**OPENTABLE, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(UNAUDITED)**

**1. Organization and Description of Business**

OpenTable, Inc., a Delaware corporation (together with its wholly-owned subsidiaries, the Company), was formed on October 13, 1998. The Company provides solutions that form an online network connecting reservation-taking restaurants and people who dine at those restaurants. For restaurant customers, in addition to other products, the Company provides a proprietary Electronic Reservation Book (ERB), which combines proprietary software with computer hardware to deliver a solution that computerizes restaurant host-stand operations and replaces traditional pen-and-paper reservation books. The OpenTable ERB streamlines and enhances a number of business-critical functions and processes for restaurants, including reservation management, table management, guest recognition and email marketing. The Company also provides a web-based product for restaurants called OpenTable Connect (Connect). Like the ERB, Connect allows restaurants to take online reservations via the OpenTable website; however, Connect does not provide the operational benefits that the ERB delivers to reservation-intensive restaurants. For diners, the Company operates www.opentable.com, a popular restaurant reservation website. The OpenTable website enables diners to find, choose and book tables at restaurants on the OpenTable network, overcoming the inefficiencies associated with the traditional process of reserving by phone.

*Certain Significant Risks and Uncertainties*

The Company operates in a dynamic industry, and accordingly, can be affected by a variety of factors. For example, management of the Company believes that changes in any of the following areas could have a significant negative effect on the Company in terms of its future financial position, results of operations or cash flows: the ability to maintain an adequate rate of growth; the impact of the current economic climate on its business; the ability to effectively manage its growth; the ability to attract new restaurant customers; the ability to increase the number of visitors to its website and convert those visitors into diners; and the ability to retain existing restaurant customers and diners or encourage repeat reservations.

**2. Summary of Significant Accounting Policies**

*Principles of Consolidation*

## Edgar Filing: OPENTABLE INC - Form 10-Q

These condensed consolidated financial statements include the accounts of OpenTable, Inc. and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

### ***Basis of Presentation***

The accompanying condensed consolidated financial statements are unaudited. These unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ( GAAP ) and applicable rules and regulations of the Securities and Exchange Commission ( SEC ) regarding interim financial reporting. Certain information and note disclosures normally included in the financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. Accordingly, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2009, as filed on March 11, 2010 with the SEC (the 2009 Annual Report ). The condensed

Table of Contents

consolidated balance sheet as of December 31, 2009, included herein was derived from the audited consolidated financial statements as of that date but does not include all disclosures including notes required by GAAP.

The unaudited interim condensed consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and include all adjustments (consisting only of normal recurring adjustments) necessary for the fair presentation of the Company's statement of financial position at June 30, 2010 and December 31, 2009, and the Company's results of operations for the three and six months ended June 30, 2010 and 2009, and its cash flows for the six months ended June 30, 2010 and 2009. The results for the three and six months ended June 30, 2010 are not necessarily indicative of the results to be expected for the year ending December 31, 2010. All references to June 30, 2010 or to the three or six months ended June 30, 2010 and 2009 in the notes to the condensed consolidated financial statements are unaudited.

The Company has made a reclassification on its condensed consolidated statement of cash flows for the six months ended June 30, 2009 to conform the presentation of accounts payable and accrued expenses to the current period's presentation. In addition, proceeds from issuance of common stock upon exercise of employee stock options have been included within a separate line item within financing activities.

*Use of Estimates*

The preparation of the Company's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. These estimates are based on information available as of the date of the financial statements; therefore, actual results could differ from those estimates.

*Recently Issued Accounting Standards*

In October 2009, the Financial Accounting Standards Board (FASB) issued Topic 605 Revenue Recognition (EITF 08-1, Multiple-Deliverable Revenue Arrangements, (amendments to Topic 605, Revenue Recognition)) and Topic 985 Software (EITF 09-3, Certain Arrangements That Include Software Elements, (amendments to Topic 985, Software)). Topic 605 Revenue Recognition requires entities to allocate revenue in an arrangement using estimated selling prices of the delivered goods and services based on a selling price hierarchy. The amendments eliminate the residual method of revenue allocation and require revenue to be allocated using the relative selling price method. Topic 985 Software removes tangible products from the scope of software revenue guidance and provides guidance on determining whether software deliverables in an arrangement that includes a tangible product are covered by the scope of the software revenue guidance. Topic 605 Revenue Recognition and Topic 985 Software should be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, with early adoption permitted. The Company is currently evaluating the impact of Topic 605 Revenue Recognition and Topic 985 Software on its consolidated financial statements.

Effective January 1, 2010, the Company adopted the FASB's updated guidance related to fair value measurements and disclosures which requires a reporting entity to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and to describe the reasons for the transfers. In addition, in the reconciliation for fair value measurements using significant unobservable inputs, or Level 3 inputs, a reporting entity should disclose separately information about purchases, sales, issuances and settlements (that is, on a gross

## Edgar Filing: OPENTABLE INC - Form 10-Q

basis rather than one net number). The updated guidance also requires that an entity should provide fair value measurement disclosures for each class of assets and liabilities and disclosures about the valuation techniques and inputs used to measure fair value for both recurring and non-recurring fair value measurements for Level 2 and Level 3 fair value measurements. The guidance is effective for interim or annual financial reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll

Table of Contents

forward activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010 and for interim periods within those fiscal years. Adoption of the updated guidance did not have an impact on the Company's consolidated results of operations or financial condition.

**3. Short-Term Investments and Fair Value Measurements**

Short-term investments are summarized as follows:

|                                       | Amortized<br>Cost |    | Unrealized<br>Gains |    | Unrealized<br>Losses |    | Estimated Fair<br>Value |

|                                       | Amortized<br>Cost |    | Unrealized<br>Gains |    | Unrealized<br>Losses |    | Estimated Fair<br>Value |
|---------------------------------------|-------------------|----|---------------------|----|----------------------|----|-------------------------|
| <b>At December 31, 2009:</b>          |                   |    |                     |    |                      |    |                         |
| U.S. government and agency securities | \$ 20,722,000     | \$ | 6,000               | \$ | (7,000)              | \$ | 20,721,000              |
| Certificates of deposit               | 27,131,000        |    | 7,000               |    | (38,000)             |    | 27,100,000              |
| Commercial paper                      | 2,400,000         |    |                     |    |                      |    | 2,400,000               |
| Total                                 | \$ 50,253,000     | \$ | 13,000              | \$ | (45,000)             | \$ | 50,221,000              |

As of December 31, 2009, certain investments with a total estimated fair value of \$976,000 had maturity dates of greater than one year. As of June 30, 2010, there were no investments that had maturity dates of greater than one year.

Investment instruments are classified within Level 1 or Level 2 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. The types of instruments that are generally classified within Level 1 of the fair value hierarchy include money market securities, U.S. government and agency securities and commercial paper. The types of investments that are generally classified within Level 2 of the fair value hierarchy include certificates of deposit. The Company classifies items in Level 2 if the investments are valued using observable inputs to quoted market prices, or other inputs that are observable or can be corroborated by observable market data. Investments are held by a custodian who obtains investment prices from a third party pricing provider that uses standard inputs to models which vary by asset class.

In accordance with Topic 820 Fair Value Measurements and Disclosures, the following table represents the Company's fair value hierarchy for its financial assets:

| Aggregate<br>Fair Value | June 30, 2010 |         | Aggregate<br>Fair Value | December 31, 2009 |         |
|-------------------------|---------------|---------|-------------------------|-------------------|---------|
|                         | Level 1       | Level 2 |                         | Level 1           | Level 2 |

Edgar Filing: OPENTABLE INC - Form 10-Q

|                                       |               |               |               |               |               |               |
|---------------------------------------|---------------|---------------|---------------|---------------|---------------|---------------|
| U.S. government and agency securities | \$ 33,851,000 | \$ 33,851,000 | \$            | \$ 20,721,000 | \$ 20,721,000 | \$            |
| Certificates of deposit               | 17,840,000    |               | 17,840,000    | 27,100,000    |               | 27,100,000    |
| Commercial paper                      |               |               |               | 2,400,000     | 2,400,000     |               |
| Total short-term investments          | \$ 51,691,000 | \$ 33,851,000 | \$ 17,840,000 | \$ 50,221,000 | \$ 23,121,000 | \$ 27,100,000 |

Table of Contents

The Company chose not to elect the fair value option as prescribed by Topic 825 Financial Instruments (Statement of Financial Accounting Standards ( SFAS ) No. 159) for its financial assets and liabilities that had not been previously carried at fair value. Therefore, financial assets and liabilities not carried at fair value, such as accounts payable, are still reported at their carrying values.

**4. Acquired Intangible Assets**

As of June 30, 2010, intangible assets included customer relationships of \$558,000 (net of accumulated of amortization of \$119,000), developed technology of \$281,000 (net of accumulated of amortization of \$93,000) and trademarks of \$6,000 (net of accumulated of amortization of \$9,000). As of December 31, 2009, intangible assets included customer relationships of \$637,000 (net of accumulated of amortization of \$40,000), developed technology of \$344,000 (net of accumulated of amortization of \$30,000) and trademarks of \$11,000 (net of accumulated of amortization of \$4,000). Intangible assets are amortized on a straight-line basis over the estimated useful lives which range from one to four years. Based on the current amount of intangibles subject to amortization, the estimated amortization expense for the succeeding four years is as follows: 2010 (remainder): \$149,000; 2011: \$284,000; 2012: \$253,000; 2013: \$159,000.

**5. Commitments and Contingencies**

The Company leases its facilities under operating leases. Leases expire at various dates through April 2013. The terms of the lease agreements provide for rental payments on a graduated basis. The Company recognizes rent expense on a straight-line basis over the lease period.

*Litigation*

On May 12, 2009, a patent infringement lawsuit was filed against the Company by Mount Hamilton Partners, LLC ( Mount Hamilton ) in the United States District Court for the Northern District of California, seeking, among other things, a judgment that the Company has infringed a certain patent held by Mount Hamilton, an injunctive order against the alleged infringing activities and an award for damages. If an injunction is granted, it could force the Company to stop or alter certain of its business activities, such as certain aspects of the OpenTable Dining Rewards Program. The Company has denied Mount Hamilton's allegations and asserted counterclaims seeking judicial declarations that the Mount Hamilton patent is not infringed, is unenforceable and is invalid. On October 6, 2009, the Company filed a petition for re-examination with the U.S. Patent and Trademark Office ( PTO ), asking the PTO to re-examine the patent in question and requesting that the claims of the Mount Hamilton patent be rejected. In addition, on October 21, 2009, the Company filed a motion in the district court asking the court to stay the current litigation pending the outcome of the requested re-examination proceeding. On December 7, 2009, the PTO granted the Company's petition for re-examination, and in its first non-final office action, rejected all of the claims of the patent at issue. In addition, the district court has stayed all proceedings pending re-examination of the patent, which is currently ongoing. The Company is not currently able to estimate the potential loss, if any, that may result from this claim.

The Company is also subject to various other legal proceedings and claims arising in the ordinary course of business. Although occasional adverse decisions or settlements may occur, management believes there is no litigation pending that could, individually or in the aggregate, have a material adverse effect on the Company's business, financial position, results of operations or cash flows.

**6. Stockholders Equity**

*Common Stock*

On May 21, 2009, the Company completed its initial public offering whereby the Company sold 2,022,684 shares of common stock for a price of \$20.00 per share. As part of the offering 1,427,316 shares were also sold by existing shareholders at a price of \$20.00 per share. Approximately \$5.8 million in offering costs were incurred and have been deducted from additional paid-in capital.

Table of Contents

***Preferred Stock***

Prior to the initial public offering, the Company had outstanding 6,898,187 shares of Series A convertible preferred stock and 2,177,550 shares of Series B convertible preferred stock. Each share of preferred stock was convertible into one share of common stock. The conversion of all shares of preferred stock into 9,075,737 shares of common stock occurred automatically upon the completion of the Company's initial public offering on May 21, 2009.

***Stock-Based Compensation***

The Company accounts for stock-based compensation under Topic 718 – Stock Compensation (SFAS No. 123R), which requires compensation costs related to share-based transactions, including employee stock options, to be recognized in the financial statements based on fair value.

Under Topic 718 – Stock Compensation, the fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing model.

The Company determined weighted average valuation assumptions as follows:

- **Volatility** As the Company does not have an extensive trading history for its common stock, the expected stock price volatility for the Company's common stock was estimated by taking the median historic price volatility for industry peers based on daily price observations over a period equivalent to the expected term of the stock option grants. Industry peers consist of several public companies in the technology industry similar in size, stage of life cycle and financial leverage. The Company did not rely on implied volatilities of traded options in its industry peers common stock because the volume of activity was relatively low.
- **Expected term** The expected term was estimated using the simplified method allowed under Topic 718 (Securities and Exchange Commission Staff Accounting Bulletin No. 110, Share-Based Payment).
- **Risk-free rate** The risk-free interest rate is based on the yields of U.S. Treasury securities with maturities similar to the expected term of the options for each option group.
- **Forfeiture rate** The Company estimated the forfeiture rate based on its historical experience with forfeitures. The Company reviews the estimated forfeiture rates each period end and makes changes as factors affecting the forfeiture rate calculations and assumptions change.

## Edgar Filing: OPENTABLE INC - Form 10-Q

- Dividend yield The Company has never declared or paid any cash dividends and does not presently plan to pay cash dividends in the foreseeable future. Consequently, the Company used an expected dividend yield of zero.

The following table summarizes the assumptions relating to the Company's stock options for the three and six months ended June 30, 2010:

|                         | <b>Three Months Ended<br/>June 30, 2010</b> | <b>Six Months Ended<br/>June 30, 2010</b> |
|-------------------------|---|---|
| Dividend yield          | 0%  | 0%  |
| Volatility              | 52%   | 52%-53%                                   |
| Risk-free interest rate | 2.15%-2.95%                                 | 2.15%-2.95%                               |
| Expected term, in years | 5.50-6.08                                   | 5.50-6.56                                 |

Table of Contents

The Company granted 137,450 stock options during the three months ended June 30, 2010 and 897,430 stock options during the six months ended June 30, 2010. No stock options were granted in the three or six months ended June 30, 2009. The Company recorded stock-based compensation expense of \$1,800,000 and \$725,000 for three months ended June 30, 2010 and 2009, respectively, and \$3,334,000 and \$1,684,000 for the six months ended June 30, 2010 and 2009, respectively.

Topic 718 requires the benefits of tax deductions in excess of recognized compensation expense to be reported as a financing cash flow, rather than as an operating cash flow. This requirement reduces net operating cash flows and increases net financing cash flows. For the three and six months ended June 30, 2010, the Company recorded \$1,444,000 and \$2,734,000, respectively, of excess tax benefits from stock-based compensation and none for the three and six months ended June 30, 2009.

**7. Net Income Per Share**

The Company calculates net income per share in accordance with Topic 260 Earnings per Share (SFAS No. 128, Earnings Per Share). Basic and diluted net income per share attributable to common stockholders are presented in conformity with the two-class method required for participating securities. The Company's weighted average unvested shares subject to repurchase and settle in shares of common stock upon vesting have the non-forfeitable right to receive dividends on an equal basis with common stock and therefore are considered participating securities that must be included in the calculation of net income per share using the two-class method.

***Performance-Based Awards***

Non-vested performance-based awards are included in the diluted shares outstanding each period if established performance criteria have been met at the end of the respective periods. 281,000 and 343,000 shares were excluded from the dilutive shares outstanding for the three months ended June 30, 2010 and 2009, respectively, as the performance criteria had not been met as of the respective dates. 281,000 and 343,000 shares were excluded from the dilutive shares outstanding for the six months ended June 30, 2010 and 2009, respectively, as the performance criteria had not been met as of the respective dates. Anti-dilutive shares in the amounts of 58,000 and 707,000 were excluded from the dilutive shares outstanding for the three months ended June 30, 2010 and 2009, respectively. Anti-dilutive shares in the amounts of 515,000 and 774,000 were excluded from the dilutive shares outstanding for the six months ended June 30, 2010 and 2009, respectively.

| Diluted net income per share   | \$ 0.11                        | \$ 0.03    | \$ 0.21                      | \$ 0.05      |

**Correction of Earnings Per Share** Subsequent to the issuance of the Company's interim financial statements as of June 30, 2009, management of the Company determined that the quarter ended June 30, 2009 basic and diluted net income per share was computed under the if-converted method rather than the required two-class method. Accordingly, a correction has been made herein to the previously reported basic net income per share amount for the quarter ended June 30, 2009. Basic net income per share for the quarter ended June 30, 2009 was previously reported as \$0.05. Using the two-class method, basic net income per share for quarter ended June 30, 2009 is \$0.04. The correction in the June 30, 2009 quarterly net income per share calculation did not impact the diluted net income per share amount or total net income previously reported for such period. The foregoing correction is not considered material by the Company.

**8. Income Taxes**

## Edgar Filing: OPENTABLE INC - Form 10-Q

During the three and six months ended June 30, 2010, the Company recorded income tax expense of \$1,673,000 and \$2,984,000, respectively, which resulted in an effective tax rate of 39% and 37%, respectively. During the three and six months ended June 30, 2009, the Company recorded income tax expense of \$773,000 and \$1,294,000, respectively, which resulted in an effective tax rate of 53% and 55%, respectively. The tax provisions and the effective tax rates for the three and six months ended June 30, 2010 differed from those of the same periods ended June 30, 2009, primarily due to the increase in income before taxes and a reduction in compensation expense related to non-deductible share-based payments in the current year. The expected tax provision derived from applying the federal statutory rate to the Company's income before taxes for the three and six months ended June 30, 2010 differed from the Company's recorded income tax provision primarily due to compensation expense related to non-deductible share-based payments offset by the benefits of the recognition of current year state research and development credits. The Company's effective tax rate for the three and six months ended June 30, 2010 is not necessarily indicative of the effective tax rate that may be expected for fiscal year 2010.

Topic 740 Income Taxes (SFAS No. 109) prescribes that a tax position is required to meet a minimum recognition threshold before being recognized in the financial statements. The Company's gross unrecognized tax benefits as of June 30, 2010 and December 31, 2009 were \$15,500,000 and \$15,000,000, respectively. As of June 30, 2010 and December 31, 2009, the Company recorded \$115,000 and \$32,000, respectively, of accrued interest. No significant penalties have been recorded to date.

Table of Contents

**9. Comprehensive Income (Loss)**

In accordance with Topic 220 – Comprehensive Income (SFAS No. 130, Reporting Comprehensive Income), the Company reports by major components and as a single total, the change in its net assets during the period from non-owner sources. Comprehensive income (loss) consists of net income and accumulated other comprehensive income (loss), which includes certain changes in equity that are excluded from net income. Specifically, it includes cumulative foreign currency translation and the unrealized gain (loss) from investments. Comprehensive income for the three months ended June 30, 2010 and 2009 was \$2,498,000 and \$897,000, respectively.

Accumulated other comprehensive loss of \$243,000 as of June 30, 2010 was comprised of \$6,000 of unrealized gain on investments and \$249,000 of foreign currency translation losses. Accumulated other comprehensive loss of \$128,000 as of December 31, 2009 was comprised of \$32,000 of unrealized loss on investments and \$96,000 of foreign currency translation losses.

**10. Segment Information**

The Company operates in one industry – online reservations and guest management solutions. The Company has two reportable segments: North America and International, as defined by Topic 280 – Segment Reporting (SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information). Reportable segments have been identified based on how management makes operating decisions, assesses performance and allocates resources. The Chief Executive Officer acts as the chief operating decision maker on behalf of both segments. The Company does not allocate assets discretely by reportable segments, and reviews asset information on a global basis, not by segment.

(1) Includes all non-current assets except deferred tax assets, goodwill and intangible assets.

The Company has no customers that individually, or in the aggregate, exceed 10% of revenues or accounts receivable as of and for any of the period presented above.

**11. Subsequent Events**

On August 2, 2010, the Company entered into an asset purchase agreement, pursuant to which the Company agreed to acquire substantially all of the assets and certain liabilities of Table Maestro, a provider of restaurant telephone reservation services and other dining-related services, for a purchase price of \$1.5 million and additional performance-based payments. The consummation of the acquisition is subject to customary closing conditions.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Forward Looking Statements**

*The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q and our 2009 Annual Report.*

This quarterly report on Form 10-Q contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause our results to differ materially from those expressed or implied by such forward-looking statements. The statements contained in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Forward-looking statements are often identified by the use of words such as, but not limited to, anticipate, believe, can, continue, could, estimate, expect, intend, may, will, plan, project, seek, should, target, will, would and similar ex to identify forward-looking statements. These statements are based on the beliefs and assumptions of our management based on information currently available to management. Such forward-looking statements are subject to risks, uncertainties and other important factors that could cause actual results and the timing of certain events to differ materially from future results expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those identified below, and those discussed in the section titled Risk Factors included below and in our 2009 Annual Report. Furthermore, such forward-looking statements speak only as of

Edgar Filing: OPENTABLE INC - Form 10-Q

the date of this report. Except as required by law, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements.

Table of Contents

**Overview**

We provide solutions that form an online network connecting reservation-taking restaurants and people who dine at those restaurants. Our solutions include our proprietary ERB and Connect for restaurant customers and [www.opentable.com](http://www.opentable.com), a popular restaurant reservation website for diners. The OpenTable network includes approximately 14,000 OpenTable restaurant customers spanning all 50 states as well as select markets outside of the United States. Since our inception in 1998, we have seated approximately 160 million diners through OpenTable reservations. Restaurants that use our ERB pay us a one-time installation fee for onsite installation and training, a monthly subscription fee for the use of our software and hardware and a fee for each restaurant guest seated through online reservations. Restaurants that use Connect pay us a monthly subscription fee for the use of our software and a fee for each restaurant guest seated through online reservations. Our online restaurant reservation service is free to diners. For the three months ended June 30, 2010 and 2009, our net revenues were \$22.5 million and \$16.4 million, respectively. For the six months ended June 30, 2010 and 2009, our net revenues were \$43.7 million and \$32.4 million, respectively. For the three months ended June 30, 2010 and 2009, our subscription revenues accounted for 47% and 53% of our total revenues, respectively, and 47% and 53% of total revenue for the six months ended June 30, 2010 and 2009, respectively. For the three months ended June 30, 2010 and 2009, our reservation revenues accounted for 48% and 42% of our total revenues, respectively, and 48% and 43% of total revenue for the six months ended June 30, 2010 and 2009, respectively.

In 2004, we began to selectively expand outside of North America into countries that are characterized by large numbers of online consumer transactions and reservation-taking restaurants. To date, we have concentrated our international efforts in Germany, Japan and the United Kingdom. Our revenues outside of North America for the three months ended June 30, 2010 and 2009 represented 6% and 5% of our total revenues, respectively, and 6% and 5% of total revenue for the six months ended June 30, 2010 and 2009, respectively. We intend to continue to incur substantial expenses in advance of recognizing material related revenues as we attempt to further penetrate our existing international markets and selectively enter new markets. Some international markets may fail to meet our expectations, and we may decide to realign our focus, as we did when we closed our offices in Spain and France in the fourth quarter of 2008.

**Basis of Presentation**

*General*

We report consolidated operations in U.S. dollars and operate in two geographic segments: North America and International. The North America segment is comprised of all of our operations in the United States, Canada and Mexico, and the International segment is comprised of all non-North America operations, which includes operations in Europe and Asia.

*Revenues*

We generate substantially all of our revenues from our restaurant customers; we do not charge any fees to diners. Our revenues include installation fees for our ERB (including training), monthly subscription fees for our ERB and Connect and a fee for each restaurant guest seated through online reservations. Installation fees are recognized on a straight-line basis over an estimated customer life of approximately six years. Subscription revenues are recognized on a straight-line basis during the contractual period over which the service is delivered to our restaurant customers. Revenues from online reservations are recognized on a transaction basis as the diners are seated by the restaurant. Revenues are

## Edgar Filing: OPENTABLE INC - Form 10-Q

shown net of redeemable Dining Points issued to diners. See Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies and Estimates Dining Rewards Loyalty Program in our 2009 Annual Report.

Table of Contents

***Costs and Expenses***

***Operations and support.*** Our operations and support expenses consist primarily of payroll and related costs, including bonuses and stock-based compensation, for those employees associated with installation, support and maintenance for our restaurant customers, as well as costs related to our outsourced call center. Operations and support expenses also include restaurant equipment costs, such as depreciation on restaurant-related hardware, shipping costs related to restaurant equipment, restaurant equipment costs that do not meet the capitalization threshold, referral payments and website connectivity costs. Operations and support expenses also include amortization of capitalized website and internal use software development costs (see Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies and Estimates Website and Software Development Costs in our 2009 Annual Report). Also included in operations and support expenses are travel and related expenses incurred by the employees providing installation and support services for our restaurant customers, plus allocated facilities costs.

***Sales and marketing.*** Our sales and marketing expenses consist primarily of salaries, benefits and incentive compensation for sales and marketing employees, including stock-based compensation. Also included are expenses for trade shows, public relations and other promotional and marketing activities, travel and entertainment expenses and allocated facilities costs.

***Technology.*** Our technology expenses consist primarily of salaries and benefits, including bonuses and stock-based compensation, for employees and contractors engaged in the development and ongoing maintenance of our website, infrastructure and software, as well as allocated facilities costs.

***General and administrative.*** Our general and administrative costs consist primarily of salaries and benefits, including stock-based compensation, for general and administrative employees and contractors involved in executive, finance, accounting, risk management, human resources and legal roles. In addition, general and administrative costs include consulting, legal, accounting and other professional fees. Bad debt, third party payment processor, credit card, bank processing fees and allocated facilities costs are also included in general and administrative expenses.

Headcount consists of full-time equivalent employees, as well as full-time equivalent contractors, in all of the sections noted below.

***Other Income, Net***

Other income, net consists primarily of the interest income earned on our cash accounts. Foreign exchange gains and losses are also included in other income, net.

***Income Taxes***

## Edgar Filing: OPENTABLE INC - Form 10-Q

We are subject to income tax in the United States as well as other foreign tax jurisdictions in which we conduct business. Earnings from our foreign operations are subject to local jurisdictional income tax and may also be subject to current U.S. income tax.

During the three and six months ended June 30, 2010, we recorded income tax expense of \$1.7 million and \$3.0 million, respectively, which resulted in an effective tax rate of 39% and 37%, respectively. During the three and six months ended June 30, 2009, we recorded income tax expense of \$0.8 million and \$1.3 million, respectively, which resulted in an effective tax rate of 53% and 55%, respectively. The tax provisions and the effective tax rates for the three and six months ended June 30, 2010 differed from those of the same periods ended June 30, 2009, primarily due to the increase in income before taxes and a reduction in compensation expense related to non-deductible share-based payments in the current year. The expected tax provision derived from applying the federal statutory rate to our income before taxes for the

Table of Contents

three and six months ended June 30, 2010 differed from our recorded income tax provision primarily due to compensation expense related to non-deductible share-based payments offset by the benefits of the recognition of current year state research and development credits. Our effective tax rate for the three and six months ended June 30, 2010 is not necessarily indicative of the effective tax rate that may be expected for fiscal year 2010.

Factors that impact our income tax provision include, but are not limited to, the compensation expense related to non-deductible share-based payments, recognition of research and development tax benefits and discrete tax benefits arising from the disqualified disposition of certain stock-based compensation awards.

**Critical Accounting Policies and Estimates**

In presenting our financial statements in conformity with accounting principles generally accepted in the United States, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, costs and expenses and related disclosures.

Some of the estimates and assumptions we are required to make relate to matters that are inherently uncertain as they pertain to future events. We base these estimates and assumptions on historical experience or on various other factors that we believe to be reasonable and appropriate under the circumstances. On an ongoing basis, we reconsider and evaluate our estimates and assumptions. Our future estimates may change if the underlying assumptions change. Actual results may differ significantly from these estimates.

There have been no material changes to our critical accounting policies. For further information on our critical and other significant accounting policies, see our 2009 Annual Report.

We believe that the following critical accounting policies involve our more significant judgments, assumptions and estimates and, therefore, could have the greatest potential impact on our consolidated financial statements:

- Revenue Recognition;
- Dining Rewards Loyalty Program;
- Website and Software Development Costs;
- Income Taxes; and
- Stock-Based Compensation.

Table of Contents

**Results of Operations**

The following tables set forth our results of operations for the periods presented and as a percentage of our revenues for those periods. The period-to-period comparison of financial results is not necessarily indicative of future results.

Edgar Filing: OPENTABLE INC - Form 10-Q

Table of Contents

Our technology expenses increased \$0.4 million, or 16%, for the three months ended June 30, 2010 compared to the three months ended June 30, 2009 and \$0.4 million, or 8%, for the six months ended June 30, 2010 compared to the six months ended June 30, 2009. The increase in technology expenses for both the three and six month periods was primarily attributable to increases in headcount related costs, including stock-based compensation expense.

## Edgar Filing: OPENTABLE INC - Form 10-Q

(Dollars in thousands)

|                    |    |       |    |     |    |       |    |       |      |      |
|--------------------|----|-------|----|-----|----|-------|----|-------|------|------|
| Income tax expense | \$ | 1,673 | \$ | 773 | \$ | 2,984 | \$ | 1,294 | 116% | 131% |
|--------------------|----|-------|----|-----|----|-------|----|-------|------|------|

Income tax expense increased \$0.9 million, or 116%, for the three months ended June 30, 2010 compared to the three months ended June 30, 2009 and \$1.7 million, or 131%, for the six months ended June 30, 2010 compared to the six months ended June 30, 2009. Our effective tax rate has decreased in 2010 as compared to 2009 due to our largest permanent difference, non-deductible stock-based compensation, being a smaller percentage of taxable income than experienced in 2009. The increase in income tax expense reflects the increase in income before taxes.

| Cash provided by operating activities                 |                              | 12,871  | 7,824    |
| Cash used in investing activities                     |                              | (6,734) | (28,161) |
| Cash provided by financing activities                 |                              | 3,587   | 35,196   |

As of June 30, 2010, we had cash and cash equivalents of \$29.4 million and short-term investments of \$51.7 million. Cash and cash equivalents consist of cash, money market accounts, certificates of deposit and commercial paper. Short-term investments consist of U.S. government agency securities and certificates of deposit. To date we have experienced no loss or lack of access to our invested cash or cash equivalents; however, we can provide no assurances that access to our invested cash, cash equivalents and short-term investments will not be impacted by adverse conditions in the financial markets.

Amounts deposited with third party financial institutions exceed the Federal Deposit Insurance Corporation and Securities Investor Protection Corporation insurance limits, as applicable. These cash, cash equivalents and short-term investment balances could be impacted if the underlying financial institutions fail or are subjected to other adverse conditions in the financial markets. To date we have experienced no loss or lack of access to our cash, cash equivalents or short-term investments.

We have a \$3.0 million line of credit to fund working capital under which we have no amounts drawn down as of June 30, 2010. This line of credit expires in July 2011.

Prior to 2005, we financed our operations and capital expenditures through operations, private sales of preferred stock, lease financings and the use of a bank-provided line of credit and operations. Since 2005, we have been able to finance our operations, including international expansion, through cash from operating activities and proceeds from the exercise of vested and unvested employee stock options. We had cash and cash equivalents of \$29.4 million at June 30, 2010, which is an increase of \$9.6 million from December 31, 2009. We believe we will have sufficient cash to support our operating activities for at least the next twelve months.

**Operating Activities**

## Edgar Filing: OPENTABLE INC - Form 10-Q

For the six months ended June 30, 2010, operating activities provided \$12.9 million in cash, as a result of net income of \$5.1 million, plus \$3.2 million in depreciation and amortization expense, \$3.3 million in stock-based compensation and a \$3.0 million increase in accrued expenses and compensation.

For the six months ended June 30, 2009, operating activities provided \$7.8 million in cash, as a result of net income of \$1.1 million, plus \$2.5 million in depreciation and amortization expense, \$1.1 million in provision for doubtful accounts and \$1.7 million in stock-based compensation. These amounts were offset by a cash usage of \$1.2 million as a result of an increased accounts receivable balance.

### **Investing Activities**

Our primary investing activities have consisted of purchases and maturities of short-term investments and purchases of property, equipment and software. We expect to have ongoing capital expenditure requirements to support our growing restaurant installed base and other infrastructure needs. We expect to fund this investment with our existing cash, cash equivalents and short-term investments.

Table of Contents

In addition to purchases of property, equipment and software, we purchased \$1.8 million (net of maturities) of short-term investments in the six months ended June 30, 2010 and purchased \$25.4 million (net of maturities) of short-term investments in the six months ended June 30, 2009.

**Financing Activities**

Our primary financing activities consist of proceeds from the issuance and repurchase of common stock, the excess tax benefit from our stock-based compensation plan plus the repayment of cash overdrafts during the six months ended June 30, 2010.

**Off Balance Sheet Arrangements**

As of June 30, 2010, we did not have any off balance sheet arrangements.

**Contractual Obligations**

As of June 30, 2010, there were no significant changes to our contractual obligations.

**Other**

On August 2, 2010, we entered into an asset purchase agreement, pursuant to which we agreed to acquire substantially all of the assets and certain liabilities of Table Maestro, a provider of restaurant telephone reservation services and other dining-related services, for a purchase price of \$1.5 million and additional performance-based payments. The consummation of the acquisition is subject to customary closing conditions.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks in the ordinary course of our business. These risks include primarily interest rate and foreign exchange risks.

**Interest Rate Fluctuation Risk**

## Edgar Filing: OPENTABLE INC - Form 10-Q

We do not have any long-term borrowings.

Our investments include cash, cash equivalents and short-term investments. Cash and cash equivalents consist of cash, money market accounts, certificates of deposit and commercial paper. Short-term investments consist of U.S. government agency securities, commercial paper and certificates of deposit. The primary objective of our investment activities is to preserve principal while maximizing income without significantly increasing risk. We do not enter into investments for trading or speculative purposes. Our investments are exposed to market risk due to a fluctuation in interest rates, which may affect our interest income and the fair market value of our investments. Due to the short-term nature of our investment portfolio, we do not believe an immediate 10% increase in interest rates would have a material effect on the fair market value of our portfolio, and therefore we do not expect our operating results or cash flows to be materially affected to any degree by a sudden change in market interest rates.

Table of Contents

**Foreign Currency Exchange Risk**

We have foreign currency risks related to our revenues and operating expenses denominated in currencies other than the U.S. dollar, principally the British pound sterling, the euro, the Japanese yen, the Canadian dollar and the Mexican peso. We do not believe movements in the foreign currencies in which we transact will significantly affect future net earnings. Foreign currency risk can be quantified by estimating the change in cash flows resulting from a hypothetical 10% adverse change in foreign exchange rates. We believe such a change would not have a material impact on our results of operations.

**Inflation Risk**

We do not believe that inflation has had a material effect on our business, financial condition or results of operations. If our costs were to become subject to significant inflationary pressures, we may not be able to fully offset such higher costs through price increases. Our inability or failure to do so could harm our business, financial condition and results of operations.

ITEM 4. CONTROLS AND PROCEDURES

**Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2010. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of June 30, 2010, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

**Changes in Internal Control over Financial Reporting**

There was no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On May 12, 2009, a patent infringement lawsuit was filed against us by Mount Hamilton in the United States District Court for the Northern District of California, seeking, among other things, a judgment that we have infringed a certain patent held by Mount Hamilton, an injunctive order against the alleged infringing activities and an award for damages. If an injunction is granted, it could force us to stop or alter certain of our business activities, such as certain aspects of the OpenTable Dining Rewards Program. We have denied Mount Hamilton's allegations and asserted counterclaims seeking judicial declarations that the Mount Hamilton patent is not infringed, is unenforceable and is invalid. On October 6, 2009, we filed a petition for re-examination with the PTO, asking the PTO to re-examine the patent in question and requesting that the claims of the Mount Hamilton patent be rejected. In addition, on October 21, 2009, we filed a motion in the district court asking the court to stay the current litigation pending the

Table of Contents

outcome of the requested re-examination proceeding. On December 7, 2009, the PTO granted our petition for re-examination, and in its first non-final office action, rejected all of the claims of the patent at issue. In addition, the district court has stayed all proceedings pending re-examination of the patent, which is currently ongoing. We are not currently able to estimate the potential loss, if any, that may result from this claim.

We are also subject to various other legal proceedings and claims arising in the ordinary course of business. Although occasional adverse decisions or settlements may occur, management believes that there is no litigation pending that could, individually or in the aggregate, have a material adverse effect on our business, financial position, results of operations or cash flows.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Quarterly Report, you should carefully consider the risk factors previously disclosed in Part 1, Item 1A of our 2009 Annual Report. The risks described in our 2009 Annual Report are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

**Our directors, executive officers and principal stockholders have substantial control over us and could delay or prevent a change in corporate control.**

As of June 30, 2010, our directors and executive officers, together with their affiliates, beneficially owned approximately 32% of our outstanding common stock. Of this 32%, approximately 17% was beneficially owned by Benchmark Capital Partners IV, L.P. and J. William Gurley, an individual partner of Benchmark Capital Partners IV, L.P. who serves on our board of directors. In addition, as of June 30, 2010, approximately 33% of our outstanding common stock was held by other holders of more than 5% of our common stock and their affiliates.

These stockholders, acting together, have the ability to control, or have significant influence over, the outcome of matters submitted to our stockholders for approval, including the election of directors and any merger, consolidation or sale of all or substantially all of our assets. In addition, these stockholders, acting together, have the ability to control, or have significant influence over, the management and affairs of our company. Accordingly, this concentration of ownership might harm the market price of our common stock by:

- delaying, deferring or preventing a change in corporate control;
- impeding a merger, consolidation, takeover or other business combination involving us; or
- discouraging a potential acquirer from making a tender offer or otherwise attempting to obtain control of us.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

**Unregistered Sales of Equity Securities**

None.

**Use of Proceeds**

On May 21, 2009, our registration statement on Form S-1 (File No. 333-157034) was declared effective for our initial public offering.

Table of Contents

The net offering proceeds have been invested into short-term investment-grade securities and money market accounts.
