Issuer Callable Contingent Coupon Barrier Notes Linked to the Lesser Performing of Three Equity Indices, Due October 27, 2020

Royal Bank of Canada is offering Issuer Callable Contingent Coupon Barrier Notes (the "Notes") linked to the lesser performing of three equity indices (each, a "Reference Index" and collectively, the "Reference Indices"). The Notes offered are senior unsecured obligations of Royal Bank of Canada, will pay a quarterly Contingent Coupon at the rate and under the circumstances specified below, and will have the terms described in the documents described above, as

Reference Indices	Initial Levels*	Trigger Levels	Coupon Barriers
Russell 2000® Index ("RTY")		65.00% of its Initial Level	70.00% of its Initial Level
S&P 500 [®] Index ("SPX")		65.00% of its Initial Level	70.00% of its Initial Level
EURO STOXX 50® Index ("SX5E")	65.00% of its Initial Level	70.00% of its Initial Level

^{*} For each Reference Index, the Initial Level will be its closing level on the Trade Date.

The Notes do not guarantee any return of principal at maturity. Any payments on the Notes are subject to our credit risk.

Investing in the Notes involves a number of risks. See "Risk Factors" beginning on page PS-5 of the product prospectus supplement dated September 10, 2018, on page S-1 of the prospectus supplement dated September 7, 2018, and "Selected Risk Considerations" beginning on page P-7 of this terms supplement.

The Notes will not constitute deposits insured by the Canada Deposit Insurance Corporation, the U.S. Federal Deposit Insurance Corporation or any other Canadian or U.S. government agency or instrumentality. The Notes are not subject to conversion into our common shares under subsection 39.2(2.3) of the Canada Deposit Insurance Corporation Act. Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the Notes or determined that this terms supplement is truthful or complete. Any representation to the contrary is a criminal offense.

Stock Exchange Issuer: Royal Bank of Canada None Listing:

Trade Date: October 22, 2018 Principal Amount: \$1,000 per Note Issue Date: October 25, 2018 Maturity Date: October 27, 2020

Coupon Payment Dates: Quarterly, as set forth below Quarterly, as set forth **Observation Dates:**

below.

Contingent Coupon Valuation Date: October 22, 2020 9.90% per annum

Rate:

For each Reference Index, its closing level on the Trade Date. **Initial Level:** Final Level: For each Reference Index, its closing level on the Valuation Date.

If the Notes have not been previously called, and if the closing level of each

Reference Index is greater than or equal to its Coupon Barrier on the

applicable Observation Date, we will pay the Contingent Coupon on the Contingent Coupon:

applicable Coupon Payment Date. You may not receive any Contingent

Coupons during the term of the Notes.

If the Notes are not previously called, we will pay you at maturity an amount

based on the Final Level of the Lesser Performing Reference Index:

For each \$1,000 in principal amount, \$1,000 plus the Contingent Coupon (if

payable) at maturity, unless the Final Level of the Lesser Performing

Reference Index is less than its Trigger Level.

Payment at Maturity (if held to

maturity):

If the Final Level of the Lesser Performing Reference Index is less than its Trigger Level, then the investor will receive at maturity, for each \$1,000 in

principal amount, a cash payment equal to:

\$1,000 + (\$1,000 x Underlying Return of the Lesser Performing Reference

Investors in the Notes could lose some or all of their principal amount if the Final Level of the Lesser Performing Reference Index is below its Trigger

Level.

Lesser Performing Reference Index: The Reference Index with the lowest Reference Index Return.

The Notes may be called at our discretion starting on January 25, 2019 or on

Call Feature: any Coupon Payment Date thereafter, if we send prior written notice, as

described below.

CUSIP: 78013XQ68

> Per Note Total Price to public 100.00% \$ Underwriting discounts and commissions 0.50% Proceeds to Royal Bank of Canada 99.50% \$

The initial estimated value of the Notes as of the date of this terms supplement is \$981.19 per \$1,000 in principal amount, which is less than the price to public. The final pricing supplement relating to the Notes will set forth our estimate of the initial value of the Notes as of the Trade Date, which will not be less than \$961.19 per \$1,000 in principal amount. The actual value of the Notes at any time will reflect many factors, cannot be predicted with accuracy, and may be less than this amount. We describe our determination of the initial estimated value in more detail below.

If the Notes priced on the date of this terms supplement, RBC Capital Markets, LLC, which we refer to as RBCCM, acting as agent for Royal Bank of Canada, would receive a commission of approximately \$5.00 per \$1,000 in principal amount of the Notes and would use a portion of that commission to allow selling concessions to other dealers of up to approximately \$5.00 per \$1,000 in principal amount of the Notes. The other dealers may forgo, in their sole discretion, some or all of their selling concessions. See "Supplemental Plan of Distribution (Conflicts of Interest)" below.

RBC Capital Markets, LLC

Issuer Callable Contingent Coupon Barrier Notes Linked to the Lesser Performing of Two Equity Indices, Due September 30, 2022 Royal Bank of Canada

SUMMARY

Record Dates:

The information in this "Summary" section is qualified by the more detailed information set forth in this terms supplement, the prospectus supplement, the prospectus supplement, and the prospectus.

This terms supplement relates to an offering of Issuer Callable Contingent Coupon

General: Barrier Notes (the "Notes") linked to the lesser performing of three equity indices (the

"Reference Indices").

Issuer: Royal Bank of Canada ("Royal Bank")

Issue: Senior Global Medium-Term Notes, Series H

Trade Date: October 22, 2018
Issue Date: October 25, 2018

Denominations: Minimum denomination of \$1,000, and integral multiples of \$1,000 thereafter.

Designated Currency: U.S. Dollars

We will pay you a Contingent Coupon during the term of the Notes, periodically in arrears on each Coupon Payment Date, under the conditions described below:

If the closing level of each Reference Index is greater than or equal to its Coupon Barrier on the applicable Observation Date, we will pay the Contingent Coupon

applicable to that Observation Date.

Contingent Coupon:

If the closing level of either of the Reference Indices is less than its Coupon

Barrier on the applicable Observation Date, we will not pay you the Contingent Coupon

applicable to that Observation Date.

You may not receive a Contingent Coupon for one or more quarterly periods during the

term of the Notes.

Contingent Coupon Rate: 9.90% per annum (2.475% per quarter)

Observation Dates: Quarterly on January 22, 2019, April 22, 2019, July 22, 2019, October 22, 2019,

January 22, 2020, April 22, 2020, July 22, 2020 and the Valuation Date.

The Contingent Coupon, if applicable, will be paid quarterly on January 25, 2019, April

Coupon Payment Dates: 25, 2019, July 25, 2019, October 25, 2019, January 27, 2020, April 27, 2020, July 27,

2020 and the Maturity Date.

The record date for each Coupon Payment Date will be the date one business day prior

to that scheduled Coupon Payment Date; provided, however, that any Contingent

Coupon payable at maturity or upon a call will be payable to the person to whom the

payment at maturity or upon the call, as the case may be, will be payable.

The Notes may be called at our discretion starting on January 22, 2019 or on any

Call Feature: Coupon Payment Date thereafter, if we send written notice to the trustee at least three

business days prior to that Coupon Payment Date.

If the Notes are called, then, on the applicable Coupon Payment Date, for each \$1,000

Payment if Called: principal amount, you will receive \$1,000 plus the Contingent Coupon otherwise due on

that Coupon Payment Date (if payable).

Valuation Date: October 22, 2020 Maturity Date: October 27, 2020

Initial Level: For each Reference Index, its closing level on the Trade Date.

Final Level: For each Reference Index, its closing level on the Valuation Date.

Trigger Level For each Reference Index, 65.00% of its Initial Level.

Coupon Barrier: For each Reference Index, 70.00% of its Initial Level.

If the Notes are not previously called, we will pay you at maturity an amount based on

the Final Level of the Lesser Performing Reference Index:

Payment at Maturity (if not previously called and held to maturity):

· If the Final Level of the Lesser Performing Reference Index is greater than or equal to its Trigger Level, we will pay you a cash payment equal to the principal amount plus the Contingent Coupon due on the Maturity Date (if payable).

If the Final Level of the Lesser Performing Reference Index is below its Trigger Level, you will receive at maturity, for each \$1,000 in principal amount, a cash payment equal to:

P-2 RBC Capital Markets, LLC

Issuer Callable Contingent Coupon Barrier Notes Linked to the Lesser Performing of Two Equity Indices, Due September 30, 2022 Royal Bank of Canada

\$1,000 + (\$1,000 x Underlying Return of the Lesser Performing Reference Index)

The amount of cash that you receive will be less than your principal amount, if anything, resulting in a loss that is proportionate to the decline of the Lesser Performing Reference Index from the Trade Date to the Valuation Date.

Investors in the Notes could lose some or all of their principal amount if the Final Level of the Lesser Performing Reference Index is below its Trigger Level.

With respect to each Reference Index:

Underlying Final Level – Initial Level Return:

Initial Level

Lesser Performing

The Reference Index with the lowest Underlying Return. Reference

Market Disruption

Events:

Index:

The occurrence of a market disruption event (or a non-trading day) as to either of the Reference Indices will result in the postponement of an Observation Date or the Valuation Date as to that Reference Index, as described in the product prospectus supplement, but not to any non-affected

Reference Index.

Calculation Agent:

RBC Capital Markets, LLC ("RBCCM")

By purchasing a Note, each holder agrees (in the absence of a change in law, an administrative determination or a judicial ruling to the contrary) to treat the Notes as a callable pre-paid cash-settled contingent income-bearing derivative contract linked to the Reference Indices for U.S.

federal income tax purposes. However, the U.S. federal income tax consequences of your

U.S. Tax Treatment: investment in the Notes are uncertain and the Internal Revenue Service could assert that the Notes should be taxed in a manner that is different from that described in the preceding sentence. Please see the section below, "Supplemental Discussion of U.S. Federal Income Tax Consequences," and the discussion (including the opinion of our counsel Morrison & Foerster LLP) in the product prospectus supplement dated September 10, 2018 under "Supplemental Discussion of U.S. Federal

Income Tax Consequences," which apply to the Notes.

Secondary Market:

Settlement:

the Master

RBCCM (or one of its affiliates), though not obligated to do so, may maintain a secondary market in the Notes after the Issue Date. The amount that you may receive upon sale of your Notes prior to

maturity may be less than the principal amount.

Listing: The Notes will not be listed on any securities exchange.

> DTC global (including through its indirect participants Euroclear and Clearstream, Luxembourg as described under "Description of Debt Securities—Ownership and Book-Entry Issuance" in the

prospectus dated September 7, 2018).

ADDITIONAL TERMS OF YOUR NOTES

You should read this terms supplement together with the prospectus dated September 7, 2018, as supplemented by the prospectus supplement dated September 10, 2018, relating to our Senior Global Medium-Term Notes, Series H, of which these Notes are a part. Capitalized terms used but not defined in this terms supplement will have the meanings given to them in the product prospectus supplement. In the event of any conflict, this terms supplement will control. The Notes vary from the terms described in the product prospectus supplement in several important ways. You should read this terms supplement carefully. This terms supplement, together with the documents listed below, contains the terms of the Notes and supersedes all prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, brochures or other educational materials of ours. You should carefully consider, among other things, the matters set forth in "Risk Factors" in the prospectus supplement dated September 7, 2018 and in the product prospectus supplement dated September 10, 2018, as the Notes involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the Notes. You may access these documents on the Securities and Exchange Commission (the "SEC") website at www.sec.gov as follows (or if that address has changed, by reviewing our filings for the relevant date on the SEC website):

Prospectus dated September 7, 2018:

https://www.sec.gov/Archives/edgar/data/1000275/000121465918005973/196181424b3.htm

Prospectus Supplement dated September 7, 2018:

https://www.sec.gov/Archives/edgar/data/1000275/000121465918005975/f97180424b3.htm

Product Prospectus Supplement dated September 10, 2018:

https://www.sec.gov/Archives/edgar/data/1000275/000114036118038089/form424b5.htm

Our Central Index Key, or CIK, on the SEC website is 1000275. As used in this terms supplement, "we," "us," or "our" refers to Royal Bank of Canada.

Royal Bank of Canada has filed a registration statement (including a product prospectus supplement, a prospectus supplement, and a prospectus) with the SEC for the offering to which this terms supplement relates. Before you invest, you should read those documents and the other documents relating to this offering that we have filed with the SEC for more complete information about us and this offering. You may obtain these documents without cost by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, Royal Bank of Canada, any agent or any dealer participating in this offering will arrange to send you the product prospectus supplement, the prospectus supplement and the prospectus if you so request by calling toll-free at 1-877-688-2301.

P-4 RBC Capital Markets, LLC

Issuer Callable Contingent Coupon Barrier Notes Linked to the Lesser Performing of Two Equity Indices, Due September 30, 2022 Royal Bank of Canada

HYPOTHETICAL EXAMPLES

The table set out below is included for illustration purposes only. The table illustrates the Payment at Maturity of the Notes (including the final Contingent Coupon, if payable) for a hypothetical range of performance for the Lesser Performing Reference Index, assuming the following terms and that the Notes are not called prior to maturity:

Hypothetical Initial Level (for each Reference Index): 1,000.00*

Hypothetical Trigger Level (for each Reference Index): 650.00, which is 65.00% of the hypothetical Initial Level Hypothetical Coupon Barrier (for each Reference Index): 700.00, which is 70.00% of the hypothetical Initial Level

Contingent Coupon Rate: 9.90% per annum (or 2.475% per quarter)

Contingent Coupon Amount: \$24.75 per quarter Principal Amount: \$1,000 per Note

* The hypothetical Initial Level of 1,000.00 used in the examples below has been chosen for illustrative purposes only and does not represent the actual Initial Level of any Reference Index. The actual Initial Levels for each Reference Index are set forth on the cover page of this terms supplement. We make no representation or warranty as to which of the Reference Indices will be the Lesser Performing Reference Index. It is possible that the Final Level of each Reference Index will be less than its Initial Level.

Hypothetical Final Levels of the Lesser Performing Reference Index are shown in the first column on the left. The second column shows the Payment at Maturity for a range of Final Levels on the Valuation Date. The third column shows the amount of cash to be paid on the Notes per \$1,000 in principal amount. If the Notes are called prior to maturity, the hypothetical examples below will not be relevant, and you will receive on the applicable Coupon Payment Date, for each \$1,000 principal amount, \$1,000 plus the Contingent Coupon otherwise due on the Notes (if payable).

Hypothetical Final Level of the Lesser	Payment at Maturity as Percentage	Cash Payment Amount per \$1,000	
Performing Reference Index	of Principal Amount	in Principal Amount	
1,300.00	102.475%*	\$1,024.75*	
1,250.00	102.475%*	\$1,024.75*	
1,100.00	102.475%*	\$1,024.75*	
1,000.00	102.475%*	\$1,024.75*	
900.00	102.475%*	\$1,024.75*	
800.00	102.475%*	\$1,024.75*	
750.00	102.475%*	\$1,024.75*	
700.00	102.475%*	\$1,024.75*	
699.90	100.00%*	\$1,000.00*	
650.00	100.00%	\$1,000.00	
649.90	64.99%	\$649.90	
600.00	60.00%	\$600.00	
500.00	50.00%	\$500.00	
400.00	40.00%	\$400.00	
250.00	25.00%	\$250.00	
0.00	0.00%	\$0.00	
*Including the final Contingent Course if neverble			

^{*}Including the final Contingent Coupon, if payable.

P-5 RBC Capital Markets, LLC

Issuer Callable Contingent Coupon Barrier Notes Linked to the Lesser Performing of Two Equity Indices, Due September 30, 2022 Royal Bank of Canada

Hypothetical Examples of Amounts Payable at Maturity

The following hypothetical examples illustrate how the payments at maturity set forth in the table above are calculated, assuming the Notes have not been called.

Example 1: The level of the Lesser Performing Reference Index increases by 25% from the Initial Level of 1,000.00 to its Final Level of 1,250.00. Because the Final Level of the Lesser Performing Reference Index is greater than its Trigger Level and Coupon Barrier, the investor receives at maturity, in addition to the final Contingent Coupon otherwise due on the Notes, a cash payment of \$1,000 per Note, despite the 25% appreciation in the level of the Lesser Performing Reference Index.

Example 2: The level of the Lesser Performing Reference Index decreases by 20% from the Initial Level of 1,000.00 to its Final Level of 800.00. Because the Final Level of the Lesser Performing Reference Index is greater than its Trigger Level and Coupon Barrier, the investor receives at maturity, in addition to the final Contingent Coupon otherwise due on the Notes, a cash payment of \$1,000 per Note, despite the 20% decline in the level of the Lesser Performing Reference Index.

Example 3: The level of the Lesser Performing Reference Index decreases by 33% from the Initial Level of 1,000.00 to its Final Level of 670.00. Because the Final Level of the Lesser Performing Reference Index is greater than its Trigger Level, the investor receives at maturity, a cash payment of \$1,000 per Note, despite the decline in the level of the Lesser Performing Reference Index. However, because the Final Level of the Lesser Performing Reference Index is less than its Coupon Barrier, the final Contingent Coupon is not payable.

Example 4: The level of the Lesser Performing Reference Index decreases by 50% from the Initial Level of 1,000.00 to its Final Level of 500.00, which is less than its Trigger Level. Because the Final Level of the Lesser Performing Reference Index is less than its Trigger Level and Coupon Barrier, the final Contingent Coupon will not be payable on the Maturity Date, and we will pay only \$500.00 for each \$1,000 in the principal amount of the Notes, calculated as follows:

Principal Amount + (Principal Amount x Underlying Return of the Lesser Performing Reference Index) = $\$1,000 + (\$1,000 \times -50.00\%) = \$1,000 - \$500.00 = \500.00

The Payments at Maturity shown above are entirely hypothetical; they are based on levels of the Reference Indices that may not be achieved on the Valuation Date and on assumptions that may prove to be erroneous. The actual market value of your Notes on the Maturity Date or at any other time, including any time you may wish to sell your Notes, may bear little relation to the hypothetical Payments at Maturity shown above, and those amounts should not be viewed as an indication of the financial return on an investment in the Notes or on an investment in the securities included in any Reference Index.

P-6 RBC Capital Markets, LLC

Issuer Callable Contingent Coupon Barrier Notes Linked to the Lesser Performing of Two Equity Indices, Due September 30, 2022 Royal Bank of Canada

SELECTED RISK CONSIDERATIONS

An investment in the Notes involves significant risks. Investing in the Notes is not equivalent to investing directly in the Reference Indices. These risks are explained in more detail in the section "Risk Factors" in the product prospectus supplement. In addition to the risks described in the prospectus supplement and the product prospectus supplement, you should consider the following:

Principal at Risk — Investors in the Notes could lose all or a substantial portion of their principal amount if there is a decline in the level of the Lesser Performing Reference Index between the Trade Date and the Valuation Date. If the Notes are not called and the Final Level of the Lesser Performing Reference Index on the Valuation Date is less than its Trigger Level, the amount of cash that you receive at maturity will represent a loss of your principal that is proportionate to the decline in the closing level of the Lesser Performing Reference Index from the Trade Date to the Valuation Date. Any Contingent Coupons received on the Notes prior to the Maturity Date may not be sufficient to compensate for any such loss.

The Notes Are Subject to an Issuer Call — We may call the Notes at our discretion on any Coupon Payment Date beginning in January 2019. If the Notes are called, then, on the applicable Coupon Payment Date, for each \$1,000 in principal amount, you will receive \$1,000 plus the Contingent Coupon otherwise due on the applicable Coupon Payment Date. You will not receive any Contingent Coupons after that payment. You may be unable to reinvest your proceeds from the call in an investment with a return that is as high as the return on the Notes would have been if they had not been called. We are more likely to call the Notes if we anticipate that the yield on the Notes will exceed that payable on our conventional debt securities.

You May Not Receive Any Contingent Coupons — We will not necessarily make any coupon payments on the Notes. If the closing level of either of the Reference Indices on an Observation Date is less than its Coupon Barrier, we will not pay you the Contingent Coupon applicable to that Observation Date. If the closing level of either of the Reference Indices is less than its Coupon Barrier on each of the Observation Dates and on the Valuation Date, we will not pay you any Contingent Coupons during the term of, and you will not receive a positive return on your Notes. Generally, this non-payment of the Contingent Coupon coincides with a period of greater risk of principal loss on your Notes. Accordingly, if we do not pay the Contingent Coupon on the Maturity Date, you will also incur a loss of principal if the Final Level of the Lesser Performing Reference Index is less than its Trigger Level.

The Notes Are Linked to the Lesser Performing Reference Index, Even if the Other Reference Index Performs Better — If either of the Reference Indices has a Final Level that is less than its Trigger Level, your return will be linked to the lesser performing of the three Reference Indices. Even if the Final Level of the other Reference Index has increased compared to its Initial Level, or has experienced a decrease that is less than that of the Lesser Performing Reference Index, your return will only be determined by reference to the performance of the Lesser Performing Reference Index, regardless of the performance of the other Reference Index.

Your Payment on the Notes Will Be Determined by Reference to Each Reference Index Individually, Not to a Basket, and the Payment at Maturity Will Be Based on the Performance of the Lesser Performing Reference Index — The Payment at Maturity will be determined only by reference to the performance of the Lesser Performing Reference Index, regardless of the performance of the other Reference Index. The Notes are not linked to a weighted basket, in which the risk may be mitigated and diversified among each of the basket components. For example, in the case of notes linked to a weighted basket, the return would depend on the weighted aggregate performance of the basket components reflected as the basket return. As a result, the depreciation of one basket component could be mitigated by the appreciation of the other basket components, as scaled by the weighting of that basket component. However, in the case of the Notes, the individual performance of each of the Reference Indices would not be combined, and the depreciation of one Reference Index would not be mitigated by any appreciation of the other Reference Indices. Instead, your return will depend solely on the Final Level of the Lesser Performing Reference

Index.

The Call Feature and the Contingent Coupon Feature Limit Your Potential Return — The return potential of the Notes is limited to the pre-specified Contingent Coupon Rate, regardless of the appreciation of the Reference Indices. In addition, the total return on the Notes will vary based on the number of Observation Dates on which the Contingent Coupon becomes payable prior to maturity or an issuer call. Further, if the Notes are called due to the Call Feature, you will not receive any Contingent Coupons or any other payment in respect of any Observation Dates after the applicable Coupon Payment Date. Since the Notes could be called as early as January 2019, the total return on the Notes could be minimal. If the Notes are not called, you may be subject to the full downside performance of the Lesser Performing Reference Index even though your potential return is limited to the Contingent Coupon Rate. As a result, the return on an investment in the Notes could be less than the return on a direct investment in securities included in the Reference Indices.

P-7 RBC Capital Markets, LLC

Issuer Callable Contingent Coupon Barrier Notes Linked to the Lesser Performing of Two Equity Indices, Due September 30, 2022 Royal Bank of Canada

Your Return May Be Lower than the Return on a Conventional Debt Security of Comparable Maturity — The return that you will receive on the Notes, which could be negative, may be less than the return you could earn on other investments. Even if your return is positive, your return may be less than the return you would earn if you bought a conventional senior interest bearing debt security of Royal Bank.

Payments on the Notes Are Subject to Our Credit Risk, and Changes in Our Credit Ratings Are Expected to Affect the Market Value of the Notes — The Notes are our senior unsecured debt securities. As a result, your receipt of any Contingent Coupons, if payable, and the amount due on any relevant payment date is dependent upon our ability to repay its obligations on the applicable payment dates. This will be the case even if the levels of the Reference Indices increase after the Trade Date. No assurance can be given as to what our financial condition will be at any time during the term of the Notes.

There May Not Be an Active Trading Market for the Notes-Sales in the Secondary Market May Result in Significant Losses — There may be little or no secondary market for the Notes. The Notes will not be listed on any securities exchange. RBCCM and our other affiliates may make a market for the Notes; however, they are not required to do so. RBCCM or any other affiliate of ours may stop any market-making activities at any time. Even if a secondary market for the Notes develops, it may not provide significant liquidity or trade at prices advantageous to you. We expect that transaction costs in any secondary market would be high. As a result, the difference between bid and asked prices for your Notes in any secondary market could be substantial.
