## PROSPECTUS SUMMARY

*The following information is only a summary. You should read this Prospectus and the applicable Prospectus Supplement carefully before you invest in our Shares. Our Shares may be offered directly to one or more purchasers, through agents designated from time to time by us, or to or through underwriters or dealers. The Prospectus Supplement relating to the offering will identify any agents, underwriters or dealers involved in the sale of our Shares, and will set forth any applicable purchase price, fee, commission or discount arrangement between us and our agents or underwriters, or among our underwriters, or the basis upon which such amount may be calculated. See Plan of Distribution. We may not sell any of our Shares through agents, underwriters or dealers without delivery of a Prospectus Supplement describing the method and terms of the particular offering of our Shares.</p>
Use of Proceeds	<p>We intend to use the net proceeds from the sale of our Shares primarily to invest in accordance with our investment objectives and policies. Proceeds will be invested within approximately 60 days of receipt by the Fund. See Use of Proceeds.</p>
Investment Objectives	<p>The Fund's principal investment objective is long-term capital appreciation through investment primarily in equity securities of Australian companies listed on the Australian Stock Exchange Limited ( ASX ). Its secondary objective is current income, which is expected to be derived primarily from dividends and interest on Australian corporate and governmental securities. The Fund's investment objectives may not be changed without the approval of a majority of the Fund's outstanding voting securities. See Investment Objectives.</p>

Investment Policies

The Fund will normally invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in equity securities, consisting of common stock, preferred stock and convertible stock, of Australian companies listed on the ASX. For these purposes, Australian companies means companies that are tied economically to Australia. The Fund may invest up to 10% of its total assets in unlisted equity securities. It may also invest in debt securities issued by Australian companies, Australian Federal and State governments and the U.S. government. Such debt securities will be rated in one of the four highest rating categories by a nationally recognized statistical rating organization or, if unrated, determined to be of comparable quality by the Investment Manager, and will typically have a maturity of 10 years or less. The Fund's investments in any one industry or group of industries are generally limited to 25% of its total assets, except that it may invest between 25% and 35% of its total assets in securities of an industry group that, at the time of investment, represents 20% or more of the S&P/ASX 200 Accumulation Index. The Fund has authority to engage in options transactions, to enter into repurchase agreements, and to lend its portfolio securities. See Investment Policies.

Investment Restrictions

The Fund has certain investment restrictions that may not be changed without approval by a majority of the Fund's outstanding voting securities. These restrictions concern issuance of senior securities, borrowing, lending, concentration, diversification and other matters. See Investment Restrictions.

Risks (See generally Risks and Special Considerations for more information on these and other risks) The value of the Fund's assets, as well as the market price of its shares, will fluctuate. You can lose money on your investment. Investing in the Fund involves other risks, including the following:

- *Currency Exchange Rate Fluctuations.* The Fund invests substantially in instruments denominated in foreign currencies—primarily the Australian dollar, but also the New Zealand dollar. Fluctuations in the value of these non-U.S. currencies relative to the U.S. dollar can adversely affect the U.S. dollar value of the Fund's assets. A decline in the value of such a foreign currency can require the Fund to liquidate portfolio securities to pay distributions previously calculated in U.S. dollars and can increase the relevant foreign currency cost of expenses incurred in U.S. dollars. Currency exchange losses can reduce or eliminate the Fund's ability to make ordinary income distributions.
- *Foreign Securities.* In addition to foreign currency risks, investments in non-U.S. securities involve risk of loss in the event of tax increases or adverse political, economic or diplomatic developments in Australia and New Zealand. The Australian securities market for both listed and unlisted securities may be more volatile and is less liquid than the major U.S. markets, and investing in non-U.S. securities may involve greater costs plus more uncertainty regarding legal protections. Regulatory oversight of markets and custody facilities may differ from that in the U.S.

- *Australian Securities Risk.* Because the Fund's investments are primarily in Australian securities, the Fund is particularly vulnerable to loss in the event of adverse political, economic, financial and other developments that affect Australia, including fluctuations of Australian currency versus the U.S. dollar. Also, Australia is located in a part of the world that has historically been prone to natural disasters such as drought and is economically sensitive to environmental events. Any such event could result in a significant adverse impact on the Australian economy.
- *Concentration.* The Fund may invest up to 35% of its total assets in securities of an industry group that, at the time of investment, represents 20% or more of the S&P/ASX 200 Accumulation Index. An industry sector can include more than one industry group. As of October 31, 2010, 30% of the Fund's total assets were invested in the financials sector of the Standard & Poor's Global Industry Classification Sectors. While the Fund did not concentrate its investments in the materials sector, as of October 31, 2010, 23.6% of the Fund's total assets were invested in the materials sector. Such a concentration or significant amount of investments in a single industry sector makes the Fund particularly vulnerable to adverse economic, political or other developments affecting that sector. Concentration in the financials sector may make the Fund vulnerable to risks of regulation, consolidation, financial innovation and technological progress. Significant exposure to the materials sector may also make the Fund vulnerable to risks that the issuers in such sector will underperform the market as a whole due to legislative or regulatory changes and/or increased competition affecting that sector.
- *Net Asset Value Discount.* Shares of the Fund, a closed-end investment company, may trade in the market at a discount from their net asset value.
- *Distribution Rate.* There can be no assurance that the Board will maintain the Fund's distribution rate at a particular level, or that the Board will continue a managed distribution policy. Additionally, distributions may include return of capital as well as net investment income and capital gains. If the Fund's investments do not generate sufficient income, the Fund may be required to liquidate a portion of its portfolio to fund these distributions. See Dividends and Distributions.
- *Non-Diversified Fund.* As a non-diversified investment company, the Fund can invest more of its assets in fewer issuers than an investment company that is diversified, exposing the Fund to greater risk.
- *Share Repurchases.* When the Fund repurchases its shares pursuant to the Fund's share repurchase program, the resulting decrease in shares outstanding may increase the Fund's expense ratio; any borrowing to finance repurchases would reduce net income; and any sales of portfolio securities to finance repurchases may not be at a preferred time from a portfolio management perspective and would increase portfolio turnover and related expenses.
- *Anti-Takeover Provisions.* The Fund's charter and bylaws contain several provisions that may be regarded as anti-takeover because they have the effect of maintaining continuity of management. Also, Articles Supplementary approved by the Board of Directors subject the Fund to certain provisions of the Maryland General Corporation Law with respect to unsolicited takeovers. See Certain Provisions of the Maryland General Corporation Law and the Charter and Bylaws.

- *Leverage.* The Fund has authority to issue preferred stock and to borrow to finance investments. Each of these is a form of leverage that entails particular risks for holders of the Fund's common stock. The issuance of preferred stock would affect the amount of income available for distribution on the Fund's common stock as well as the net asset value of the common stock and the voting rights of holders of common stock. Leverage would exaggerate the effects of both currency fluctuations and of market downturns or upturns on the net asset value and market value of the Fund's common stock, as well as on distributions to holders of common stock. Leverage can also increase the volatility of the Fund's net asset value, and expenses related to leverage can reduce the Fund's income. In the case of leverage, if Fund assets decline in value so that legal asset coverage requirements for any preferred stock or borrowings would not be met, the Fund may be prevented from paying distributions, which could jeopardize its qualification for pass-through tax treatment, make it liable for excise taxes and/ or force it to sell portfolio securities at an inopportune time. Holders of preferred stock have the right to elect two directors, and such holders, as well as Fund creditors, have the right under certain circumstances to elect a majority of the Fund's directors.
- *Unlisted Securities.* The Fund may invest up to 10% of its total assets in unlisted equity securities. Because the market for unlisted securities is not liquid, it may be difficult for the Fund to sell these securities at a desirable price. Unlisted securities are not subject to the disclosure and other investor protection requirements of Australian law applicable to listed securities.
- *Securities Lending.* With respect to loans of its portfolio securities, the Fund is exposed to risks of loss in the event of default or bankruptcy of the borrower, and in the event that the return on the loan, or on invested collateral, will be less than the related costs.
- *Options.* Options strategies may not be successful if the Investment Adviser's expectations about market trends are not fulfilled. These strategies can also increase portfolio turnover and involve costs to the Fund.
- *Repurchase Agreements.* These transactions involve risks in the event of counterparty default or insolvency.

The Fund's investment manager is Aberdeen Asset Management Asia Limited (Investment Manager), a Singapore corporation located at 21 Church Street, #01-01 Capital Square Two, Singapore 049480. The Investment Manager serves as investment manager to both equity and fixed income investment portfolios for a range of clients. The Fund's investment adviser is Aberdeen Asset Management Limited ( Investment Adviser ), an Australian corporation affiliated with the Investment Manager. The Investment Adviser is located at Level 6, 201 Kent Street, Sydney, NSW 2000, Australia. The Investment Adviser's principal business focus is to provide investment management services with regard to equity and fixed income investments in Australian securities. The Investment Adviser makes recommendations to the Investment Manager as to specific portfolio securities to be purchased, retained or sold by the Fund and provides or obtains such research and statistical data as may be necessary in connection therewith.

The Investment Adviser is a wholly-owned subsidiary of the Investment Manager. The Investment Manager is a wholly-owned subsidiary of Aberdeen Asset Management PLC ( Aberdeen PLC ), a Scots company, that is the parent company of an asset management group (the Aberdeen Group ) managing approximately \$261.18 billion of assets as of August 31, 2010 for both institutions and private individuals from offices around the world. See Management of the Fund The Investment Manager and the Investment Adviser.

The Fund pays a fee to the Investment Manager computed at the annual rate of 1.10% of the Fund's average weekly Managed Assets (defined as net assets plus the amount of any borrowings for investment purposes) up to \$50 million, 0.90% of such assets between \$50 million and \$100 million, and 0.70% of such assets in excess of \$100 million, computed as of the end of each week and payable at the end of each calendar month.

The Investment Manager pays the fees of the Investment Adviser. These fees are computed at the annual rate of 0.30% of the Fund's average weekly Managed Assets up to \$50 million, 0.25% of such assets between \$50 million and \$100 million, and 0.15% of such assets in excess of \$100 million, computed as of the end of each week and payable at the end of each calendar month.

Portfolio Managers

The following persons have day-to-day management of the Fund's portfolio: Hugh Young, Managing Director of the Investment Manager; Augustine Mark Daniels, a Director of the Investment Adviser; and Michelle Lopez, Robert Penaloza and Natalie Tam. See Management of the Fund Portfolio Management.

Administrator

Aberdeen Asset Management Inc., 1735 Market Street, 32nd Floor, Philadelphia, Pennsylvania 19103, acts as the Fund's administrator ( Administrator ). The Administrator is a subsidiary of Aberdeen PLC and an affiliate of the Investment Manager and Investment Adviser. The Fund pays a fee to the Administrator at an annual rate equal to 0.08% of the Fund's average weekly Managed Assets between \$0 and \$500 million, 0.07% of such assets between \$500 million and \$1.5 billion, and 0.06% of such assets in excess of \$1.5 billion. The Administrator delegates certain of its responsibilities to a sub-administrator, State Street Bank and Trust Company. See Management of the Fund Administrator.

Custodian and Transfer Agent	State Street Bank and Trust Company, One Heritage Drive, North Quincy, Massachusetts 02171, acts as the Fund's custodian. Computershare Trust Company, N.A. and Computershare Inc., 250 Royall Street Canton, Massachusetts 02021, act as the Fund's stock transfer agent and dividend paying agent, respectively. Computershare Trust Company, N.A. also sponsors and administers a Dividend Reinvestment and Direct Stock Purchase Plan which is available to shareholders. See Management of the Fund Custodian and Transfer Agent.
Dividends and Distributions	The Board of Directors has implemented a managed distribution policy of paying quarterly distributions at an annual rate, set once a year, that is a percentage of the rolling average of the Fund's prior four quarter-end net asset values. The current rolling distribution rate is 10%, but this rate may be changed by the Board in response to, among other things, market conditions. A significant portion of the Fund's distributions for the fiscal year ended October 31, 2009 represented a return of capital (rather than income or capital gains). If the Fund's distributions were to continue to consist of a large amount of return of capital, it would result in a deterioration of the Fund's assets. There can be no assurance that the Board will continue a managed distribution policy. See Dividends and Distributions.
Dividend Reinvestment and Direct Stock Purchase Plan	Computershare Trust Company, N.A. sponsors and administers a Dividend Reinvestment and Direct Stock Purchase Plan (the Plan) which is available to shareholders. Additional information about the Plan and a brochure that includes the terms and conditions of the Plan may be obtained at <a href="http://www.computershare.com/buyaberdeen">www.computershare.com/buyaberdeen</a> or by calling Computershare Trust Company, N.A. at 1-800-647-0584. For both purchases and reinvestment purposes, shares acquired through the Plan will be purchased in the open market at the current share price and cannot be issued directly by the Fund.
Taxation	Withholding and/or other taxes may apply in the countries in which the Fund invests, which will reduce the Fund's cash return in those countries. The Fund intends to elect, when eligible, to pass-through to the Fund's shareholders the ability to claim (subject to limitations) a deduction or credit for the amount of foreign income and similar taxes paid by the Fund. Tax considerations for an investor in the Fund are summarized under Taxation. See also Risks and Special Considerations.
Share Repurchase Program	Under the Fund's share repurchase program, the Fund is permitted to repurchase up to 10% of its outstanding shares on the open market during any 12-month period if and when the discount from net asset value is at least 8%. The Fund may borrow to repurchase shares under this program. There have not been any repurchases of shares under this program since 2009. Applicable law may prevent such repurchases during the offering of the Shares described herein. See Description of Shares-Share Repurchase Program.
