This Amendment No. 1 to Schedule 13D relating to shares of common stock, par value \$.001 per share (the "Issuer Common Stock") of ACLARA BioSciences, Inc. (the "Issuer"), a Delaware corporation, is being filed to report that (i) PE Corporation (NY) has sold shares of Issuer Common Stock, and (ii) PE Corporation (NY) is no longer the beneficial owner of any Issuer Common Stock as a result of a transfer of the Issuer Common Stock held by it after such sales to its parent company Applera Corporation. Reference is made to the Schedule 13D filed by the reporting persons (under their former names PE Corporation and The Perkin-Elmer Corporation) with the Securities and Exchange Commission on April 3, 2000. Items not included in this Amendment No. 1 to Schedule 13D are either not amended or not applicable.

Item 2. Identity and Background.

This Amendment No. 1 to Schedule 13D is being filed by Applera Corporation, a Delaware corporation formerly named PE Corporation, and PE

Corporation (NY), a New York corporation formerly named The Perkin-Elmer Corporation and a wholly-owned subsidiary of Applera Corporation (each, a "Reporting Person"). The principal offices of the Reporting Persons are located at 301 Merritt 7, Norwalk, Connecticut, 06851-1070.

Applera Corporation conducts its business through three business segments: The Applied Biosystems group; the Celera Genomics group; and Celera Diagnostics, a 50/50 joint venture between the Applied Biosystems group and the Celera Genomics group. The Applied Biosystems group serves the life science industry and research community by developing and marketing instrument-based systems, consumables, software, and services. Customers use these tools to analyze nucleic acids (DNA and RNA), small molecules, and proteins to make scientific discoveries, develop new pharmaceuticals, and conduct standardized testing. The Celera Genomics group is engaged principally in integrating advanced technologies to discover and develop new therapeutics. The Celera Genomics group intends to leverage its proteomic, bioinformatic, and genomic capabilities to identify and validate drug targets, and to discover and develop new therapeutics. Celera Diagnostics is focused on discovery, development, and commercialization of novel diagnostic products.

Applera Corporation previously conducted its businesses indirectly through PE Corporation (NY) and other subsidiaries. However, effective June 28, 2002, the Reporting Persons entered into a plan of liquidation for the purpose of effecting the liquidation of PE Corporation (NY) into Applera Corporation. In furtherance of such plan of liquidation, effective December 8, 2003, PE Corporation (NY) transferred all of the shares of Issuer Common Stock held by it to Applera Corporation and no longer beneficially owns any shares of Issuer Common Stock.

The name, address, present principal occupation or employment, and citizenship of each director and executive officer of Applera Corporation and PE Corporation (NY) are set forth on Schedule I hereto and are incorporated herein by reference.
