- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

SECTION 2 – FINANCIAL INFORMATION

Item 2.02 – Results of Operations and Financial Condition.

On October 12, 2010, Northern Oil and Gas, Inc. (the “Company”) announced increased 2010 drilling guidance and provided an operations update related to drilling and completion activity in the Williston Basin Bakken and Three Forks play.

2010 DRILLING ACTIVITY

Since January 1, 2010, the Company has spud 21.5 net wells. The Company is currently participating in the drilling or completion of 90 gross Bakken or Three Forks wells, for an aggregate of 10.4 net wells currently drilling, awaiting completion or completing. Of those wells, 5.0 net wells are currently drilling but have not reached total depth, an additional 4.6 net wells have been drilled to total depth and are awaiting completion and the remaining 0.8 net wells are currently undergoing fracture stimulation to commence production.

The Company now expects to spud approximately 24 net wells by the end of 2010, increased from previous guidance of 18 net wells. The Company believes the increase in expected wells is based upon the increasing rig count, which was at an all-time high of 155 drillings rigs in the North Dakota Bakken play as of October 11, 2010. The Company’s Chief Executive Officer, Michael Reger, commented “We continue to experience an increased pace of drilling in the Bakken and Three Forks plays. In addition to allowing Northern Oil to consistently increase its production, increasing drilling activities have also allowed us to observe the impactful delineation of the Three Forks play in key counties of the Williston Basin.”

2010 ACREAGE ACQUISITIONS

The Company has acquired a total of 38,864 net acres year-to-date in the core of the Williston Basin Bakken and Three Forks play at a total cost of approximately \$42.2 million. This represents an average cost of \$1,086 per acre.

RECENT COMPLETION HIGHLIGHTS

The following table illustrates the most recent well completions in which the Company participated.

* Initial Production Rate (the “IP” rate) is the 24-hour “Peak Production Rate.” Peak Production Rates may be established following the initial day of production, depending to operator design or well flowback profiles. The IP rate may be estimated based on other third party estimates or limited data available at this time.

** Average barrels of oil equivalents per day (“Avg. BOEPD”) exclude any days a well was down for work/maintenance.

All information in the foregoing table was obtained through operator drilling reports, operator daily production reports and certain publicly available through North Dakota Industrial Commission – Oil & Gas Division reports.

UPDATED HEDGING ACTIVITY

The following table reflects the weighted average price of the Company's open commodity derivative contracts as of September 30, 2010, by year with associated volumes.

Year	Weighted Average Price Of Open Commodity Contracts	
	Volumes (Barrels)	Weighted Average Price
2010	288,000	\$ 80.41
2011	720,000	\$ 80.89
2012	339,000	\$ 80.62

The Company currently has hedged 1,347,000 barrels for delivery through June 2012 at a blended average of approximately \$80.72 per barrel.

MANAGEMENT COMMENT

The Company's Chief Executive Officer, Michael Reger, commented "The scale and scope of the Bakken and Three Forks play continues to exceed our expectations. Our premier acreage position is turning to high-quality oil production more quickly than we have anticipated as the pace of drilling continues to accelerate. With the North Dakota rig count currently at an all-time high of 155 rigs, we expect the development of this exceptional oil resource play to continue at a robust pace. We are especially fortunate to be participating as a non-operating partner in the wells of many of the premier operators in this play. It has been exciting for us to watch the best practices evolve and improve as the innovations of our operators continue to increase efficiency and productivity. Based on excellent recent results in the Three Forks, we expect this play to continue to gain momentum as this additional producing horizon de-risks across the Williston Basin. Most importantly, we continue to strategically acquire non-operated acreage interests at what we believe are very compelling price levels. We intend to continue to exploit our ability to acquire acreage in this growing play as long as the opportunity exists. Our single focus continues to be growing our presence and production as a non-operating partner in the Williston Basin Bakken and Three Forks play".

SAFE HARBOR

This report contains forward-looking statements regarding future events and our future results that are subject to the safe harbors created under the Securities Act of 1933 (the “Securities Act”) and the Securities Exchange Act of 1934 (the “Exchange Act”). All statements other than statements of historical facts included in this report regarding the Company’s financial position, business strategy, plans and objectives of management for future operations and industry conditions are forward-looking statements. When used in this report, forward-looking statements are generally accompanied by terms or phrases such as “estimate,” “project,” “predict,” “believe,” “expect,” “anticipate,” “target,” “intend,” “seek,” “goal,” “will,” “should,” “may” or other words and similar expressions that convey the uncertainty of future events or outcomes. Items contemplating or making assumptions about, actual or potential future sales, market size, collaborations, and trends or operating results also constitute such forward-looking statements.

Forward-looking statements involve inherent risks and uncertainties, and important factors (many of which are beyond the Company’s control) that could cause actual results to differ materially from those set forth in the forward-looking statements, including the following, general economic or industry conditions, nationally and/or in the communities in which the Company conducts business, changes in the interest rate environment, legislation or regulatory requirements, conditions of the securities markets, our ability to raise capital, changes in accounting principles, policies or guidelines, financial or political instability, acts of war or terrorism, other economic, competitive, governmental, regulatory and technical factors affecting our Company’s operations, products, services and prices.

The Company has based these forward-looking statements on its current expectations and assumptions about future events. While the Company’s management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond the Company’s control.

A copy of the press release which the Company issued reporting the foregoing information is attached as Exhibit 99.1. The information in this Item 2.02, and the press release attached hereto as Exhibit 99.1, shall be deemed to be “filed” under the Securities Exchange Act of 1934, as amended.
