Fellow Shareholders,

The S&P 500 (total return) rose 9.3% during the first six months of 2017, while our Fund rose 6.5%. As noted in the last letter, our concern about expensive prices for shares has led us to a considerable cash position. In a rising market, the cash position will temper positive results, as was the case so far in 2017.

Our Fund's goal is, and has been, superior long-term investment performance with due respect for the value of capital and the need to protect it. Although we are equity investors, we are risk averse. We have too much regard for the importance of preserving our capital to take undue risk. We would rather give up a little potential upside than run the risk of a permanent loss of capital.

The current elevated prices for our portfolio investments are both blessings as well as curses. We are pleased to be able to increase the stated value of the portfolio, but the market prices give us reason to contemplate selling part of our portfolio positions. We're not in a rush to do anything currently. The Fund owns high-quality companies, with attractive returns on capital. Time is a friend to those companies, even while the share price may rise and fall in the interim.

Our investment philosophy and strategy is simple. We seek to identify and acquire high quality growing companies which sell at significant discounts from their intrinsic values. Then, we sit back and let these high-quality companies continue to build their businesses over the long-term. When the stock market recognizes to a large extent what we see in a portfolio company, then we're faced with a more difficult decision. Do we continue to hold a quality company even when it sells at an elevated price that is much closer to intrinsic value?

Paychex, Inc. (Nasdaq: PAYX) is an example of a Fund portfolio company with a bright future, and a stock price that generally reflecting those favorable prospects. PAYX provides payroll processing and related services to mostly small employers, those with 100 or fewer employees. The perceived value received by the customer is far in excess of the cost borne by the employer to navigate the complex tax, withholding and related governmental rules. As a result, once an employer has signed on with Paychex, the employer is reluctant to switch and risk the potential disruption in paying employees and complying with the operative tax rules.

Paychex has over \$3 billion in annual sales, with an operating margin near 40% of revenues, and a net margin of 25% of revenues. In addition, PAYX makes money on client funds held on a temporary basis. In the aggregate, Paychex had an average daily balance of over \$4 Billion of client funds in 2017. On the balance of other people's money, Paychex collected nearly \$50 million in interest during its most recent fiscal year, a number that will increase if and when short-term interest rates return to a more normal level.

As an investor, it's easy to like PAYX: it provides a valued service to customers, is quite profitable, has high margins, pays a nice dividend, and is led by a capable management team. These high-quality metrics come at a stiff price. At \$57, Paychex trades at over 25x historic earnings. With limited balance sheet assets, practically all of the \$57 valuation is attributable to the future earnings stream.

We are fans of Paychex and, near \$57, feel more comfortable holding PAYX shares than selling. Faced with a great company trading at a relatively rich price, we will generally opt to just hold. Virtually every sale decision for our Fund brings with it undesirable income tax consequences. With a portfolio of investments with almost \$10 million in unrealized long-term capital gains, we have plenty of incentive to continue holding as opposed to selling and triggering these unpleasant tax consequences.

As always, we love hearing from our shareholders. However, we won't comment on any undisclosed purchases or sales that the Fund has made or is contemplating. With that caveat in mind, all other issues are on the table.

Notes to Financial Statements

(1) Organization.

Eagle Capital Growth Fund, Inc. (“Fund”), a Maryland corporation, is a diversified closed-end investment company subject to the Investment Company Act of 1940.

(2) Significant Accounting Policies.

Dividends and distributions—Dividends and distributions paid to the Fund from portfolio investments are recorded on the ex-dividend date.

Investments— Investments in equity securities are valued at the closing market price as of the close of regular trading on the applicable valuation date. If no such closing market price is available on the valuation date, the Fund uses the then most recent closing market price.

In the unlikely event that there is no current or recent closing market price for a portfolio security (whether equity or debt) traded in the over-the-counter market, then the Fund uses the most recent closing bid price. If there is no closing bid price for a portfolio security for a period of ten (10) consecutive trading days, then the Fund’s Audit Committee or other appropriate committee shall determine the value of such illiquid security. From inception to June 30, 2017, the Fund has not held a security which required an illiquid pricing valuation.

Investment security purchases and sales are accounted for on a trade date basis. Interest income is accrued on a daily basis while dividends are included in income on the ex-dividend date.

Use of estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Federal income taxes—The Fund intends to comply with the general qualification requirements of the Internal Revenue Code applicable to regulated investment companies such as the Fund. The Fund plans to distribute annually at least 90% of its taxable income, including net long-term capital gains, to its shareholders. In order to avoid imposition of the excise tax applicable to regulated investment companies, the Fund intends to declare as dividends in each calendar year an amount equal to at least 98% of its net investment income and 98% of its net realized capital gains (including undistributed amounts from previous years).

The following information is based upon the Federal income tax basis of equity portfolio investments as of June 30, 2017:

Gross unrealized appreciation	\$9,590,329
Gross unrealized depreciation	(40,378 )
Net unrealized appreciation	\$9,549,951
Federal income tax basis	\$16,986,537

Expenses—The Fund’s service providers bear all of their expenses in connection with the performance of their services. The Fund bears all of its expenses incurred in connection with its operations including, but not limited to, investment advisory fees (as discussed in Note 3), legal and audit fees, taxes, insurance, shareholder reporting and other related costs. As noted in Note 3, the Fund’s investment advisor, as part of its responsibilities under the Investment Advisory

Agreement, is required to provide certain internal administrative services to the Fund at such investment advisor's expense. The Investment Advisory Agreement provides that the Fund may not incur annual aggregate expenses in excess of two percent (2%) of the first \$10 million of the Fund's average net assets, one and a half percent (1.5%) of the next \$20 million of the average net assets, and one percent (1%) of the remaining average net assets for any fiscal year. Any excess expenses are the responsibility of the investment advisor.

**Fair Value Accounting**—Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provides a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access. All of the Fund's investments are classified as Level 1.

---

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

The Fund's financial statements, other than investments, consist of receivables and payables due in the near term. Fair value of those instruments approximates historical cost.

### (3) Certain Service Providers Arrangements

Investment advisor—For its services under the Investment Advisory agreement, the investment advisor receives a monthly fee calculated at an annual rate of three-quarters of one percent (0.75%) of the weekly net asset value of the Fund, as long as the weekly net asset value is at least \$3.8 million. The investment advisor is not entitled to any compensation for any week in which the average weekly net asset value falls below \$3.8 million. Pursuant to the Investment Advisory Agreement, the investment advisor is required to provide certain internal administrative services to the Fund at the investment advisor's expense.

Effective June 1, 2007, following shareholder approval of the Investment Advisory Agreement, Sims Capital Management LLC ("SCM") began serving as the Fund's investment advisor. Pursuant to the Investment Advisory Agreement, SCM is responsible for the management of the Fund's portfolio, subject to oversight by the Fund's Board of Directors. Luke E. Sims, a Director, President and Chief Executive Officer of the Fund and owner of more than five percent of the Fund's outstanding shares, owns 50% of SCM. David C. Sims, the Chief Financial Officer, Chief Compliance Officer, Secretary, and Director of the Fund and the son of Luke E. Sims, owns the remaining 50% of SCM.

Custodian— Bank of America Corporation serves as the Fund's custodian pursuant to a custodian agreement. As the Fund's custodian, Bank of America receives fees and compensation of expenses for services provided including, but not limited to, an annual account charge, annual security fee, security transaction fee and statement of inventory fee.

Transfer Agent— American Stock Transfer & Trust Company ("AST") serves as the Fund's transfer agent and dividend disbursing agent. AST receives fees for services provided including, but not limited to, account maintenance fees, activity and transaction processing fees and reimbursement for its out-of-pocket expenses. AST also acts as the agent under the Fund's Dividend Reinvestment and Cash Purchase Plan ("DRIP").

### (4) Dividend Reinvestment and Cash Purchase Plan.

The Fund has a Dividend Reinvestment and Cash Purchase Plan ("DRIP") which allows shareholders to reinvest cash dividends and make cash contributions. Pursuant to the terms of the DRIP, cash dividends may be used by the DRIP agent to either purchase shares from the Fund or in the open market, depending on the most favorable pricing available to DRIP participants. Voluntary cash contributions from DRIP participants are used to purchase Fund shares in the open market. A complete copy of the DRIP is available on the Fund's website ([www.eaglecapitalgrowthfund.com](http://www.eaglecapitalgrowthfund.com)) or from AST, the DRIP agent.

### (5) Fund Investment Transactions

Purchases and sales of securities, other than short-term securities, for the six month period ended June 30, 2017 were \$11,236,142 and \$9,706,270, respectively.

(6) Financial Highlights.

The Financial Highlights present a per share analysis of how the Fund's net asset value has changed during the periods presented. Additional quantitative measures expressed in ratio form analyze important relationships between certain items presented in the financial statements. The total investment return based on market value assumes that shareholders bought into the Fund at the bid price and sold out of the Fund at the bid price. In reality, shareholders buy into the Fund at the asked price and sell out of the Fund at the bid price. Therefore, actual returns may differ from the amounts shown.

personnel considerations, resources available to SCM, SCM's ability to satisfy compliance obligations and other relevant factors. Overall, the Board remained satisfied with the nature, extent and quality of services provided by SCM.
