-

**Item 7.01 Regulation FD Disclosure.**

MedImmune, Inc. (the Company or MedImmune ) and its Board of Directors (the Board ) welcome the views of all our shareholders and value their input. On Wednesday, February 14, 2007, the Board received correspondence from David A. Katz, President of Matrix Asset Advisors, Inc. ( Matrix ), commenting on the Company s quarterly results and suggesting that MedImmune consider a strategic sale.

MedImmune s Board has since met and reviewed in detail the Matrix letter. As part of that review, the Board took into consideration the Company s business plan and recently reported results. The Board also discussed the drivers of value for MedImmune s shareholders, including, for example, the impact of the recent publication of a successful pivotal clinical trial with refrigerated FluMist showing its superior efficacy over the flu shot in children under five years of age in the *New England Journal of Medicine*.

After careful review of these and other considerations with its outside advisors, the Board has reaffirmed its conclusion that the best way for MedImmune to maximize value for its shareholders is to aggressively implement its business plan.
