BOARD OF DIRECTORS

Board Committees

The standing committees of the Board of Directors are comprised of the Audit Committee, Compensation Committee and the Corporate Governance and Nominating Committee.

The Audit Committee is comprised of Messrs. Rumsey, DiGiandomenico and Robbins and oversees our financial reporting processes, including (i) reviewing with management and the outside auditors the audited financial statements included in our Annual Report, (ii) reviewing with the outside auditors the interim financial results included in our quarterly reports filed with the SEC, (iii) discussing with management and the outside auditors the quality and adequacy of internal controls, and (iv) reviewing the independence of the outside auditors. During 2007 the Audit Committee met four times telephonically.

The Compensation Committee is comprised of Messrs. Petrelli, Robbins and Rumsey. At the direction of the full Board, the Compensation Committee reviews and makes recommendations with respect to compensation of our directors, executive officers and senior management. The Compensation Committee administers our Stock Incentive Plan. The Compensation Committee met four times during 2007 and approved various other matters by unanimous written consent.

The Corporate Governance and Nominating Committee is comprised of Messrs. Rumsey, Robbins and McCandless. At the direction of the full Board, the Committee review, investigate qualified nominees for election to the Board when vacancies occur and makes recommendations with respect to the nomination of directors. The Committee met once in 2007.

The Corporate Governance and Nominating Committee strives to identify and attract director nominees with a variety of experience who have the business background and personal integrity to represent the interests of all shareholders. Although the Board has not established any specific minimum qualifications that must be met by a director nominee, factors considered in evaluating potential candidates include educational achievement, managerial experience, business acumen, financial sophistication, direct selling industry expertise and strategic planning and policy-making skills. Depending upon the current needs of the Board, some factors may be weighed more or less heavily than others in the Board's deliberations. The Board evaluates the suitability of a potential director nominee on the basis of written information concerning the candidate, discussions with persons familiar with the background and character of the candidate and personal interviews with the candidate. The Corporate Governance and Nominating Committee also assists the Board in developing and monitoring the Company's corporate governance guidelines.

Attendance at Meetings

The Board held four meetings during 2007. Various matters were also approved by the unanimous written consent of the directors during the last fiscal year. Each director attended at least 75% of the aggregate of (i) the total number of meetings of the Board and (ii) the total number of meetings held by all committees of the Board on which such director served. We have no formal policy with respect to the

attendance of Board members at the annual meeting of shareholders but encourage all incumbent directors and director nominees to attend each annual meeting of shareholders.

Board Charters

The Board has adopted a charter with respect to its governance which includes consideration of director nominees. Additionally, the Compensation, Audit and Corporate Governance and Nominating Committees have adopted Charters with respect to their governance and operation.

Code of Ethics

We have adopted a Code of Ethics that applies to all of our directors, officers and employees. We publicize the Code of Ethics through posting the policy on our website, <http://www.XELR8.com>. We will disclose on our website any waivers of, or amendments to, our Code of Ethics.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The objective of the Company's compensation program is to attract, retain and reward management who demonstrates the required skill to develop the Company into a leader in the nutrition and network marketing field. Through the development of the Company's business plan, the compensation program is designed to incentivize management in the creation of shareholder value. The compensation program has been designed to reward executives for establishing the Company in the network marketing field, developing products that can be successfully sold in that channel and creating shareholder wealth.

Currently the Company has used two elements of compensation for management, current compensation, in the form of cash, and long-term equity compensation in the form of grants of stock option awards. The Company has also used the award of options to replace cash compensation for employees and the issuance of stock as a method of fulfilling its obligations under employment contracts. As the Company has not been profitable since its inception, the Company has not had a cash bonus program, but rather relied on the potential of the long-term awards as incentives to compensate its executives. The Company has identified and disclosed to its executives what levels of profitability would be required in order to create a cash bonus plan. Typically the current compensation is set at a base level, with variances based on the achievement of certain benchmarks with regards to monthly net sales targets.

The cash compensation enables the Company to attract management with the required skills and experience while the awards of stock options are used as a method of retaining executives for long term growth. Additionally, the Company has used the awards of stock and options as a method of reducing cash outflow.

The Company has determined the amount of short and long term compensation based on a number of factors: level of experience of the employee in his or her respective field, prevailing market rates for individuals performing similar functions at competing companies in a similar industry and stage of development of the Company. The Company has attempted to evenly balance the compensation between current and long-term for its executives, with the long-term award requiring some form of vesting, typically over a two or four year period. During the current year, the executives were granted what is typically a long-term compensation award, stock options, in lieu of short term cash compensation, and were vested into their options over a shorter period of time. The Company has also used options on a performance basis for certain individuals, with the achievement of certain goals resulting in the vesting in the options. Going forward the Company intends to base awards to management based on the achievement of certain predetermined sales goals. When evaluating the compensation of executives on an annual basis, the Company has reviewed past compensation received by the executive in both current and long-term awards when determining any additional awards, as well as the achievement of certain sales and profitability targets for selected executives.

Each element of the compensation program is designed to further the Company's goals of attracting and retaining high caliber individuals with the experience to grow the Company and ultimately create and increase shareholder wealth. The incentive based awards were directly tied to the achievement of an objective, whereas the other awards that were based on the vesting period were used as a mechanism to retain skilled executives. In the performance based awards, where either long-term awards are vested or there is an increase in current cash compensation, it is the practice of the Company to link the overall objectives of the Company with the respective objectives for that executive and his or her ability to exercise influence over the outcome.

The following table sets forth information with respect to compensation earned by the executive officers of the Company for 2007 and 2006.

Summary Compensation Table

	2006	163,814							163,814

- (1) Includes auto allowance.
- (2) Mr. Pougnet joined the Company in September 2005 as Chief Financial Officer. On October 11, 2006 he replaced Mr. Earnest Mathis as Chief Executive Officer.
- (3) On March 27, 2007 a principal shareholder, Mr. Sanford Greenberg, granted shares of his own stock to certain employees of the company. Under the guidance issued by the Securities and Exchange Commission in Staff Accounting Bulletin 107 (SAB 107), share-based payments issued to an employee of a reporting entity by a related party or other holder of economic interest in the entity as compensation for services provided to the entity are to be recorded as a compensation expense by the entity.
- (4) On November 17, 2006 the Company agreed to issue to Mr. Greenberg 1,500,000 shares of its common stock in return for an amendment to his current employment agreement pursuant to which he will forfeit all future base salary amounting to \$396,923 due under the agreement and 250,000 vested options in exchange for the issuance of the shares and payment of a sales commission equal to 1% of the net sales until 2019.
- (5) The company uses a Black-Scholes option-pricing model (Black-Scholes model) to estimate the fair value of the stock option grant. The use of a valuation model requires the company to make certain assumptions with respect to selected model inputs. Expected volatility was calculated based on the historical volatility of the company's stock price. In the future the average expected life will be based on the contractual term of the option and expected employee exercise and post-vesting employment termination behavior. Currently it is based on the simplified approach provided by SAB 107. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a remaining term equal to the expected life assumed at the date of the grant. The following were the factors used in the Black Scholes model to calculate the compensation expense:

	For the year ended December 31, 2007
Stock price volatility	96.7 to 98.7%

Edgar Filing: XELR8 HOLDINGS, INC. - Form DEF 14A

Risk-free rate of return	3.34 to 4.95%
Annual dividend yield	0%
Expected life	1.5 to 4.5 Years

Grants of Plan-Based Awards

- (2) The award was granted under the Company's 2003 Stock Incentive Plan. The closing price of the Company's private placement transaction that occurred on the same day was used as the market value of the stock. The employee has five years from the date of issue to exercise the option, and the award was fully vested on the date of the award. The terms of the award are determined by the 2003 Stock Incentive Plan.
- (3) The award was granted under the Company's 2003 Stock Incentive Plan. The employee has five years from the date of issue to exercise the option, and the award will vest over a twenty-two month period. The terms of the award are determined by the 2003 Stock Incentive Plan.

Employment Contracts

During 2006 the Company entered amended employment contracts with Mr. Mathis, Mr. Greenberg and Mr. Pougnet.

On March 2, 2005, in connection with Mr. Greenberg's resignation as Chairman, Chief Executive Officer, and President, Mr. Greenberg's employment agreement was amended and restated to provide that his primary duties involve training, motivating, and recruiting independent distributors. Mr. Greenberg received a salary of \$150,000 per year and may receive bonuses in such amounts as determined by our Board of Directors. On July 10, 2006, Mr. Greenberg's contract was amended to reduce his base salary for a period of one year to \$75,000 and Mr. Greenberg was granted 150,000 options to purchase the Company's common stock. Mr. Greenberg will also be eligible to participate in bonuses on the same basis as our executives under any executive bonus plan adopted by us. Either party may terminate the agreement upon 30 days prior written notice. Additionally, Mr. Greenberg may be terminated for "just cause" as defined in the employment agreement upon one business day's prior written notice. Mr. Greenberg may terminate his employment for "good reason" as defined in employment agreement. If we terminate Mr. Greenberg without just cause or he terminates his employment for good reason, he is entitled to three years salary payable over the 36 month period commencing October 1, 2006 regardless of when terminated. Mr. Greenberg's employment agreement also includes a

(1) The company uses a Black-Scholes option-pricing model (Black-Scholes model) to estimate the fair value of the stock option grant. The use of a valuation model requires the company to make certain assumptions with respect to selected model inputs. Expected volatility was calculated based on the historical volatility of the company's stock price. In the future the average expected life will be based on the contractual term of the option and expected employee exercise and post-vesting employment termination behavior. Currently it is based on the simplified approach provided by SAB 107. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a remaining term equal to the expected life assumed at the date of the grant. The following were the factors used in the Black Scholes model to calculate the compensation expense:

	For the year ended December 31, 2007
Stock price volatility	96.7 to 98.7%
Risk-free rate of return	3.34 to 4.95%
Annual dividend yield	0%
Expected life	1.5 to 4.5 Years

During 2007 the Company compensated all Board members for their participation at Board meetings, and Audit and Compensation Committee meetings. Additionally, the Company paid Mr. Robbins an additional \$15,000 as Chairman of the Audit Committee. Additionally, Messrs. McCandless, Robbins, Rumsey and DiGiandomenico were granted 80,000 options to purchase common stock for their services, while Mr. Petrelli received 60,000 options to purchase common stock for his services. Finally, the Company engaged Mr. McCandless on a monthly basis as a consultant to the Company.

**PROPOSALS OF SHAREHOLDERS FOR PRESENTATION
AT NEXT ANNUAL MEETING OF SHAREHOLDERS**

Any shareholders of record who desire to submit a proper proposal for inclusion in the proxy materials relating to the next annual meeting of shareholders must do so in writing and it must be received at our principal executive offices prior to our calendar year end. SHAREHOLDER COMMUNICATIONS

The Board of Directors believes that, in light of the accessibility of its directors to informal communications, a formal process for shareholders to communicate with directors is unnecessary. Any shareholder communication sent to the Board of Directors will be forwarded to all members of the Board without screening. Any shareholder communication to the Board of Directors should be addressed in care of John D. Pougnet, our Chief Executive Officer and transmitted to us at our offices in Denver, Colorado. In order to assure proper handling, the transmittal envelope should include a notation indicating Board Communication or Director Communication. All such correspondence should identify the author as a shareholder and clearly state whether the intended recipients are all members of the Board or only specified individual directors. Mr. Pougnet will circulate all such correspondence to the appropriate directors.

REPORT OF AUDIT COMMITTEE

The Audit Committee oversees our financial reporting process. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed our audited financial statements in our Annual Report with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of our accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, the Committee has discussed with the independent auditors the auditors' independence from management and from us including the matters in the written disclosures required by the Independence Standards Board and considered the compatibility of non-audit services with the auditors' independence.

The Committee also discussed with our independent auditors the overall scope and plans for their audit. The Committee meets with the independent auditors, to discuss the results of their examinations, their evaluations of our internal controls, and the overall quality of our financial reporting. The Committee held four meetings telephonically during the calendar year ended December 31, 2007.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-KSB for the year ended December 31, 2007 for filing with the Securities and Exchange Commission. The Committee and the Board have also recommended and approved the selection of the Company's independent auditors.
