Notes to Portfolio of Investments

- (a) Non-income producing.
- (b) At March 31, 2012, security was partially or fully on loan.
- (c) At March 31, 2012, investments in securities included securities valued at \$700,617 that were partially pledged as collateral to cover initial margin deposits on open stock index futures contracts.
- (d) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. This security may be resold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2012, the value of these securities amounted to \$116,383,613 or 9.45% of net assets.
- (e) Represents a security purchased on a when-issued or delayed delivery basis.
- (f) At March 31, 2012, there was no capital committed to the LLC or LP for future investment.
- (g) Identifies issues considered to be illiquid as to their marketability. The aggregate value of such securities at March 31, 2012 was \$413,805, representing 0.03% of net assets. Information concerning such security holdings at March 31, 2012 was as follows:

Security	Acquisition Dates	Cost
WCAS Capital Partners II LP	12-11-90 03-24-98	\$ 2,686,507

- (h) At March 31, 2012, the Fund owned one limited partnership investment that was purchased through a private offering and cannot be sold without prior registration under the Securities Act of 1933 or pursuant to an exemption therefrom. The investment is valued at fair value as determined in accordance with procedures approved by the Board of Directors of the Fund. The acquisition dates of investment in the limited partnership, along with the cost and value at March 31, 2012, were as follows:

Security	Acquisition Dates	Cost	Value
WCAS Capital Partners II LP	12-11-90 03-24-98	\$ 2,686,507	\$ 413,805

- (i) The rate shown is the seven-day current annualized yield at March 31, 2012.
- (j) Investments in affiliates during the period ended March 31, 2012:

Issuer	Beginning Cost	Purchase Cost	Sales Cost/ Proceeds from Sales	Realized Gain/ Loss	Ending Cost	Dividends or Interest Income	Value
Columbia Short-Term Cash Fund	\$ 3,550,359	\$ 10,455,800	\$ (11,539,283)	\$	\$ 2,466,876	\$ 1,219	\$ 2,466,876

Edgar Filing: TRI-CONTINENTAL CORP - Form N-Q

(k) The table below represents securities received as collateral for repurchase agreements. This collateral is deposited with the Fund's custodian and, pursuant to the terms of the repurchase agreement, must have an aggregate market value greater than or equal to the repurchase price plus accrued interest at all times. The value of securities and/or cash held as collateral for repurchase agreements is monitored on a daily basis to ensure the proper level of collateral.

Fair Value Measurements

Generally accepted accounting principles (GAAP) require disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category.

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment. An investment's level within the fair value hierarchy is based on the lowest level of any input that is deemed significant to the asset or liability's fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

- Level 1 - Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date (including NAV for open-end mutual funds). Valuation adjustments are not applied to Level 1 investments.

Edgar Filing: TRI-CONTINENTAL CORP - Form N-Q

- Level 2 Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- Level 3 Valuations based on significant unobservable inputs (including the Fund's own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

Under the direction of the Fund's Board of Trustees (the Board), the Investment Manager's Valuation Committee (the Committee) is responsible for carrying out the valuation procedures approved by the Board. The Committee consists of voting and non-voting members from various groups within the Investment Manager's organization, including operations and accounting, trading and investments, compliance, risk management and legal.

The Committee meets at least monthly to review and approve valuation matters, which may include a description of specific valuation determinations, data regarding pricing information received from approved pricing vendors and brokers and the results of Board-approved valuation control policies and procedures (the Policies). The Policies address, among other things, instances when market quotations are readily available, including recommendation of third party pricing vendors and a determination of appropriate pricing methodologies; events that require specific valuation determinations and assessment of fair value techniques; securities with a potential for stale pricing, including those that are illiquid, restricted, or in default; and the effectiveness of third-party pricing vendors, including periodic reviews of vendors. The Committee meets more frequently, as needed, to discuss additional valuation matters, which may include the need to review back-testing results, review time-sensitive information or approve related valuation actions. The Committee reports to the Board, with members of the Committee meeting with the Board at each of its regularly scheduled meetings to discuss valuation matters and actions during the period, similar to those described earlier.

For investments categorized as Level 3, the Committee monitors information similar to that described above, which may include: (i) data specific to the issuer or comparable issuers, (ii) general market or specific sector news and (iii) quoted prices and specific or similar security transactions. The Committee considers this data and any changes from prior periods in order to assess the reasonableness of observable and unobservable inputs, any assumptions or internal models used to value those securities and changes in fair value. This data is also used to corroborate, when available, information received from approved pricing vendors and brokers. Various factors impact the frequency of monitoring this information (which may occur as often as daily). However, the

Edgar Filing: TRI-CONTINENTAL CORP - Form N-Q

Committee may determine that changes to inputs, assumptions and models are not required as a result of the monitoring procedures performed.

The following table is a summary of the inputs used to value the Fund's investments as of March 31, 2012:

Description	Fair value at March 31, 2012			Total
	Level 1 quoted prices in active markets for identical assets	Level 2 other significant observable inputs	Level 3 significant unobservable inputs

See the Portfolio of Investments for all investment classifications not indicated in the table.

The Fund's assets assigned to the Level 2 input category are generally valued using the market approach, in which a security's value is determined through reference to prices and information from market transactions for similar or identical assets.

There were no transfers of financial assets between Levels 1 and 2 during the period.

Derivative instruments are valued at unrealized appreciation (depreciation).

The following table is a reconciliation of Level 3 assets for which significant observable and /or unobservable inputs were used to determine fair value.

		Limited Partnerships
Balance as of December 31, 2011	\$	412,516
Accrued discounts/premiums		
Realized gain (loss)		
Change in unrealized appreciation (depreciation)*		1,289
Sales		
Purchases		
Transfers into Level 3		
Transfers out of Level 3		
Balance as of March 31, 2012	\$	413,805

*Change in unrealized appreciation (depreciation) relating to securities held at March 31, 2012 was \$1,289.

The fund does not hold any significant investments with unobservable inputs which are categorized as Level 3.

The Fund's assets assigned to the Level 3 category are valued utilizing the valuation technique deemed the most appropriate in the circumstances. Certain Limited partnerships classified as Level 3 are valued using a market approach. To determine fair value for these securities, management considered various factors which may have included, but were not limited to, the Fund's pro-rata interest in the limited partnership's capital balance estimated earnings of the respective company, and the position of the security within the respective company's capital structure. Significant increases (decreases) to any of these inputs would result in a significantly lower (higher) fair value measurement. Generally, a change in the fund's pro-rata interest would result in a change to the limited partnership's capital balance.

Transfers in and/or out of Level 3 are determined based on the fair value at the beginning of the period for security positions held throughout the period.

Item 2. Controls and Procedures.

(a) The registrant's principal executive officer and principal financial officers, based on their evaluation of the registrant's disclosure controls and procedures as of a date within 90 days of the filing of this report, have concluded that such controls and procedures are adequately designed to ensure that information required to be disclosed by the registrant in Form N-Q is accumulated and communicated to the registrant's management, including the principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

(b) There was no change in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits.

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) attached hereto as Exhibit 99.CERT.
