- Acquisition of TVT, leading provider of cable TV and fixed broadband services in the Republic of Tatarstan, for \$162.9 million(6)

## Commentary

Mr. Andrei Dubovskov, President and CEO of MTS, commented, Group revenue for the quarter increased 13% year-over-year to reach over 3.27 billion US dollars. We delivered solid sequential and annual growth as we see increased consumption in all of our markets of operation. Total revenues in Russia - including mobile, fixed and equipment sales - increased year-over-year by 11% to 81.7 billion rubles. In the mobile segment, we witnessed 13% year-over-year growth up to 69.0 billion rubles due to: higher voice usage and seasonally higher roaming; on-going trend of higher data usage through modems and handsets; attracting higher-value subscribers; strong sales of handsets and accessories; and strong sales of modems and data tariff plans as demand continues to grow for data as we expand our 3G networks.

Mr. Alexey Kornya, MTS Vice President and Chief Financial Officer, said, During the third quarter, we realized strong sequential Group OIBDA growth of 11% and year-over-year growth of 9%. For the period we delivered a strong margin of 44.0%. Improvement in OIBDA was most visible in Russia, where OIBDA increased 10% year-over-year to 36.9 billion rubles. This led to a sequential 2.4% improvement in OIBDA for a margin of 45.1%. Seasonal factors, such as increased business activity and roaming, contributed to the growth, but we have also seen improvements in the underlying business stemming from: higher usage of data and value-added services; improvements in our fixed-line business, namely through the on-going the integration of other acquired companies; a sequential reduction in dealer commissions as we have reduced our SIM-card sales, focused sales through our own stores and shifted more commissions to a revenue-sharing structure; and reduce G&A expenses by optimizing headcount and other costs throughout our retail network.

Mr. Dubovskov added, MTS continues to deliver on its goals. We delivered strong top-line growth through sensible tariffs, higher handset sales and seasonal factors. We have improved the business's core profitability by significantly reducing commercial expenses by exerting strong control over our distribution channels and moving from fixed-fee to revenue-based dealer commission structures. We have realized incremental savings in other areas of the business through our restructuring and continuous cost optimization. Overall, we believe that our core markets in Russia, Ukraine and the CIS remain very attractive markets. We are only in the beginning of data growth in both fixed and mobile businesses with penetration and usage rising every period. We are actively engaged with our regulators, and we have a clear technological road map for our future development. If sales competition stabilizes in Russia, we believe that the entire market will benefit.
