Commission File No. **001-31332**

LIQUIDMETAL TECHNOLOGIES, INC.

(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

33-0264467
(I.R.S. Employer
Identification No.)

25800 Commercentre Drive, Suite 100

Lake Forest, California 92630

(address of principal executive office, zip code)

Registrant's telephone number, including area code: **(949) 206-8000**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for at least the past 90 days.

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

As of December 31, 2004, there were 41,609,652 shares of the registrant's common stock, \$.001 par value, outstanding.

As of December 31, 2004, there were 41,609,652 shares of the registrant's common stock, \$.001 par value, outstanding.

**LIQUIDMETAL TECHNOLOGIES, INC.
AMENDMENT NO. 1 TO FORM 10-Q
FOR THE QUARTER ENDED SEPTEMBER 30, 2004**

EXPLANATORY NOTE

We are filing this Amendment No. 1 to our Quarterly Report on Form 10-Q for the quarter ended September 30, 2004, as filed with the U.S. Securities and Exchange Commission (SEC) on January 13, 2005, to restate our financial statements to properly account for the conversion feature of the senior convertible notes issued in March 2004 (see Note 7 to the condensed consolidated financial statements). Additionally, reclassifications to our financial statements have been made for consistent presentation of our warrant liabilities, settlement payable, and change in value of warrant liabilities. This amendment does not reflect events occurring after the filing of the originally filed Form 10-Q.

LIQUIDMETAL TECHNOLOGIES, INC.

**FORM 10-Q/A Amendment No. 1
FOR THE QUARTER ENDED SEPTEMBER 30, 2004**

FORWARD-LOOKING INFORMATION

Statements in this report concerning the future sales, expenses, profitability, financial resources, product mix, market demand, product development and other statements in this report concerning the future results of operations, financial condition and business of Liquidmetal Technologies, Inc. are forward-looking statements as defined in the Securities Act of 1933 and Securities Exchange Act of 1934. Investors are cautioned that the Company's actual results in the future may differ materially from those projected in the forward-looking statements due to risks and uncertainties that exist in the Company's operations and business environment, including competition, need for increased acceptance of products, ability to continue to develop and extend our brand identity, ability to anticipate and adapt to a competitive market, ability to effectively manage rapidly expanding operations, amount and timing of operating costs and capital expenditures relating to expansion of our business, operations and infrastructure, ability to provide superior customer service, dependence upon key personnel and the like. The Company's most recent filings with the Securities and Exchange Commission, including Form 10-K, contain additional information concerning many of these risk factors, and copies of these filings are available from the Company upon request and without charge.

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

During the nine months ended September 30, 2004, the Company sold its 51% ownership interest in Dongyang to the 49% minority shareholder, which resulted in a loss of \$46 from disposal of discontinued operations.

During the nine months ended September 30, 2004, the Company sold assets and liability of its Taesung equipment manufacturing division in Korea to a third party which resulted in a loss of approximately \$184.

During the nine months ended September 30, 2004, the change in the foreign exchange between the U.S. Dollar and the South Korean Won resulted in a \$574 gain related to property, plant and equipment, net and loss of \$133 from notes payable.

During the nine months ended September 30, 2004, the Company completed a private exchange offer for its Senior debt. Under terms of the exchange offer, approximately \$5.5 million in aggregate principal amount of the notes have been exchanged for an aggregate of (i) \$2.75 million of 6% Senior Secured Notes Due 2007 (the Long-Term Notes) and (ii) \$2.75 million of 10% Senior Secured Notes Due 2005 (the Short-Term Notes), collectively referred to as Exchange Notes (see Note 7).

During the nine months ended September 30, 2003, the change in the foreign exchange between the U.S. Dollar and the South Korean Won resulted in a \$166 loss related to the note payable, a \$1,249 gain related to property, plant and equipment and a \$6 loss related to minority interest in consolidated subsidiary.

During the nine months ended September 30, 2003, an option holder surrendered 93,758 shares of the Company's common stock in-lieu of cash payment for the option exercise price of \$250 and income taxes payable by the option holder of \$403. The Company immediately canceled the common shares received in lieu of cash payment upon receipt of the shares.

The accompanying notes are an integral part of the condensed consolidated financial statements.

LIQUIDMETAL TECHNOLOGIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Nine Months Ended September 30, 2004 and 2003

(in thousands, except share data)

(unaudited)

1. Basis of Presentation and Recent Accounting Pronouncements

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (generally accepted accounting principles) for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. In addition, certain reclassifications have been made for consistent presentation. Operating results for the nine months ended September 30, 2004 are not necessarily indicative of the results that may be expected for any future periods or the year ending December 31, 2004. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the Company s Form 10-K filed with the Securities and Exchange Commission on November 10, 2004.

Liquidmetal Technologies, Inc. (Liquidmetal Technologies) and its subsidiaries (collectively the Company) are in the business of developing, manufacturing, and marketing products made from amorphous alloys. Liquidmetal Technologies markets and sells Liquidmetal® alloy industrial coatings and also manufactures, markets and sells products and components from bulk Liquidmetal alloys that can be incorporated into the finished goods of its customers across a variety of industries. The Company also partners with third-party licensees and distributors to develop and commercialize Liquidmetal alloy products.

The Company classifies operations into two reportable segments: Liquidmetal alloy industrial coatings and bulk Liquidmetal alloys. Liquidmetal alloy industrial coatings are used primarily as a protective coating for industrial machinery and equipment, such as drill pipe used by the oil drilling industry and boiler tubes used by coal-burning power plants. Bulk Liquidmetal alloys include potential market opportunities to manufacture and sell products and components for electronic devices, medical devices, defense applications, and sporting goods. In addition, the bulk Liquidmetal alloys segment includes tooling and prototype sampling, and the manufacture and sale of die casting equipment (see Note 5 for disclosure regarding the disposal of this segment). In addition, such alloys are used to generate research and development services revenue for developing uses related primarily to defense and medical applications as well as potential license fees, royalties, and other compensation from strategic partnering transactions.

On August 4, 2004, the Company established a sub-assembly plant in the city of Weihai in Shandong province of China under Weihai Liquidmetal Company Limited, which is 100 percent owned by Liquidmetal Korea, to facilitate our bulk alloy manufacturing business. Weihai Liquidmetal is consolidated into Liquidmetal Technologies with all intercompany transactions eliminated.

Stock-based compensation

The Company applies Accounting Principles Board (APB) Opinion No. 25 for options when the exercise price of options granted to employees is less than the fair value of the underlying stock on the date of grant. The Company applies Statement of Financial Accounting Standards (SFAS) No. 123 for options granted to non-employees who perform services for the Company.

Had the Company determined stock-based compensation cost based on the fair value at the grant date for stock options consistent with the method of SFAS No. 123, the Company's loss from continuing operations and basic and diluted loss per share from continuing operations would have been as follows:

	For the Three Months Ended Sept. 30,		For the Nine Months Ended Sept. 30,	
	2004 (Restated)	2003 (Restated)	2004 (Restated)	2003 (Restated)
Net loss from continuing operations as reported	\$ (11,263)	\$ (5,986)	\$ (8,970)	\$ (19,233)
<i>Add:</i>				
stock-based employee compensation expense included in reported net loss, net of related tax effects		5	276	188
<i>Deduct:</i>				
total stock-based employee compensation expense determined under the fair value based method for all awards, net of related tax effects	(910)	(990)	(3,720)	(4,344)
Proforma net loss from continuing operations	\$ (12,173)	\$ (6,971)	\$ (12,414)	\$ (23,389)
Basic and diluted loss per share:				
As reported	\$ (0.27)	\$ (0.14)	\$ (0.21)	\$ (0.46)
Proforma	(0.29)	(0.17)	(0.30)	(0.56)

2. Restatement

The Company has restated certain quarterly financial statements previously reported and related disclosures to correct our premature recognition of revenues from one transaction with a single customer that we originally recorded in March 2003. We have also restated our financial statements for the fiscal year ended December 31, 2002 and related disclosures in our annual report on Form 10-K to correct two similar premature revenue recognition events with the same customer that were originally recorded in September and December 2002. Upon analysis of the transaction terms and certain related agreements undertaken by the Company to resolve a dispute with the customer, we concluded that the transactions were contingent upon continued performance by a subsidiary of the Company, which would have precluded revenue recognition until the contingency ended. Under the terms of a Settlement Agreement reached with the customer on January 10, 2004, the Company reacquired the equipment associated with the two fiscal 2002 transactions and recognized the revenue associated with the March 2003 transaction in January 2004. The restatement of our December 31, 2002 financial statements resulted in a \$1.9 million reduction of revenue and a \$1.0 million increase in net loss. The restatement of our 2003 financial statements did not have any impact for the quarter ended September 30, 2003. The effect of the restatement during the nine months ended September 30, 2003 is a decrease in revenues by \$3.0 million and an increase in net loss by \$1.4 million.

The Company has also restated certain previously issued financial statements due to an error related to the Company's accounting for embedded convertible feature of senior convertible notes issued in March 2004, which was exchanged in August 2004, in accordance with Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, (SFAS 133). For further discussions on the impact of this restatement, please refer to Note 7.

3. Basis of Presentation and Recent Accounting Pronouncements

Translation of Foreign Currency

Upon consolidation of the Company's foreign subsidiaries into the Company's consolidated financial statements, any balances

with the subsidiaries denominated in the foreign currency are translated at the exchange rate at period end. The financial statements of Liquidmetal Korea have been translated based upon Korean Won as the functional currency. Liquidmetal Korea's assets and liabilities were translated using the exchange rate at period end and income and expense items were translated at the average exchange rate for the reporting period. The resulting translation adjustment was included in other comprehensive income (loss).

New Accounting Pronouncements

In October 2004, the Emerging Issues Task Force of the Financial Accounting Standards Board issued its consensus opinion on EITF Issue No. 04-8, The Effect of Contingently Convertible Debt on Diluted Earnings Per Share (EITF No. 04-8). The Task Force reached a consensus that contingently convertible debt instruments with embedded conversion features that are contingent upon market price triggers should be included in diluted earnings per share computations, if dilutive, regardless of whether the contingency has been met. The Company currently does not have any contingently convertible debt under the scope of EITF Issue No. 04-8.

In November 2004, the FASB issued SFAS No. 151 Inventory Costs, an amendment of ARB No. 43, Chapter 4. The amendments made by Statement 151 clarify that abnormal amounts of idle facility expense, freight, handling costs, and wasted materials (spoilage) should be recognized as current-period charges and require the allocation of fixed production overheads to inventory based on the normal capacity of the production facilities. The guidance is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. Earlier application is permitted for inventory costs incurred during fiscal years beginning after November 23, 2004. The Company has evaluated the impact of the adoption of SFAS 151, and does not believe the impact will be significant to the Company's overall results of operations or financial position.

In December 2004, the FASB issued SFAS No. 153, Exchanges of Nonmonetary Assets, an amendment of APB Opinion No. 29, Accounting for Nonmonetary Transactions. The amendments made by Statement 153 are based on the principle that exchanges of nonmonetary assets should be measured based on the fair value of the assets exchanged. Further, the amendments eliminate the narrow exception for nonmonetary exchanges of similar productive assets and replace it with a broader exception for exchanges of nonmonetary assets that do not have commercial substance. Previously, Opinion 29 required that the accounting for an exchange of a productive asset for a similar productive asset or an equivalent interest in the same or similar productive asset should be based on the recorded amount of the asset relinquished. Opinion 29 provided an exception to its basic measurement principle (fair value) for exchanges of similar productive assets. The Board believes that exception required that some nonmonetary exchanges, although commercially substantive, be recorded on a carryover basis. By focusing the exception on exchanges that lack commercial substance, the Board believes this Statement produces financial reporting that more faithfully represents the economics of the transactions. The Statement is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. Earlier application is permitted for nonmonetary asset exchanges occurring in fiscal periods beginning after the date of issuance. The provisions of this Statement shall be applied prospectively. The Company has evaluated the impact of the adoption of SFAS 153, and does not believe the impact will be significant to the Company's overall results of operations or financial position.

In December 2004, the FASB issued SFAS No. 123 (revised 2004), Share-Based Payment. Statement 123(R) will provide investors and other users of financial statements with more complete and neutral financial information by requiring that the compensation cost relating to share-based payment transactions be recognized in financial statements. That cost will be measured based on the fair value of the equity or liability instruments issued. Statement 123(R) covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. Statement 123(R) replaces FASB Statement No. 123, Accounting for Stock-Based Compensation, and supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees. Statement 123, as originally issued in 1995, established as preferable a fair-value-based method of accounting for share-based payment transactions with employees. However, that Statement permitted entities the option of continuing to apply the guidance in Opinion 25, as long as the footnotes to financial statements disclosed what net income would have been had the preferable

fair-value-based method been used. Public entities (other than those filing as small business issuers) will be required to apply Statement 123(R) as of the first interim or annual reporting period that begins after June 15, 2005. The Company has evaluated the impact of the adoption of SFAS 123(R), and does not believe the impact will be significant to the Company's overall results of operations or financial position.

4. Liquidity

The Company has experienced losses from continuing operations during the last two fiscal years and has an accumulated deficit of \$122,306 as of September 30, 2004. Cash used for continuing operations for the nine months ended September 30, 2004 was \$6.5 million and cash flow from continuing operations may be negative throughout the remaining fiscal year 2004. Such conditions raise substantial doubt that the Company will be able to continue as a going concern for a reasonable period of time. These operating results occurred while the Company was developing and attempting to commercialize and manufacture products from an entirely new and unique technology. This business plan required significant spending related to start-up costs and capital expenditures. These factors have placed a significant strain on the financial resources of the Company. The ultimate success of the Company depends on its ability to continue reducing operating costs, generate higher revenue, and achieve positive cash flow from continuing operations and profitability. The consolidated financial statements do not include any adjustments that might result from the outcome of the uncertainty.

Our capital requirements during the next 12 months will depend on numerous factors, including the success of our existing products, the development of new applications for Liquidmetal alloys, and the resources we devote to develop and support our Liquidmetal alloy products. However, we anticipate our capital expenditures in the next 12 months will be less than \$0.5 million. We expect to continue to devote limited capital to our research and development activities, to further develop and strengthen our manufacturing capabilities, and for working capital and other general corporate purposes.

We believe that our current cash and cash equivalents together with anticipated cash flow from operations will be sufficient to fund our working capital and capital expenditure requirements for at least the next 12 months. Our cash flow projections from operations and, consequently, future cash needs are subject to uncertainty. If our available funds and cash generated from operations are insufficient to satisfy our liquidity requirements, we may need to raise additional capital to fund our operations and capital expenditure requirements. We cannot be certain that additional capital, whether through selling additional debt or equity securities or obtaining a line of credit or other loan, will be available to us or, if available, will be on terms acceptable to us. If we issue additional securities to raise funds, these securities may have rights, preferences, or privileges senior to those of the rights of our common stock and our stockholders may experience additional dilution.

5. Discontinued Operations

Dongyang

On June 28, 2002, the Company acquired a 51% interest in Chusik Hoesa Dongyang Yudoro (Dongyang). During 2003, Dongyang experienced net losses as a result of a continuing economic downturn in markets for its machinery products. These events, along with Dongyang's operating loss, cash flow losses and uncertainty surrounding its future cash flows, led the Company to evaluate its investment for recoverability as of December 31, 2003. As a result, the Company determined that the carrying value of its investment in Dongyang exceeded its fair value as of December 31, 2003 in the amount of \$184. This impairment loss was recorded in operating expenses for the year ended December 31, 2003.

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

In March 2004, the Company sold its 51% investment in Dongyang to the 49% minority shareholder. The selling price of the Company's 51% interest in Dongyang was \$80, which was equal to the Company's net carrying value for the 51% ownership held. Further, the Company agreed to pay Dongyang \$155 for the purchase of a receivable balance from Growell. The transaction resulted in net payable to Dongyang of \$75 and a loss of \$46 from transfer of the Company's interest in Donyang to the minority shareholder. The loss from operations for the three months ended March 31, 2004 totaled \$50 and was included in

the loss from discontinued equipment manufacturing operations for that period. The net payable balance of \$75 is to be paid in quarterly installments throughout 2004. The outstanding amount payable to Dongyang is \$25 as of September 30, 2004 and is included in accounts payable and accrued liabilities.

The Company has adopted SFAS 144 and as a result the 2003 balances have been restated in order to conform with the presentation of 2004 financial statements. Dongyang is reported as part of the assets available for sale on the balance sheet for 2003.

As Donyang was sold prior to March 31, 2004, there are no assets and liabilities of Dongyang as of March 31, 2004. The following is a listing of the major classes of assets and liabilities of Dongyang as of December 31, 2003.

	December 31, 2003	
Current Assets:		
Cash and cash equivalents	\$	1
Accounts receivable, net		181
Inventories		1,572
Prepaid expenses and other current assets		56
Total current assets		1,810
Property, plant and equipment, net	\$	58
Other Assets		29
Total assets	\$	1,897
Current Liabilities:		
Accounts payable and accrued expenses	\$	233
Deferred revenue		1,583
Total current liabilities	\$	1,816

Summarized operating results of Dongyang's discontinued operations are as follows.

	For the Three months Ended September 30, 2004		For the Nine months Ended September 30, 2003 (Restated)	
	\$	\$	\$	\$
Revenue	212	22	212	859
Loss from discontinued equipment manufacturing operations, net of tax		(59)	(96)	(251)

Taesung

On June 14, 2004, the Company entered into an Asset Purchase Agreement whereby all the assets and liabilities of its Taesung equipment manufacturing division in Korea were sold to a third party for \$345 which is payable by the third party in four equal installments with the last installment being due on June 30, 2005. The sale resulted in a loss of \$184 and is included in the loss from discontinued equipment manufacturing operations at September 30, 2004. The loss from operations for the nine months ended September 30, 2004 totaled \$749 and is included in the loss from discontinued equipment manufacturing operations for the period.

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

The Company has adopted SFAS 144 and as a result the 2003 balances have been restated in order to conform with the presentation of 2004 financial statements. Taesung is reported as part of the discontinued business operations as of March 31, 2004 as the Company's plans for divestiture of Taesung was determined during the three months ended March 31, 2004.

As Taesung was sold during the period ended June 30, 2004, there are no assets and liabilities of Taesung as of September 30, 2004. The following is a listing of the major classes of assets and liabilities of Taesung as of December 31, 2003.

	December 31, 2003	
Current Assets:		
Cash and cash equivalents	\$	1
Accounts receivable, net		256
Inventories		477
Prepaid expenses and other current assets		113
Total current assets		847
Property, plant and equipment, net	\$	157
Other Assets		100
Total assets	\$	1,104
Current Liabilities:		
Accounts payable and accrued expenses	\$	358

Summarized operating results of Taesung's operations are as follows.

	For the Three months Ended September 30,		For the Nine months Ended September 30,		
	2004	2003	2004	2003	(Restated)
Revenue	\$	\$	31	\$	1,667
Loss from discontinued equipment manufacturing operations, net of tax			(56)	(653)	(174)

6. Product Warranty

Due to the lack of historical information for warranty expense related to bulk alloy products, management estimates product warranties as a percentage of bulk alloy product sales earned during the period. During the three and nine months ended September 30, 2004, the Company recorded \$131 and \$269 of warranty expense, respectively. The product warranty accrual balance is included in accounts payable and accrued expenses and the warranty expense is included in selling, general, and administrative expenses.

7. Long-term Debt

Senior Convertible Note

On March 3, 2004, the Company issued \$9.9 million of 6.0% senior convertible notes due 2007 (the March Notes) to investor groups in a transaction led by Michigan Venture Capital Co., Ltd, a South Korea-based institutional investment firm, and IndiGo Ventures LLC, a New York-based investment firm (the Placement Agents) that served as a financial advisor to the Company for the transaction. The notes were collateralized by the patents held by the Company and second priority mortgage interest in plant facilities and certain equipment in South Korea. The notes were convertible at any time into

common stock at a price of \$3.00 per share. Investors in the private placement and the Placement Agents received warrants to purchase an aggregate amount of up to approximately 1.2 million shares of common stock, exercisable at \$3.00 per share for varying periods but no later than 100 days following the effectiveness of a registration statement covering the resale of shares issuable upon exercise of the warrants. In addition, the investors had the right to call for repayment of the notes prior to maturity at any time after the second anniversary of the closing of the transaction.

Pursuant to Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, EITF 00-19, Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock, EITF 00-27, Application of Issue No. 98-5 to Certain Convertible Instruments, and EITF 05-2 The Meaning of Conventional Convertible Debt Instrument in EITF Issue No. 00-19, the original fair value of the embedded conversion feature of \$7,595 have been recorded as conversion feature liabilities as the debt is considered non-conventional convertible debt. The original fair value was computed using the Black-Scholes model under the following assumptions: (1) expected life of 3 years; (2) volatility of 82%; (3) risk free interest of 2.15% and dividend rate of 0%. The fair value of the conversion feature on the date of issuance has been recorded as debt discount to be amortized over the life the debt.

Pursuant to EITF 00-19, Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock, the original fair value of the 1.2 million warrants of \$1,302 has been recorded as warrant liabilities as the shares issuable under the warrants have not been registered. The original fair value was computed using the Black-Scholes pricing model under the following assumptions: (1) expected life of 3 years; (2) volatility of 82%, (3) risk free interest of 0.95% and dividend rate of 0%.

In March 2004, the original fair value of the embedded conversion feature of \$7,595 and the original fair value of the 0.6 million warrants issued to investors of \$584, and the original fair value of 0.6 million warrants issued to Placement Agents of \$718 were recorded as discounts of the convertible note. In addition, \$ 581 direct costs incurred relating to issuance of the convertible note were recorded as debt issuance cost in other assets.

From June through August 2004, the Company redeemed \$4,465 of the outstanding note balance in cash. The redemption resulted in a write down of debt issuance costs and debt discount of \$2,277 and \$3,571 to interest expense and a reduction in conversion feature liabilities of \$636 and \$914 from cancellation of the embedded conversion feature of the redeemed notes to additional paid in capital during the three and nine months ended September 30, 2004, respectively. Further, 500,000 of warrants originally issued to a financial advisor for the transaction expired during June 2004 and 163,748 of unexercised warrants originally issued to investors were cancelled as a result of the Company's redemption of the note balances during the quarter ended September 30, 2004. The 663,748 total expired and canceled warrants immediately prior to the expiration and cancellation resulted in a reduction of warrant liability of \$7 and \$279 to additional paid in capital and change in value of warrants, respectively, during the three and nine months ended September 30, 2004.

On August 20, 2004, the Company completed a private exchange offer for its March Notes with the remaining holders after the redemption. Under terms of the exchange offer, approximately \$5.5 million in aggregate principal amount of the March Notes have been exchanged for an aggregate of (i) \$2.75 million of 6% Senior Secured Notes Due 2007 (the Long-Term Notes) and (ii) \$2.75 million of 10% Senior Secured Notes Due 2005 (the Short-Term Notes), collectively referred to as Exchange Notes. The Exchange Notes are collateralized by the patents held by the Company and second priority mortgage interest in plant facilities and certain equipment in South Korea. The Short-Term Notes have a maturity date of July 29, 2005, and a conversion price of \$2.00 per share (compared to a conversion price of \$3.00 per share under the March Notes). The Long-Term Notes have a maturity date of July 29, 2007, and a conversion price of \$1.00 per share. Further, the exchange notes are convertible into Common Stock, at the option of the Company, if at any time after the issuance of the notes, the closing per share price of the Common Stock exceeds \$4.00 (as adjusted for stock splits, reverse splits, stock dividends, and recapitalizations) for 30 consecutive trading days, and further provided that there has been effective registration during such period. Holders of the Long-Term Notes also have the right to call for repayment of the Long-Term Notes prior to maturity at any time after the second anniversary of the closing of the exchange offer.

In addition, holders of both the Long-Term Notes and Short-Term Notes have the right to call for repayment of the notes if the Company does not, within 120 days of the deemed closing date of the exchange (July 29, 2004), become compliant with its SEC reporting obligations and become listed or quoted on the OTC Bulletin Board, the Nasdaq Stock Market, or a national securities exchange. A total of 562,151 warrants to purchase our common stock at an exercise price of \$3.00 per share all of which were previously issued in connection with the purchase of the March Notes have been amended to provide for an extended expiration date of March 1, 2006.

The exchange offer was treated as an extinguishment of the March Notes in accordance with Emerging Issues Task Force No. 96-19, Debtors Accounting for a Modification or Exchange of Debt Instruments. The exchange resulted in a \$2,941 loss from extinguishment of the March Notes, which consisted of write down of \$352 of deferred issue costs in other assets, \$670 of debt discount, and an increase of \$1,919 in conversion feature liability as a result of the change in carrying value of exchanged notes.

In connection with the private exchange offer, the Company issued \$250 of private placement notes to certain Placement Agents as issuance costs. Of the \$250 notes issued, \$125 was paid in the form of long-term notes which is due in 2007 with interest rate of 6% per annum (Long-Term Notes) and \$125 was paid in the form of short-term notes which is due in 2005 with interest rate of 10% per annum (Short-Term Notes). The Short-Term and Long-Term Notes are convertible into Common Stock at \$2.00 and \$1.00, respectively, and have the same terms as the Exchange Notes issued to the investors. Further, \$143 of original fair value of the embedded conversion feature of the \$250 notes issued to Placement Agents was recorded as conversion feature liabilities during August 2004.

As of September 30, 2004, our gross outstanding loan balance totaled \$5,709, un-amortized discounts for conversion feature and warrants totaled \$3,241 and other asset debt issuance costs totaled \$221. Interest expense for the amortization of debt issuance cost and discount on note was \$1,695 and \$3,314 for the three and nine months ended September 30, 2004. As of September 30, 2004, the effective interest rates for the July 2005 and 2007 Notes were 40% and 37%, respectively.

The Company was obligated, pursuant to a Registration Rights Agreement, as amended by the Exchange Notes, between the Company, the Placement Agents and the note holders to file a registration statement with the Securities and Exchange Commission (SEC) to register the shares of Common Stock issuable upon conversion of the notes payable and the related warrants within 90 days following the effective closing date of the exchange notes (July 29, 2004), and to use best efforts to cause such registration statement to become effective within 60 days following the SEC's first written comments on the registration statement. Further, if the Company is not in compliance with the registration or listing requirements, the holders have rights to late registration payments equal to 2 percent of the purchase price paid for the unconverted notes for the first 30 business days of late registration, and 1 percent for each 30 business days thereafter, but no more than 10 percent of the purchase price of the unconverted note balance. The \$5,709 balance of the note and un-amortized discounts for conversion feature and warrants of \$3,241 is presented as current liability as of September 30, 2004 as the note holders have the right to call for payment on demand as the registration statement has not been filed in accordance with the amended Registration Rights Agreement. As of December 2004, the Company has not received any demands for payment from the note holders.

Pursuant to Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, the Company is required to report a value of the conversion liability as a fair value and record the fluctuation to the fair value of the conversion feature liability to current operations. The change in the fair value of the conversion feature liability resulted in a loss of \$2,338 and a gain of \$3,276 for the three and nine months ended September 30, 2004, respectively. The fair value of conversion feature liability outstanding at September 30, 2004 was \$5,467. The fair value of conversion features outstanding at September 30, 2004 was computed using the Black-Scholes model under the following assumptions: (1) 0.83~2.83 years; (2) volatility of 124%, (3) risk free interest of 2.21%~2.89% and dividend rate of 0%.

Pursuant to EITF 00-19, Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock, the relative fair values of the warrants of \$1,302 have been recorded as other liability during March 2004 as the Company has not yet filed the

registration statement. In addition, the Company is required to report a value of the warrant as

a fair value and record the fluctuation to the fair value of the warrant liability to current operations. The change in fair value of the warrants resulted in a loss of \$434, and a gain of \$846 for the three and nine months ended September 30, 2004, respectively. The fair value of warrants outstanding at September 30, 2004 was \$449, which was computed using the Black-Scholes model under the following assumptions: (1) expected life of 1.42 years; (2) volatility of 124%, (3) risk free interest of 2.63% and dividend rate of 0%.

Kookmin Note

On February 4, 2003, the Company's Korean subsidiary received 6,500,000 in South Korean Won, or approximately \$5,488, under a loan from Kookmin Bank of South Korea. The loan bears interest at an annual rate of 7.1%. In the event of delayed repayment, the interest increases to a maximum of 21%, depending on the length of time the repayment is delayed. This loan is collateralized by the plant facilities and certain equipment in South Korea. During the first eighteen months from the origination date, interest was payable on a monthly basis. In October 2003, the Company paid \$873 of principal at the request of Kookmin Bank due to the sale of machines that had been part of the collateral on the loan. Subsequent to October 31, 2003, Kookmin Bank requested that the Company pay an additional \$866 of principal by February 2004 due to the Company's current credit rating. The Company made two payments on the requested additional loan paydown in November and December 2003 of \$320 and \$205, respectively. The remaining payment of \$341 was made in February 2004. Beginning in September 2004, the Company will be required to make equal monthly installments of principal and interest to repay the remaining balance of the loan over a 36-month period.

Because this note payable is denominated in South Korea Won, the balance will fluctuate with the exchange rate between the U.S. Dollar and the South Korean Won, resulting in the recognition of foreign exchange gains or losses that are included in other comprehensive loss. At September 30, 2004, the balance of the note was \$3,747 resulting in the recognition of a cumulative foreign exchange loss of \$133, which is included in other comprehensive loss during the nine months ended September 30, 2004.

8. Stock Compensation Plan

During the quarter ended September 30, 2004, under the Company's 2002 Equity Incentive Plan which provides for the grant of stock options to officers, employees, consultants and directors, the Company granted options to purchase 385,359 common shares of the Company for an average exercise price of \$1.38. All options granted under this plan had exercise prices that were equal to the fair market value on the date of grant.

During the quarter ended September 30, 2004, under the Company's 2002 Non-employee Director Stock Option Plan, which provides for the grant of stock options to non-employee directors, the Company granted options to purchase 20,000 common shares of the Company for an average exercise price of \$1.42. All options granted under this plan had exercise prices that were equal to the fair market value on the date of grant.

Further, 4,808 options were forfeited during the quarter ended September 30, 2004 by terminated employees and directors.

9. Segment Reporting

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, requires companies to provide certain information about their operating segments. In April 2002, the Company began classifying operations into two reportable segments: Liquidmetal alloy industrial coatings and bulk Liquidmetal alloys. The Liquidmetal alloy industrial coatings are used primarily as a protective coating for industrial machinery and equipment, such as drill pipe used by the oil drilling industry and boiler tubes used by coal burning power plants. Bulk Liquidmetal alloys include market opportunities to manufacture and sell casing components for electronic devices, medical devices, sporting goods, tooling, prototype sampling, defense applications and metal processing equipment. Primarily, the expenses incurred by the bulk Liquidmetal alloy segment are research and

development costs and selling expenses associated with identifying and developing market opportunities. Bulk Liquidmetal alloy products can be distinguished from Liquidmetal alloy coatings in that the bulk Liquidmetal alloy can have significant thickness, up to approximately one inch, which allows for their use in a wider variety of applications other than a thin protective coating applied to machinery and equipment. Revenue and expenses associated with research and development services are included in the bulk Liquidmetal alloy segment. The accounting policies of the reportable segments are the same as those described in Note 18 to the consolidated financial statements included in the Company's Form 10-K filed with the Securities and Exchange Commission on November 10, 2004.

Summarized financial information concerning the Company's reportable segments is shown in the following tables:

	Coatings	Bulk Alloy Products	Segment Totals
Three months ended September 30, 2004:			
Revenue from external customers	\$ 988	\$ 3,627	\$ 4,615
Gross profit	466	908	1,374
Total segment income	264	129	393
Total identifiable assets at end of period	814	23,202	24,016
Three months ended September 30, 2003:			
Revenue from external customers	\$ 894	\$ 2,387	\$ 3,281
Gross profit (loss)	435	(1,749)	(1,314)
Total segment income (loss)	275	(3,669)	(3,394)
Total identifiable assets at end of period	865	28,329	29,194
Nine months ended September 30, 2004 ((Restated)):			
Revenue from external customers	\$ 2,710	\$ 12,248	\$ 14,958
Gross profit	1,260	4,425	5,685
Total segment income	804	2,237	3,041
Total identifiable assets at end of period	814	23,202	24,016
Nine months ended September 30, 2003 ((Restated)):			
Revenue from external customers	\$ 2,374	\$ 8,639	\$ 11,013
Gross profit (loss)	1,151	(1,539)	(388)
Total segment income (loss)	293	(11,955)	(11,662)
Total identifiable assets at end of period	865	28,329	29,194

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

Reconciling information between reportable segments and the Company's net loss is shown in the following table:

	For the Three Months Ended Sept. 30,		For the Nine Months Ended Sept. 30,	
	2004 (Restated)	2003	2004 (Restated)	2003 (Restated)
Total segment income (loss)	\$ 393	\$ (3,394)	\$ 3,041	\$ (11,662)
General and administrative expenses not allocated to segments	(2,962)	(2,562)	(7,594)	(8,775)
Consolidated loss before interest, other income, income taxes, minority interest and discontinued operations	(2,569)	(5,956)	(4,553)	(20,437)
Loss on extinguishments of debt	(2,941)		(2,941)	
Change in value of warrants, gain (loss)	(434)		846	
Change in value of conversion feature, gain (loss)	(2,338)		3,276	
Other income	302		302	
Interest expense	(3,283)	(106)	(5,934)	(281)
Interest income		53	34	281
Gain on sale of marketable securities held-for-sale				1,178
Income taxes				
Minority interest in loss of consolidated subsidiary		23		26
Loss from discontinued operations, net		(115)	(749)	(425)
Consolidated net loss	\$ (11,263)	\$ (6,101)	\$ (9,719)	\$ (19,658)

Excluded general and administrative expenses are attributable to the Company's corporate headquarters. These expenses primarily include corporate salaries, consulting, professional fees and facility costs. Research and development expenses are included in the operating costs of the segment that performed the research and development.

Revenues from sales to companies in the United States of America were \$1,215 and \$2,006 during the three months ended September 30, 2004 and 2003, respectively. The revenue related to the United States of America was earned under three defense-related research and development contracts and sales of coatings products.

During the three months ended September 30, 2004, the Company had revenue from sales to companies outside of the United States of \$3,400 of which \$2,895 represented sales to companies located in South Korea. During the three months ended September 30, 2003, the Company had revenues from companies outside of the United States of \$1,518 of which \$1,108 represented sales to companies located in South Korea. Of the \$1,108 sales in South Korea, \$243 was from our discontinued equipment manufacturing business for the three months ended September 30, 2003. The revenue related to sales to companies outside of the United States was from bulk alloy products including equipment sales.

Long-lived assets include net property, plant, and equipment and net intangible assets. The Company had long-lived assets of \$2,225 and \$2,547 located in the United States at September 30, 2004 and December 31, 2003, respectively. The Company had long-lived assets of \$14,695 and \$16,395 located in South Korea at September 30, 2004 and December 31, 2003, respectively. Of the assets located in South Korea at December 31, 2003, \$215 was from long-lived assets of our discontinued equipment manufacturing business. Further, the Company has long lived assets of \$45 at September 30, 2004 located in China as a result of a new sub-assembly plant opened during August 2004 (See note 1).

Reconciling information between reportable segments and the Company's consolidated assets is shown in the following table:

	September 30, 2004
Total segment assets	\$ 24,016
Cash and cash equivalents	1,396
Restricted cash	1,000
Prepaid expenses and other current assets	1,506
Other property, plant and equipment, net	1,112
Other intangible assets, net	1,108
Other assets	815
Total consolidated assets	\$ 30,953

Assets excluded from segment assets include assets attributable to the Company's corporate headquarters. The largest asset represents the Company's cash balances, primarily generated from the Company's proceeds from the senior convertible notes and Kookmin loan (See note 7).

10. Income (Loss) Per Common Share

Basic earnings per share (EPS) is computed by dividing earnings (loss) attributable to common shareholders by the weighted average number of common shares outstanding for the periods. Diluted EPS reflects the potential dilution of securities that could share in the earnings. Common stock equivalents consist of 8,526,068 and 6,875,601 equity instruments at September 30, 2004 and 2003, respectively, and have not been included in the EPS calculation at September 30, 2004 and 2003 as the amounts are anti-dilutive.

11. Commitments and Contingencies

As of September 30, 2004 and December 31, 2003, the Company has contingent obligations of \$164 and \$132, respectively, for notes receivables sold with recourse.

During September 2004, as part of a security agreement to finance certain insurance policy, the Company used certificate of deposits with maturities of less than one year of \$1,000 as collateral. The \$1,000 of certificate of deposit is presented as restricted cash at September 30, 2004.

Two separate lawsuits were filed in July and September 2004 by two former employees of our Pyongtaek manufacturing facility in South Korea. The suits are based on a claim of wrongful termination and breach of employment contract. In November 2004, the Company entered into a settlement agreement with the employees whereby the Company would pay \$243 to the employees in exchange for all claims being dismissed. The payable amount is included in accounts payable and accrued expenses as of September 30, 2004 financial statement.

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

The Company is from time to time a party to certain legal proceedings arising in the ordinary course of business. Although outcomes cannot be predicted with certainty, the Company does not believe that any legal proceeding to which it is a party will have a material adverse effect on the Company's financial position, results of operations, and cash flows. (See Note 13)

Liquidmetal Technologies and certain of its present and former officers and directors were named as defendants in nine purported class action complaints filed in the United States District Courts for the Middle District of Florida, Tampa Division, and the Central District of California, Southern Division, alleging violations of Sections 11 and 15 of the Securities Act of 1933 and Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder. The

actions were originally brought on behalf of those who purchased Liquidmetal Technologies' common stock between May 22, 2002, and March 30, 2004, inclusive. The complaints contain varying allegations, but generally allege that the defendants engaged in improper revenue recognition with respect to the Company's transactions with Growell Metal Co., Ltd. and that the defendants issued false and misleading statements concerning the Company's business and operations, including unrealistic but favorable information about market demand for Liquidmetal products, with the result of artificially inflating the Company's share price. The complaints seek unspecified compensatory damages and other relief. In August 2004, four complaints were consolidated in the United States District Court for the Middle District of Florida under the caption *Primavera Investors v. Liquidmetal Technologies, Inc., et al.*, Case No. 8:04-CV-919-T-23EAJ. John Lee, Chris Cowley, Dwight Mamanteo, Scott Purcell and Mark Rabold, were appointed co-lead plaintiffs (the Lead Plaintiffs). In September 2004, the other five complaints filed in the Central District of California were transferred to the Middle District of Florida for consolidation with the *Primavera Investors* action. The Consolidated Amended Class Action Complaint in the Primavera Investors action is due on or before Monday, January 10, 2005. Liquidmetal Technologies and the other defendants will have 45 days from the service date to move to dismiss or otherwise respond to the Consolidated Amended Class Action Complaint. We intend to vigorously defend against the class action. We cannot currently predict the impact or resolution of this litigation or reasonably estimate a range of possible loss, which could be material. The resolution of this lawsuit may harm our business and have a material adverse impact on our financial condition.

In addition to the above, certain present and former officers and directors of Liquidmetal Technologies, as well as Liquidmetal Technologies as a nominal defendant, have been named in three shareholder derivative actions. Two shareholder derivative complaints were filed in California state court styled *Brian Clair, Derivatively on Behalf of Liquidmetal Technologies, Inc. v. John Kang, et al.*, Case No. 04CC00551, and *Joseph Durgin Derivatively on Behalf of Liquidmetal Technologies, Inc. v. John Kang, et al.*, Case No. 04CC00553, both commenced in the Superior Court of Orange County, California. A third shareholder derivative complaint was filed in Florida federal court styled *Robert Story v. John Kang, et al.*, Case No. 8:04-CV-1587-T23TBM, commenced in the Middle District of Florida, Tampa Division. These shareholder derivative lawsuits allege that the defendants breached various fiduciary duties and otherwise violated state law based primarily upon the same underlying facts and circumstances as the federal shareholder class action lawsuits. The plaintiffs seek unspecified compensatory damages, restitution and disgorgement of profits, equitable and/or injunctive relief as permitted by law and other relief. The two shareholder derivative complaints in California state court have been consolidated. Plaintiffs served a Consolidated Shareholder Derivative Complaint on October 12, 2004. The defendants served a Demurrer to the Consolidated Shareholder Derivative Complaint on November 22, 2004, seeking dismissal of that complaint. The Demurrer is set for hearing on February 10, 2005. The Plaintiff in the Florida derivative action filed a First Amended Shareholder Derivative Complaint on November 22, 2004. The Company's response to the amended Florida derivative complaint was due on December 17, 2004. We intend to vigorously defend against the derivative actions. We cannot currently predict the impact or resolution of this litigation or reasonably estimate a range of possible loss, which could be material. The resolution of these lawsuits may harm our business and have a material adverse impact on our financial condition.

12. Related Party Transactions

In June 2003, the Company entered into an exclusive, ten-year license agreement with LLPG, Inc. (LLPG), a corporation headed by a former director of the Company. Under the terms of the agreement, LLPG has the right to commercialize Liquidmetal alloys, particularly precious-metal based compositions, in jewelry and high-end luxury product markets. The Company, in turn, will receive royalty payments over the life of the contract on all Liquidmetal products produced and sold by LLPG. In conjunction with its technology licensing contract, LLPG purchased two proprietary Liquidmetal alloy melting machines and three proprietary Liquidmetal alloy casting machines for a total purchase price of \$2,000. At December 31, 2003, the Company had a remaining receivable balance of \$500 due from LLPG, which was paid in full in March 2004.

The Company is a party to a license agreement with California Institute of Technology (Caltech) under which the Company exclusively licenses from Caltech certain inventions and technology relating to amorphous alloys. Professor William Johnson, a

member of the Company's Board of Directors, is a professor at Caltech, and substantially all of the amorphous alloy technology licensed to the Company under the Caltech license agreement was developed in Professor Johnson's Caltech laboratory. During 2003, the Company paid \$50 to Caltech representing the second and final installments on the \$150 aggregate fees related to this agreement. Additionally, the Company reimburses Caltech for laboratory expenses incurred by Professor Johnson's Caltech laboratory, which during the nine months ended September 30, 2004 and 2003, amounted to \$0 and \$22 in reimbursements, respectively.

A company managed and partially owned by one of the Company's former directors provides technical support services and computer equipment to the Company. During the nine months ended September 30, 2003, the Company incurred \$20 of expenses and equipment purchases related to this arrangement. There were no expenses and payables to this Company as of and for the nine months ended September 30, 2004.

We are a party to a consulting agreement with Chitnis Consulting, Inc., which is owned 100% by Shekhar Chitnis, a former director and executive officer of our company. Under this agreement, we have engaged Chitnis Consulting to provide consulting services on an as-needed basis through December 31, 2005. During 2003, we incurred \$50 in consulting fees from Chitnis Consulting and incurred \$13 during the quarter ended September 30, 2004, and \$38 for the nine-month period ended September 30, 2004.

13. Subsequent Events

In November 2004, we entered into an agreement with John Kang, our Chairman, President, and Chief Executive Officer, in which Mr. Kang agreed that certain stock transactions by him in 2002 involving our common stock should have resulted in a liability under Section 16(b) of the Securities Exchange Act of 1934, as amended (Section 16(b)). These transactions include Mr. Kang's private sale of 285,715 shares of his personal Liquidmetal Technologies common stock to Growell Metal Co., Ltd. in February 2002, prior to our initial public offering. They also include Mr. Kang's subsequent indirect purchase and disposition of Liquidmetal Technologies common stock in order to satisfy a personal agreement Mr. Kang made to Growell Metal in February 2002 regarding the guaranteed minimum value of the stock purchased by Growell Metal in February 2002 (the purchases and dispositions incident to this agreement occurred in August and November 2002, respectively). Lastly, the transactions include open-market purchases of an aggregate of 89,300 shares of our common stock made by Mr. Kang in August 2002.

The Audit Committee of our Board of Directors conducted an independent inquiry into the above-described transactions with the aid of independent legal counsel and, as a result of such inquiry, the Audit Committee concluded that the transactions should have resulted in a liability to the Company under Section 16(b) in the amount of \$302. Mr. Kang has acknowledged this liability, and in an agreement negotiated between Mr. Kang and the Audit Committee and approved by the full Board, Mr. Kang will pay this liability in 24 equal monthly installments beginning in January 2005. As a result, the Company accrued for the \$302 receivable in other assets and other income during the quarter ended September 30, 2004. The above-described transactions involving Growell Metal was reported on a new Form 4 filed by Mr. Kang on November 15, 2004, and the open-market purchases were previously reported on a timely basis in August 2002.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

This management's discussion and analysis should be read in conjunction with the condensed consolidated financial statements and notes included elsewhere in this report on Form 10-Q.

This management's discussion and analysis, as well as other sections of this report on Form 10-Q, may contain forward-looking statements that involve risks and uncertainties, including statements regarding our plans, future events, objectives, expectations, forecasts, or assumptions. Any statement that is not a statement of historical fact is a forward-looking statement, and in some cases, words such as believe, estimate, project, expect, intend, may, anticipate, plans, seeks, and similar expressions identify forward-looking statements. These statements involve risks and uncertainties that could cause actual outcomes and results to differ materially from the anticipated outcomes or results, and undue reliance should not be placed on these statements. These risks and uncertainties include, but are not limited to, the matters discussed under the caption Factors Affecting Future Results in our Annual Report on Form 10-K for the fiscal year ended December 31, 2003 and other risks and uncertainties discussed in filings made with the Securities and Exchange Commission (including risks described in subsequent reports on Form 10-Q, Form 10-K, Form 8-K, and other filings). Liquidmetal Technologies disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

OVERVIEW

We are a materials technology company that develops and commercializes products made from amorphous alloys. Our Liquidmetal® family of alloys consists of a variety of coatings, powders, bulk alloys, and composites that utilize the advantages offered by amorphous alloy technology. We develop, manufacture, and sell products and components from bulk amorphous alloys that are incorporated into the finished goods of our customers, and we also market and sell amorphous alloy industrial coatings. We also partner with third-party licensees and distributors to develop and commercialize Liquidmetal alloy products. We have the exclusive right to develop, manufacture, and sell what we believe are the only commercially viable bulk amorphous alloys.

Amorphous alloys are unique materials that are distinguished by their ability to retain a random atomic structure when they solidify, in contrast to the crystalline atomic structure that forms in ordinary metals and alloys when they solidify. Liquidmetal alloys possess a combination of performance, processing, and cost advantages that we believe makes them preferable to other materials in a variety of applications. The amorphous atomic structure of our alloys enables them to overcome certain performance limitations caused by inherent weaknesses in crystalline atomic structures, thus facilitating performance and processing characteristics superior in many ways to those of their crystalline counterparts. For example, our zirconium-titanium Liquidmetal alloys are approximately 250% stronger than commonly used titanium alloys, such as Ti-6Al-4V, but they have processing characteristics similar in many respects to plastics. We believe these advantages could result in Liquidmetal alloys supplanting other incumbent materials in a wide variety of applications. Moreover, we believe these advantages will enable the introduction of entirely new products and applications that are not possible or commercially viable with other materials.

Our revenues are derived from two principal operating segments: Liquidmetal alloy industrial coatings and bulk Liquidmetal alloy products. Liquidmetal alloy industrial coatings are used primarily as a protective coating for industrial machinery and equipment, such as drill pipe used by the oil drilling industry and boiler tubes used in coal-burning power plants. The historical operating information for fiscal year 2001 is based substantially on sales of Liquidmetal alloy coatings. In the second half of 2002, we began producing bulk Liquidmetal alloy components and products for incorporation into our customers' finished goods. Bulk Liquidmetal alloy segment revenue includes sales of parts or components of electronic devices, medical products, and sports and leisure goods; tooling and prototype parts (including demonstration parts and test samples) for customers with products in development; metal processing equipment (see Note 5 for disclosure regarding the disposal of our equipment manufacturing business); and research and development revenue relating primarily to defense and medical applications. We expect that these sources of revenue will continue to significantly change the character of our revenue mix.

The cost of sales for our Liquidmetal coatings segment consists primarily of the costs of outsourcing our manufacturing to third parties. Consistent with our expectations, our cost of sales has been increasing over historical results as we further build our bulk Liquidmetal alloy business. Although we plan to continue outsourcing the manufacturing of our coatings, we will

internally manufacture many products derived from our bulk Liquidmetal alloys.

Selling, general, and administrative expenses currently consist primarily of salaries and related benefits, severance costs, travel, consulting and professional fees, depreciation and amortization, insurance, office and administrative expenses, and other expenses related to our operations.

Research and development expenses represent salaries, related benefits expense, stock-based compensation, depreciation of research equipment, consulting and contract services, expenses incurred for the design and testing of new processing methods, expenses for the development of sample and prototype products, and other expenses related to the research and development of Liquidmetal alloys. Costs associated with research and development activities are expensed as incurred. We plan to enhance our competitive position by improving our existing technologies and developing advances in amorphous alloy technologies. We believe that our research and development efforts will focus on the discovery of new alloy compositions, the development of improved processing technology, and the identification of new applications for our alloys.

In conjunction with the divestiture of our Dongyang and Taesung subsidiaries in March and June 2004, respectively, the Company decided to discontinue our equipment manufacturing business in order to conform our operations to our broader corporate business strategy (see note 5). Pursuant to Accounting Principles Board Opinion No. 30, *Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions*, we reclassified our consolidated financial statements to reflect the discontinuation of our equipment manufacturing operations. The revenue, costs and expenses, assets and liabilities, and cash flows of the equipment manufacturing business were segregated in our accompanying Consolidated Balance Sheets, Consolidated Statements of Operations and Comprehensive Loss, and Consolidated Statements of Cash Flows.

On August 4, 2004, the Company established a sub-assembly plant in the city of Weihai in Shandong province of China under Weihai Liquidmetal Company Limited, which is 100 percent owned by Liquidmetal Korea, to facilitate our bulk alloy manufacturing business. Weihai Liquidmetal is consolidated into Liquidmetal Technologies with all intercompany transactions eliminated.

The following discussion and analysis of our financial condition and results of operations focuses on the historical results of our continuing operations and reflects the effect of restating our 2003 financial statements for equipment sales made to Growell Metal Co., Ltd. (Growell) as disclosed in Note 2 in the notes to condensed consolidated financial statements section of this document.

Critical Accounting Policies and Estimates

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results could differ materially from these estimates under different assumptions or conditions.

We believe that the following accounting policies are the most critical to our condensed consolidated financial statements since these policies require significant judgment or involve complex estimates that are important to the portrayal of our financial condition and operating results:

Exchange rate fluctuations

Warranty accrual

Allowance for doubtful accounts

Inventories at lower of cost or net realizable value

Deferred tax assets

Goodwill impairment

Valuation of derivatives of warrants and embedded conversion features

Our 10-K Report as of December 31, 2003 contains further discussions on our critical accounting policies and estimates.

Results of Operations

Comparison of the three months ended September 30, 2004 and 2003.

Revenue. Revenue increased \$1.3 million to \$4.6 million for the three months ended September 30, 2004 from \$3.3 million for the three months ended September 30, 2003. The increase was primarily due to an increase of \$2.0 million from the sales and prototyping of parts manufactured from bulk Liquidmetal alloys offset by a decrease of \$0.8 million from research and development services related primarily to defense and medical applications and an increase in our coatings business of \$0.1 million.

Cost of Sales. Cost of sales decreased to \$3.2 million, or 70% of revenue, for the three months ended September 30, 2004 from \$4.6 million, or 140% of revenue, for the three months ended September 30, 2003. This decrease was a result of the continued maturing of our manufacturing process and represents the Company's efforts to manage costs and focus on our core business while continuing to build production pipeline and manufacturing infrastructure required to prepare for and support the anticipated growth of our bulk Liquidmetal alloy business. The cost of sales for the products sold by the coatings business segment is generally consistent because the Liquidmetal coatings products are produced by third parties and sold wholesale to various industries.

Selling, General, and Administrative Expenses. Selling, general, and administrative expenses decreased to \$3.6 million, or 77% of revenue, for the three months ended September 30, 2004 from \$3.7 million, or 112% of revenue, for the three months ended September 30, 2003. This decrease of \$0.1 million was primarily a result of decrease in wages and related expense by \$0.9 million, offset by an increase in professional fees, consultant fees, and contract services by \$0.5 million, increase in insurance costs by \$0.1 million, and increase in stock compensation by \$0.2 million. These and other decreases in selling, general and administrative expenses represent the Company's efforts to manage costs and focus on our core business while continuing to build our corporate infrastructure required to prepare for and support the anticipated growth of our bulk Liquidmetal alloy business.

Research and Development Expenses. Research and development expenses decreased to \$0.4 million, or 8% of revenue, for the three months ended September 30, 2004 from \$1.0 million, or 30% of revenue, for the three months ended September 30, 2003. This decrease was a result of the Company focusing primarily on our core business associated with our bulk Liquidmetal alloy business while managing our costs. The Company continues to perform research and development efforts on new Liquidmetal alloys and related processing capabilities, develop new manufacturing techniques, and contract with consultants and provide research grants to various institutions to advance the development of Liquidmetal alloys. The decrease of \$0.6 million was due to decreases in salaries, wages and the related expenses by \$0.3 million, decrease in laboratory and prototyping expenses by \$0.3 million, and a decrease in depreciation expense by \$0.1 million, offset by an increase to other miscellaneous expenses of \$0.1 million.

Loss from Extinguishment of Debt. Loss from extinguishment of debt was \$2.9 million, or 64% of revenue, during the three months ended September 30, 2004 on the extinguishment of our March Notes from the exchange in August 2004. There was no such loss recorded during the three months ended September 30, 2003.

Change in Value of Warrants. Change in value of warrants decreased to a net loss of \$0.4 million, or 9% of revenue, during the three months ended September 30, 2004 due to the change in valuation of warrant payable issued related to the senior convertible debt funded in March 2004. There was no change in value of warrants recorded during the three

months ended September 30, 2003.

Change in Value of Conversion Feature. Change in value of conversion feature liability from our senior convertible debt funded in March 2004 and exchanged in August 2004 resulted in a change in value of conversion feature loss of \$2.3 million, or 51% of revenue, for the three months ended September 30, 2004, primarily due to fluctuations in our stock price. There was no such amounts recorded for the three months ended September 30, 2003.

Other Income. Other income was \$0.3 million, or 7% of revenue, during the three months ended September 30, 2004 from certain stock transactions with John Kang, our Chairman, President, and Chief Executive Officer during 2002 (see note 13). There were no amounts recorded as other income for the three months ended September 30, 2003.

Interest Expense. Interest expense was \$3.3 million, or 71% of revenue, for the three months ended September 30, 2004 and was \$0.1 million, or 3% of revenue, for the three months ended September 30, 2003. During the three months ended September 30, 2004, interest expense related to the interest accrued, amortization of debt discount and deferred issuance costs on new senior convertible debt originally sold in March 2004, and from accrued interest from the Kookmin Bank loan funded in February 2003. During the three months ended September 30, 2003, interest expense related to the interest accrued on the Kookmin Bank loan.

Interest Income. Interest income was \$53 thousand for the three months ended September 30, 2003 for interest earned on short-term, investment grade, interest-bearing securities. There was no interest income for the three months ended September 30, 2004.

Comparison of the nine months ended September 30, 2004 and 2003

Revenue. Revenue increased \$4.0 million to \$15.0 million for the nine months ended September 30, 2004 from \$11.0 million for the nine months ended September 30, 2003. The increase was primarily due to the increase in our bulk Liquidmetal alloys business which consisted of an increase of \$3.5 million from our Liquidmetal alloy parts sales, an increase of \$0.3 million from our coatings business, offset by a decrease of \$1.3 million from research and development services related primarily to defense and medical applications.

Cost of Sales. Cost of sales decreased to \$9.2 million, or 62% of revenue, for the nine months ended September 30, 2004 from \$11.4 million, or 104% of revenue, for the nine months ended September 30, 2003. This decrease was a result of the continued maturing of our manufacturing process and represents the Company's efforts to manage costs and focus on our core business while continuing to build production pipeline and manufacturing infrastructure required to prepare for and support the anticipated growth of our bulk Liquidmetal alloy business. The cost of sales for the products sold by the coatings business segment is generally consistent because the Liquidmetal coatings products are produced by third parties and sold wholesale to various industries.

Selling, General, and Administrative Expenses. Selling, general, and administrative expenses decreased to \$9.2 million, or 61% of revenue, for the nine months ended September 30, 2004 from \$12.3 million, or 112% of revenue for the nine months ended September 30, 2003. This decrease of \$3.1 million was primarily a result of decrease in wages and related expense by \$2.6 million, decrease in travel expenses by \$0.5 million, decrease in product warranty and bad debt expense by \$0.2 million, decrease in property rent by \$0.6 million, offset by an increase in professional fees, consultant fees, and contract services by \$0.6 million, and increase in stock compensation by \$0.1 million. These and other decreases in selling, general and administrative expenses represent the Company's efforts to manage costs and focus on our core business while continuing to build our corporate infrastructure required to prepare for and support the anticipated growth of our bulk Liquidmetal alloy business.

Research and Development Expenses. Research and development expenses decreased to \$1.1 million, or 7% of revenue for the nine months ended September 30, 2004 from \$7.8 million, or 70% of revenue for the nine months ended September 30, 2004. This decrease of \$6.7 million was a result of the Company's focusing primarily on our core business associated with our bulk Liquidmetal alloy business while managing our costs. The Company continues to perform research and development efforts on new Liquidmetal alloys and related processing capabilities, develop new manufacturing techniques, and contract with consultants and provide research grants to various institutions to advance the development of Liquidmetal alloys. The decrease of \$6.7 million was due to decreases in salaries, wages and related expenses by \$2.6 million, decrease in professional fees, consultant fees, and contract services by \$0.6 million, decrease in research grants to institutions by \$0.3 million, decrease in laboratory and prototyping expenses by \$2.0 million, decrease in depreciation expense by \$0.6 million, decrease in travel and related expenses by \$0.3 million, and a decrease in other miscellaneous expenses of \$0.3 million.

Loss from Extinguishment of Debt. Loss from extinguishment of debt was \$2.9 million, or 20% of revenue, during the nine months ended September 30, 2004 from extinguishment of our March Notes from the exchange in August 2004. There was

no such loss recorded during the nine months ended September 30, 2003.

Change in Value of Warrants. Change in value of warrants increased to a net gain of \$0.8 million, or 6% of revenue, during the nine months ended September 30, 2004 due to the change in valuation of warrant payable issued related to the senior convertible debt funded in March 2004. There was no change in value of warrants recorded during the nine months ended September 30, 2003.

Change in Value of Conversion Feature. Change in value of conversion feature liability from our senior convertible debt funded in March 2004 and exchanged in August 2004 resulted in a change in value of conversion feature gain of \$3.3 million, or 22% of revenue, for the nine months ended September 30, 2004 primarily due to fluctuations in our stock price. There were no such amounts recorded for the nine months ended September 30, 2003.

Other Income. Other income was \$0.3 million, or 2% of revenue, during the nine months ended September 30, 2004 from certain stock transactions with John Kang, our Chairman, President, and Chief Executive Officer during 2002 (see note 13). There were no amounts recorded as other income for the nine months ended September 30, 2003.

Interest Expense. Interest expense was \$5.9 million, or 40% of revenue, for the nine months ended September 30, 2004 and was \$0.3 million, or 3% of revenue, for the nine months ended September 30, 2003. During the nine months ended September 30, 2004, the interest expense was primarily due to the interest accrued, amortization of debt discount and deferred issuance costs on new senior convertible debt originally sold on March 3, 2004, and interest accrued on Kookmin Bank loan funded on February 4, 2003. During the nine months ended September 30, 2003, the interest expense was primarily due to the interest accrued on the Kookmin Bank loan.

Interest Income. Interest income was \$34 thousand for the nine months ended September 30, 2004 for interest earned on certificate of deposits. Interest income was \$0.3 million or 3% of revenue for the nine months ended September 30, 2003 for interest earned on short-term, investment grade, interest-bearing securities.

Liquidity and Capital Resources

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

Our cash used in operating activities was \$5.6 million, which includes \$0.8 million cash provided by our discontinued equipment manufacturing business, for the nine months ended September 30, 2004 and \$22.2 million, which includes cash used in our discontinued equipment manufacturing and retail golf businesses of \$1.7 million, for the nine months ended September 30, 2003. Our working capital decreased from \$1.0 million at December 31, 2003 to (\$6.2) million at September 30, 2004. The Company's working capital decrease of \$7.2 million was primarily attributable to decrease in cash of \$1.7 million, decrease in accounts receivables of \$0.2 million, decrease in current assets of our discontinued equipment manufacturing business of \$0.8 million, increase in accounts payable of \$1.8 million, increase in settlement payable of \$0.1 million, increase in current portion of notes payable of \$2.5 million, increase in warrant liabilities of \$0.4 million, increase in conversion feature liabilities of \$5.5 million, offset by an increase in restricted cash of \$1.0 million, increase in inventories of \$2.0 million, increase in prepaid and other current assets of \$1.1 million, decrease in deferred revenue of \$0.6 million, and decrease in other current liabilities of \$1.3 million.

Our cash used in investing activities was \$0.3 million for the nine months ended September 30, 2004 for the acquisition of property and equipment, and investment in patents.

Our cash provided by financing activities was \$3.9 million for the nine months ended September 30, 2004, which consists of \$9.9 million in proceeds from borrowings from our senior convertible debt offset by \$4.9 million on repayment of borrowings, \$0.1 million of other liabilities, and increase in restricted cash of \$1.0 million.

The Company has experienced losses from continuing operations during the last two fiscal years and has an accumulated deficit of \$122,306 as of September 30, 2004. Cash used for continuing operations for the nine months ended September 30, 2004 was \$6.5 million and cash flow from continuing operations may be negative throughout the remaining fiscal year 2004. Such conditions raise substantial doubt about the ability of the Company continuing as a going concern for a reasonable period of time. These operating results occurred while the Company was developing and attempting to commercialize and manufacture products from an entirely new and unique technology. This business plan required significant spending related

to start-up costs and capital expenditures. These factors have placed a significant strain on the financial resources of the Company. The ultimate success of the Company depends on its ability to continue reducing operating costs, generate higher revenue, and achieve positive cash flow from continuing operations and profitability. The consolidated financial statements do not include any adjustments that might result from the outcome of the uncertainty.

Our capital requirements during the next 12 months will depend on numerous factors, including the success of our existing products, the development of new applications for Liquidmetal alloys, and the resources we devote to develop and support our Liquidmetal alloy products. However, we anticipate our capital expenditures will be less than \$0.5 million in the next 12 months. We expect to continue to devote limited capital to our research and development activities, to further develop and strengthen our manufacturing capabilities, and for working capital and other general corporate purposes.

We believe that our current cash and cash equivalents together with anticipated cash flow from our operations, will be sufficient to fund our working capital and capital expenditure requirements for at least the next 12 months. Our cash flow projections from operations and, consequently, future cash needs are subject to uncertainty. If our available funds and cash generated from operations are insufficient to satisfy our liquidity requirements, we may need to raise additional capital to fund our working capital or capital expenditure requirements. We cannot be certain that additional capital, whether through selling additional debt or equity securities or obtaining a line of credit or other loan, will be available to us or, if available, will be on terms acceptable to us. If we issue additional securities to raise funds, these securities may have rights, preferences, or privileges senior to those of the rights of our common stock and our stockholders may experience additional dilution.

Contractual Obligations

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

The following table summarizes the Company's obligations and commitments as of September 30, 2004:

Contractual Cash Obligations	Total	Payments Due by Period (in thousands)			
		Less Than 1 Year	2-3 Years	4-5 Years	After 5 Years
Long-term debt	\$ 9,456	\$ 6,806	\$ 2,650	\$	\$
Capital lease obligation	228	121	107		
Operating leases and rents	1,927	850	909	22	146
Growell settlement payable	2,946	2,946			
Dongyang payable	25	25			
Purchase obligations	2,500		2,500		
	\$ 17,082	\$ 10,748	\$ 6,166	\$ 22	\$ 146

Item 3 Quantitative and Qualitative Disclosures about Market Risk

We are exposed to various markets risks in conducting the business of the Company, and we anticipate that this exposure will increase as a result of our planned growth. In an effort to mitigate losses associated with these risks, we may at times enter into derivative financial instruments, although we have not historically done so. These may take the form of forward sales contracts, option contracts, foreign currency exchange contracts, and interest rate swaps. We have not, and do not intend to, engage in the practice of trading derivative securities for profit.

Interest Rates. We are exposed to market risks relating to changes in interest rates. Some of the proceeds of our initial public offering are invested in short-term, interest-bearing, investment grade securities. The value of these securities will be subject to interest rate risk and could fall in value if interest rates rise.

Commodity Prices. We are exposed to price risk related to anticipated purchases of certain commodities used as raw materials by our businesses, including titanium and zirconium. Although we do not currently enter into commodity future, forward, and option contracts to manage the fluctuations in prices of anticipated purchases, we may enter into such contacts in the future as our business grows and as our purchases of these raw materials increase.

Foreign Exchange Rates. As a result of our operation of a manufacturing facility in South Korea, a substantial portion of our costs will be denominated in the South Korean won. Consequently, fluctuations in the exchange rates of the South Korean won to the U.S. dollar will affect our costs of goods sold and operating margins and could result in exchange losses. Although we do not currently enter into foreign exchange hedge transactions, we may do so in the future as our business grows.

Item 4 Controls and Procedures

Edgar Filing: LIQUIDMETAL TECHNOLOGIES INC - Form 10-Q/A

Within the 90 days prior to the date of this quarterly report, Liquidmetal Technologies (the Company) carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-14 under the Securities Exchange Act of 1934, as amended. Based on that evaluation, the Chief Executive Officer and Vice President Finance have concluded that these disclosure controls and procedures are effective in timely alerting them to material information relating to the Company, including its consolidated subsidiaries, required to be included in this quarterly report on Form 10-Q. There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the date of our evaluation.

(a) Evaluation of disclosure controls and procedures. During the course of the audit of our financial statements for the fiscal years ended December 31, 2001, 2002, and 2003, it was determined that revenues from certain equipment sales made by the Company to Growell Metal Co., Ltd. in the third and fourth quarters of 2002 and the first quarter of 2003 should not have been recognized in those periods. It was also determined that certain amounts relating to sales made to Samsung in December 2002, to JS Technologies in September 2002, and AM Corporation in December 2002 should not have been recognized. And lastly, it was determined that certain stock options granted in 2001 and 2002 were not calculated in accordance with guidelines under APB Opinion No. 25, SFAS No. 123, and EITF 00-23. These determinations and the associated restatement of previously issued financial statements, are described more fully in the Form 10-K, suggest that, at the time of the subject transactions and the preparation of our financial statements for the relevant periods, the Company's disclosure controls and procedures (as defined in Rule 13a-15 under the Securities Exchange Act of 1934) did not ensure that all information required to be disclosed by the Company was adequately accumulated and communicated to the Company's management. Since that time, the Company has made various improvements to enhance the reliability of its disclosure controls and procedures. Except for the foregoing, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by the Form 10-K based on their evaluation of the controls and procedures pursuant to Rule 13a-15 under the Securities and Exchange Act of 1934.

PART II

OTHER INFORMATION

Item 2 Change in Securities and Use of Proceeds

Pursuant to the our Registration Statement on Form S-1, as amended, initially filed with the Securities and Exchange Commission on November 20, 2001 and declared effective May 21, 2002 (Registration No. 333-73716), we closed an initial public offering of 5,000,000 shares of common stock on May 28, 2002, plus an additional 229,000 shares on June 10, 2002 pursuant to an overallotment option, at a price of \$15.00 per share (which sale is referred to herein as the Offering). The Offering generated aggregate cash proceeds during the second quarter 2002 of \$78.4 million. The net proceeds were \$70.7 million after deducting underwriting commissions of \$5.5 million and other transaction fees of \$2.2 million. The managing underwriters for the Offering were Merrill Lynch & Co., UBS Warburg and Robert W. Baird & Co.

As of December 31, 2003, we have used the \$70.7 million of net proceeds from the Offering. In 2002, we used approximately \$7.8 million of the net proceeds from the Offering to repay all outstanding promissory notes and accrued interest, \$11.1 million to fund the construction of our manufacturing facility in South Korea, \$14.3 million to purchase equipment used to manufacture Liquidmetal parts, \$0.4 million to purchase assets related to production and sale of equipment used in the production process of Liquidmetal alloy products, and \$0.3 million to purchase the 51% interest in our majority owned Dongyang subsidiary. During the third quarter of 2002, we used \$2.0 million to invest in the common stock of Growell Metal, which supplies a portion of the Liquidmetal alloy ingots used in our manufacturing operations in Korea. We have since sold such stock, realizing a gain on the sale. We used the remaining proceeds of \$32.7 million for working capital in 2002 and 2003, excluding \$2.1 million paid to Paul Azinger in 2002 and 2003 for amounts due under the terms of his terminated endorsement agreement with our discontinued retail golf operations.

Item 6 Exhibits

The following documents are filed as an exhibit to this Report:

Exhibit Number	Description of Document
31.1	Certification of President & Chief Executive Officer, Ricardo A. Salas, as required by Section 3.02 of Sarbanes-Oxley Act of 2002
