Proxy Statement for Annual Meeting of Stockholders

This Proxy Statement is furnished by the Board of Directors (the “Board of Directors”) of Perficient, Inc., a Delaware corporation (“Perficient” or the “Company”), in connection with the solicitation of proxies to be used at the Annual Meeting of Stockholders (the “Meeting”) to be held on June 16, 2008 at the Company’s headquarters located at 1120 South Capital of Texas Highway, Building 3, Suite 220, Austin, Texas 78746 at 9:00 a.m. local time, and at any adjournment thereof. This Proxy Statement and the accompanying Notice and Proxy are being mailed to stockholders on or about May 7, 2008. The principal executive offices of Perficient are located at the address listed above.

PURPOSE OF MEETING

The specific proposals to be considered and acted upon at the Meeting are summarized in the accompanying Notice of Annual Meeting of Stockholders. Each proposal is described in more detail in this Proxy Statement.

VOTING RIGHTS AND SOLICITATION OF PROXIES

Only holders of record of Perficient common stock, \$.001 par value per share (the “Common Stock”), at the close of business on the record date, April 25, 2008 (the “Record Date”), will be entitled to vote at the Meeting and at all adjournments thereof. On the Record Date, there were outstanding and entitled to vote 31,983,445 shares of Common Stock. Each outstanding share of Common Stock is entitled to one vote on each matter to be voted upon. Votes cast, either in person or by proxy, will be tabulated by Continental Stock Transfer & Trust Company, the Company’s transfer agent.

Quorum Required

The Company’s bylaws provide that the holders of a majority of the Company’s outstanding shares of stock entitled to vote at the Meeting, present in person or represented by proxy shall constitute a quorum for the transaction of business at the Meeting. Abstentions and broker non-votes will be counted as present for the purpose of determining the presence of a quorum.

Effect of Broker Non-Votes and Abstentions

A broker “non-vote” occurs on an item when shares held by a bank, broker or other nominee are present or represented at the meeting but such nominee is not permitted to vote on that item without instructions from the beneficial owner of the shares and no instruction is given. Abstentions have the same effect as negative votes. Broker non-votes and shares as to which proxy authority has been withheld with respect to any matter are not entitled to vote for purposes of determining whether stockholder approval of that matter has been obtained and, therefore, will have no effect on the outcome of the vote on any such matter.

Voting Procedures

Holders of record of our common stock may vote using one of the following methods:

In Person: Stockholders of record may attend the Meeting and vote in person.

By Mail: Stockholders of record may vote by completing, signing, dating and returning the proxy card in the accompanying self-addressed envelope, which does not require postage if mailed in the United States.

By Telephone: Stockholders of record may call the toll-free number on the accompanying proxy card to vote by telephone, in accordance with the instructions set forth on the proxy card and through voice prompts received during the call.

By Internet: Stockholders of record may access the voting website listed on the accompanying proxy card to vote through the Internet in accordance with the instructions included on the proxy card and prompts on the voting website. Stockholders electing to vote through the Internet may incur telephone and Internet access charges.

Proxies submitted by telephone or the Internet are treated in the same manner as if the stockholder had signed, dated and returned the proxy card by mail. Therefore, stockholders of record electing to vote by telephone or the Internet should not return their proxy cards by mail.

If a proxy is properly signed by a stockholder and is not revoked, the shares represented thereby will be voted at the Meeting in the manner specified on the proxy, or if no manner is specified with respect to any matter therein, such shares will be voted by the person designated therein in accordance with the recommendations of the Board of Directors as indicated in this Proxy Statement. If any of the nominees for director are unable to serve or for good cause will not serve, an event that is not anticipated by Perficient, the shares represented by the accompanying proxy will be voted for a substitute nominee designated by the Board of Directors or the Board of Directors may determine to reduce the size of the Board of Directors. A proxy may be revoked by the stockholder at any time prior to the voting thereof by giving notice of revocation in writing to the Secretary of Perficient, by duly executing and delivering to the Secretary of Perficient a proxy bearing a later date, or by voting in person at the Meeting.

Solicitation of Proxies

Perficient will bear the entire cost of solicitation, including the preparation, assembly, printing, and mailing of this Proxy Statement, the Proxy, and any additional soliciting material furnished to stockholders. Copies of solicitation material will be furnished to brokerage houses, fiduciaries, and custodians holding shares in their names that are beneficially owned by others so that they may forward this solicitation material to such beneficial owners. Perficient may reimburse such persons for their costs of forwarding the solicitation material to such beneficial owners. The original solicitation of proxies by mail may be supplemented by solicitation by telephone, telegram, or other means by directors, officers, employees or agents of Perficient. No additional compensation will be paid to these individuals for any such service.

PROPOSAL 1. ELECTION OF DIRECTORS.

At this year's Meeting, five directors will be elected to hold office for a term expiring at the next Annual Meeting of Stockholders. The nominees for election (the "Nominee Directors") are:

John T. McDonald
 Ralph C. Derrickson

 David S. Lundeen

Each director will be elected to serve until a successor is elected and qualified or until the director's earlier resignation or removal.

If any of the Nominee Directors listed above becomes unable to serve or for good cause will not serve, an event that is not anticipated by the Company, (i) the shares represented by the proxies will be voted for a substitute nominee or substitute nominees designated by the Board of Directors or (ii) the Board of Directors may determine to reduce the size of the Board of Directors. At this time, the Board of Directors knows of no reason why any of the persons listed above may not be able to serve as directors if elected.

COMPOSITION AND MEETINGS OF THE BOARD OF DIRECTORS AND COMMITTEES

The Board of Directors has affirmatively determined that a majority of the directors qualify as independent directors as defined by SEC regulations and Nasdaq Stock Market listing standards. The independent directors are Ralph C. Derrickson, Max D. Hopper, Kenneth R. Johnsen and David S. Lundeen.

During fiscal year 2007, the Board of Directors held eight meetings and acted by unanimous written consent two times. All members of the Board of Directors are encouraged to attend the Meeting.

Committees of the Board of Directors

The Board of Directors has created a Compensation Committee, an Audit Committee and a Nominating and Corporate Governance Committee. Each member of the committees is independent as defined by SEC regulations and Nasdaq Stock Market listing standards.

Compensation Committee

The Compensation Committee establishes salaries, incentives and other forms of compensation for Perficient's directors, executive officers and key employees, and administers its equity incentive plans and other incentive and benefit plans. This committee held three meetings and acted six times by unanimous written consent during fiscal year 2007. The members of the Compensation Committee are Max D. Hopper, Kenneth R. Audit Committee

The Audit Committee has the sole authority to appoint, retain and terminate the Company's independent accountants and is directly responsible for the compensation, oversight and evaluation of the work of the independent accountants. The independent accountants report directly to the Audit Committee. The Audit Committee also has the sole authority to approve all audit engagement fees and terms and all non-audit engagements with the Company's independent accountants and must pre-approve all auditing and permitted non-audit services to be performed for the Company by the independent accountants, subject to certain exceptions provided by the Securities Exchange Act of 1934, as amended (the "Exchange Act"). A copy of the current Audit Committee Charter is available on the Company's website, www.perficient.com.

This committee held eight meetings during fiscal year 2007. The members of the Audit Committee are Max D. Hopper, David S. Lundeen and Ralph C. Derrickson. Mr. Lundeen serves as chairman of the Audit Committee. The Board of Directors has determined that Mr. Lundeen is qualified as the Audit Committee financial expert within the meaning of SEC regulations and that he has accounting and related financial management expertise within the meaning of the listing standards of the Nasdaq Stock Market. The Board of Directors has affirmatively determined that Messrs. Hopper, Lundeen and Derrickson qualified as independent directors as defined by the Nasdaq Stock Market listing standards and believes that each member has sufficient knowledge and experience in financial matters to perform his duties on the committee.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee is responsible for establishing the criteria for selecting directors, recommending to the Board of Directors individuals for election or reelection, overseeing orientation and continuing education programs, advising the Board of Directors on corporate governance practices, recommending chairpersons of each of the Board of Director committees, and reporting annually on the performance of the Board of Directors. The Nominating and Corporate Governance Committee was created by resolution of the Board of Directors and did not have a formal charter during fiscal year 2007. A charter was adopted during April 2008 and is available on the Company's website, www.perficient.com.

This committee held no meetings and did not act by unanimous written consent during fiscal year 2007. This committee met in 2008 to confirm the recommendation of the Directors nominated by the Board of Directors for reelection (the Board of Directors approved the nominations after consultation with members of the Nominating and Corporate Governance Committee but before the committee's meeting) and review the composition of its committees. The members of the Nominating and Corporate Governance Committee are David S. Lundeen and Max D. Hopper. Mr. Hopper serves as chairman of the Nominating and Corporate Governance Committee.

Identification of Director Candidates

COMPENSATION OF DIRECTORS AND EXECUTIVE OFFICERS

Compensation Discussion & Analysis

Overview

The Compensation Committee of the Board of Directors (“Compensation Committee”) is responsible for reviewing, evaluating and approving the agreements, plans, policies and programs of the Company to compensate its officers and directors. The Compensation Committee consists of Messrs. Hopper, Johnsen and Lundeen. Mr. Lundeen serves as chairman of the Compensation Committee. None of the committee members performed as an officer or employee of Perficient or any of its subsidiaries at any time during fiscal 2007 or at any other time. None of the executive officers of the Company served on the board of directors of any company of which one of the Company’s directors was an executive officer.

The Committee makes all compensation decisions for the Chief Executive Officer (“CEO”) and Chief Operating Officer (“COO”). The CEO annually reviews the performance of the named executive officers, other than himself, and presents individual compensation recommendations to the Compensation Committee. The Compensation Committee has the authority to exercise discretion in accepting, modifying, or disregarding compensation recommendations.

Executive Compensation Objectives and Elements of Compensation

During 2007, various types of compensation were provided to the named executive officers of the Company set forth in the “Summary Compensation Table” at page 13, who are:

- John T. McDonald, CEO
- Jeffrey S. Davis, COO
- Paul E. Martin, Chief Financial Officer (“CFO”)
- Richard T. Kalbfleish, Vice President of Finance and Administration (“VP – Finance & Administration”), and
- Timothy J. Thompson, Vice President of Client Development (“VP – Client Development”).

The objectives of the compensation programs of the Company are:

- To recruit and retain the top management available in the industry of the Company in order to aid and to support its rapid growth;
- To allow employees to acquire a proprietary interest in the Company as an incentive to remain employed with the Company; and
- To reward employees for service to the Company by delivering salaries that appropriately recognize job responsibilities and individual performance.

The Company’s compensation programs are designed to attract, retain, and reward executives who are responsible for achieving the business objectives necessary to assure both revenue and profit growth while providing clients of the Company with the highest quality solutions and services. A significant portion of compensation paid to executives is directly related to delivering revenue and profit growth and other factors that influence shareholder value, thereby aligning closely with our shareholders’ interest. This leads the Company to focus more on variable compensation than on base salary. The Company’s variable compensation programs for executives are structured to pay for high performance and are typically dependent on the Company’s financial results. It is the Company’s view that an

incentive-based compensation philosophy keeps management motivated and retains top executives to ensure the Company's long-term success. Each executive officer is rewarded with the following types of cash and non-cash compensation:

- Base salary;
- Performance based annual cash bonus award;
- Long-term equity incentive compensation;
- Company-sponsored employee benefits, such as life, health and disability insurance benefits, and a tax-qualified savings plan (401(k) plan);
- Limited perquisites; and
- Upon a termination for certain specified reasons or a change in control, severance and the potential acceleration of vesting of long-term equity awards.

There is no predetermined policy for allocating compensation between these elements, and each type of compensation is designed to achieve a specific purpose in line with management's compensation program objectives. Salary is the only guaranteed portion of the compensation items listed, however, because bonus targets established by the Compensation Committee have been met, bonus has been paid to our key executive officers in each of the last five years (while employed by the Company). Equity based awards are determined based on a compensation benchmarking analysis performed by a third party, although additional awards may be approved by the Compensation Committee when an incentive or reward is determined by the Compensation Committee to be advisable.

Peer Group

The Compensation Committee utilized the analysis of Longnecker & Associates ("Longnecker"), an independent compensation consulting firm, to determine if the Company's executive officer compensation, including base salary, is comparable to the Company's peers and a market average. This market average was comprised of a combination of market compensation data from peer company proxy statements as well as published industry sources utilizing companies that operate in the computer programming services industry with average revenues of approximately \$217 million and average market capitalization of \$703 million ("external market"). The following companies were included in the peer group: Advent Software, Inc., Computer Programs & Systems, Inc., Computer Task Group, Inc., Diamond Management & Technology Consultants Inc., EPIQ Systems, Inc., iGATE Corporation, QuadraMed Corporation, Secure Computing Corporation, Synaptics, Incorporated, and Syntel, Inc. Published survey compensation data from the following sources was utilized: William Mercer, Watson Wyatt, World at Work, and the Economic Research Institute. The report prepared by Longnecker analyzes the compensation paid to 20 top executives of the Company. Therefore, the comparisons of the compensation paid to the Company's executive officers to the external market midpoint include those top 20 executives and not merely the Company's named executive officers. While the data and input provided by Longnecker is a factor in its analysis of various compensation elements, the Compensation Committee makes the final determination on all compensation decisions. The Company's operating performance was substantially above the peer group.

Base Salary

The named executive officers are offered a competitive salary in order to retain their services and to also reward their performance with the Company. For the CEO, COO and CFO, salary is predetermined as part of a written employment agreement that has been approved by the Compensation Committee. Several factors are considered by the Compensation Committee when determining and approving an employment agreement or arrangement for a named executive officer. These factors include the executive officer's performance relevant to the Company's goals and objectives, such as the Company's financial performance and relative shareholder return. For newly hired executives, the individual's relevant experience in the industry is considered. The base salary of other executive officers of the Company is recommended by the CEO with final approval given by the Compensation Committee.

From January 1, 2007 to March 31, 2007, the CEO and COO both had a base salary of \$250,000. Effective April 1, 2007, the Compensation Committee changed the structure of executive compensation for these two officers by eliminating certain perquisites and increasing base salary to \$285,000, as discussed in further detail in the "Limited Perquisites" section. For 2007, the Compensation Committee increased the base salary for the VP – Finance & Administration from \$140,000 to \$150,000 to bring his base salary closer to the external market midpoint. The Compensation Committee determined that the base salaries of the other named executive officers were appropriate and did not make further adjustments. See the "Summary Compensation Table" on page 13 for a detailed discussion of the executives' base salaries for years 2006 and 2007.

The report provided by Longnecker showed that after the adjustments to the base salaries for 2007 were complete, the base salaries of the Company's executives were at approximately 88% of the external market midpoint. The Compensation Committee uses this report as verification that the base salaries are close to the market midpoint or slightly below, which allows for more emphasis on variable compensation and is in line with the Company's compensation program objectives. The Company's operating performance was substantially above the peer group.

Performance Based Executive Bonus Plan

The named executive officers, excluding the VP-Client Development, for reasons discussed below, are awarded cash bonuses under the Executive Bonus Plan, which is tied to operating performance. The determination of bonus payments is based on various targets and factors. Annual incentive targets are an integral component of compensation that link and reinforce executive decision making and performance with the annual objectives of the Company. The Compensation Committee has the discretion to determine the appropriate performance criteria, which is objective and established in writing during the first quarter of each year. Typically, these targets include Non-Generally Accepted Accounting Principles Earnings Per Share ("Non-GAAP EPS") targets and Generally Accepted Accounting Principles Earnings Per Share ("GAAP EPS") targets that must be met each quarter and are discussed and agreed upon by the Compensation Committee and management during the Company's annual planning process. Non-GAAP EPS is a performance measure defined as net income plus amortization of intangibles and stock compensation, including related tax effects, divided by shares used in computing diluted net income per share, which is not in compliance with Generally Accepted Accounting Principles ("GAAP").

Management and the Compensation Committee believe in the importance of structuring a bonus arrangement that pays the Company's stockholders first. Therefore, no incentive bonuses are payable to the Company's executives until the Company surpasses the Non-GAAP EPS and GAAP EPS targets established by the Compensation Committee.

The bonus payments under the 2007 Executive Bonus Plan were contingent upon realization of fully diluted Non-GAAP EPS and GAAP EPS of at least \$0.75 and \$0.54, respectively, for the year. These targets were reassessed by the Compensation Committee after all significant acquisitions during the year and were increased as appropriate to reflect the impact of the transaction. A detailed description of the 2007 Executive Bonus Plan can be found following the "2007 Grants of Plan-Based Awards" table on page 16. In addition to amounts payable under the Company's Executive Bonus Plan, the Compensation Committee may also award discretionary bonuses. The form and structure of all bonuses paid to the Company's named executive officers must be approved by the Compensation Committee. Bonus payments are offered to reward management for implementing and monitoring the objectives of the Company in line with the Company's financial goals.

As discussed above, the Compensation Committee utilized a report provided by Longnecker to determine if the Company's executive officer compensation, including the above-mentioned bonus payments, was comparable to its peers and a market average for 2007 (see discussion under "Peer Group" for a definition of these terms). The effectiveness of the Company's annual incentive program was assessed on the basis of total cash actually received by executives, which includes base salary and annual incentive bonus payments with respect to 2007. The report showed that the Company's executives receive total cash that is approximately 97% of the external market midpoint. The Company's operating performance was substantially above the peer group.

In March 2008, the Compensation Committee established the annual incentive targets for the named executive officers, excluding the VP-Client Development as discussed below, as part of the 2008 Executive Bonus Plan. The table below lists the 2008 target bonus awards as a percent of base salary for the named executive officers:

	Target Bonus Percentage	Maximum Bonus Percentage
CEO	200%	300%
COO	200%	300%
CFO	60%	90%
V P - F i n a n c e & Administration	30%	45%

The named executive officers above are eligible to receive their target bonus if the following Non-GAAP and GAAP EPS targets are met or exceeded for 2008: \$0.83 Non-GAAP EPS and \$0.55 GAAP EPS. Included in these goals are first quarter goals of \$0.17 Non-GAAP EPS and \$0.10 GAAP EPS. The performance targets increase substantially in the second through fourth quarters. The named executive officers may receive up to the maximum bonus percentage to the extent the Non-GAAP and GAAP EPS targets are exceeded up to 1.5 times the targets. The Compensation Committee has full discretion to reduce bonus amounts, even if the targets are met or exceeded. In order to meet these targets, the Company's Non-GAAP and GAAP EPS must meet the predetermined targets after considering the estimated bonus payout. No bonus amounts are paid if the targets are not met.

The 2008 Executive Bonus Plan also incorporates a "stair-step" feature. In prior years, the bonus pool established with respect to the named executive officers and other non-executive management employees was funded with each dollar of earnings in excess of the pre-established EPS targets. Pursuant to the Company's 2008 incentive bonus arrangements, however, a portion of the bonus pool is funded upon the achievement of Non-GAAP EPS in excess of

\$0.83 (and earnings in excess of the portion of the bonus pool funded are retained by the Company), another portion of the bonus pool is funded upon the achievement of Non-GAAP EPS in excess of \$0.86 (and earnings in excess of the portion of the bonus pool funded are retained by the Company), and the bonus pool will not be fully funded until the achievement of Non-GAAP EPS in excess of \$0.90. The Compensation Committee implemented this feature based on the recommendation of management to ensure that the Company's executives and management employees would share in benefits of increased earnings on Common Stock with the Company's stockholders. Management and the Compensation Committee believe the addition of the "stair-step" feature to the 2008 Executive Bonus Plan furthers the Company's policy of paying stockholders before executives are rewarded for Company performance.

Business Development Executive Commission Plan

The Company's VP-Client Development is not eligible for the Executive Bonus Plan; however, he participates in the Business Development Executive Commission Plan (the "Commission Plan"). This plan is applicable for all business development executives and provides a percentage commission on certain revenue targets. Each business development executive is assigned a services revenue quota and a software margin quota that is based primarily on prior year results, Company growth objectives, and projected sales opportunities. Business development executives must attain a minimum of 60% of their established quota to be eligible for commissions. Services commissions range from 2% to 6% of project revenue and software commissions range from 10% to 15% of margin.

In 2008, participants in the Commission Plan may elect to receive a portion of any earned commission in the form of a restricted stock award granted pursuant to the Perficient, Inc. 1999 Stock Option/Stock Issuance Plan. If such an election is made, the employee will receive a 20% premium on their “purchase” of the restricted stock award. The VP – Client Development did not elect to receive any portion of earned commission in restricted stock during 2008.

Long-Term Equity Incentive Compensation

Share-based compensation such as stock options and restricted stock awards are granted to executive officers on a discretionary basis by the Compensation Committee. The Company does not have any program, plan or practice to grant stock options or restricted stock awards to executives in coordination with the release of material non-public information. Typically, grants of share-based awards to executive officers include grants to other employees as well, unless the award is issued as part of a new employment arrangement with the Company. It is the Company’s current practice to grant awards of restricted stock instead of stock options. See detail of these awards at the “2007 Grants of Plan-Based Awards” table on page 16. The Company believes that by offering this type of incentive compensation, they have rewarded the highest quality management and will retain that management in the future. Share-based payments allow the executive officers to obtain a proprietary interest in the Company and therefore participate in the profit and success of the Company in meeting its objectives and goals.

These types of awards usually have a vesting period of five to seven years, giving the executive officers an inducement to remain with the Company. There are no performance conditions associated with the share-based awards granted by the Company. Award amounts and the timing of grants are determined by the Compensation Committee’s review of the third party analysis discussed below. In 2007, all of the long-term equity incentive awards granted by the Company were in the form of restricted stock. Awards to the named executive officers vest twenty percent on each anniversary of the date of grant through 2012. Any potential acceleration of the vesting schedules pursuant to a change in control or a termination is included in the narrative to the “Potential Payments Upon Termination and/or a Change in Control.”

The Compensation Committee utilized a report prepared by Longnecker to determine how the Company’s executive officer compensation, including long-term incentives like share-based payments, compared to its peers and a market average (see discussion under “Peer Group” for a definition of these terms). The analysis showed that the value of the equity awards received by the Company’s executive officers is somewhat larger than the value of long-term incentives, such as equity-based awards, received by executive officers of its peers and the market midpoint. Specifically, the overall long-term incentive value provided to Company executives was approximately 150% of the external market midpoint. This is to be expected given that the Company’s operating performance was substantially above the peer group. In other words, the value of the Company’s equity awards exceeded that of its peers in large part because the Company’s stock outperformed that of its peers. In addition, the report indicated that, although the value of equity-based awards exceeds the external market midpoint, the standard vesting schedule of five years generally utilized in the restricted stock awards granted to employees is longer than the vesting schedule utilized by the Company’s peers.

Total Direct Compensation Analysis

Due to the Company’s superior performance in comparison with its peers in 2007 (specifically due to the relative performance of the Company’s stock), the aggregate value of base salary, incentive and discretionary bonuses, and long-term equity incentives paid to the Company’s executives was 120% of the external market midpoint. The Compensation Committee believes this result reflects its concern for the Company’s stockholders and its desire to pay compensation comparable to the Company’s peers while still providing executives of the Company with the opportunity to increase the value of their compensation package through extraordinary performance.

Company Sponsored Benefit Plans

The named executive officers are provided with primarily the same company sponsored health, welfare, and retirement benefits as all other employees, including life, health and disability insurance benefits, and a tax-qualified retirement savings plan. The Company provides all employees with basic life insurance in the amount of two times their annual salary with a \$100,000 minimum benefit and a \$400,000 maximum benefit. In addition to the standard life insurance, the Company retains a \$1.5 million life insurance policy for the CEO and another \$1.5 million policy for the COO. The benefit on these policies is payable to the CEO's or COO's beneficiary, as applicable, upon death. The Company also provides a short-term and a long-term disability benefit to all employees, including the named executive officers, at no cost for 60% of base salary for up to 90 days. In addition to the standard short-term and long-term disability benefits, the Company provides compensation to the CEO and COO to pay for additional disability coverage. This additional coverage includes a short-term monthly income benefit of \$15,000 for five years for both the CEO and COO, and a long-term monthly income benefit of \$7,500 until the age of 65 for the CEO.

The Perficient 401(k) Employee Savings Plan is a tax-qualified retirement savings plan to which all employees, including the named officers, are able to contribute from 1% to 25% of their annual salary on a before-tax basis, up to the limits established by the Internal Revenue Code (the "Code"). During the 2007 year, the Company matched 25% of contributions, up to 6% of salary, in cash. Effective January 1, 2008, the Company will match 50% of contributions, up to 6% of salary, comprised of 25% in cash and 25% in Company stock. This change was approved by the Compensation Committee. Employee contributions to the 401(k) Employee Savings Plan are vested immediately upon contribution and Company matching funds are fully vested after 3 years of service.

Attributed costs of the benefits described above for the named executive officers for the year ended December 31, 2007 are included in the “All Other Compensation” column of the “Summary Compensation Table” on page 13.

Limited Perquisites

During a portion of 2007, certain perquisites were provided to the CEO, COO, CFO, and VP-Client Development including an allowance to pay for an automobile used for personal benefit and reimbursement of organization and club dues. The CEO also receives the use of administrative assistant services for certain civic, non-profit and personal matters. Effective April 1, 2007, the Compensation Committee changed the structure of executive compensation for the CEO and COO by eliminating certain perquisites and increasing base salary \$35,000 per year.

Attributed costs of the benefits described above for the named executive officers for the year ended December 31, 2007 are included in the “All Other Compensation” column of the “Summary Compensation Table” on page 13.

Severance Benefits

The Company has entered into employment agreements with the CEO, COO and CFO, which contain severance and change of control provisions. Except for the CEO, benefits under the agreements are payable upon a “double-trigger.” In other words, although the employment agreements provide for accelerated vesting of equity upon a change in control, additional payments under the agreements are only triggered upon termination of employment. The CEO’s agreement does provide for accelerated vesting and change in control benefits upon a “single-trigger” in the event of a change in control. This “single-trigger” was implemented due to certain income tax legislation that would have altered the payment timing of the CEO’s benefits contrary to the agreement originally negotiated between the CEO and the Company. Due to the likelihood of a change in senior management upon a change in control the Compensation Committee does not believe a “single-trigger” provides unreasonable benefits to the CEO over a “double-trigger.” The Compensation Committee believes that termination and change in control protection allows management to focus their attention and energy on the Company’s business without any distractions regarding the effects of a change in control. Further, such protections maximize stockholder value by encouraging management to objectively review any proposed transaction to determine whether such proposal is in the best interest of the stockholders. See further information regarding severance and other change in control benefits under the “Potential Payments upon Termination and/or Change in Control” section on page 24.

Tax and Accounting Implications

Deductibility of Executive Compensation

As part of its role, the Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code (“IRS Section 162(m)”), which limits the deductibility of certain executive officer compensation. Generally, the Company’s policy is to structure compensation so that executive compensation is tax deductible. However, in certain cases, the Compensation Committee may approve compensation that will not meet these requirements in order to ensure competitive levels of total compensation for its executive officers while creating and improving stockholder value.

The Company’s stockholders approved the Perficient, Inc. Omnibus Incentive Plan (the “Incentive Plan”) on June 26, 2007. The Incentive Plan formalizes the Company’s practices for awarding bonuses under the Executive Bonus Plan, and the Executive Bonus Plan is administered pursuant to the Incentive Plan. The Incentive Plan is appropriately structured to avoid the limitations on deductibility imposed by IRS Section 162(m) in order to allow the Company to deduct the bonus amounts paid under the Executive Bonus Plan, beginning with the 2007 Executive Bonus

Plan. Taxable income associated with restricted stock awards, however, is subject to the limitations of IRS Section 162(m). For the fiscal year ended December 31, 2007, the total compensation of the CEO and COO including base salary, cash incentive bonus, and vesting of restricted stock awards was in excess of \$1,000,000. Due primarily to the vesting of restricted stock awards, a portion of the amount of compensation in excess of \$1,000,000 was not deductible for income tax purposes.

Annual Incentive Cash Bonus Compensation

The bonuses that are available to the named executive officers (other than Mr. Thompson) as an annual incentive bonus under the Executive Bonus Plan are based upon pre-set percentages of salary, and are earned by reaching certain target performance levels.

In January 2007, the Compensation Committee established the targets for the named executive officers (other than Mr. Thompson) under the Executive Bonus Plan for 2007. The table below lists the potential bonus awards as a percent of base salary for the named executive officers as reflected in the “2007 Grants of Plan-Based Awards” table:

	Target Bonus Percentage	Maximum Bonus Percentage
CEO	200%	300%
COO	200%	300%
CFO	60%	90%
V P - F i n a n c e & Administration	30%	45%

The named executive officers above are eligible to receive a bonus (which may be less than the target bonus) if the following Non-GAAP and GAAP EPS targets are met for 2007: \$0.75 total Non-GAAP EPS and \$0.54 total GAAP EPS. The executives share in every dollar of earnings above the targets established pursuant to the 2008 Executive Bonus Plan up to the maximum bonus percentage of each. Such executives may receive up to the maximum bonus percentage to the extent the Non-GAAP and GAAP EPS targets are exceeded up to 1.5 times the targets. The Compensation Committee has the discretion to decrease bonus amounts, even if the targets are met or exceeded. In order to meet these targets, the Company’s Non-GAAP and GAAP EPS must meet the predetermined targets after considering the estimated bonus payout. No bonus amounts are paid if the targets are not met.

Additional information regarding these bonus awards can be found above in the Compensation Discussion & Analysis under the section entitled "Performance Based Executive Bonus Plan."

The bonus amounts available to Mr. Thompson as an annual incentive bonus under the Business Development Executive Commission Plan are based upon pre-set percentage commissions on certain revenue targets. A description of the applicable performance criteria and other material terms of this arrangement can be found above in the Compensation Discussion & Analysis under the section entitled "Business Development Executive Commission Plan."

Restricted Share Award Terms

The restricted shares awarded on December 4, 2007 were granted under the Perficient, Inc. 1999 Stock Option/Stock Issuance Plan. Under the terms of the restricted share award agreements, 20% of the shares subject to an award will vest on each yearly anniversary of December 4, 2007 with the final tranche vesting on December 4, 2012, provided the recipient continues employment with the Company through the applicable vesting dates.

In the event of a recipient's termination of employment with the Company for any reason (including death or disability) prior to full vesting of the restricted shares, restricted shares that have not vested as of the date of termination will be null and void and will be forfeited to the Company, unless the terms of the recipient's employment agreement provide otherwise. The employment agreements for the named executive officers provide for accelerated vesting of equity awards such as the restricted share awards in the case of certain involuntary terminations or upon the occurrence of a change in control. These acceleration provisions are described below in the section of this proxy entitled "Potential Payments upon Termination and/or Change in Control."

Dividends are payable on the restricted shares at the same rate and at the same time that dividends are paid to stockholders generally; however, the Company has not historically and does not intend to pay dividends.

Accelerated Vesting of Equity Awards

As described in greater detail in the notes following the "2007 Outstanding Equity Awards at Fiscal Year End" table below, effective January 15, 2007, the Compensation Committee approved the accelerated vesting of certain equity awards previously granted to the named executive officers and other officers of the Company. The equity awards with respect to which such accelerated vesting was approved were designed to vest late in the term of the awards unless certain pre-established performance vesting criteria were attained. Upon attainment of the performance criteria, an additional portion of each award would immediately vest and the remaining unvested portion of each award would convert to pro rata "straight-line" vesting over the remaining vesting period. The Compensation Committee determined that the pre-established performance goals were attained and, consequently, the vesting schedules of these awards were adjusted.

OUTSTANDING EQUITY AWARDS AT FISCAL YEAR-END

The following table presents (1) the number of unexercised options held by each named executive officer as of December 31, 2007, and (2) the number and market value of unvested restricted share awards held by each named executive officer as of December 31, 2007:

(1) The outstanding option awards reported in this table generally vest over a five year period in 20% increments on each yearly anniversary of the date of grant of the option, except that the 20,000 options awarded to Mr. Kalbfleish on December 14, 2004 vest over a four year period with 6.25% of the option

vesting on each quarterly anniversary of the date of grant. Options generally expire ten years from the date of grant (the “expiration date”). If the recipient’s employment terminates (a) due to death or “permanent disability” (as defined in the applicable award agreement), then the option will remain exercisable for twelve months following the termination date, (b) as a result of the recipient’s “misconduct” (as defined in the applicable award agreement), then the option will terminate immediately and cease to be outstanding, and (c) for any other reason, then the option will remain exercisable for three months following the termination date, provided that no option will be exercisable after its original expiration date. The effect of a “corporate transaction” (as defined in the applicable award agreement) on the vesting and exercisability of option awards is described below in the “Potential Payments upon Termination and/or Change in Control” section of this proxy.

- (2) In January 2007, the Compensation Committee approved the accelerated vesting of these option awards, which were granted on December 15, 2004, as follows: (a) two-sevenths of the total option shares, to the extent unvested, vested as of January 15, 2007, and (b) the remaining option shares subject to each option vest in 20% increments on each yearly anniversary of December 15, beginning on December 15, 2007.
- (3) Represents awards of 175,000 and 87,500 restricted shares made to Messrs. McDonald and Davis, respectively, on December 15, 2004, with seven year vesting schedules. In January 2007, the Compensation Committee approved the accelerated vesting of these restricted shares as follows: (a) two-sevenths of the total restricted shares, to the extent unvested, vested as of January 15, 2007, and (b) the remaining restricted shares subject to each award vest in 20% increments on each yearly anniversary of December 15, beginning on December 15, 2007.
- (4) Represents awards of 8,427 and 11,236 restricted shares made to Messrs. Thompson and Kalbfleish, respectively, on December 28, 2005, with six year vesting. In January 2007, the Compensation Committee approved the accelerated vesting of these restricted shares as follows: (a) one-sixth of the total restricted shares, to the extent unvested, vested as of January 15, 2007, and (b) the remaining restricted shares subject to each award vest in 20% increments on each yearly anniversary of December 15, beginning on December 15, 2007.
- (5) Represents awards of restricted shares made to the named executive officers on December 21, 2006. Twenty-percent of the restricted shares subject to each award vested on December 21, 2007. The remaining 80% of each award will vest in four equal installments on each following yearly anniversary of December 21.
- (6) Represents awards of restricted shares made to the named executive officers on December 4, 2007. The vesting dates for these awards are described above in the narrative entitled “Restricted Share Award Terms.”
- (7) Represents an award of 50,000 restricted shares made to Mr. Martin in connection with his appointment as Chief Financial Officer of the Company on August 21, 2006. Five percent of this award vested on August 21, 2007. The remaining restricted shares will vest in accordance with the following schedule: (a) 10% of the restricted shares will vest on August 21, 2008, (b) 25% of the restricted shares will vest on August 21, 2009, (c) 25% of the restricted shares will vest on August 21, 2010, and (d) the final 35% of the restricted shares will vest on August 21, 2011.
- (8) Based on the per share closing market price of \$15.74 of the Common Stock on December 31, 2007.

PENSION BENEFITS

The Company does not sponsor or maintain any plans that provide for specified retirement payments or benefits, such as tax-qualified defined benefit plans or supplemental executive retirement plans, for the named executive officers.

NON-QUALIFIED DEFERRED COMPENSATION

On July 1, 2007, the Company adopted the Perficient, Inc. Executive Deferred Compensation Plan (the "Deferred Compensation Plan") in which the Company's named executive officers are eligible to participate. The following table summarizes information regarding the Company's named executive officers' participation in the Company's Deferred Compensation Plan.

2007 NON-QUALIFIED DEFERRED COMPENSATION

(1) All amounts reported as contributions in this column have been reported in the Salary and Bonus columns of the “Summary Compensation Table” on page 13.

(2) The amounts in this column represent aggregate earnings that accrued during 2007 on amounts of salary and/or bonus deferred at the election of the named executive officer pursuant to the Deferred Compensation Plan. These earnings have not been reported as compensation to the named executive officers in the “Summary Compensation Table” on page 13.

The Deferred Compensation Plan allows each participant to contribute up to 80 percent of base salary and commission and 100 percent of annual incentive bonus payments. Contributions may be made to either the retirement account or the in-service account of the participant; however, no contributions may be made to a participant’s in-service account during a deferral period when amounts are scheduled to be distributed from that account. Also, if the committee determines that a participant has incurred a financial hardship, it may terminate the participant’s deferrals.

In addition, the Company may, in its discretion, provide a matching contribution of 25 percent of the participant’s contribution to the Deferred Compensation Plan up to the first 6 percent of a participant’s compensation; however, any matching contribution will be reduced by the amount of matching contributions actually made on the participant’s behalf under the Company’s 401(k) plan. Matching contributions made to the Deferred Compensation Plan vest according to the same schedule provided in the 401(k) plan with respect to matching contributions (i.e., one-third on each of the first, second and third anniversaries of the participant’s date of hire). The Company may also make discretionary contributions on behalf of participants in the Deferred Compensation Plan, which will be in the amounts and will vest in accordance with the schedule determined by the Company. The Company made no matching contributions in 2007.

The Deferred Compensation Plan permits each participant to make investment allocation choices for both the participant’s contributions and any Company matching or discretionary contributions made on the participant’s behalf among the investment choices designated by the Company. The investment funds available under the Deferred Compensation Plan are set forth in the table below. Participants are permitted to change their investment elections on a daily basis.

A participant will receive a distribution of amounts deferred in a particular year upon the earlier to occur of (1) the time specified in the participant’s deferral commitment election with respect to the participant’s in-service account, (2)

his termination of employment, or (3) his death or disability. In addition, a participant may receive a distribution if the committee determines that the participant has experienced a financial hardship, to the extent reasonably necessary to satisfy the participant's needs. Upon a participant's termination of employment, the participant's benefits under the Deferred Compensation Plan shall be paid to him as soon as administratively practicable following the date of the participant's termination of employment, unless the participant constitutes a "specified employee" (within the meaning of section 409A of the Code), in which case the initial payment will be made no earlier than the first day of the seventh month following the participant's termination. A participant's vested benefits may, at the option of the participant, be distributed in one cash lump sum payment, or in up to a maximum of 15 annual installments (or a maximum of five annual installments with respect to the participant's in-service account). Certain small account balances (a retirement account balance of less than \$50,000 and an in-service account balance of less than \$25,000) will be paid in a lump sum regardless of the participant's election.

The table below lists the investment funds available to participants in the Deferred Compensation Plan. The table also provides the rate of return for each fund for 2007.

Potential Payments upon Termination and/or Change in Control

As part of their employment agreements, Messrs. McDonald, Davis and Martin have certain provisions detailing payments due to them in the event of termination of their employment with the Company, including the resulting compensation from a change in control.

Mr. McDonald

Mr. McDonald's employment agreement provides for the following death, disability, severance, and change in control benefits:

- death benefits of a lump-sum payment equal to two multiplied by the sum of (i) Mr. McDonald's annual salary and (ii) Mr. McDonald's Target Bonus;
- disability benefits paid over 24 months equal to two multiplied by the sum of (i) Mr. McDonald's annual salary and (ii) Mr. McDonald's Target Bonus;
- severance benefits, if Mr. McDonald's employment with the Company is terminated by the Company prior to a change in control in a Without Cause Termination (as defined in his employment agreement), of a lump-sum payment equal to two multiplied by the sum of (i) Mr. McDonald's annual salary and ii) Mr. McDonald's Target Bonus, acceleration of option and restricted stock vesting, and welfare benefits and the use of his office and administrative assistance for 24 months; and
- upon the occurrence of a change in control Mr. McDonald is entitled to receive the above described benefits as if he were terminated in a Without Cause Termination, regardless of whether his employment with the Company or any successor to the Company is terminated.

In the event that any payment or benefit received by Mr. McDonald in connection with a change in control would constitute an “excess parachute payment” subject to an excise tax (a “4999 Excise Tax”), the Company will pay him a “gross up payment” intended to provide him with a net payment, after payment of all 4999 Excise Taxes and all taxes on the “gross up payment,” equal to what he would have received under his employment agreement had no 4999 Excise Taxes been imposed on the “excess parachute payments.” This amount is determined using the highest marginal federal, state or local tax rates, but takes into account the maximum reduction in federal income taxes that can be obtained from deduction of state and local taxes and any limitations applicable to individuals subject to the highest marginal federal income tax rate. Mr. McDonald may also elect to receive a lesser amount by eliminating the accelerated vesting on his stock options and restricted stock in order to decrease the 4999 Excise Taxes owed.

Mr. Davis

Mr. Davis's employment agreement provides for the following death, disability, severance, and change in control benefits:

- death benefits of a lump-sum payment equal to one year's annual salary and Mr. Davis's Target Bonus;
- disability benefits of a lump-sum payment of one year's annual salary and Mr. Davis's Target Bonus, paid over 12 months;
- severance benefits, if Mr. Davis's employment with the Company is terminated by the Company in a Without Cause Termination (as defined in his employment agreement) either before or after a change in control, of a lump-sum payment equal to one year's annual salary and Mr. Davis's Target Bonus, acceleration of option and restricted stock vesting, and welfare benefits for one year following termination;
- severance benefits of a lump-sum payment equal to one year's annual salary and Mr. Davis's Target Bonus, and welfare benefits for one year following resignation if Mr. Davis voluntarily resigns within 30 days after the appointment of a new Chief Executive Officer, other than Mr. Davis, prior to a change in control (provided in the table below as a "constructive termination"); and
- immediate vesting of 50% of all unvested stock option grants and restricted stock grants previously awarded to Mr. Davis upon the occurrence of a change in control.

To the extent payments and benefits to Mr. Davis in connection with a change in control would constitute "excess parachute payments" for purposes of Section 280G of the Code subject to 4999 Excise Taxes, Mr. Davis can elect to receive a lesser amount and eliminate the accelerated vesting of his unvested stock options and restricted stock in order to decrease or eliminate the 4999 Excise Taxes.

The employment agreements for Messrs. McDonald and Davis generally use the following terms:

"Change in Control" means a change in ownership or control of the Company effected through any of the following: (i) a merger, consolidation or reorganization approved by the stockholders, unless the beneficial ownership of more than 50% of the voting power of the successor corporation's securities is held by the same persons who beneficially owned the Company's outstanding voting securities immediately prior to the transaction; (ii) any stockholder-approved transfer or other disposition of all or substantially all of the Company's assets; (iii) the acquisition of beneficial ownership of more than 50% of the voting power of the Company's outstanding securities pursuant to a tender or exchange offer made directly to the stockholders which the Board of Directors recommends and such stockholders accept.

"Disability" means the Board of Directors' or CEO's, as applicable, reasoned and good faith judgment that the executive is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or can be expected to last for a continuous period of not less than twelve months.

"Termination for Cause" means a termination of the executive's employment by reason of (a) the repeated or willful failure of the executive to substantially perform his duties that has not been cured after written demand from the Board of Directors, (b) conviction of, or entering a plea of guilty or nolo contendere to, a crime involving moral turpitude or dishonesty or to any other crime that constitutes a felony, (c) executive's intentional misconduct, gross negligence or

material misrepresentation in the performance of his duties to the Company, or (d) material breach by executive of any written covenant or agreement with the Company including any covenants not to compete or to non-disclosure of confidential information.

“Without Cause Termination” means a termination of the executive’s employment by the Company other than due to (a) Termination for Cause, (b) Disability, (c) death, or (d) the expiration of the employment agreement.

Mr. Martin

Mr. Martin’s employment agreement provides for the following severance and change in control benefits:

- severance benefits, if Mr. Martin’s employment with the Company is terminated by the Company other than for cause (as defined in Mr. McDonald’s employment agreement) equal to one year’s annual salary;
- immediate vesting of 50% of all unvested restricted stock grants previously awarded to Mr. Martin upon the occurrence of a change in control (as defined above); and

- severance benefits if Mr. Martin's employment with the Company is terminated by the Company other than for cause (as defined in Mr. McDonald's employment agreement) within the first year after a change of control equal to one year's annual salary and immediate vesting of all remaining unvested restricted stock previously awarded to Mr. Martin. In addition, the Company will provide welfare benefits for one year following termination.

Under the employment agreements with the aforementioned officers, each officer would be entitled to receive the following estimated benefits. These disclosed amounts are estimates only and do not necessarily reflect the actual amounts that would be paid to the aforementioned officers, which would only be known at the time that they become eligible for payment and would only be payable if the events set forth in the table below occur.

Quantification of Potential Payments Upon Termination and/or Change in Control

The table below reflects the amount that could be payable under the various arrangements assuming that the triggering event set forth in the title of each column occurred on December 31, 2007. For purposes of determining Mr. McDonald's tax gross up payment the Company has assumed that his change in control payment is reasonable compensation for services he will refrain from performing (pursuant to his covenant not to compete with the Company) following the change in control. Any actual payments that may be made pursuant to the arrangements described above are dependent on various factors, which may or may not exist at the time a termination of employment or change in control actually occurs.

POTENTIAL PAYMENTS UPON TERMINATION AND/OR CHANGE IN CONTROL							
Name (1)	Year	Severance/ Change in Control Payment	Accelerated Restricted Stock Vesting (2)	Accelerated Stock Option Vesting (3)	Continuation of Benefits (4)	Tax Gross-up Payment	Total
John T. McDonald (5)	2007	\$ 1,500,000	\$ 6,138,600	\$ 2,155,425	\$ 46,781	\$ -	\$ 9,840,806
Paul E. Martin (6)	2007	215,000	1,746,983	-	11,341	-	1,973,324
Jeffrey S. Davis (7)	2007	750,000	5,351,600	1,077,726	11,133	-	7,190,459

- (1) Mr. Thompson and Mr. Kalbfleish are not included in this table since they do not have arrangements with the Company in the event of termination of their employment with the Company, including a change in control.
- (2) Calculated using the closing market price per share of \$15.74 of the Common Stock on December 31, 2007 for the total number of restricted shares accelerated.
- (3) Calculated using the closing market price per share of \$15.74 of the Common Stock on December 31, 2007 less the option price per share for the total number of options accelerated.
- (4) Represents the estimated present value of all future payments of premiums for benefits which would be paid on behalf of the specified executive officers under the Company's medical, disability, life, and dental insurance programs. In addition to these benefits, Mr. McDonald's benefits also include the estimated present value of the use of an office and administrative assistant for a period of two years after the separation date.
- (5) Upon a without cause termination, Mr. McDonald would receive each of the payments and benefits listed in the table above. Upon Mr. McDonald's death or disability, he would receive the severance payment only. If a change in control were to occur, Mr. McDonald would receive each of the payments and benefits listed in the table above, regardless of whether his employment was terminated. If Mr. McDonald were to terminate his employment with the Company for cause or voluntarily, he would receive no compensation except his

unpaid salary and bonus earned through the termination date.

- (6) Upon the occurrence of a change in control, 50% of Mr. Martin's unvested restricted stock would immediately vest, amounting to \$873,492 in compensation utilizing the assumptions discussed above. If Mr. Martin is terminated without cause within the first year after a change of control he will receive each of the payments and benefits listed in the table above for 2007. If Mr. Martin were to terminate his employment with the Company for cause or voluntarily, he would receive no compensation except his unpaid salary and bonus earned through the termination date.
- (7) Upon a without cause termination, or a without cause termination following a change in control, Mr. Davis would receive each of the payments and benefits listed in the table above. Upon Mr. Davis's death or disability, he would receive the severance payment only. Upon the occurrence of a constructive termination, Mr. Davis would receive the severance payment and the continuance of benefits listed in the table above. If a change in control were to occur, 50% of Mr. Davis's unvested stock options and restricted stock would immediately vest, amounting to \$3,214,663 in compensation utilizing the assumptions discussed above. If Mr. Davis were to terminate his employment with the Company for cause or voluntarily, he would receive no compensation except his unpaid salary and bonus earned through the termination date.

DIRECTOR COMPENSATION

The Company uses a combination of cash and equity-based incentive compensation to attract and retain qualified candidates to serve on the Board of Directors. When recommending changes to director compensation, the Company considers the significant amount of time they expend in fulfilling their duties to the Company, as well as the skill level required of members of the Board of Directors.

The Board of Directors compensation plan for 2007 provided for the following:

- Each new non-employee member of the Board of Directors is entitled to receive 1,950 shares of restricted stock. These shares of restricted stock vest and become nonforfeitable in twelve equal quarterly installments beginning on the first quarterly anniversary of the date of grant.
- Each member of the Board of Directors who is a non-employee director on the date of the Annual Stockholders Meeting, whether or not that member was standing for re-election, is entitled to receive 650 shares of restricted stock. These shares of restricted stock vest quarterly over one year.

- The Chairman of the Audit Committee is entitled to an annual grant of 650 shares of restricted stock. These shares of restricted stock vest quarterly over one year.
- Each non-employee member of the Board of Directors serving on a committee is entitled to an annual grant of 650 shares of restricted stock. These shares of restricted stock vest quarterly over one year provided the non-employee member of the Board of Directors continues to serve as a member of such committee.

PROPOSAL 2. RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has appointed the firm of KPMG LLP (“KPMG”) as the Company’s independent registered public accounting firm for 2008. Although action by the stockholders in this matter is not required, the Audit Committee believes that in light of the critical role played by the independent registered public accounting firm in maintaining the integrity of the Company’s financial controls and reporting, it is a matter of good practice.

The Board of Directors recommends a vote “FOR” the proposal to ratify the independent registered public accounting firm.

AUDIT COMMITTEE REPORT

The Audit Committee reports to and acts on behalf of the Board of Directors of the Company by providing oversight of the financial management, legal compliance programs, independent auditors and financial reporting controls and accounting policies and procedures of the Company. The Company's management is responsible for preparing the Company's financial statements and systems of internal control and the independent auditors are responsible for auditing those financial statements and expressing its opinion as to whether the financial statements present fairly, in all material respects, the financial position, results of operations and cash flows of the Company in conformity with generally accepted accounting principles. The Audit Committee is responsible for overseeing the conduct of these activities by the Company's management and the independent auditors.

In this context, the Audit Committee has met and held discussions with management and the independent auditors. Management represented to the Audit Committee that the Company's consolidated financial statements, as of and for the fiscal year ended December 31, 2007, were prepared in accordance with GAAP, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent auditors.

The Audit Committee has discussed with the independent auditors matters required to be discussed by the applicable Auditing Standards as periodically amended (including significant accounting policies, alternative accounting treatments and estimates, judgments and uncertainties). In addition, the independent auditors provided to the Audit Committee the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Audit Committee and the independent auditors have discussed the auditors' independence from the Company and its management, including the matters in those written disclosures.

The Audit Committee also has discussed with the Company's independent auditors, with and without management present, their evaluations of the Company's internal accounting controls and the overall quality of the Company's financial reporting.

In further reliance on the reviews and discussions with management and the independent auditors referred to above, the Audit Committee recommended to the Board of Directors the inclusion of the audited financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007, for filing with the SEC.

Based solely on a review of the copies of reports furnished to the Company and written representations from the Company's executive officers, directors and persons who beneficially own more than ten percent of the Company's equity securities, the Company believes that, during the preceding year, all filing requirements applicable to the Company's officers, directors and ten percent beneficial owners under Section 16(a) were satisfied.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company also considers the independence of its directors. The discussion of the independence of the directors contained herein under the caption "Composition and Meetings of the Board of Directors and Committees" is incorporated by reference into this section.

Directors and Officers Questionnaires are distributed to executive officers and directors at the beginning of each fiscal year to identify any potential related-party transactions. Within the questionnaire, executive officers and directors are asked to describe any transaction, arrangement or relationship or any series of similar transactions, arrangements or relationships, occurring since January 1, 2007, in which the Company was or is to be a participant and the amount involved exceeds \$120,000, and in which any of the following had or will have a direct or indirect interest: (i) the individual, (ii) any director or executive officer of the Company, (iii) a nominee for director, (iv) an immediate family member of a director or executive officer of the Company, (v) an immediate family member of a nominee for director, (vi) a security holder of 5% or more of the Common Stock, or (vii) an immediate family member of the security holder. No such transaction was entered into since January 1, 2007 other than the Employment Agreements described on pages 14-15 of this Proxy Statement.

It is the policy of the Company that all employees, directors and agents maintain the highest ethical standards and comply with all applicable legal requirements when conducting Company business. These policies are available on the Company's external and internal websites and accessible to all employees. - serving on the board of directors of, or being employed in any capacity by, a vendor, competitor or customer of the Company; and

Relationships, including business, financial, personal and family, may give rise to conflicts of interest or the appearance of a conflict. Employees should carefully evaluate their relationships as they relate to Company business to avoid conflict or the appearance of a conflict. To avoid conflicts of interest or the appearance of a conflict:

- Employees may not sell or lease equipment, materials or property to the Company without appropriate corporate authority.
- Employees should purchase Company equipment, materials or property only on terms available to the general public.
