PART III — NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

On January 31, 2007, Maxim Integrated Products, Inc. (the "Company") announced that it expected to restate its financial statements for the fiscal years 2000 through 2005 and the related interim periods through March 25, 2006 to record additional stock-based compensation expense for certain stock option grants under review. At that time the Company also announced that financial statements for fiscal years prior to 2000 may be restated due to possible process problems in the granting of stock options.

On January 17, 2008, the Company announced that financial statements for fiscal years 1997 through 1999 will be restated to record additional stock-based compensation expense for certain stock option grants. The Company also announced its expectation to record additional non-cash, stock-based compensation expense during fiscal years 1997 through Fiscal 2006 in the estimated range of \$550 to \$650 million on a pre-tax basis and \$360 to \$425 million on an after-tax basis. Accordingly, the financial statements, the related reports of its independent registered public accounting firms, and all earnings press releases and similar communications issued by the Company relating to the periods discussed above (fiscal years 1997 through 2005 and the related interim periods through March 25, 2006 and the earnings press release dated August 4, 2006) should not be relied upon.

As a result of these matters, the Company was unable to prepare restated financials prior to the prescribed due date for the Quarterly Report on Form 10-Q for the quarter ended March 29, 2008, and consequently, the Company is unable to file its Quarterly Report on Form 10-Q for the quarter ended March 29, 2008 within the prescribed period without unreasonable effort or expense.

The Company is focused on resolving these issues as quickly as possible and plans to file its outstanding Annual Reports on Form 10-K and its outstanding Quarterly Reports on Form 10-Q and required restated financial statements as soon as practical.

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Company has concluded that its previously issued financial statements, the related reports of its independent registered public accounting firms, and all earnings press releases and similar communications issued by the Company relating to fiscal years 1997-2005, the related interim periods through March 25, 2006 and the earnings press release dated August 4, 2006 should not be relied upon and will be restated. The Company's preliminary estimates indicate that the aggregate pre-tax, non-cash stock-based compensation charges will be in the range of \$550 million to \$650 million for fiscal years 1997-2006. As the restatement of the Company's historical financial reports has not yet been completed, the Company cannot provide a reasonable estimate and comparison of the results of its operations from the corresponding period for the last fiscal year at this time.
