the Company is unable to sublease the unoccupied portion of its headquarters complex in Chelmsford, MA, it will incur nominal, periodic restructuring charges through fiscal 2017.

OTHER INCOME, NET

Other income, net decreased to \$0.0 million during the three months ended September 30, 2014, as compared to \$0.4 million for the same period in fiscal 2014. The decrease was driven by a \$0.3 million write off of an escrow receivable in the first quarter of fiscal 2015. Other income, net for the three months ended September 30, 2014 and 2013, also include \$0.3 million related to

the amortization of the gain on the sale leaseback of our corporate headquarters located in Chelmsford, Massachusetts. Interest income and interest expense for both periods were de minimis.

INCOME TAXES

We recorded income taxes of \$0.0 million during the three months ended September 30, 2014 as compared to a \$1.3 million income tax benefit for the comparable period in the prior fiscal year. Our income taxes for the three months ended September 30, 2014 differed from the federal statutory tax rate primarily due to the impact of Section 199 manufacturing deduction, stock compensation and state taxes. Our effective tax rate during the comparable period in fiscal 2014 also differed from the federal statutory rate primarily due to the impact of the federal research and development tax credits, Section 199 manufacturing deduction and stock compensation.

As of September 30, 2014, we had approximately \$10.4 million in net deferred tax assets. Each quarter, we determine the probability of realizing these assets, using significant judgments and estimates with respect to historical operating results, expectations of future earnings, tax planning strategies and other matters. If we determine in the future that there is not sufficient positive evidence to support the valuation of these assets, we may be required to adjust the valuation allowance accordingly. The Company continues to conclude that it is more likely than not that most domestic deferred tax assets would be realizable based on the current financial performance, projected future taxable income and the reversal of existing deferred tax liabilities.

The Company continues to record a full valuation allowance on certain state research and development (“R&D”) and investment tax credits, and stock basis differences as of September 30, 2014 as management continues to believe that it is not more likely than not that these deferred tax assets would be realized. Any future reversals of the valuation allowance will impact income tax expense.

DISCONTINUED OPERATIONS

We incurred a loss from discontinued operations of \$0.2 million in the three month ended in September 30, 2014 compared to income from discontinued operations of less than \$0.1 million for the same period in fiscal 2014.

SEGMENT OPERATING RESULTS

We use adjusted EBITDA as the profitability measure for our segment reporting. Adjusted EBITDA for MCE increased \$5.0 million during the three months ended September 30, 2014 to \$7.3 million as compared to \$2.3 million for the comparable period in fiscal 2014. The increase in adjusted EBITDA is driven by higher revenues of \$5.1 million primarily from defense programs, coupled with higher gross margins and lower operating expenses.

Adjusted EBITDA for MDS decreased \$0.6 million during the three months ended September 30, 2014 to \$0.5 million as compared to \$1.1 million for the comparable period in fiscal 2014. The decrease in adjusted EBITDA was primarily due to lower revenues from radar environment test and simulation sales.

See Note L to our consolidated financial statements included in this report for more information regarding our operating segments.

LIQUIDITY AND CAPITAL RESOURCES

Our primary source of liquidity comes from existing cash and cash generated from operations. Our near-term fixed commitments for cash expenditures consist primarily of payments under operating leases and inventory purchase commitments with our contract manufacturers. We currently do not have any material commitments for capital expenditures.

Based on our current plans and business conditions, we believe that existing cash, cash equivalents, available line of credit, cash generated from operations, and financing capabilities will be sufficient to satisfy our anticipated cash requirements for at least the next twelve months.

Senior Unsecured Credit Facility

As of September 30, 2014, there was \$86.6 million of borrowing capacity available under our credit agreement with a syndicate of commercial banks, with Key Bank National Association acting as the administrative agent. The Company can borrow up to \$200.0 million based on the Company's consolidated EBITDA for the trailing four quarters. There were no borrowings outstanding on the credit agreement; however, there were outstanding letters of credit of \$3.8 million. We were in compliance with all covenants and conditions under the credit agreement.

Shelf Registration Statement

On August 15, 2014, we filed a shelf registration statement on Form S-3 with the SEC. The shelf registration statement, which has been declared effective by the SEC, registered up to \$500 million of debt securities, preferred stock, common stock, warrants and units. We intend to use the proceeds from a financing using the shelf registration statement for general corporate purposes, which may include the following:

- the acquisition of other companies or businesses;
- the repayment and refinancing of debt;
- capital expenditures;
- working capital; and
- other purposes as described in the prospectus supplement.

CASH FLOWS

(In thousands)	As of and for the three month period ended September 30,	
	2014	2013
Net cash provided by operating activities	\$2,178	\$2,173
Net cash used in investing activities	\$(905) \$(1,108
Net cash provided by (used in) financing activities	\$392	\$(61
Net increase in cash and cash equivalents	\$1,589	\$980
Cash and cash equivalents at end of period	\$48,876	\$40,106

Our cash and cash equivalents increased by \$1.6 million from June 30, 2014 to September 30, 2014, primarily as a result of \$2.2 million in cash generated from operating activities, partially offset by \$0.9 million in purchases of property and equipment.

Operating Activities

During the three months ended September 30, 2014 and 2013, we generated \$2.2 million in cash from operating activities. During the three months ended September 30, 2014, we generated \$2.8 million in higher comparable net income and had a \$6.3 million decrease in cash used for payables and accrued expenses as compared to the same period in the prior year. These increases in cash generated from operations were partially offset by the timing of accounts receivable collections of \$3.6 million, \$1.4 million higher inventory purchases and \$1.3 million lower deferred revenues and customer advances. Our ability to generate cash from operations in future periods will depend in large part on profitability, the rate and timing of collections of accounts receivable, our inventory turns and our ability to manage other areas of working capital.

Investing Activities

During the three months ended September 30, 2014, we used \$0.9 million in investing activities compared to a use of \$1.1 million in investing activities during the same period in fiscal 2014. Both amounts represent purchases of property and equipment.

Financing Activities

During the three months ended September 30, 2014, we generated \$0.4 million from financing activities compared to \$0.1 million used for financing activities during the same period in fiscal 2014. The \$0.5 million change in cash from financing activities was primarily due to a \$0.3 million increase in excess tax benefits from stock-based compensation and a \$0.2 million increase in proceeds from employee stock plans during the three months ended September 30, 2014.

COMMITMENTS AND CONTRACTUAL OBLIGATIONS

The following is a schedule of our commitments and contractual obligations outstanding at September 30, 2014:

(In thousands)	Total	Less Than 1 Year	2-3 Years	4-5 Years	More Than 5 Years
Purchase obligations	\$31,118	\$31,118	\$—	\$—	\$—
Operating leases	24,483	4,881	8,338	3,701	7,563
Capital lease obligations and other	190	190	—	—	—
	\$55,791	\$36,189	\$8,338	\$3,701	\$7,563

We have a liability at September 30, 2014 of \$3.2 million for uncertain tax positions that have been taken or is expected to be taken in various income tax returns. We do not know the ultimate resolution on these uncertain tax positions and as such, do not know the ultimate timing of payments related to this liability. Accordingly, these amounts are not included in the above table.

Purchase obligations represent open non-cancelable purchase commitments for certain inventory components and services used in normal operations. The purchase commitments covered by these agreements are for less than one year and aggregated approximately \$31.1 million at September 30, 2014.

Our standard product sales and license agreements entered into in the ordinary course of business typically contain an indemnification provision pursuant to which we indemnify, hold harmless, and agree to reimburse the indemnified party for losses suffered or incurred by the indemnified party in connection with certain intellectual property infringement claims by any third party with respect to our products. Such provisions generally survive termination or expiration of the agreements. The potential amount of future payments we could be required to make under these indemnification provisions is, in some instances, unlimited.

OFF-BALANCE SHEET ARRANGEMENTS

Other than our lease commitments incurred in the normal course of business and certain indemnification provisions, we do not have any off-balance sheet financing arrangements or liabilities, guarantee contracts, retained or contingent interests in transferred assets, or any obligation arising out of a material variable interest in an unconsolidated entity. We do not have any majority-owned subsidiaries that are not consolidated in the financial statements. Additionally, we do not have an interest in, or relationships with, any special purpose entities.

NON-GAAP FINANCIAL MEASURES

In our periodic communications, we discuss two important measures that are not calculated according to U.S. generally accepted accounting principles (“GAAP”), adjusted EBITDA and free cash flow.

Adjusted EBITDA, the profitability measure for our segment reporting, is defined as income (loss) from continuing operations before interest income and expense, income taxes, depreciation, amortization of intangible assets, restructuring and other charges, impairment of long-lived assets, acquisition costs and other related expenses, fair value adjustments from purchase accounting and stock-based compensation costs. We use adjusted EBITDA as an important indicator of the operating performance of our business. We use adjusted EBITDA in internal forecasts and models when establishing internal operating budgets, supplementing the financial results and forecasts reported to our board of directors, determining a component of bonus compensation for executive officers and other key employees based on operating performance and evaluating short-term and long-term operating trends in our operations. We believe the adjusted EBITDA financial measure assists in providing a more complete understanding of our underlying operational measures to manage our business, to evaluate our performance compared to prior periods and the marketplace, and to establish operational goals. We believe that these non-GAAP financial adjustments are useful to investors because they allow investors to evaluate the effectiveness of the methodology and information used by management in our financial and operational decision-making.

Adjusted EBITDA is a non-GAAP financial measure and should not be considered in isolation or as a substitute for financial information provided in accordance with GAAP. This non-GAAP financial measure may not be computed in the same manner as similarly titled measures used by other companies. We expect to continue to incur expenses similar to the adjusted EBITDA financial adjustments described above, and investors should not infer from our presentation of this non-GAAP financial measure that these costs are unusual, infrequent or non-recurring.

The following table reconciles our income (loss) from continuing operations, the most directly comparable GAAP financial measure, to our adjusted EBITDA:

(In thousands)	Three Months Ended	
	September 30,	
	2014	2013
Income (loss) from continuing operations	\$717	\$(2,304)
Interest expense, net	5	14
Tax benefit	—	(1,319)
Depreciation	1,700	1,974
Amortization of intangible assets	1,762	1,985
Restructuring and other charges	1,268	(15)
Stock-based compensation cost	2,551	2,988
Adjusted EBITDA	\$8,003	\$3,323

Free cash flow, a non-GAAP measure for reporting cash flow, is defined as cash provided by operating activities less capital expenditures for property and equipment. We believe free cash flow provides investors with an important perspective on cash available for investments and acquisitions after making capital investments required to support ongoing business operations and long-term value creation. We believe that trends in our free cash flow are valuable indicators of our operating performance and liquidity.

Free cash flow is a non-GAAP financial measure and should not be considered in isolation or as a substitute for financial information provided in accordance with GAAP. This non-GAAP financial measure may not be computed in the same manner as similarly titled measures used by other companies. We expect to continue to incur expenditures similar to the free cash flow adjustment described above, and investors should not infer from our presentation of this non-GAAP financial measure that these expenditures reflect all of our obligations which require cash.

The following table reconciles cash provided by operating activities, the most directly comparable GAAP financial measure, to free cash flow:

(In thousands)	Three Months Ended	
	September 30,	
	2014	2013
Cash provided by operating activities	\$2,178	\$2,173
Capital expenditures for property and equipment	(905)	(1,108)
Free cash flow	\$1,273	\$1,065

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In August 2014, the FASB issued ASU No. 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern, an amendment of the FASB Accounting Standards Codification. The ASU has added additional disclosure requirements to the codification. It requires management to assess, at each interim and annual reporting period, whether substantial doubt exists about the company's ability to continue as a going concern. Substantial doubt exists if it is probable (the "probable" threshold under US GAAP has generally been interpreted to be between 75 and 80 percent) that the company will be unable to meet its obligations as they become due within one year after the date the financial statements are issued or available to be issued (assessment date). The ASU is effective for annual reporting periods beginning after December 15, 2016, and interim periods thereafter, with early adoption permitted. We do not expect a going concern problem in the foreseeable future, and therefore this guidance is not expected to have a material impact to our consolidated financial statements.

RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

Effective July 1, 2014, we adopted FASB ASU No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, an amendment of the FASB Accounting Standards Codification. The ASU requires an unrecognized tax benefit to be presented as a decrease in a deferred tax asset when net operating loss carryforwards, similar tax losses, or tax credit carryforwards exist and certain criteria are met. Such adoption did not have a material impact to our consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There were no material changes in our exposure to market risk from June 30, 2014 to September 30, 2014.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

We conducted an evaluation under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer (our principal executive officer and principal financial officer, respectively), regarding the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as amended (the “Exchange Act”)) as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of September 30, 2014. We continue to review our disclosure controls and procedures and may from time to time make changes aimed at enhancing their effectiveness and to ensure that our systems evolve with our Company’s business. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

(b) Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13c-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended September 30, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to litigation, claims, investigations and audits arising from time to time in the ordinary course of our business. Although legal proceedings are inherently unpredictable, we believe that we have valid defenses with respect to those matters currently pending against us and intend to defend our self vigorously. The outcome of these matters, individually and in the aggregate, is not expected to have a material impact on our cash flows, results of operations, or financial position.

ITEM 1A. RISK FACTORS

You should carefully review and consider the information regarding certain factors that could materially affect our business, financial condition or future results set forth under Item 1A (Risk Factors) in our Annual Report on Form 10-K for the fiscal year ended June 30, 2014. There have been no material changes from the factors disclosed in our 2014 Annual Report on Form 10-K filed on August 14, 2014, although we may disclose changes to such factors or disclose additional factors from time to time in our future filings with the Securities and Exchange Commission.

ITEM 6. EXHIBITS

The following Exhibits are filed or furnished, as applicable, herewith:

- | | |
|-------|--|
| 10.1 | Amended and Restated Performance-Based Restricted Stock Award Agreement under the 2005 Plan |
| 10.2 | Separation Agreement, dated as of September 3, 2014 by and between the Company and Kevin M. Bisson |
| 31.1 | Certification of the Company's Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 |
| 31.2 | Certification of the Company's Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 |
| 32.1+ | Certification of the Company's Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 |

- | | |
|-----|---|
| 101 | The following materials from the Company's Quarterly Report on the Form 10-Q for the quarter ended September 30, 2014 formatted in XBRL (eXtensible Business Reporting Language): (i) the Consolidated Balance Sheets; (ii) the Consolidated Statements of Operations; (iii) the Consolidated Statements of Cash Flows; and (iv) notes to the Consolidated Financial Statements |
|-----|---|

Furnished herewith. This certificate shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange + Act of 1934, or otherwise subject to the liability of that section, nor shall it be incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934.

MERCURY SYSTEMS, INC.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized, in Chelmsford, Massachusetts, on November 6, 2014.
