**Item 2.02. Results of Operations and Financial Condition.**

(a) On April 27, 2006, Applera Corporation (“Applera”) announced financial results for Applera and its business units for the third quarter of its 2006 fiscal year. Attached hereto as Exhibit 99.1 and incorporated by reference herein is the text of a press release issued on April 27, 2006, with respect to financial results for the third quarter of fiscal year 2006 of Applera and Applera’s Applied Biosystems Group, and attached hereto as Exhibit 99.2 and incorporated by reference herein is the text of a press release issued on April 27, 2006, with respect to financial results for the third quarter of fiscal year 2006 of Applera and Applera’s Celera Genomics Group.

**Item 2.05. Costs Associated with Exit or Disposal Activities.**

As previously reported, in January 2006 we announced plans for Applera’s Celera Genomics Group to partner or sell its small molecule drug discovery and development programs. Programs that are not partnered or sold will be terminated. While we are still evaluating the effect of this action, we anticipate that the Celera Genomics Group will record pre-tax restructuring charges of approximately \$30 million in fiscal 2006 associated with this action. This amount consists of the following estimated amounts: \$12.8 million for one-time severance and termination benefits relating primarily to staff reductions in small molecule drug discovery and development; \$1.9 million for contract termination costs relating primarily to costs associated with a leased facility that will no longer be occupied; \$11.0 million for asset impairments primarily relating to a write-down of the carrying amount of an owned facility to its current estimated market value less estimated selling costs, as well as write-offs of some leasehold improvements; and \$4.3 million for other associated costs relating primarily to estimated restoration and clean-up costs associated with facilities previously occupied. With the exception of a potential adjustment to the write-down of the facility once a final sales price is negotiated and finalized, all costs are expected to be recorded by June 30, 2006. Of the total expected charges of \$30 million, approximately \$20 million are expected to be cash charges.
