Transportation Logistics Int'l Inc. and Subsidiaries
Notes to the Consolidated Condensed Interim Financial Statements

BASIS OF PRESENTATION

The accompanying unaudited condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Item 310 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

DISCONTINUATION OF OPERATIONS

As of June 30, 2003 the Company had discontinued all of its operations. Historical results have been restated, therefore, to reflect the discontinuation.

ACQUISITION OF ADVANCED MEDICAL DIAGNOSTICS, LLC

On June 1, 2004 the Company. acquired the entire membership interest in Advanced Medical Diagnostics LLC ("AMD"). AMD is engaged in the business of manufacturing and distributing the "Advanced Medical Diagnostics HIV (1 & 2) Rapid Test." The membership interests in AMD were acquired by the Company in exchange for 100,000 shares of the Company's common stock. The Company also agreed to issue 500,000 shares of its common stock to the management of AMD as employment incentives.

ITEM 2. MANAGEMENT DISCUSSION AND ANALYSIS

Results of Operations

Effective as of June 30, 2003, the Company terminated the operations of Xcalibur Xpress, the only operation which had been continuing prior to that date. The Company liquidated the assets of Xcalibur Xpress and used the proceeds to reduce its debts. In its financial statements for the first half of 2003 the Company recorded a \$281,000 "loss from discontinued operations of subsidiary."

The only revenue recorded by the Company for the first half of 2004 was \$10,350 that it was paid for consulting services rendered. At the present time the Company has only one business operation: its newly acquired subsidiary, Advanced Medical Diagnostics LLC. However, Advanced Medical Diagnostics has not generated any revenue to date.

The Company intends to negotiate for one or more acquisitions of operating companies in the field of transportation and logistics or in the field of medicine. Any such acquisition, however, will involve the issuance of a large number of shares of capital stock. Moreover it is unlikely that the Company will be able to achieve any acquisition unless management is able to negotiate compromises with the Company's principal creditors.

Liquidity and Capital Resources

The Company has no operating assets and \$2,758,609 in net liabilities. The Company will be unable to satisfy its liabilities unless its creditors agree to compromise their claims in connection with the Company's acquisition of an operating business.

ITEM 3. CONTROLS AND PROCEDURES

Michael Margolies, our Chief Executive Officer and Chief Financial Officer, performed an evaluation of the Company's disclosure controls and procedures as of June 30, 2004. Based on his evaluation, he concluded that the controls and procedures in place are sufficient to assure that material information concerning the Company which could affect the disclosures in the Company's quarterly and annual reports is made known to him by the other officers and employees of the Company, and that the communications occur with promptness sufficient to assure the inclusion of the information in the then-current report.

There have been no significant changes in the Company's internal controls or in other factors that could significantly affect those controls subsequent to the date on which Mr. Margolies performed his evaluation.
