NEWS RELEASE

**ABLEAUCTIONS ANNOUNCES SECOND QUARTER 2004 TO BE AS STRONG AS FIRST QUARTER  
2004**

FIFE, WASHINGTON May 17, 2004 Ableauctions.com Inc. (AMEX:AAC) (the Company ) announced today that, based on the orders it has received to date from its Unlimited Closeouts and iTrustee operations as well as the performance to date of its online auction units, it expects its financial results for the second quarter of the 2004 fiscal year to be comparable to its first quarter financial results.

The Company intends to implement aggressive marketing campaigns together with eBay Live Auctions and the National Auctioneers Association in order to further expand its auction services and increase its auction revenues during the 2004 fiscal year. In 2003 the Company's Auction Broadcast Services group facilitated approximately 200 auction sessions, either on eBay Live Auctions or through its own technology (now NAALive.com). In the first quarter of 2004, the Company has already facilitated 74 auction sessions and believes it will increase this number during the second quarter.

On July 13, 2004, the Company will have completed its latest modifications and enhancements to its technology and will deliver a live presentation on its Internet auction technology to members of the National Auctioneers Association who will be attending the Technology Summit of the 55<sup>th</sup> annual International Auctioneers Conference and Show in Madison, Wisconsin. The conference is scheduled to coincide with the Company's installation of an optimized server array in order to handle the higher than expected Internet traffic. The expansion of operations and servers reflects the Company's commitment to maintain industry leadership in its auction technology and auction services, and to satisfy growing industry demand for its services.

The Company is also continuing to implement its plan of expanding by seeking partnering relationships or acquisitions of technology-based companies that it believes could add breadth to its core competencies and enhance its business model.
