**ITEM 1.01 ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT.**

As reported on a Current Report on Form 8-K filed on March 5, 2003, Interleukin Genetics, Inc. (the Company) entered into an exclusive license agreement with Access Business Group International LLC ( ABG ), pursuant to which the Company granted an exclusive license to ABG that covered all of its then current and future intellectual property, limited to the field of nutrigenomics and dermagenomics. ABG is an affiliate of Pyxis Innovations Inc., the Company's largest stockholder.

Effective as of September 1, 2008, the parties amended the formerly exclusive license agreement to render the license non-exclusive, thereby generally allowing the Company to license its intellectual property to third parties in addition to ABG. The parties also amended the license agreement to remove the right of first negotiation, which the Company had granted to ABG upon entry into the license agreement, for the commercialization of all of the Company's current and future intellectual property into products/services outside of the field of nutrigenomics and dermagenomics.

A copy of the Company's press release announcing the Company's entry into the amendment to the license agreement is attached hereto as Exhibit 99.1 and is incorporated herein by reference.
