REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Administrative and Investment Committee
Edwards Lifesciences Technology SARL Retirement Savings Plan

We have audited the accompanying statements of net assets available for benefits of Edwards Lifesciences Technology SARL Retirement Savings Plan (the "Plan") as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying Schedule H - Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated in all material respects in relation to the financial statements as a whole.

Edwards Lifesciences Technology SARL
Retirement Savings Plan
Notes to Financial Statements

1. Description of the Plan

The following description of the Edwards Lifesciences Technology SARL Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution retirement plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Participation in the Plan is available to employees of Edwards Lifesciences Technology SARL (the “Company”) who have met certain eligibility requirements, as described below.

Eligibility

Employees become eligible to participate in the Plan on the thirty-first day after an employee is credited with an hour of service. Eligible individuals are those who are employees of the Company, or a subsidiary, division, or facility of the Company that has adopted the Plan, other than:

1. Employees who are included in a unit of employees covered by a collective bargaining agreement unless the agreement provides for coverage under the Plan;
2. Employees employed outside the Commonwealth of Puerto Rico;
3. A director, unless such director is also an officer or other employee;
4. Any person employed as a temporary employee for a specific limited period of time or for the performance of a specific limited assignment;
5. Any person employed on a probationary status pursuant to established policy of the employer;
6. Leased employees who are employed by another company that provides services to Edwards; and

Any person who at the time services are performed is not classified by the Company or, as applicable, other member of the Group, as a common-law employee of the Company or any other member of the Group even though such person may for Federal or Puerto Rico income tax purpose or any other purpose be reclassified by the Company or any other member of the Group in response to regulatory, administrative or judicial proceedings or actions as a common-law employee retroactive to when such services were performed.

Plan Administration

The Plan is administered by the Administrative and Investment Committee for the Edwards Lifesciences Corporation Employee Benefit Plans (the “Committee”). The Committee has authority, responsibility, and control over the

management of the assets of the Plan. Members of the Committee are appointed by the Board of Directors of Edwards Lifesciences Corporation (“Parent Company”) and are employees of the Parent Company. Banco Popular de Puerto Rico (“Trustee”) serves as the trustee of the Plan, Voya Institutional Trust Company serves as the Plan’s custodian, and Voya Institutional Plan Services, LLC provides record keeping services for the Plan.

Contributions

The Plan allows tax deferred contributions intended to qualify under the applicable laws of the Commonwealth of Puerto Rico. Eligible participants may make pre-tax contributions up to 25% of their eligible annual compensation within certain limitations. The Company matches the first 4% of the participant’s annual eligible compensation contributed to the Plan at the rate of 50 cents for each contributed dollar. In addition, if a participant is age 50 or older, the participant is allowed to make additional catch-up contributions within certain Puerto Rico code limitations.

Table of Contents

Additionally, each eligible employee, regardless of whether they contribute to the Plan, receives a contribution in an amount targeted at 2% of such employee's Retirement Savings Plan eligible earnings for the prior year as defined by the Plan. Certain employees are also eligible for a supplemental contribution related to changes in the Company's prior pension plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and the allocation of the participant's share of the Plan's net earnings and losses, net of certain investment management fees. Allocations are based on participant account balances, as defined.

Vesting

Participants are immediately fully vested in their Plan accounts (other than their Company matching and profit sharing contributions), plus actual earnings thereon. Vesting in a participant's Company matching and profit sharing contributions plus actual earnings thereon is based on years of continuous service. A participant vests in Company matching and profit sharing contributions in annual increments of 20% and, therefore, is 100% vested after five years of credited service. Participants are immediately fully vested in any supplemental profit sharing contributions received as a result of the changes in the Company's prior pension plan. Upon termination of service due to death, disability, or attainment of normal retirement age, a participant shall become fully vested.

Notes Receivable from Participants

Participants may borrow an amount ranging from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The notes bear interest based on the applicable prime rate at the time of issuance plus 1%, and have a maximum term of five years (or ten years if used to acquire a home). The loans are collateralized by the participants' vested interest in their accounts and any additional collateral as the Committee may require. Principal and interest are generally paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service or otherwise becoming eligible to receive benefits, a participant may elect to (1) receive a lump-sum amount equal to the value of the participant's account, (2) receive periodic installments, or (3) transfer the balance in the participant's account to another qualified plan. Vested accounts of \$1,000 or less will be automatically paid in a lump-sum amount.

A participant may make withdrawals from the participant's accounts (except as provided in the Plan document) if the participant is over age 59 ½ and fully vested. Withdrawals may also be made for financial hardship, which is determined pursuant to the provisions of the Puerto Rico Internal Revenue Code. Upon making a hardship withdrawal, a participant may not make additional pre-tax contributions for a period of 12 months from the date of the withdrawal payment.

Administrative Expenses

Investment manager, trustee, and administrative fees incurred in the administration of the Plan were paid from the assets of the Plan to the extent that the Plan has generated revenue to absorb these expenses. Any remaining fees were allocated to the Plan participants on a pro rata basis.

Forfeitures

A participant's non-vested balance is forfeited at the time of termination of employment. Such forfeitures may be used to offset future Company matching contributions. During 2015, no forfeitures were used to reduce Company matching contributions. Forfeitures of \$12,697 were used to reduce Company matching contributions during 2014. Forfeitures outstanding were \$31,337 and \$16,845 as of December 31, 2015 and 2014, respectively.

Table of Contents

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The investment in the Master Trust (see Note 4) is valued at the net asset value (“NAV”) of the underlying investments within the Master Trust. The Master Trust’s assets are primarily invested in funds managed by the Trustee through a commingled employee benefit funds trust. Units have been purchased in funds which invest primarily in securities of major U.S. companies, international equity securities in both developed and emerging markets, and government agency fixed income securities.

Purchases and sales of securities are recorded by the Master Trust on a trade-date basis. Realized gains and losses for security transactions are reported using the average cost method. Net appreciation in the Master Trust includes realized gains and losses on the sale of investments, and unrealized appreciation or depreciation. Interest and dividend income are recorded on an accrual basis, and dividends are recorded on the ex-dividend date.

The Plan invests in investment contracts through participation in the Invesco Stable Value Trust Fund (“Stable Value Fund”), a common collective trust fund. The accounting guidance requires that investment contracts held by a defined contribution plan be reported at fair value. However, contract value is the relevant measurement criteria for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Accordingly, the Statements of Net Assets Available for Benefits reflect these investments at fair value, with a corresponding adjustment to reflect the investments at contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued interest. Delinquent participant loans are treated as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to the financial statements. Changes in such estimates may affect amounts reported in future periods.

Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

The Plan's Stable Value Fund, a common collective trust fund, invests in a variety of investment contracts such as guaranteed investment contracts, bank investment contracts, and a wrapped portfolio of fixed income instruments. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Stable Value Fund at contract value. Certain events may limit the ability of the Plan to transact at contract value with the issuer. The Plan administrator does not believe that the occurrence of any such event is probable.

Table of Contents

New Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued amendments to the accounting guidance on employee benefit plans. The amendments designate contract value as the only required measure for fully benefit-responsive investment contracts, and eliminates the previously required fair value disclosures. In addition, the amendments eliminate the requirement that plans disclose (a) individual investments that represent 5% or more of net assets available for benefits and (b) the net appreciation or depreciation for investments by general type, eliminating the need to disaggregate the investments. This guidance is effective for fiscal years beginning after December 15, 2015. The Company does not expect the adoption of this guidance will have a material impact on the Plan's financial statements.

In May 2015, the FASB issued an amendment to the disclosure guidance on fair value measurements. The amendment removes the requirement to include in the fair value hierarchy investments for which NAV is used as a practical expedient to estimate fair value. The guidance is effective for annual reporting periods beginning after December 15, 2015, and must be applied retrospectively to all periods presented. The Company does not expect the adoption of this guidance will have a material impact on the Plan's financial statements.

3. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Company prioritizes the inputs used to determine fair values in one of the following three categories:

Level 1 – Quoted market prices in active markets for identical assets or liabilities.

Level 2 – Inputs, other than quoted prices in active markets, that are observable, either directly or indirectly.

Level 3 – Unobservable inputs that are not corroborated by market data.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following table summarizes the Plan's financial instruments which are measured at fair value on a recurring basis as of December 31, 2015 and 2014:

December 31, 2015

	Level 1	Level 2	Level 3	Total
Common/Collective Trust Funds				
Stable value fund	\$—	\$9,978,043	\$	—\$9,978,043

Fixed income funds	858,375	—	—	858,375
Small/mid cap equity funds	405,174	—	—	405,174
International equity funds	11,714	—	—	11,714
Cash and cash equivalents	—	164	—	164
Total investments measured at fair value:	\$12,129,174	\$17,595,574	\$	—\$29,724,748

Cash and cash equivalents consist of money market funds and monies on deposit for transactions pending settlement. Common/collective trust funds and money market funds are valued using the NAV provided by the administrator of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Common/collective trust funds and money market funds are categorized as Level 2 as the NAV unit price is not quoted in an active market. However, the unit price is based on underlying investments which are either traded on an active market or are valued based on observable inputs such as market interest rates and quoted prices for similar securities.

As of December 31, 2015, there were no unfunded commitments related to common/collective trust funds or money market funds. Investments in these funds can be redeemed daily and, in general, do not have a redemption notification period. For the Stable Value Fund, investments can be held in the fund for up to 24 months from the date of a redemption request. It is not probable that investments in these funds would be sold at amounts that differ materially from the NAV of the units held.

Common stock and mutual fund investments are valued at fair value based on quoted market prices reported on the active markets on which the individual securities are traded, and are categorized as Level 1.

During the years ended December 31, 2015 and 2014, there were no transfers in or out of Levels 1 or 2 of the fair value hierarchy.

4. Investments

The Master Trust, held by Voya Institutional Trust Company, holds the assets of the Plan and the Edwards Lifesciences Corporation 401(k) Savings and Investment Plan.

The accompanying Statements of Net Assets Available for Benefits reflect the apportioned share of the underlying Plan assets and liabilities of the Trust. Allocations of net income from the Trust are based on the Plan's net assets at the beginning of the year with adjustments for contributions and benefit payments made during the year.

Table of Contents

Summarized financial information for the Trust as of December 31 is as follows:

	December 31,	
	2015	2014
Net assets held by Master Trust, at fair value:		
Common/collective trusts	\$237,967,249	\$243,675,872
Common stock funds	195,649,438	146,976,927
Mutual funds	177,181,345	167,770,397
Cash and cash equivalents	1,988,333	2,859,635
Adjustment from fair value to contract value	(709,942)	(1,818,975)
Net assets held by Master Trust	\$612,076,423	\$559,463,856
% of Plan net assets held by Master Trust	5.11	% 5.28

Investment income from Master Trust investments for the years ended December 31, 2015 and 2014 is as follows:

	Years Ended December 31,	
	2015	2014
Net appreciation (depreciation) in fair value:		
Common stock funds	\$34,365,344	\$75,334,543
Mutual funds	(8,895,157)	748,100
Common/collective trusts	(1,947,915)	7,678,754
Dividend income	10,720,533	10,329,049
Interest income	2,303,945	2,059,076
Investment income	\$36,546,750	\$96,149,522
% of Plan investment income from Master Trust	5.32	% 5.17

The only investment that represents 5% or more of the Plan's net assets available for benefits at December 31, 2015 and 2014 was the Plan's interest in the Master Trust.

5. Distribution Priorities upon Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to reduce, suspend, or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, the account balance of each participant will become 100% vested and all assets, net of expenses, will be distributed to the participants or the participants' beneficiaries.

6. Tax Status of the Plan

The Company has received a favorable determination letter from the Puerto Rico Treasury Department ("Departamento de Hacienda") on the Plan's Puerto Rico qualified status for income tax purposes. The Plan Administrator believes the Plan's design and operation are in compliance with the applicable provisions and requirements of the Puerto Rico Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Puerto Rico Treasury Department. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in

the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to tax examinations for years prior to 2012.

Table of Contents

7. Exempt Party-in-Interest Transactions

Parties-in-interest are defined under the Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, an employer whose employees are covered by the Plan, and certain others. At December 31, 2015 and 2014, the Plan, through its investment in the Master Trust, held shares of common stock of the Parent Company, as follows:

	2015	2014		
Shares of Edwards Lifesciences stock held by Plan (a)	107,492	123,992		
Value of Edwards Lifesciences stock held by Plan	\$8,489,689	\$7,897,031		
Plan's investment in Edwards Lifesciences stock as percentage of total net assets available for benefits	25.7	% 25.2	%	%

(a) Prior year share amounts have been retroactively adjusted for the two-for-one stock split of the Company's common stock paid on December 11, 2015 to shareholders of record on November 30, 2015.

Also, certain assets of the Master Trust are loans to Plan participants. These transactions are allowable party-in-interest transactions under ERISA and the regulations promulgated thereunder.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of amounts reported in the financial statements to amounts reported on Form 5500 as of and for the years ended December 31, 2015 and 2014:

	2015	2014
Statement of Net Assets Available for Benefits:		
Net assets available for benefits per the financial statements	\$33,091,024	\$31,318,568
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	72,932	165,536
Net assets available for benefits per Form 5500	\$33,163,956	\$31,484,104
	2015	2014
Statement of Changes in Net Assets Available for Benefits:		
Net increase in net assets available for benefits per the financial statements	\$1,772,456	\$4,942,339
Prior year adjustment from contract value to fair value for fully benefit-responsive investment contracts	(165,536)	(117,649)
Current year adjustment from contract value to fair value for fully benefit-responsive investment contracts	72,932	165,536
Net income per Form 5500	\$1,679,852	\$4,990,226
