Edgar Filing: MERIDIAN HOLDINGS INC - Form DEF 14A

Term and Classification of Board of Directors

The Board of Directors has determined that there will be two Class of Directors and the full Board shall consist of five directors. Class A Directors are elected every three years and Class B Directors are elected each year for one-year term. The stockholders will elect one Class A and four Class B directors for the coming year.

REPORT OF THE BOARD OF DIRECTORS

The Board of Directors, which consists of five directors, four of which are outside members and one of which is an officer of the Company, establishes the general compensation policies of the Company and the compensation plans and specific compensation levels for executive officers. The Company does not have a separate Compensation Committee of its Board of Directors. The Company's objective is to ensure that executive compensation be directly linked to ongoing improvement in corporate performance and increasing shareholder value. The following objectives are guidelines for compensation decisions:

Job Classification.

The Company assigns a job grade to each salaries position, and each job grade has a salary range, which is based on national salary surveys. These salary ranges are reviewed annually to determine parity with national compensation trends, and to ensure that the Company maintains a competitive compensation structure.

Competitive Salary Base.

Actual salaries are based on individual performance contributions within a competitive salary range for each position established through job evaluation and market comparisons. The salary of each corporate officer is reviewed annually by the Board of Directors.

Stock Option Programs.

The purposes of the Company's ESOP and SOP are to provide additional incentives to employees to work to maximize shareholder value. The ESOP is open to all full-time employees of the Company and the SOP is open to participation by key employees and other persons as determined by the Board, based upon a subjective evaluation of the key employee's ability to influence the Company's long-term growth and profitability. Stock options under the ESOP may be granted at the current market price at the time of the grant or under the SOP at prices as determined by the Board. With specific reference to the Chief Executive Officer, the Board attempts to exercise great latitude in setting salary and bonus levels and granting stock options. Philosophically, the Board attempts to relate executive compensation to those variables over which the individual executive generally has control. The Chief Executive Officer has the primary responsibility for improving shareholder value for the whole Company.

The Board believes that it's objectives of linking executive compensation to corporate performance results in alignment of compensation with corporate goals and shareholder interest. When performance goals are met or exceeded, shareholders' value is increased and executives are rewarded commensurately. The Board believes that compensation levels during 2001/2002 adequately reflect the Company's compensation goals and policies. In 1993, the Internal Revenue Code was amended to add section 162(m), which generally disallows a tax deduction for compensation paid to a company's senior executive officers in excess of \$1 million per person in any year. Excluded from the \$1 million limitation is compensation which meets pre-established performance criteria or results from

Edgar Filing: MERIDIAN HOLDINGS INC - Form DEF 14A

the exercise of stock options which meet certain criteria. While the Company generally intends to qualify payment of compensation under section 162(m), the Company reserves the right to pay compensation to its executives from time to

9

time that may not be tax deductible.

The Company will compensate the members of the Board of Directors for each meeting he/she attends, in the amount of \$400 cash or equivalent in the form of the Company's Common Stock at the fair market value.
