**Item 1.01 Entry into a Material Definitive Agreement**

As previously disclosed, on August 8, 2012, Royal Gold, Inc. ( **Royal Gold** or the **Company** ) and one of its wholly-owned subsidiaries entered into a First Amendment (the **First Amendment** ) to the Amended and Restated Purchase and Sale Agreement, dated December 14, 2011 (the **Amended and Restated Agreement** ), by and among Royal Gold and its subsidiary, and Thompson Creek Metals Company Inc. ( **Thompson Creek** ) and one of Thompson Creek's wholly-owned subsidiaries. Among other things and subject to certain conditions, Royal Gold agreed to purchase an additional 12.25% of the payable gold from the Mt. Milligan copper-gold project in exchange for \$200 million, of which \$75 million was payable shortly after the effectiveness of the First Amendment. Thompson Creek intends to use the proceeds to finance a portion of the construction of the Mt. Milligan project and related costs.

On August 10, 2012, all of the conditions to the effectiveness of the First Amendment were satisfied and Royal Gold closed the transaction. In connection with the closing, Royal Gold's subsidiary entered into a Second Amendment to the Intercreditor Agreement by and among Royal Gold's subsidiary, Thompson Creek's subsidiary and JPMorgan Chase Bank, N.A. dated as of December 10, 2010, which updates certain provisions of the Intercreditor Agreement to reflect the adoption of the First Amendment and is filed herewith as Exhibit 10.1 and incorporated into this Item 1.01 by reference. Royal Gold made the \$75 million payment required by the First Amendment on August 15, 2012.

Pursuant to the First Amendment, Royal Gold increased its aggregate investment in the Mt. Milligan project (including amounts previously funded under the Amended and Restated Agreement and commitments for future funding) from \$581.5 million to \$781.5 million. Royal Gold is now entitled to purchase a total of 52.25% of the payable ounces of gold produced from the Mt. Milligan project at the same purchase price as currently set forth in the Amended and Restated Agreement, which is equal to the lesser of \$435, with no inflation adjustment, or the prevailing market price for each payable ounce of gold (regardless of the number of payable ounces delivered to Royal Gold).

The amount of future scheduled payments to Thompson Creek under the Amended and Restated Agreement increased from \$216.9 million to \$326.9 million, including the \$75 million payment made on August 15, 2012. Future scheduled quarterly payments have been revised to total \$251.9 million, with \$45 million due September 1, 2012, \$95 million due December 1, 2012, \$62 million due March 1, 2013, \$37 million due June 1, 2013 and \$12.9 million due September 1, 2013. Royal Gold's obligation to make these quarterly payments is subject to the satisfaction of certain conditions included in the Amended and Restated Agreement and the First Amendment (including that the aggregate amount of historical payments made by Royal Gold plus the applicable quarterly payment is less than the aggregate costs of developing the Mt. Milligan project incurred or accrued by Thompson Creek as of the date of the applicable quarterly payment). In the event that a quarterly payment is postponed as a result of the failure by Thompson Creek to satisfy a condition precedent, all subsequent quarterly payments will be adjusted forward one full calendar quarter until such time as all conditions precedent have been satisfied for the next scheduled quarterly payment.

The foregoing description of the terms of the First Amendment is qualified in its entirety by the First Amendment, which is filed as an exhibit to a Form 8-K filed on August 9, 2012 and incorporated into this Item 1.01 by reference. Royal Gold first announced the Amended and Restated Agreement in a press release on December 15, 2011 and filed the Amended and Restated Agreement as an exhibit to a Form 8-K filed on December 15, 2011.

Mt. Milligan is an open pit copper-gold project that is in the advanced stages of construction. Thompson Creek estimates that commercial production will commence in late calendar 2013. According to a National Instrument 43-101 technical report regarding the Mt. Milligan project filed on the System for Electronic Document Analysis and Retrieval (SEDAR) under Thompson Creek's profile on October 13, 2011, proven and probable reserves total 482 million tonnes (0.20% copper; 0.39 g/t gold), containing 2.1 billion pounds of copper and 6.0 million ounces of gold, which reserves are estimated to support a mine life of approximately 22 years, with the project estimated to produce approximately 194,000 ounces of gold per year over the life of the mine, including estimated average production of 262,500 ounces of gold annually during the first six years of operation.

**Item 2.01 Completion of Acquisition or Disposition of Assets**

The information set forth in Item 1.01 of this Current Report on Form 8-K with respect to the right and obligation of Royal Gold to purchase 52.25% of the payable gold produced from the Mt. Milligan project pursuant to the Amended and Restated Agreement and the First Amendment is incorporated into this Item 2.01 by reference.

**Item 8.01 Other Events**

On August 13, 2012, Royal Gold issued a press release announcing the closing of the First Amendment. A copy of the press release is attached hereto as Exhibit 99.1 and incorporated into this Item 8.01 by reference.
