PROSPECTUS SUPPLEMENT SUMMARY

The following information is only a summary. You should consider the more detailed information contained in this Prospectus Supplement, the accompanying Prospectus, dated December 8, 2010, and the SAI, dated December 8, 2010, especially the information under "Risks and Special Considerations" on page 17 of the accompanying Prospectus.

The Fund

The Fund is a non-diversified, closed-end management investment company organized as a Maryland corporation.

The Fund's principal investment objective is long-term capital appreciation. Its secondary objective is current income, which is expected to be derived primarily from dividends and interest on Australian corporate and governmental securities.

The Fund will normally invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in equity securities, consisting of common stock, preferred stock and convertible stock, of Australian companies listed on the Australian Stock Exchange Limited. For these purposes, Australian companies means companies that are tied economically to Australia. The Fund may invest up to 10% of its total assets in unlisted equity securities. It may also invest in debt securities issued by Australian companies, Australian Federal and State governments and the U.S. government. Such debt securities will be rated in one of the four highest rating categories by a nationally recognized statistical rating organization or, if unrated, determined to be of comparable quality by the Investment Manager (as defined), and will typically have a maturity of 10 years or less. The Fund's investments in any one industry or group of industries are generally limited to 25% of its total assets, except that it may invest between 25% and 35% of its total assets in securities of an industry group that, at the time of investment, represents 20% or more of the S&P/ASX 200 Accumulation Index. The Fund has authority to engage in options transactions, to enter into repurchase agreements, and to lend its portfolio securities. See "Investment Policies" in the accompanying Prospectus.

The Fund's Common Shares are listed for trading on the Amex under the symbol "IAF." As of December 8, 2010, the net assets of the Fund were \$224,933,443 and the Fund had outstanding 19,277,602 Common Shares. The last reported sale price of the Fund's Common Shares, as reported on the Amex on December 8, 2010 was \$12.94 per share. The net asset value of the Fund's Common Shares at the close of business on December 8, 2010 was \$11.67 per share.

Investment Manager and Investment Adviser

The Fund's investment manager is Aberdeen Asset Management Asia Limited ("Investment Manager"), a Singapore corporation located at 21 Church Street, #01-01 Capital Square Two, Singapore 049480. The Investment Manager serves as investment manager to both equity and fixed income investment portfolios for a range of clients. The Investment Manager, in accordance with the Fund's stated investment objectives, policies and limitations and subject to the supervision of the Fund's Board of Directors, manages the Fund's investments and makes investment decisions on behalf of the Fund, including the

selection of, and being responsible for the placement of orders with, brokers and dealers to execute the Fund's portfolio transactions.

The Fund's investment adviser is Aberdeen Asset Management Limited ("Investment Adviser"), an Australian corporation affiliated with the Investment Manager. The Investment Adviser is located at Level 6, 201 Kent Street, Sydney, NSW 2000, Australia. The Investment Adviser's principal business focus is to provide investment management services with regard to equity and fixed income investments in Australian securities. The Investment Adviser makes recommendations to the Investment Manager as to specific portfolio securities to be purchased, retained or sold by the Fund and provides or obtains such research and statistical data as may be necessary in connection therewith.

The Investment Adviser is a wholly-owned subsidiary of the Investment Manager. The Investment Manager is a wholly-owned subsidiary of Aberdeen Asset Management PLC, a Scots company, that is the parent company of an asset management group managing approximately \$261.18 billion of assets as of August 31, 2010 for both institutions and private individuals from offices around the world. See "Management of the Fund The Investment Manager and the Investment Adviser" in the accompanying Prospectus.

The Offering

Common Shares Being Offered:	2,500,000shares
Common Shares To Be Outstanding After Offering:	21,777,602shares

The number of Common Shares offered and outstanding after the offering assumes the underwriters' over-allotment option is not exercised. If the over-allotment option is exercised in full, the Fund will issue an additional 375,000 Common Shares and will have 22,152,602 Common Shares outstanding after the offering.

The Fund's Common Shares have recently traded at a premium to net asset value ("NAV") per share and the price of the Common Shares being offered is expected to be above net asset value per share. Shares of closed-end investment companies, such as the Fund, frequently trade at a price below their NAV. The Fund cannot predict whether its Common Shares will trade at a premium or a discount to NAV.

Use of Proceeds

The Fund intends to invest the net proceeds of the offering in accordance with its investment objectives and policies as stated in the accompanying Prospectus. It is currently anticipated that the Fund will be able to invest substantially all of the net proceeds of the offering in accordance with its investment objectives and policies within approximately 60 days after completion of the offering. Pending such investment, the Fund anticipates investing the proceeds in short-term securities issued by the U.S. government or its agencies or instrumentalities or in high quality, short-term or long-term debt obligations or money market instruments.

Risks and Special Considerations

See "Risks and Special Considerations" beginning on page 17 of the accompanying Prospectus for a discussion of factors you should consider carefully before deciding to invest in the Fund's Common Shares.

DISTRIBUTIONS

The Board of Directors of the Fund has implemented a managed distribution policy of paying quarterly distributions at an annual rate, set once a year, that is a percentage of the rolling average of the Fund's four quarter-end net asset values. The current rolling distribution rate is 10%. This policy is subject to regular review by the Fund's Board of Directors. The distributions are made from current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital. Persons who purchase Common Shares in this offering will be entitled to any regular quarterly distributions the record date for which occurs after the Common Shares are purchased. On December 8, 2010, the Board of Directors of the Fund declared a quarterly distribution of 28 cents per Common Share, payable on January 14, 2011 to all shareholders of record as of December 30, 2010.

The amounts of the last four distributions paid by the Fund are as set out below:

Payment Date	Distribution per Common Share
October 15, 2010	\$ 0.27
July 16, 2010	\$ 0.27
April 16, 2010	\$ 0.25
January 15, 2010	\$ 0.22

See "Dividends and Distributions" in the accompanying Prospectus.

The following table and example are intended to assist you in understanding the various costs and expenses directly or indirectly associated with investing in Common Shares of the Fund. Some of the percentages indicated in the table below are estimates and may vary.

Shareholder Transaction Expenses	
Sales Load (underwriting discounts and commissions) (as a percentage of offering price)	4.0%
Offering Expenses Borne by the Fund (as a percentage of offering price)	0.88%

Annual Operating Expenses (as a percentage of average net assets attributable to the Fund's Common Shares)

(2) "Other Expenses" have been estimated for the current fiscal year.

(3) Includes an administration fee of 0.08% of average net assets attributable to the Fund's Common Shares.

Example

An investor would pay the following expenses on a \$1,000 investment in the Fund, assuming (1) Total Annual Operating Expenses of 1.28%, (2) a Sales Load of \$40 and estimated offering expenses of \$8.75 and (3) a 5% annual return:

	One Year	Three Years	Five Years	Ten Years
\$	61	\$ 87	\$ 116	\$ 196

The "Example" assumes that all dividends and other distributions are reinvested at net asset value and that the percentage amounts listed in the table above under Total Annual Operating Expenses remain the same in the years shown. The above table and example and the assumption in the example of a 5% annual return are required by regulations of the SEC that are applicable to all investment companies; the assumed 5% annual return is not a prediction of, and does not represent, the projected or actual performance of the Fund's Common Shares.

The example should not be considered a representation of past or future expenses, and the Fund's actual expenses may be greater than or less than those shown. Moreover, the Fund's actual rate of return may be greater or less than the hypothetical 5% return shown in the example.

USE OF PROCEEDS

The Fund estimates the net proceeds from this offering will be approximately \$29,726,700 (or \$34,226,700 if the underwriters exercise their over-allotment option to purchase additional Common Shares in full), after deducting the sales load and estimated offering expenses payable by the Fund.

The Fund intends to invest the net proceeds of the offering in accordance with its investment objectives and policies as stated in the accompanying Prospectus. It is currently anticipated that the Fund will be able to invest

Edgar Filing: ABERDEEN AUSTRALIA EQUITY FUND INC - Form 497

substantially all of the net proceeds of the offering in accordance with its investment objectives and policies within approximately 60 days after completion of the offering. Pending such investment, the Fund anticipates investing the proceeds in short-term securities issued by the U.S. government or its agencies or instrumentalities or in high quality, short-term or long-term debt obligations or money market instruments.

UNDERWRITING

Citigroup Global Markets Inc. and Morgan Stanley & Co. Incorporated are acting as representatives of the underwriters (the "Underwriters") named below. Subject to the terms and conditions stated in the underwriting agreement, dated the date of this Prospectus Supplement, each Underwriter named below has agreed to purchase, and the Fund has agreed to sell to that Underwriter, the number of Common Shares set forth opposite the Underwriter's name.

Name of Underwriter	Number of Common Shares
Citigroup Global Markets Inc.	1,250,000
Morgan Stanley & Co. Incorporated	1,250,000
Total	2,500,000

The underwriting agreement provides that the obligations of the Underwriters to purchase the Common Shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The Underwriters are obligated to purchase all the Common Shares (other than those covered by the over-allotment option described below) if they purchase any of the Common Shares. The Underwriters propose to offer some of the Common Shares directly to the public at the public offering price set forth on the cover page of this Prospectus Supplement and some of the Common Shares to dealers at the public offering price less a concession not to exceed \$0.30 per Common Share. The sales load the Fund will pay of \$0.50 per Common Share is equal to

4.0% of the public offering price. The Underwriters may allow, and the dealers may reallow, a concession not to exceed \$0.10 per Common Share on sales to other dealers. If all of the Common Shares are not sold at the public offering price, the representatives may change the public offering price and other selling terms. Investors must pay for any Common Shares purchased on or before December 14, 2010. The representatives have advised the Fund that the Underwriters do not intend to confirm any sales to any accounts over which they exercise discretionary authority.

The Fund has granted to the Underwriters an option, exercisable for 45 days from the date of this Prospectus Supplement, to purchase up to an additional 375,000 Common Shares at the public offering price per Common Share, less the sales load. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, in connection with this offering. To the extent the option is exercised, each Underwriter will be obligated, subject to certain conditions, to purchase a number of additional Common Shares approximately proportionate to such Underwriter's initial purchase commitment.

The Fund's currently outstanding Common Shares are, and the Common Shares offered by this Prospectus Supplement and the accompanying Prospectus will be, subject to notice of issuance, listed on the Amex under the trading or "ticker" symbol "IAF."

The Fund, the Investment Manager and the Investment Adviser have agreed that the Fund will not, without the prior written consent of Citigroup Global Markets Inc. and Morgan Stanley & Co. Incorporated, offer, sell, contract to sell, pledge, or otherwise dispose of, or enter into any transaction which is designed to, or might reasonably be expected to, result in the disposition (whether by actual disposition or effective economic disposition due to cash settlement or otherwise) by the Fund or any affiliate of the Fund or any person in privity with the Fund, directly or indirectly, including the filing (or participation in the filing) of a registration statement with the SEC in respect of, or establish or increase a put equivalent position or liquidate or decrease a call equivalent position within the meaning of Section 16 of the Securities Exchange Act of 1934, as amended, any other Common Shares or any securities convertible into, or exercisable, or exchangeable for, Common Shares; or publicly announce an intention to effect any such transaction for a period of 150 days after the date of the underwriting agreement. In the event that either: (a) during the last 17 days of the 150-day period referred to above, the Fund issues an earnings release or material news or material event relating to the Fund; or (b) prior to the expiration of such 150-day period, the Fund announces that it will release earning results during the 16-day period beginning on the last day of such 150-day period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the date of the earnings release or the occurrence of the material news or material event, as applicable.

The following table shows the sales load that the Fund will pay to the Underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the Underwriters' option to purchase additional Common Shares.

	Paid by the Fund	
	No Exercise	Full Exercise
Per Share	\$ 0.50	\$ 0.50
Total	\$ 1,250,000	\$ 1,437,500

In connection with the offering, one or more of the Underwriters may purchase and sell Common Shares in the open market. These transactions may include short sales, syndicate covering transactions and stabilizing transactions. Short sales involve syndicate sales of Common Shares in excess of the number of Common Shares to be purchased by the Underwriters in the offering, which creates a syndicate short position. "Covered" short sales are sales of shares made in an amount up to the number of Common Shares represented by the Underwriters' over-allotment option. In determining the source of Common Shares to close out the covered syndicate short position, the Underwriters will consider, among other things, the price of Common Shares available for purchase in the open market as compared to the price at which they may purchase Common Shares through the over-allotment option. Transactions to close out the covered syndicate short involve either purchases

of Common Shares in the open market after the distribution has been completed or the exercise of the over-allotment option. The Underwriters may also make "naked" short sales of Common Shares in excess of the over-allotment option. The Underwriters must close out any naked short position by purchasing Common Shares in the open market. A naked short position is more likely to be created if the Underwriters are concerned that there may be downward pressure on the price of the Common Shares in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of bids for or purchases of Common Shares in the open market while the offering is in progress.

The Underwriters may also impose a penalty bid. Penalty bids permit the Underwriters to reclaim a selling concession from a syndicate member when the representatives repurchase Common Shares originally sold by that syndicate member in order to cover syndicate short positions or make stabilizing purchases.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the Common Shares. They may also cause the price of the Common Shares to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The Underwriters may conduct these transactions on the Amex or in the over-the-counter market, or otherwise. If the Underwriters commence any of these transactions, they may discontinue them at any time.

A Prospectus Supplement and accompanying Prospectus in electronic format may be made available on the websites maintained by one or more of the Underwriters. Other than this Prospectus Supplement and the accompanying Prospectus in electronic format, the information on any such Underwriter's website is not part of this Prospectus Supplement or the accompanying Prospectus. The representatives may agree to allocate a number of Common Shares to the Underwriters for sale to their online brokerage account holders. The representatives will allocate Common Shares to Underwriters that may make Internet distributions on the same basis as other allocations. In addition, Common Shares may be sold by the Underwriters to securities dealers who resell Common Shares to online brokerage account holders.

The Fund anticipates that from time to time certain of the Underwriters may act as brokers or dealers in connection with the execution of the Fund's portfolio transactions after they have ceased to be Underwriters and, subject to certain restrictions, may act as brokers while they are Underwriters. Certain Underwriters have performed investment banking and advisory services for the Investment Manager and the Investment Adviser and their affiliates from time to time, for which they have received customary fees and expenses. Certain Underwriters may, from time to time, engage in transactions with or perform services for the Investment Manager and the Investment Adviser and their affiliates in the ordinary course of business.

The Fund, the Investment Manager and the Investment Adviser each have agreed to indemnify the Underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"), or to contribute to payments the Underwriters may be required to make because of any of those liabilities.

Total underwriting compensation determined in accordance with Financial Industry Regulatory Authority ("FINRA") rules is summarized as follows. The sales load the Fund will pay of \$0.50 per share is equal to 4.0% of gross proceeds.

The principal business address of Citigroup Global Markets Inc. is 388 Greenwich Street, New York, NY 10013. The principal business address of Morgan Stanley & Co. Incorporated is 1585 Broadway, New York, New York 10036.

No action has been taken in any jurisdiction (except in the United States) that would permit a public offering of Common Shares, or the possession, circulation or distribution of this Prospectus Supplement and the accompanying Prospectus or any other material relating to the Fund or the Common Shares in any jurisdiction where action for that purpose is required. Accordingly, Common Shares may not be offered or sold, directly or indirectly, and neither this Prospectus Supplement and the accompanying Prospectus nor any other offering material or advertisements in connection with the Common Shares may be distributed or published, in or from

any country or jurisdiction except in compliance with the applicable rules and regulations of any such country or jurisdiction.

Director Ownership of Underwriter Securities

As of the date of this Prospectus Supplement, Brian Sherman, a director of the Fund, beneficially owns approximately \$7 million of debt securities issued by Citigroup Global Markets Inc. or an entity directly or indirectly controlling, controlled by, or under common control with, Citigroup Global Markets Inc. and approximately \$7 million of debt securities issued by Morgan Stanley & Co. Incorporated or an entity directly or indirectly controlling, controlled by, or under common control with, Morgan Stanley & Co. Incorporated. These holdings represent a de minimis amount of the total outstanding debt of the respective parent companies of such Underwriters. As a result of such beneficial ownership, Mr. Sherman will be treated as an "interested person" (as that term is defined in Section 2(a)(19) of the 1940 Act) of the Fund, during and until the completion of this offering.

Aberdeen Australia Equity Fund, Inc. ("Fund," "we," "us" or "our") is a non-diversified, closed-end management investment company. The Fund's principal investment objective is long-term capital appreciation through investment primarily in equity securities of Australian companies listed on the Australian Stock Exchange Limited. The Fund's secondary investment objective is current income.

The Prospectus Supplement relating to the offering will identify any agents or underwriters involved in the sale of our Shares, and will set forth any applicable purchase price, fee, commission or discount arrangement between us and our agents or underwriters, or among our underwriters, or the basis upon which such amount may be calculated. We may not sell any of our Shares through agents, underwriters or dealers without delivery of a Prospectus Supplement describing the method and terms of the particular offering of our Shares.

Our Shares are listed on the NYSE Amex ("Amex") under the symbol "IAF." The last reported sale price of our Shares, as reported by the Amex on November 10, 2010, was \$13.20 per Share. The net asset value of our Shares at the close of business on November 10, 2010, was \$11.93 per Share.

Investment in the Shares involves certain risks and special considerations, including risks associated with currency fluctuations. The Fund also has authority (which it has not exercised) to borrow to finance investments and to issue preferred stock. Both practices entail risks. For a discussion of these and other risks, see "Risks and Special Considerations."

Shares of closed-end investment companies frequently trade at a discount to their net asset value. If the Fund's Shares trade at a discount to its net asset value, the risk of loss may increase for purchasers in a public offering. See "Risks and Special Considerations-Net Asset Value Discount."

PROSPECTUS SUMMARY

The following information is only a summary. You should consider the more detailed information contained in the Prospectus and in any related Prospectus Supplement and in the SAI before purchasing Shares, especially the information under "Risks and Special Considerations" on page 17 of the Prospectus.

The Fund The Fund is a non-diversified, closed-end management investment company organized as a Maryland corporation. See "The Fund."

The Fund's Shares are listed for trading on the Amex under the symbol "IAF." As of November 10, 2010, the net assets of the Fund were \$229,919,324 and the Fund had outstanding 19,277,602 Shares. The last reported sale price of the Fund's Shares, as reported by the Amex on November 10, 2010 was \$13.20 per Share. The net asset value of the Fund's Shares at the close of business on November 10, 2010 was \$11.93 per Share. See "Description of Shares."

The Offering We may offer, from time to time, in one or more offerings, including through rights offerings, up to \$130,000,000 of our Shares on terms to be determined at the time of the offering. The Shares may be offered at prices and on terms to be set forth in one or more Prospectus Supplements. You should read this Prospectus and the applicable Prospectus Supplement carefully before you invest in our Shares. Our Shares may be offered directly to one or more purchasers, through agents designated from time to time by us, or to or through underwriters or dealers. The Prospectus Supplement relating to the offering will identify any agents, underwriters or dealers involved in the sale of our Shares, and will set forth any applicable purchase price, fee, commission or discount arrangement between us and our agents or underwriters, or among our underwriters, or the basis upon which such amount may be calculated. See "Plan of Distribution." We may not sell any of our Shares through agents, underwriters or dealers without delivery of a Prospectus Supplement describing the method and terms of the particular offering of our Shares.

Use of Proceeds We intend to use the net proceeds from the sale of our Shares primarily to invest in accordance with our investment objectives and policies. Proceeds will be invested within approximately 60 days of receipt by the Fund. See "Use of Proceeds."

Investment Objectives The Fund's principal investment objective is long-term capital appreciation through investment primarily in equity securities of Australian companies listed on the Australian Stock Exchange Limited ("ASX"). Its secondary objective is current income, which is expected to be derived primarily from dividends and interest on Australian corporate and governmental securities. The Fund's investment objectives may not be changed without the approval of a majority of the Fund's outstanding voting securities. See "Investment Objectives."

Investment Policies The Fund will normally invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in equity securities,

consisting of common stock, preferred stock and convertible stock, of Australian companies listed on the ASX. For these purposes, Australian companies means companies that are tied economically to Australia. The Fund may invest up to 10% of its total assets in unlisted equity securities. It may also invest in debt securities issued by Australian companies, Australian Federal and State governments and the U.S. government. Such debt securities will be rated in one of the four highest rating categories by a nationally recognized statistical rating organization or, if unrated, determined to be of comparable quality by the Investment Manager, and will typically have a maturity of 10 years or less. The Fund's investments in any one industry or group of industries are generally limited to 25% of its total assets, except that it may invest between 25% and 35% of its total assets in securities of an industry group that, at the time of investment, represents 20% or more of the S&P/ASX 200 Accumulation Index. The Fund has authority to engage in options transactions, to enter into repurchase agreements, and to lend its portfolio securities. See "Investment Policies."

Investment Restrictions The Fund has certain investment restrictions that may not be changed without approval by a majority of the Fund's outstanding voting securities. These restrictions concern issuance of senior securities, borrowing, lending, concentration, diversification and other matters. See "Investment Restrictions."

Risks (See generally "Risks and Special Considerations" for more information on these and other risks) The value of the Fund's assets, as well as the market price of its shares, will fluctuate. You can lose money on your investment. Investing in the Fund involves other risks, including the following:

- *Currency Exchange Rate Fluctuations.* The Fund invests substantially in instruments denominated in foreign currencies primarily the Australian dollar, but also the New Zealand dollar. Fluctuations in the value of these non-U.S. currencies relative to the U.S. dollar can adversely affect the U.S. dollar value of the Fund's assets. A decline in the value of such a foreign currency can require the Fund to liquidate portfolio securities to pay distributions previously calculated in U.S. dollars and can increase the relevant foreign currency cost of expenses incurred in U.S. dollars. Currency exchange losses can reduce or eliminate the Fund's ability to make ordinary income distributions.
- *Foreign Securities.* In addition to foreign currency risks, investments in non-U.S. securities involve risk of loss in the event of tax increases or adverse political, economic or diplomatic developments in Australia and New Zealand. The Australian securities market for both listed and unlisted securities may be more volatile and is less liquid than the major U.S. markets, and investing in non-U.S. securities may involve greater costs plus more uncertainty regarding legal protections. Regulatory oversight of markets and custody facilities may differ from that in the U.S.

- *Australian Securities Risk.* Because the Fund's investments are primarily in Australian securities, the Fund is particularly vulnerable to loss in the event of adverse political, economic, financial and other developments that affect Australia, including fluctuations of Australian currency versus the U.S. dollar. Also, Australia is located in a part of the world that has historically been prone to natural disasters such as drought and is economically sensitive to environmental events. Any such event could result in a significant adverse impact on the Australian economy.
- *Concentration.* The Fund may invest up to 35% of its total assets in securities of an industry group that, at the time of investment, represents 20% or more of the S&P/ASX 200 Accumulation Index. An industry sector can include more than one industry group. As of October 31, 2010, 30% of the Fund's total assets were invested in the financials sector of the Standard & Poor's Global Industry Classification Sectors. While the Fund did not concentrate its investments in the materials sector, as of October 31, 2010, 23.6% of the Fund's total assets were invested in the materials sector. Such a concentration or significant amount of investments in a single industry sector makes the Fund particularly vulnerable to adverse economic, political or other developments affecting that sector. Concentration in the financials sector may make the Fund vulnerable to risks of regulation, consolidation, financial innovation and technological progress. Significant exposure to the materials sector may also make the Fund vulnerable to risks that the issuers in such sector will underperform the market as a whole due to legislative or regulatory changes and/or increased competition affecting that sector.
- *Net Asset Value Discount.* Shares of the Fund, a closed-end investment company, may trade in the market at a discount from their net asset value.
- *Distribution Rate.* There can be no assurance that the Board will maintain the Fund's distribution rate at a particular level, or that the Board will continue a managed distribution policy. Additionally, distributions may include return of capital as well as net investment income and capital gains. If the Fund's investments do not generate sufficient income, the Fund may be required to liquidate a portion of its portfolio to fund these distributions. See "Dividends and Distributions."
- *Non-Diversified Fund.* As a "non-diversified" investment company, the Fund can invest more of its assets in fewer issuers than an investment company that is "diversified," exposing the Fund to greater risk.
- *Share Repurchases.* When the Fund repurchases its shares pursuant to the Fund's share repurchase program, the resulting decrease in shares outstanding may increase the Fund's expense ratio; any borrowing to finance repurchases would reduce net income; and any sales of portfolio securities to finance

repurchases may not be at a preferred time from a portfolio management perspective and would increase portfolio turnover and related expenses.

- *Anti-Takeover Provisions.* The Fund's charter and bylaws contain several provisions that may be regarded as "anti-takeover" because they have the effect of maintaining continuity of management. Also, Articles Supplementary approved by the Board of Directors subject the Fund to certain provisions of the Maryland General Corporation Law with respect to unsolicited takeovers. See "Certain Provisions of the Maryland General Corporation Law and the Charter and Bylaws."

- *Leverage.* The Fund has authority to issue preferred stock and to borrow to finance investments. Each of these is a form of "leverage" that entails particular risks for holders of the Fund's common stock. The issuance of preferred stock would affect the amount of income available for distribution on the Fund's common stock as well as the net asset value of the common stock and the voting rights of holders of common stock. Leverage would exaggerate the effects of both currency fluctuations and of market downturns or upturns on the net asset value and market value of the Fund's common stock, as well as on distributions to holders of common stock. Leverage can also increase the volatility of the Fund's net asset value, and expenses related to leverage can reduce the Fund's income. In the case of leverage, if Fund assets decline in value so that legal asset coverage requirements for any preferred stock or borrowings would not be met, the Fund may be prevented from paying distributions, which could jeopardize its qualification for pass-through tax treatment, make it liable for excise taxes and/ or force it to sell portfolio securities at an inopportune time. Holders of preferred stock have the right to elect two directors, and such holders, as well as Fund creditors, have the right under certain circumstances to elect a majority of the Fund's directors.

- *Unlisted Securities.* The Fund may invest up to 10% of its total assets in unlisted equity securities. Because the market for unlisted securities is not liquid, it may be difficult for the Fund to sell these securities at a desirable price. Unlisted securities are not subject to the disclosure and other investor protection requirements of Australian law applicable to listed securities.

- *Securities Lending.* With respect to loans of its portfolio securities, the Fund is exposed to risks of loss in the event of default or bankruptcy of the borrower, and in the event that the return on the loan, or on invested collateral, will be less than the related costs.

- *Options.* Options strategies may not be successful if the Investment Adviser's expectations about market trends are not fulfilled. These strategies can also increase portfolio turnover and involve costs to the Fund.

- *Repurchase Agreements.* These transactions involve risks in the event of counterparty default or insolvency.

Investment Manager and Investment Adviser The Fund's investment manager is Aberdeen Asset Management Asia Limited ("Investment Manager"), a Singapore corporation located at 21 Church Street, #01-01 Capital Square Two, Singapore 049480. The Investment Manager serves as investment manager to both equity and fixed income investment portfolios for a range of clients. The Investment Manager, in accordance with the Fund's stated investment objectives, policies and limitations and subject to the supervision of the Fund's Board of Directors, manages the Fund's investments and makes investment decisions on behalf of the Fund, including the selection of, and being responsible for the placement of orders with, brokers and dealers to execute the Fund's portfolio transactions.

The Fund's investment adviser is Aberdeen Asset Management Limited ("Investment Adviser"), an Australian corporation affiliated with the Investment Manager. The Investment Adviser is located at Level 6, 201 Kent Street, Sydney, NSW 2000, Australia. The Investment Adviser's principal business focus is to provide investment management services with regard to equity and fixed income investments in Australian securities. The Investment Adviser makes recommendations to the Investment Manager as to specific portfolio securities to be purchased, retained or sold by the Fund and provides or obtains such research and statistical data as may be necessary in connection therewith.

The Investment Adviser is a wholly-owned subsidiary of the Investment Manager. The Investment Manager is a wholly-owned subsidiary of Aberdeen Asset Management PLC ("Aberdeen PLC"), a Scots company, that is the parent company of an asset management group (the "Aberdeen Group") managing approximately \$261.18 billion of assets as of August 31, 2010 for both institutions and private individuals from offices around the world. See "Management of the Fund The Investment Manager and the Investment Adviser."

The Fund pays a fee to the Investment Manager computed at the annual rate of 1.10% of the Fund's average weekly Managed Assets (defined as net assets plus the amount of any borrowings for investment purposes) up to \$50 million, 0.90% of such assets between \$50 million and \$100 million, and 0.70% of such assets in excess of \$100 million, computed as of the end of each week and payable at the end of each calendar month.

The Investment Manager pays the fees of the Investment Adviser. These fees are computed at the annual rate of 0.30% of the Fund's average weekly Managed Assets up to \$50 million, 0.25% of such assets between \$50 million and \$100 million, and 0.15% of such assets in excess of \$100 million, computed as of the end of each week and payable at the end of each calendar month.

Portfolio Managers The following persons have day-to-day management of the Fund's portfolio Hugh Young, Managing Director of the Investment Manager; Augustine Mark Daniels, a Director of the Investment Adviser; and Michelle Lopez, Robert Penalosa and Natalie Tam. See "Management of the Fund Portfolio Management."

Administrator Aberdeen Asset Management Inc., 1735 Market Street, 32nd Floor, Philadelphia, Pennsylvania 19103, acts as the Fund's administrator ("Administrator"). The Administrator is a subsidiary of Aberdeen PLC and an affiliate of the Investment Manager and Investment Adviser. The Fund pays a fee to the Administrator at an annual rate equal to 0.08% of the Fund's average weekly Managed Assets between \$0 and \$500 million, 0.07% of such assets between \$500 million and \$1.5 billion, and 0.06% of such assets in excess of \$1.5 billion. The Administrator delegates certain of its responsibilities to a sub-administrator, State Street Bank and Trust Company. See "Management of the Fund Administrator."

Custodian and Transfer Agent State Street Bank and Trust Company, One Heritage Drive, North Quincy, Massachusetts 02171, acts as the Fund's custodian. Computershare Trust Company, N.A. and Computershare Inc., 250 Royall Street Canton, Massachusetts 02021, act as the Fund's stock transfer agent and dividend paying agent, respectively. Computershare Trust Company, N.A. also sponsors and administers a Dividend Reinvestment and Direct Stock Purchase Plan which is available to shareholders. See "Management of the Fund Custodian and Transfer Agent."

Dividends and Distributions The Board of Directors has implemented a managed distribution policy of paying quarterly distributions at an annual rate, set once a year, that is a percentage of the rolling average of the Fund's prior four quarter-end net asset values. The current rolling distribution rate is 10%, but this rate may be changed by the Board in response to, among other things, market conditions. A significant portion of the Fund's distributions for the fiscal year ended October 31, 2009 represented a return of capital (rather than income or capital gains). If the Fund's distributions were to continue to consist of a large amount of return of capital, it would result in a deterioration of the Fund's assets. There can be no assurance that the Board will continue a managed distribution policy. See "Dividends and Distributions."

Dividend Reinvestment and Direct Stock Purchase Plan Computershare Trust Company, N.A. sponsors and administers a Dividend Reinvestment and Direct Stock Purchase Plan (the "Plan") which is available to shareholders. Additional information about the Plan and a brochure that includes the terms and conditions of the Plan may be obtained at www.computershare.com/buyaberdeen or by calling Computershare Trust Company, N.A. at 1-800-647-0584. For both purchases and reinvestment purposes, shares acquired through the Plan will be purchased in the open market at the current share price and cannot be issued directly by the Fund.

Taxation Withholding and/or other taxes may apply in the countries in which the Fund invests, which will reduce the Fund's cash return in those countries. The Fund intends to elect, when eligible, to "pass-through" to the Fund's shareholders the ability to claim (subject to limitations) a deduction or credit for the amount of foreign income and similar taxes paid by the Fund. Tax considerations for an investor in the Fund are summarized under "Taxation." See also "Risks and Special Considerations."

Share Repurchase Program Under the Fund's share repurchase program, the Fund is permitted to repurchase up to 10% of its outstanding shares on the open market during any 12-month period if and when the discount from net asset value is at least 8%. The Fund may borrow to repurchase shares under this program. There have not been any repurchases of shares under this program since 2009. Applicable law may prevent such repurchases during the offering of the Shares described herein. See "Description of Shares-Share Repurchase Program."

An investor would pay the following expenses on a \$1,000 investment in the Fund, assuming a 5% annual return:

	One Year	Three Years	Five Years	Ten Years
\$	14	\$ 44	\$ 76	\$ 167

The above table and example are intended to assist investors in understanding the various costs and expenses directly or indirectly associated with investing in Shares of the Fund. The "Example" assumes that all dividends and other distributions are reinvested at net asset value and that the percentage amounts listed in the table above under Total Annual Operating Expenses remain the same in the years shown. The above table and example and the assumption in the example of a 5% annual return are required by regulations of the SEC that are applicable to all investment companies; the assumed 5% annual return is not a prediction of, and does not represent, the projected or actual performance of the Fund's Shares. For more complete descriptions of certain of the Fund's costs and expenses, see "Management of the Fund" and "Expenses."

The example should not be considered a representation of past or future expenses, and the Fund's actual expenses may be greater than or less than those shown. Moreover, the Fund's actual rate of return may be greater or less than the hypothetical 5% return shown in the example.
