**Heartland Payment Systems, Inc. and Subsidiary**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(unaudited)**

**1. Organization and Operations**

**Basis of Financial Statement Presentation**— The accompanying consolidated financial statements include those of Heartland Payment Systems, Inc. (the Company) and its wholly-owned subsidiary, Heartland Payroll Company (HPC). The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. All intercompany balances and transactions with the Company's wholly-owned subsidiary have been eliminated upon consolidation. The accompanying consolidated financial statements are unaudited. In the opinion of the Company's management, the unaudited interim financial statements include all normal recurring adjustments necessary for a fair presentation of the Company's financial position at June 30, 2005, its results of operations for the three and six months ended June 30, 2005 and 2004 and its cash flows for the six months ended June 30, 2005 and 2004. Results of operations reported for interim periods are not necessarily indicative of the results to be expected for the year ended December 31, 2005.

The officers and directors of the Company represent a majority of the outstanding shares, and so control the Company.

All outstanding common shares, average common shares, earnings per common share and conversion amounts related to stock options, warrants and Series A Senior Convertible Participating Preferred Stock have been retroactively adjusted to reflect a two-for-one stock split on July 26, 2005. The Company's Board of Directors and stockholders also increased the number of authorized shares of common stock to 100,000,000 and the number of shares authorized under the Equity Incentive Plan to 11,000,000.

**Business**— The Company provides payment-processing services related to bank card transactions for merchants throughout the United States. In addition, the Company provides certain other merchant services, including the sale and rental of terminal equipment and supplies. HPC provides payroll and related tax filing services throughout the United States.

**Use of Estimates**— The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Estimates include, among other things, the accrued buyout liability, capitalized customer acquisition costs, loss reserves, certain accounts payable and accrued expenses and certain tax assets and liabilities as well as the related valuation allowances. Actual results could differ from those estimates.

**Concentrations**— The majority of the Company's merchant processing activity is processed by a single vendor. The Company believes that the vendor maintains appropriate backup systems and alternative arrangements to avoid a significant disruption of processing in the event of an unforeseen event.

Substantially all of the Company's revenue is derived from processing Visa and MasterCard bank card transactions. Because the Company is not a member bank as defined by Visa and MasterCard, in order to process these bank card transactions the Company has entered into a sponsorship agreement with a bank. The agreement with the bank sponsor requires, among other things, that the Company abide by the by-laws and regulations of the Visa and MasterCard associations and maintain a certificate of deposit with the bank sponsor. If the Company breaches the sponsorship agreement, the bank sponsor may terminate the agreement and, under the terms of the agreement, the Company would have 180 days to identify an alternative bank sponsor. The Company is dependent on its bank sponsor, Visa and MasterCard for notification of any compliance breaches. As of June 30, 2005, the Company has not been notified of any such issues by its bank sponsor, Visa or MasterCard.

The Company processes for merchants throughout the United States. California represented 14.9% of the Company's total processing volume in June 2005.

**Cash and Cash Equivalents** The Company considers all highly liquid investments with original maturities of three months or less when purchased to be cash equivalents.

**Receivables** The Company carries receivables from its merchants resulting from the practice of advancing interchange fees to most of its merchants during the month and collecting those fees from merchants at the beginning of the following month. During each month, the Company's sponsor bank advances interchange fees to most of the Company's merchants so that during the month a payable to the sponsor bank is incurred. The payable to the sponsor bank is repaid at the beginning of the following month out of the fees the Company collects from its merchants.

**Investments** Investments consist of corporate and U.S. Government debt securities and certificates of deposit. The Company classifies its investments as available-for-sale and records them at the fair value of the investments based on quoted market prices. Cost is determined on a specific identification basis.

**Inventories** Inventories consist of point-of-sale terminal equipment held for sale to merchants, and are valued at the lower of cost or market price. Cost is arrived at using the first-in, first-out method. Market price is estimated based on current sales of equipment.

**Capitalized Customer Acquisition Costs, net** Capitalized customer acquisition costs consist of (1) up-front signing bonus payments made to Relationship Managers and sales managers (the Company's sales force) for the establishment of new merchant relationships, and (2) a deferred acquisition cost representing the cost of buying out the commissions of vested sales employees. Pursuant to Staff Accounting Bulletin Topic 13, *Revenue Recognition*, and FASB Technical Bulletin No. 90-1, *Accounting for Separately Priced Extended Warranty and Product Maintenance Contracts*, capitalized customer acquisition costs represent incremental, direct customer acquisition costs that are recoverable through gross margins associated with merchant contracts. The capitalized customer acquisition costs are amortized using a method which approximates a proportional revenue approach over the initial three-year term of the merchant contract.

The up-front signing bonus is based on the estimated gross margin for the first year of the merchant contract. The signing bonus, amount capitalized, and related amortization are adjusted after one year to reflect the actual gross margin generated by the merchant contract during that year. The deferred customer acquisition cost asset is accrued over the first year of merchant processing, consistent with the build-up in the accrued buyout liability, as described below.

Management evaluates the capitalized customer acquisition costs for impairment at each balance sheet date by comparing, on a pooled basis by vintage month of origination, the expected future net cash flows from underlying merchant relationships to the carrying amount of the

Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

capitalized customer acquisition costs. If the estimated future net cash flows are lower than the recorded carrying amount, indicating an impairment of the value of the capitalized customer acquisition costs, the impairment loss will be charged to operations.

**Property and Equipment** Property and equipment are carried at cost, net of accumulated depreciation. Depreciation is computed straight-line over periods ranging from three to ten years for furniture and equipment. Leasehold improvements are amortized over the lesser of the economic useful life of the improvement or the term of the lease. The Company capitalizes the cost of computer software developed for internal use and amortizes such costs over an estimated useful life of three years.

**Long-Lived Assets** The Company evaluates the potential for impairment when changes in circumstances indicate that undiscounted cash flows estimated to be generated by the related assets are less than the carrying amount. Management believes that no such changes in circumstances or impairment have occurred as of June 30, 2005.

**Merchant Deposits and Loss Reserves** Disputes between a cardholder and a merchant periodically arise due to the cardholder's dissatisfaction with merchandise quality or the merchant's service, and the disputes may not always be resolved in the merchant's favor. In some of these cases, the transaction is charged back to the merchant and the purchase price is refunded to the cardholder by the credit card-issuing institution. If the merchant is unable to fund the refund, the Company is liable for the full amount of the transaction. The Company may have partial recourse to the Relationship Manager originally soliciting the merchant contract, if the Relationship Manager is still receiving income from the merchant's processing activities. During 2003, the Company adopted FIN 45. Under FIN 45, the Company's obligation to stand ready to perform is minimal. The Company maintains deposits or the pledge of a letter of credit from certain merchants as an offset to potential contingent liabilities that are the responsibility of such merchants. The Company evaluates its ultimate risk and records an estimate of potential loss for chargebacks related to merchant fraud based upon an assessment of actual historical fraud loss rates compared to expected processing volume levels.

**Accrued Buyout Liability** Relationship Managers and sales managers are paid residual commissions based on the gross margin generated by monthly merchant processing activity. Until May 2004, Relationship Managers and sales managers had the contractual right to sell their portfolio equity at a fixed multiple to the Company. The Company has the right to buy out some or all of these commissions, and intends to do so periodically. Because of the Company's intent and ability to execute purchases of the residual commissions, and the mutual understanding between the Company and the Relationship Managers and sales managers, the Company has accounted for this deferred compensation arrangement pursuant to the substantive nature of the plan. The Company therefore records the amount currently payable (the settlement cost) to buy out non-servicing related commissions (owned commissions) from vested Relationship Managers and sales managers, and an accrual, based on their progress towards vesting, for those unvested Relationship Managers and sales managers who are expected to vest in the future. As noted above, as the liability increases over the first year of a merchant contract, the Company also records for vested Relationship Managers and sales managers a related deferred acquisition cost asset. The accrued buyout liability associated with unvested Relationship Managers and sales managers is not included in the deferred acquisition cost asset since future services are required in order to vest. Subsequent changes in the settlement cost, due to account attrition, same-store sales growth and changes in gross margin, are included in the same income statement caption as customer acquisition cost amortization expense.

The accrued buyout liability is based on the merchants under contract at the balance sheet date, the gross margin generated over the prior 12 months, and the contractual buyout multiple. The liability related to a new merchant is therefore zero when the merchant is installed, and increases over the twelve months following the installation date. The same procedure is applied to unvested commissions over the expected vesting period, but is further adjusted to reflect the Company's experience that 31% of unvested Relationship Managers and sales managers become vested.

The classification of the accrued buyout liability between current and non-current liabilities on the consolidated balance sheet is based upon the Company's estimate of the amount of the accrued buyout liability that it reasonably expects to pay over the next twelve months. This estimate is developed by calculating the cumulative annual average percentage that total historical buyout payments represent of the accrued buyout liability. That percentage is applied to the period-end accrued buyout liability to determine the current portion.

**Warrants** Warrants with mandatory redemption provisions are classified as debt and are recorded at estimated fair value.

**Financing Arrangements** Pursuant to EITF 88-18, the Company recognizes the transfer of merchant contracts as financing arrangements included under Borrowings and Financing Arrangements, until such time as the conditions for recognizing the transfer as a sale are met. The interest rates on these financing arrangements are computed based on the expected cash flows resulting from these contracts, reduced by an expected annual volume attrition rate of 15%. Any significant differences between actual future payments and expected payments will result in a change to that interest rate, which will be applied prospectively.

**Revenue** Revenue is mainly comprised of transaction and discount fees from the processing of merchant transactions. Revenue is recorded as bank card transactions are processed or payroll services are performed. The Company passes through to its customers any changes in interchange or association fees. Payroll revenue represents periodic and annual processing fees, which are recorded as services are performed.

Other revenue includes fees earned from customer service, termination fees on terminated contracts, fees for the sale, rental, leasing and deployment of credit card terminals and other miscellaneous revenue. These amounts are shown net of their associated direct costs, if any, and are recorded at the time the service is performed.

**Income Taxes** The Company accounts for income taxes by recognizing deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statements and the tax basis of assets and liabilities using enacted tax rates.

**Stock Options** The Company accounts for its stock options using the intrinsic value method in which no compensation expense has been recognized for its stock-based compensation plan because the options are granted at an exercise price greater than or equal to the estimated fair value at the grant date.

Basic earnings per share is computed based on the weighted average number of common shares outstanding. Diluted earnings per share is computed based on the weighted average outstanding common shares plus equivalent shares assuming exercise of stock options, warrants and conversion of Series A Senior Convertible Participating Preferred Stock, where dilutive. Weighted average shares outstanding and dilutive securities have been adjusted to reflect a two-for-one stock split on July 26, 2005. The following table presents the effect on net income and basic and diluted net income per common share had the Company adopted the fair value method of accounting for stock-based compensation under SFAS No. 123 (in thousands, except per share data):

	Three Months Ended June 30,			Six Months Ended June 30,		
	2005	2004		2005	2004	
Net income	\$ 4,381	\$ 1,921		\$ 7,075	\$ 4,067

Earnings per share :						
As reported:						
Basic	\$ 0.13	\$ 0.06		\$ 0.22	\$ 0.13	
Diluted	\$ 0.12	\$ 0.05		\$ 0.20	\$ 0.12	
Pro forma :						
Basic	\$ 0.12	\$ 0.06		\$ 0.16	\$ 0.13	
Diluted	\$ 0.11	\$ 0.05		\$ 0.15	\$ 0.12	

**New Accounting Pronouncements** On December 16, 2004, the Financial Accounting Standards Board ( FASB ) issued SFAS No. 153, Exchanges of Nonmonetary Assets, an Amendment of APB Opinion No. 29. SFAS No. 153 addresses the measurement of exchanges of nonmonetary assets and redefines the scope of transactions that should be measured based on the fair value of the assets exchanged. SFAS No. 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not believe adoption of Statement 153 will have a material effect on its consolidated financial position, results of operations or cash flows.

In December 2004, the FASB issued SFAS No. 123 (revised 2004), *Share-Based Payment* ( SFAS No. 123 revised ). This statement revises SFAS No. 123, *Accounting for Stock-Based Compensation*, and supersedes Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related implementation guidance. The most significant change resulting from this statement is the requirement for public companies to expense employee share-based payments under fair

value as originally introduced in SFAS No. 123. SFAS No. 123 revised is effective, as amended on April 21, 2005 by the Securities and Exchange Commission, beginning with the first interim or annual reporting period of the registrant's first fiscal year beginning on or after June 15, 2005. The Company will adopt this statement when effective, and continues to assess its impact.

In July 2005, the FASB issued an exposure draft of a proposed Interpretation, *Accounting for Uncertain Tax Positions an Interpretation of FASB Statement No. 109 (the Interpretation)*. This proposed Interpretation would clarify the accounting for uncertain tax positions in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. A company would be required to recognize, in its financial statements, the best estimate of the impact of a tax position, if that tax position is probable of being sustained if audited by a tax authority based solely on the technical merits of the position. Individual tax positions that fail to meet the Interpretation's recognition threshold would result in either (a) a reduction in the deferred tax asset or an increase in a deferred tax liability or (b) an increase in a liability for income taxes payable or the reduction of an income tax refund receivable. The proposed Interpretation would be effective as of the end of the first annual period ending on or after December 15, 2005. The Company does not believe the adoption of this proposed Interpretation will have a material effect on its consolidated financial position, results of operations or cash flows.

### 3. Receivables

A summary of receivables by major class is as follows at June 30, 2005 and December 31, 2004:

	June 30, 2005		December 31, 2004
	(In thousands)		
Accounts receivable from merchants	\$ 73,040	\$	60,739
Accounts receivable from others	2,302		3,753
	75,342		64,492
Less allowance for doubtful accounts	(251)		(167)
	\$ 75,091	\$	64,325

Receipts from settlement of the accounts receivable from merchants are primarily used to satisfy accounts payable to bank card processing banks.

**4. Investments**

The cost, gross unrealized gains (losses) and estimated fair value for available-for-sale investments by major security type and class of security are as follows at June 30, 2005 and December 31, 2004:

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In thousands)			
<b>June 30, 2005</b>				
Debt securities of the U.S. Government	\$ 442	\$ —	\$ (1)	\$ 441
Corporate debt securities	240	—	(9)	231
Certificates of deposit	714	—	—	714
	\$ 1,396	\$ —	\$ (10)	\$ 1,386
<b>December 31, 2004</b>				
Debt securities of the U.S. Government	\$ 195	\$ —	\$ (1)	\$ 194
Corporate debt securities	360	1	(4)	357
Certificates of deposit	549	—	—	549
	\$ 1,104	\$ 1	\$ (5)	\$ 1,100

As of June 30, 2005, all unrealized losses in investments were the result of increases in interest rates. These investments are not considered other-than-temporarily impaired because the Company has the ability and intent to hold these investments for a period of time sufficient for a forecasted recovery in value, which may be upon maturity.

The maturity schedule of all investments owned along with amortized cost and estimated fair value as of June 30, 2005 is as follows:

	Amortized Cost	Estimated Fair Value
	(In thousands)	
Due in one year or less	\$ 964	\$ 963
Due after one year through five years	432	423
	\$ 1,396	\$ 1,386

**5. Capitalized Customer Acquisition Costs, Net**

A summary of the capitalized customer acquisition costs, net is as follows as of June 30, 2005 and December 31, 2004:

	June 30, 2005	December 31, 2004
(In thousands)		
Capitalized signing bonuses	\$ 46,492	\$ 40,407
Less accumulated amortization	(18,903)	(15,862)
	<b>27,589</b>	<b>24,545</b>
Capitalized customer deferred acquisition costs	27,305	21,350
Less accumulated amortization	(16,475)	(11,648)
	<b>10,830</b>	<b>9,702</b>
	<b>\$ 38,419</b>	<b>\$ 34,247</b>

A summary of the activity in capitalized customer acquisition costs, net for the three and six-month periods ended June 30, 2005 and 2004 was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
(In thousands)				
Balance at beginning of period	\$ 35,586	\$ 24,477	\$ 34,247	\$ 22,321
Plus additions to:				
Capitalized signing bonuses, net	5,739	5,420	9,742	9,477
Capitalized customer deferred acquisition costs	3,032	2,593	5,956	4,881
	<b>8,771</b>	<b>8,013</b>	<b>15,698</b>	<b>14,358</b>
Less amortization expense on:				
Capitalized signing bonuses, net	(3,447)	(2,789)	(6,698)	(5,417)
Capitalized customer deferred acquisition costs	(2,491)	(1,839)	(4,828)	(3,400)
	<b>(5,938)</b>	<b>(4,628)</b>	<b>(11,526)</b>	<b>(8,817)</b>
Balance at end of period	<b>\$ 38,419</b>	<b>\$ 27,862</b>	<b>\$ 38,419</b>	<b>\$ 27,862</b>

Net signing bonus adjustments from estimated amounts to actual were \$(0.8) million and \$(0.3) million, respectively, for the three months ended June 30, 2005 and 2004 and \$(1.4) million and \$(0.4) million, respectively, for the six months ended June 30, 2005 and 2004. Net signing bonus adjustments are netted against additions in the table above.

Fully amortized signing bonuses of \$2.0 million and \$3.7 million respectively, were written off during the three and six-month periods ended June 30, 2005.

The Company believes that no impairment has occurred as of June 30, 2005 and December 31, 2004.

**6. Property and Equipment, Net**

A summary of property and equipment, net is as follows as of June 30, 2005 and December 31, 2004:

	June 30, 2005	December 31, 2004
	(In thousands)	
Computer hardware and software	\$ 17,764	\$ 13,611
Furniture, fixtures and equipment	1,934	1,709
Leasehold improvements	2,835	1,601
	22,533	16,921
Less accumulated depreciation	(8,481)	(5,977)
	\$ 14,052	\$ 10,944

Depreciation expense for the three months ended June 30, 2005 and 2004 was \$1.3 million and \$1.0 million, respectively. For the six months ended June 30, 2005 and 2004, depreciation expense was \$2.6 million and \$1.9 million, respectively.

**7. Borrowings and Financing Arrangements**

A summary of borrowings and financing arrangements is as follows as of June 30, 2005 and December 31, 2004:

	June 30, 2005	December 31, 2004
	(In thousands)	
Financing Arrangements	\$ 9,072	\$ 10,241
Revolver Advance Facility	2,069	2,069
Purpose and Ability Line of Credit	784	784
	11,925	13,094
Less Current Portion	5,149	5,286
Long-term portion of borrowings and financing arrangements	\$ 6,776	\$ 7,808

Principal payments due on borrowings and financing arrangements for the next five years are as follows:

Twelve Months Ended June 30,	(In thousands)
2006	\$ 5,149
2007	2,038
2008	1,643
2009	1,409
2010	1,233
Thereafter	453

**Financing Arrangements**

On December 31, 1999 the Company signed a Merchant Services Purchase and Sale Agreement with National Processing Company, which was amended by a First Modification Agreement in December, 2000, and Amendment No. 1 to the First Modification Agreement in December, 2001. Under these agreements, the Company agreed to the transfer of merchant contracts generating a specified amount of net revenue to the transferee, and to pay all cash flows, net of servicing fees and chargeback losses, associated with specific lists of merchant contracts that were committed to the arrangement. This transaction has been treated as a financing arrangement, as discussed in Note 2. As a result, the Company had recorded a liability of \$23.0 million on December 31, 1999, which was reduced by servicing payments and the value of converted contracts. The respective amendments of the agreements had the effect of triggering sale treatment for those contracts that were converted to the transferee's systems in 2000, 2001 and 2002. Effective August 1, 2002, the Company signed a five-year servicing agreement with the transferee, in which the Company agreed to provide servicing to those merchants in a defined final pool that had not been converted to the transferee's processing systems, and that no further conversions would be made. The servicing agreement is terminable by the transferee upon the occurrence of certain change in control events, upon material breach by the Company, if merchant losses exceed a specified threshold, or if the Company enters into bankruptcy, receivership or other like status, in which event the transferee will be responsible for the conversion of the remaining serviced merchants to their processing systems. The interest rate at June 30, 2005 was 4.26% and the balance outstanding was \$0.6 million. The expected cash flows were based on the actual historical cash flows of the merchant contracts, reduced by an expected annual volume attrition rate of 15%. Any significant differences between actual future payments and expected payments will result in a change to that interest rate, which will be applied prospectively. In this later stage of the term of this financing arrangement, the calculation of the interest cost, and remaining balance, of the financing arrangement is relatively insensitive to changes in portfolio attrition. If that attrition declined to 10% for 2005 and thereafter, the expected interest cost for 2005 would increase from \$24,000 to \$28,000 reflecting an interest rate for future payments of approximately 4.7%. If the attrition rate increases from the projected 15%, the interest rate would decline from the current 4.26%.

On November 1, 2000, the Company signed a Merchant Portfolio Purchase Agreement and an associated Servicing Agreement with Certegy Inc., each of which was amended on January 16, 2002. Under these agreements, the Company pays all cash flows, net of servicing fees and chargeback losses, related to the transferred merchant contracts to the transferee. This transaction has been treated as a financing arrangement, as discussed in Note 2. As a result, the Company recorded a liability of \$22.0 million on November 1, 2000, and the payments made represent interest plus principal repayments. The interest rate at June 30, 2005 is 2.53% and the balance outstanding was \$8.5 million. The servicing agreement is terminable only upon material breach by either party, or if the Company enters into bankruptcy, receivership or other like status. Any significant differences between actual future payments and expected payments will result in a change to that interest rate, which will be applied prospectively. The calculation of the interest cost, and remaining balance, of the financing arrangement is relatively sensitive to changes in portfolio attrition. If that attrition declined to 10% for 2005 and thereafter, the expected interest cost for 2005 would increase from \$0.2 million to \$0.7 million, reflecting an interest rate for future payments of approximately 8.13%. If the attrition rate increases from the projected 15%, the interest rate would decline from the current 2.53%.

## Loan and Security Agreement

On August 28, 2002, the Company signed a Loan and Security Agreement for two loan instruments; this Agreement was amended on November 6, 2003 and June 23, 2004. The first instrument is a Revolver Advance Facility ( Revolver ), which is to be used solely to fund the buyout of future commissions from current or former Relationship Managers or from Independent Sales Organizations. The Company may draw down on the Revolver up to but not exceeding an aggregate unpaid principal amount outstanding of \$3,500,000. The entire principal balance plus all accrued interest and fees was due on May 31, 2005 (extended to August 31, 2005), or on demand if there were to be a default. The Revolver accrues interest at a rate equal to the prime rate, which was 6.0% at June 30, 2005. The Company's assets, including accounts receivable, inventory, furniture and equipment and general intangibles, serve as collateral to secure the Revolver.

On May 26, 2005, the Company entered into an amendment to its Loan and Security Agreement, which extended the scheduled maturity date from May 31, 2005 to August 31, 2005.

The second instrument is a \$3,000,000 Purpose and Ability Line of Credit Facility ( Line of Credit ). The Line of Credit accrues interest at the prime rate, which was 6.0% at June 30, 2005, and is secured by the assets of the Company, including accounts receivable, inventory, furniture and equipment and general intangibles. The entire principal balance plus all accrued interest and fees is due upon demand.

The Company is subject to standard loan covenants and financial statement reporting requirements on both of the debt instruments and was in compliance at June 30, 2005 and December 31, 2004.

## 8. Merchant Deposits and Loss Reserves

The Company's merchants have the liability for any charges properly reversed by the cardholder through a mechanism known as a chargeback. If the merchant is unable to pay this amount, the Company will be liable to the Visa and MasterCard associations for the reversed charges.

During 2003, the Company adopted FIN 45. Under FIN 45, the Company determined the fair value of the obligation to stand ready to perform is minimal. The Company requires personal guarantees, merchant deposits and letters of credit from certain merchants to minimize its obligation. As of June 30, 2005 and December 31, 2004, the Company held merchant deposits totaling \$7.1 million and \$6.7 million, and letters of credit totaling \$679,000 and \$30,000, respectively.

The Visa and MasterCard associations generally allow chargebacks up to four months after the later of the date the transaction is processed or the delivery of the product or service to the cardholder. As the majority of the Company's transactions involve the delivery of the product or service at the time of the transaction, a reasonable basis for determining an estimate of the Company's exposure to chargebacks is the last four months' processing volume on its portfolio, which was \$11.0 billion and \$9.0 billion for the four months ended June 30, 2005 and December 31, 2004, respectively. However, for the four months ended June 30, 2005 and December 31, 2004, the Company was presented with \$5.5 million and \$5.6 million, respectively, in chargebacks by issuing banks. In the six months ended June 30, 2005 and the year ended December 31, 2004, the Company incurred merchant credit losses of \$0.6 million and \$0.9 million, respectively, on total dollar volume processed of \$15.4 billion and \$25.0 billion, respectively. These credit losses are included in cost of services in the Company's consolidated statements of operations.

Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

The loss recorded by the Company for chargebacks associated with any individual merchant is typically small, due both to the relatively small size and the processing profile of the Company's clients. However, from time to time the Company will encounter instances of merchant fraud, and the resulting chargeback losses may be considerably more significant to the Company. The Company has established a reserve for estimated credit and fraud losses on its consolidated balance sheets, amounting to \$475,000 and \$468,000 on June 30, 2005 and December 31, 2004, respectively. This reserve is determined by performing an analysis of the Company's historical loss experience applied to current processing volume and exposures.

A summary of the activity in the loss reserve for the three and six-month periods ended June 30, 2005 and 2004 was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
	(In thousands)			
Beginning balance	\$ 471	\$ 589	\$ 468	\$ 589
Additions to reserve	314	173	624	494
Charges against reserve	(310)	(251)	(617)	(572)
Ending Balance	\$ 475	\$ 511	\$ 475	\$ 511

#### 9. Accrued Buyout Liability

A summary of the accrued buyout liability is as follows as of June 30, 2005 and December 31, 2004:

	June 30, 2005	December 31, 2004
	(In thousands)	
Vested Relationship Managers and sales managers	\$ 28,531	\$ 25,788
Unvested Relationship Managers and sales managers	1,194	1,247
	29,725	27,035
Less current portion	7,639	9,327
Long-term portion of accrued buyout liability	\$ 22,086	\$ 17,708

A summary of the activity in the accrued buyout liability for the three and six-month periods ended June 30, 2005 and 2004 is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
	(In thousands)			
Beginning balance	\$ 26,923	\$ 19,695	\$ 27,035	\$ 17,985
Increase in settlement obligation, net	4,497	3,402	7,672	5,838
Buyouts	(1,695)	(1,326)	(4,982)	(2,052)
Ending balance	\$ 29,725	\$ 21,771	\$ 29,725	\$ 21,771

The increase in settlement obligation is due to new merchant account signings, as well as same-store sales growth and changes in gross margin, primarily attributable to account attrition.

In calculating the accrued buyout liability for unvested Relationship Managers and sales managers, the Company has assumed that 31% of the unvested Relationship Managers and sales managers will vest in the future, which represents the Company's historical vesting rate. A 5% increase to 36% in the expected vesting rate would have increased the accrued buyout liability for unvested Relationship Managers and sales managers by \$0.2 million at June 30, 2005 and \$0.2 million at December 31, 2004.

#### **10. Convertible Preferred Stock and Warrants**

The Series A Senior Convertible Participating Preferred Stock (the "Convertible Preferred") is convertible by the holders at any time and automatically converts upon the closing of a qualified public offering into a maximum of 15,238,096 shares of the Company's Common Stock, participates equally in dividends and distributions with the Common Stock, pays no other dividends and has a liquidation preference of \$80 million. The Convertible Preferred was redeemable at the option of two-thirds of the holders after October 1, 2006 at the higher of the liquidation preference or value per common share. The carrying value of the Convertible Preferred was accreted to its mandatory redeemable value by \$6,509,019 in the year ended December 31, 2002, using the effective interest rate method. During 2002, the Company stopped accreting the Convertible Preferred because the terms of the Certificate of Designations for the Convertible Preferred and the Shareholders Agreement by and among the holders of the Company's Common Stock and the Convertible Preferred were amended to eliminate certain rights of the holders of the Convertible Preferred that might, in certain circumstances, have allowed those holders to cause redemption of the Convertible Preferred. The holders of the Convertible Preferred have the right to elect three directors to the Company's Board and have certain other rights with respect to the governance of the Company.

In addition, the holders of the Convertible Preferred received five-year warrants to purchase an additional 2,000,000 shares of the Company's Common Stock at a price of \$2.63 per share, which were valued at \$1.5 million. The Company redeemed these warrants on September 28, 2004 by paying the holders the net consideration of \$5.25 million.

In August 2004, the Certificate of Designations of the Convertible Preferred was amended to eliminate after October 1, 2006 certain rights of the holders to treat a merger of the Company as a liquidation event. This amendment was in addition to amendments made in 2002 to the terms of the Certificate of Designations for the Convertible Preferred and the Shareholders Agreement by and among the holders of the Company's Common Stock. As a result of the amendment, the Company has classified the Convertible Preferred as a part of stockholders' (deficit) equity in its December 31, 2004 and June 30, 2005 financial statements.

The Board of Directors is authorized to issue shares of preferred stock in one or more classes or series without any further action by the Company's stockholders.

On July 26, 2001, the Company signed a Loan and Security Agreement with BHC Interim Funding, L.P., and received a Term Loan (the "BHC Bridge Loan") in the amount of \$4.76 million, which accrued interest at a rate of 13.75%, and was secured by a first priority lien on the Company's merchant contracts and certain other assets. The BHC Bridge Loan was repaid on October 11, 2001. In connection with this agreement, the Company issued 337,810 five-year mandatory redeemable warrants to purchase its Common Stock for \$0.005, which were valued at \$605,049. Commencing July 26, 2003, the holder can require the Company to redeem these warrants at their per share fair value. The Company records these warrants at their estimated fair value. On January 8, 2004, the warrant holder elected to cause the Company to redeem 168,906 shares at the fair value of \$6.25 per share. The Company has adjusted the warrants by an additional \$0.5 million in the period ending December 31, 2004 and by \$0.3 million during the six months ended June 30, 2005 to reflect the estimated fair value of \$9.28 and \$11.00 per share, respectively.

**11. Income Taxes**

The provision for income taxes for the three and six-month periods ended June 30, 2005 and 2004 consists of the following:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
	(In thousands)			
<b>Current</b>				
Federal	\$ 3,103	\$ 489	\$ 4,634	\$ 963
State	721	113	1,065	262
<b>Deferred</b>				
Federal	(611)	692	(518)	1,421
State	(141)	160	(120)	290
Total provision for income taxes	\$ 3,072	\$ 1,454	\$ 5,061	\$ 2,936

The differences in federal income taxes provided and the amounts determined by applying the federal statutory tax rate of 35% to income before income taxes for the six months ended June 30, 2005 and 2004 are:

	Six Months Ended June 30, 2005		Six Months Ended June 30, 2004	
	%	Amount (In thousands)	%	Amount (In thousands)
U.S. federal income tax at statutory rate	35.00%	\$ 4,248	35.00%	\$ 2,451
U.S. state and local income taxes, net	5.07%	615	5.12%	359
Warrants	1.13%	138	1.20%	84
Nondeductible expenses	0.23%	27	0.59%	42
Other, net	0.27%	33		
Provision for income taxes	41.70%	\$ 5,061	41.91%	\$ 2,936

The net deferred tax asset was comprised of the following at June 30, 2005 and December 31, 2004:

	June 30, 2005	December 31, 2004
(In thousands)		
<b>Deferred tax assets:</b>		
Merchant contract costs	\$ 17,709	\$ 15,317
Borrowings and financing arrangement	3,855	4,353
Loss reserve and accounts receivable allowance	308	270
Other		1
Deferred tax asset	21,872	19,941
<b>Deferred tax liabilities:</b>		
Capitalized signing bonus	11,725	10,432
Deferred state tax liability	488	447
Software development	1,453	1,065
Property and equipment	788	1,217
Deferred tax liability	14,454	13,161
Net deferred tax asset	7,418	6,780
Less current portion	2,076	2,129
Net deferred tax asset non current portion	\$ 5,342	\$ 4,651

At December 31, 2004 the Company has fully utilized all federal and state net operating loss carryforwards.

Tax contingencies are recorded for probable exposures involving tax positions taken that could be challenged by taxing authorities. These probable exposures result from the varying application of statutes, rules, regulations and interpretations. The Company does not have income tax contingencies.

## 12. Commitments and Contingencies

**Litigation** The Company is involved in certain legal proceedings and claims, which arise in the ordinary course of business. In the opinion of the Company, the results of any of these matters, individually and in the aggregate, are not expected to have a material effect on its results of operations, financial condition or cash flows.

**Leases** The Company leases various office spaces and certain equipment under operating leases with remaining terms ranging up to eight years. The majority of the office space lease agreements contain renewal options and generally require the Company to pay certain operating expenses.

Future minimum lease commitments under noncancelable leases as of June 30, 2005 are as follows:

Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

Twelve Months Ended June 30,		(In thousands)
2006	\$	1,575
2007		1,556
2008		1,256
2009		915
2010		322
Thereafter		760
	\$	6,384

Rent expense for leased property was \$308,000 and \$298,000, respectively, for the quarter ended June 30, 2005 and 2004 and \$596,000 and \$556,000, respectively, for the six months ended June 30, 2005 and 2004.

**Commitments**—Certain officers of the Company have entered into an employee confidential information and noncompetition agreement under which they are entitled to severance pay equal to their base salary and medical benefits for 12 months and a pro-rated bonus in the event they are terminated by the Company other than for cause.

**Contingencies**— The Company collects and stores sensitive data about its merchant customers and bank cardholders. If the Company's network security is breached or sensitive merchant or cardholder data is misappropriated, the Company could be exposed to assessments, fines or litigation costs.

### 13. Related Party Transactions

In November 2004, Carr Holdings, L.L.C., a New Jersey limited liability company which is owned and managed by the Company's Chief Executive Officer and his wife, sold an aggregate of 108,000 shares of the Company's common stock to Greenhill Capital Partners, L.P. and its affiliated investment funds and LLR Equity Partners, L.P. and its affiliated investment fund at a price of \$9.28 per share. Various officers, directors, partners and members of Greenhill Capital Partners, L.P. and its affiliated investment funds and LLR Equity Partners, L.P. and its affiliated investment fund are members of the Company's board of directors.

### 14. Segments

The determination of the Company's business segments is based on how the Company monitors and manages the performance of its operations. The Company has two operating segments, as follows: (1) Card, which provides payment processing and related services related to bank card transactions; and (2) Payroll, which provides payroll and related tax filing services.

The Company's operating segments are strategic business units that offer different products and services. They are managed separately because each business requires different marketing strategies, personnel skill sets and technology.

The Company allocates revenues, expenses, assets and liability to segments only where directly attributable. The unallocated corporate administration amounts are costs attributed to finance, corporate administration, human resources and corporate services. For the reported periods, between 70% and 90% of the payroll segment total assets are funds that the Company holds as a fiduciary for payment to taxing authorities. The Company only operates in the United States and does not have any major individual customers.

Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

A summary of the Company's segments for the three and six-month periods ended June 30, 2005 and 2004 are as follows:

	Card	Payroll	Unallocated Corporate Administration Amounts	Amount
	(In thousands)			
<b>Three Months Ended June 30, 2005</b>				
Total net revenue	\$ 208,702	\$ 989	\$	\$ 209,691

Interest income	35	45		80
Interest expense	613			613
Net income (loss)	4,755	296	(984)	4,067
Total assets	113,838	6,741		120,579

**15. Earnings Per Share**

The Company presents earnings per share data in accordance with SFAS No. 128, Earnings Per Share ( SFAS 128 ), which establishes the standards for the computation and presentation of basic and diluted earnings per share data. Under SFAS 128, the dilutive effect of stock options is excluded from the calculation of basic earnings per share but included in diluted earnings per share except in periods of net loss where inclusion would be anti-dilutive.

Weighted average shares outstanding and dilutive securities have been adjusted to reflect a two-for-one stock split on July 26, 2005. The following is a reconciliation of the amounts used to calculate basic and diluted earnings per share using the two-class method:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
	(In thousands)			
<b>Basic</b>				
Weighted average common stock outstanding	16,454	16,457	16,453	16,376
Earnings per share	\$ 0.13	\$ 0.06	\$ 0.22	\$ 0.13
<b>Diluted:</b>				
Net income attributable to common	\$ 2,274	\$ 998	\$ 3,673	\$ 2,107
Plus: income allocated to Series A Senior Convertible Participating Preferred Stock	2,107	923	3,402	1,960
Net income	\$ 4,381	\$ 1,921	\$ 7,075	\$ 4,067
Basic weighted average common stock outstanding	16,454	16,457	16,453	16,376
Effect of dilutive instruments:				
Stock options	3,755	1,168	3,484	1,514
Warrants	169	169	169	169
Series A Senior Convertible Participating Preferred Stock	15,238	15,238	15,238	15,238
Diluted weighted average shares outstanding	35,616	33,032	35,344	33,297
Earnings per share	\$ 0.12	\$ 0.05	\$ 0.20	\$ 0.12

**16) Subsequent Event**

On August 10, 2005 the Company's Registration Statement on Form S-1 (Registration No. 333-118073), which registered shares of the Company's common stock, \$0.001 par value, under the Securities Act of 1933, as amended, was declared effective by the Securities and Exchange Commission. The offering consists of 6,750,000 shares of the Company's common stock, 2,622,046 of which will be sold by the Company and 4,127,954 of which will be sold by certain selling stockholders at a price to the public of \$18.00. The Company and the selling stockholders also had granted the underwriters of the initial public offering a 30-day option to purchase up to 136,500 additional shares from the Company and 876,000 additional shares from the selling stockholders to cover over-allotments. On August 15, 2005, the underwriters notified the Company of their intention to exercise this option.

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

At the completion of the offering, all outstanding shares of the Company's Convertible Preferred will automatically convert into 13,333,334 shares of common stock. As of June 30, 2005, and reflecting the July 26, 2005 two-for-one split of the Company's outstanding common stock, the Company had 16,461,600 shares of common stock outstanding. Had the offering occurred as of June 30, 2005, there would have been 32,553,480 shares of our common stock outstanding.

**17. Financial Statement Restatement**

Subsequent to filing Amendment No. 1 to the Form S-1 in March 2005, the Company determined that given the revenue guaranties and servicing agreements associated with a transfer of merchant contracts to a third party in 1999 (as discussed in Notes 2 and 7), the previous recognition of the transfer as a sale was not appropriate. Consequently, and pursuant to the provisions of EITF

87-34, EITF 90-21 and EITF 95-5, the Company recognized the transfer as a financing arrangement until such time as the conditions for recognizing the transfers of individual merchant contracts as sales were met. Cash paid to the transferee represents principal repayment and interest on the financing arrangement. Payments include all cash flows, net of servicing fees and charge back losses, associated with specific lists of merchant contracts that were committed to the arrangement prior to a merchant's conversion to the transferee's processing systems. Until the efforts to convert merchants to the transferee's processing systems ceased in 2002, payments also included the estimated fair value of merchant contracts that had converted and which were recognized as sales. The Company currently records revenue and costs of services associated with the unconverted merchant contracts.

The Company previously presented unclassified balance sheets. The Company determined that classified balance sheets should be presented and made the appropriate reclassifications. Amounts related to short-term and long-term assets and liabilities, including prepaid expenses, deferred taxes and borrowings and financing arrangements were reclassified in Amendment No. 3 to the Form S-1 filed by the Company in June 2005. In addition, the Company restated its classification of the accrued buyout liability to present the current and non-current portion of the liability.

The table below provides a summary of the significant effects of the Company's restatement of its consolidated financial statements as originally reported in the Form S-1 filed in August 2004, and as previously reported in Amendment No. 1 to the Form S-1 filed in March 2005. In addition, the classification of the accrued buyout liability and deferred taxes in the As Restated column have been restated from the manner it was previously reported in Amendment No. 3 to the Form S-1 filed by the Company in June 2005. As of December 31, 2004, the current portion of the accrued liability in the amount of \$9.3 million was reclassified from long-term. As of December 31, 2004, the current deferred tax asset was restated from \$0.1 million to \$2.1 million. As of December 31, 2004, the non-current deferred tax asset was restated from \$6.7 million to \$4.7 million.

	December 31, 2004	
	As Previously Reported	As Restated
	(In thousands)	
Prepaid expenses	\$ 2,151	\$ 2,151
Deposits and other assets	—	324

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the consolidated financial statements and the accompanying notes to consolidated financial statements included elsewhere in this report, and the consolidated financial statements, notes to consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations and the risk factors contained in our Form 10/A filed on July 27, 2005.

### ***Forward Looking Statements***

Some of the information in this Quarterly Report on Form 10-Q may contain forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Forward-looking statements include the information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, industry environment, potential growth opportunities, the effects of future regulation and the effects of competition. Forward-looking statements include all statements that are not historical facts and can be identified by the use of forward-looking terminology such as the words believe, expect, anticipate, intend, plan, estimate or similar expressions.

Forward-looking statements involve risks, uncertainties and assumptions. Actual results may differ materially from those expressed in the forward-looking statements. You should understand that many important factors, in addition to those discussed elsewhere in this report, could cause our results to differ materially from those expressed in the forward-looking statements. These factors include, without limitation, our competitive environment, the business cycles and credit risks of our merchants, chargeback liability, merchant attrition, problems with our bank sponsor, our reliance on other bank card payment processors, our inability to pass increased interchange fees along to our merchants, the unauthorized disclosure of merchant data, economic conditions, system failures and government regulation.

### **Recent Development**

On August 10, 2005, our Registration Statement on Form S-1 (Registration No. 333-118073), which registered shares of our common stock, \$0.001 par value, under the Securities Act of 1933, as amended, was declared effective by the Securities and Exchange Commission. The managing underwriters were Citigroup Global Markets Inc., Credit Suisse First Boston LLC, Robert W. Baird & Co. Incorporated, William Blair & Company, LLC, KeyBanc Capital Markets, a Division of McDonalds Investments Inc. and SunTrust Capital Markets, Inc. All 6,750,000 shares of our common stock, 2,622,046 of which will be sold by us and 4,127,954 of which will be sold by certain selling stockholders, are being sold at a price to the public of \$18.00 per share. We and the selling stockholders also had granted the underwriters of our initial public offering a 30-day option to purchase up to 136,500 additional shares from us and 876,000 additional shares from the selling stockholders to cover over-allotments. On August 15, 2005, the underwriters notified us of their intention to exercise this option.

The aggregate gross proceeds from the sale of common stock sold by us will be approximately \$47.2 million. The estimated aggregate net proceeds to us from the sale of common stock in this initial public offering will be approximately \$39.4 million, or \$41.7 million if the underwriters exercise their over-allotment option in full, after deducting an aggregate of \$3.3 million in underwriting discounts and commissions and an estimated \$4.5 million in other expenses incurred by us in connection with the offering. We will not receive any of the proceeds from the sale of shares by the selling stockholders.

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

We intend to use our net proceeds from our initial public offering to repay outstanding indebtedness to KeyBank National Association, which totaled \$2.9 million at June 30, 2005 and to use the remainder for general corporate purposes, including to fund working capital and potential acquisitions. However, we currently do not have a specific plan relating to the expenditure of our remaining proceeds from this offering. Pending the use of such net proceeds, we intend to invest these funds in investment-grade, short-term interest bearing securities. None of the proceeds from the offering will be paid, directly or indirectly, to any of our officers or directors or any of their associates, or to any persons owning ten percent or more of our outstanding common stock or to any of our affiliates.

At the completion of our initial public offering, all outstanding shares of our convertible participating preferred stock will automatically convert into 13,333,334 shares of our common stock. As of June 30, 2005, and reflecting the July 26, 2005 two-for-one split of our outstanding common stock, we had 16,461,600 shares of common stock outstanding. Had the offering occurred as of June 30, 2005, there would have been 32,553,480 shares of our common stock outstanding.

### **Overview**

*General*

We provide bank card-based payment processing services to merchants in the United States. As of June 30, 2005, we provided our payment processing services to approximately 101,500 active merchants located across the United States. Our processing volume for the three months ended June 30, 2005 was \$8.5 billion, a 37.1% increase from the \$6.2 billion processed during the same period in 2004. For the six months ended June 30, 2005 our processing volume was \$15.4 billion, a 36.3% increase from \$11.3 billion for the six months ended June 30, 2004. For the years ended December 31, 2004, 2003 and 2002, our processing volume was \$25.0 billion, \$17.9 billion and \$14.4 billion, respectively.

Our revenue is recurring in nature, as we typically enter into three-year service contracts that, in order to qualify for the agreed-upon pricing, require the merchant to achieve processing volume minimums. Most of our gross revenue is payment processing fees, which are a combination of a fee equal to a percentage of the dollar amount of each Visa or MasterCard transaction we process plus a flat fee per transaction. We make mandatory payments of interchange fees to card-issuing banks and dues and assessment fees to Visa and MasterCard. Our business volume, and consequently gross processing revenue, is largely driven by the cumulative growth in the number of merchants with whom we have processing contracts. This in turn is the result of the number of merchants that we install during a period, offset by the number of merchants who cease processing with us during that period. We also generally benefit from consumers' increasing use of bank cards in place of cash and checks.

Since our inception in 1997, our success at signing new merchants has generally led to significant annual gross processing revenue increases. However, our limited capital resources and our desire to buy out the equity of our former 50% owner led us to economically transfer approximately two-thirds of our merchant contracts in late 1999 and early 2000 to National Processing Company and Heartland Bank. In October 2001, we raised an aggregate of \$40 million from Greenhill Capital Partners, L.P. and its affiliated investment funds and LLR Equity Partners, L.P. and its affiliated investment fund in exchange for a significant interest in our company. These additional financial resources allowed us to begin the rapid growth of our sales force, a process that was accelerated in late 2002 by a restructuring of our sales management structure. This restructuring included the creation of eight regions (now 12), with the sales managers in these regions being compensated based on their success in growing the sales force and increasing the merchant base in their regions. The result has been a significant increase in the number of new Relationship Managers and new merchants installed, with the number of new merchants growing by approximately 42% from 19,687 in 2002 to 27,911 in 2003, and by approximately 41% to 39,403 in 2004. During the six months ended June 30, 2005, we installed 22,650 new merchants. In order to continue to increase our gross processing revenue, we intend to increase both the size and productivity of our sales force. As a result of our commission-only compensation system for our sales force, which is required to work exclusively for us, we are able to increase the size of our sales force with minimal upfront costs. However, since we pay signing bonuses and commissions approximating 92% of the gross margin generated by a merchant in its first year, growth in merchant accounts consumes significant capital, as it typically takes approximately 11 months of processing to cover the signing bonus and commission outlays. During 2003 and 2004 we also experienced an improvement in our same store sales statistics, which represent the change in processing volume for all merchants that were processing with us in the same month a year earlier. Same store sales grew 5.0% on average in 2003, 7.5% on average in 2004 and 7.5% on average in the six months ended June 30, 2005. This same store sales growth resulted from the combination of the increasing use by consumers of bank cards for the purchase of goods and services at the point of sale, and sales growth experienced by our retained merchants, some of which was likely the result of an improved economy.

#### *Components of Revenue and Expenses*

**Revenue.** Our revenues fall into two categories, gross processing revenue and other revenue, net. Our gross processing revenue primarily consists of discount, per-transaction and periodic (primarily monthly) fees from the processing of bank card transactions, primarily Visa and MasterCard transactions, for merchants. These fees are negotiated by our Relationship Managers with each merchant. Gross processing revenue also includes fees charged by Heartland Payroll Company for payroll processing services. Gross processing revenue is recorded as services are performed.

Other revenue, net includes American Express and Discover fees, customer service fees, fees for processing chargebacks, fees for the sale, rental, leasing and deployment of bank card terminals, termination fees on terminated contracts, and other miscellaneous revenue. These amounts are shown net of their associated direct costs, if any, and are recorded at the time the service is performed. Most of these other fees and revenue items will tend to grow with our merchant growth.

**Expenses.** Our most significant expense is interchange fees, which are set by the Visa and MasterCard card associations, and are paid to the card issuing banks. Interchange fees are calculated as a percentage of the dollar volume processed plus a per transaction fee. We also pay Visa and MasterCard association dues and assessments, which are calculated as a percentage of the dollar volume processed. Interchange fees and dues and assessments are recognized at the time transactions are processed. It is our policy to pass along to our merchants any changes in interchange fees and card association dues and assessments. Consequently, after Visa and MasterCard decreased their debit interchange rates in August 2003, both our discount and our interchange fees as a percentage of processing volume decreased by approximately 0.1%, with both income and expense decreasing by approximately the same amount. Our income from operations was therefore not affected by the reduction in debit interchange fee rates. Since the card associations have recently implemented significant increases in those rates, our gross processing revenue will increase, but all the benefit will be paid to the card issuing banks and our income from operations will not be affected.

Costs of services also include processing and servicing costs, customer acquisition costs, and depreciation and amortization. Processing and servicing costs include:

residual commission payments to our Relationship Managers, sales managers and trade associations, agent banks and value-added resellers, which are a percentage of the gross margin we generated from our merchant contracts during the accounting period;

processing costs, which are either paid to third parties, or represent the cost of our own authorization/capture system. During 2004, third party costs represented about 77% of our processing costs, with internal costs representing the remainder. Approximately 72% of our third-party processing costs were paid to Vital; and

miscellaneous items, including telecommunications costs, personnel costs, occupancy costs, losses due to merchant defaults, bank sponsorship costs and other direct merchant servicing expenses.

Customer acquisition costs reflect the amortization over the initial three-year contract term of the cash signing bonus paid, the deferred acquisition costs for vested Relationship Managers and sales managers, and changes in the accrued buyout liability, which reflect the impact of buyouts and volume attrition.

Depreciation and amortization expenses are primarily recognized on a straight-line basis over the estimated useful life of the asset. We have made significant capital expenditures for computer hardware and software and such costs are generally depreciated over three years.

Selling and administrative expenses include salaries and wages and other administrative expenses. The two most significant elements in these expenses are our information technology infrastructure costs and our marketing expenses.

Other income (expense) consists of interest income on cash and investments, the interest cost on our borrowings, the gains or losses on the disposal of property, plant and equipment and other non-recurring income or expense items. Other income (expense) also includes the adjustment to the fair value of our outstanding warrants with mandatory redemption provisions.

#### **Critical Accounting Estimates**

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

The discussion and analysis of our financial condition and results of operations are based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. These financial statements are unaudited. In our opinion, the unaudited interim financial statements include all normal recurring adjustments necessary for a fair presentation of our financial position at June 30, 2005, our results of operations for the three and six months ended June 30, 2005 and 2004 and our cash flows for the six months ended June 30, 2005 and 2004. Results of operations reported for interim periods are not necessarily indicative of the results to be expected for the year ended December 31, 2005. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses. Actual results could differ from those estimates. Our significant accounting policies are more fully described in note 2 to our consolidated financial statements included elsewhere in this report and in our annual report on Form 10, as amended. The critical accounting estimates described here are those that are most important to the depiction of our financial condition and results of operations, including those whose application requires management's most subjective judgment in making estimates about the effect of matters that are inherently uncertain. The line items on our income statement and balance sheet impacted by management's estimates are described below.

### *Revenue*

Nearly 75% of our reported gross processing revenue is paid by us as interchange fees to the card issuing banks. Certain of our competitors report their revenue net of interchange fees. This is because the issuing banks make their payments to these competitors net of those interchange fees, and these acquirers pay this reduced amount to their merchants. We do not offset gross processing revenue and interchange fees because our business practice is to arrange for our sponsor bank to advance the interchange fees to

most of our merchants when settling their transactions (thus paying the full amount of the transaction to the merchant), and then to collect our full discount fees from our merchants on the first business day of the next month. We believe this policy aids in new business generation, as our merchants benefit from bookkeeping simplicity. However, it results in our carrying a large receivable from our merchants at each period-end, and a corresponding but smaller payable to our sponsor bank, both of which are settled on the first business day after the period-end. As we are at risk for the receivables, we record the associated revenues on a gross processing revenue basis in our income statements.

### ***Capitalized Customer Acquisition Costs***

Capitalized customer acquisition costs consist of (1) up-front signing bonus payments made to Relationship Managers and sales managers for the establishment of new merchant relationships, and (2) deferred acquisition cost representing the cost of buying out the commissions of vested Relationship Managers and sales managers. The capitalized customer acquisition costs are amortized using a method which approximates a proportional revenue approach over the initial three-year term of the merchant contract.

The amount of the up-front signing bonus paid is based on the estimated gross margin (calculated by deducting interchange fees, dues and assessments and all costs incurred in underwriting, processing and reviewing an account from gross processing revenue) for the first year of the merchant contract. The signing bonuses paid during the six months ended June 30, 2005 and the year ended December 31, 2004 were \$11.1 million and \$21.6 million, respectively. The signing bonus paid, amount capitalized, and related amortization are adjusted at the end of the first year to reflect the actual gross margin generated by the merchant contract during that year. The deferred acquisition cost is accrued over the first year of merchant processing, consistent with the build-up in the accrued buyout liability, which is described below.

The amount of signing bonus paid which remained subject to adjustment at June 30, 2005 and December 31, 2004 was \$22.8 million and \$21.6 million, respectively. The net signing bonus adjustments made during the six months ended June 30, 2005 and the year ended December 31, 2004 were \$(1.4) million and \$(1.4) million, respectively. Negative signing bonus adjustments result from the overpayment of signing bonuses previously paid, which are recovered from the relevant salesperson.

Management evaluates the capitalized customer acquisition costs for impairment at each balance sheet date by comparing, on a pooled basis by vintage month of origination, the expected future net cash flows from underlying merchant relationships to the carrying amount of the capitalized customer acquisition costs. If the estimated future net cash flows are lower than the recorded carrying amount, indicating an impairment of the value of the capitalized customer acquisition costs, the impairment loss will be charged to operations. We have not recognized an impairment loss for the six months ended June 30, 2005 and the year ended December 31, 2004.

### ***Accrued Buyout Liability***

We pay our Relationship Managers and sales managers, referred to as the salesperson or salespersons, residual commissions based on the gross margin generated from the monthly processing activity of merchants signed by them. A portion, typically 25% of the residual commissions we owe to the salesperson, is deemed to be a servicing fee and is not accrued. For the remainder of their residual commissions (referred to as the owned portion of such commissions, or portfolio equity) the salesperson has no obligation to perform services for so long as the merchant continues processing with us. We accrue the buyout liability, which represents the current settlement cost of buying out all vested and expected-to-vest salespersons for the owned portion of such commissions. We also record a deferred acquisition cost asset related to those buyouts, and amortize that asset as an expense over the initial 3-year contract term.

We consider a salesperson to be vested once they have established merchant relationships that generate the equivalent of \$2,000 of monthly residual commissions. Vested status entitles the salesperson

to his or her residual commissions for as long as the merchant processes with us, even if the salesperson is no longer employed by us.

The accrued buyout liability is based on the merchants we have under contract at the balance sheet date, the gross margin we generated from those accounts in the prior twelve months, and the fixed buyout multiple. The liability related to a new merchant is therefore zero when the merchant is installed, and increases over the twelve months following the installation date.

For unvested salespersons, the accrued buyout liability is accrued over the expected vesting period; however, no deferred acquisition cost is capitalized as future services are required in order to vest. In calculating the accrued buyout liability for unvested salespersons, we have assumed that 31% of unvested salespersons will vest in the future, which represents our historical vesting rate. A 5% increase to 36% in the expected vesting rate would have increased the accrued buyout liability for unvested salespersons by \$0.2 million at June 30, 2005 and \$0.2 million at December 31, 2004.

Buyout payments made to salespersons reduce the outstanding accrued buyout liability. Given our view of the duration of the cash flows associated with a pool of merchant contracts, we believe that the benefits of such buyouts significantly exceed the cost, which typically represents 2 to 2 1/2 years of commissions. If the cash flows associated with a pool of bought out contracts does not exceed this cost, we will incur a loss on the transaction. During the six months ended June 30, 2005 and the 2004 full year, we made buyout payments of approximately \$5.0 million and \$2.2 million, respectively. In 2004, we processed fewer buyouts as a result of the contract modifications and initial public offering process. We expect to make significant buyout payments in the future, as such buyouts reduce the monthly payments we will have to make to our salespersons for such merchants in the future.

#### ***Chargebacks, Reject Losses and Merchant Deposits***

Disputes between a cardholder and a merchant periodically arise as a result of, among other things, the cardholder's dissatisfaction with merchandise quality or merchant services. Such disputes may not be resolved in the merchant's favor. In these cases, the transaction is charged back to the merchant, which means the purchase price is refunded to the customer by the card-issuing bank and charged to the merchant. If the merchant is unable to fund the refund, we must do so. If the Relationship Manager who installed the merchant is still employed by us, that Relationship Manager bears a portion of this loss through a reduction in our payment of residual commissions or signing bonuses to such Relationship Manager. We also bear the risk of reject losses arising from the fact that we collect our fees from our merchants on the first day after the monthly billing period. If the merchant has gone out of business during such period, we may be unable to collect such fees. We maintain cash deposits or require the pledge of a letter of credit from certain merchants, generally those with higher average transaction size where the card is not present when the charge is made or the product or service is delivered after the charge is made, in order to offset potential contingent liabilities such as chargebacks and reject losses that would arise if the merchant went out of business. The owners of the serviced portfolios bear the credit risk for their merchants. At June 30, 2005 and December 31, 2004, we held merchant deposits totaling \$7.1 million, and \$6.7 million, respectively. Most chargeback and reject losses are charged to processing and servicing as they are incurred. However, we also maintain a loss reserve against losses including major fraud losses, which are both less predictable and involve larger amounts. The loss reserve was established using historical loss rates, applied to recent processing volume. At June 30, 2005 and December 31, 2004, our loss reserve totaled \$475,000 and \$468,000, respectively. Aggregate merchant losses, including losses charged to operations and the loss reserve, were \$617,000 and \$940,000 for the six months ended June 30, 2005 and the year ended December 31, 2004, respectively.

#### ***Stock Options***

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

We account for our stock options using the intrinsic value method, with no compensation expense being recognized for the stock-based compensation plan because the options are granted at an exercise price that in most cases was higher than, and in all cases was at least equal to, the estimated fair value at the grant date. As a company with no established market for our common stock, and consistent with existing

accounting literature, prior to the initial filing of our registration statement with the Securities and Exchange Commission in August 2004, we assumed a volatility factor of 0%. As a result, had the compensation been determined based on the fair value method, our net income would remain unchanged. For those periods after the filing of our initial registration statement, a 50% volatility assumption was used in estimating the fair value of options. As a result of applying the 50% volatility assumption, had compensation expense been determined based on the fair value method, reported net income for the six months ended June 30, 2005 would have been reduced \$1.9 million, or \$0.05 per diluted share and reported net income for the year ended December 31, 2004 would have been reduced by \$5.5 million, or \$0.16 per diluted share. The 50% volatility assumption was determined by referencing the average volatility assumed by six of our public company peers.

*Financing Arrangements*

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

Pursuant to EITF 88-18, we recognize the transfer of merchant contracts as financing arrangements included under Borrowings and Financing Arrangements, until such time as the conditions for recognizing the transfer as a sale are met. The interest rates on these financing arrangements are computed based on the expected cash flows resulting from these contracts, reduced by an expected annual volume attrition rate of 15%. Any significant differences between actual future payments and expected payments will result in a change to that interest rate, which will be applied prospectively.

### *Income Taxes*

We account for income taxes pursuant to the provisions of Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*. Under this method, deferred tax assets and liabilities are recorded to reflect the future tax consequences attributable to the effects of differences between the carrying amounts of existing assets and liabilities for financial reporting and for income tax purposes. Judgments are required in determining the amount and probability of future taxable income, which in turn is critical to a determination of whether a valuation reserve against the deferred tax asset or liability is appropriate.

**Results of Operations**

Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

Three Months Ended June 30, 2005 Compared to Three Months Ended June 30, 2004

The following table shows certain income statement data as a percentage of revenue for the periods indicated (in thousands of dollars):

	Three Months Ended June 30, 2005	% of Total Net Revenue	Three Months Ended June 30, 2004	% of Total Net Revenue	Amount	Change %
<b>Revenue:</b>

Net income	\$4,381	2.1%	\$1,921	1.3%	\$2,460	128.1%

*Revenue.* Total net revenue increased 40.5% from \$149.3 million for the three months ended June 30, 2004 to \$209.7 million for the three months ended June 30, 2005, primarily as a result of a 40.0% increase in our gross processing revenue from \$147.7 million for the three months ended June 30, 2004 to \$206.7 million for the three months ended June 30, 2005. Our processing volume for the three months ended June 30, 2005 increased 37.1% to \$8.5 billion, compared to \$6.2 billion for the three months ended June 30, 2004. These increases in gross processing revenue and processing volume were primarily attributable to a net increase in merchant accounts, with the number of merchant accounts growing by 28.5% from 79,000 as of June 30, 2004 to 101,500 as of June 30, 2005. The increase in new merchant accounts during this period was primarily the result of the growth in our sales force, combined with improved production from our existing sales force. The sales force grew by 14.2% from 789 at June 30, 2004 to 901 at June 30, 2005. Gross processing revenue also includes payroll processing fees, which increased by 25.0% from \$0.8 million for the three months ended June 30, 2004 to \$1.0 million for the three months ended June 30, 2005. Total net revenue also includes other revenue, net which increased by 84.7% from \$1.6 million for the three months ended June 30, 2004 to \$3.0 million for the three months ended June 30, 2005. The increase in other revenue was primarily due to increases in annual fees, and equipment related income.

*Costs of services.* Costs of services increased 39.3% from \$138.0 million for the three months ended June 30, 2004 to \$192.3 million for the three months ended June 30, 2005 due primarily to an increase in interchange fees, which resulted from higher processing volume. Cost of services represented 91.7% and 92.4% of total net revenue for the three months ended June 30, 2005 and 2004, respectively. Interchange fees represented 73.0% of total net revenue for the three months ended June 30, 2005 and 73.1% of total net revenue for the three months ended June 30, 2004. Dues and assessments increased 37.4% from \$5.7 million for the three months ended June 30, 2004 to \$7.9 million for the three months ended June 30, 2005 due to the increased processing volume. As a percentage of total net revenue, dues and assessments declined from 3.9% to 3.8% for the three months ended June 30, 2004 and 2005, respectively.

Processing and servicing expense increased by \$5.7 million, or 33.6%, in the three months ended June 30, 2005 compared to the three months ended June 30, 2004 and as a percentage of total net revenue declined from 11.3% for the three months ended June 30, 2004 to 10.7% for the three months ended June 30, 2005. The increase in processing and servicing expense was due primarily to costs associated with increased volume, a \$1.7 million increase in residual commission payments to our salespersons related to their portion of the growth in our gross margin, and the addition of 26 sales, risk and underwriting support personnel in the service center. Since our sales organization is 100% commission-based, increases in processing income directly impact commissions in cost of services. Processing and servicing as a percentage of total net revenue decreased primarily due to improved merchant pricing, leveraging the lower costs of our internally developed front-end processing system, HPS Exchange, and growth in our services center staff that was slower than our revenue growth. Over 65% of new merchants installed during the three months ended June 30, 2005 were installed on HPS Exchange, and we have completed some conversions from other front-end processors, so that HPS Exchange represented approximately 43% of our total processing volume for the three months ended June 30, 2005, up from 33% for the three months ended June 30, 2004. We expect the increasing share of HPS Exchange in our total merchant base to continue in the future. Included in processing and servicing expense was \$43,000 of payroll processing costs for the three months ended June 30, 2005, which increased 2.4% from \$42,000 for the three months ended June 30, 2004.

Customer acquisition costs increased 38.9% from \$5.3 million for the three months ended June 30, 2004 to \$7.4 million for the three months ended June 30, 2005. The amortization of signing bonuses increased from \$2.8 million for the three months ended June 30, 2004 to \$3.4 million for the three months ended June 30, 2005, while the accrued buyout cost amortization grew from \$1.8 million for the three months ended June 30, 2004 to \$2.5 million for the three months ended June 30, 2005. Increases in new merchant account generation activity, as reflected by signing bonus payments, which increased from \$5.4 million for the three months ended June 30, 2004 to \$5.7 million for the three months ended June 30, 2005, were responsible for increases in the amortization of both the accrued buyout costs and signing bonuses.

Depreciation and amortization expenses increased 33.5% from \$1.0 million for the three months ended June 30, 2004 to \$1.3 million for the three months ended June 30, 2005. The increase was primarily due to the purchase of information technology equipment to support the network and the development of HPS Exchange. Additionally, we capitalized salaries and fringe benefits and other expenses incurred by employees that worked on internally developed software projects. Amortization does not begin on the internally developed software until the project is complete and placed in service, at which time we begin to amortize the asset over three years. The capitalized amounts decreased from \$455,000 for the three months ended June 30, 2004 to \$410,000 for the three months ended June 30, 2005. The total amount of capitalized projects placed in service for the three months ended June 30, 2005 and 2004 was \$415,000 and \$43,000, respectively.

*Selling and administrative.* Selling and administrative expenses increased 25.1% from \$7.4 million for the three months ended June 30, 2004 to \$9.3 million for the three months ended June 30, 2005. The increase was primarily due to added costs necessary to continue building our corporate and marketing infrastructure to meet our sales initiatives.

Selling and administrative expenses as a percentage of total net revenue declined from 5.0% for the three months ended June 30, 2004 to 4.4% for the three months ended June 30, 2005, as revenue growth outpaced the increase in expenses. Our payroll operation s selling and administrative expenses increased by 14.3% from \$447,000 for the three months ended June 30, 2004 to \$511,000 for the three months ended June 30, 2005.

*Income from operations.* For the reasons described above, income from operations improved from \$3.9 million for the three months ended June 30, 2004 to \$8.1 million for the three months ended June 30, 2005.

*Interest income.* Interest income increased from \$42,000 to \$111,000 in the three months ended June 30, 2004 and 2005, respectively, due primarily to increased interest rates.

*Interest expense.* Interest expense increased from \$315,000 for the three months ended June 30, 2004 to \$538,000 for the three months ended June 30, 2005. Most of our interest expense arises from the fact that our sponsor bank advances interchange fees to most of our merchants, and we pay the sponsor bank prime rate on those balances. Those balances were higher for the three months ended June 30, 2005 due to increased processing volume. This was partially offset by a decrease in interest expense resulting from repayments of the principal of the financing arrangements as the outstanding balance declined from \$11.5 million as of June 30, 2004 to \$9.1 million as of June 30, 2005.

*Fair value adjustment for warrants with mandatory redemption provisions.* We recognized expense of \$0.2 million during the three months ended June 30, 2005 to adjust the warrants' value to \$11.00 per share, the estimated fair value. The adjustment for the three months ended June 30, 2004 was \$0.2 million.

*Other, net.* Other, net expense of \$28,000 was recorded for the three months ended June 30, 2005 as the result of disposals of fixed assets.

*Income Tax.* Income taxes for the three months ended June 30, 2005 were \$3.1 million using an effective tax rate of 41.2%. This represented a decrease from the 43.1% effective rate for the second quarter of 2004 which resulted in taxes of \$1.5 million.

*Net income.* As a result of the above factors, net income increased from \$1.9 million for the three months ended June 30, 2004 to \$4.4 million for the three months ended June 30, 2005.

Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

*Six Months Ended June 30, 2005 Compared to Six Months Ended June 30, 2004*

The following table shows certain income statement data as a percentage of revenue for the periods indicated (in thousands of dollars):

	Six Months Ended June 30, 2005	% of Total Net Revenue	Six Months Ended June 30, 2004	% of Total Net Revenue	Change Amount	%

Net income	\$ 7,075	1.9%	\$ 4,067	1.5%	\$ 3,008	74.0%

*Revenue.* Total net revenue increased 40.3% from \$270.5 million for the six months ended June 30, 2004 to \$379.6 million for the six months ended June 30, 2005, primarily as a result of a 39.7% increase in our gross processing revenue from \$266.9 million for the six months ended June 30, 2004 to \$372.9 million for the six months ended June 30, 2005. Our processing volume for the six months ended June 30, 2005 increased 36.3% to \$15.4 billion, compared to \$11.3 billion for the six months ended June 30, 2004. These increases in gross processing revenue and processing volume were primarily attributable to a net increase in merchant accounts, with the number of merchant accounts growing by 28.5% from 79,000 as of June 30, 2004 to 101,500 as of June 30, 2005. The increase in new merchant accounts during this period was primarily the result of the growth in our sales force, combined with improved production from our existing sales force. The sales force grew by 14.2% from 789 at June 30, 2004 to 901 at June 30, 2005. Gross processing revenue also includes payroll processing fees, which increased by 22.2% from \$1.8 million for the six months ended June 30, 2004 to \$2.2 million for the six months ended June 30, 2005. Total net revenue also includes other revenue, net which increased by 84.6% from \$3.6 million for the six months ended June 30, 2004 to \$6.7 million for the six months ended June 30, 2005. The increase in other revenue was primarily due to increases in annual fees, and equipment related income.

Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

*Costs of services.* Costs of services increased 39.8% from \$248.9 million for the six months ended June 30, 2004 to \$348.1 million for the six months ended June 30, 2005 due primarily to an increase in interchange fees, which resulted from higher processing volume. Cost of services represented 91.7% and 92.0% of total net revenue for the six months ended June 30, 2005 and 2004, respectively. Interchange fees

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

represented 72.6% of total net revenue for the six months ended June 30, 2005 and 72.3% of total net revenue for the six months ended June 30, 2004. Dues and assessments increased 35.9% from \$10.5 million for the six months ended June 30, 2004 to \$14.3 million for the six months ended June 30, 2005 due to the increased processing volume. As a percentage of total net revenue, dues and assessments declined from 3.9% to 3.8% for the six months ended June 30, 2004 and 2005, respectively.

Processing and servicing expense increased by \$10.7 million, or 34.0%, in the six months ended June 30, 2005 compared to the six months ended June 30, 2004 and as a percentage of total net revenue declined from 11.7% for the six months ended June 30, 2004 to 11.2% for the six months ended June 30, 2005. The increase in processing and servicing was due primarily to costs associated with increased volume, a \$3.4 million increase in residual commission payments to our salespersons related to their portion of the growth in our gross margin, and the addition of 82 sales, risk and underwriting support personnel in the service center. Since our sales organization is 100% commission-based, increases in processing income directly impact commissions in cost of services. Processing and servicing as a percentage of total net revenue decreased primarily due to improved merchant pricing, leveraging the lower costs of our internally developed front-end processing system, HPS Exchange, and growth in our services center staff that was slower than our revenue growth. Over 63% of new merchants installed during the six months ended June 30, 2005 were installed on HPS Exchange, and we have completed some conversions from other front-end processors, so that HPS Exchange represented approximately 42% of our total processing volume for the six months ended June 30, 2005, up from 31% for the six months ended June 30, 2004. We expect the increasing share of HPS Exchange in our total merchant base to continue in the future. Included in processing and servicing expense was \$94,000 of payroll processing costs for the six months ended June 30, 2005, which increased 20.5% from \$78,000 for the six months ended June 30, 2004.

Customer acquisition costs increased 39.9% from \$9.5 million for the six months ended June 30, 2004 to \$13.2 million for the six months ended June 30, 2005. The amortization of signing bonuses increased from \$5.4 million for the six months ended June 30, 2004 to \$6.7 million for the six months ended June 30, 2005, while the accrued buyout cost amortization grew from \$3.4 million for the six months ended June 30, 2004 to \$4.8 million for the six months ended June 30, 2005. Increases in new merchant account generation activity, as reflected by signing bonus payments, which increased from \$9.5 million for the six months ended June 30, 2004 to \$9.7 million for the six months ended June 30, 2005, were responsible for increases in the amortization of both the accrued buyout costs and signing bonuses.

Depreciation and amortization expenses increased 39.6% from \$1.9 million for the six months ended June 30, 2004 to \$2.6 million for the six months ended June 30, 2005. The increase was primarily due to the purchase of information technology equipment to support the network and the development of HPS Exchange. Additionally, we capitalized salaries and fringe benefits and other expenses incurred by employees that worked on internally developed software projects. Amortization does not begin on the internally developed software until the project is complete and placed in service, at which time we begin to amortize the asset over three years. The capitalized amounts increased from \$680,000 for the six months ended June 30, 2004 to \$844,000 for the six months ended June 30, 2005. The total amount of capitalized projects placed in service for the six months ended June 30, 2005 and 2004 was \$477,000 and \$43,000, respectively.

*Selling and administrative.* Selling and administrative expenses increased 24.7% from \$14.7 million for the six months ended June 30, 2004 to \$18.3 million for the six months ended June 30, 2005. The increase was primarily due to added costs necessary to continue building our corporate and marketing infrastructure to meet our sales initiatives. Selling and administrative expenses as a percentage of total net revenue declined from 5.4% for the six months ended June 30, 2004 to 4.8% for the six months ended June 30, 2005, as revenue growth outpaced the increase in expenses. Our payroll operation's selling and administrative expenses increased by 7.8% from \$896,000 for the six months ended June 30, 2004 to \$966,000 for the six months ended June 30, 2005.

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

*Income from operations.* For the reasons described above, income from operations improved from \$6.9 million for the six months ended June 30, 2004 to \$13.2 million for the six months ended June 30, 2005.

*Interest income.* Interest income increased from \$80,000 to \$183,000 in the six months ended June 30, 2004 and 2005, respectively, due primarily to increased interest rates.

*Interest expense.* Interest expense increased from \$613,000 for the six months ended June 30, 2004 to \$973,000 for the six months ended June 30, 2005. Most of our interest expense arises from the fact that our sponsor bank advances interchange fees to most of our merchants, and we pay the sponsor bank prime rate on those balances. Those balances were higher for the six months ended June 30, 2005 due to increased processing volume. This was partially offset by a decrease in interest expense resulting from repayments of the principal of the financing arrangements as the outstanding balance declined from \$11.5 million as of June 30, 2004 to \$9.1 million as of June 30, 2005.

*Fair value adjustment for warrants with mandatory redemption provisions.* We recognized expense of \$0.3 million during the six months ended June 30, 2005 to adjust the warrants' value to \$11.00 per share, the estimated fair value. The adjustment for the six months ended June 30, 2004 was \$0.2 million.

*Other, net.* Other, net decreased from income of \$0.8 million for the six months ended June 30, 2004 to income of \$7,000 for the six months ended June 30, 2005. This decrease was attributable to proceeds from a legal settlement received during the six months ended June 30, 2004.

*Income Tax.* Income taxes for the six months ended June 30, 2005 were \$5.1 million using an effective tax rate of 41.7%. This represented an increase from the 41.9% effective rate for the six months ended June 30, 2004 which resulted in taxes of \$2.9 million.

*Net income.* As a result of the above factors, net income increased from \$4.1 million for the six months ended June 30, 2004 to \$7.1 million for the six months ended June 30, 2005.

### **Balance Sheet Information**

Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

Balance Sheet Data	June 30, 2005	December 31, 2004
	(in thousands)	
Cash and cash equivalents	\$ 14,393	\$ 13,237
Receivables	75,091	64,325
Capitalized customer acquisition costs, net	38,419	34,247
Property and equipment, net	14,052	10,944
Total assets	154,833	133,926
Due to sponsor bank	54,041	45,153
Accounts payable	27,584	27,103
Total liabilities	141,555	127,827
Total stockholders' equity	13,278	6,099

*June 30, 2005 Compared to December 31, 2004*

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

Total assets increased \$20.9 million, or 15.6%, to \$154.8 million at June 30, 2005 from \$133.9 million at December 31, 2004 primarily due to increases in receivables, capitalized customer acquisition costs, and property and equipment, net. Cash and cash equivalents also increased by \$1.2 million or 8.7%.

Receivables, which primarily result from our practice of advancing interchange fees to most of our merchants during the processing month and collecting those fees from our merchants at the beginning of the following month, increased \$10.8 million, or 16.7%, to \$75.1 million at June 30, 2005 from \$64.3

million at December 31, 2004 primarily due to the increase in processing volume. Because our sponsor bank advances these interchange fees, our payable to our sponsor bank also increased. The payable to the sponsor bank is repaid at the beginning of the following month out of the fees we collect from our merchants. Capitalized customer acquisition costs increased \$4.2 million, or 12.2%, from December 31, 2004 as a result of increases in the number of merchants we service and processing volume. Property and equipment increased due to continued building of our technology infrastructure, primarily for hardware and software needed for the expansion of HPS Exchange and our own back-end processing system.

## Liquidity and Capital Resources

**General.** Liquidity and capital resource management is a process focused on providing the funding to meet our short and long-term cash and working capital needs. We have used our funding sources to build our merchant portfolio and our servicing technology platforms with the expectation that these investments will generate cash flows sufficient to cover our working capital needs and other anticipated needs for capital.

Our cash requirements include funding payments to salespersons for signing bonuses, residual commissions and accrued residual buyouts, paying interest expense and other operating expenses, including taxes. At times, we have used cash to repurchase our common stock and could in the future use cash for unspecified acquisitions of related businesses or assets (although no acquisitions are currently contemplated).

Cash flow from our operating activities and our lines of credit fund our cash needs. We believe that our current cash and investment balances, cash generated from operations and existing lines of credit (although we are in the process of reassessing our credit facilities) will provide sufficient liquidity to meet our anticipated needs for capital for at least the next twelve months. While our working capital, defined as current assets less current liabilities, was negative at June 30, 2005 and December 31, 2004, we historically have generated sufficient cash flow from our operating activities and we expect to continue to do so. Each funding source is described in more detail below.

**Cash Flow Provided by Operating Activities.** At June 30, 2005, we had cash and cash equivalents totaling \$14.4 million and at December 31, 2004, we had cash and cash equivalents totaling \$13.2 million. Net cash provided by operating activities was \$8.2 million for the six months ended June 30, 2005, compared to \$8.6 million for the six months ended June 30, 2004. Key sources of operating cash flows in all periods were net income as adjusted for changes in deferred taxes, plus depreciation and amortization. Contained within changes in operating assets and liabilities are the increase in receivables, which is essentially offset by changes in due to sponsor bank and accounts payable. This is because the largest receivable is from our merchants, the majority of which is associated with the interchange that we cause our sponsor bank, Key Bank, to advance to our merchants, which represents our largest payable. These amounts tend to rise and fall together, depending on our processing activity in the final month of the reporting period. The other major determinants of operating cash flow are increases in capitalized customer acquisition costs, which consume increasing amounts of operating cash as our new merchant installation activity rises, and payouts on the accrued buyout liability, which represent the costs of buying out residual commissions owned by our salespersons. Included in the amount of cash consumed by increases in capitalized customer acquisition costs are signing bonus payments of \$9.7 million and \$9.5 million, respectively, in the six months ended June 30, 2005 and 2004. In the six months ended June 30, 2005 and 2004, we reduced the accrued buyout liability by making buyout payments of \$5.0 million and \$2.1 million, respectively.

**Cash Flow Used in Investing Activities.** Net cash used in investing activities was \$6.0 million for the six months ended June 30, 2005, compared to \$5.9 million for the six months ended June 30, 2004. During each period, most of the cash used in investing activities was used to fund capital expenditures. Total capital expenditures for the six months ended June 30, 2005 were \$5.7 million, a decrease of \$0.3 million from the \$6.0 million invested in the six months ended June 30, 2004. These expenditures were primarily related to continued building of our technology infrastructure, primarily for hardware and software needed for the expansion of HPS Exchange and our own back-end processing

system. We anticipate that these expenditures may increase as we further develop our technology. In addition, we have

invested a portion of the cash balances held at our subsidiary, Heartland Payroll Company, in securities that are classified on our balance sheet as investments. We invest in federal, federal agency and corporate debt obligations with maturities of up to four years and no less than a Baa rating.

**Cash Flow Used in Financing Activities.** Net cash used in financing activities was \$1.1 million for the six months ended June 30, 2005, compared to \$1.7 million for the six months ended June 30, 2004. During the six months ended June 30, 2005 and 2004, we paid down financing arrangements and borrowings in the amounts of \$1.2 million and \$1.6 million, respectively, including in January 2004 we made the final payment of \$250,000 on a note issued in a 2002 acquisition. On January 8, 2004, a warrant holder elected to exercise their put, and we redeemed half of the holder's warrants, or 168,906 shares, at the deemed fair value of \$6.25 per share. The exercise price of the warrants was \$.005 per warrant and net consideration paid by us was \$1.1 million. The remaining warrants to purchase 168,904 shares of our common stock expire on July 25, 2006, and the holder can exercise their fair value put at any time. During the six months ended June 30, 2004, several employees exercised their employee stock options generating cash in the aggregate amount of \$1.0 million.

**Credit Facilities.** On August 28, 2002, we signed a loan and security agreement with KeyBank National Association for two loan instruments, which was amended on November 6, 2003, June 23, 2004, and May 26, 2005. The agreement was amended twice to reflect changes we have made in our accounting policies. The loan and security agreement contains covenants requiring an operating cash flow to total fixed charges ratio of not less than 1.2 to 1, and a measure of total funded debt to EBITDA of less than 2 to 1. The first instrument is a revolver advance facility, which is to be used solely to fund the buyouts of future residual commissions from former Relationship Managers or Independent Sales Organizations. We may draw down on the revolver up to an aggregate unpaid principal amount of \$3.5 million. As of June 30, 2005, \$2.1 million was outstanding under the revolver. The entire principal balance plus all accrued interest and fees are due on August 31, 2005 or on demand if we are in default. The second instrument is a purpose and ability line of credit totaling \$3.0 million, which is payable on demand. As of June 30, 2005, we had \$0.8 million of outstanding indebtedness under this line of credit. Borrowings under the two lines of credit bear interest at the prime rate, which was 6.0% at June 30, 2005 and are secured by a lien on our assets. They contain customary covenants, including the provision of financial reports, maintenance of insurance, payment of taxes and provision of notice of any default, and events of default, including failure to pay principal or interest, cross-default, and insolvency covenants. We are currently in compliance with all covenants, and have been since the instruments were established.

On May 26, 2005, we entered into an amendment to our loan and security agreement with KeyBank National Association, which extended the scheduled maturity date from May 31, 2005 to August 31, 2005. We are in the process of reassessing our credit facilities.

**Contractual Obligations.** The Visa and MasterCard associations generally allow chargebacks up to four months after the later of the date the transaction is processed or the delivery of the product or service to the cardholder. As the majority of our transactions involve the delivery of the product or service at the time of the transaction, a good estimate of our exposure to chargebacks is the last four months' processing volume on our portfolio, which was \$11.0 billion and \$9.0 billion for the four months ended June 30, 2005 and December 31, 2004, respectively. However, for the four months ended June 30, 2005 and December 31, 2004, we were presented with \$5.5 million and \$5.6 million, respectively, of chargebacks by issuing banks. In the six months ended June 30, 2005 and 2004, we incurred merchant credit losses of \$617,000 and \$572,000, respectively, on total dollar volume processed of \$15.4 billion and \$11.3 billion, respectively. These credit losses are included in processing and servicing expense in our consolidated statements of operations.

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

The following table reflects our significant contractual obligations as of June 30, 2005:

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 year	1 to 3 years (in thousands)	3 to 5 years	More than 5 years
Processing providers	\$ 9,482	\$ 5,677	\$ 2,635	\$ 1,170	\$
Financing arrangement (expected payments, including interest)	10,903	2,663	4,309	2,939	992
Telecommunications providers	6,068	2,610	3,458		
Office and equipment leases	6,384	1,575	2,812	1,237	760
Revolver advance	2,069	2,069			
Line of credit	784	784			
	\$ 35,690	\$ 15,378	\$ 13,214	\$ 5,346	\$ 1,752

In addition, we record a payable to KeyBank each month in conjunction with our monthly processing activities. This amount was \$54.0 million as of June 30, 2005. This amount is repaid on the first business day of the following month out of the fees collected from our merchants.

### Legal and Regulatory Considerations

In the ordinary course of our business, we are party to various legal actions, which we believe are incidental to the operation of our business. We believe that the outcome of the proceedings to which we are currently a party will not have a material adverse effect on our financial position, results of operations or cash flows.

### Quantitative and Qualitative Disclosures About Market Risk

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

Our primary market risk exposure is to changes in interest rates. During each month, KeyBank advances interchange fees to most of our merchants so that during the month we build up a significant payable to KeyBank, bearing interest at the prime rate. At June 30, 2005, our payable to KeyBank was approximately \$54.0 million. This advance is repaid on the first business day of the following month out of fee collections from our merchants. During the quarter ended June 30, 2005 the average daily balance of that loan was approximately \$25.5 million and was directly related to our processing volume. We also had outstanding \$2.9 million in other loans at June 30, 2005, which also bear interest at the prime rate. A hypothetical 100 basis point change in short-term interest rates would result in a change of approximately \$283,000 in annual pre-tax income.

While the bulk of our cash and cash-equivalents are held in checking accounts or money market funds, we do hold certain fixed-income investments with maturities of up to three years. At June 30, 2005, a hypothetical 100 basis point increase in short-term interest rates would result in an increase of approximately \$26,000 in annual pre-tax income from money market fund holdings, but a decrease in the value of fixed-rate investments of approximately \$26,000. A hypothetical 100 basis point decrease in short-term interest rates would result in a decrease of approximately \$26,000 in annual pre-tax income from money market funds, but an increase in the value of fixed-rate instruments of approximately \$26,000.

We do not hold or engage in the trading of derivative financial, commodity or foreign exchange instruments. All of our business is conducted in U.S. dollars.

### **Office Facilities**

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

Our principal executive offices are located in approximately 5,000 square feet of leased office space on Hulfish Street in Princeton, New Jersey. This lease expires on September 30, 2007. We also lease approximately 10,000 square feet of office space in Cleveland, Ohio under a lease that expires on June 30, 2009, 6,994 square feet in Scottsdale, Arizona under a lease that expires on October 31, 2006, 50,000 square feet in Jeffersonville, Indiana under a lease that expires on April 30, 2009, and 14,037 square feet in

Frisco, Texas under a lease that expires on October 31, 2008. In September 2004, we leased approximately 9,300 square feet of office space on Nassau Street in Princeton under a lease that expires in 2013. We believe that these facilities are adequate for our current operations and, if necessary, can be replaced with little disruption to our company. Each of these leases, other than the original Princeton lease (Hulfish Street) and the Frisco lease, is renewable.

### Recent Accounting Pronouncements

On December 16, 2004, the Financial Accounting Standards Board ( FASB ) issued SFAS No. 153, Exchanges of Nonmonetary Assets, an amendment of APB Opinion No. 29. SFAS No. 153 addresses the measurement of exchanges of nonmonetary assets and redefines the scope of transactions that should be measured based on the fair value of the assets exchanged. SFAS No. 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. We do not believe adoption of Statement 153 will have a material effect on our consolidated financial position, results of operations or cash flows.

In December 2004, the FASB issued SFAS No. 123 (revised 2004), *Share-Based Payment* ( SFAS No. 123 revised ). This statement revises SFAS No. 123, *Accounting for Stock-Based Compensation*, and supersedes Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related implementation guidance. The most significant change resulting from this statement is the requirement for public companies to expense employee share-based payments under fair value as originally introduced in SFAS No. 123. SFAS No. 123 revised is effective, as amended on April 21, 2005 by the Securities and Exchange Commission, beginning with the first interim or annual reporting period of the registrant's first fiscal year beginning on or after June 15, 2005. We will adopt this statement when effective, and continue to assess its impact.

In July 2005, the FASB issued an exposure draft of a proposed Interpretation, *Accounting for Uncertain Tax Positions an Interpretation of FASB Statement No. 109 (the Interpretation)*. This proposed Interpretation would clarify the accounting for uncertain tax positions in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. An enterprise would be required to recognize, in its financial statements, the best estimate of the impact of a tax position, if that tax position is probable of being sustained if audited by a tax authority based solely on the technical merits of the position. Individual tax positions that fail to meet the Interpretation's recognition threshold would result in either (a) a reduction in the deferred tax asset or an increase in a deferred tax liability or (b) an increase in a liability for income taxes payable or the reduction of an income tax refund receivable. The proposed Interpretation would be effective as of the end of the first annual period ending on or after December 15, 2005. We do not believe the adoption of this proposed Interpretation will have a material effect on our consolidated financial position, results of operations or cash flows.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

See Management's Discussion and Analysis of Financial Condition and Results of Operations Quantitative and Qualitative Disclosures About Market Risk.

**Item 4. Controls and Procedures**

**Evaluation of Disclosure Controls and Procedures**

Under the supervision and with the participation of the Company's management, including its Chief Executive Officer ( CEO ) and Chief Financial Officer ( CFO ), the Company evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act )). Based upon that evaluation, the CEO and CFO concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures have been designed and are being operated in a manner that provides reasonable assurance that the information required to be disclosed by the Company in reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based, in part, upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there is only reasonable assurance that the Company's controls will succeed in achieving their goals under all potential future conditions.

**Changes in Internal Controls**

During the period covered by this report, there has been no change in the Company's internal control over financial reporting (as defined in Rule 13 a-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings**

In the normal course of our business, we are involved in lawsuits, claims, audits and investigations, including any arising out of services or products provided by or to our operations, personal injury claims and employment disputes, the outcome of which, in the opinion of management, will not have a material adverse effect on our financial position, cash flows or results of operations.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

(a)

The following is a summary of our sales of our securities during the past quarter ended June 30, 2005 involving sales of our securities that were not registered under the Securities Act of 1933, as amended:

## Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

As of June 30, 2005, we have granted stock options to purchase 9,354,276 shares of our common stock, with exercise prices ranging from \$3.00 to \$11.00 per share, to current and former officers, directors and employees. The option grants were exempt from registration pursuant to Rule 701 promulgated under the Securities Act.

With respect to each transaction listed above, no general solicitation was made by either the Registrant or any person acting on its behalf; the securities sold are subject to transfer restrictions, and the certificates for the shares contained an appropriate legend stating such securities have not been registered under the Securities Act and may not be offered or sold absent registration or pursuant to an exemption therefrom. No underwriters were involved in connection with the sales of securities referred to in this Item (a).

(b) Not applicable

(c) On August 10, 2005, our Registration Statement on Form S-1 (Registration No. 333-118073), which registered shares of our common stock, \$0.001 par value, under the Securities Act of 1933, as amended, was declared effective by the Securities and Exchange Commission. The managing underwriters were Citigroup Global Markets Inc., Credit Suisse First Boston LLC, Robert W. Baird & Co. Incorporated, William Blair & Company, LLC, KeyBanc Capital Markets, a Division of McDonalds Investments Inc. and SunTrust Capital Markets, Inc. All 6,750,000 shares of our common stock, 2,622,046 of which will be sold by us and 4,127,954 of which will be sold by certain selling stockholders, are being sold at a price to the public of \$18.00 per share. We and the selling stockholders also had granted the underwriters of our initial public offering a 30-day option to purchase up to 136,500 additional shares from us and 876,000 additional shares from the selling stockholders to cover over-allotments. On August 15, 2005, the underwriters notified the Company of their intention to exercise this option.

The aggregate gross proceeds from the sale of common stock sold by us will be approximately \$47.2 million. The estimated aggregate net proceeds to us from the sale of common stock in this initial public offering will be approximately \$39.4 million, or \$41.7 million if the underwriters exercise their over-allotment option in full, after deducting an aggregate of \$3.3 million in underwriting discounts and commissions and an estimated \$4.5 million in other expenses incurred by us in connection with the offering. We will not receive any of the proceeds from the sale of shares by the selling stockholders.

We intend to use our net proceeds from our initial public offering to repay outstanding indebtedness to KeyBank National Association, which totaled \$2.9 million at June 30, 2005 and to use the remainder for general corporate purposes, including to fund working capital and potential acquisitions. However, we currently do not have a specific plan relating to the expenditure of our remaining proceeds from this offering. Pending the use of such net proceeds, we intend to invest these funds in investment-grade, short-term interest bearing securities. None of the proceeds from the offering will be paid, directly or indirectly, to any of our officers or directors or any of their associates, or to any persons owning ten percent or more of our outstanding common stock or to any of our affiliates.

### Item 3. Defaults Upon Senior Securities

Not applicable.

**Item 4. Submission of Matters to a Vote of Security Holders**

Not applicable.

**Item 5. Other Information**

None

**Item 6. Exhibits**

Exhibit Number	Description
3.1	Amended and Restated Certificate of Incorporation of Heartland Payment Systems, Inc. (Incorporated by reference to Exhibit 3.3 in the Registrant's Registration Statement on Form S-1, as amended (333-118073)).
3.2	Amended and Restated By-Laws of Heartland Payment Systems, Inc. (Incorporated by reference to Exhibit 3.4 in the Registrant's Registration Statement on Form S-1, as amended (333-118073)).
10.27	Third Amendment to the Revolver Advance and Purpose and Ability Line of Credit Loan Agreement dated May 26, 2005 between Heartland Payment Systems, Inc. and KeyBank National Association (Incorporated by reference to Exhibit 10.27 in the Registrant's Registration Statement on Form S-1, as amended (333-118073)).
10.28	Heartland Payment Systems, Inc. Second Amended and Restated 2000 Equity Incentive Plan (Incorporated by reference to Exhibit 10.28 in the Registrant's Registration Statement on Form S-1, as amended (333-118073)).
31.1	Certification of the Chief Executive Officer pursuant to Rule 13a-14(a)/15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
31.2	Certification of the Chief Financial Officer pursuant to Rule 13a-14(a)/15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
32.1	Certification of the Chief Executive Officer, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
32.2	Certification of the Chief Financial Officer, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

**Reports on Form 8-K** none
