LETTER TO SHAREHOLDERS

June 2010

W. Douglas Munn

President and Chief Executive Officer

Dear Valued Shareholder:

We are pleased to provide you with this semiannual report for Evergreen Multi-Sector Income Fund for the six-month period that ended April 30, 2010 (the period).

Leading up to the beginning of the period, a series of extraordinary financial and economic events affected the financial markets in the United States and throughout the world. After a prolonged period of uncertainty and falling share prices worldwide, stock markets staged a remarkable rally in 2009 that continued through the end of the year. In January 2010, concerns about the sustainability of the economic recovery led to a partial correction, but the markets quickly rebounded and ended the reporting period approximately where they began in 2010.

In the United States, employment data turned positive during the period, a welcome sign that the economic recovery appeared to be moving toward self-sustainability. U.S. employers added 162,000 jobs in March 2010, the most in three years. The unemployment rate edged down to 9.9% at the end of the period, after having peaked at 10.1% in October 2009 its highest level in more than 25 years. Still, more than 8 million jobs were lost during the recession and the number of long-term unemployed those out of work for 27 weeks or longer continued to increase, ending the period at 6.7 million.

Investors were encouraged by continued economic growth in both developed and emerging markets and were placing greater interest in underlying fundamentals, in sharp contrast to their wild pursuit of low-quality stocks just one year ago. However, this sentiment was tempered by concerns over the growing sovereign debt problems in Europe, the impact of Chinese policy tightening, and fears over U.S. bank regulation. A rally in the U.S. dollar and a decline in commodity prices also had an impact.

Investors appeared caught between increasing signs of a cyclical upturn and the fear of lingering systematic risks in the wake of the 2008 crisis, with the resulting market volatility. For instance, as the period drew to a close, investors became increasingly nervous about the European Union's willingness and ability to bail out Greece, while Fitch Ratings downgraded Portugal's sovereign debt and Spain moved onto investors' worry radar. As a result, the euro sold off almost 1.5% in a two-day time period, extending its four-month, 11% drop versus the dollar. During that time, investors largely ignored concurrent data that showed U.S. durable goods orders climbing for three months in a row, and business confidence in Germany reached its highest level.

LETTER TO SHAREHOLDERS continued

since June 2008. It was difficult to shake the feeling that the recovery in the West rested on a weak foundation.

In Asia, the situation was much different. Starting in the second half of 2009, Asia began to show signs of a sustained recovery, well ahead of the rest of the world. Without the structural balance sheet issues faced by Western economies, Asian credit growth picked up far earlier, particularly in China and more recently in India. In sharp contrast to Europe and the United States, where a fear of debt-deflation spiral hung over the market near the end of the period, investors in Asia were increasingly worried about rising inflation. Currently, the major risk we see is that Asian central banks will begin to tighten credit and choke off growth in the region. Notably, in March of 2010, India became the first major emerging market to raise interest rates in response to rapidly increasing inflation.

During this period, management of Evergreen Multi-Sector Income Fund maintained a strategy seeking a high level of income with limited exposure to the risks from changing interest rates. Assets of this closed-end fund were allocated among sleeves of U.S. high yield, corporate bonds, investment-grade foreign debt securities and U.S. adjustable-rate, mortgage-backed securities.

We believe the changing conditions in the investment environment over the period have underscored the value of a well-diversified, long-term investment strategy to help soften the effects of volatility in any one market or asset class. As always, we encourage investors to maintain diversified investment portfolios in pursuit of their long-term investment goals.

Sincerely,

W. Douglas Munn

LETTER TO SHAREHOLDERS continued

Notice to Shareholders:

At meetings held on May 11 and June 9-10, 2010, the Board of Trustees of Evergreen Multi-Sector Income Fund (the Fund) unanimously approved a new advisory contract with Wells Fargo Funds Management, LLC, a new sub-advisory contract with Wells Capital Management Incorporated and a new sub-advisory contract with the Fund s current sub-advisor, First International Advisors, LLC (the Agreements). Shareholders are being asked to approve the Agreements at a meeting to be held on July 9, 2010. Following approval of the Agreements, Phil Susser and Niklas Nordenfelt of Wells Capital Management Incorporated are expected to assume portfolio management responsibilities for the high-yield portion of the Fund, Tony Norris and Peter Wilson of First International Advisors, LLC are expected to continue to manage the foreign debt securities portion of the Fund (with Norris continuing to provide asset allocation services to the Fund) and Richard Applebach and Christopher Kauffman of Wells Capital Management Incorporated will continue to manage the adjustable rate mortgage portion of the Fund. Applebach and Kauffman currently provide such services to the Fund as portfolio managers at Tattersall Advisory Group, Inc., a current sub-advisor to the Fund. In addition, the Fund will be renamed the Wells Fargo Advantage Multi-Sector Income Fund.

At the May 11 meeting, the Board also nominated seven persons for election to the Fund s Board as new Trustees, and nominated two current Trustees for re-election to the Fund s Board. Shareholders are being asked to elect these nominees at the July 9 meeting.

A Proxy Statement containing additional information about the Agreements and the nominees was provided to shareholders of record as of May 18, 2010.

NOTES TO FINANCIAL STATEMENTS (unaudited)

1. ORGANIZATION

Evergreen Multi-Sector Income Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on April 10, 2003 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income consistent with its overall exposure to domestic interest rate risk.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates. Management has considered the circumstances under which the Fund should recognize or make disclosures regarding events or transactions occurring subsequent to the balance sheet date through the date the financial statements are issued. Adjustments or additional disclosures, if any, have been included in these financial statements.

a. Valuation of investments

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of fair market value obtained from yield data relating to investments or securities with similar characteristics.

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Non-listed preferred securities are valued using evaluated prices determined by an independent pricing service which takes into consideration such factors as similar security prices, spreads, liquidity, benchmark quotes and market conditions. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers who use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

In January 2010, the Fund changed its pricing for all evaluated prices for taxable fixed income securities and non-listed preferred stocks from mean to bid prices. The change was the result of the investment advisor's analysis of which price estimate (mean or bid) provided the better estimate of value. The estimated impact on the Fund's net asset value (NAV) per share on the day of the change was a decrease of approximately \$0.06.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Short-term securities of sufficient credit quality with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates fair value.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current fair value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

The valuation techniques used by the Fund to measure fair value are consistent with the market approach, income approach and/or cost approach, where applicable, for each security type.

b. Reverse repurchase agreements

To obtain short-term financing, the Fund may enter into reverse repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing qualified assets having a value not less than the repurchase price, including accrued interest. If the counterparty to the transaction is rendered insolvent, the Fund may be delayed or limited in the repurchase of the collateral securities.

c. Foreign currency translation

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on investments.

d. Futures contracts

The Fund is subject to interest rate risk in the normal course of pursuing its investment objectives. The Fund may buy and sell futures contracts in order to gain exposure to, or protect against changes in, security values. The primary risks associated with the use of futures contracts are the imperfect correlation between changes in market values of securities held by the Fund and the prices of futures contracts, and the possibility of an illiquid market.

Futures contracts are valued based upon their quoted daily settlement prices. The aggregate principal amounts of the contracts are not recorded in the financial statements. Fluctuations in the value of the contracts are recorded in the Statement of Assets and Liabilities as an asset or liability and in the Statement of Operations as unrealized gains or losses until the contracts are closed, at which point they are recorded as net realized gains or losses on futures contracts. With futures contracts, there is minimal counterparty risk

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

to the Fund since futures are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures, guarantees the futures against default.

e. Forward foreign currency contracts

The Fund is subject to foreign currency exchange rate risk in the normal course of pursuing its investment objectives. A forward foreign currency contract is an agreement between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Fund enters into forward foreign currency contracts to facilitate transactions in foreign-denominated securities and to attempt to minimize the risk to the Fund from adverse changes in the relationship between currencies. Forward foreign currency contracts are recorded at the forward rate and marked-to-market daily. When the contracts are closed, realized gains and losses arising from such transactions are recorded as realized gains or losses on foreign currency related transactions. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or if the value of the foreign currency changes unfavorably. The Fund's maximum risk of loss from counterparty credit risk is the unrealized gains or losses on the contracts. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty.

f. When-issued and delayed delivery transactions

The Fund records when-issued or delayed delivery securities as of trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked-to-market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

g. Loans

The Fund may purchase loans through an agent, by assignment from another holder of the loan or as a participation interest in another holder's portion of the loan. Loans are purchased on a when-issued or delayed delivery basis. Interest income is accrued based on the terms of the securities. Fees earned on loan purchasing activities are recorded as income when earned. Loans involve interest rate risk, liquidity risk and credit risk, including the potential default or insolvency of the borrower.

h. Securities lending

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

access to the collateral. In addition, the investment of any cash collateral received may lose all or part of its value. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

i. Dollar roll transactions

The Fund may enter into dollar roll transactions with respect to mortgage-backed securities. In a dollar roll transaction, the Fund sells mortgage-backed securities to financial institutions and simultaneously agrees to accept substantially similar (same type, coupon and maturity) securities at a later date at an agreed upon price. The Fund will use the proceeds generated from the transactions to invest in short-term investments, which may enhance the Fund's current yield and total return. The Fund accounts for dollar roll transactions as purchases and sales. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform under the terms of the agreement, if the Fund receives inferior securities in comparison to what was sold to the counterparty at redelivery or if there are variances in paydown speed between the mortgage-related pools.

j. Interest rate swaps

The Fund is subject to interest rate risk in the normal course of pursuing its investment objectives. The Fund may enter into interest rate swap contracts for hedging purposes to manage the Fund's exposure to interest rates. Interest rate swaps involve the exchange between the Fund and another party of their commitments to pay or receive interest based on a notional principal amount.

The value of the swap contract is marked-to-market daily based upon quotations from brokers which use prices provided by market makers and any change in value is recorded as an unrealized gain or loss. Payments made or received are recorded as realized gains or losses. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform or if there are unfavorable changes in the fluctuation of interest rates. The Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from the counterparty over the contract's remaining life. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

k. Credit default swaps

The Fund is subject to credit risk in the normal course of pursuing its investment objectives. The Fund may enter into credit default swap contracts for hedging or speculative purposes to provide or receive a measure of protection against default on a referenced entity, obligation or index. Credit default swaps involve an exchange of a stream of payments for protection against the loss in value of an underlying security or index. Under the terms of the swap, one party acts as a guarantor (referred to as the seller of protection) and receives a periodic stream of payments, provided that there is no credit event, from another party (referred to as the buyer of protection) that is a fixed percentage applied to a notional principal amount over the term of the swap. An index credit default swap references

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

all the names in the index, and if a credit event is triggered, the credit event is settled based on that name's weight in the index. A credit event includes bankruptcy, failure to pay, obligation default, obligation acceleration, repudiation/moratorium, and restructuring. The Fund may enter into credit default swaps as either the seller of protection or the buyer of protection. As the seller of protection, the Fund is subject to investment exposure on the notional amount of the swap and has assumed the risk of default of the underlying security or index. As the buyer of protection, the Fund could be exposed to risks if the seller of the protection defaults on its obligation to perform, or if there are unfavorable changes in the fluctuation of interest rates. The maximum potential amount of future payments (undiscounted) that the Fund as the seller of protection could be required to make under the credit default swap contract would be an amount equal to the notional amount of the swap contract. The Fund's maximum risk of loss from counterparty risk, either as the protection seller or as the protection buyer, is the fair value of the contract. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

If the Fund is the seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will pay to the buyer of protection the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index. If the Fund is the buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will receive from the seller of protection the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index.

Any premiums paid or received on the transactions are recorded as an asset or liability on the Statement of Assets and Liabilities and amortized. The value of the swap contract is marked-to-market daily based on quotations from an independent pricing service or market makers and any change in value is recorded as an unrealized gain or loss. Periodic payments made or received are recorded as realized gains or losses. In addition, payments received or made as a result of a credit event or termination of the contract are recognized as realized gains or losses.

Certain credit default swap contracts entered into by the Fund provide for conditions that result in events of default or termination that enable the counterparty to the agreement to cause an early termination of the transactions under those agreements. Any election by the counterparty to terminate early may impact the amounts reported on the financial statements.

I. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

by writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. If the issuer subsequently resumes interest payments or when the collectibility of interest is reasonably assured, the debt obligation is removed from non-accrual status. Dividend income is recorded on the ex-dividend date. Foreign income and capital gains realized on some securities may be subject to foreign taxes, which are accrued as applicable.

m. Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required. The Fund's income and excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal, Massachusetts and Delaware revenue authorities.

n. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

3. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC (EIMC), a subsidiary of Wells Fargo & Company (Wells Fargo), is the investment advisor to the Fund and is paid an annual fee of 0.55% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings or other leverage for investment purposes. For the six months ended April 30, 2010, the advisory fee was equivalent to an annual rate of 0.74% of the Fund's average daily net assets applicable to common shareholders.

First International Advisors, LLC, an affiliate of EIMC and a majority-owned subsidiary of Wells Fargo, is the investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund.

Tattersall Advisory Group, Inc., an affiliate of EIMC and an indirect, wholly-owned subsidiary of Wells Fargo, is also an investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund.

From time to time, EIMC may voluntarily or contractually waive its fee and/or reimburse expenses in order to limit operating expenses. During the six months ended April 30, 2010, EIMC contractually waived its advisory fee in the amount of \$1,530,991. These contractual waivers were put in place to ensure the costs incurred by the Fund under the Facility (see Note 4), as a percentage of the average outstanding borrowings, would not exceed the costs that would have been incurred if the Preferred Shares had not been redeemed less 0.05%.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

The Fund may invest in money market funds which are advised by EIMC. Income earned on these investments is included in income from affiliated issuers on the Statement of Operations.

EIMC also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. EIMC is paid an annual administrative fee of 0.05% of the Fund's average daily total assets. For the six months ended April 30, 2010, the administrative fee was equivalent to an annual rate of 0.07% of the Fund's average daily net assets applicable to common shareholders.

4. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 common shares with no par value. For the six months ended April 30, 2010 and the year ended October 31, 2009, the Fund did not issue any common shares.

As of April 30, 2010, the Fund had 3,200 shares of Auction Market Preferred Shares (Preferred Shares) issued and outstanding consisting of five series, each with a liquidation value of \$25,000 plus accumulated but unpaid dividends (whether or not earned or declared).

Dividends on each series of Preferred Shares are cumulative at a rate, which is reset based on the result of an auction. During the six months ended April 30, 2010, the Preferred Shares experienced failed auctions and the Fund paid dividends to the holders of Preferred Shares based on the maximum rate allowed under the governing documents for the Preferred Shares. The annualized dividend rate of 1.75% during the six months ended April 30, 2010, includes the maximum rate for the dates on which auctions failed. The Fund will not declare, pay or set apart for payment any dividend to its common shareholders unless the Fund has declared and paid or contemporaneously declares and pays full cumulative dividends on each series of Preferred Shares through its most recent dividend payment date.

Each series of Preferred Shares is redeemable, in whole or in part, at the option of the Fund on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared). Each series of Preferred Shares is also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared) if the asset coverage with respect to the outstanding Preferred Shares fell below 200%.

The holders of Preferred Shares have voting rights equal to the holders of the Fund's common shares and vote together with holders of common shares as a single class. Holders of Preferred Shares, voting separately as a single class, have the right to elect at least two Trustees at all times. The remaining Trustees are elected by holders of common shares and Preferred Shares, voting together as a single class.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

The Fund secured debt financing in April 2008 from a multi-seller commercial paper conduit administered by a major financial institution (the Facility) in order to redeem a pro rata portion of each of its series of Preferred Shares. The Facility was refinanced on April 26, 2010 with a new commercial paper conduit, administered by a different major financial institution, with a commitment amount of \$130 million and a 364 day term (Refinancing Facility). As of April 30, 2010, the Fund had borrowed \$50 million under the Refinancing Facility. The Fund's borrowings under the Refinancing Facility are generally charged interest at a rate based on the rates of the commercial paper notes issued to fund the Fund's borrowings plus 1.0% or at the London Interbank Offered Rate (LIBOR) plus 2.0%. Under the Facility, the Fund had been generally charged interest at a rate based on the rates of the commercial paper notes issued or at LIBOR plus 9.5%. During the six months ended April 30, 2010, an effective interest rate of 0.40% was incurred on the borrowings, which was based on the rates of the commercial paper notes. Interest expense of \$99,264, representing 0.03% of the Fund's average daily net assets applicable to common shareholders, was incurred during the six months ended April 30, 2010.

The Fund has pledged its assets to secure the borrowings and currently pays, on a monthly basis, a liquidity fee at an annual rate of 0.60% of the daily average outstanding principal amount of borrowings and a program fee at an annual rate of 0.60% of the product of (i) the daily average outstanding principal amount of borrowings and (ii) 1.02. Under the Facility, the Fund paid, on a monthly basis, a liquidity fee at an annual rate of 2.75% of the total commitment amount and a program fee at an annual rate of 2.75% on the daily average outstanding principal amount of borrowings. The secured borrowing fees on the Statement of Operations of \$3,017,611 represents amortization of structuring fees, liquidity fees and program fees. Of this amount \$1,145,574 represents prepaid structuring fees relating to the Facility which were reimbursed to the Fund by the investment advisor.

On April 27, 2010, the Fund provided notice of its intention to redeem all of its outstanding Preferred Shares.

5. INVESTMENT TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were as follows for the six months ended April 30, 2010.

Cost of Purchases		Proceeds from Sales	
U.S. Government	Non-U.S. Government	U.S. Government	Non-U.S. Government
\$52,730,913	\$328,280,682	\$1,372,985	\$331,597,053

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

(Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of April 30, 2010, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

7. EXPENSE REDUCTIONS

Through expense offset arrangements with the Fund's custodian, a portion of fund expenses has been reduced.

8. DEFERRED TRUSTEES FEES

Each Trustee of the Fund may defer any or all compensation related to performance of his or her duties as a Trustee. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts is based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly

installments for up to ten years.

9. REGULATORY MATTERS AND LEGAL PROCEEDINGS

The Evergreen funds, EIMC and certain of EIMC's affiliates are involved in various legal actions, including private litigation and class action lawsuits, and are and may in the future be subject to regulatory inquiries and investigations.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

EIMC and Evergreen Investment Services, Inc. (EIS) have reached final settlements with the Securities and Exchange Commission (SEC) and the Securities Division of the Secretary of the Commonwealth of Massachusetts (Commonwealth) primarily relating to the liquidation of Evergreen Ultra Short Opportunities Fund (Ultra Short Fund). The claims settled include the following: first, that during the period February 2007 through Ultra Short Fund 's liquidation on June 18, 2008, Ultra Short Fund 's former portfolio management team failed to properly take into account readily available information in valuing certain non-agency residential mortgage-backed securities held by the Ultra Short Fund, resulting in the Ultra Short Fund 's net asset value (NAV) being overstated during the period; second, that EIMC and EIS acted inappropriately when, in an effort to explain the decline in Ultra Short Fund 's NAV, certain information regarding the decline was communicated to some, but not all, shareholders and financial intermediaries; third, that the Ultra Short Fund portfolio management team did not adhere to regulatory requirements for affiliated cross trades in executing trades with other Evergreen funds; and finally, that from at least September 2007 to August 2008, EIS did not preserve certain text and instant messages transmitted via personal digital assistant devices. In settling these matters, EIMC and EIS have agreed to payments totaling \$41,125,000, up to \$40,125,000 of which will be distributed to eligible shareholders of Ultra Short Fund pursuant to a methodology and plan approved by the regulators. EIMC and EIS neither admitted nor denied the regulators' conclusions.

In addition, the U.S. District Court for the District of Massachusetts has consolidated three purported class actions into *In re Evergreen Ultra Short Opportunities Fund Securities Litigation*. The plaintiffs filed a consolidated amended complaint on April 30, 2009 against various Evergreen entities, including EIMC and EIS, the Evergreen funds' former distributor, and Evergreen Fixed Income Trust and its Trustees. The complaint generally alleges that investors in Ultra Short Fund suffered losses as a result of (i) misleading statements in Ultra Short Fund 's registration statement and prospectus, (ii) the failure to accurately price securities in Ultra Short Fund at different points in time and (iii) the failure of Ultra Short Fund 's risk disclosures and description of its investment strategy to inform investors adequately of the actual risks of the fund. The complaint seeks damages in an amount to be determined at trial.

EIMC does not expect that any of the legal actions, inquiries or settlement of regulatory matters will have a material adverse impact on the financial position or operations of the Fund to which these financial statements relate. Any publicity surrounding or resulting from any legal actions or regulatory inquiries involving EIMC or its affiliates or any of the Evergreen Funds could result in reduced sales or increased redemptions of Evergreen fund shares, which could increase Evergreen fund transaction costs or operating expenses or have other adverse consequences on the Evergreen funds, including the Fund.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued**10. SUBSEQUENT DISTRIBUTIONS**

The Fund declared the following distributions to common shareholders:

Declaration Date	Record Date	Payable Date	Net Investment Income
	May		
April 16, 2010	14, 2010	June 1, 2010	\$0.1083
	June		
May 21, 2010	15, 2010	July 1, 2010	\$0.1083
June 10, 2010	July 15, 2010	August 2, 2010	\$0.1083

These distributions are not reflected in the accompanying financial statements.

11. SUBSEQUENT EVENT

As of June 4, 2010, all outstanding Preferred Shares had been redeemed and were financed with borrowings from the Refinancing Facility.

In June 2010, a proxy statement for a Special Meeting of Shareholders was mailed to shareholders of record on May 18, 2010. The Special Meeting of Shareholders is scheduled to be held on July 9, 2010. Among the proposals for consideration is the approval of a new advisory agreement with Wells Fargo Funds Management, LLC to replace EIMC as well as a new sub-advisory agreement with First International Advisors, LLC and a new sub-advisory agreement with Wells Capital Management Incorporated. The new advisory and sub-advisory agreements contain terms similar to the current advisory and sub-advisory agreements. Following shareholder approval of the new advisory and sub-advisory agreements, the Fund will also be renamed Wells Fargo Multi-Sector Income Fund.

ADDITIONAL INFORMATION (unaudited)

ANNUAL MEETING OF SHAREHOLDERS

The Annual Meeting of shareholders of the Fund was held on February 12, 2010 to consider the following proposal. The results of the proposal are indicated below.

Proposal 1 Election of Trustees:

	Net Assets Voted For	Net Assets Voted Withheld
Dr. Leroy Keith, Jr.	\$600,776,005	\$16,431,430

AUTOMATIC DIVIDEND REINVESTMENT PLAN (unaudited)

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipating the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open-market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.
