Interest paid

\$ 223

\$

1

During the first quarter ended May 1, 2004, the Company acquired selected assets and customer contracts of various laundry facilities for \$10,611,000. The cost of businesses acquired reflects the cash paid for these acquisitions, with the remaining balance of \$3,623,000 due in one year.

The accompanying notes are an integral part of the consolidated financial statements.

4

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FIRST QUARTER ENDED MAY 1, 2004
AND APRIL 26, 2003

Note 1. Basis of Presentation

The accompanying condensed consolidated financial statements are unaudited, and these consolidated statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2004 (fiscal 2003). It is Management's opinion that all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the results during the interim period have been included. All significant intercompany accounts and transactions have been eliminated. The results of operations and cash flows for the first quarter ended May 1, 2004 are not necessarily indicative of the results that will be achieved for the full year.

Certain amounts in the prior periods have been reclassified to conform to current period presentation.

Note 2. Stock-Based Compensation

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure." SFAS No. 148 amends SFAS No. 123, "Accounting for Stock-Based Compensation," to provide alternative methods of transition for a voluntary change to the fair-value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results.

The Company has various stock option and stock bonus plans that provide for the granting of incentive stock options, non-qualified stock options, restricted stock and performance awards to certain employees and directors. As permitted by SFAS No. 123, the Company

Edgar Filing: ANGELICA CORP /NEW/ - Form 10-Q

applies APB Opinion No. 25, "Accounting for Stock Issued to Employees," in accounting for its plans. Accordingly, no compensation expense has been recognized for its stock-based compensation plans other than for restricted stock and performance-based awards, as to which the amounts charged to expense in the first quarter ended May 1, 2004 and April 26, 2003 totaled \$143,000 and \$129,000, respectively. During the quarter ended May 1, 2004, 45,000 shares of restricted stock were granted with a weighted-average share price of \$22.18.

Had compensation expense for stock-based compensation plans for the first quarter ended May 1, 2004 and April 26, 2003 been determined consistent with SFAS No. 123, the Company's net income (loss) and earnings (loss) per share would approximate the following pro forma amounts:

5

(Dollars in thousands, except per share amounts)	May 1, 2004	April 26, 2003

Net income (loss):		
As reported	\$ 131	\$2,340
Add: stock-based employee compensation expense included in net income, net of tax	102	87
Deduct: stock-based employee compensation expense determined under fair-value based method for all awards, net of tax	(285)	(225)
Pro forma net (loss) income	\$ (52) =====	\$2,202 =====
Basic earnings (loss) per share:		
As reported	\$ 0.01	\$ 0.27
Pro forma	(0.01)	0.25
Diluted earnings (loss) per share:		
As reported	\$ 0.01	\$ 0.26
Pro forma	(0.01)	0.25

The effect of the application of SFAS No. 123 in this disclosure is not necessarily indicative of the pro forma effect on net income in future periods.

Note 3. Restructuring Activities

As of January 31, 2004, there was \$410,000 of reserve remaining from the original restructuring charge recorded in the fourth quarter of fiscal 2001 related primarily to the closing of certain retail stores in the Life Uniform segment. During the first quarter ended May 1, 2004, a total of \$83,000 of the reserve was utilized for lease termination costs paid. The reserve balance of \$327,000 remaining as of May 1, 2004 is expected to be utilized in fiscal 2004 for

termination costs of the remaining store leases.

Note 4. Non-Operating Income

In the first quarter of fiscal 2004, the Company recorded non-operating income of \$2,100,000 which included a gain of \$1,472,000 from the sale of real estate of the former Miami plant which closed in January 2000. In addition, the Company recognized gains of \$610,000 for the excess of death benefits from Company-owned life insurance policies surrendered over the cash value of the policies.

Non-operating income, net, also includes interest earned on invested cash balances.

6

Note 5. Income Taxes

Taxes on income from continuing operations were provided for at an effective tax rate of 29.0 percent and 32.5 percent in the first quarter of fiscal 2004 and fiscal 2003, respectively, based upon the Company's estimated effective tax rate for the year including the effects of permanent items and tax credits. The effective tax rate of 34.0 percent on the loss from discontinued operations in fiscal 2004 reflects the statutory tax rate adjusted for unutilized State net operating losses.

Note 6. Discontinued Operations

In fiscal 2003, the Company retained an investment bank to review strategic alternatives for its underperforming Life Uniform retail business segment. Upon conclusion of that review in the first quarter of fiscal 2004, the Company decided to exit and discontinue the segment within the next 12 months, and focus its resources on growing the Textile Services healthcare laundry and linen management business. The Company is pursuing a divestiture strategy for Life Uniform through sale of the business or otherwise closing the stores and liquidating the assets in a manner to maximize the value of the segment. The Company intends to continue to operate the segment pending successful completion of its sale or liquidation.

In the first quarter of fiscal 2004, the Company recorded an estimated pretax loss on disposal of the discontinued Life Uniform segment of \$4,642,000 to write down the net assets of the segment to their estimated fair values, less costs directly incurred in connection with the proposed sale. The estimated loss on disposal is based upon preliminary negotiations on an exclusive basis with a potential buyer for Life Uniform. The final charge associated with the disposition of the segment may differ materially depending upon the outcome of these negotiations. The Company expects to conclude the sale of the segment during the second quarter of fiscal 2004. However, there is a risk that the Company will be unable to consummate the sale of Life Uniform which could result in additional

Edgar Filing: ANGELICA CORP /NEW/ - Form 10-Q

losses upon closing of the stores and liquidation of the assets.

In accordance with SFAS No. 144, the financial position, cash flows and results of operations of the Life Uniform segment are segregated and reported as discontinued operations for all periods presented in this report. Assets and liabilities of the discontinued segment held for sale as of May 1, 2004 consisted primarily of inventories of \$12,880,000, net property and equipment of \$9,517,000, and accounts payable of \$5,512,000, less the loss on disposal.

Results of operations of the Life Uniform segment for the first quarter ended May 1, 2004 and April 26, 2003 were as follows (dollars in thousands):

7

	2004	2003
Net retail sales	\$20,538	\$21,656
Income from operations before taxes		
	\$ 1,018	\$ 122
Provision for income taxes	(346)	(39)
Income from operations		
	\$ 672	\$ 83

Note 7. Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of shares of Common Stock outstanding during the period. Diluted earnings per share is computed by dividing net income by the weighted average number of Common and Common equivalent shares outstanding.

The following table reconciles weighted average shares outstanding to amounts used to calculate basic and diluted earnings per share for the first quarter ended May 1, 2004 and April 26, 2003 (shares in thousands):

	First Quarter Ended	
	May 1, 2004	April 26, 2003
Weighted average shares:		
Average shares outstanding	8,876	8,786
Effect of dilutive securities	229	141

Edgar Filing: ANGELICA CORP /NEW/ - Form 10-Q

Average shares outstanding, adjusted for dilutive effects	9,105 =====	8,927 =====
-----------------------------------------------------------	----------------	----------------

Note 8. Goodwill and Other Intangible Assets

In accordance with SFAS No. 142, "Goodwill and Other Intangible Assets," the Company performs its annual goodwill impairment test at the end of the third quarter. There were no material changes in the carrying value of goodwill during the first quarter of fiscal 2004.

During the first quarter ended May 1, 2004, the Company acquired businesses with customer contracts valued at \$116,000, with amortization periods of five to 10 years. Other acquired assets consisted of the following (dollars in thousands):

	May 1, 2004			January 31, 2004	
	Gross Carrying Amount	Accumulated Amortization	Other Acquired Assets, net	Gross Carrying Amount	Accumulated Amortization
Customer contracts	\$8,114	\$(5,046)	\$3,068	\$7,998	\$(4,876)
Non-compete covenants	1,600	(1,009)	591	1,600	(954)
Other acquired assets	\$9,714	\$(6,055)	\$3,659	\$9,598	\$(5,830)
	=====	=====	=====	=====	=====

8

Aggregate amortization expense for the first quarter ended May 1, 2004 and April 26, 2003 amounted to \$225,000 and \$125,000, respectively. Other acquired assets are scheduled to be fully amortized by fiscal year 2014 with corresponding annual amortization expense estimated for each of the next five fiscal years as follows (dollars in thousands):

2004	\$851
2005	746
2006	693
2007	601
2008	364

Note 9. Long-Term Debt

On March 8, 2004, the Company amended the terms of its long-term credit facility. Under the terms of the amendment, the maximum amount which may be borrowed under the credit facility was increased from \$70,000,000 to \$100,000,000, and the maturity date of the credit facility was extended by one year to May 30, 2007 with two optional

Edgar Filing: ANGELICA CORP /NEW/ - Form 10-Q

one-year extensions. In addition, certain financial covenants contained in the credit agreement were amended, including the minimum net worth requirement. This covenant requires that the Company maintain a minimum consolidated net worth equal to 85 percent of the Company's consolidated net worth as of January 31, 2004, plus an aggregate amount equal to 50 percent of quarterly net income beginning with the first quarter of fiscal 2004 (with no reduction for net losses except as permitted for the sale of the discontinued Life Uniform segment). As of May 1, 2004, the Company was in compliance with this and all other financial covenants in the credit facility.

Note 10. Derivative Instruments and Hedging Activities

The Company entered into an interest-rate swap agreement with one of its lenders effective September 9, 2002. The swap agreement fixes the variable portion of the interest rate (excluding a margin) at 3.58 percent on \$10,000,000 of the outstanding debt under the revolving line of credit until termination on May 30, 2007. The Company has elected to apply cash flow hedge accounting for the interest-rate swap agreement in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." Accordingly, the derivative is recorded as an asset or liability at its fair value. The effective portion of changes in the fair value of the derivative, as measured quarterly, is reported in accumulated other comprehensive income, and the ineffective portion, if any, is reported in net income of the current period. The gain (loss) on the derivative included in accumulated other comprehensive loss in the first quarter ended May 1, 2004 and April 26, 2003 amounted to \$89,000 and \$(43,000), respectively, net of tax. The Company has recorded a long-term liability of \$118,000 and \$254,000 for the fair value of the derivative as of May 1, 2004 and January 31, 2004, respectively.

To moderate price risk due to market fluctuations, the Company has entered into fixed-price contracts as of May 1, 2004 for approximately 33 percent of its estimated natural gas purchase requirements in the next 12 months. Although these contracts are considered derivative instruments, they meet the normal purchases exclusion contained in SFAS No. 133, as amended by SFAS No. 138 and SFAS No. 149, and are therefore exempted from the related accounting requirements.

9

Note 11. Comprehensive Income

Comprehensive income, consisting primarily of net income and changes in the fair value of derivatives used for interest rate risk management, net of taxes, totaled \$217,000 and \$2,297,000 for the first quarter ended May 1, 2004 and April 26, 2003, respectively.

Note 12. Retirement Benefits

The Company has a non-contributory defined benefit pension plan covering primarily all salaried and hourly administrative non-union

Edgar Filing: ANGELICA CORP /NEW/ - Form 10-Q

personnel. The benefit formula is based on years of service and compensation during employment. The funding policy of the pension plan is in accordance with the requirements of the Employee Retirement Income Security Act of 1974. The net periodic pension expense recognized in the first quarter of fiscal years 2004 and 2003 was as follows:

(Dollars in thousands)	2004	2003

Pension expense:		
Service cost	\$ 149	\$ 135
Interest cost	319	312
Expected return on plan assets	(353)	(356)
Amortization of prior service cost	5	5
Recognized actuarial loss	29	34

Net periodic pension expense	\$ 149	\$ 130
=====		

10

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FIRST QUARTER ENDED MAY 1, 2004 COMPARED WITH
FIRST QUARTER ENDED APRIL 26, 2003

Analysis of Operations

As previously announced during the first quarter of fiscal 2004, the Company decided to exit and discontinue its Life Uniform retail business segment and actively market the segment for sale. As a result, the segment's financial position, cash flows and results of operations are shown as discontinued operations for all periods presented in this report. The Company's continuing operations reflect the results of its remaining Textile Services healthcare laundry and linen management business.

Income from continuing operations of \$2,523,000 in the first quarter of fiscal 2004 increased 11.8 percent from the same quarter last year, as non-operating income of \$2,100,000 recorded in this year's first quarter more than offset a 50.9 percent decrease in operating income. Operating earnings were negatively affected by increased costs of utilities, linen and labor, as well as start-up costs for new laundry facilities in Columbia, SC and Durham, NC, which more than offset the impact of the revenue gains. The first quarter fiscal 2004 non-operating income included gains of \$1,472,000 from the sale of the vacant Miami property and \$610,000 from death benefits on Company-owned life insurance policies.

Loss from discontinued operations, net of tax, totaled \$2,392,000 in the first quarter of fiscal 2004, including \$672,000 income from store operations and \$3,064,000 estimated loss on disposal of the

Edgar Filing: ANGELICA CORP /NEW/ - Form 10-Q

discontinued Life Uniform segment. In the first quarter of fiscal 2003, income from operations of discontinued segment was \$83,000, net of tax.

On a per-share basis, the Company earned \$.28 (\$.27 diluted) from continuing operations in first quarter fiscal 2004, including non-operating income of \$.17 (\$.16 diluted), compared with \$.26 (\$.25 diluted) earned in the first quarter a year ago. The loss from discontinued operations in the first quarter this year amounted to \$.27 per share (\$.26 diluted) including the estimated loss on disposal of \$.35 (\$.34 diluted). Combining continuing and discontinued operations, first quarter fiscal 2004 net income of \$.01 per share was 96.3 percent lower than net income of \$.27 per share (\$.26 diluted) in the first quarter of fiscal 2003.

Textile service revenues increased 8.9 percent to \$77,730,000 in the first quarter compared with the same period a year ago. The acquisition of the Tampa Bay plant in the fourth quarter of fiscal 2003 accounted for nearly 60 percent of the revenue increase in the first quarter, with the remainder due primarily to net new business added during the past year. Net new business added during the first quarter of fiscal 2004 was \$10,312,000 in annualized revenue compared with \$3,259,000 in annualized revenue added during the first quarter last year. Gross profit margin declined to 15.7 percent in the first quarter this year from 19.0 percent a year earlier, reflecting greater cost pressures. Linen costs increased \$756,000 in the first quarter due mainly to moderately higher linen prices. Utility costs were \$912,000 unfavorable to prior year in the first quarter mostly as a result of higher natural gas prices paid for that portion of purchases not covered by fixed-price contracts. Direct labor and production payroll fringe costs were \$585,000 higher than last year's first quarter due primarily to higher wage rates, increases in health

11

insurance costs and unemployment taxes, and inefficiencies during the start-up of new plants. The Company is addressing these cost pressures through cost reduction efforts utilizing capital expenditures to improve plant efficiency, as well as implementation of energy surcharges where possible, annual CPI price increases permitted in existing customer contracts, and reflecting higher costs in competitive bids for new contracts.

Selling, general and administrative expenses increased 1.7 percent in first quarter fiscal 2004 compared with first quarter fiscal 2003 due to having four more plants this year and a reduction in bad debt expense last year of \$216,000 from a favorable settlement of litigation. As a percent of revenues, these expenses declined to 13.1 percent in the first quarter this year from 14.0 percent a year ago. Despite costs incurred in connection with union efforts currently targeted against the Company, corporate expenses decreased 9.1 percent in the quarter versus the prior year, reflecting the beginning of the corporate office downsizing that will continue during the remainder of fiscal 2004. Net other operating expense in first quarter fiscal 2003 was mostly offset by \$164,000 of income related to the disposition of an administrative office building in St. Louis. The increase in interest expense of \$55,000 in the first quarter this year reflects the higher level of debt outstanding compared to a year ago.

Discontinued Operations

Net retail sales of the discontinued Life Uniform segment decreased 5.2 percent in the first quarter this year compared with the same period last year. A same-store sales increase of 1.4 percent for the quarter was more than offset by 24 fewer stores in operation this year compared with last year. Catalogue and e-commerce sales declined \$228,000, or 14.3 percent, as a result of reduced distribution of catalogues this year. Gross profit margin improved to 54.7 percent in the first quarter this year from 53.9 percent in last year's first quarter due to lower cost sourcing of products. Operating expenses of the segment in the first quarter fiscal 2004 decreased \$1,427,000, or 12.3 percent, from the comparable period a year ago due to fewer stores in operation, reduced catalogue expenses, and \$601,000 of depreciation expense recorded in the first quarter last year compared with no depreciation expense for the discontinued operation in fiscal 2004. First quarter fiscal 2003 earnings of the Life Uniform segment included \$130,000 of income from the reversal of a portion of the fiscal 2001 restructuring charge due to favorable terminations of store leases.

In the first quarter of fiscal 2004, the Company recorded an estimated loss on disposal of the discontinued Life Uniform segment of \$4,642,000 pretax. The loss consisted of a \$3,917,000 writedown of net assets of the segment, primarily inventories, leasehold improvements and accounts payable, to their estimated fair values and \$725,000 of estimated costs directly related to the proposed sale. The Company has entered into a period of exclusive negotiations with a potential buyer for Life Uniform and expects to conclude the sale of the segment during the second quarter of fiscal 2004. The outcome of the pending negotiations with the buyer will determine the amount and timing of the ultimate charge associated with disposal of the Life Uniform segment. However, there is a risk that the Company will be unable to consummate the sale of Life Uniform which could result in additional losses upon closing of the stores and liquidation of the assets.

Financial Condition, Liquidity and Capital Resources

As of May 1, 2004, working capital of continuing operations totaled \$40,261,000 compared with \$39,012,000 at January 31, 2004, and current ratio was unchanged at 1.9 to 1. Receivables

increased \$1,230,000 in the first quarter of fiscal 2004 due mainly to death benefits on company-owned life insurance policies received in the second quarter this year totaling \$1,188,000. Receivable days outstanding of 42 at May 1, 2004 was unchanged from the end of fiscal 2003. First quarter fiscal 2004 increases in linens in service of \$1,107,000 and in net property and equipment of \$10,230,000 reflect primarily the acquisition of the Duke University Health System Laundry in Durham, NC in April 2004. Corresponding increases in other accrued liabilities and long-term debt reflect mainly the financing of the Duke acquisition.

Cash used for working capital of continuing operations in the first quarter last year was due to a reduction in the level of accounts payable and higher incentive compensation payments related to fiscal

Edgar Filing: ANGELICA CORP /NEW/ - Form 10-Q

2002 financial performance. Capital expenditures were lower in the first quarter this year compared with last year's first quarter level, which included construction costs associated with the Phoenix, AZ plant.

Assets of the discontinued Life Uniform segment held for sale decreased \$2,994,000 in the first quarter fiscal 2004 as a result of the loss recognized to write down the assets to their estimated fair values less costs to sell, offset in part by an increase of \$1,389,000 in inventories of the segment during the quarter. Net cash used in discontinued operations in the first quarter this year reflects the inventory increase as well as a decrease in accounts payable of \$509,000, whereas cash provided by discontinued operations in the first quarter fiscal 2003 included a decrease in inventories and increase in accounts payable of \$1,199,000 and \$843,000, respectively. Concentrated efforts have been made in fiscal 2004 to increase store inventories to optimal selling levels while reducing the backlog of accounts payable.

As previously announced during the first quarter this year, the Company amended the terms of its credit facility to increase the maximum borrowing capacity by \$30,000,000 to \$100,000,000. Under the terms of the amended loan agreement, there was \$53,096,000 of borrowing capacity available as of May 1, 2004. The Company's ratio of total debt to total capitalization as of May 1, 2004 was 15.5 percent, up from 11.8 percent as of January 31, 2004 and 8.6 percent as of April 26, 2003. As of May 1, 2004, the Company was in compliance with all financial covenants contained in its credit facility.

Management believes that the Company's financial condition, operating cash flow and available sources of external funds are sufficient to satisfy the Company's requirements for debt service, capital expenditures, acquisitions, dividends and working capital over the course of the next 12 months.

Forward-Looking Statements

Any forward-looking statements made in this document reflect the Company's current views with respect to future events and financial performance and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties that may cause actual results to differ materially from those set forth in these statements. These potential risks and uncertainties include, but are not limited to, competitive and general economic conditions, the ability to retain current customers and to add new customers in competitive market environments, competitive pricing in the marketplace, delays in the shipment of orders, availability of labor at appropriate rates, availability and cost of energy and water supplies, the cost of workers' compensation and healthcare benefits, the ability to attract and retain key personnel, disruption to the Company's operation by union activities, the ability of the Company to sell the Life Uniform segment under financial terms and conditions currently anticipated, the ability of the Company to accomplish its strategy of re-

directing its resources to its healthcare linen management business

Edgar Filing: ANGELICA CORP /NEW/ - Form 10-Q

in a timely and financially advantageous manner, unusual or unexpected cash needs for operations or capital transactions, the effectiveness of certain expense reduction initiatives, the ability to obtain financing in required amounts and at appropriate rates, the ability to identify, negotiate, fund and integrate acquisitions, and other factors which may be identified in the Company's filings with the Securities and Exchange Commission.

14

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to commodity price risk related to the use of natural gas in laundry plants of the Textile Services segment. The total cost of natural gas in the first quarter ended May 1, 2004 was \$3,520,000. To reduce the uncertainty of fluctuating energy prices, the Company has entered into fixed-price contracts for approximately 33 percent of its estimated natural gas purchase requirements in the next 12 months. A hypothetical 10 percent increase in the cost of natural gas not covered by these contracts would result in a reduction of approximately \$943,000 in annual pretax earnings.

The Company is also exposed to commodity price risk resulting from the consumption of gasoline and diesel fuel for delivery trucks in the Textile Services segment. The total cost of truck fuel in the first quarter ended May 1, 2004 was \$1,174,000. A hypothetical 10 percent increase in the cost of delivery fuel would result in a decrease of approximately \$470,000 in annual pretax earnings.

The Company's exposure to interest rate risk relates primarily to its variable-rate revolving debt agreement entered into in the second quarter of fiscal 2002. As of May 1, 2004, there was \$26,700,000 of outstanding debt under the credit facility, of which \$10,000,000 bears interest at a fixed rate of 3.58 percent (plus a margin) under an interest-rate swap agreement entered into by the Company with one of its lenders to moderate the exposure. Amounts borrowed under the credit facility in excess of the \$10,000,000 covered by the interest-rate swap agreement bear interest at a rate equal to either (i) LIBOR plus a margin, or (ii) a Base Rate, defined as the higher of (a) the Federal Funds Rate plus .50 percent or (b) the Prime Rate. The margin is based on the Company's ratio of "Funded Debt" to "EBITDA," as each is defined in the Loan Agreement. As of May 1, 2004, the margin was 1.125 percent. A hypothetical increase of 100 basis points in short-term interest rates applicable to the outstanding debt not covered by the interest-rate swap agreement would result in a reduction of approximately \$167,000 in annual pretax earnings.

ITEM 4. CONTROLS AND PROCEDURES

The Company maintains a system of internal controls and procedures designed to provide reasonable assurance as to the reliability of the unaudited consolidated financial statements and other disclosures included in this report. The Company's Board of Directors, operating through its Audit Committee which is composed entirely of independent Directors, provides oversight to the financial reporting process.

As of the end of the period covered by this report, the Company's

Edgar Filing: ANGELICA CORP /NEW/ - Form 10-Q

Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended). Based upon their evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in ensuring that material information relating to the Company, including its consolidated subsidiaries, is made known to them by others within those entities in a timely manner, particularly during the period for which this quarterly report is being prepared. The Chief Executive Officer and Chief Financial Officer also concluded based upon their evaluation that the Company's disclosure controls and procedures are effective in ensuring that the information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and

15

reported, within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no changes in the Company's internal control over financial reporting during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting subsequent to the date of this most recent evaluation, nor were any corrective actions required with regard to significant deficiencies and material weaknesses.
