NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements of Dillard s, Inc. (the Company) have been prepared in accordance with the rules of the Securities and Exchange Commission (SEC). Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement have been included. Operating results for the three months ended April 30, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending January 28, 2012 due to the seasonal nature of the business.

These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended January 29, 2011 filed with the SEC on March 23, 2011.

Reclassifications Certain items have been reclassified from their prior year classifications to conform to the current year presentation. These reclassifications had no effect on net income or stockholders equity as previously reported.

Note 2. Business Segments

The Company operates in two reportable segments: the operation of retail department stores (retail operations) and a general contracting construction company (construction).

For the Company s retail operations, the Company determined its operating segments on a store by store basis. Each store s operating performance has been aggregated into one reportable segment. The Company s operating segments are aggregated for financial reporting purposes because they are similar in each of the following areas: economic characteristics, class of consumer, nature of products and distribution methods. Revenues from external customers are derived from merchandise sales, and the Company does not rely on any major customers as a source of revenue. Across all stores, the Company operates one store format under the Dillard s name where each store offers the same general mix of merchandise with similar categories and similar customers. The Company believes that disaggregating its operating segments would not provide meaningful additional information.

Edgar Filing: DILLARDS INC - Form 10-Q

The following tables summarize certain segment information, including the reconciliation of those items to the Company's consolidated operations:

Note 7. Commitments and Contingencies

On June 10, 2009, a lawsuit was filed in the Circuit Court of Pulaski County, Arkansas styled Billy K. Berry, Derivatively on behalf of Dillard's, Inc. v. William Dillard II et al, *Case Number CV-09-4227-2* (the Berry case). The lawsuit generally seeks return of monies and alleges that certain officers and directors of the Company have been overcompensated and/or received improper benefits at the expense of the Company and its shareholders. On February 18, 2010, the Circuit Court entered an Order of Dismissal with Prejudice and Final Judgment dismissing the case as to all parties defendant. The Circuit Court's judgment was affirmed by the Arkansas Court of Appeals. Plaintiff has appealed the decision of the Court of Appeals to the Arkansas Supreme Court where it is currently pending. The named officers and directors will continue to contest these allegations vigorously.

Table of Contents

On May 27, 2009, a lawsuit was filed in the United States District Court for the Eastern District of Arkansas styled Steven Harben, Derivatively on Behalf of Nominal Defendant Dillard's, Inc. v. William Dillard II et al, Case Number 4:09-IV-395. The lawsuit generally seeks return of monies and alleges that certain officers and directors of the Company have been overcompensated and/or received improper benefits at the expense of the Company and its shareholders. On September 30, 2010, the court dismissed the lawsuit in its entirety with prejudice but granted plaintiff's request to stay final judgment pending the exhaustion of all appeals in the Berry case, discussed above. It is not known whether the court will amend its Order upon exhaustion of the Berry appeals. If so, the named officers and directors intend to contest these allegations vigorously.

Various other legal proceedings, in the form of lawsuits and claims, which occur in the normal course of business, are pending against the Company and its subsidiaries. In the opinion of management, disposition of these matters is not expected to have a material adverse effect on the Company's financial position, cash flows or results of operations.

At April 30, 2011, letters of credit totaling \$85.8 million were issued under the Company's \$1.0 billion revolving credit facility.

Note 8. Benefit Plans

The Company has an unfunded, nonqualified defined benefit plan (Pension Plan) for its officers. The Pension Plan is noncontributory and provides benefits based on years of service and compensation during employment. Pension expense is determined using various actuarial cost methods to estimate the total benefits ultimately payable to officers and allocates this cost to service periods. The actuarial assumptions used to calculate pension costs are reviewed annually. The Company made contributions to the Pension Plan of \$1.1 million during the quarter ended April 30, 2011. The Company expects to make contributions to the Pension Plan of approximately \$3.3 million for the remainder of fiscal 2011.

The components of net periodic benefit costs are as follows (in thousands):

	Three Months Ended	
	April 30, 2011	May 1, 2010

Edgar Filing: DILLARDS INC - Form 10-Q

Borrowings under the credit agreement accrue interest starting at either JPMorgan's Base Rate minus 0.5% or LIBOR plus 1.0% (1.21% at April 30, 2011) subject to certain availability thresholds as defined in the credit agreement.

Limited to 85% of the inventory of certain Company subsidiaries, availability for borrowings and letter of credit obligations under the credit agreement was \$944.5 million at April 30, 2011. No borrowings were outstanding at April 30, 2011. Letters of credit totaling \$85.8 million were issued under this credit agreement leaving unutilized availability under the facility of approximately \$859 million at April 30, 2011. The Company classifies accrued interest expense and penalties relating to income tax in the condensed consolidated financial statements as income tax expense. The total accrued interest and penalties in the condensed consolidated balance sheets as of April 30, 2011 and May 1, 2010 was \$3.6 million and \$6.3 million, respectively. During the quarter ended April 30, 2011, the Company received a distribution of excess cash from a mall joint venture of \$6.7 million and recorded a related gain of \$4.2 million in income on and equity in losses of joint ventures.

Note 13. Fair Value Disclosures

The estimated fair values of financial instruments which are presented herein have been determined by the Company using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting market data to develop estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of amounts the Company could realize in a current market exchange.

Edgar Filing: DILLARDS INC - Form 10-Q

Table of Contents

The fair value of the Company's long-term debt and subordinated debentures is based on market prices or dealer quotes (for publicly traded unsecured notes) and on discounted future cash flows using current interest rates for financial instruments with similar characteristics and maturities (for bank notes and mortgage notes).

The fair value of the Company's cash and cash equivalents and trade accounts receivable approximates their carrying values at April 30, 2011 due to the short-term maturities of these instruments. The fair value of the Company's long-term debt at April 30, 2011 was approximately \$746 million. The carrying value of the Company's long-term debt at April 30, 2011 was approximately \$746 million. Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

The FASB's accounting guidance utilizes a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value into three broad levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities

- Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly; these include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active

- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions

During the quarter ended April 30, 2011, long-lived assets held for sale with a carrying value of \$27.5 million were written down to their fair value of \$26.3 million, resulting in an impairment charge of \$1.2 million, which was included in earnings for the period. During the quarter ended May 1, 2010, long-lived assets held for sale with a carrying value of \$34.0 million were written down to their fair value of \$31.7 million,

resulting in an impairment charge of \$2.2 million, which was included in earnings for the period. The inputs used to calculate the fair value of these long-lived assets in both periods included selling prices from commercial real estate transactions for similar assets in similar markets that we estimated would be used by a market participant in valuing these assets.

Fair Value Measurements and Disclosures

In January 2010, the FASB issued ASU 2010-06, an update to Topic 820, *Fair Value Measurements and Disclosures*. ASU 2010-06 provides an update specifically to Subtopic 820-10 that requires new disclosures including details of significant transfers in and out of Level 1 and Level 2 measurements and the reasons for the transfers and a gross presentation of activity within the Level 3 roll forward, presenting separately information about purchases, sales, issuances and settlements. ASU 2010-06 is effective for the first interim or annual reporting period beginning after December 15, 2009, except for the gross presentation of the Level 3 roll forward,

which is required for interim and annual reporting periods beginning after December 15, 2010. The adoption of ASU 2010-06 did not have a material impact on the Company's condensed consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the condensed consolidated financial statements and the footnotes thereto included elsewhere in this report, as well as the financial and other information included in our Annual Report on Form 10-K for the year ended January 29, 2011.

EXECUTIVE OVERVIEW

We began fiscal 2011 with improved operating results. Leading with increased comparable store sales during our first quarter, we were able to improve gross margin, as we continued to focus on our core initiatives of disciplined inventory management, and also reduce our operating spending. These key factors culminated in improved net income of \$76.7 million compared to \$48.8 million over the prior year comparable period, and combined with \$268.7 million of stock repurchases during this first quarter of 2011, earnings per share grew to \$1.31 per share compared to \$0.68 per share for the prior year comparable period.

Included in net income for the quarter ended April 30, 2011 are:

- a \$4.2 million pretax gain (\$2.7 million after tax or \$0.05 per diluted share) related to a distribution from a mall joint venture and
- a \$1.2 million pretax charge (\$0.8 million after tax or \$0.01 per diluted share) for asset impairment and store closing charges related to the write-down of one property currently held for sale.

Included in net income for the quarter ended May 1, 2010 is:

- a \$2.2 million pretax charge (\$1.4 million after tax or \$0.02 per share) for asset impairment and store closing charges related to the write-down of one property currently held for sale.

Highlights of the quarter ended April 30, 2011 included:

Edgar Filing: DILLARDS INC - Form 10-Q

- Net income of \$76.7 million, or \$1.31 per diluted share, compared to \$48.8 million, or \$0.68 per diluted share, for the quarter ended May 1, 2010
- Repurchase of \$268.7 million (6.4 million shares) of Class A Common Stock, completing the authorization under the 2010 and 2011 stock repurchase programs
- A comparable store sales increase of 2%
- Improved merchandise gross margin of 130 basis points of sales compared to the quarter ended May 1, 2010
- Operating expense savings of \$4.4 million (60 basis points of sales) compared to the quarter ended May 1, 2010

As of April 30, 2011, we had working capital of \$727.2 million, cash and cash equivalents of \$147.3 million and \$946.0 million of total debt outstanding, excluding capital lease obligations. Cash flows from operating activities were \$59.2 million for the first quarter of fiscal 2011. We operated 308 Dillard's locations, including 14 clearance centers, and an internet store as of April 30, 2011, a decrease of 3 stores from the same period last year.

General

Net sales. Net sales include merchandise sales of comparable and non-comparable stores and revenue recognized on contracts of CDI Contractors, LLC (CDI), the Company's general contracting construction company. Comparable store sales include sales for those stores which were in operation for a full period in both the current month and the corresponding month for the prior year. Non-comparable store sales include: sales in the current fiscal year from stores opened during the previous fiscal year before they are considered comparable stores; sales from new stores opened during the current fiscal year; sales in the previous fiscal year for stores closed during the current or previous fiscal year that are no longer considered comparable stores; and sales in clearance centers.

Service charges and other income. Service charges and other income include income generated through the long-term marketing and servicing alliance (Alliance) with GE Consumer Finance (GE), which owns and manages the Dillard's branded proprietary credit cards. Other income includes rental income, shipping and handling fees and lease income on leased departments.

Cost of sales. Cost of sales includes the cost of merchandise sold (net of purchase discounts), bankcard fees, freight to the distribution centers, employee and promotional discounts, non-specific margin maintenance allowances and direct payroll for salon personnel. Cost of sales also includes CDI contract costs, which comprise all direct material and labor costs, subcontract costs and those indirect costs related to contract performance, such as indirect labor, employee benefits and insurance program costs.

Advertising, selling, administrative and general expenses. Advertising, selling, administrative and general expenses include buying, occupancy, selling, distribution, warehousing, store and corporate expenses (including payroll and employee benefits), insurance, employment taxes, advertising, management information systems, legal and other corporate level expenses. Buying expenses consist of payroll, employee benefits and travel for design, buying and merchandising personnel.

Depreciation and amortization. Depreciation and amortization expenses include depreciation and amortization on property and equipment.

Rentals. Rentals include expenses for store leases and data processing and other equipment rentals.

Interest and debt expense, net. Interest and debt expense includes interest, net of interest income, relating to the Company's unsecured notes, mortgage notes, term note and subordinated debentures, amortization of financing costs and interest on capital lease obligations.

Table of Contents

Gain on disposal of assets. Gain on disposal of assets includes the net gain or loss on the sale or disposal of property and equipment.

Asset impairment and store closing charges. Asset impairment and store closing charges consist of write-downs to fair value of under-performing or available-for-sale properties and exit costs associated with the closure of certain stores. Exit costs include future rent, taxes and common area maintenance expenses from the time the stores are closed.

Income on and equity in losses of joint ventures. Income on and equity in losses of joint ventures includes the Company's portion of the income or loss of the Company's unconsolidated joint ventures as well as a distribution of excess cash from one of the Company's mall joint ventures.

Seasonality and Inflation

Our business, like many other retailers, is subject to seasonal influences, with a significant portion of sales and income typically realized during the last quarter of our fiscal year due to the holiday season. Because of the seasonality of our business, results from any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year.

We do not believe that inflation has had a material effect on our results during the periods presented; however, there can be no assurance that our business will not be affected by such in the future. In response to recent economic volatility in Asia and to increasing fabric prices (including cotton) and overseas wages, we have sought solutions to help minimize the effects of these events on our operations during fiscal 2011 by (1) negotiating efficiencies through our longstanding relationships with our current suppliers, (2) considering alternative manufacturing sources, (3) redesigning our garments and incorporating other types of fibers where appropriate and (4) adjusting price points as necessary. Consequently, we believe the effects of these currently known trends on our gross margins in fiscal 2011 will be minimal.

Total net sales	\$ 1,469,198	\$ 1,453,596	\$ 15,602

The percent change by category in the Company's retail operations segment sales for the quarter ended April 30, 2011 compared to the quarter ended May 1, 2010, as well as the percentage by segment and category to total net sales, is as follows:

	% Change 2011-2010	% of Net Sales
Retail operations segment		
Cosmetics	3.0%	16%
Ladies' apparel and accessories	1.8	37

Men's apparel and accessories	0.7	16
Shoes	5.4	16
Home and furniture	(6.4)	5
		99
Construction segment		1
Total		100%

Net sales from the retail operations segment increased \$26.7 million during the quarter ended April 30, 2011 compared to the quarter ended May 1, 2010, increasing 2% in both total and comparable stores. Sales of shoes were up significantly over the prior year and sales of men's apparel and accessories were up slightly. All other merchandise categories experienced a moderate increase of sales between the periods with the exception of home and furniture which had a significant decline.

The number of sales transactions decreased 2% for the quarter ended April 30, 2011 over the prior year period while the average dollars per sales transaction were up moderately. We recorded an allowance for sales returns of \$10.4 million and \$8.5 million for the quarters ended April 30, 2011 and May 1, 2010, respectively.

We continue to believe that in light of recent signs of modest economic improvement in the United States, we may continue to see some sales growth in the retail operations segment during the coming months; however, there is no guarantee of improved sales performance. Any further deterioration in the United States economy could have an adverse affect on consumer confidence and consumer spending habits, which could result in reduced customer traffic and comparable store sales, higher inventory levels and markdowns and lower overall profitability.

Net sales from the construction segment decreased \$11.1 million or 45% during the quarter ended April 30, 2011 compared to the quarter ended May 1, 2010. We believe this decrease is primarily attributable to the negative impact that the weak recovery of the United States economy

continues to have on demand for construction projects in private industry.

Total service charges and other income	\$ 29,558	\$ 29,065	\$ 493	1.7

Service charges and other income is composed primarily of income from the Alliance with GE. Income from the Alliance increased during the quarter ended April 30, 2011 compared to the quarter ended May 1, 2010 primarily due to decreased credit losses partially offset by reduced finance charge and late charge fee income related to recent credit regulation legislation.

Retail operations segment	39.1%	37.8%	1.3%
Construction segment	4.6	(3.9)	8.5
Total gross profit as a percentage of net sales	38.8	37.1	1.7

Gross profit improved 170 basis points of sales during the quarter ended April 30, 2011 compared to the quarter ended May 1, 2010. Gross profit from retail operations improved 130 basis points of sales during the same comparable periods as a result of the Company's continuing inventory management measures leading to reduced markdown activity. These improvements include notable changes to the cadence of merchandise receipts to shorten the time span between receipt of product and point of sale to help reduce markdown risk and to keep customers engaged with a more continuous flow of fresh merchandise selections. Inventory in comparable stores increased 4% as of April 30, 2011 compared to May 1, 2010 as management has planned more aggressively in light of improved sales trends. A 1% change in the dollar amount of markdowns would have impacted net income by approximately \$2 million for the quarter ended April 30, 2011.

Most merchandise categories experienced moderate improvements in gross margin during the quarter ended April 30, 2011 compared to May 1, 2010, while home and furniture improved significantly, ladies apparel and accessories improved slightly and cosmetics was flat.

Edgar Filing: DILLARDS INC - Form 10-Q

Gross profit from the construction segment increased 850 basis points of sales during the quarter ended April 30, 2011 compared to the quarter ended May 1, 2010. This improvement was primarily due to a \$2.2 million loss recorded in the prior year on certain electrical contracts stemming from job delays due to bad weather and job underperformance.

Total SG&A as a percentage of net sales	26.5	27.1		

The decline in SG&A during the quarter ended April 30, 2011 compared to the quarter ended May 1, 2010 primarily resulted from decreased net advertising expenditures (\$3.0 million).

The decrease in net interest and debt expense for the quarter ended April 30, 2011 is primarily attributable to higher investment income and lower average debt levels. Total weighted average debt decreased approximately \$3.7 million during the quarter ended April 30, 2011 compared to the quarter ended May 1, 2010.

During the quarter ended May 1, 2010, the Company recorded a pretax charge of \$2.2 million for asset impairment and store closing costs. The charge was for the write-down of one property currently held for sale.

Income Taxes

The total amount of unrecognized tax benefits as of April 30, 2011 and May 1, 2010 was \$8.4 million and \$16.1 million, respectively, of which \$5.6 million and \$11.7 million, respectively, would, if recognized, affect the effective tax rate. The Company classifies accrued interest expense and penalties relating to income tax in the condensed consolidated financial statements as income tax expense. The total accrued interest and penalties in the condensed consolidated balance sheets as of April 30, 2011 and May 1, 2010 was \$3.6 million and \$6.3 million, respectively. The estimated range of the reasonably possible uncertain tax benefit decrease in the next twelve months is between \$0.5 million and \$1.5 million. No significant changes occurred in the tax years subject to examination by major tax jurisdictions during the quarter ended April 30, 2011. Changes in the Company's assumptions and judgments can materially affect amounts recognized in the condensed consolidated balance sheets and statements of income.

The Company's estimated federal and state income tax rate, inclusive of income on or equity in losses of joint ventures, was approximately 35.8% for both quarters ended April 30, 2011 and May 1, 2010. During the quarter ended April 30, 2011, income taxes included the recognition of tax benefits primarily due to federal tax credits and the decrease in net operating loss valuation allowances. During the quarter ended May 1, 2010, income taxes included the recognition of tax benefits primarily due to federal tax credit refund claims.

Our income tax rate for the remainder of fiscal 2011 is dependent upon results of operations and may change if the results for fiscal 2011 are different from current expectations. Our income tax rate may also change based on the way in which we finalize the tax structure of the real estate investment trust formed in January 2011. We currently estimate that our effective rate for the remainder of fiscal 2011 will approximate 36%.

Income on Joint Venture

Edgar Filing: DILLARDS INC - Form 10-Q

During the quarter ended April 30, 2011, the Company's retail operations segment received a distribution of excess cash from a mall joint venture of \$6.7 million and recorded a related gain of \$4.2 million in income on and equity in losses of joint ventures.

Net cash flows from operations decreased to \$59.2 million during the quarter ended April 30, 2011 compared to \$80.3 million for the quarter ended May 1, 2010. This \$21.1 million decrease is primarily attributable to a decrease of \$45.9 million related to changes in working capital items, primarily of changes in inventories as the Company responds to improved sales trends. This decrease was partially offset by higher net income, as adjusted for non-cash items, of \$24.8 million for the quarter ended April 30, 2011 as compared to the quarter ended May 1, 2010.

GE owns and manages Dillard's branded proprietary credit card business under the Alliance that expires in fiscal 2014. The Alliance provides for certain payments to be made by GE to the Company, including a revenue sharing and marketing reimbursement. The Company received income of approximately \$21.1 million and \$20.2 million from GE during the quarters ended April 30, 2011 and May 1, 2010, respectively. While future cash flows under this Alliance are difficult to predict, the Company expects income from the Alliance to improve moderately during fiscal 2011 compared to fiscal 2010. The amount the Company receives is dependent on the level of sales on GE accounts, the level of balances carried on the GE accounts by GE customers, payment rates on GE accounts, finance charge rates and other fees on GE accounts, the level of credit losses for the GE accounts as well as GE's funding costs.

Capital expenditures were \$17.0 million and \$8.4 million for the quarters ended April 30, 2011 and May 1, 2010, respectively. The current year expenditures were primarily for the remodeling of existing stores and equipment upgrades, including installation of the Company's new internet fulfillment center located in Maumelle, Arkansas which is expected to be fully functional by early fiscal 2012. Capital expenditures for fiscal 2011 are expected to be approximately \$150 million compared to actual expenditures of \$98.2 million during fiscal 2010. There are no planned new store openings for fiscal 2011.

Edgar Filing: DILLARDS INC - Form 10-Q

No stores were closed during the quarter ended April 30, 2011. We closed our Highland Mall location in Austin, Texas (190,000 square feet) in May 2011. We have announced the upcoming closures of our Decatur Mall location in Decatur, Alabama (128,000 square feet) and our Westminster Mall location in Westminster, Colorado (159,000 square feet), both of which are expected to close in the second quarter of fiscal 2011. We remain committed to closing under-performing stores where appropriate and may incur future closing costs related to these stores when they close.

Table of Contents

During the quarter ended April 30, 2011, the Company received a distribution of excess cash from a mall joint venture of \$6.7 million and recorded a related gain of \$4.2 million in income on and equity in losses of joint ventures.

The Company had cash on hand of approximately \$147 million as of April 30, 2011. As part of our overall liquidity management strategy and for peak working capital requirements, the Company has a \$1.0 billion credit facility. Limited to 85% of the inventory of certain Company subsidiaries, availability for borrowings and letter of credit obligations under the credit agreement was \$944.5 million at April 30, 2011. No borrowings were outstanding at April 30, 2011. Letters of credit totaling \$85.8 million were issued under this credit agreement leaving unutilized availability under the facility of approximately \$859 million at April 30, 2011.

Cash used in financing activities for the quarter ended April 30, 2011 totaled \$240.7 million compared to cash used of \$108.4 million for the quarter ended May 1, 2010. This decrease in cash flow was primarily due to the repurchase of Company stock.

During the quarter ended April 30, 2011, the Company repurchased 6.4 million shares of stock for \$268.7 million (including the accrual of \$21.6 million of share repurchase that had not settled as of April 30, 2011) at an average price of \$41.95 per share under its 2010 and February 2011 Stock Plans. During the quarter ended May 1, 2010, the Company repurchased 4.2 million shares of stock for \$105.0 million at an average price of \$24.88 per share under its 2007 Stock Plan. At April 30, 2011, no authorization remained under any stock plan.

In May 2011, the Company announced that the Board of Directors authorized the repurchase of up to \$250 million of the Company's Class A Common Stock under a new stock plan (May 2011 Stock Plan). This authorization permits the Company to repurchase its Class A Common Stock in the open market, pursuant to preset trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934 or through privately negotiated transactions. The May 2011 Stock Plan has no expiration date.

During fiscal 2011, the Company expects to finance its capital expenditures and its working capital requirements, including required debt repayments and stock repurchases, from cash on hand, cash flows generated from operations and utilization of the credit facility. The Company expects peak borrowings under the credit facility during fiscal 2011 to be minimal. Depending on conditions in the capital markets and other factors, the Company will from time to time consider other possible financing transactions, the proceeds of which could be used to refinance current indebtedness or for other corporate purposes.

There have been no material changes in the information set forth under caption Contractual Obligations and Commercial Commitments in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in the Company's Annual Report on Form 10-K for the fiscal year ended January 29, 2011.

OFF-BALANCE-SHEET ARRANGEMENTS

The Company has not created, and is not party to, any special-purpose entities or off-balance-sheet arrangements for the purpose of raising capital, incurring debt or operating the Company's business. The Company does not have any off-balance-sheet arrangements or relationships that are reasonably likely to materially affect the Company's financial condition, changes in financial condition, revenues or expenses, results of

operations, liquidity, capital expenditures or the availability of capital resources.
