FOR IMMEDIATE RELEASE

PRB GAS TRANSPORTATION SIGNS DEFINITIVE AGREEMENT

TO PURCHASE PRODUCING WELLS AND 29,500 ACRES

IN WYOMING'S POWDER RIVER BASIN

Denver, Colorado May 19, 2006 PRB Gas Transportation, Inc. (PRB or the Company) (AMEX:PRB) today announced that it has signed a definitive agreement to purchase approximately 600 coal-bed methane wells producing approximately 3,000,000 cubic feet per day on 29,500 acres in Wyoming's Powder River Basin. PRB is currently the gas gatherer for the majority of this production. Additionally, the 29,500 acres are adjacent to PRB's pilot program to the Moyer coal seam in the Gap field of Wyoming's Powder River Basin. The acreage covers the fields of Gap, Bonepile and Bell Knob south of Gillette, Wyoming.

Robert W. Wright, PRB's Chairman and CEO, noted, "This transaction represents an excellent addition to our business portfolio. He went on to say, "Our analysis points to a great deal of upside potential from this transaction. Once our Moyer pilot produces gas, PRB plans to develop the Moyer coal on the acreage. In terms of location, current production and the opportunity to increase production, this acquisition meets our objectives of seeking out complementary and accretive business opportunities which expand our production and drilling activities where we have gas gathering assets. This acquisition will add significantly to our future development potential."

Edgar Filing: PRB Gas Transportation, Inc. - Form 8-K

The identity of the seller and PRB's purchase price were not disclosed. Under the terms of the agreement, closing should take place on or before June 30, 2006, unless PRB's final due diligence uncovers title or environmental issues which would allow it to withdraw from the agreement.

PRB is an oil and gas exploration and development company operating in the Rocky Mountain states. In addition, PRB also provides gas gathering, processing and compression services on properties it operates and for third party producers.
