FOR IMMEDIATE RELEASE: Wednesday 6am, EST February 8, 2006

Meridian Health Systems, a division of Meridian Holdings, Inc, Inks an Exclusive Healthcare Services and Project Teaming Agreement with Los Angeles Hispanic Health Network

Culver City, California, February 8, 2006 -- Anthony C. Dike, MD, Chairman and CEO of Meridian Holdings, Inc. (OTC Bulletin Board: MRDH), announced today that Meridian Health Systems, a healthcare services division of Meridian Holdings, Inc, has entered into an Exclusive Healthcare Services and Project Teaming Agreement with Los Angeles Hispanic Health Network, (LHHN), a Los Angeles Metropolitan Hispanic Chambers of Commerce initiative.

Under the terms of this three-year automatically renewable agreement, Meridian will arrange for the provision of healthcare services on an exclusive basis to enrolled employees and relatives of small to medium sized Hispanic employer groups and self employed individual members of LHHN, in a culturally sensitive manner, through Meridian's network of affiliated physicians, hospitals and other ancillary services providers initially within Greater Los Angeles County, with later expansion to other areas of United States and abroad.

The company projects that this agreement with LHHN which initially is estimated to provide increased health insurance purchasing power to over 500 employer groups mainly in Los Angeles metropolitan area, will provide revenue to Meridian based on member enrollments and network access fees.

"We believe that this initiative by the Los Angeles Metropolitan Hispanic Chambers of Commerce is a move in the right direction, since California's System of job-based health insurance--the backbone of California's system of health insurance--is declining, according to a report produced by the UCLA Center for Health Policy Research. The report also concludes that while job-based family coverage plummets, children's coverage is being protected by public insurance programs, such as Medi-Cal and Healthy Families.

Pushed by a 79 percent increase in the cost of job-based family coverage for the average worker, enrollment of dependents dropped four percentage points for children and two percentage point for adults from 2001 to 2003. According to this report, more than 6.6 million Californians under age 65--more than one in five non-elderly residents--went without insurance for at least part of 2003, and more than 3.7 million lacked health insurance coverage for the entire year." said Dike. "The increased purchasing power and collective bargaining capability built into the plan will help address this problem among the LHHN membership," he said.

"We are very excited about this agreement with Meridian, since the majority of the work force in Southern California for small and medium sized employer groups

Edgar Filing: MERIDIAN HOLDINGS INC - Form 8-K

is comprised of Hispanic males and females most of which lacked basic health insurance coverage. Those without health insurance were much less likely to have seen a doctor, gotten vital preventive screenings for cancer and diabetes, or taken medication for high blood pressure." said Hugo Merida, President and CEO of Los Angeles Metropolitan Hispanic Chambers of Commerce.
