Fair Value Measurements

Investments are carried in the statements of assets and liabilities at fair value, as determined in good faith by RENN Group, subject to the approval of the Fund's Board of Directors.

The Fund generally invests in common securities, preferred securities, convertible and nonconvertible debt securities and warrants. These securities may be unregistered and thinly-to-moderately traded. Generally, the Fund negotiates registration rights at the time of purchase and the portfolio companies are required to register the shares within a designated period, and the cost of registration is borne by the portfolio company.

On a weekly basis, RENN Group prepares a valuation to determine fair value of the investments of the Fund. The Board of Directors approves the valuation on a quarterly basis. Interim board involvement may occur if material issues arise before quarter end. The valuation principles are described below.

Unrestricted common stock of companies listed on an exchange, NASDAQ or in the over-the-counter market is valued at the closing price on the date of valuation.

Restricted common stock of companies listed on an exchange, NASDAQ or in the over-the-counter market is valued based on the quoted price for an otherwise identical unrestricted security of the same issuer that trades in a public market, adjusted to reflect the effect of any significant restrictions.

The unlisted preferred stock of companies with common stock listed on an exchange, NASDAQ or in the over-the-counter market is valued at the closing price of the common stock into which the preferred stock is convertible on the date of valuation.

Debt securities are valued at fair value. Fair value is generally determined to be the greater of the face value of the debt or the market value of the underlying common stock into which the instrument may be converted. However, the Fund considers, among other things, whether a debt issuer is in default or bankruptcy and the underlying collateral and may adjust the fair value accordingly.

The unlisted in-the-money options or warrants of companies with the underlying common stock listed on an exchange, NASDAQ or in the over-the-counter market are valued at fair value (the positive difference between the closing price of the underlying common stock and the strike price of the warrant or option). An out-of-the money warrant or option has no value; thus the Fund assigns no value to it.

Investments in privately held entities are valued at fair value. If there is no independent and objective pricing authority (i.e., a public market) for such investments, fair value is based on the latest sale of equity securities to independent third parties. If a private entity does not have an independent value established over an extended period of time, then the Investment Adviser will determine fair value on the basis of appraisal procedures established in good faith and approved by the Board of Directors.

The Fund follows the provisions of Accounting Standards Codification ASC 820, Fair Value Measurements, under which the Fund has established a fair value hierarchy that prioritizes the sources ("inputs") used to measure fair value into three broad levels: inputs based on quoted market prices in active markets (Level 1 inputs); observable inputs

based on corroboration with available market data (Level 2 inputs); and unobservable inputs based on uncorroborated market data or a reporting entity's own assumptions (Level 3 inputs).

RENN Global Entrepreneurs Fund, Inc.
Portfolio of Investments
First Quarter Report
March 31, 2012 (unaudited)

The following table shows a summary of investments measured at fair value on a recurring basis classified under the appropriate level of fair value hierarchy as of March 31, 2012:

	Level 1	Level 2	Level 3	Total
Convertible Bonds	\$ -	\$ 150,000	\$ 284,500	\$ 434,500
Convertible Preferred Equities	-	1,478,385	1,006,069	2,484,454
Common stock	7,010,061	-	1,941,087	8,951,148
Miscellaneous Securities	-	8,860	158,334	167,194
Total Investments	\$ 7,010,061	\$ 1,637,245	\$ 3,389,990	\$ 12,037,296

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

Level 3	
Beginning balance – December 31, 2011	\$ 3,316,646
Transferred from Level 2 to Level 3	0
Changes in unrealized gain or loss	73,344
Ending Balance - March 31, 2012	\$ 3,389,990

The Fund has adopted a policy of recording any transfers of investment securities between the different levels in the fair value hierarchy as of the end of the year unless circumstances dictate otherwise. The transfers into Level 3 and out of Level 3 identified above were due to changes in the observability of the inputs utilized by the Fund to estimate the fair value of certain securities.

ITEM 2. CONTROLS AND PROCEDURES.

(a) The Registrant's Principal Executive Officer and Principal Financial Officer have concluded, based on their evaluation of the Registrant's disclosure controls and procedures (as such term is defined in Rule 30a-3 under the Investment Company Act of 1940), that such controls and procedures are adequate and reasonably designed to achieve the purposes described in paragraph (c) of such rule.

In May 2012, the Registrant became aware that Russell Cleveland, the Registrant's President and Chief Executive Officer, and one of the Registrant's Directors, had inadvertently failed to disclose his acquisition of certain securities issued to him for services rendered to one of the Registrant's portfolio companies. This occurred prior to the time that

the Registrant had any investment in such portfolio company. At the time of grant, Mr. Cleveland had no obligation to turn over any portion of the securities to the Registrant. At the time that Mr. Cleveland was originally obligated to disclose the acquisition, the securities were of de minimis value. Nonetheless, the non-disclosure constituted a violation of the Registrant's Code of Ethics and applicable regulations under the Investment Company Act of 1940. As a result, Mr. Cleveland offered (and the Registrant accepted) the tender of a portion of such securities to the Registrant at no cost to the Registrant.

In light of the matter described above, in June 2012 the Registrant enhanced its disclosure controls and procedures. The enhancements included: improving correspondence processing; facilitating access to legal counsel; updating whistleblower policies; undertaking a review of policies and procedures governing the retention of remuneration received by the Registrant's personnel for portfolio company board service; and instituting additional procedures concerning disclosure of Directors' personal investments.

(b) There were no changes in the Registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal controls over financial reporting.
