(1) BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements are prepared in accordance with instructions to Form 10-Q and do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. All adjustments are of a normal and recurring nature and, in the opinion of management, the statements include all adjustments considered necessary for fair presentation. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K to the Securities and Exchange Commission. Operating results for the nine months ended June 30, 2003, are not necessarily indicative of the results that may be expected for the fiscal year ended September 30, 2003. The consolidated balance sheet of the Company as of September 30, 2002, has been derived from the audited balance sheet of the Company as of that date.

In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Material estimates that are particularly susceptible to significant change in the near-term relate to the determination of the allowances for losses on loans and real estate owned and valuation of mortgage servicing rights. Management believes that these allowances and valuations are adequate. However, future additions to the allowances and changes in the valuations may be necessary based on changes in economic conditions.

The Company's critical accounting policies involving the more significant judgements and assumptions used in the preparation of the consolidated financial statements as of June 30, 2003, have remained unchanged from September 30, 2002. These policies are provision for loan losses and mortgage servicing rights. Disclosure of these critical accounting policies is incorporated by reference under Item 8 "Financial Statements and Supplementary Data" in the Company's Annual Report on Form 10-K for the Company's year ended September 30, 2002.

Certain quarterly amounts for previous periods have been reclassified to conform to the current quarter's presentation.

(9) SEGMENT INFORMATION

In accordance with SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information," the Company has identified two principal operating segments for purposes of financial reporting: Banking and Mortgage Banking. These segments were determined based on the Company's internal financial accounting and reporting processes and are consistent with the information that is used to make operating decisions and to assess the Company's performance by the Company's key decision makers.

The Mortgage Banking segment originates mortgage loans for sale to investors and for the portfolio of the Banking segment. The Banking segment provides a full range of banking services through the Bank's branch network, exclusive of mortgage loan originations. A portion of the income presented in the Mortgage Banking segment is derived from sales of loans to the Banking segment based on a transfer pricing methodology that is designed to approximate economic reality. The Other and Eliminations segment includes financial information from the parent company plus inter-segment eliminations.

The following table presents financial information from the Company's operating segments for the periods indicated. Dollar amounts are expressed in thousands.

(10) ACQUISITION

On December 19, 2002, the acquisition of CBES Bancorp, Inc ("CBES") was completed. Pursuant to a definitive agreement dated September 5, 2002, CBES was acquired by a wholly owned subsidiary of NASB Financial, Inc. formed solely to facilitate the transaction. The agreement provided that upon the effective date of the acquisition, each shareholder of CBES would receive \$17.50 in cash for each share of CBES common stock owned by such shareholder. The aggregate purchase price was \$15.6 million. The following table summarizes the fair values of the assets acquired and the liabilities assumed at the date of acquisition. Dollar amounts are expressed in thousands.

Cash and cash equivalents	\$ 32,251
Investments and mortgage backed securities	9,171
Loans receivable	58,624
Premises and equipment	955
Core deposits	1,499

Customer deposit accounts	82,750
Advances from Federal Home Loan Bank	10,358
Other liabilities	1,228
Total liabilities assumed	94,336
Net assets acquired	\$ 15,587

The only significant identifiable intangible asset acquired was the core deposit base, which has a useful life of approximately 15 years and will be amortized using the straight-line method. The \$1.8 million of goodwill was assigned entirely to the banking segment of the business.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

GENERAL

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

The principal business of the Company is to provide banking services through the Bank. Specifically, the Bank obtains savings and checking deposits from the public, then uses those funds to originate and purchase real estate loans and other loans. The Bank also purchases mortgage-backed securities ("MBS") and other investment securities from time to time as conditions warrant. In addition to customer deposits, the Bank obtains funds from the sale of loans held-for-sale, the sale of securities available-for-sale, repayments of existing mortgage assets, and advances from the Federal Home Loan Bank ("FHLB"). The Bank's primary sources of income are interest on loans, MBS, and investment securities plus customer service fees and income from mortgage banking activities. Expenses consist primarily of interest payments on customer deposits and other borrowings and general and administrative costs.

The Bank is regulated by the Office of Thrift Supervision ("OTS") and the Federal Deposit Insurance Corporation ("FDIC"), and is subject to periodic examination by both entities. The Bank is also subject to the regulations of the Board of Governors of the Federal Reserve System ("FRB"), which establishes rules regarding reserves that must be maintained against customer deposits.

FINANCIAL CONDITION

ASSETS

The Company's total assets as of June 30, 2003, were \$1,122.8 million, an increase of \$144.6 million from September 30, 2002, the prior fiscal year end. \$109.9 million of this increase was due to the acquisition of CBES Bancorp, Inc.

As the Bank originates mortgage loans each month, management evaluates the existing market conditions to determine which loans will be held in the Bank's portfolio and which loans will be sold in the secondary market. Loans sold in the secondary market can be sold with servicing released or converted into MBS and sold with the loan servicing retained by the Bank. At the time of each loan commitment, a decision is made to either hold the loan for investment, hold it for sale with servicing retained, or hold it for sale with servicing released. Management monitors market conditions to decide whether loans should be held in portfolio or sold and if sold, which method of sale is appropriate. During the nine months ended June 30, 2003, the Bank originated and purchased \$515.7 million in mortgage loans held for sale, \$484.8 million in mortgage loans held for investment, and \$24.1 million in other loans. This total of \$1,024.6 million in loans originated compares to \$759.3 million in loans originated during the nine months ended June 30, 2002.

Included in the \$161.0 million in loans held for sale as of June 30, 2003, are \$27.6 million in mortgage loans held for sale with servicing released. All loans held for sale are carried at the lower of cost or fair value.

The Bank classifies problem assets as "substandard," "doubtful" or "loss." Substandard assets have one or more defined weaknesses, and it is possible that the Bank will sustain some loss unless the deficiencies are corrected. Doubtful assets have the same defects as substandard assets plus other weaknesses that make collection or full liquidation improbable. Assets classified as loss are considered uncollectible and of such little value that a specific loss allowance is warranted.

The following table summarizes the Bank's classified assets as

Management records a provision for loan losses in amounts sufficient to cover current net charge-offs and an estimate of probable losses based on an analysis of risks that management believes to be inherent in the loan portfolio. The Allowance for Loan and Lease Losses ("ALLL") recognizes the inherent risks associated with lending activities but, unlike specific allowances, have not been allocated to particular problem assets but to a homogenous pool of loans. Management believes that the specific loss allowances and ALLL are adequate. While management uses available information to determine these allowances, future allowances may be necessary because of changes in economic conditions. Also, regulatory agencies (OTS and FDIC) review the Bank's allowance for losses as part of their examinations, and they may require the Bank to recognize additional loss provisions based on the information available at the time of their examinations.

The following table sets forth the activity in the allowance for loan losses for the nine months ending June 30, 2003, and 2002. Dollar amounts are expressed in thousands.

LIABILITIES AND EQUITY

Customer deposit accounts increased \$111.2 million during the nine months ended June 30, 2003. The weighted average rate on customer deposits as of June 30, 2003, was 2.27%, a decrease from 3.18% as of June 30, 2002.

Advances from the FHLB were \$325.2 million as of June 30, 2003, an increase of \$30.0 million from September 30, 2002. During the nine-month period, the Bank borrowed \$309.0 million of new advances, acquired \$10.4 million in the merger, and repaid \$289.2 million. Management uses FHLB advances at various times as an alternate funding source to provide operating liquidity and to fund the origination and purchase of mortgage loans.

Escrows were \$6.0 million as of June 30, 2003, a decrease of \$1.4 million from September 30, 2002. This decrease is due to amounts paid for borrowers' taxes during the fourth calendar quarter of 2002.

Total stockholders' equity as of June 30, 2003, was \$122.5 million (10.9% of total assets). This compares to \$109.4 million (11.2% of total assets) at September 30, 2002. On a per share basis, stockholders' equity was \$14.54 on June 30, 2003, compared to \$13.00 on September 30, 2002.

12

The Company paid cash dividends on its common stock of \$0.15 on November 22, 2002, and \$0.17 on February 28, 2003, and May 23, 2003. Subsequent to the quarter ended June 30, 2003, the Company announced a cash dividend of \$0.17 per share to be paid on August 29, 2003, to stockholders of record as of August 8, 2003.

Total stockholders' equity as of June 30, 2003, includes an unrealized gain of \$200,000, net of deferred income taxes, on available for sale securities. This amount is reflected in the line item "Accumulated other comprehensive income."

RATIOS

The following table illustrates the Company's return on assets (annualized net income divided by average total assets); return on equity (annualized net income divided by average total equity); equity-to-assets ratio (ending total equity divided by ending total assets); and dividend payout ratio (dividends paid divided by net income).

RESULTS OF OPERATIONS - Comparison of three months and nine months ended June 30, 2003 and 2002.

For the three months ended June 30, 2003, the Company had net income of \$6,791,000 or \$0.81 per share. This compares to net income of \$3,742,000 or \$0.44 per share for the quarter ended June 30, 2002.

For the nine months ended June 30, 2003, the Company had net income of \$17,725,000 or \$2.10 per share. This compares to net income of \$12,929,000 or \$1.53 per share for the nine months ended June 30, 2002.

NET INTEREST MARGIN

The Company's net interest margin is comprised of the difference ("spread") between interest income on loans, mortgage-backed securities and investments and the interest cost of customer deposits and other borrowings. Management monitors net interest spreads and, although constrained by certain market, economic, and competition factors, it establishes loan rates and customer deposit rates that maximize net interest margin.

The following table presents the total dollar amounts of interest income and expense on the indicated amounts of average interest-earning assets or interest-costing liabilities for the six months ended March 31, 2003 and 2002. Average yields reflect reductions due to non-accrual loans. Once a loan becomes 90 days delinquent, any interest that has accrued up to that time is reserved and no further interest income is recognized unless the loan is paid current. Average balances and weighted average yields for the periods include all accrual and non-accrual loans. The table also presents the interest-earning assets and yields for each respective period. Dollar amounts are expressed in thousands.

assets. This decrease was largely offset by a \$105.5 million increase in the average balance of interest-earning assets.

PROVISION FOR LOAN LOSSES

The Company's provision for loan losses was \$206,000 during the quarter ended June 30, 2003, and was \$266,000 for the nine months ended June 30, 2003. Management performs an ongoing analysis of individual loans and of homogenous pools of loans to assess for any impairment. An increase in commercial real estate loans classified as "loss" during the quarter ended June 30, 2003, resulted in the increase in provision for loan losses. On a consolidated basis, the allowance for loan and real estate owned losses was 52.2% of total classified assets at June 30, 2003, 42.3% at September 30, 2002, and 36.2% at June 30, 2002.

As stated above, management believes that the provisions for loan losses is adequate. The provision can fluctuate based on changes in economic conditions or changes in the information available to management. Also, regulatory agencies review the Company's allowances for losses as a part of their examination process and they may require changes in loss provision amounts based on information available at the time of their examination.

OTHER INCOME

Other income for the three months ended June 30, 2003, increased \$3.9 million from the same period in the prior year. Specifically, net loan servicing fees increased \$1.4 million due to a decrease in the amortization of capitalized servicing. Additionally, gain on sale of loans held for sale increased \$1.7 million due to an increase in mortgage banking volume. Other income increased \$900,000, primarily due to the effect of recording the net fair value of certain loan-related commitments in accordance with FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities."

Other income for the nine months ended June 30, 2003, increased \$3.0 million from the same period in the prior year. Gain on sale of loans held for sale increased \$2.3 million due to an increase in mortgage banking volume. Other income increased \$984,000, primarily due to the effect of recording the net fair value of certain loan-related commitments in accordance with FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities." Additionally, customer service fees and charges increased \$650,000 due to an increase in appraisal and other fee income related to the increase in mortgage banking volume. Net loan servicing fees increased \$448,000 due to a decrease in the amortization of capitalized servicing, and gain on sale of securities increased \$249,000. These increases in other income were offset by a \$1.9 million increase in provision for losses on real estate owned due to a reserve recorded on a hotel property in the Southeast area of Kansas City, Missouri. This property was sold in April 2003.

GENERAL AND ADMINISTRATIVE EXPENSES

Total general and administrative expenses for the quarter ended June 30, 2003, increased \$1.1 million from the same period in the previous year. Specifically, compensation increased \$765,000 due the increase in loan origination volume and the acquisition of CBES. Other expenses increased \$138,000 due to an increase in expenses attributable to the increased loan origination volume and the acquisition of CBES.

Total general and administrative expenses for the nine months ended June 30, 2003, increased \$2.7 million from the same period in the prior year. Specifically, compensation increased \$1.7 million due the increase in loan origination volume and the acquisition of CBES. Advertising increased \$301,000, and other expenses increased \$472,000 due to an

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

increase in data processing and other expenses attributable to the increased loan origination volume and the acquisition of CBES.

REGULATION

The Bank is a member of the FHLB System and its customers' deposits are insured by the Savings Association Insurance Fund ("SAIF") of the FDIC. The Bank is subject to regulation by the OTS as its chartering authority. Since passage of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA" or the "Act"), the FDIC also has regulatory control over the Bank. The transactions of SAIF-insured institutions are limited by statute and regulations that may require prior supervisory approval in certain instances. Institutions also must file reports with regulatory agencies regarding their activities and their financial condition. The OTS and FDIC make periodic examinations of the Bank to test compliance with the various regulatory requirements. The OTS can require an institution to re-value its assets based on appraisals and to establish specific valuation allowances. This supervision and regulation is intended primarily for the protection of depositors. Also, savings institutions are subject to certain reserve requirements under Federal Reserve Board regulations.

INSURANCE OF ACCOUNTS

The SAIF insures the Bank's customer deposit accounts to a maximum of \$100,000 for each insured member. Deposit insurance premiums are determined using a Risk-Related Premium Schedule ("RRPS"), a matrix which places each insured institution into one of three capital groups and one of three supervisory groups. Currently, deposit insurance premiums range from 0 to 27 basis points of the institution's total deposit accounts, depending on the institution's risk classification. The Bank is currently considered "well capitalized", which is the most favorable capital group and supervisory subgroup. SAIF-insured institutions are also assessed a premium to service the interest on Financing Corporation ("FICO") debt.

REGULATORY CAPITAL REQUIREMENTS

At June 30, 2003, the Bank exceeds all capital requirements prescribed by the OTS. To calculate these requirements, a thrift must deduct any investments in and loans to subsidiaries that are engaged in activities not permissible for a national bank. As of June 30, 2003, the Bank did not have any investments in or loans to subsidiaries engaged in activities not permissible for national banks.

The following tables summarize the relationship between the Bank's capital and regulatory requirements. Dollar amounts are expressed in thousands.

LOANS TO ONE BORROWER

Institutions are prohibited from lending to any one borrower in excess of 15% of the Bank's unimpaired capital plus unimpaired surplus, or 25% of unimpaired capital plus unimpaired surplus if the loan is secured by certain readily marketable collateral. Renewals that exceed the loans-to-one-borrower limit are permitted if the original borrower remains liable and no additional funds are disbursed. As of June 30, 2003, the Bank had no loans that exceeded the loans to one borrower limit.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity measures the ability to meet deposit withdrawals and lending commitments. The Bank generates liquidity primarily from the sale and repayment of loans, retention or newly acquired retail deposits, and advances from FHLB of Des Moines' credit facility. Management continues to use FHLB advances as a primary source of short-term funding. At June 30, 2003, there was \$116.2 million available to the Bank in the form of FHLB advances. The Bank has established relationships with various brokers, and, as a secondary source of liquidity, the Bank may purchase brokered deposit accounts. Although the Bank does not have any brokered deposits at June 30, 2003, it could purchase up to \$248.9 million and remain "well capitalized" as defined by the OTS.

Fluctuations in the level of interest rates typically impact prepayments on mortgage loans and MBS. During periods of falling interest rates, these prepayments increase and a greater demand exists for new loans. The Bank's customer deposits are partially impacted by area competition. Management believes that the Bank will retain most of

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

its maturing time deposits in the foreseeable future. However, any material funding needs that may arise in the future can be reasonably satisfied through the use of additional FHLB advances and/or brokered deposits. Management is not aware of any other current market or economic conditions that could materially impact the Bank's future ability to meet obligations as they come due.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For a complete discussion of the Company's asset and liability management policies, as well as the potential impact of interest rate changes upon the market value of the Company's portfolio, see the "Asset/Liability Management" section of the Company's Annual Report for the year ended September 30, 2002.

Management recognizes that there are certain market risk factors present in the structure of the Bank's financial assets and liabilities. Since the Bank does not have material amounts of derivative securities, equity securities, or foreign currency positions, interest rate risk ("IRR") is the primary market risk that is inherent in the Bank's portfolio. On a quarterly basis, the Bank monitors the estimate of changes that would potentially occur to its net portfolio value ("NPV") of assets, liabilities, and off-balance sheet items assuming a sudden change in market interest rates. Management presents a NPV analysis to the Board of Directors each quarter and NPV policy limits are reviewed and approved. There have been no material changes in the market risk information provided in the Annual Report for the year ended September 30, 2002.

Item 4. Controls and Procedures

An evaluation of the Company's disclosure controls and procedures was carried out under the supervision and with the participation of the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") within the 90-day period preceding the filing date of this quarterly report. Based on that evaluation, the CEO and CFO have concluded that the Company's disclosure controls and procedures are effective in ensuring that the information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is (i) accumulated and communicated to management in a timely manner, and (ii) recorded, processed, summarized, and reported within the time periods specified by the SEC. Since the date of this evaluation, there have not been any significant changes in the Company's internal controls or in other factors that could significantly affect those controls.

17

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

During the quarter ended June 30, 2002, a class of plaintiffs filed a lawsuit against the Bank and eleven other financial institution defendants in the Circuit Court of St. Louis County, Missouri. The suit

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

alleged that all the defendants, including the Bank, who had charged fees to their customers for the preparation of mortgage documents had engaged in the practice of law without a license. The Bank was dismissed as a defendant early in this case on the basis that, as a federally chartered institution, federal law preempts state law with regard to the action. This case continues with regard to other defendants and, although North American was named in the plaintiff's amended petitions, the Bank was dismissed each time on the basis of federal preemption. Management believes that the Bank will also prevail in any subsequent appeal.

There were no other material proceedings pending other than ordinary and routine litigation incidental to the business of the Company.
