## EQUANT ANNOUNCES 2003 RESULTS

- **Operating income before depreciation and amortization <sup>(1)</sup> increased by 52 percent from \$192 million to \$292 million**
- **Operating free cash flow <sup>(2)</sup> positive for the first time**
- **Net loss reduced by 40 percent from \$590 million to \$356 million**
- **Total revenues of \$2,949 million in line with guidance; approximately 1 percent below 2002**
- **Robust cost controls yielded savings of \$124 million in total costs before depreciation**
- **Net cash and loans <sup>(3)</sup> increased by \$34 million to \$479 million**

AMSTERDAM, The Netherlands- February 11, 2004

- Equant (Euronext Paris: EQU) (NYSE: ENT) today announced its results for the fiscal year ended December 31, 2003.

Financial Highlights

<u>(French GAAP; U.S. dollars in millions)</u>	2003 <u>Actual</u>	2002 <u>Actual</u>	%Better/ (Worse)
Total revenues	2,949	2,973	(0.8)
Gross profit	917	899	2.0
Selling, general and administrative expenses	625	707	11.6
Operating income before depreciation and amortization (1)	292	192	51.9
Depreciation and amortization	483	488	1.1
Share plans credit	-	(10)	-
Restructuring and integration	85	98	13.3
Operating loss	276	384	28.1
Net loss	356	590	39.7
Capital expenditures	280	369	24.1
Working capital improvement	105	204	-

Edgar Filing: EQUANT NV - Form 6-K

Operating free cash flow <sup>(2)</sup>	12	(177)	-
Net cash and loans <sup>(3)</sup>	479	445	7.7

(1)

Operating income before depreciation and amortization is operating result before depreciation, amortization, share plans and restructuring and integration

(2)

Operating free cash flow is operating income before depreciation and amortization <sup>(1)</sup> minus capital expenditures

(3)

Net cash and loans includes \$138 million of cash on deposit with, and \$150 million of unsecured short-term loans to, France Telecom less bank loans. At December 31, 2002 net cash and loans was also stated net of \$1 million of capital leases.

Commenting on Equant's results, Daniel Caclin, president and chief executive officer of Equant, said: "In 2003, we delivered the operational and financial expectations arising from the highly complex integration of Equant and Global One. The integration has led to a significant improvement in our financial performance; in particular a 52 percent increase in operating income before depreciation and amortization <sup>(1)</sup> and positive operating free cash flow for the first time. We have also streamlined our organization ensuring that we are leaner and more focused on our expansion areas.

"We are now ready to reinforce our position among the leading providers of global, integrated and customized communication solutions, for the benefit of our customers, as they seek to improve their business processes. To drive our strategic development, we will leverage our global network and reach, our unmatched MNCs customer base, our unique employee skills and our solid finances. This will position us for profitable growth and create value for all its stakeholders.

"We have set ourselves ambitious targets to accelerate our development. I am convinced that 2004 will be another year of success for Equant."

Revenues

The Company's revenues for 2003 of \$2,949 million were in line with guidance; approximately 1 percent below 2002. Compared with 2002, foreign exchange movements had a positive effect of \$129 million on the Company's revenues driven in particular by the sharp appreciation of the Euro against the US dollar.

Revenues in 2003 reflected the Company's strategy of developing its direct sales and expanding its services offering. The Company expanded its Direct Network Services, posting a revenue increase of 8.3 percent driven by solid growth in Western Europe. This growth was offset by a decrease in revenues from other business lines, in particular Indirect Network Services and the SITA contract, which, as expected, saw the expiry of the minimum revenue commitment at the end of June 2003.

During the year, the Company announced numerous multi-million dollar contracts with major customers, including a major outsourcing contract with Zurich Financial Services.

#### Gross Profit and Gross Margin

The Company's gross profit was \$917 million in 2003, an increase of \$18 million, or 2 percent, from \$899 million in 2002, despite stable revenues. The gross margin was 31.1 percent compared with 30.2 percent in 2002.

The gross profit increase reflected a \$42 million reduction in direct costs, net of other operating income. The network restructuring and integration activities since 2001 have yielded significant cost savings and the Company expects to enjoy further benefits in the future. Total network costs have fallen by approximately 15 percent from 2002 to 2003, notwithstanding the adverse impact of foreign

exchange. The Company's access and data termination costs for 2003 were approximately 6 percent below those of 2002, following completion of initiatives to identify redundant or high cost circuits, and we have seen an 18 percent reduction in the cost of transmission over the same period. The overall reductions in network costs have been partially offset by increased costs to support additional fulfillment and outsourcing revenues.

#### Selling, General and Administrative Expenses (SG&A)

SG&A expenses of \$625 million for 2003 were down \$82 million or 12 percent from last year. SG&A expenses as a percentage of revenue declined to 21.2 percent compared with 23.8 percent in 2002.

Facilities costs fell by over 19 percent during 2003, as we closed 33 sales and administrative offices. Our sales force continues to be successful adding 81 new accounts during the year. Indirect taxes decreased by over 50 percent as legislation covering certain U.S. sales taxes was changed, and professional fees fell by almost 9 percent as the company re-evaluated a number of its supplier arrangements.

Both staff-related expenditure and headcount declined by approximately 3 percent between 2002 and 2003, as SG&A staff numbers fell from 3,727 at the beginning of the year to 3,611 at the end of the year.

The Company expects to make further reductions in SG&A expenses during 2004, as the ongoing focus on cost control should enable further efficiencies.

Total costs before depreciation (cost of services and products sold, net of other operating income, and sales and general and administrative expenses) fell by \$124 million or 5 percent to \$2,657 million. Excluding the impact of exchange rate movements total costs, before depreciation, would have fallen by 11 percent.

#### Operating income before depreciation and amortization <sup>(1)</sup>

Operating income before depreciation and amortization <sup>(1)</sup> was \$292 million compared with \$192 million in 2002. As a result of the improved gross profit and the reduction in expenses, the margin of operating income before depreciation and amortization <sup>(1)</sup> for the year was 9.9 percent compared with 6.5 percent in the comparative period.

Other Operating Expenses

Depreciation and Amortization (excluding goodwill amortization)

Total depreciation and amortization charges, excluding goodwill amortization, were \$483 million compared with \$488 million in 2002. The charge for 2003 includes a charge of approximately \$30 million as a result of a change in the estimation of the useful lives of certain former Global One assets. The charge for 2002 includes \$24 million for the write off of certain assets, primarily related to capacity purchased from bankrupt suppliers and consequently unutilizable. This charge was previously classified as a non-recurring charge.

We expect depreciation to fall slightly in 2004 but then to reduce further as the asset base matures and integration and operating benefits reduce our future capital expenditures expectations.

Restructuring and Integration

The Company incurred \$198 million of restructuring and integration costs before recoveries of \$113 million from France Telecom. The major components of the gross charge were personnel related costs of \$63 million, lease exit charges of \$60 million, asset write offs of \$41 million and other integration costs of \$26 million. The net charge of \$85 million compares with \$98 million in 2002. The Company's right to claim reimbursement from France Telecom for certain restructuring and integration costs ceased on June 29, 2003.

Operating Loss

The operating loss of \$276 million in 2003 is a substantial improvement over the loss of \$384 million in 2002 driven by the growth in gross profit and reductions in SG&A and restructuring and integration charges.

Non-Operating Expenses

Financial Expense and Income

The Company recognized a foreign exchange loss of \$22 million in 2003 compared with a gain of \$8 million in 2002, as the steep decline in the value of the U.S. dollar during the second half of the year increased the cost of settling our non-U.S. dollar denominated liabilities that were not covered by forward contracts.

Income Taxes

The Company both receives revenues and incurs costs in numerous countries and even if an overall loss is incurred, typically, a taxable profit is made in certain entities. The \$5 million increase in the tax charge in 2003 compared with 2002 reflects changes in the profitability mix by entity. Taxes paid in 2003 totaled \$16 million.

Equity in Loss of Affiliate

## Edgar Filing: EQUANT NV - Form 6-K

Our equity in the loss of Radianz has increased by \$14 million, or 49 percent to \$41 million in 2003 from \$27 million in 2002. The 2003 result was adversely affected by a \$8 million charge, being our share of a fixed asset impairment recognized by Radianz due to the under-utilization of a hosting center.

### Net Loss per Share

The net loss of \$356 million for 2003, or \$1.22 per share, is inclusive of restructuring and integration charges of \$85 million (\$0.29 per share) and is an improvement of 40 percent over the net loss of \$590 million, or \$2.01 per share, in 2002.

### Additional Information

Total capital expenditures for 2003 were \$280 million including expenditure of \$46 million for the purchase of transmission capacity in the form of indefeasible rights of use, (IRUs). Capital expenditures in 2002 totaled \$369 million including expenditure of \$37 million for the purchase of IRUs. Capital expenditures in 2003 were 9.5 percent of revenues. Approximately 80 percent of the Company's capital expenditures in 2003 related to network equipment.

Working capital improved by \$105 million as the Company continued its management of working capital requirements achieving major reductions in both related and third party receivables, partially offset by a reduction in payables.

At December 31, 2003, the Company's net cash and loans <sup>(3)</sup> totaled \$479 million, an increase of \$34 million from December 31, 2002. The improved net cash and loans position reflects the Company's improved adjusted operating income together with its continued focus on cash management and optimization of capital expenditures.

The Company's headcount at December 31, 2003 was 9,547 compared with 10,132 at December 31, 2002.

### Outlook

The environment for corporate business solutions is expected to remain challenging, particularly in the first half of 2004. As announced at the beginning of the year, the Company will actively pursue its expansion into integrated networks and IT solutions. As a global company, Equant is impacted by currency fluctuations and in 2004 will drive its operations towards a small increase in its annual revenue, an increase in its operating income before depreciation and amortization <sup>(1)</sup> and will remain operating free cash flow positive.

The company will host a conference call for investors on February 12, 2004 at 10 a.m. (EDT) and 4 p.m. (CET). The call can be accessed via the Equant Web site at [www.equant.com](http://www.equant.com) or by dialing +1-913-981-5568 in North America or +44-20-7784-1005 in Europe and in France +33-1-70-70-60-60. A replay will be available through midnight EDT, Monday February 16, and can be accessed by dialing +1-719-457-0820. The passcode is 407217.

### About Equant

Equant (NYSE: ENT) (Euronext Paris: EQU) is a recognized industry leader in global communications services for multinational businesses. Equant combines its network expertise - including unmatched seamless network reach in 220 countries and territories and local support in more than 165 countries - with its expanded services capabilities to provide global, integrated and customized communication services to enable its customers key business processes.

## Edgar Filing: EQUANT NV - Form 6-K

Equant serves thousands of the world's top companies, with the industry's most extensive portfolio of communications services and network solutions, including the market-leading IP VPN used by 1,000 global businesses today. Equant, a subsidiary of France Telecom, was named Best Global Carrier 2003 and Best Managed Service 2003 at the World Communication Awards and consistently leads industry surveys in corporate user satisfaction
