- (c) The accountant's statement or other exhibit required by Rule 12b-25(c) has been attached if applicable.

### PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period. (Attach extra Sheets if needed).

During the process of preparing the financial statements of Western Asset Mortgage Capital Corporation (the Company) for the period from May 15, 2012 (commencement of operations) through December 31, 2012 (the 2012 Financial Statements), the Company discovered that the methodology used to accrete interest income and to amortize the cost basis of certain of the Company's residential mortgage-backed securities (RMBS), which was based on a third party vendor's system, as well as the presentation with regard to certain items in its Statement of Cash Flows were not in accordance with accounting principles generally accepted in the United States. In order to correct these errors, the Company is reclassifying a portion of the Company's net interest income to both realized and unrealized gains, and a portion of operating cash flows to investing cash flows. The Company is unable to file its annual report on Form 10-K for the year ended December 31, 2012 (the 2012 Form 10-K) because it has not yet completed its 2012 Financial Statements due to the reclassifications made in the Company's statements of operations and cash flows for the period May 15, 2012 (commencement of operations) through December 31, 2012 (and related footnote disclosures) in order to correct these errors. Due to the timing of the identification of these errors, the Company could not complete the 2012 Form 10-K without unreasonable effort or expense.

The Company is also evaluating the impact of the above-described errors on its previously issued financial statements for the period from May 15, 2012 (commencement of operations) to June 30, 2012, the quarter ended September 30, 2012 and for the period from May 15, 2012 (commencement of operations) to September 30, 2012 (collectively, the Prior Interim Periods) and whether or not the financial statements for such Prior Interim Periods may need to be restated in order to correct these errors.

Although individual line items in the statements of operations and cash flows will be affected by the reclassifications described above, none of these reclassifications will change the Company's previously reported net income or total cash flows for the period from May 15, 2012 (commencement of operations) to December 31, 2012 or for any of the Prior Interim Periods. The Company's total assets, shareholders' equity or book value as of June 30, September 30 and December 31, 2012 are also not affected. Notwithstanding the foregoing, the Company expects to report in the 2012 Form 10-K a material weakness in its internal control over financial reporting attributable to management's supervision, review and acceptance procedures with respect to a third-party vendor's computation of interest income accretion and amortization of the cost basis of certain RMBS. The Company also expects to report the measures it has implemented to remediate this matter, which include (but may not be limited to) a newly adopted procedure to review such computations on a regular basis.
